Nicole: And then he was brought back to life as a Heartless during the battle with that fucked up freak Gill Moss and he took him in as his son. But we killed him again and sent him into the River of Fire forever.

Dr. Langstrom: I'm glad Luther is gone.

Luan: How about we kill Roland the same way we killed his brother?

Stacy: Meaning?

Luan: The firing squad kills him.

Me: Good thinking Luan. We're gonna expose his crimes to the world like we did to Luther. But we should also send out word about what Albert Paradigm is doing as well.

Vixen: Wait. Didn't a dart like that turn Selina into a cat before?

Me: Yes it did and Batman defeated Dorian once before.

Drag Strip: I wonder what Roland's gene slammed form is.

Me: We don't even know if he has one like his brother did. Dr. Langstrom, do you know where Dorian lives?

Dr. Langstrom: Yeah. He lives on an island off the coast after people were protesting about his inhumane experiments.

He showed us a map of where his island is and it was located next to Florida. We were off to the island of Emile Dorian.

## ISLAND OF EMILE DORIAN

We arrived at the island of Dr. Emile Dorian and we were right outside of his fortress. We were hiding in the trees and the bushes outside his castle.

We went undercover as gene-slammers disguised as bushes.

We went into his fortress and we went into

Eddy: (We disguised ourselves using bushes and tree branches) Take it easy, Tygrus. We're gene slammed experiments like you. We're here for the surprise party.

Tygrus: What surprise party?

Eddy: You know, to honor Roland Paradigm. But don't tell anyone. It's a surprise.

Tygrus: (shrugs) Ok.

We went into the fortress.

Emile Dorian was hard at work on a project. But then he saw a cassette tape on the table.

Emile Dorian: I don't know who left this Microcassette Recorder. But it's their loss.

Suddenly, the Microcassette Recorder turned into Soundwave, who ejected Ruumble and Frenzy.

Rumble: Don 't you know that playing mad scientist…

Frenzy: Can be hazardous…

Soundwave: To your health? (fires blaster at the door, revealing us)

Lincoln: We were going to blast the door open.

Rumble: Well, you can say that we opened the door for you. You're welcome.

We appeared and we saw DR. ROLAND PARADIGM AND DR. EMILE DORIAN!

Me: Dr. Emile Dorian and Dr. Roland Paradigm! So we meet at last.

Tygrus: (walks in) Where's the party?

Me: There is no party. We're here to kill Dorian and arrest Dr.

Roland Paradigm for crimes against all of nature!

Laney: That's right! Dr. Roland Paradigm ruined so many lives.

Qin: He turned me into a Komodo Dragon!

Tanya: He gave me sapphire crystal wings and awesome crystal powers.

Nicole Pottor: He turned me into a Cheetah!

Me: And his brothers ruined the lives of so many innocent people and stole their humanity.

Olga: That's right!

Vina: (Russian Accent) He will pay for everything!

Dr. Roland Paradigm: But don't you like being slammed?

Qin: We didn't ask for this!

Me: And now you dumb scientists are gonna pay for your crimes in blood!

Nico: Dr. Emile Dorian and Dr. Roland Paradigm, you two have failed this universe!

Me: And the next life. You fucked up lunatics are going down!

We went at them! I punched Dr. Dorian and we pulverized them both ferociously and we blasted and blew them away.

Luan: You give all scientists everywhere a bad name! It's no wonder you're INSANE! (Laughs) Get it? But seriously, we're going to kill you!

Catwoman (to Dorian): Don't worry. I'll make sure your death is quick and painless.

Catwoman grabbed Dr. Dorian's neck and ripped it out with her bare hands. He died in seconds. Blood was pouring out all over the place.

I punched Dr. Roland Paradigm in the face and knocked out his teeth and then he got mad. Then he surprised us by turned into a spider! He was now half human, half Brazilian Wandering Spider! He had 8 spider legs sprouting out of his back, his skin was brown and he had 6 more eyes and deadly fangs dripping with venom! He was now known as Dr. Spidernoid!

Me: WHAT THE FUCK!?

Dr. Spidernoid: **I HATE YOU ALL SO MUCH!**

Our auras flared up with incredible intensity!

Me: You're Half Brazilian Wandering Spider! The most venomous spider in the world!

Leni: (SCREAMING) SPIDER!

Leni took a hammer and was smashing his brains out!

POW! POW! POW! POW! POW! SMASH! SMASH! SMASH! SMASH! SMASH! SMASH! SMASH! SMASH!

Lincoln and Olga fired a powerful blast of lightning and they electrocuted Dr. Spidernoid with over 500 quintillion volts of electricity.

Tanya: You make me sick uncle! You turned numerous people into animal creatures all for your own selfish purposes. You turned numerous people into monsters!

Me: Lets show him some teamwork!

Lori: Lets do it!

John: Lets do it Lori!

Lori fired a massive blast of Wind and John fired a massive blast of water!

Lori and John: SUPERSTORM GREAT WHITE SHARKBITE!

The blasts combined and turned into a Great White Shark made of storm clouds and it chomped on Dr. Spidernoid and he screamed in pain.

Leni fired a powerful blast of Gravity Beams and Clint fired a powerful blast of wind.

Leni and Clint: GRAVITY HAMMERHEAD SMASHBUTT!

Leni and Clint's blasts combined and they turned into a hammerhead shark made of pure energy and wind and it slammed into Spidernoid and exploded.

KRABBBBOOOOOOOOOOOOOOOMMMMM!

Luna: You make me sick dude!

Luna fired a powerful blast of water and Bobby fired a massive blast of water.

Luna and Bobby B.: MEGATSUNAMI BODYSLAM IMPACT!

Their blasts turned into a powerful wave of water and it slammed into him with devastating force!

Luan fired a powerful blast of light and Stacy fired a powerful blast of lightning.

Luan and Stacy: LIGHTSTORM BALL LIGHTNING ELECTRIC BURST!

The blasts combined and a massive ball lightning blast formed and it hit him and electrocuted him with 500 quadrillion volts of electricity.

Lynn fired a powerful blast of lava.

Coop: SEISMIC SLAM! 9.5!

He slammed the ground with devastating force and an earthquake shook the island.

Lynn and Coop: VOLCANIC FISSURE INCINERATE!

The lava and fissure formed a powerful fissure eruption and burned him all over.

Harry Potter: (British Accent) You will pay for your crimes.

Harry Potter fired a blast of red magic from his hand and Nick Russel fired a massive blast of red magic.

Harry Potter and Nick Russel: PHOENIX DEATHRAY BURST!

The blasts combined and turned into a powerful phoenix and it slammed into Spidernoid and exploded.

Drag Strip: Lets do it! CYBER KEY POWER!

The Earth Cyber Planet Key went into his back and enhanced his plasma energy blaster 100-fold.

Arixam: Lets get him! ANIMATRON CYBER KEY POWER!

The Animatron Cyber Planet Key went into Arixam's Right arm device and she had Snarl's tail sword appear.

Drag Strip and Arixam: SUPERTYPHOON MAELSTROM SWORD SLASH!

Arixam channeled water into the sword and Drag Strip fired a blast of lightning at it and it merged with it and it emitted the loud roar of a powerful supertyphoon. She slashed Dr. Spidernoid and he exploded.

KRABBBOOOOOOOOMMM!

Red Alert: Time for you to experience the power of the Autobots. CYBER KEY POWER!

The Autobot Cyber Planet Key went into his rocket launcher on his shoulder and it turned into a powerful plasma cannon.

Vixen: You will pay for your crimes against the animal kingdom! ANIMATRON CYBER KEY POWER!

The Animatron Cyber Planet Key went into her right arm device and it enhanced her powers 100-fold.

Red Alert and Vixen: PLASMA SUPERANIMAL SLAM!

Vixen activated the strength of an elephant and she slammed into Spidernoid and knocked him down and Red Alert fired a powerful red energy blast from his cannon and it hit Spidernoid and exploded.

KRABBBOOOOOOOOOOOMMMMMM!

Me: Now you will pay for your crimes Paradigm!

Yugito: This is for all the pain you caused! (Echoing) **CAT FIRE BOWL!**

Yugito elbows Dr. Spidernoid and begans spinning, and she turned into Matatabi. Clawing forward, she sent out several fireballs, which converged onto him, resulting in an explosion.

KRABBBBOOOOOOOOOOOOOOOOOOOOOOOOOMMMMM!

Me: Wow! What power!

Qin: This is for ruining my life three years ago! KOMODO DRAGON SPIRIT FLAME!

Qin fired a powerful blast of fire and it slammed into Spidernoid and burned him in a tremendous explosion!

KRABBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOMMMMMM!

Tanya: This is for using me in your insane experiments! CRYSTAL SHARD SHRAPNEL!

Tanya fired a bunch of crystal shards and they skewered him!

Luan: You are no scientist! You are nothing but an insane fucked up nut! RAINBOW DEATHRAY BLAST!

Luan fired a powerful blast of rainbow light and it went all the way through his shoulder and burned him!

Catwoman: And this is for hurting numerous peoples lives! SUPERSLASH CAT STORM!

Catwoman spread her claws and slashed him all over the place!

We arrested Dr. Roland Paradigm.

Nico caught a Lycanroc and Wishiwashi during the battle.

Catwoman: (To the viewers) Anyone that messes with the laws of nature will die a horrible and agonizing death.

Me: Yep.

---

We revealed to the world everything that Dr. Roland Paradigm did and he was found guilty of his crimes and sentenced to death. We had him executed by firing squad.

Jack Spicer came in and saw the mess.

Spicer saw the corpse of Dorian on the ground.

Spicer: My God. (calls the Xiaolin Monks) What have you guys done?!

Clay: Spicer, I know what you're gonna say. But just hear us out.

Spicer: Fine.

Kimiko: Sometimes, the system works. But there are times when it doesn't. And to us, that's unacceptable. Some people put their trust in fate or karma. But we can only put our trust in ourselves.

Spicer: You're just killing bad guys left and right. You guys can't do that!

Raimundo: Well, it turns out we can. And you know what? We like it. We made sure that Dorian couldn't kill anyone else.

Spicer: I know things between us haven't been good. But I still respect you guys. Don't lose yourselves just because you morons hate criminals now.

Omi: You do what you must do. We will do what we must do. Goodbye, Jack Spicer. (hangs up)

?: I guess we know what's gonna happen to you once the Xiaolin morons find you.

Spicer saw his reflection. But it had red eyes.

Spicer: That's not gonna happen. J.D. knows that there's good in me.

Dark Spicer: But he might change his mind. And when that happens, you'll be in the Book of Vile Darkness for the rest of Eternity. Face it. I'm the only one you have. And Captain Cold and his gang of Rogues can't keep your location a secret forever.

Spicer: Just leave me alone, alright?!

Dark Spicer: Ok. But don't say I didn't warn you.

Spicer's reflection then went back to normal.

Spicer will come to us when ready.

Tygrus now lives on the island all by himself. But one day he will come to us for a new home.

THE END

Another Fanfiction complete and 2 more mad scientists dead.

Dr. Emile Dorian was a one time villain on Batman the Animated Series. Now he and Dr. Roland Paradigm are dead. NicoChan11 gave me the ideas for this one. Thanks man. Let me know what you all think.

See you all next time.

# A Bad Street Girl Bounty Hunter

In Paleozoic World we were stopping a rampaging Tyrannosaurus Rex from hurting a bunch of people.

It was causing a lot of fear and panic.

Double D, in his Iron Boy armor, just used the Stasis Blaster Stewie lent him to paralyze the rampaging T Rex.

G1 Inferno: Man, you really nailed him!

Iron Boy: I didn't have a choice. He was going to destroy a nest full of baby birds (approaches the T Rex)

Tori Hanson: You better take care of him. He could come out of that.

Iron Boy: I think we'll be alright for (sees a large wooden spike in the T Rex's foot) Hello! (contacts Stewie) Stewie, we've got a medical situation. A large wooden spike is wedged in the T Rex's foot.

Stewie: Alright, listen up. Set the stasis beam to about sixty percent and adjust the beam to its most narrow focus. Now, give three pulses on the spike and pull that sucker out.

Me: He's got a wooden spike in his foot like a lion that has a thorn in his paw. I got this.

I pulled it out and the T-Rex got up and she saw me with the spike and it was all better. It purred and licked me all over the place and it went back to her paddock. I was covered in Tyrannosaurus drool.

Me: Yuck!

Laney: That was good thinking J.D.

Lana: That was so cool!

Me: Thanks guys.

Edd: That was good work J.D.

Me: Thanks Double D. I got to go shower and wash this drool off.

I went back home to wash.

Nico: Double D, I'm picking up the life signal of Ben's most notorious enemy Argit.

Double D: Argit's life signal is coming from New Tech City.

Z Delgado: I know where it's coming from. That's near Piggy's place.

Double D: We should take the spare Javelin that we brought with us and investigate.

Vida Rocca: Say what now?

Double D: We have handcuffs, a stasis gun, and a means of transportation. What more do we need?

James: How about some common sense? Kevin said that as weak as Argit is, he can be difficult to catch. We should wait for the others.

James' Cacnea (nods): Cacnea!

Double D: I guess you're right.

A few minutes later, the rest of Double D's group were walking away from the ship.

Webby: I got to admit you had me going there, Double D. But then again, I know it's not your style to do something crazy like going after Argit all by your- (the spare Javelin flies off)-self!

Double D was doing something crazy!

Nico: J.D., we got big problems!

Double D was flying in space after Argit.

We caught up to him.

Motormaster: Double D. Exactly what crazy thoughts are going on through your mind right now?!

Iron Boy: I pinpointed a life signal. It's coming in a warehouse near Piggy's place. It confirms my theory. Argit must be here.

Maria: That's no reason for you to go after him on your own!

Nivo: Remember what I always say. Never fight alone!

Eddy: Turn that ship around now!

Double D: With all due respect, this is an ideal reconnaissance mission for someone with protective armor.

Eddy: You misunderstand me. That wasn't a request. What the hell's going on with you, Sockhead? This isn't like you!

Thundercracker: I've seen it before. A guy gets a new weapon and suddenly, he feels like he's unstoppable.

Iron Boy: Guys (fake static noice) can't hear you. There (fake static noise) must be interference in (fake static noise) Gotta go! (hangs up)

Kevin Levin: Reminds of something that I would do.

Me: No kidding Kevin. What is the story about Argit? What makes him that Slippery?

Kevin Levin revealed to us about how dangerous and treacherous Argit was.

---

Argit reappeared in Andreas' Fault, Argit became the Forever King of a group of the Forever Knights in exchange for not having Andreas destroy their bases. Argit had first found Andreas after he and the other four aliens had crash-landed on Earth, where Argit helped and developed a good "friendship" with him, but when a high-ranking Forever Knights special agent named Sir Dagonet showed up, Argit tried to sell Andreas out only to be locked away to be 'inquisitioned' alongside Ben's Team after they kill Andreas. After Andreas seemingly died trying to save them from an unstable weapon, Kevin finally broke off his one-sided friendship with Argit, and chewed him off about how badly he had treated Andreas that lead to his alleged death (although Andreas didn't die, he was still severely injured, and Aggregor had little problem capturing him when he found him).

Argit made another appearance in The Enemy of My Enemy once again helping the Vreedle Brothers, who now want to be Plumbers and are in the Plumbers Academy. Their dad has asked Argit to change the Vreedles test scores in order for them to pass but while he works on this mission, Ultimate Kevin is after him and wants to kill him. Gwen and Ben were able to save Argit. However in the end due to 14 warrants out for his arrest and the assault of two of his cadets who are also Plumbers. he is ultimately arrested by the order of Magister Korwak and is seized by the now good Vreedle Brothers.

In The Purge, Argit managed to escape from prison and returns to Earth again, he appears and warns Ben, Gwen, and Kevin that the Forever Knights are targeting the aliens that are living on Earth, as the four of them investigate King Patrick's Castle, he begins to try and take ancient medieval-era treasures only to encounter another Mechanical Dragon. He disappears and after the dragon is defeated, re-appears wearing Forever Knight Armor irately asking them "Can we go now?". Later on at Baumann's Market, he discovers that the Forever Knights were planning on attacking the store as it's the largest gathering for aliens living in Bellwood, prompting the weasel to leave and fend for himself.

In Greetings From Techadon, Argit tells Vulkanus go check if his Techadon Custom job plan works, stating that he would rather see Ben die than having a pre-celebration at the bar; not knowing if Ben is dead or not. As Vulkanus leaves, it is revealed that he was hired by Gwen to find a method to bring Vulkanus to Earth, and was handsomely paid for his efforts upon completion.

---

We were horrified!

Me: So Argit is an intergalactic con man and backstabber.

Kevin Levin: Yep.

Qin: We should just kill him.

Me: No. That would be too easy. He's not worth it. For now lets follow Double D and see what he is doing.

We did so.

Edd found Argit and he was pulverizing him.

Iron Boy (pins Argit down with his foot): Stay down if you know what's good for you.

?: Nice job, kid. But I'll take it from here.

Iron Boy turned to see Rojo wearing her old armor from the Negative 10.

---

Rojo robbed an armorer with her group of bikers, but they were defeated by Ben Tennyson as Four-Arms who later defeated two drones that belong to Vilgax. After the battle, Rojo picks up the remains of one of Vilgax's drones which then merges with the biker. Rojo becomes a cyborg and gains superhuman strength, speed, flight and metal claws. However, Vilgax can contact the biker through the drones' former parts and coerces her into obtaining the Omnitrix for him.

Ben transforms into Upgrade and defeats Rojo by shorting her out and Gwen knocks her unconscious. She was arrested by the police after they arrive.

Rojo was later recruited into Negative 10 and given a new suit by the Forever Knights. She had a rivalry with Charmcaster while in the group. She and other members of the Negative 10 end up trapped in a force field.

In Ultimate Alien, she reorganizes her biker gang to rob a train, only to be defeated by Rath and his allies.

---

Iron Boy: Rojo!

Rojo: Iron Boy, right? Got to hand it to you. I mean when the bounty went out to Argit, I figured it would be a tough hunt. But you just made things easier for me! (fires at Iron Boy)

The blast hit Argit's cuffs and he got away.

Rojo: Well, it's been a blast but I've got to bolt. That's the richest bounty in history getting away!

Rojo hopped inside her ship and took off, not realizing that Iron Boy was flying after it.

We were watching the ship while our cloaking device was engaged.

In Rojo's ship, she was trying to find Argit but with not much success.

Rojo: Where are you, Argit? Where's that good old energy signature of yours?

Iron Boy (appears behind her): You won't find him like that. (Rojo turned around and fired her blaster but Iron Boy activated a shield that he took from her wall) Hope you don't mind me borrowing one of your weapons. But let's not waste time fighting while our quarry's getting away.

Rojo: Wait a minute. Our quarry?

Iron Boy: I know how to track Argit with my armor. But I'll need to use your ship's sensors. So (smirks) partners?

Rojo: You got some guts to be busting in here, I'll give you that. So, you want to play bounty hunter? Then you better be ready to go all the way. (walks to her trophy case) Sure, Argit's a slippery fella. But since you like my gear so much, why not take a few more and do the job right? (throws Iron Boy a new helmet) That is, if you're man enough to use them.

The helmet looked like a predator helmet but with a powerful laser targeting system inside and the blaster looked like an awesome interstellar plasma rifle.

Iron Boy (helmet reveals his face): Whatever it takes to get the job done.

What Double D didn't know is that he stuck a transmitter bug on her.

Ben: I know that voice. That's Rojo.

Me: Rojo? You know her Ben?

Gwen T.: Know her? She's one of our most dangerous enemies and she was one of the bad guys that always tries to kill us.

Me: Bad news.

Frightwig: She was one of my teammates when we were on the Negative 10.

Ben: Yeah. She's really dangerous.

Me: Sounds like it.

We followed Rojo around.

Rojo (impressed by how Iron Boy took down Argit): You know, you remind me of someone. Oh yeah. Me. (activates commmunicator to show Supergiant's face) Rojo to Supergiant.

Iron Boy (shocked): Supergiant? That means you're working for Thanos!

Rojo: Not really working for Thanos. Just doing errands for him. I mean, who do you think issued that bounty. The Plumbers?

Supergiant: Rojo. I should have known you would be going after Argit.

Rojo: Then I hope you're ready to fork over that bounty because I got your dirtbag right here.

Supergiant: Where can we meet?

Rojo: There's a big abandoned warehouse in New Tech City that I like. I'm sending the coordinates now.

Argit (scared): Don't take me to Supergiant. Please! Anything but Supergiant!

Iron Boy (aims stasis beam at Rojo): Don't worry. You're not going to Supergiant.

Rojo fired a bola at Iron Boy, tying him up and making him fall on the road.

Rojo: Oh yeah, he is. Supergiant's boss Thanos pays better than the Plumbers or the Nova Corps. Soon as I get back with my reward, you and I are gonna to have a little heart to heart. (rides away on her bike with a screaming Argit)

We heard it.

Me: Supergiant!? I can't believe she's working for Thanos!

Gamera: I think we've heard all we needed to hear.

We followed Rojo and grabbed Rojo's ship with our tractor beam and pulled it inside our space dock.

Superman used his heat vision to melt through the bola, freeing Iron Boy.

T.K.: You're lucky we could trace your energy signature.

Iron Boy: If we hurry, we can catch Rojo and Argit.

Superman: Now you're going after two villains? What's gotten into you lately?

Wheeljack (notices Iron Boy's new look): I'll tell you what's gotten into him. Weapons and upgrades!

Iron Boy: I'm just doing what's necessary to bring Argit in and keep everyone safe, like we always do. (flies off with us flying and driving after him)

Pegasusmon (sees Iron Boy's new arm spikes): Exactly how necessary are those arm spikes?

Iron Boy: Not the point. You guys might not have noticed but the bad guys are getting more smarter and powerful then us each day. If you want to play with the big boys, you got to be big.

Gwen Tennyson: Now you're starting to sound just like Rojo.

Stewie: It's my fault for lending you that Stasis Blaster. I thought you could handle the responsibility.

Iron Boy: I can handle the responsibility. If you can see what I can do with these weapons.

Jetray (see Techadon robots): Looks like you're gonna get your chance. Techadons up ahead!

Me: I see them!

We fired at them and destroyed them.

Rojo: What the!?

We fired our lasers at Rojo and she went plummeting into the planets atmosphere and she crashed into a warehouse and we followed.

Double D destroyed the Techadon Robots as well.

Flash: Nice work, Mr. Happy weapons! Why didn't you just use the Stasis Blaster?!

Iron Boy (smiles): Where's the fun in that?

Green Lantern (using ring to shield two kids): Well, for starters, you might have done a little less damage to everything around you.

Iron Boy looks at the two shielded kids and the damage that he caused.

Lincoln: Double D, I know we do whatever it takes to keep people safe. But not like this!

Linka: I think it's time to ditch those upgrades.

Iron Boy (ashamed): You're right, guys. And I will. But just as soon as we capture Argit and Rojo.

We went after Rojo and Argit. We arrived in New Tech City which was just in the middle of Gotham Royal York. What a coincidence.

Double D landed by Rojo as she was getting up.

Rojo: How about that heart to heart now, partner? I've been thinking you and I are kindred spirits. Like I said, you got a gift. So how about you ditch those losers and go into business with me?

Iron Boy (thinks very hard about his decision): That's very flattering, Rojo. But I've already got a team. And a family. Playing with your toys may have been fun for a while. But, it's just not me.

Rojo: Aw, don't take it like that.

Iron Boy: But at least I get to use your own gear against you!

Ben: Hello Rojo.

Rojo saw us.

Me: You're under arrest Rojo.

Rojo: So the mighty Team Loud Phoenix Storm is here. And Tennyson's I see that you're now working with them.

Ben: That's right.

Riley: You give all girls everywhere a really bad name!

Lori: Well said Riley. You literally disgust me Rojo. You are Ben's version of Gisele Razor!

Rojo: I heard about her. She was a monster that got a very sick thrill out of making people suffer. She was called the Terror of Michigan. But I'm now like her. I may be a street thug but even I have my limits. Gisele Razor was a Nihilistic Sadomasochist where I am just a street gang leader.

Lori: Oh.

Me: She does have a good point.

Qin: Who is Gisele Razor?

Me: You would hate her Qin. She was the most ruthless girl ever. She was the first ever criminal I busted when I moved here 3 years ago.

I revealed her history and Qin was horrified.

Qin: She was that dangerous!?

Me: She was. And Lori killed her and we sealed her into the Book of Vile Darkness after she incited a Prison Riot on the moon. Then we killed her again as a Heartless on the planet Animatron and sent her into the River of Fire.

Rojo: I'm glad she's gone.

Frightwig: We all are Rojo. She was a monster.

Rojo: Frightwig. It's great to see you again.

Frightwig: You too Rojo. Rojo please. We can help you redeem yourself. You have some good inside you. I know. I can sense it. You just have to surrender and we'll give you a prison cell with Terrance.

Rojo: I know we have our differences Frightwig and I'm glad you're on the right path but it's too late for me.

Frightwig: It's never too late Rojo. I was shown the error of my ways because of what happened to me because of my dark past. The Punisher killed my parents because they were escaped criminals.

Me: It's true Rojo. Do you have any history with your past that made you like this?

Rojo: I don't really know. I was abandoned at birth and dropped off at the orphanage. I have no knowledge of my past and remember anything.

Me: That"s awful Rojo. After our fight with you, maybe I can find out what happened to them and tell you in prison.

Rojo: I would like that.

Me: Lets dance then.

We went at her and I punched her in the stomach and kicked her in the face. Nico kicked her in the stomach and Lola bit her in the arm and so did Lana in her leg.

Ben turned into Jetray!

Ben: JETRAY!

Jetray flew at her and slammed her all over. We thrashed her all over the place.

Nico: Rojo, you have failed this city!

Nico punched her in the stomach.

Me: Teamwork time!

Motormaster: Roger that boss! CYBER KEY POWER!

The Earth Cyber Planet Key went into his back and it enhanced his cyclone gun 100-fold.

James: Lets do it Cacnea! ANIMATRON CYBER KEY POWER!

The Animatron Cyber Planet Key went into his right arm and it enhanced his right arm and it enhanced his Cacnea's abilities 100-fold.

James: Cacnea, use Pin Missile!

Motormaster and James: NEEDLE WIND CYCLONE!

Motormaster fired his Cyclone Gun and Cacnea fired a barrage of energy pins and the blasts combined and they hit Rojo and blew her around and poked her all over.

G1 Inferno: Lets do it! CYBER KEY POWER!

The Autobot Cyber planet Key went into his back and it enhanced his abilities and missiles 100-fold.

Pegasusmon: Ready T.K.?

T.K.: You know I am Pegasusmon! DIGIMON CYBER KEY POWER!

The Digimon Cyber Planet Key went into his right arm device and it enhanced Pegasusmon's powers 100-fold.

Pegasusmon: (Echoing) STAR SHOWER!

Pegasusmon flapped his wings and shooting stars fired out of them.

G1 Inferno and Pegasusmon: SHOOTING STARSTORM BARRAGE!

Inferno fired a bunch of missiles and the Shooting Stars and missiles hit Rojo and they exploded.

KRABBBOOOOOOOOOOOOMMM!

Me: Final Smash time!

Edd: You got it! REPULSOR BEAM FIRESTORM!

Double D fired a massive barrage of repulsor beams and they hit Rojo and exploded.

Jetray: My turn! AEROPHIBIAN LASERSTORM BURST!

Jetray fired a massive barrage of lasers and energy balls and they slammed into Rojo and exploded. She was knocked down.

Double D had his repulsor ready to fire at Rojo.

Rojo (smiles weakly): Go ahead, kid. Do what Tennyson couldn't do. End me. Prove that you and I are the same!

Iron Boy (shuts off his repulsor): No. I'm not sinking to your level. You and I aren't the same. And I'm gonna prove it by throwing you in prison with Mac's brother.

Frightwig: And the only other reason you're ven still alive is because you and I were teammates.

Lynn: Well, looks like two villains are ready to be hauled off to jail.

Lola: But Supergiant got away!

Gamora: She'll get what's coming to her eventually. For now, Rojo and Argit's arrests are enough of a victory for today.

Iron Boy (gives stasis blaster back to Stewie): Thanks for lending me this. But I don't think I'll need it again.

Me: And now for arresting Argit.

I pulled out a special fire S.P.D. morpher that was made for me.

Me: Argit you have been charged with intergalactic theft and illegal sales of stolen property. JUDGEMENT MODE!

I pressed the button and after a couple seconds the red X lit up.

Me: GUILTY!

I fired a containment blast and Argit was put into a containment card.

Argit: LET ME OUTTA HERE!

I picked it up.

Me: You are looking at life in prison.

Edd: (To the viewers) Moral here: Never trust an intergalactic conrat like Argit.

Nico caught a Toxapex and a Mudsdale.

Rojo was sent to the Jupiter Prison and she now shares a cell with Terrance. I looked up Rojo's family history through her blood and found out a startling revelation! Her parents dumped her off at the orphanage because they feared she was like them as major criminals that were wanted for murder! They were executed for capital murder in Florida and she was left all alone. Poor girl. I revealed this information to her and she was shocked. They were criminals but they loved her more than anything and that they were trying to protect her.. She broke down crying and now she knows the awful truth and realizes that everything she did was all wrong.

Me: I'm so sorry Rojo. If there's anything we can do to help.

Rojo: Thank you J.D. At least now I know they loved me. And besides. I found out why Terrance was hurting inside.

Me: Why's that?

Rojo: He's like me but he has problems (Taps her head) Up here.

Me: Like in what kind of way?

Terrance: I am mentally unstable. All I know how to express is anger and that's why I hated Mac. I was jealous.

Me: I understand Terrence. You were fed up with living in Mac's shadow and you wanted him gone. Jealousy is a very dangerous force. You never know what it can do to you.

Terrance: That's true. But it doesn't excuse what I've done to Mac and Bloo.

Me: I know. But at least you're realizing what you've done.

Terrance: And I have the rest of my life to think about it.

Me: I know. Rojo, I hope you find some good in your heart.

Rojo: I already have J.D. Thank you.

Me: No problem. Maybe in 25 years we'll give you a chance.

Rojo: Okay. See you then.

I left.

Another Fanfiction Complete and another Ben 10 Villain brought to jail.

Rojo was the strangest villain I've seen in Ben 10 and she was a powerful street thug. NicoChan11 gave me the ideas for this one. Thanks man. Let me know what you all think.

See you all next time.

# The Bloodthirsty Legendary Super Saiyan

We were over in the city of Angel Grove, California. It was the home of the Power Rangers and they fought all of the evil forces of Rita Repulsa.

Jason Lee Scott: Well, home sweet home.

Me: So this is Angel Grove. It's a really cool place.

Lana: It sure is. It's just like how we saw it on TV.

Laney: It's amazing.

Tori Hanson: The last time me, Adam, Xander, Kira, and Bridge were here, we were on a mission to help out the Operation Overdrive Rangers.

Smokescreen: I've got a feeling that we'll see that Ranger Team soon.

Nico: I have a feeling we will too.

We then arrived at the Angel Grove Youth Center Gym & Juice Bar.

Long Haul: This is where you guys usually hung out?

Tommy Oliver: Yep. We hang out here a lot.

Me: I saw this a lot on TV. You guys made this a frequent place to hang out.

Kimberly: Yep.

We went in and we had really good smoothies.

Mine was pineapple mango.

Me: (Slurps) Mmm. Good smoothie.

Lincoln: The Orange Creamsicle smoothie is good.

Adam: It sure is.

Aisha: The smoothies are amazing.

Miranda drank hers too fast and got a nasty headache!

Miranda: (holds her head in pain) AARGH! IT FEELS LIKE MY HEAD'S ABOUT TO POP!

Me: Drank yours too fast Miranda.

Starfire: You have what's called the Brain Freeze.

Me: Yep. It's what happens when you eat ice cream or cold food too fast.

Then we saw Bulk and Skull, the rangers former blockhead bullies.

Bulk: Tommy.

Tommy: Bulk.

Skull: Never thought I'd see you again, Jason.

Jason: Right back at you, Skull.

The four were tense for a few more seconds before they burst out laughing.

Bulk (hugs Jason and Tommy): I missed you guys!

Kung Fu Panda Mantis (confused): Um… did I miss something?

Me: Bulk and Skull. How nice of you two to show up.

Bulk: Whoa! Team Loud Phoenix Storm!

Skull: I didn't know you were here as well!

Me: We get that a lot.

Lincoln: We like to show up surprisingly.

Bulk: I remember. You guys have done a lot of amazing things.

Me: Tell us something we don't already know.

Later we were at the ruins of the Power Rangers Command Center. It was destroyed in a massive explosion in Power Rangers Zeo. We looked around and found some things that were salvageable and we put them to good use.

---

Back at the estate we were watching TV and playing card games.

Me: Hmm. Master Goku can I ask you a question?

Goku: Sure J.D.

Me: Who was the most powerful foe you've ever faced outside of Cell?

Goku: That's an easy one. That would have to be Broly.

Nico: Broly?

Vegeta: Broly was the Legendary Super Saiyan, Bokrua. He was a saiyan of such incredible power and magnitude.

Me: How powerful was he Master Vegeta?

Vegeta went over his whole history.

---

Broly first appears in the eighth Dragon Ball Z movie Broly - The Legendary Super Saiyan. In it, during the 10 days before the Cell Games a mysterious Saiyan named Paragas approaches Vegeta, and requests that he come and be the ruler of the newly established New Vegeta, a planet for any Saiyans who survived Planet Vegeta's destruction. Paragas then tells him, in order to persuade him, that he needs his help fighting the Legendary Super Saiyan, who had been destroying several planets in the South Galaxy. Vegeta agrees and leaves along with Son Gohan, Trunks, Krillin, Master Roshi, and Oolong.

Once on New Vegeta, Paragas tells them that there has been another attack by the Legendary Super Saiyan, and Vegeta, along with Paragus' son Broly, go to investigate. Meanwhile, Son Goku, who was just told of the destruction in South Galaxy by Kaio, goes to a planet that was attacked, and can sense that a great power was just there. Goku then goes to Planet Vegeta. He meets Broly, who at the very sight of Goku starts powering up, but Paragas soon uses a mind control device to stop his son. Paragas tells Goku of Broly's birth, and how he started out with a power level of 10,000, a level which is considered to be elite among adult Saiyans. Goku, who was in the bed next to Broly, constantly bullied him by crying, preventing him from sleeping and creating an everlasting hatred in the newborn child.

Later, Broly attacks Goku as a restrained Super Saiyan, and is able to best Goku, forcing the hero to flee. Goku then realizes that it was Broly who was the Legendary Super Saiyan all along. Paragas barely manages to get his son under control, and reveals that he wants to make Saiyans the rulers of the Universe, using Earth as their home planet. Broly then goes after Goku, but Vegeta jumps in and tries to fight him. After not even scratching him, the Saiyan prince uses his most powerful attack, the Big Bang Attack. However, even this proves useless against Broly and after the attack, he breaks free of Paragas and turns into a Legendary Super Saiyan. Vegeta falls down in fear, acknowledging Broly's power. Paragas tells the heroes that King Vegeta had betrayed them and ordered the death of Broly as an infant, fearing that Broly would eventually overthrow him. When Paragas asked the tyrant to reconsider, King Vegeta ruthlessly blasted him. Broly was stabbed and he, along with his father were thrown into a hole in the ground. This caused insanity in the young Saiyan. When Planet Vegeta was destroyed by Frieza, Broly was able to protect them with his energy, and Paragas began to plot against the last surviving member of the Saiyan royal family, Prince Vegeta.

Broly continues his rampage, and Goku, realizing he is no match, turns Super Saiyan, along with Trunks and Gohan. Even with their combined forces however, they cannot hold their own. Broly quickly takes out Trunks and Goku. Broly then turns his eyes on Gohan, but Piccolo appears and saves him. Meanwhile, Paragas tries to escape in a space pod, hoping his son will die when a nearby comet hits the planet, but Broly confronts him, having found out about his father's attempt to escape. Paragas tries to bluff his way out of the situation, saying that he is trying to prepare the space pod so both of them can escape the explosion. But Broly knew that the space pod is only built for one person. Having discovered Paragas' intentions and desiring revenge against his father for brainwashing and using him, Broly crushes the space pod and kills Paragas, before effortlessly flinging the crushed space pod into the comet. Piccolo tells everyone to give Goku their power, saying that it would be enough to defeat Broly. Everyone does so quickly, all except Vegeta, whose pride disallows him to help Goku. After Goku is being beaten around by Broly, almost to death, Vegeta finally gives his rival his power. Goku rushes at the Legendary Super Saiyan and strikes him in the gut with a Miracle Blow, puncturing his abdomen. As a result, Broly cries out in pain and astonishment before exploding. He is presumed dead after this.

Broly reappears in the tenth Dragon Ball Z Movie: Broly - Second Coming. In the beginning of the movie, Broly is shown exiting a space pod onto earth, and then freezing. The story starts off with Son Goten, Trunks, and Videl searching for the Dragon Balls. In a small quarrel, Videl slaps Goten, who pretends to cry, which, sounding much like his father, awakened Broly. At night, Videl hears the sounds of explosions, and explores to find Broly. She tries to attack him, but Broly easily knocks her unconscious with one punch. Goten and Trunks come, and Broly, upon seeing Goten, goes mad, mistaking him for Goku.

Trunks and Goten go Super Saiyan to fight Broly, but are no match. As Goten is fighting, he sees the last Dragon Ball. He gets it and hides behind a waterfall. He tries to summon Shen Long, but nothing happens. Luckily for them, Son Gohan arrives to help them fight. Gohan informs Goten and Trunks of who Broly is after they see he is familiar with him. They watch as Gohan fights Broly, but the mentally ill Saiyan notices them and blasts them. Gohan turns into a Super

Saiyan and begins fighting Broly. But Broly turns into his Legendary Super Saiyan form, and quickly outmatches him. Gohan then throws Broly into a pit of lava that had been created in the fight, but the Legendary Super Saiyan emerges, and begins to mercilessly beat Gohan. Videl distracts Broly for a second, and Gohan breaks free, and becomes Super Saiyan again.

Gohan then fires a Super Kamehameha wave at Broly, who fires his Omega Blaster back at him. Gohan is unable to break through the energy ball, and Goten jumps in with a Kamehameha wave to help him. Even with their combined powers, Broly still pushes them back, and Gohan makes a silent wish that his father could be there. Just at that moment, Son Goku arrives in spirit form, and helps them with his own Kamehameha wave. Broly still has the upper hand, though, until Trunks fires a Ki blast at Broly's Omega Blaster, preventing him from powering up the attack. The Son family is them able to shatter the ball of energy with their Family Kamehameha, knocking Broly into the sun and obliterating him. When Gohan and Goten turn around, their father is gone.

Broly was stated to have returned one more time in Raging Blast 2's bio for Legendary Super Saiyan 3 Broly, it states that Broly survived being thrown into the sun and received a huge Zenkai, obtaining not only a Legendary Super Saiyan 2 form, but a Legendary Super Saiyan 3 form beyond that. Broly returned to Earth but was defeated by the Z Warriors, presumably by all the Saiyans at once.

A clone of Broly appears in the Dragon Ball Z movie: Bio-Broly. In it, a wealthy man named Jaguar uses his money to create powerful bio-warriors, which he wants to use to reveal that Mr. Satan is a fraud. So he sets up a tournament, however, the Z Warriors intervene, and are able to defeat his warriors. So he reveals his most powerful weapon, a clone of Broly himself. Jagaur was able to create him through a frozen blood sample provided by a village priest near where the original Broly was last fought. Trunks and Goten try to destroy the clone before he is released, however, Bio Broly escapes, and becomes mutated by a bio culture liquid.

Bio Broly tries to kill Mr. Satan, but Android 18, Goten, and Trunks try to prevent it, and in the process both get beaten down. Trunks manages to get Broly between some chemical tanks, and destroys the tanks, hoping to destroy Broly. However, this only serves to make Broly even stronger. They escape the factory, and discover that sea water causes the bio fluid to turn to stone, so they use a Kamehameha wave to blast the sea water at Broly and he falls into the water. He starts to rise, but becomes stone as he does. Trunks and Goten then blast Bio-Broly, obliterating him once again.

Bio-Broly is briefly mentioned at the end of the film. Where he is believed to be causing trouble in Hell. And Goku and Pikkon are sent to stop him. He is again presumably defeated and imprisoned in Hell.

* * *

We gasped in sheer horror!

Me: Broly is that powerful!?

Nico: I never even knew Broly was that dangerous and strong! If he was able to give you all that much of a hard challenge then who knows what he could do!?

Me: No kidding.

Lola: Hard to imagine that Broly has that kind of power.

Lana: And he obliterated the whole South Galaxy!? That's crazy!

Goku: Not only that but he has an extremely powerful hatred towards me for what happened when I was a baby. I don't know what went down back then, but it was at the time Frieza destroyed Planet Vegeta.

Vegeta: That's right.

Me: Lets head into the Simulator to find out.

We went into the Simulator.

* * *

We went into the Simulator and I chose Nico, Laney, Lincoln, Lori, Carol, Superman, Vince, Goku, Vegeta, Trunks, Gohan, Piccolo, May, Earth, Lana, Clyde, Syd, G1 Smokescreen, Long Haul, Miranda and Kung Fu Panda's Mantis to come with.

The Simulator activated and we found ourselves on the planet New Vegeta. It was a beautiful place and it was in the direct path of Comet Camori. It was on a direct collision course with the planet.

We were standing in front of Paragus and Broly!

Broly saw Goku and he was growling and in an incredible amount of rage.

Broly: Kakarot!

He walked over.

Paragus: Broly. Broly no. Don't waste your time on them.

He flared up his Super Saiyan aura and his power was incredible.

Broly: Kakarot!

His hair turned blue and purple.

I teleported and fired an energy blast and it slammed into Broly's back and exploded.

KRABBBBOOOOOOOOOOOOOOOOOOOOMMMM!

When the smoke cleared, Broly wasn't even fazed. It didn't even make him flinch.

But his hatred towards Goku was so incredibly powerful that he was completely out of his mind! Arteries in his eyes showed as he growled and screamed ferociously up at the sky and he glowed in a neon green aura. The whole planet shook violently under the sheer magnitude of his power. Rocks were cracking apart and lifting into the air. The sky darkened and lightning struck all over as he was laughing malevolently.

(Pantera's 10's Plays)

We thought he was calmed down because of Paragus. But we were wrong. He screamed again and he was enveloped in a powerful ball of green light and the sky inverted 3 times and we saw that he was now bigger and bulkier! His hair was yellow-green and his eyes were totally white! He was growling ferociously! He was now THE LEGENDARY SUPER SAIYAN!

Me: Holy shit!

Nico: Holy God!

Lincoln: What power!

Me: His power is completely unreal!

His power was at 1,400,000,000 and he was really out for blood!

Broly: You Kakarot, I chose you to be the first of my victims!

Gohan: No you don't!

Me: Power up everyone!

We transformed and powered up to the extreme!

Broly: (laughs) How do you fools pick your teammates? Eeny Meeny Miney Moe?

Me: Bring it on Broly! Laney you try and reason with Paragus.

Laney: Right.

We went at him and I punched Broly in the face and sent him flying and Nico punched him in the stomach with devastating force! Lana punched Broly in the stomach and kicked him in the face. Broly fired a massive barrage of energy blasts and more at us and we dodged them and they exploded with unbelievable power!

KRABBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

We threw some of them back at him and they exploded in his face and it was painful. We were really going at Broly and hitting him with everything we got! Lori slashed him in the face with her sword and fired a powerful energy blast mixed with wind and it exploded and blew him around in a fiery tornado! Lana fired a massive Kamehameha Wave and it hit Broly and exploded with incredible power and knocked him into a cliff. Broly enveloped himself in an orb of energy and fired numerous energy balls all over the place. We deflected most of them back at him and they exploded and he went at us in an incredible amount of rage that was so powerful that it defied all description! I went at him with incredible speed and punched him in the face and enveloped him in a massive energy tower that overpowered him and it exploded with incredible power!

KRABBBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

The powerful mushrom cloud from the explosion shook the planet with incredible force!

We went at him all together and fired massive energy beams and more and they all hit him and exploded with unbelievable power!

KRABBBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO
KRABBBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO
KRABBBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO
KRABBBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

The battle was so powerful that it was threatening to tear the entire universe apart!

Broly went at Nico and he was punching him ferociously. But all his punches went right through him!

Nico: (uses Walker's intangiblity to avoid Broly's punches) And Foop says that we're brutes. You're just wasting your attacks!

Nico punched Broly in the face and fired a powerful blast of energy at him and it exploded!

KRABBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Broly then charged up a massive green energy blast and Nico charged up a massive blue energy blast and they fired and the blasts collided and exploded with unbelievable power!

***KRABBBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO***

Broly fired a massive volley of green energy blasts at me and I teleported and fired 2 massively powerful blasts of fire energy and they hit Broly and exploded with incredible power.

KRABBBBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO
KRABBBBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

I fired a massive barrage of fire energy blasts and they all hit Broly and he was being savagely overwhelmed by the sheer magnitude of my power! He was screaming in a lot of pain as he was being thrashed.

Me: Take this! STARDUST DIVINER!

I formed a rainbow ball of energy and threw it at Broly and it hit him and exploded into a massive column of energy and he screamed in pain and exploded in a massive incredible explosion of unimaginable power!

***KRABBBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO***

When he got up Broly screamed in a massively unbelievable amount of rage and the level of hatred he had was so incredibly intense that it was unbelievable!

Gohan: You know what the difference between us is? We have something you don't! Friends and family!

Gohan fired powerful energy blasts at Broly and they exploded. Trunks and Vegeta fired powerful energy blasts and they hit and exploded.

Syd and Broly charged at each other and they punched and their fists collided and a massive explosion turned the whole area of the planet into a massive lake of lava and a massive tsunami of lava engulfed everything around it! Miranda punched Broly in the face with devastating force and he belched out a huge amount of blood.

Superman: (uses heat vision on Broly's face) If it worked on Doomsday, it should work here!

Broly screamed in pain as it hit Broly's eyes and he was blinded and he was screaming in excruciating pain!

Nico punched Broly in the stomach and he belched out an enormous amount of blood!

Carol fired Godzilla's Spiral Orange Atomic Ray and it hit him and exploded.

KRABBBOOOOOOOOOOOMMM!

The Transformers fired their weapons and they hit Broly and exploded all over him.

But then we got an unexpected surprise. Out came a heartless and it was ticking? It looked like a living pocket watch with a mace chain and it has a terrifying face and it can fire deadly lasers from the numbers. It was Luxord's heartless called the Clock of Nihilism.

Me: It's Luxord's Heartless.

Nico: It's a living Pocket Watch.

Clyde: Alright. Let's see if this card that Luxord gave us works!

As soon as Clyde used the card, Luxord's Heartless and Broly's Power Levels started to decrease rapidly.

Maria: It's a strength weakening card!

William: Luxord must've made this to disable his Heartless and the Hearltess of Xemnas and Xehanort. And the villains that summon those Heartless!

I fired an energy blast at the Luxord Heartless and destroyed it completely.

Me: Nico, Me and May are gonna go into Broly's mind and see if we can get a good view of his past.

Nico: Okay.

Nico grabbed him and held him and me and May placed our hands onto his head and we went into his mind. We saw in his mind a fractured world enveloped in darkness and hatred.

May: Whoa! What happened to him?

Me: This is the mind of a fractured soul. Lets take a look around.

We looked around and we found his memories. We saw one that was back in his childhood and we looked at it. What it showed was what happened when he was born.

Me: Here's Broly when he was born.

May: He sure was a cute little guy. And the one next to him must be Goku.

Me: Yep.

We heard the doctors.

Doctor: Did you hear? Paragus's son was born with a power level of 10,000! 10,000 at an infant!

Me: Wow! 10,000 power!?

May: That is incredibly strong!

We saw Goku crying hard and he was making Broly cry.

Doctor 2: Makes Bardock's son look like a joke. What is he at 2?

Doctor: But that's nothing compared to what Broly's sister has.

We saw a little Saiyan Girl with blue hair and blue eyes and she was so peaceful and happy.

Doctor: Paragus's daughter Nikiya has a power level of 35,000!

Doctor 2: What!? How is that possible!?

Doctor: No idea but she is powerful. But Hikana's son Bokrua has an immense power level.

We saw a boy with black hair and he was sound asleep.

Me: That's Nico when he was a baby.

May: Oh he was so cute!

Doctor: Bokrua has a power level of 100,000 at an infant!

Me and May were floored!

Me: 100,000!?

May: Holy shit is that powerful!

Me: No kidding. I wonder how that's possible for Saiyan's to get that kind of power level at birth.

May: No idea. Lets see what else there is.

In another memory we saw Paragus, Broly and Nikiya's father race to the throne room and he opened the door and went to face the King.

King Vegeta: No more discussions. I want their children executed immediately!

We gasped.

Me: Why would he want Paragus's children killed?

May: No idea.

King Vegeta: Ah. Paragus. I didn't call for you.

Paragus: Sire, have mercy on them. They could be a help (Restrained by guards) to Prince Vegeta and our planet. Please they're just children! The data could be wrong! They could grow up to be great warriors!

King Vegeta: That's exactly what I'm worried about.

Paragus: NO!

King Vegeta: And I don't like arguments! You'll die with them!

King Vegeta fired an energy blast at Paragus and blew him away!

But Nico's mother, Hikana overheard what was about to unfold. She was a beautiful Saiyan with black hair and blue eyes and she went to the nursery and snuck in quietly.

Hikana: Nikiya, I'm going to seal you into your brother to keep yourself safe from harm. When the time comes, you will be freed.

Hikana used a powerful Saiyan Magic spell and sealed Nikiya into Broly. She then went over to her son.

Hikana: My darling son Bokrua. Frieza is going to destroy our planet. Please. Don't follow the same path as our people once did. I love you my son.

She took him and loaded him into a Space Pod and it went into space just as Frieza blew the whole planet of Vegeta to smithereens. Nico went through a portal that lead to our dimension and we also saw Broly and Paragus flying away from the explosion in a bubble of green energy.

Me: Whoa. What a narrow escape.

May: That was a close one. So Nikiya is here in Broly's mind.

Me: Yeah. We have to find her and free her.

We walked around Broly's subconcious and we found what looked like a prison cell in the recesses of his mind.

Me: A prison cell. I wonder what that is doing here.

We walked up to the door and we saw a girl with blue hair that went down to her upper back and she had tattered clothes and was crying. She also had a blue Saiyan monkey tail that was 4 feet long.

Me: Are you Nikiya?

Nikiya saw us.

Nikiya: Yes I am.

Me: We came to get you out of here.

Nikiya: Thank you so much.

May: Nico's mother Hikaya sealed you into Broly for your protection.

Nikiya: I know. This monster that is my brother is dead to me. He's lost forever. I tried to reason with him but nothing.

Me: How long have you been in here?

Nikiya: 30 years. But I look like I'm 17 years old.

Me: That's awful. Time seems to slow down in here. Lets get you out of here.

Nikiya: Thank you. Who are you two?

Me: I'm J.D. Knudson, Leader of Team Loud Phoenix Storm.

May: And I'm May. Nico's girlfriend.

Nikiya: Pleasure to meet you.

We went in and broke the chains and Nikiya was glowing.

Me: Lets get out of here.

May: See you on the outside Nikiya.

We exited Broly's mind and Broly glowed and out came Nikiya!

Me: Whoa!

Nikiya was all right and she was free.

Nikiya: I'm free!

Nikiya hugged me.

Nikiya: Thank you so much J.D. And you too May.

Me: No problem Nikiya.

Laney was talking to Paragus.

Laney: So Broly was born on the same day as Goku was?

Paragus: That's right. Kakarot was quite a cryer.

Laney: That's what I was told. But why do you hate King Vegeta so much?

Paragus: Because he was afraid that Broly would become to great a threat to him. Same with Bokrua and my daughter Nikiya. But Nikiya disappeared somehow. Me and Broly were left to die and thrown out like garbage. Ironically enough, Frieza destroyed our planet. Bokrua was sent into space before Frieza could destroy it. But not us. We survived. Somehow Broly harnessed his inner power and liberated us from the blast. Since then I have lived only for revenge.

Laney was shocked.

Laney: I know King Vegeta did you wrong Paragus and I'm so sorry about what happened to you. But revenge is never the answer to anything at all. All it will lead to is a path to your own destruction. Revenge is a double-edge sword. If you have your revenge, it will only kill you in the end.

Paragus: I know Laney. I can't believe I was such a fool. You are a strong spirited girl and you have helped many people in the past.

Laney: Thanks Paragus. But it's never too late to redeem yourself.

Paragus: Thank you. But first lets kill Broly.

Back in the fight with Broly, we were ready to finish him for good.

Me: Lets get him with our combos and Final Smashes.

G1 Smokescreen: You got it boss! CYBER KEY POWER!

The Autobot Cyber Planet Key went into his back and it enhanced his electro-disrupter rifle 100-fold.

Kung Fu Panda Mantis: I hope the Cyber Planet Key won't squish me. ANIMATRON CYBER KEY POWER!

The Animatron Cyber Planet Key went into his right arm device and he grew to human size and it enhanced his strength and power 100-fold.

G1 Smokescreen and Kung Pu Panda Mantis: LIGHTNING PRAYING MANTIS SLASH!

Smokescreen fired his electro-disrupter rifle and it merged with Mantis and turned him into a lightning mantis and he slashed Broly and electrocuted him.

Miranda: Lets get him! GIGANTION CYBER KEY POWER!

The Gigantion Cyber Planet Key went into her right arm device and enhanced her shape-shifting powers and abilities 100-fold.

Long Haul: Lets get him! CYBER KEY POWER!

The Earth Cyber Planet Key went into his back and enhanced his missile mount 100-fold.

Miranda and Long Haul: FIRESTORM MISSILE BARRAGE!

Miranda fired a massive blast of fire when she turned into a dragon and Long Haul fired a massive barrage of missiles and they slammed into Broly and exploded with incredible power.

KRABBBBBOOOOOOOOOOOOOOOOOOOOOOOOOMMMM!

Vegeta: Kakarot, I don't think a Spirit Bomb will be enough.

Goku: (gets an idea) But what about a Spirit Bomb enhanced by a Cyber Key?

Me: That just might work Master Goku.

Nico: I'm right with you guys. Broly, you have failed this universe!

Me: Lets get him!

I held up my hands and formed a massive black ball of energy.

Me: REVENGE DEATH BALL!

I fired it at Broly and it hit him and exploded with incredible power.

KRABBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Gohan: This is for all the people who's lives you destroyed! (Cups hands to side) KAAAAAAAAAAA! MEEEEEEEEEEE! HAAAAAAAAAAAAA! MEEEEEEEEEEE! HAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAA

Gohan fired a massive Kamehameha Wave at Broly and it hit him and exploded with incredible power!

KRABBBBBBBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Nico: This is for the entire universe!

Nico's bracelet glowed red and it fired seven beams of light into the air and formed a massive red energy ball. It grew to the size of a huge moon and Nico condensed it to his size and it was more powerful than ever before.

Nico: This is for all the terrible deeds you've done to the universe Broly. NEGATIVE KARMA BALL!

Nico fired the massive red energy ball and it hit Broly and carried him into the vast reaches of space.

Goku raised his hands into the air and formed a massive Spirit Bomb. He enhanced it with the power of the Gigantion Cyber Planet Key and it was now as powerful as the Spirit Bomb we used to destroy Unicron.

Goku: Universal Spirit Bomb!

He threw the massive Spirit Bomb at Broly.

Me: Nico, lets fuse and destroy this monster together!

Nico: Right!

Me and Nico got into our positions.

Me and Nico: FUUU SION HAAA!

We did the Fusion Dance and we were enveloped in a powerful blinding flash of light and when it faded we were now one! We were a completely different and powerful being! We were now JICO! Jico had black hair, green eyes, blue pants, black vest with gold on it and mine and Nico's trench coats were fused together.

Jico: (In Me and Nico's voices in unison) **Jico is ready to destroy the evil that is Broly. Every force you make has an echo. Your own bad energy will be your undoing!** (Cups hands to side) **NUOVA FIRE KAMEHAMEHA!**

Jico fired a massive Kamehameha Wave made entirely out of pure fire and it pushed the Spirit Bomb and it slammed into Broly and the Negative Karma Ball and they exploded with incredible power.

***KRABBBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO***

When the smoke cleared, Broly was completely obliterated in an instant. But we had another huge problem! Comet Camori was a few seconds away and was about to slam into the planet. We teleported out of there fast and we were back in the estate. Everyone did a great job and everyone else was cheering wildly.

Me and Nico separated at will.

Me: That was unbelievable!

Nico: No kidding! That was the most action packed battle ever.

Goku: It sure was. You guys were incredible!

Vegeta: I'm amazed myself.

Piccolo: Well done to all of you.

Me: Thanks guys. We all defeated the most powerful Saiyan ever known and we did it together.

Nico: You said it. (To the viewers) Even the most evil of Saiyans no matter how powerful they are will never be a match for the combined power of Team Loud Phoenix Storm.

Goku: You said it Nico. (To the viewers) No matter what happens, when we work together, you can make a difference.

Nico caught a Lurantis and Araquanoid. We were exhausted. Broly was the most powerful foe we have ever faced. He put up one hell of an incredible battle and we triumphed. Nikiya now lives with us and Paragus was so overjoyed to have his daughter back. Paragus now is on the Redemption Squad.

THE END

---

Another Fanfiction Complete and another awesome battle done.

Broly the Legendary Super Saiyan was beyond a shadow of a doubt the most powerful and most brutal villain that the Z-Fighters have ever faced and it was a brutal fight. # Judgement of The Shadow Dragons

The U.S.S. Valor was travelling through the endless reaches of space.

Me: Captain's Log, Stardate 2756.9: We are venturing over to the Mirinoi Space Colony, Terra Venture. It's the home of the Lost Galaxy Power Rangers and we want to see what it's like. It's located 7,928 light-years away from Earth.

Kimiko: Jack Spicer is a monster!

Francis: Don't you think that you guys were being a bit too harsh with sending Jack Spicer that message using Dorian's ripped apart body?

Omi: (Tibetan Accent) Of course not. Jack Spicer must learn that from now on, his crimes will have consequences.

Francis: If it were any other villain getting that message, I wouldn't mind. But Spicer's a different case.

Raimundo: No, he's not! The last time we trusted him to come into the temple, he backstabbed us. And it isn't the first time either. So the next time that he tries to hurt someone, he's dead! End of story!

Francis: No. Not end of story. Spicer's not a bad guy. He's just insecure about himself because he's been pushed around too many times. I don't know what caused this rift between you guys and him but I think that you might have only made the tension even worse.

Kimiko: I guess you have a point.

Clay: (Texas Accent) Man, we really screwed up this time, didn't we?

Francis: No, you didn't. None of you guys are at fault here. I mean, what were you guys supposed to so? Let the Heylin get the Shen Gong Wu? But the next time you see Spicer, you should patch things up with him. And no. I'm not saying all this because me and him sound alike.

Lisa: 2nd Elder Brother, we have arrived at our destination.

Me: On screen.

We saw the Terra Venture colony and it was incredible!

Me: Whoa!

Shrapnel: So this is Terra Venture?

Leo: Yep. Home sweet home.

Me: It's amazing.

Kendrix: It's our home away from home.

Naruto: And almost 8,000 light-years away from Earth.

We saw the colony was in orbit above the planet Mirinoi and it was a beautiful jungle planet. It was amazing.

Me: So that's the planet Mirinoi. It's beautiful.

Nico: It sure is. It's just as beautiful as it is on TV.

Lana: Yeah.

Laney: Wait. There's another ship next to the colony.

We saw it.

Laney: Oh no. That's Scorpius's Scorpion Stinger Ship.

Me: So he still won't quit.

Leo: Scorpius is now dead. His daughter Trakeena is in charge now.

We looked up the history of Trakeena.

Trakeena was born the daughter of the evil space overlord, Scorpius, with the features of both an insect and a human. After her father began his battle with the Galaxy Power Rangers, Trakeena began accompanying his generals on their missions, despite Scorpius' disapproval. After Furio initially failed to get the Lights of Orion, she managed to convince her father to give him another chance, though it is unclear why she did this. After accompanying another general, Treacheron, on one mission, he claimed Trakeena had followed him even though he had allowed it. In retaliation, she convinced Scorpius the general was a traitor, resulting in him being locked up. They continued to feud with one another and Trakeena was tricked by Treacheron into looking for a silver goblet, so he could ambush her when he was free. However, she ironically survived thanks to intervention from the Power Rangers. Later Scorpius wanted Trakeena to enter a cocoon that would turn her into a more insect like being like him and increase her powers. She refused to go through with it, since it would take away her beauty and when Scorpius tried to force her, she fled to Planet Onyx. After getting in a fight and beaten easily, Trakeena met Villamax, who trained her in hand-to-hand combat and swordplay. However she returned to the Scorpion Stinger upon hearing that Scorpius was dying after his battle with the Power Rangers. After arriving on the ship, Trakeena bid her father a fond farewell and was given his throne and all of his powers, along with a new staff created from one of Scorpius' tentacles.

After Deviot told her the Red Galaxy Ranger was the one that struck down her father, Trakeena captured him, but he escaped her wrath. Later when Terra Venture entered the Lost Galaxy, she was unwilling to follow it, but after it reemerged she took down Captain Mutiny's ship, which was following the space colony.

After Deviot was proven to be a traitor, he dragged her into the cocoon, which had been put into storage. There, they merged into one being and Trakeena emerged with Deviot's power and ruthlessness. She equipped her Sting Wingers with bombs and launched an all out assault on Terra Venture, succeeding in bringing down the space colony as well as the Centaurus and Stratoforce Megazords. Trakeena destroyed Villamax when he refused to follow her orders and after the Scorpion Stinger crashed, she was critically injured and entered the cocoon. She then lost all her beauty and emerged as a slimy humanoid insect, powering up what remained of Terra Venture so as to attack the peoples' new colony on Mirinoi. Trakeena began fighting the Rangers and was eventually defeated by the Red Ranger after he fired a blast from his Battlizer at her at point-blank range.

Trakeena is a boss in Power Rangers: Super Legends.(apparently before her fusion with Deviot) In the PS2 and PC versions she is in her green battle armor and in the DS version she is in her human form. She attempts to destroy Terra Venture but is intercepted by the Red Galaxy Ranger. She then decides to take out the core, but fails. In the PS2 version She then grows to a giant size and battles the Galaxy Megazord. When defeated, Trakeena is knocked unconscious and imprisoned aboard Terra Venture.

Trakeena managed to survive and return to her human form, only now horribly scarred. While she had been purged of Devoit's physical traits, she still appeared to have some of his personality since she wished to return to become an insect once again. She managed to get to Earth, where she allied herself with the demon Triskull, planning to destroy the Rangers' home planet in revenge. With the skull demon and his army of ghouls aiding her, Trakeena began capturing humans to drain their life force.

Once she had all the life force she needed, she strapped herself to a chair and phased in and out of her insect form. But Queen Bansheera ordered her son, Prince Olympius, to stop Trakeena from fully absorbing the life forces and regaining her insect form. He tainted her energy with a poisoned dagger, transforming Trakeena into an enormous monster. The Galaxy Rangers and Lightspeed Rangers joined forces to fight her, but were unable to take her on until they infused the Omega Megazord with the Lights of Orion; Trakeena was finally destroyed.

Trakeena appears in an archive footage in an episode of Power Rangers: Dino Thunder.

---

Qin: I can't believe she's that pure evil.

Nico: Trakeena has failed this universe.

Naruto: And now she wants to destroy the colony.

Me: Not for long bro. Charge up superlaser, target the Scorpion Stinger and fire.

Ruby: Roger that.

Stacy: Commencing primary ignition.

She pressed two buttons and pulled a lever and pushed more buttons.

We had the Scorpion Stinger caught in our Superlaser's crosshairs.

Lincoln: Locked on target.

Laney: Caught in the guns sight.

Lana: The Scorpion Stinger is about to fire!

We saw its tail rise and it was about to fire a green laser.

Me: Not for long. Go to Hell, Trakeena. And stay there you bitch! Fire!

We fired the superlaser and it hit the Scorpion Stinger and it exploded with incredible power.

KRABBBBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

The whole ship was completely obliterated in a huge explosion and Trakeena and the terror of Scorpius had been silenced forever.

Me: Bullseye!

Lana: Nice shot!

Kelsey: That did it.

Me: It sure did.

Carter: I don't know how Trakeena survived when we teamed up. But somehow she did.

Me: We saw that on TV and that was a powerful battle.

Dana: That was one of our most incredible achievements.

Nico: Wait! I sense that Trakeena is still alive. She's in hiding.

Me: And without a shadow of a doubt she saw our ship blow her ship up. But if she saw it, then she knows that we're coming for her in the future. I say bring it on.

Nico: And when we kill her, she will be sent into the River of Fire.

Nicole: The Book of Vile Darkness is too good for her. The River of Fire is perfect for her.

May: Yep.

?: Calling unknown ship.

Me: This is the U.S.S. Valor, Captain James Dean Knudson of Team Loud Phoenix Storm commanding.

On the screen was Commander Stanton.

Commander Stanton: It's a pleasure to meet you all. We saw your ship fire at the Scorpion Stinger.

Me: We apologize for the cause for alarm commander. We saw the Scorpion Stinger about to fire and we destroyed it with our superlaser cannon.

Commander Stanton: I see. At least we've now officially seen the last of Scorpius and his evil ways.

Me: We sure have. Permission to come aboard?

Commander Stanton: Permission granted.

We input the docking codes and we went aboard.

What we saw was all incredible. It was an amazing landscapes and space colony.

Leo: Home sweet home.

Me: Or in this case, home away from Earth.

Nico: Wanna look around, Amoonguss?

Nico's Amoonguss: (nods) Amoonguss!

We saw the greenhouse.

Beachcomber: Terra Venture's plant life is amazing!

Me: It sure is. The greenhouse provides oxygen for the whole colony.

We walked around and Acid Man asked Kendrix a peculiar question.

Acid Man: Kendrix, what was it like being dead?

Kendrix: Well it feels like you're free and I was dead for about 5 months.

Cassidy: That's nothing. I was dead for 40 years.

Will: I remember that.

Nico: It's good J.D. resurrected you Cassidy.

Nikiya: It sure is.

---

Later we went back to Earth and we were watching TV and playing cards. I was thinking about something.

Me: Master Goku, can I ask you something?

Goku: Sure J.D. What is it?

Me: I've been thinking about the Dragonballs and how they were made. Nico has the powers of the Shadow Dragons, we know that and the Shadow Dragons were made as a result of using the Dragonballs too much. How did the Shadow Dragons get there?

Goku: That's a good question. The Shadow Dragons were made because of the Dragonballs storing Negative Energy. Every time a wish is made on the Dragonballs, Negative Energy gets introduced into the world. It's stored inside the Dragonballs.

Lincoln: I didn't know that.

Naruto: Me neither.

Me: Same here. Let me see here.

I looked up the history of the Shadow Dragons.

---

The Shadow Dragons are a direct consequence of the numerous usages of the magical Dragon Balls over the course of the entire Dragon Ball series. Every time a wish was granted with the balls, the negative energy was released along with the positive energy. In response, the Dragon Balls would absorb the negative energy and disperse it harmlessly over countless years.

Originally, the difficulty of finding and assembling all 7 Dragon Balls meant that they had plenty of time to disperse the negative power accumulated from each wish, but increasingly advanced technology (such as the Dragon Radar) made finding the artifacts a simple task. Moreover, a seemingly-endless succession of powerful evildeors forced the defenders of Earth to use the Dragon Balls just to repair the damage done to the planet Earth and its people. Consequently, the balls had less and less time to disperse the slowly-immersing negative energy, causing a large amount of it to build up in the magic orbs. When the Dragon Balls could take no more, they soon cracked. Upon attempting to summon the Eternal Dragon Shenron, however, Goku and the others unknowingly released the negative energy in the form of a gigantic dark dragon named Black Smoke Shenron, Shenron's polar opposite before he immediately separated into the seven dreaded Shadow Dragons who each is taking form around one Dragon Ball.

The battle against the evil Shadow Dragons who are defeated for good, can be considered the closing segment of the Dragon Ball series (finding the Dragon Balls was the beginning) that teaches the Earth and its inhabitants to stop relying on the Dragon Balls to solve their own problems. It can also be seen as the heroes' greatest challenge: when the Dragon Balls finally turn against the Z Fighters. Interestingly most of the Shadow Dragons seem to justify and view the mayhem they cause as simply a form of punishment for overusing the Dragon Balls and their magic powers and tend to blame those that created them and the Z Fighters' overreliance on the said magic gems for the chaos they cause (although this is the same sort of twisted reasoning that Android 13 used to justify following his programming).

Me: Whoa! They were that strong!?

Nico: Holy shit!

Me: Who was the most powerful of them all?

Vegeta: That would be Syn Shenron.

Me: Let me see here.

I looked up Syn Shenron's history.

---

Syn Shenron ("Yi Xing Long" in Japanese), also known as the One Star Dragon, or Super Yi Xing Long (Omega Shenron) as he later came to be called, is the last of the Evil Dragons. According in Dragon Ball GT Perfect Files, he was born from the wish to bring back everyone killed by Frieza and his men and, as a result of so many people being brought back, is the most powerful dragon. Unlike the other Evil Dragons, Yi does not represent an element. Instead, he has the ability to absorb the powers of the other Evil Dragons by swallowing the Dragon Balls.

Like his fellow Evil Dragons, Syn Shenron was born from the negative energy created within the Dragon Balls, every time a wish was made. In his case, it was the wish that brought back everyone who had been killed by Frieza and his men during the Namekian War. Because of the size of this wish, Syn was the most powerful out of all of the Evil Dragons.

Syn Shenron first appeared after Eis Shenron's defeat at the hands of Super Saiyan 4 Goku and Nuova Shenron. He killed Nuova for his betrayal and, when Goku reprimanded him for killing one of his own kind, told him that he was the one who created the Shadow Dragons in the first place, because of the constant misuse of the Dragon Balls. They began to fight, with the battle going in Syn's favor due to Goku being blinded by Eis Shenron earlier. Though Goku was able to get in a few hits and even a Kamehameha wave, this did nothing to Syn and he left the hero hanging unconscious from Fairground tower.

Just as he was about to move in for the killing blow, Syn found himself confronted by Gohan, Goten, Uub, Pan, Trunks, Chi-Chi, Videl and Mr. Satan. While Uub kept the dragon busy, Gohan, Goten and Trunks gave their energy to Goku. Though Syn defeated Uub and the others with little effort, Goku managed to recover and the second round began. However, Goku was the one dominating the battle now and Syn found himself unable to match the Saiyan. After the dragon attempted a trick using a clock, Goku seemingly wiped him out with a Kamehameha wave. However, Syn was not beaten yet and he used his special ability to swallow the other six Dragon Balls into himself, resulting in the powerful Omega Shenron.

Though Goku was able to take on Syn, Omega Shenron was another story and the Saiyan found himself unable to win. Though he regained his eyesight and battered the dragon with a Dragon Hammer, Omega Shenron simply regenerated, an ability he had gained with his transformation. Goku desperately prepared a self-destruction attack to kill Omega Shenron, until Vegeta arrived on the scene and, with use of a machine that generated the Blutz Waves needed for the transformation, became a Super Saiyan 4 as well. Despite this, Omega Shenron easily took on the pair, until they performed the fusion dance and became Gogeta, who easily managed to take on the evil dragon. Gogeta then assaulted him with his Big Bang Kamehameha attack, which was so powerful that Omega Shenron spat out the Dragon Balls, reverting back to Syn Shenron. However, as Gogeta was about to perform the attack again, he defused back into Goku and Vegeta.

Thinking quickly, Goku swallowed one of the Dragon Balls, preventing Syn from becoming Omega Shenron again. Omega fought both Goku and Vegeta and still managed to take them on. The two attempted to perform fusion again, but it failed and Goku reverted to his child state. The evil dragon resumed his attack, only to be confronted by Nuova Shenron, who had been revived by the positive energy in Goku. Nuova attempted to use a self-destruction attack, only for Omega to survive and become Omega Shenron (via retrieving the Four-Star Ball from within Nuova's body, killing him in the process) again. After Vegeta de-transformed from Super Saiyan 4 and reverted back to his normal state, Omega attempted to use the Negative Karma Ball to destroy the Earth, but Goku blocked it, apparently dying in the blast. Omega fought the rest of the Z-Fighters and defeated them easily, only for Goku to appear and prepare his Universal Spirit Bomb.

While Goten, Gohan and Trunks distracted Omega Shenron, Goku gathered energy from every being in the universe and amassed it into the powerful Universal Spirit Bomb. The evil dragon tried to blast a Negative Karma Ball at Goku, but it had no effect and finally the Saiyan finished gathering energy. Omega Shenron attempted to plead with Goku, but it fell on deaf ears and the evil dragon met his end at the hands of the Universal Spirit Bomb. The real Shenron then appeared without being summoned and granted Goku and the others one last wish that revived everyone who had been killed by Super Android #17 and the Shadow Dragons, and then proceeded to vanish, along with the Dragon Balls and Goku himself, seemingly forever.

---

We were horrified at how powerful he was!

Me: He was that strong!?

Nico: Unbelievable!

Me: What was his power level at?

Gohan: It was incredibly powerful. His power was that strong.

Me: Lets see here.

I looked it up and it was staggering!

Me: 1.9 Billion!? That's inconceivable!

Laney: Unreal!

Lana: Omega Shenron was that powerful!?

Lola: Geez!

Me: Lets see what it says about Haze Shenron.

I looked him up.

---

Haze Shenron ("Liang Xing Long" in Japanese), also known as the Two-Star Dragon, is the first Shadow Dragon defeated and was born from the wish to bring back Bora. Since this was a small wish, this is likely the reason he is so weak. Haze uses the power of pollution to weaken his opponents.

Haze Shenron, like all the other Shadow Dragons, was born from the negative energy of one of the wishes made on the Dragon Balls, in his case the wish that brought back Bora in Dragon Ball.

Son Goku and Pan first met Haze when he was attacking a small town. However, upon fighting him, the pair found Haze to extremely weak to the point where Pan was able to fight him alone without even trying. But suddenly, Haze was able to fight Pan and Goku, who found themselves becoming slowly weaker by the minute. The Shadow Dragon then revealed his secret power, he emitted pollution which was what caused them to become weaker. Haze then showed them a lake he had filled with toxins and when Goku and Pan were too weak to move, tossed them in, along with Giru. However Giru managed to move them to a clean part of the lake, which was kept clean by a fresh water spring. Goku and Pan blasted this spring, sending fresh water everywhere. They confronted Haze again and, when the dragon tried to flee, blasted him with a Kamehameha wave.

Eis Shenron ("San Xing Long" in Japanese), also known as the Three-Star Dragon, is the sixth Shadow Dragon encountered and is the only dragon to have two different wishes explained for his creation. In the anime, he states he was created by the wish to bring back all of King Piccolo's victims but in Dragon Ball GT Perfect Files, it was stated that he was born from the wish to make everyone forget about Majin Buu. Either way, the good intentions of these wishes result in Eis being a very dirty fighter. He represents the element ice.

Eis Shenron, like all the other Shadow Dragons, was born from the negative energy of one of the wishes made on the Dragon Balls. There are actually two different explanations as to which wish he is born from. In Dragon Ball GT Perfect Files, it is stated that he was born from the wish to erase Majin Buu from the memory of everyone on Earth. But in the anime, he states that he was created by the wish to bring back all the victims of Piccolo Daimaou and his minions. It is more likely that the latter was the one that created him, since the first wish would have no explanation as to why he is the twin of Nuova Shenron while the second is related to the one that created the fire dragon.

When Eis Shenron first appeared, he attacked Pan and brutally beat her up, while Son Goku and Nuova Shenron were busy fighting each other. When Goku and Nuova emerged from the pipes they had been fighting in earlier, they found Eis waiting for them. Goku was confused at two Shadow Dragons being brothers and Nuova demanded that Eis stay out of his fight. But the ice dragon ignored him and attacked Goku. Thanks to Eis hurting Pan so badly, the ice dragon had Goku's full attention. Eis used many underhanded attacks against the Saiyan, but Goku managed to match him with melee attacks.

Finally, Eis used his ice ray to freeze Goku solid and ordered Nuova to finish him off. When the fire dragon refused to do so, Eis pummeled him and demanded he incinerate the Saiyan. However, Nuova tricked his brother and used his fire attack to free Goku instead. Panicking, Eis attempted to freeze him again, but Goku was wise to this attack and managed to avoid it. He then stated that he would only need 10 seconds to beat Eis. The ice dragon then froze the entire city block and gave Goku five seconds to beat him. The Saiyan managed to pummel Eis and knock him into a building, but just as he was about to unleash his Kamehameha wave, he saw that Eis was holding Pan's body and using it as a shield. He threw her away and as Goku was trying to catch her, the ice dragon knocked him flying. However, Goku grabbed his leg, hurled him into another building, and prepared another Kamehameha. But Eis managed to avoid destruction again, by using his own brother as a shield.

Ignoring his brother outrage at his low tactics, Eis froze Goku again and formed his hand into a cannon as he prepared a final attack, calling forth energy from his corrupted Dragon Ball. He then fired the blast, but Goku broke the ice and rushed through the blast to Eis's horror. With the Saiyan ready to blast him point blank, Eis pleaded for his life and even begged for help from his brother. Nuova asked Goku to spare his brother, if he handed over his Dragon Ball, which Eis quickly agreed to. However, he formed a set of ice claws on his hand and while Goku was distracted, slashed the Saiyan across his face, rendering him blind. Eis lunged at the disoriented Goku, but was met with a punch that went through his stomach and was finally destroyed by the Saiyan's Dragon Hammer technique.

Some of his techniques are used later by Omega Shenron after he absorbed the Dragon Balls to increase his power to reach the pinnacle of his strength.

Nuova Shenron ("Si Xing Long" in Japanese), also known as the 'Four-Star Dragon, is the fifth Evil Dragon encountered, but not the fifth to be destroyed. He was born from the first truly selfish wish, Piccolo Daimaou's wish to return his youth, and as a result, he is very honorable and has strong morals. Si was not destroyed by Goku, but was instead destroyed by Syn for his betrayal of the Shadow Dragons. He processes powerful fire-based attacks.

Like all of the other Shadow Dragons, Nuova Shenron was born from the negative energy of one of the wishes made on the Dragon Balls, in his case, the wish that restored King Piccolo's youth.

Nuova first encountered Goku and Pan when they entered his domain, a city that he had reduced to a waste land. He first attempted to attack them from with a large flame orb and finally introduced himself as the "invincible four star dragon". After hearing about the demise of Haze, Rage, Oceanus, and Naturon which seemed to surprise him, Nuova fought Pan and easily avoided her attack, before he defeated her with a blow to the head. After Goku demanded that the dragon let her go, he did just that and put her out of harm's way. The pair then faced off and Nuova managed to dominate the battle, using his speed and ability to increase his body temperature. Goku found himself being chased by Nuova all over the city and finally transformed into Super Saiyan 4, after almost being destroyed by Nuova's Nova Death Ray attack. The Shadow Dragon responded by shedding his outer shell and increasing his speed even more. Though this evened things out, Nuova's speed still gave him the advantage. Goku drew the Evil Dragon into a series of pipes below the city and managed to catch him off guard. However, he did not finish Nuova and stated that this was his way of thanking the dragon for not destroying Pan when he had the chance. Nuova said that he only wanted a fair fight and the two headed to the surface to finish their battle.

However Nouva's brother, Eis Shenron, appeared and ridiculed and assaulted him for being weak, though Nuova did not retaliate because they were brothers. Eis then fought against Goku himself, while Nuova watched from the sidelines. Goku however managed to easily fight Eis, who was forced to resort to freezing him solid. He ordered Nuova to incinerate him, but the fire dragon instead turned on his brother and used the heat of his attack to free Goku. Eis later used Nuova as a shield when Goku attempted to destroy him with a Kamehameha wave. When the Saiyan finally had the ice dragon at point blank range, Eis asked Goku to spare him if he gave the Saiyan his Dragon Ball (despite believing Eis had brought this on himself). After Goku murders Eis Shenron, Nuova Shenron then gave Goku a medicine that would cure the blindness brought on by Eis's ice claw attack. However, Syn Shenron killed him immediately for his show of mercy. With his dying breath, Nuova said that he was sorry and only wanted a fair fight.

Nuova Shenron made a return during Goku and Vegeta's fight against Syn Shenron (who earlier swallowed the other six Dragon Balls to increase his power 10x what it originally was). After Goku swallowed the Four-Star Dragon Ball in order to stop Omega from reaching his full power again, the positive energy in the Saiyan's body recreated Nuova and he emerged, though apparently loyal to Omega Shenron. He asked to fight the pair alone, which Omega agreed to and the fire dragon managed to outmatch Vegeta. Nuova then fought against Goku, but the two quickly struck Omega Shenron, and Nuova Shenron would prepare to destroy Omega Shenron: The Nova Sphere. As Omega was trapped in the ball, he was able to posses Nuova's body and escape the Fire Cage (due to Nuova's Dragon Ball having been inside of Omega, and therefore still filed with his evil). When this happened, Nuova sorrowfully apologizes to Goku and Vegeta that he had let them down. When Omega possessed Nuova, he quite literally entered his body, and destroys Nuova from the inside. This also allowed Omega Shenron to regain his full power and the Four-Star Dragon Ball.

Rage Shenron ("Wu Xing Long" in Japanese), also known as the Five-Star Dragon, is the second Shadow Dragon to be defeated and was born from the wish to bring back Goku in order to fight Vegeta and Nappa. However, since the wish was used to bring back one person, he is weak. He uses the element of lightning in combat, but rather than generating lightning, Rage uses Electric Slime to increase his size and strength.

Rage Shenron, like all of the Shadow Dragons, was born from the negative energy of one of the wishes made on the Dragon Balls, in his case, the wish that brought Son Goku back to life to fight Nappa and Vegeta.

After Goku and Pan defeated Haze Shenron, they tracked one of the Dragon Balls to a deserted city. Before meeting the electric dragon, they found his "electric slime" scattered throughout the city. Finally they met Wu, who declared himself to be the most powerful Evil Dragon, but they were unimpressed by him due to the fact that he barely reached Pan's waist. When they brought up Liang, Rage dismissed their victory and said that he was the weakest of the Evil

Dragons. Despite his small size, the electric dragon sapped away their energy and stunned them with his electric slime, but it had no major effect. Wu then used his electric slime to create a titanic version of himself that he dwelled in. Goku quickly made the transformation into his Super Saiyan 4 form and they begin to fight. However, Wu managed to take most of his attacks, his slime body taking all physical attacks and when Goku attempted to use a Kamehameha, his body held the blast and then fired it back at Goku and Pan. Wu then began absorbing electrical energy to become even more powerful and seemed unstoppable. However, it began to rain and because Wu was full of electrical energy, he began to explode. While Goku and Pan watched from a distance, Wu attempted to command his slime to get in cover. But because he was too big, he could not escape and his titanic body exploded. Goku and Pan found the electric dragon in a pile of rubble and he agreed to give them his Dragon Ball. When Pan tried to take it however, Wu attempted to entrap her in his electric slime, but she managed to escape and Goku finished him with a Kamehameha wave.

Oceanus Shenron ("Liu Xing Long" in Japanese), also known as the Six-Star Dragon, is the third Shadow Dragon defeated and was born from a wish that Oolong had made to screw up Emperor Pilaf's. He wished for a pair of panties and, as such, she is extremely embarrassed by the wish that created her. Oceanus is alternatively good and bad, (she brings a village a great deal of fish and uses numerous dirty tactics when fighting Goku) since her wish was neutral. Oceanus is the only female member of the Shadow Dragons. She is also the only member to wield more than one element, water and air, though she seems to prefer using air-based attacks.

Like all the other Shadow Dragons, Liu Xing Long was born from a wish that was made on the Dragon Balls. The wish that created her is the most embarrassing out of all the Evil Dragons. Liu was born from a wish that Oolong made to stop Emperor Pilaf from making one, a pair of panties from a hot babe. She was very embarrassed by this and hated to tell anyone.

Son Goku and Pan encountered Liu when she was pretending to be

"Princess Oto", a sea princess in a local village that gave them fish. However, this was putting many fisherman out of business. Goku, Pan, and a boy from the village named Bisshu confronted Liu on the beach. Goku demanded to know what wish had created her and finally, Liu told them, though much to her deep embarrassment and her face turned bright red, as did Pan's, though Goku found this memory funny. Liu then fought Goku and managed to thrash the Saiyan around with her wind powers.

However, Goku figured out that the dragoness was hiding her true form and she briefly revealed her true form. They resumed their battle and Liu managed to trap Goku inside a cliff with a powerful wind stream. Luckily, with some help from Bisshu's seagull, Pan was able to figure out that the center of Liu's wind storm was open. She unleashed a Kamehameha wave and Goku followed suit, destroying Liu.

Naturon Shenron ("Qi Xing Long" in Japanese), also known as the Seven-Star Dragon, is the fourth Shadow Dragon defeated and was created by the wish to restore all of Majin Vegeta's victims. Despite this being a rather large wish, Naturon is the weakest of the evil dragons on his own and relies on his ability to absorb creatures in order to fight. Naturon represents the element Earth.

Qi Xing Long, like all the other Shadow Dragons, was born from the negative energy from one of the wishes made on the Dragon Balls, in his case, Bulma's wish to bring back all those killed by Majin Vegeta.

When he was found by Son Goku and Pan, Qi was causing earthquakes all over a city. After the pair saved the citizens, Goku punched Qi out of the city. When they fought him, Goku and Pan found the dragon easy to fight as his attacks were easy to dodge. The fact that Qi seemed to be rather slow witted also made him not much of a challenge, Goku and Pan even managed to trick Qi into unleashing an attack under himself by standing on his head. After this, he disappeared back into his dragon ball, apparently dying. However when Pan held it, she disappeared into it into a field of blue light generated around the ball and Qi reappeared in a stronger form. He revealed that he had absorbed a mole into himself to attain his earlier form and he had now done the same with Pan.

Now Qi was able to easily fight Goku, since the Saiyan could not destroy him without destroying Pan. He even refused to fight the Evil Dragon at first and it is only when Qi killed innocent people, did Goku take him on. Even though Pan told her grandfather to destroy the dragon anyway and forget about her, Goku could not bring himself to do it. Finally, the Saiyan was ready to deliver a finishing blow, but Qi quickly reminded him that he had Pan inside him, causing Goku to hesitate. The Seven-Star dragon mocked him, only for Goku to realize Pan would rather die than see more innocent people hurt. He unleashed a Kamehameha wave against Qi, but it did not destroy him, since the presence of Pan inside the dragon made him subconsciously hold back. Goku began losing energy fast and was knocked onto a roof nearby.

Qi became much more confident and even said that he was the most powerful of the Evil Dragons. He claimed that he would become the true Shen Long and even began to act like Shen Long. When Goku did not answer the dragon, Qi said he could see his granddaughter one more time and Pan appeared, jutting out of his stomach. After Pan tried to convince Goku to fight, Qi attempted to absorb her back into him, only for Goku to grab and pull her out, causing the Seven-Star dragon to change back to his true form. In this form, Qi was much weaker and could barely fight. He attempted to absorb a bird, only for Goku to finish him with a Kamehameha wave.

* * *

Me: Whoa! So the Shadow Dragons represent the strongest and most destructive elemental forces of nature.

Nico: That's incredible!

Lincoln: I never knew about that.

Me: Lets see how powerful we are against the Shadow Dragons. Lets head to the Simulator to face them.

We went to the Simulator.

* * *

We were in the Simulator and we were ready. This the Shadow Dragons split off in 7 directions, we were gonna go into 7 groups and face them.

The Simulator activated and we were in the world of Dragonball GT and we saw the sky completely changed. It was white and the clouds were different colors.

Me: Whoa! The whole planet is now in total turmoil.

Laney: And soon there will be nothing left if we don't stop the Shadow Dragons.

Lincoln: Why is the sky completely different?

Me: It's Negative Energy. When the dragons got out they changed the sky with Negative Energy.

Suddenly all the Negative Energy got sucked into us unintentionally and it caused our auras to flare up and we got stronger and stronger at an incredibly accelerated rate! It was a power up of unimaginable power!

Me: Whoa! What power!

Lincoln: This negative energy is far more powerful than anything we know.

Brittney: Incredible! I've never felt this kind of power before.

Laney: Me neither.

When it was done, the Negative Energy was gone. The sky was totally back to normal!

Lucy Loud: The sky is back to normal.

Lynn: That's good.

Me: Now lets find those dragons.

Brittney: Just to be on the safe side. (Echoing) SHADOW CLONE

JUTSU!

Brittney made 6 clones and they were gonna be used as radars to find the dragons.

We split up into 7 groups.

---

Group 1: Laney, Brittney, Eddy, Luan, Venom, Rhino and Pan VS Haze Shenron

---

Laney, Brittney, Eddy, Luan, Venom, and Rhino were heading out. With them was Goku's Granddaughter, Pan. She was half Saiyan as well like her father Gohan. But she was incredibly spirited.

Laney: So far nothing guys.

But then they came across a rather disgusting and unpleasant sight. They saw the forests completely covered in pollution and slime and it smelled horrible.

Eddy: Oh yuck!

Luan: That stuff smells horrible!

Pan: Whatever it is it stinks.

The 2-Star Dragonball imbedded in her back beeped like a signal beacon.

Brittney: The 2-Star Dragon is here.

Laney: Haze Shenron is near.

They flew to a village and they saw the 2-Star Dragon, HAZE SHENRON - The Dragon of Pollution! He was terrorizing the village and turning it into a total cesspool!

Laney: Haze Shenron, the 2-Star Dragon!

Eddy: He is really gross!

Laney: And I thought Conway the Contaminationist was terrible.

Haze Shenron: Now all your lives belong to me!

Laney: I think not!

Laney swooped in and kicked him in the face. He was knocked down!

Haze Shenron: (Coughs) Oh you creep! Do you know who I am!? You'll die for that!

Luan: You're the one that makes a stink! (Laughs) Get it?

Eddy: If you don't scram, Venom's group is gonna kill you when they get here!

Haze Shenron: Oh yeah!? I would like to see them try.

A rock then fell on Haze Shenron's foot and it crushed it. He screamed in pain and he was jumping around in pain.

Luan and Eddy were laughing their heads off.

Pan fired a powerful energy blast and blew his arm off.

Luan kicked him in the face and knocked him into a building.

BOING! BOING! BOING! BOING! BOINGBOING! CRASH!

Eddy: (LAUGHS) That was a good one Luan!

Luan: Thanks Eddy.

Pan: (Giggles) That was funny.

Brittney: Haze Shenron may be the Dragon of Pollution and the weakest of the Shadow Dragons, but he is definitely the goofiest one of them all.

Pan: He sure is a silly one.

Brittney: But don't take him lightly Pan. His pollution has a strange effect on everything. It can drain energy quick. His power comes from pollution.

Rhino charged and slammed into Haze Shenron and sent him crashing into a house.

Venom: This guy really is starting to make us laugh.

Laney: Don't underestimate him Venom.

Pan: Venom, go ahead and bite off Haze Shenron's head!

Venom: With pleasure.

Venom walked over to Haze Shenron and bit his whole head off with a massive bite!

Laney: Now to show Haze Shenron how it's wrong to pollute the world! Ready Pan?

Pan: You know it Laney!

Laney and Pan fired a green and blue Kamehameha Wave! It hit the rest of Haze Shenron and completely obliterated him. Laney caught the 2-Star Dragonball.

Laney: Got it!

Eddy: The Dragonball is blue and there's a huge crack in it.

Luan: And the stars are black too.

But then the crack started to weld shut and it turned back to an Orange Dragonball with red stars again.

Laney: It's back to normal.

Brittney: One down and six to go.

Laney then saw something really unusual on the ground.

Laney: Huh?

Laney picked it up and it was a necklace in the shape of the kanji for Pollution. 汚染.

Laney: What's this?

Haze Shenron: (From the necklace) You have defeated me Laney Loud. This necklace has all of my powers and it will grant you all of my powers. Use all my powers for your cause.

Laney: Interesting.

Laney put on the necklace and she got all of his powers.

---

Group 2: Lincoln, Gabrielle, Brittney, Elena, Shocker, and Linka VS Rage Shenron

---

In a nearby town from where Group 1 defeated Haze Shenron, Lincoln and his group were searching for the 2nd of the Shadow Dragons. But all over the streets and everything that's electrical, there were globs of living purple slime sucking up electricity all over the place.

Lincoln: Ew! What is all this!?

Linka: It sure is gross whatever it is.

Lincoln touched the slime and he sucked in all the electricity it absorbed and it made him far more powerful.

Lincoln: Whoa!

Linka: Whoa is right. Lincoln what happened?

Lincoln: It made me more powerful than ever when I sucked in all it's electrical energy it took.

Gabrielle: (British Accent) Whatever this slime is, it's not normal.

Shocker: No kidding.

The 5-Star Dragonball lit up on Brittney's back.

Brittney: The 5-Star Dragon is approaching?

?: (Electrical voice) (Laughs) I've been anticipating your arrival, Team Loud Phoenix Storm.

They turned and they saw the 5-Star Dragon, RAGE SHENRON - The Dragon of Lightning!

Rage Shenron: My name is Rage Shenron and I want to thank you all on the defeat of that fool Haze Shenron, even if he is easily the weakest of the Shadow Dragons.

Lincoln: So you are Rage Shenron.

Linka: You got to be kidding me.

They saw that he was only 3 feet tall! He was a shrimpy dragon.

Shocker: You're only three feet tall. How can you pose that big a threat?

Gabrielle: Don't underestimate him Herman. He may look small but he's as dangerous as they all come.

Lincoln: Gabrielle's right Herman.

Linka: Yep.

Lincoln and Linka fired a massive blast of energy and blew him apart and the 5-Star Dragonball returned to normal. Lincoln also found a necklace in the shape of the Kanji for Thunder. 雷 He put it on and he got all of Rage Shenron's powers and abilities and it enhanced his lightning powers 500 quadrillion-fold.

---

Group 3: Lori, Rubberband Man, Teresa, Arpeggio, Inque, Brittney and Lily VS Oceanus Shenron

---

They third group arrived in a small fishing village.

Inque: It's a small fishing village.

Brittney: The Dragon has to be around here somewhere. It's the 6-Star Dragon.

Teresa: This dragon is elusive I'll give it that.

Arpeggio: (British Accent) It sure is.

But then they got an unexpected and unpleasant experience. Hundreds and hundreds of fish, lobster, octopuses, crabs and clams fell from the sky and it was A LOT of it.

Lily: Look at all this fish!

Teresa: There's so much of it!

Lori: Where did all this fish come from?

But then all the people of the village came.

They got shovels and wheelbarrows and carts.

Man: Hey get the cart. We need to grab as much mackerel as we can and get to the market!

They piled as much fish into their carts as they could.

They gathered a lot of fish and the group had a lot of fish as well for lunch.

Brittney: This oughta keep us all fed for lunch.

Lori: Yeah and then some.

Teresa: I'm hungry.

Man 2: (Laughs) As far as I'm concerned Princess Oto's our savior. If she weren't around we would have to catch the fish ourselves.

Then a boy named Colm appeared on the boat next to them.

Colm: (Irish Accent) Listen to yourselves everyone!

Brittney: Huh?

Colm: How can you expect a little princess to make all those fish fall from the sky? Don't you think that's strange? Something awfully wrong is going on around here dad!

Brittney: What do you think it is?

Colm's dad: Look Colm, stop making me look like a fool would ya? Don't you have friends you can play with? Huh?

Colm: All of my friends dads are fishermen and they're unemployed now! My friends can't even play ball because they have to make money for their families!

Lily: That is too sad.

Colm's dad: (Growls) I'm sick of hearing this!

He threw his flask at his own son!

Colm: Wait dad!

Lily flew up and caught it. Colm was amazed that Lily was flying.

Lily: What the hell is wrong with you!? You shouldn't throw things at your own children! People that do that have absolutely no love at all!

Colm's dad: And just what would you know about it? I don't know who you are kid but you better get home to your mama!

Lily: For your information you old clod, I am Lily Loud, a member of the all powerful Team Loud Phoenix Storm.

She threw the flask back at him and it hit him in his head and knocked him out!

Brittney: That will teach you to respect your children!

They left.

Brittney couldn't help but feel sad for Colm.

They were then frying the fish they caught.

Brittney: I'm sorry about your father Colm.

Colm: It's all right Brittney. But thank you.

Lily: So what's going on here?

Colm: Ever since Princess Oto appeared out of nowhere, the fishing business has vanished from our village. Now small children are being put to work while their parents act like brainless servants to the princess.

Teresa: Oh man.

Arpeggio: That is so unusual.

Lori: It's literally like a bad fairy tale.

Lily: Who is this Princess Oto?

Colm: I don't know. That's just what everyone else calls her. And now the adults parent all day and night like they have no responsibilities. The kids don't deserve that.

Lily: Boy it sounds like this whole village is in a lot of trouble.

Colm: Indeed. Every day more fish fall from the sky more than we can handle and all the leftover fish ends up rotting in the streets and polluting the village.

Brittney: That's terrible. This is overfishing and slavery on steroids. The situation is worst than you think Colm. The 7 Shadow Dragons are behind all this. We relied too heavily on the Dragonballs and now we've unleashed them. And if we don't stop them, they will kill us all and destroy the entire universe.

Colm: (Gasps) That's terrible!

Brittney: It is. That's why we have to stop them.

Then the 6-Star Dragonball on her back glowed.

Brittney: The Dragon is here!

They saw the dragon. It was the 6-Star Dragon OCEANUS SHENRON - the Dragon of Water and Wind!

Colm: (Gasps) It's Princess Oto! The one I was telling you about.

Brittney: That's no Princess. That's the 6-Star Dragon!

She was a beautiful blue-skin girl with aqua blue eyes and long blue hair that went down to her ankles and she had a blue long dress on. She had the 6-Star Dragonball imbedded in the middle of her forehead. She had water swirl around her feet and she caused it to rain fish again.

Colm: So that's one of the Shadow Dragons?

Lily: Yep.

Colm's dad and another man went to the beach to get some fish.

The villagers then came.

Brittney: Your princess is not what she seems.

Man 3: What do you know girl?

But Colm's dad and the man were blown away and Teresa and Lily caught them.

Brittney: See what I mean? She may look like a pretty princess with gifts for everyone, but she's really an evil and extremely dangerous dragon born from overusing the Dragonballs. She and the Shadow Dragons are going to kill us all if we don't stop them!

Colm: She's right.

Lily: Get inside to safety. We'll handle this.

The villagers did so.

They faced her.

Lily: So you are one of the 7 Shadow Dragons.

She flew up to them.

Oceanus Shenron: Uch. I can't believe a little girl would talk like that. You may call me Oceanus Shenron, commander of the water and the air.

Lori: Two of the most powerful elemental forces of nature.

Teresa: (to Oceanus Shenron) So, how're we gonna do this?

Brittney: Let me handle this Teresa.

Brittney flew over.

Brittney: Oceanus, my name is Brittney Knudson and this is a strange and long story I have to share with you.

Oceanus Shenron: What is it?

Brittney: Look into my eyes and see.

Brittney showed her a vision of what went down in the future before she and her siblings and family got sent into the past to be with us. She showed her that Brittney was given the 6-Star Dragonball for her birthday when she was a little girl and she loved it like a special gift. She would take the 6-Star ball with her and keep it with her as a powerful metaphysical spirit guide. She knew about Oceanus Shenron being inside it and how she can help her achieve great things. She would turn to her for advice and more.

Oceanus Shenron was shocked. She saw her best friend Brittney Knudson standing right in front of her eyes.

Oceanus Shenron: It is you. Brittney!

They went and hugged each other.

Everyone else was really shocked at what they saw! Later they revealed everything.

Lily: So you've known each other since you were a little girl Brittney?

Brittney: I've had the 6-Star Dragonball since I was a little girl. It was before I embraced the Gothic Subculture.

Oceanus Shenron: It's true. She has been a long time friend for me.

They got her to change her ways. Lily was given a necklace in the shape of the kanji for Ocean. 海洋 And she got all of Oceanus Shenron's powers as well as the 6-Star Dragonball. Oceanus Shenron was now a full fledge human with all her powers as a Shadow Dragon.

---

Group 4: Lynn, Sandman, Brittney, Clayface, Karai, Xion, Earth and Tara VS Naturon Shenron

---

In another city, Group 4 was searching for another Dragon. Suddenly there was a massive earthquake!

Lynn: Whoa! What an earthquake!

Tara: It's not me causing it!

Karai: (Japanese Accent) Stay close!

Earth: This is a huge Earthquake!

Then they heard singing?

Brittney: Is that singing?

Then the 7-Star Dragonball lit up on her back.

Brittney: The 7-Star Dragon is coming!

Clayface: I hear him!

Then out came the 7-Star Dragon, NATURON SHENRON - The Dragon of Earth! He was a giant mole dragon!

Xion: Whoa! This has to be the biggest dragon of them all!

Sandman: That is a huge gopher.

Naturon Shenron: What's going on here?

Brittney: Are you Naturon Shenron?

Naturon Shenron: I am.

Karai: Then you have the 7-Star Dragonball.

Tara: So hand it over!

Lynn: Lets get him!

They went at him and they pulverized him into oblivion and destroyed him all over the place and they fired a massive glob of lava and earth and fired a massive blast of energy and obliterated him.

Sandman got the 7-Star Dragonball.

Sandman: Got it.

Lynn got a necklace in the shape of the Kanji for Earth. 地 And she got all of Naturon's powers.

Group 5: J.D., William, Olga, Shego, Francis, Brittney, Sam S.L., Lea, Michael Munroe, Starfire and Lola VS Nuova Shenron

The 5th Group with me, William, Shego, Francis, Brittney, Sam S.L., Michael Munroe, Starfire, Lea and Lola were in a village destroyed by a nearby volcano.

Me: Whoa. This whole village has been incinerated.

Sam S.L.: What happened here?

Lola: Looks like a volcanic eruption.

Francis: It sure does look like it.

Lea: This is a nightmare.

Brittney: There is a dragon here. I feel it.

Francis: I feel it too.

Michael Munroe: I can sense it too.

Olga: I feel it too.

Me: But where is the dragon?

Lola: I don't know. But the Sun looks brighter than usual.

We then saw it get bigger.

Shego: It just got bigger!

Me: It sure did.

We then saw a glowing figure jump down and landed in front of us in a massive fiery explosion and we saw the 4-Star Dragon, NUOVA SHENRON - The Dragon of Fire!

Shego: Try that again! You monster!

Nuova Shenron: (Fiery voice) (Laughs) You people create your own monsters just like you created me. I am Nuova Shenron, the invincible 4-Star Dragon.

Lola: This guy's a dragon?

Starfire: He sure doesn't look like one.

Me: And I don't see a dragonball on him.

He turned and faced us.

Nuova Shenron: (Chuckles) (Holds his hand out) Maybe you should look a little closer.

The 4-Star Dragonball appeared and it was imbedded in the palm of his hand.

Me: Master Goku had the 4-Star Dragonball ever since he was a little boy. You were born when King Piccolo wished for his youth and got his full power back right?

Nuova Shenron: That is correct.

Me: By all accounts, that is the most selfish wish ever made on the Dragonballs next to Garlic Jr. wishing for immortality.

Lola: Wow. How many wishes were made on the Dragonballs?

Me: Lets see.

I pulled out a list of the wishes that were made on the Dragonballs.

* * *

9. Dende wishes everyone on Namek to be transported to Earth except for Goku and Frieza. (Granted by Porunga)

10. Wish for Krillin's soul to be moved to Earth, and then to be brought back to life. (Granted by Porunga, two wishes)

16, 17 & 18. A wish to restore the recently destroyed planet Earth, another wish to revive all those killed since the morning of the 25th World Martial Arts Tournament back to life except for those that are evil, and the last wish to restore Goku's strength so he could completely fire the Spirit Bomb. (Granted by Porunga)

19. A wish for all memories of Majin Buu's havoc on Earth to be erased, except from the Z Fighters, and the other supporting characters. (Granted by Shenron, made using the remaining wish saved up from the last summoning; spawned Eis Shenron acorrding to Dragon Ball GT Perfect Files).

20. Pilaf wishes for youth for himself and for his gang. (Granted by Shenron, set during the Android conflict)

21. King Kai asks for Moori's permission to use the Namekian Dragon Balls to revive his planet. King Kai thinks of having a bigger planet with a race track, a beautiful house, and less gravity. Goku shows up and uses the wish to keep it the same as was previously because having ten times gravity is great for training. (Granted by Porunga)

22. Goku wishes for the knowledge of the Super Saiyan God. (Granted by Shenron)

23. Kibito Kai wishes to be split into Shin and Kibito. (Granted by Porunga)

41. A wish to revive all the people who were killed during the Super 17 and Shadow Dragon Sagas. (Granted by Shenron)

42. Shenron was able to revive people who had been wished back to life using the Earth Dragon Balls before because the wish was a special wish granted to Goku and the Z Fighters by Shenron without being summoned by the Dragon Balls, before he parted from the Earth.

43. Penny's wish for the end of the rubies.

44. Goku wishes for Bora to be revived.

45. Goku wishes for Shenron to rebuild Android 8 and remove the bomb inside him.

48. Bulma, Gohan and Krillin wish to restore the forest.

49. Lord Slug wishes for his youth to be restored.

50. Goten wishes that his father were there, and an image of Goku appears; though this creates an interesting plot hole. First, Shenron does not appear when Goten tries to summon him; second the sky is not even dark when the wish is made. Also at this point, Dende had powered up Shenron to grant three wishes, though when the Dragon Balls read Goten thoughts about wishing Goku was there to help them, the Dragon Balls still scatter at the end of the movie.

51. Hoi wishes to unlock a box he found. (Tapion was in it).

52. As they say their goodbyes to Tapion, Goku and friends mention that they will summon the dragon again to wish all the people back to life who died during the battle against Hirudegarn (this part of the conversation is mentioned in the Japanese version).

53. The Pilaf Gang wished for their youth prior to the events of the movie.

54. Beerus demands Shenron to tell the Saiyans how to make a Super Saiyan God, allowing the Saiyans to learn how the form is attained, ultimately leading to Goku achieving the form.

55. Frieza Force's Sorbet and his body guard, Tagoma, wish to revive the galactic tyrant Frieza so he can restore the Frieza Force's evil empire, the single most evil wish ever made with the Earth's Dragon Balls. Frieza is revived as he was just before his death via the finishing blast of Future Trunks' Shining Sword Attack, as Mecha Frieza and in pieces. Sorbet and Tagoma collect all of the pieces of Frieza and put the organic parts in a healing chamber; Frieza's body is regenerated and he reverts himself back into his first form, thus setting in motion the events of the film.

56. Shu wishes for one million zeni.

57. Bulma says she'll gather the Dragon Balls to revive North City since Frieza destroyed it.

58. Cheelai wishes for Broly to be saved and sent back to Planet

Vampa.

59. In Age 850, Xeno Trunks uses the Dragon Balls of Toki Toki City to summon a warrior who could defend history (the customizable main protagonist of Xenoverse). This warrior later defeats the Demon God Demigra and becomes the Hero of Toki Toki City.

60. In Age 778, Demigra uses the Earth's Dragon Balls to revive Frieza, Cell, and Kid Buu in order to use his Dark Magic to possess and control them creating The Bosses.

61. Chronoa uses Toki Toki City's set of Dragon Balls (as Dende had created multiple sets by Age 850) to summon Shenron and wishes that Goku be informed of the threat posed by Demigra and revived Bosses in Age 778.

62. In the altered timeline of Age 779, Cooler is revived after his brother Frieza using the Dragon Balls second wish. This allows him to partake in Frieza's revenge after having been rebuilt as Metal Cooler.

63. In an altered timeline of Age 850, Towa kills Shenron to stop Xeno Trunks from making his wish but she is thwarted by the 2nd Future Warrior, allowing Xeno Trunks to make the wish, restoring the Toki Toki Hero's existence.

64. After the defeat of Final form Mira and the return of Tokitoki's Egg, at the insistence of Tokitoki and Beerus, Chronoa uses Conton City's set of Dragon Balls (the same ones she used in Xenoverse) to summon Shenron and wishes for a feast that will leave everyone satisfied. After the feast, Chronoa explains that the food came from Earth as the Dragon Balls were created by Dende and she reveals that he created several sets of Dragon Balls.

65: After the final events of Rise of The Angel Shinobi, I used the Dragonballs to reunite Team Loud Phoenix Storm from 150,000 years into the future and bring us back into the year 2019 with full knowledge of what happened.

We were shocked!

Me: Holy shit! We used the dragonballs more times than what we first originally thought!

Lola: So we used the dragonballs 65 times!? That's insane!

Lea: It sure is. I thought it was over 30 times.

Me: That was my first thought.

Shego: Now we REALLY should use the dragonballs as a last resort.

Me: The last one is because of me.

Nuova Shenron: You had a good cause for the last wish 150,000 years hence. And I'm sorry that happened to you.

Me: I appreciate your concern Nuova. Shall we see what you are made of?

Nuova Shenron: Lets shall.

I went at him and we were really going at each other with incredible speed. Nuova Shenron flared up his Heat Armor and it emitted a temperature of 10,832˚ Fahrenheit and the power of Nuova Shenron's fire made me far more powerful than ever.

Me: Whoa! What incredible fire!

Nuova Shenron fired a powerful barrage of little fireballs from the air and I was dodging them all and deflecting them and absorbing them.

Me: Whoa! What power!

I fired an energy blast and his heat protected him from it and rendered it useless.

Me: Whoa! Energy blasts are useless on him.

He landed and formed a magnifying glass lens and fired a focused beam of sunlight fire like a deadly laser and I dodged it and it hit the ground and exploded.

KRABBOOOOOOOOOOOOOOOMMM!

Me: I know this technique. And it's very genius.

He fired another laser and formed numerous lenses and fired a barrage of lasers and I dodged them all and fired an energy blast at the lens and shattered it.

Me: That was really ingenious. The sun gives you infinite power.

Nuova Shenron: You are correct. The Sun gives me an endless supply of energy.

Me: Also you're hiding your true power. I know.

Nuova Shenron: You are very perceptive. All right then. No more games.

Then he screamed and his body cracked apart and his skin shattered and his true form was revealed! His skin was now neon orange!

Me: Whoa! Impressive. So this is your true form I take it.

Nuova Shenron: Yes. You have drawn me out of my shell so to speak. What you see before you is my ultimate fighting form. And now that I've raised the stakes it's your turn. It's time to ante up or fold.

Me: All right then. Time to kick it to the extreme.

I flared up my power and released the full extent of my power! I was now in my Super Ebonwu 30,000 Phoenix Firestorm form at full power.

Me: Here we go. (Chuckles) What do you say we get started?

Nuova Shenron: I couldn't agree more.

(Within Temptation's Forsaken Plays)

I fired a red energy blast and Nuova Shenron fired a fire energy blast and the blasts collided and formed a massive energy dome and they exploded with unbelievable power.

KRABBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

We went at each other with incredible speed and strength and we were punching and kicking each other with indiscriminate fury and unimaginable force. I punched Nuova in the face and he kicked me in the stomach. He fired a fire energy blast at me and I dodged it and fired a powerful fire energy blast as well and he dodged it and I punched him in the face and I kicked him in the stomach and he fired a powerful ball of fire at me and I dodged it. I fired fire energy blasts at him as well and he dodged them with incredible speed! He was moving incredibly fast! We were punching and kicking and blocking our punches and kicks! Massive fiery thunderous shockwaves were exploding out all over the area and setting much of the entire area on fire! The whole area around us was now a massive raging epic conflagration! Towering walls of fire were incinerating the area.

Lola: Wow! Look at them go!

Brittney: Incredible! What speed and power!

Shego: Unbelievable! I've never seen them move so fast!

Francis: It's so fast that not even I can't keep up!

As the fight with Nuova raged on, the others were looking for the other Shadow Dragons.

---

Group 6: Lana, Nikiya, Bai Tza, Brittney, Maria, Killer Frost, Poison Ivy, and Nico VS Eis Shenron

---

In a snowy land, Group 6 was looking for the next dragon.

Lana: It sure is cold here. I like it.

Nikiya: It is a beautiful place though.

Brittney: The 3-Star Dragon is up ahead.

The 3-Star Dragonball was glowing on her back. Then they saw the 3-Star Dragon, EIS SHENRON - the Dragon of Ice!

Eis Shenron: So you all came. I am Eis Shenron, the 3-Star Dragon.

Lana: So you are Eis Shenron. You don't look like a dragon.

Nico: Do let his appearance deceive you. He is a dragon. And a cold one at that.

Brittney: Not only that. But he gives a whole new meaning to the saying Cold As Ice.

Nikiya: His power is incredible!

KRABBBOOOOOOOOOOOOOOOOOOOOOMMM!

A massive explosion was seen in the distance and they saw the battle with me and Nuova Shenron going on now.

Lana: Whoa!

Nico: Whoa! What a battle!

Eis Shenron: So my brother is fighting Goku as we speak.

Nico: No he isn't. He's fighting my best friend J.D. Knudson.

Eis Shenron: Then I will help my brother defeat him.

Lana: Not if I can help it! Wait. Did you say that one of the dragons is your brother?

Eis Shenron: That's right. Nuova Shenron is my brother.

Nico: So the dragons of Fire & Ice. I had no idea that you guys are all siblings.

Eis Shenron: That is correct.

Lana: You were made when Goku wished that everyone's memories about Majin Buu be erased right?

Eis Shenron: That is right. You are very perceptive. I'm impressed.

Lana: Lets see how strong you are against me.

Lana then transformed into her Super Angel 20,000 Ice Owl form.

Lana: (Older voice) Lets dance.

They went at each other and Lana punched him in the face and fired a massive blast of energy at him and it blew his right arm off and he screamed in pain and Eis Shenron then did a dirty move. As Lana was about to fire the finishing blow, he flew behind Nico and vanished.

Lana gasped.

Nico saw this.

Nico: What the fuck?!

Brittney: Eis Shenron is a total coward. He uses dirty moves to do anything he can to win no matter what.

Nico: Eis Shenron has failed this universe!

But Lana was quick to analyze and she sensed him coming behind her with claws made of icicles and she punched him in the stomach with devastating force and her punch was so powerful that it went all the way through his chest and out through his back! Lana had nasty slash wounds appear on the right side of her face and they dripped blood. Lana had a nasty injury. But she had beaten Eis Shenron and she fired an energy blast and obliterated him.

Lana: Nice try Eis.

The 3-Star Dragonball was in her hands and she had a necklace in her hand in the shape of the Kanji for Ice. 氷

Nico: Way to go Lana!

Brittney: Great job.

Lana: It was nothing.

Nikiya: He sure got you good Lana.

Brittney: No kidding.

## Group 7: Lucy Loud, Brittney, Maggie, Shannon, Riku, Demona, Stewie, Bowser Jr. and Goku VS Syn Shenron

Group 7 was searching for the 1-Star Dragon. They were in an abandoned city.

Brittney: The 1-Star Dragon is the most powerful of them all. He's gonna be one helluva challenge.

Lucy Loud: Then we have to be ready for him.

Stewie: He's gonna be a rough one though.

Riku: No kidding.

Maggie: But we're ready.

?: Then you will have your wish.

They then saw the 1-Star Dragon, SYN SHENRON - The Dragon of Negative Energy!

Brittney: Syn Shenron!

Syn Shenron: So we meet at last Team Loud Phoenix Storm.

Goku: Whoa! His power is incredible!

Demona: Why are you doing this to the Earth?

Syn Shenron: It's for judgement. This isn't a game. And how dare you criticize Goku's creation? We're here because of you, Goku.

Goku: What do you mean!?

Syn Shenron: All of the Shadow Dragons were born because you misused the Dragonballs. Remember? It all started with you. Your world is crumbling because of your actions. You were warned about the overuse but you didn't listen. This is all your fault Goku.

Goku: Everything we wished for has always been for the good of the planet. Old Kai warned me and I felt bad for doing it. But I never made a selfish wish. Every wish made on the Dragonballs was important.

Lucy Loud: If you want to destroy our planet, you'll have to go through us!

Lucy punched Syn Shenron in the face and fired a massive blast of black lightning at him and he screamed in pain!

Goku kicked him in the face and Brittney punched him in the stomach and fired a massive energy blast at him and it hit him and exploded.

KRABBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOMMM!

Syn Shenron was injured. But then he flew to where I was having my battle with Nuova Shenron.

Brittney: He's getting away! After him!

They flew after him!

## OMEGA SHENRON!

The battle with me and Nuova was raging on. Our power was equal. He was the most formidable and most incredible adversary I've ever faced. Everyone saw the battle and we all regrouped.

Nuova Shenron: You are a worthy opponent J.D.

Me: Same to you Nuova. You are the most formidable adversary I ever faced.

Nuova Shenron: I surrender to you J.D.

Me: But why Nuova?

Nuova Shenron: Because I am a dragon of honor.

He handed me the 4-Star Dragonball and a necklace in the shape of the Kanji of Fire. 火

Nuova Shenron vanished and the Dragonball was back to normal.

Me: He really is a formidable adversary. And a truly honorable dragon.

But then I saw Syn Shenron coming and we were ready for him!

Oceanus: Syn Shenron!

Syd: Whoa! His power is incredible!

Vegeta: But look at him. He's hardly even worth my time.

Me: Don't let his appearance deceive you Master Vegeta. He is the 1-Star Dragon and he's incredibly powerful.

Syn Shenron: That's right J.D. But I am disappointed in myself for underestimating your friends abilities. A mistake I do not intend on making again.

His eyes glowed red and all the dragonballs went into his mouth!

Pan: He's gonna eat them all!

He swallowed the Dragonballs!

Then he flared up a tremendous aura!

Syn Shenron: Now look at me. Don't you see? This is my true form.

The form I use to stand at the Pinnacle of Dragon Power!

We were shocked as we saw him change right in front of our eyes! We then saw that he had all 7 of the dragonballs imbedded in his chest!

Pan: NO! He has got all of the dragonballs!

Gohan: His power is unreal! I don't think we've ever faced anyone this strong before!

Oceanus: Oh no!

HE WAS NOW KNOWN AS

**OMEGA SHENRON - THE ULTIMATE HARBINGER OF ULTIMATE UNIVERSAL ARMAGEDDON!**

Omega Shenron: (Godly voice) **Behold. The body of Syn Shenron has absorbed the abilities of all 6 of the Shadow Dragons to create a dragon of one body that fights with the power of seven.**

Goku: What!? All seven of you are one!?

Me: His power is incredible! He now has a power level of 1.9 billion! His power is completely inconceivable!

He was laughing malevolently.

Nico: Holy shit! His power is incredible!

Me: But we've dealt with opponents like this before. Lets power up and take him down!

We all transformed to our full power and we really went at him! I punched him in the face and sent him flying and he crashed into the ground!

KRABBOOOOOOMMM!

Nico kicked him in the back and sent him flying. He fired an energy blast and it hit him in the back and exploded.

KRABBBBOOOOOOOOOOOOOOOOMMMM!

Lincoln: DRAGON THUNDERCLAP!

Lincoln used Rage Shenron's power and fired a powerful blast of lightning from his fingers and it hit Omega Shenron in the chest and exploded.

KRABBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOMMM

Nikiya fired a massive purple energy blast at Omega Shenron and it hit him in the face and exploded.

KRABBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Nico: OMEGA SHENRON, YOU HAVE FAILED THIS UNIVERSE! WHIRLWIND SPIN!

The 6-Star Dragonball on his bracelet lit up and he fired a massive vortex of energy razor wind and it spun Omega Shenron around.

Nico: MIGHTY HURRICANE FURY!

Nico spun Omega Shenron around in a massive vortex of wind.

Oceanus: AIR SHATTERING ENERGY BALLS!

Oceanus fired a massive barrage of energy balls made of concentrated wind and they all hit Omega Shenron and exploded with incredible power!

KRABBBOOOOOOOOMMM!
KRABBOOOOOOOOOOOOOOMMMMM!
KRABBBOOOOOOOOOOOOMMM!
KRABBOOOOOOOOOOOOOOOMM! BOOOM BOOOM BOOOM
BOOOM BOOOM BOOOM BOOOM BOOOM!
KRABBBBBBBBBBBBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOO

Lola fired a massive blast of fire at Omega Shenron and it hit him and exploded!

KRABBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOMMM!

Rachel S.D.: SONIC BLAST!

Rachel fired a massive sonic energy blast and it slammed into Omega Shenron and exploded with incredible power!

KRABBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Edzilla: (headbutts Omega Shenron) ED SMASH PUNY DRAGON!

Nikiya charged up a massive energy blast.

Nikiya: SHOOTING STAR BURST!

Nikiya fired a massive purple energy wave and it resembled a massive shooting star! It slammed into Omega Shenron and exploded with incredible power!

KRABBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Pan saw the battle happening before her and she had to figure out how to help out somehow.

Pan was in a lot of stress. But then something snapped inside her. She wanted to help out but every time she did it resulting in her being knocked out. She was knocked out during the fight with Super 17, the fight with Baby and many more times. She realized that she was not strong enough! But now she has to be more stronger and more powerful than ever before or else she is gonna lose everyone and her home and the entire universe! She was enveloped in a golden aura and the ground shook violently and she then screamed in an incredible roar of power and she transformed! She had become a SUPER SAIYAN! But there was something different about her transformation. Her power level was now 100,000 times more powerful than Goku's when he faced Baby! She also had lightning around her body.

Me: Whoa! Pan! What happened to her?

Gohan: I don't believe it! She did it. My little girl is now a Super Saiyan.

Goku was amazed. We all were.

Pan glared at Omega Shenron with the face of a ravenous lion ready to strike her prey!

Pan: I will never forgive you for all your crimes Omega!

She flew at Omega Shenron with incredible speed and punched Omega Shenron in the face with devastating force and she slammed her fist into his stomach and kicked him in the chin with a deadly kick and she kneed him in the nose and punched him in the chest and fired a massive energy blast at him and it hit him and exploded with incredible power!

KRABBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Me: Whoa! What power!

Nikiya: Unbelievable!

Gohan: She has far surpassed me in every way imaginable.

Krillin: Amazing!

Piccolo: I can't believe it. She has surpassed Gohan? How is that possible?

Vegeta: Gohan's daughter is a force to be reckoned with. Never has there been a female Super Saiyan.

Me: Not until now Master Vegeta. Lets get him!

We all went at Omega Shenron and hit him with all our powers and more! It was a ferocious battle that threatened to tear the entire planet and the entire universe apart!

I fired energy blasts at Omega Shenron and they hit him all over and exploded and Nico punched him in the face and kicked him in the face and kicked him in the chest and stomach all over. Lana fired a powerful blast of ice lightning and froze his hands and kicked him in the face and punched him in the mouth and knocked out one of his teeth. Lola kicked him in the face and fired a massive blast of fire and burned him and Carol fired Godzilla's Atomic Ray, Space Godzilla's Corona Beam and King Ghidorah's Gravity Rays and they all hit him and exploded. Goku fired a Kamehameha Wave, Vegeta fired a Final Flash, Nico fired a Special Beam Cannon, Gohan fired a Masenko, Trunks fired a Burning Attack, Pan fired Kamehameha Wave, I fired a Final Shine and Krillin fired a Kamehameha Wave and the blasts all hit Omega Shenron at once and exploded with incredible power.

KRABBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Me: Lets see you handle this! NOVAFORCE KAMEHAMEHA!

I fired a Kamehameha Wave made entirely out of pure fire and it hit Omega Shenron and exploded with incredible power.

KRABBBBBBBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Brittney: Here's a technique I invented. DARKSTORM KAMEHAMEHA!

Brittney fired a massive pitch black Kamehameha Wave and it had black lightning all over it and it slammed into Omega Shenron and exploded with incredible power!

***KRABBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO***
!

The explosion was so powerful and so devastating that the explosion could be seen from space.

When the smoke cleared, Omega Shenron was badly hurt and injured. He was completely overwhelmed by our power.

Omega Shenron: **I HATE YOU ALL!**

Our auras flared up with incredible power!

Me: You can hate us all you want Omega. But we will destroy you.

Omega Shenron: **YOU'RE FUCKED UP! I WILL DESTROY YOU ALL BEFORE I LET THAT HAPPEN! *ON MY HONOR I PROMISE***

***TO KILL YOU AT ALL COSTS!*** (SCREAMS)

The Dragonballs in his chest all glowed and they fired red beams of light into the sky and formed a massive energy ball of red energy!

Me: Whoa! It's his Negative Karma Ball!

Nico: He's not the only one that can do that!

Nico did the same thing and formed a Negative Karma Ball.

Omega Shenron: **This is the sum of all history's dark deeds. Humanity itself has given me live and armed me with this power and I intend to use it!.**

Nico: So will I, Omega.

Omega Shenron and Nico: N**E**G**A**T**I**V**E**K**A**R**M**A**B**A**L**L!

They fired their techniques at the same time and they collided and they struggled. Nico's Negative Karma Ball pushed Omega Shenron's Negative Karma Ball and they both hit Omega Shenron and exploded with incredible power!

***KRABBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO***

The explosion was so massive, so powerful and so devastating that it shook the whole fabric of the entire universe to the core and it was so powerful that everyone all over the galaxy felt its incredible power! When the smoke cleared, Omega Shenron was only half of what he was. He had his arms and his legs blown off and his horns were destroyed and his spines were gone and his chest was blown apart with the dragonballs hanging from him.

Me: Whoa! Nico you really did a number on him. Well done!

Nico: Thanks J.D.

Me: His power has taken a very massive drop. Lets finish him for good!

Beachcomber: Roger that boss! CYBER KEY POWER!

The Earth Cyber Planet Key went into his back and enhanced his weapons and power 100-fold.

Nico: Lets get him Amooguss! ANIMATRON CYBER KEY POWER!

The Animatron Cyber Planet Key went into his right arm device and it enhanced his Amooguss's power 100-fold.

Nico: Amooguss, use Solar Beam!

Beachcomber and Nico: SOLAR STORM PLASMABOMB!

Beachcomber fired a powerful plasma blast and Nico's Amoogus fired a massive beam of sunlight and the blasts combined and they hit Omega Shenron and exploded.

KRABBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOMMMMM!

Acid Man: Time to melt him with my latest experiment! GIGANTION CYBER KEY POWER!

The Gigantion Cyber Planet Key went into Acid Man's right arm and it enhanced his Acid Barrier 1,000-fold.

Shrapnel: Lets get him! CYBER KEY POWER!

The Animatron Cyber Planet Key went into his back and enhanced his lightning abilities 100-fold.

Acid Man and Shrapnel: LIGHTNING CORROSION DEATH BEAM!

Shrapnel fired a powerful blast of lightning and Acid Man fired a powerful barrage of acid globs and they combined and turned into a powerful beam of acidic lightning and they hit Omega Shenron and burned him and electrocuted him.

Vegeta: Any last words, Omega Shenron?!

Omega Shenron: **I will not be defeated like this!**

Me: Yes you will! Lets finish him!

(Goku's Spirit Bomb Theme Plays)

Goku formed a massive Spirit Bomb and he had to call on the Kai's to gather energy from all over the Universe and he formed a massive Spirit Bomb as big as the moon.

Pan: Lets finish him.

Pan then formed a red spirit bomb. Laney formed a Green Spirit Bomb. Nico formed an Orange Spirit Bomb, Nikiya formed a purple Spirit Bomb and Vegeta formed a Yellow Spirit Bomb.

Pan: This if for all the pain and suffering you caused to everyone! Spirit Bomb of Love!

Laney: Spirit Bomb of Life!

Nico: Spirit Bomb of Friendship!

Nikiya: Spirit Bomb of Kindness!

Vegeta: Spirit Bomb of Family!

Goku: Spirit Bomb of Unity!

Pan, Goku, Laney, Nico, Nikiya and Vegeta: UNIVERSAL SPIRIT BOMB OF THE POWER OF ONE!

They combined their Spirit Bombs together and it formed a powerful White Spirit Bomb as big as the whole planet and they threw it at Omega Shenron and it engulfed Omega Shenron and completely obliterated him in an instant! It went up into space and exploded.

***KRABBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO
OOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO
MMMMMMMMMMMMMM!***

The explosion faded and it was all over!

Me: It's over guys. We won!

We all cheered wildly.

Nico: We did it!

We fixed the planet and more. But Shenron then appeared without the sky turning dark.

Shenron: **Do you know why they ever had to appear at all?**

Me: We overused the dragonballs and we're sorry about that.

Shenron: **Yes. Following the barrage of enemies from your past, a final wish was made causing the balls to crack under the pressure of their Negative Energy. The Dragonballs were intended to be a thing of extraordinary magic and power. Something to be revered. Not for the ease of their method, but for the dream of never having to use them. I'm afraid I must separate myself and all of Earth from the Dragonballs for a long time.**

Me: I understand Shenron. And we're sorry about everything that happened.

We then made an oath that after everything that has happened with the Shadow Dragons that we would only call upon the Dragonballs only when needed.

We left the Simulator and Oceanus was with us and we had the Dragonballs put in our vault. Nico caught a Salazzle and Shiinotic. This was the most powerful and most explosively action packed battle ever!

Pan: (To the viewers) I hope you all enjoyed the show guys! This was a battle to remember.

Me: It sure was Pan.

We went to bed after an incredibly long and powerful battle!

THE END

Another Fanfiction and awesomely explosive battle complete!

WHOO-HOOO! This was awesome! The Shadow Dragons were without a shadow of a doubt, the most powerful villains Goku and the Z-Fighters ever faced in the whole Dragonball Series. This was an awesome and epic way to close out an awesome series. Goku's fight with the Shadow Dragons was easily one of his most epic challenges ever. Omega Shenron was the most powerful foe they all ever had to face. NicoChan11 gave me the ideas for this one. Thanks man as usual. Let me know what you all think.

See you all next time.

# Invasion of The Creeps

At the Sector V treehouse in the middle of our courtyard, Yuko, Qin, Lola and the Sector V KND members were watching TV and Numbuh 362 was with them.

Qin: So this is the Kids Next Door?

Yuko: Yep. It's a powerful ultra secret organization that is designed to protect all kids from the evil of Adult Tyranny.

Lola: And these are not the adults we know like our parents. These are adults that are evil villains.

Qin: Wow! Who was the most insidious one of them all?

Numbuh 5: That would be the Common Cold.

Yuko: You would not like this guy Qin.

Yuko went over the Common Cold's history.

---

The Common Cold is an eternally ill villain who wishes to spread his cold to everyone else in the world. He uses a machine to fire mucus from his nose at his enemies. He can routinely be defeated with orange juice. The Common Cold first appears in Operation: T.O.M.M.Y., in which Numbuh Two's brother, Tommy, aids the Common Cold out of jealousy for the KND, building a machine for him that transforms him into the "Flu Bug". Numbuh Two's mother used chicken soup to counter the machine and defeat the villain. The Common Cold never got a starring role in an episode again, but made several minor appearances. He is the boss of Operation: S.N.O.T.B.O.M.B.E.R. in Operation: V.I.D.E.O.G.A.M.E.. In Operation: S.N.O.W.I.N.G., it is revealed that he is the uncle of Anna Worthington, and was responsible for making Numbuh 1 sick to keep him from interfering with Jimmy's plans.

---

Qin: Geez! I had no idea he was that sick.

Yuko: Yeah. He is a really disgusting villain. He was always sick and wanted to give the whole world eternal sickness. The Flu can kill you.

Lola: Yeah. It's horrible.

Qin: That's sick! Who was the lamest villain of the KND?

Numbuh 4: (Australian Accent) That would be the Toiletnator. He was the stupidest villain we faced.

Qin: What was he like?

Yuko: He was a comic relief villain. Not all the villains we faced are that powerful. He was mostly used for Comic Relief.

Lola: Yeah every superhero or superhero team has to have a villain that's comic relief.

Qin: What does the Toiletnator do?

Lola went over his history. If you can call it that.

---

The Toiletnator, real name Lou Pottingsworth III, is a pathetically weak and incompetent antagonist (being considered the lamest villain in the KND world and absolutely no threat at all). He's a Toilet-themed super villain who is disregarded as a threat by the KND and considered an embarrassment or liability by other villains, in part due to his ridiculous (even by KND villain standards) motif. He possesses the power to control toilets and shoot toilet paper from his arms, which on occasion has actually been shown to be somewhat effective.

In the comic story, "Operation: H.I.S.T.O.R.I.E." Toiletnator's origin is revealed: he'd once been Lou Pottingsworth III, an executive for Evil Adult Industries Inc, before he was assigned by Father himself to become part of his company's operation to mass-produce their new vegetable: "Asparagross".

But when the Kids Next Door attacked the factory building site, Lou hid in a porti-potty and was trapped in there for several days when it was knocked under a large mass of rubble, forced to eat nothing but urinal cakes.

There, he was visited by "The Almighty Protector of Potty" (some form of toilet god), who'd chosen him to be its knight (the only reason being that he'd been the only one to use the bathroom in a while) and bestowed him with toilet-based powers, which he used to punish kids who wrote on the bathroom walls, misused toilet paper, and forgot to flush.

He first appeared as a joke character in Operation: N.O.-P.O.W.U.H., where he auditions to the Delightful Children From Down The Lane for the task of destroying Sector V, but is rejected and ejected through a window. In Operation: Q.U.I.E.T., he is one of the many characters who attacks the Sector V Treehouse while Numbuh 1 is asleep. In Operation: M.O.V.I.E., Numbuh 4, while disguised as an adult to get into "Violence: The Movie", which is actually a supervillain meeting held by Mr. Boss, he sits next to Toiletnator, who forms a one-sided friendship with him. After his identity is revealed, Toiletnator feels betrayed and blames him for ruining the "plan" he proposed, which was to capture Numbuh 4, and declares him his arch-nemesis. This "rivalry" is continued in Operation: F.L.U.S.H.. In a comic story, "Operation: H.I.S.T.O.R.I.E.", it's revealed that the Toiletnator is actually Numbuh 4's uncle and Sydney Beetles's long lost twin brother.

Toiletnator in Operation: F.L.U.S.H. stated that he wanted Mr. Boss to invite him to go bowling on Tuesdays. In Operation: M.I.S.S.I.O.N. where Toiletnator finally gets to go bowling with Mr. Boss, Numbuh 4 apparently blackmailed a group of villains into aiding him by lying and stating that they had consumed poisoned soda and Mr. Boss agreed on the conditions that the Toiletnator is not given the antidote.

Operation: F.L.U.S.H. features Toiletnator as the main character. After being shunned once again by his fellow villains (with Mr. Boss recanting a past incident where he let Numbuh One into their secret lair even though the operative's only disguise was a t-shirt with "I am not Numbuh One" written on it"), he attempts to prove his worth to them by becoming the "Terma-Toiletnator" and destroying the Kids Next Door. Unknown to him, however, the other villains have already initiated their attack on the Sector V Treehouse only to find that the KND are away from home and have taken it over for themselves. Toiletnator arrives at the Treehouse and, believing his allies to be Sector V, single-handedly dispatches all of them in a brief moment of competence. Knightbrace, who he believes to be Numbuh 4, is brutally flushed down a toilet. A similar situation happens in Operation: C.A.N.Y.O.N., where Toiletnator unknowingly ruins the other villains plans by destroying Mr. Boss's submarine.

In Operation: C.H.O.C.O.L.A.T.E., he cameos being seen in Kids Next Door Arctic Base prison cell next to the Iguana talking to two other older toilet-based villains, presumably his parents.

Another instance where Toiletnator demonstrated himself as a formidable combatant was in Operation: Z.E.R.O., where he is the first person to be turned into a Senior Citi-zombie by Grandfather. Later in the movie, he attacks Numbuh 1 and his father in their house, and successfully zombifies Tommy, who also happened to be there.

In Operation: A.W.A.R.D.S., Toiletnator loses the award for "best toilet-themed villain" to Potty Mouth (much to his disappointment) and his tuxedo gets covered from Common Cold's Snot Bomber. He was last seen in Operation: I.N.T.E.R.V.I.E.W.S. checking out the rides at the amusement park that made him so dizzy he threw up, instead of competing in the scavenger hunt like most of the other villains.

---

Qin: Boy he really was that stupid!

Yuko: Yep. The Toiletnator was a dumb one. We didn't kill him, so we banished him to an island off the southern tip of Africa. We call that island The Island Of Losers.

Qin: That's good.

Numbuh 1: But the most dangerous villain we faced was our ultimate enemy: Father.

Qin: I heard about him. He was the leader of the Adult Villains.

Yuko: He was without a doubt, the toughest adversary me and Lola ever faced.

Lola: I faced him first. Then Yuko the 2nd time.

Qin: What was he like?

Yuko: He was the worst Qin. His goal was to kill all the children and in doing so, he was going to wipe out the entire human race. He was Genocidal Tyrannical Parent.

Yuko went over Father's whole history.

---

Father was the brother of Monty Uno (Numbuh Zero) and son of Grandfather. Unlike his brother, Ben was too afraid to rise up against his father, and ran away. He later grew resentful of his brother overthrowing their tyrannical parent.

At some unknown point, he gained his powers and became the villain known as Father. He secretly kidnapped Sector Z and turned them into The Delightful Children From Down The Lane, adopting them as his own children, resulting in the Kids Next Door losing all contact with Sector Z, until the events of Operation: Z.E.R.O. when Numbuh One's father Monty (Numbuh Zero) discovered the truth and temporarily recommissioned them.

In a crossover with Villainous, it's revealed that he buys his technology from the Black Hat Organization, however, it's uncertain if this info is canon.

As a child in Great Britain, Benedict Uno was terrified of his own father, being extremely obedient despite his dislike for the man. When Monty Uno decided to rebel against Grandfather, Benedict insisted that they would stand no chance against him, and, as a result of his cowardice, he did not join Monty in the uprising, which ultimately did prove successful.

Sometime between this incident and the present day of the series, Benedict took up his father's mantle as the king of evil and ultimate oppressor of children, became a demonic being similar to Grandfather, and vowed to destroy the Kids Next Door. He also moved to the United States.

At one point, Father created the Delightfulization Chamber, a device designed to turn any kid into a mindlessly obedient and perfectly behaved child (most likely as a precaution for what happened between Monty and Grandfather, from happening to him). The first working Delightfulization Chamber was used on Sector Z. During the Delightfulization Process, the machine blew a fuse for reasons unknown, caused it to explode, and amplified its effects "eleventy billion-fold", which created the Delightful Children From Down The Lane, who from then on, would be Father's "children" and most powerful allies.

Other notable minions of Father include the Ice Cream Men, Six-Gum Gang and the Teen Ninjas, including his apprentice, Cree Lincoln and his captain, Chad Dickson. Father does not directly control the majority of the KND's rogues gallery, but frequently employs the services of other villains who, while otherwise operating independently, are readily willing to serve him.

Even the Delightful Children frequently appear without Father. Father is occasionally seen attending the villain meetings of Mr. Boss, who regularly functions as a leader of the series' lesser villains or as a second-in-command. In Operation: C.A.K.E.D.-F.O.U.R. and the comic story Operation: H.I.S.T.O.R.I.E., Father is said to be the head of a company called "Evil Adult Industries Inc."

It is also implied that Father employs several children similar to the DCFDTL throughout the world, as shown in the Interesting Twins From Beneath the Mountain and Rowdy Hooligans From Across the Square.

Father was first encountered by Sector V in Operation: G.R.O.W.-U.P., in which he admonishes the DCFDTL for their repeated failures against the KND. He allows his children to use the "Really

Really Incredibly Destructive Machine" to destroy the Sector V Treehouse; in the process, the Delightful Children also manage to transform Numbuh 1 into an adult with the Age Cigar. The remaining members of Sector V infiltrate the Delightful Mansion From Down The Lane to retrieve the cigar, with Numbuh 1 (now "Mr. Uno" the ice cream man) joining them to defeat the Delightful Children.

Sarcastically applauding Uno's success at defeating "a bunch of little kids", Father attacked with his devastating fire powers, but Sector V was able to triumph by covering him with all the ice cream in Mr. Uno's truck. As Numbuh 1 de-aged himself back to his old self and escaped with his team, Father could only lie on the floor, weakly ordering the DCFDTL to get his sweater.

His second major appearance was in Operation: G.R.A.D.U.A.T.E.S., the culmination of a story arc consisting of several loosely-related episodes. Here, he activates a device which creates a rapidly-expanding energy field that turns all KND operatives caught in it into animals. However, the field's reliance on the KND Code Module for its targets backfires when Tommy Gilligan decommissions himself, gaining immunity to the energy field. He proceeds to upload the DNA of the DCFDTL - and Father himself - into the KND Code Module, making them viable targets for their own weapon. Transformed into a panther, Father was locked in his own mansion's cages, allowing Tommy to free his trapped comrades and destroy the device producing the energy field. With the energy field gone, Father returned to normal, but the KND were long gone by the time he escaped his own prison.

Although Tommy's actions defeated him at the time, Father's failed scheme would bear surprising fruit in Operation: I.T. With his DNA in the Code Module, he was technically a KND operative; thus, he was able to infiltrate their Moon Base. Coincidentally, he arrived during the annual competition for leadership (a worldwide game of Tag, since nobody actually wanted the job), and Numbuh 2 was using the Code Module to track his fellow operatives. Currently "It", with ten seconds left to get rid of the status, Numbuh 2 threw open a door and blindly tagged the person behind it - unfortunately for him, Father was that person. As the villain gloated, the clock struck noon, officially making Father the Supreme Leader of the KND.

Convening the irate Operatives in the KND Super Convention Center, Father explained how his DNA was loaded into the Code Module by Tommy, thereby making him a member despite his age and decidedly anti-kid sympathies. Numbuh 86 and her team attempted to decommission him on the spot, but Father invented a new rule on the spot that prevented her from doing so. After the Decommissioning Squad stood down, Father claimed that he had turned over a new leaf; thus, he declared his intent to destroy all broccoli in the world. This action won most of the Operatives' trust, allowing him to dismiss them to their treehouses with minimal resistance. However, it was a ploy to put his foes in the way of his real aim: by infecting the KND Treehouse Central Root System with a "patent pending broccoli virus", Father planned to transform all treehouses into broccoli farms, thereby weakening the KND Operatives and providing enough broccoli to feed every kid in the world.

Numbuh 1 and Numbuh 362 attempted to trick Father into making them Supreme Leader - by complimenting him and offering advice on being Supreme Leader, respectively - but the villain was not fooled, that is, until he bragged about how he was carelessly tagged by Numbuh 2 and demonstrated on Numbuh 362, at which point 362 panicked and tagged the DCFDTL, who then panicked and tagged Father again, but in the process successfully started another game of tag. Father then created an army of clones to attack and confuse them until his status became permanent at noon.

However, his statement that no one liked broccoli proved to be his undoing: no happier about Father's plan than the KND, the Delightful Children returned the Code Module to the Operatives, who used it to track the real Father and eliminate his clones. For his last defense, Father attempted to protect himself with a solid wall of broccoli, only for Numbuh 362 to heroically chew through the mass, pin down Father, and threaten him with a piece of broccoli unless he relinquished his authority by tagging her. After Father and the Delightful Children were removed from the base, their DNA was extracted from the Code Module to prevent a repeat of the incident.

As the secondary antagonist in Operation: Z.E.R.O., Father employs the help of nearly every villain in the universe and organizes a massive attack on the Kids Next Door Seriously Cool Museum of Artifacts and Stuff, which appears to be a diversion for Stickybeard's armada to attack the Moon Base. However, the museum is Father's true target; more specifically, the seemingly-broken Recommissioning Module.

Back at the Convention Center, Father reveals that the Module is actually fully functional (having been repaired by Numbuh 86 to restore the memories of Sector V in the aftermath of Operation: E.N.D.), but requires the DNA of a current KND Operative to activate. Fortunately, Numbuh 1 arrives to reclaim the device, allowing Father to extract one of his boogers after Cree immobilizes him. As another Teen Ninja traps the rest of Sector V, Father taunts Numbuh 1 with the fact that he was counting on his attempt to retrieve the module, gleefully declaring that his failure will spell the end of the Kids Next Door.

With the Recommissioning Module activated, Father uses it to restore the Grandfather's memories, intending to rule the world alongside him. Instead, Grandfather calls his son a failure and orders him to leave, correctly pointing out that Father only restored him because he couldn't beat the KND himself. Dejected, Father tosses the Recommissioning Module in the trash and heads back home to wallow in self-loathing. Consequently, he is not transformed into a Senior Citizombie, and his home becomes one of the only places in the world left unchanged by Grandfather's powers.

Towards the end of the movie, the newly-reawakened Numbuh 0 goes to his brother for help and offers him a second chance to stand up to their father alongside him. Father ultimately accepts the offer, and during the confrontation with Grandfather, goes into a violent rage against his abusive father, only to immediately and abruptly abandon the fight due to a lack of willpower, saying that he no longer cares about anyone or anything else in the world at this point. At the end of the film, after the Kids Next Door Moonbase is launched at Grandfather, Father is seen in the kitchen of his partially-destroyed mansion. Looking over his shoulder at the carnage, the villain declares that he hates everyone, before returning his attention to his table.

In Operation: M.U.N.C.H.I.E.S., Father appears as one of the many villains shopping at the Supervillains Supermarket & Deli. He is the first character to claim the last box of Rainbow Munchies, only to be interrupted by Mr. Boss, Count Spankulot, and Sector V in rapid succession. This leads to a massive free-for-all as everyone in the store scrambles to buy the cereal, with Father being taken out early on when the kids trap him in a barbecue. However, Father frees himself in time to cut off the kids' escape, incinerating their ship (stolen from Stickybeard). After being briefly distracted by a sea of popcorn - popped by proximity to his flames - Father demanded the cereal from Numbuh 5, only to realize that Knightbrace had purchased it in the confusion. He insisted that Knightbrace share the Rainbow Munchies with him, only to learn that the dental-themed fiend actually planned to destroy the cereal. Infuriated at this callous disregard for Rainbow Munchies, Father formed a brief truce with Sector V and the other villains in order to beat up Knightbrace; afterwards, he was seen contentedly eating a bowl of Rainbow Munchies with the other characters.

Father was also involved in some of the later and more elaborate "C.A.K.E.D." episodes, namely Operation: C.A.K.E.D.-F.O.U.R. and Operation: C.A.K.E.D.-F.I.V.E.. In the latter, his ancestors, the Annoyingly Cute Triplets Who Lived Upon the Hill and their mother, who is Father's great-grandmother, are mentioned.

In Operation: I.N.T.E.R.V.I.E.W.S. (the series finale), Father turns into a Dragon after losing his pipe during the episode's climax. At the end of the story, it is revealed that he is the person interviewing the now-grown up members of Sector V in the present day, but it's revealed that Numbuhs 2 thru 5 had simply tricked Father into thinking that Numbuh 1 was still off in outer space somewhere as part of the Galactic KND, because through a phone call between Numbuhs 5 and 1 reveals that by this point, Numbuh 1 (now an adult) has returned to Earth, and was implied to be waiting for his old teammates on the KND-Moonbase. The whole setup was done most likely to get rid of Father by having go into space after his nephew to finally retrieve his missing pipe after all these years.

Qin gasped in sheer horror!

Qin: I can't believe he was that pure evil!

Yuko: Yeah. His goal was to kill all the kids so that adults can rule. But he never realized that by doing so, he would be wiping out the entire Human Race. His crimes would be considered an act of Genocide.

Qin gasped.

Stickybeard: I know lass. I can't believe me and me crew were working for that monster.

Numbuh 3: That's okay Stickybeard.

Numbuh 2: But thank goodness Yuko and Lola killed him.

Yuko: Yep. Father deserved it for all his crimes.

Then the door kicked over and in came Numbuh 1's ex-girlfriend LIZZIE DEVINE!

Lizzie: NIGEY!

They turned and they saw her.

Yuko: Oh no.

Qin: Who is she?

Yuko: That's Numbuh 1's ex-girlfriend, Lizzie Devine.

Yuko revealed her history.

---

Elizabeth "Lizzie" Devine, or Numbuh Vine, is Nigel's ex-girlfriend.

Years later, she is revealed to actually be a galactic level operative disguised as a human.

She first appeared in the self-titled Operation: L.I.Z.Z.I.E., in which she uses a mind control helmet on her boyfriend in order to stop him from ditching her to spend time with the Kids Next Door. In subsequent episodes, Lizzie is largely a neutral character. In Operation: D.A.T.E., she earned the temporary position as Numbuh 49 when Numbuh 1 told her coming to the dance was a mission. She appeared completely oblivious to the Delightful Children From Down The Lane's brainwashing of all the party guests and insisted on having her picture taken even after it became obvious that the camera was a brainwashing device. After that, Nigel hurts her feelings and said that it was never a date and didn't care if she thought so, and was seen sad after Nigel slammed the door right in front of her face and called her "date-crazy". Right before the Delightfuls were about to delightfulize Nigel, Lizzie stepped in with a glass of cherry punch from the party and shouted, "NIGEL UNO! I'D LIKE A WORD WITH YOU!". The Delightfuls asked what the meaning of this was, but Lizzie was so angry and just replied rudely and loudly, "SHUT UP!". After Lizzie gave a speech to Nigel, she tried to wet him with her punch, but he jumped out of the way and the punch landed on the master fuse box. Nigel grabs Lizzie and hugs her, telling her that she's brilliant. She replies by saying, "Now, was that so hard?". Outside, the mansion blows up into fireworks as they and the Delighfuls run outside as the mansion is destroyed because of Lizzie's glass of punch.

Nigel, while frequently annoyed by Lizzie's antics, deeply cares for her and usually makes up with her for whatever animosity has ensued at the end of the episode. However every other member of the KND tend to groan everytime she appears.

At the end of Operation: G.I.R.L.F.R.I.E.N.D., Lizzie breaks up with Nigel after he leaves her several times during their date to attend to the imminent danger present to them, courtesy of the KND Splinter Cell. Also, she was tired of him always putting the Kids Next Door before her and neglecting spending time with her.

She was last mentioned in Operation: T.R.E.A.T.Y. by Kuki, mentioning to Nigel at a rather bad time that Lizzie dumped him cold.

She also appears in the comic Operation: R.E.B.O.U.N.D., which takes place after she had broken up with Nigel. She enters the treehouse during an attack by The Delightful Childrens' Roboturkeys.

Numbuh Vine

Lizzie's true identity as revealed in "Stop the g:knd," Numbuh Vine is an operative of the Galactic KND. She has a facebook page used to upload promotional content for G:KND (Spin Off Pitch).

Numbuh Vine also later created a Tumblr page and a Youtube Account.

Appearance

Numbuh Vine looks like a potted plant turned upside down, giving a squid-like appearance. She has white, beady eyes and five hanging vines that act as limbs.

Qin: So there's an intergalactic version of the Kids Next Door?

Numbuh 362: That's right. It's the highest branch of the KND.

Numbuh 1: I was chosen as a representative of Earth's Kids Next Door to join the Galactic KND.

Numbuh 1 revealed their history.

---

It is the highest branch of the Kids Next Door Organization, its existence unknown by even Numbuh 362.

Only one KND operative per planet may be chosen to join the ranks of the Galactic KND, a decision which is made through an elaborate and highly secretive process.

During the final season of Codename: Kids Next Door, Numbuh 1 is chosen to be Earth's Galactic KND operative. At the end of Operation: I.N.T.E.R.V.I.E.W.S., he passes his final test and confronts Numbuh 74.239, upon which the existence of the Galactic KND is revealed to him and the viewer. It is said that he would be unable to ever return to Earth, but in the end of the movie by Numbuh 5 welcoming Numbuh 1 back it is therefore revealed that

Numbuh 1 had returned to Earth by the time of the interview.

In the GKND prologue trailer, it is revealed that the Galactic KND are very much like their Splinter Cell cover up: a corrupt, adult-hating organization who are delusional, genocidal hypocrites bent on the destroying all life forms over the age of thirteen in the universe and they consider adulthood to be a disease that needs to be destroyed at any cost. It is strongly hinted that Numbuh 74.239 is telling Numbuh 1 (including Monty Uno, Mrs. Uno and possibly Sector V) half-truths and lies to cover up the Galactic KND's evil deeds and true motives.

In the new series trailer, it's implied that the Galactic KND are actually much more sinister than previously believed, being willing to actually destroy adults and teenagers and planets that they deem as "infested" with adults and teenagers.

This coincides with their cover - the Splinter Cell - who were believed to want to eradicate the world of all adults and teenagers instead of just the evil ones.

It also expands on their claims in Operation: I.N.T.E.R.V.I.E.W.S. that adulthood is a disease.

It is hinted, the Galactic KND are the main antagonists of the sequel series, because of they plan to rid the universe of all adults and teenagers.

It is also presumed that Numbuh 1 has been either corrupted or manipulated by the Galactic KND to become their pawn or loyal servant.

---

Qin gasped!

Qin: So the Galactic KND wants to rid the universe of all adults and Teens!? That's crazy!

Numbuh 1: It was. But luckily I managed to convince them that what they are doing is wrong on so many levels and that we should let Team Loud Phoenix Storm handle it all.

Qin: That's a relief.

Lizzie: Why did you leave me, Nigey?! We were so great together!

Stickybeard: Lass, did it ever occur to you that you were too clingy to him? All you were doing was thinking about yerself. He was always fighting for children everywhere against adults like me.

Cree: And against teens like me. Not to mention that if he always spent time with you, Father would've destroyed the Kids Next Door if Lola hadn't shown up.

Lizzie: Don't even start, Lincoln! Joining Nigey's friends made you soft! The old you would've had me crying at your feet by now!

Cree: (getting annoyed) Well, the new me's going to beat you black and blue if you don't back off!

Numbuh 1: Lizzie, Stickybeard and Cree are right.

Yuko: You were being to clingy to him and that resulted in your relationship becoming too toxic.

Lola: That's right Devine! You need to realize that when you get like that, you're bound to mess up a relationship.

Numbuh 362: That's right Lizzie. Numbuh 1 and I are the right kind of couple. Because he has always been there for me.

Numbuh 1 blushed.

Yuko: So adorable.

Lizzie was enraged!

Lizzie: IF I CAN'T HAVE NIGEY, NO ONE CAN!

Lizzie then pulled out a blaster and Yuko fired a powerful blast of fire at it and destroyed it and burned Lizzie's hands.

Yuko: You don't deserve to be in Numbuh 1's life!

Yuko snapped her fingers and Lizzie's head was burning and when the flames went away, Lizzie was confused.

Lizzie: Where am I?

Lola: What happened to her?

Yuko: Flames of Amnesia. It burns all the memories of certain events and destroys them permanently.

Lizzie: Whoa! What happened? My head hurts.

Lizzie left. We would never see her again.

Numbuh 1: Thanks Yuko.

Yuko: No problem Numbuh 1.

* * *

In the estate we were talking to the KND.

Kenai: Nigel, I want to let you know that you did the right thing breaking up with Lizzie. Your relationship with her was toxic.

Numbuh 1: I know Kenai. Lizzie and me weren't meant to be.

Me: If that had gone on any longer, it would've been a match made in Hell. I watched a lot of crime documentaries and saw a lot of people get killed by their spouses.

Lana: Why would they do that?

Laney: There are lots of motives behind it. Most of it is centered around money. But it's other things too. Marriage gone bad, divorce, custody battle, hatred, vengeance, insane, anything.

Lana: That's awful.

* * *

Nico, Thundercracker, Kickback, Skywarp and Jetfire were over in the desert looking for more Transformer Stasis Pods. They found one.

Nico: There it is!

They went over to it.

Kickback: Hang on. I know that bot. That's Sunstorm!

Nico: Another comrade of yours?

Thundercracker: That's right boss.

Skywarp: Lets activate him.

They did so and he awoke.

Sunstorm just got out of the stasis pod.

Sunstorm: Oh man. Where am I?

Thundercracker: You're on Earth, Sunstorm.

Sunstorm: Thundercracker, Kickback, Skywarp.

Nico: We have a lot of explaining to do. By the way, I'm Nicolas Chan, but everyone calls me Nico. I'm now the new Leader of the Decepticons.

Sunstorm: What happened to Megatron?

Nico: He's dead and so is Starscream.

Nico explained everything that went down.

Sunstorm: So, Starscream's dead?

Skywarp: Yep. He and Megatron are the only Decepticons who didn't change their ways when we met JD and the others.

Thundercracker: Sure, everyone else got hit with combo attacks. But Nico and the others made sure they got healed up afterwards. Although Soundwave, Frenzy, Thrust, and Dirge did get revived.

Sunstorm: Good. Screamer deserves to be with the Allspark for all the crap he did.

Jetfire: (Australian Accent) Actually, Starscream's soul got sucked into the Book of Vile Darkness. He was revived as a Heartless by Alejandro. But after that, he was sent into the River of Fire.

Sunstorm (laughs): Jetfire, my friend, I don't care where his soul is. As long as he stays dead.

Nico: Oh he will. We made sure they will stay dead.

They went back to the estate. We were introduced to Sunstorm and he was now part of the team.

---

Later as we were watching TV and reading books and playing card games, me and Nico were looking over his Goosebumps Books for our next target.

Me: Hmm. How about this one? The Abominable Snowman of Pasadena.

Nico: Lets save that one for later. Hmm. How about The Scarecrow Walks at Midnight?

Me: October is next month. So lets do that one then.

Nico: All right.

Me: Hmmm.

Then I saw one that caught my eye.

Me: How about this one? Calling All Creeps?

Nico: That was a strange one. That was a dark one too. All right then.

Me: Calling All Creeps it is. This is a really freaky one. The kids on the cover look like B-Movie monsters.

Lucy Loud: What monsters are those J.D.?

Me: They look like the monsters from the 1959 movie "The Alligator

People." That's one of my dads favorite movies from his past. It was made 60 years ago.

Nico: I saw that movie. That was a scary one. That guy was half human half alligator. Like a gene-slammer.

Me: Exactly like it. It was a scientist that fused him with an Alligator that turned him into that. Really fucked up. But these creeps were made by seeds that were in their food.

Natasha: (Polish Accent) What a horrible thing.

Olga: No kidding. I can't believe that these Creeps are that dangerous.

Yukari: They sound like it. But not only that, J.D. and Naruto killed three lizard men at Yokai Academy.

Me: I remember that. They were a bunch of chauvinistic bigots. But they died at our hands.

Naruto: They sure did bro.

Nico: But what these Creeps did really pisses me off. In the end of the book, the Creeps had won and enslaved the whole town.

Me: I know. And I remember that Ricky in this book turned evil. He's gonna be the first ever Goosebumps Protagionist turned villain that we have killed.

Nico: No kidding.

Lincoln: This kid sounds like he has a lot of problems.

Laney: No kidding. He practically destroyed the whole town and robbed it of its humanity.

Me: We're gonna kill the Creeps and cure the whole town and kill Ricky.

Nico: No. We can kill the rest of the creeps, cure Ricky and then throw him into one of our prisons. He sold out the whole town and destroyed it.

We gasped.

Me: That motherfucking turncoat!

Lynn: I'm gonna rip that kids fucking head off!

Lori: I will literally turn that kid into a human pretzel!

Me: After we cure the rest of the town and kill the Creeps. Lets go!

We were off to Oldstone, Utan.

---

## OLDSTONE, UTAH.

---

We arrived in the mountains of Utah and we saw the town of Oldstone, 100 miles south of Salt Lake City. It was out in the mountains far away from a major town or city. It was completely in total turmoil and we saw a horrifying sight. All the kids were now turned into Creeps and they had enslaved the adults and others into doing their bidding.

I pulled out my advanced binoculars and they saw that all the adults were being tortured with cattle prods and more.

Me: This is sick! Ricky and those Creeps are gonna pay for this.

Suddenly we saw a girl escaping from the town!

Me: There's a girl running from the town.

Nico: Let me see.

I handed Nico the Binoculars and he recognized her.

Nico: That's Iris Candler. She's Ricky's best friend. But she wanted no part in joining him.

Me: That's good. Maybe she can help us.

Nico: Where is she heading?

Me: I think I know.

I did an analysis and it showed that there were traps all over the outside of the town!

Me: There's traps all over the place!

We got to one of the traps and we saw Iris in a snare trap.

Iris C.: Team Loud Phoenix Storm!

Me: We'll get you down in a sec.

I took my sword and cut the rope and she was free.

Iris C.: Thanks J.D. You have to help us.

Me: We know Iris. We'll save the town and we're gonna kill the Creeps and throw Ricky in jail. We're gonna cure everyone turned into Creeps.

Iris C.: Thank you all so much. I want to help you all.

Me: We need to cure everyone that was human before.

Iris C.: I can help. (Hands me a packet of seeds) Here's the seeds they used to infect us.

Me: Great. Now we can synthesize an antidote. But I bet some of them are incurable.

Iris C.: That's right.

Me: Okay, those will be the ones that we kill.

Lincoln: How will we know who is who?

Me: I'm going to use the Force to identify them.

Lana: Good thinking.

Me: First we have to get all the people cured and then get everyone that was cured out of here so we can launch our attack from the air.

Nico: Okay.

Me: Mystique, Clayface, Rubberband Man, we'll need you to infiltrate the houses to knock some of the Creeps out and free the slaves.

Mystique: Got it.

Me: You give the signal when the slaves are free and Laney will cure everyone. Then we'll launch the attack and unleash our attacks on Ricky when all the Creeps are dead. We need Ricky alive so we can cure him after pummel his ass into Oblivion.

Mystique: Right.

Me: Lets do it.

We put our plan into action.

Me: May the Force be with us.

Mystique went into a Creep's room.

Female Creep: (Mystique visits her in the bathroom) What do you want?

Mystique: For you to be taken out. (Female Creep tries to run) Run as fast as you can, it won't be fast enough! (knocks her out)

Male Creep: (Clayface visits him in the bathroom) What are you in here for? You just joined us and…

Clayface: I'm here to knock you out. (does so with clay hammer)

Rubberband Man visits a Male Creep while he's sleeping on the couch.

Male Creep: (yawn) Can't you wait until later? I'm tired!

Rubberband Man: (grins) Oh, you can sleep if you like. In fact, let me help you with that! (Forms rubber hammer)

Male Creep: What're you doing with that? I haven't done anything! (gets knocked out)

Rubberband Man: That's enough of your whining.

They went in disguised as Creeps and they were freeing the slaves and telling them to run. But then Jared (Goosebumps) and Ricky got word of this!

Ricky Beamer (to Jared and Clayface): Ok. One of you has betrayed us and is taking out our members. So, which one of you should I kill?

Jared: Kill him! He's been acting suspicious!

Clayface: Me? You're the one who keeps going outside!

Jared: Because I've been checking on the troops!

Ricky: Quiet! I'll decide!

All of them were tense for a couple of minutes before Ricky shot Jared, killing him.

Clayface: You made the right choice, Ricky.

Ricky sighs in relief.

Clayface: (turns into his real form) For me, at least!

He punches Ricky and I released a massive Force Aura and it marked who was human before they got turned into Creeps. The ones marked in blue were human before and the ones marked in Red were incurable. Laney fires an energy field that cured all the Creeps that were human, but not the Creeps that were incurable.

Laney: Everyone get out of here fast! This is gonna get ugly!

Everyone evacuated the whole town. I was piloting a Y-Wing ship and it was ready to fire.

Me: Here we go!

I fired lasers and Proton Torpedoes and blasted the Creeps and killed them.

BOOOM! BOOOOM! BOOOM! BOOOM BOOOOOOMM! BOOOOOMMM! BOOOOMMM!

Anakin and Padme were piloting Naboo Starfighters and they blew some of the Creeps away.

Me: WHOO!

Anakin: Awesome!

Padme: You all pilot well.

Me: We did it all.

We blasted all the creeps with lasers and proton torpedoes and killed them all. We even put some of the Creeps in Containment Card prisons and more.

One by one we got rid of all the Creeps until it was just us and Ricky.

We landed our ships and stood ready to face Ricky! He was ugly.

Me: You are one ugly motherfucker.

Ricky: You all are nothing but a bunch of murderers!

Me: You're nothing but a backstabbing fuckpot that gets a sick thrill out of causing pain.

Lucy Dark: That's right. You brought nothing but pain and suffering to this whole town!

Carly Beth: You make me sick!

Ricky: I'm the bad guy here? At least I'm not a murderer!

Nico: Excuse me?

Maria: He shouldn't have said that.

Me: No he shouldn't have.

Ricky: All the people you killed just to make sure people are safe. And you still plan to kill even more. You don't even care if your friends got hurt in the process. Hell, if you had just checked up on Qin Chen occasionally, you could've prevented the Russian Mob from killing her parents and they would still be alive.

Nico: SHUT THE HELL UP!

Me: Shut the fuck up!

Ricky clamped his mouth shut.

Nico: Everything you just said to me is an absolute and utter load of bull crap. I love and care deeply for my friends and would NEVER intentionally allow anything bad to happen to them! And while I have dropped bodies, I've only done it when they deserved it, something you would never understand. And how dare you blame me for Qin's parents' death! The ONLY one to blame for that is the Russian Mob and J.D. killed them in return!

Me: That's right! And I show no remorse for killing them. They don't care who suffers to get what they want! That's why they got what they deserved. Just like your friends the Creeps did.

Nico: (grabs Ricky by the collar) How dare you also make it seem like I'm some kind of monster, how dare you make me seem as though I'm the true villain of my own story, and HOW, DARE, YOU act all self-righteous, holier than thou, and pretty much claim that everything I touch dies! I have crossed some lines to keep people safe and I know that I'm not perfect. But not every death that's happened is my fault and I'm not going to take responsibility for something that I'm blameless of.

Iris: It's been nice knowing you, Ricky.

Nico: (glares at Ricky) In fact, you're the one who sold your own town out by turning almost everyone in it into Creeps! Plus, that also helped the Legion of Doom and all the other bad guys out there establish this town as a base of operations! Even though they've probably decided that this town is lost to them now that we're here. And now, you have the temerity of more or less accusing me of being a monster. WELL, GUESS WHAT!? While I may have dropped a lot of bodies, at least I've never betrayed my friends all because I was picked on all my life, and that's something you should think about the next time you open your big fucking mouth!

Me: You're gonna wish that we killed you when we're done with you Ricky.

I punched him in the face and knocked out some of his teeth and Nico kicked him in the stomach and Iris punched him in the stomach and face and kicked him in the crotch. Girl Jordan fired a massive blast of water and got him all wet.

Lola fired a powerful blast of fire and burned him and Laney wrapped him up in vines and they had thorns and he was screaming in pain.

Me: Time to show you some of our teamwork!

Sunstorm: You got it boss! CYBER KEY POWER!

The Decepticon Cyber Planet Key went into his back and it enhanced his Gamma-Ray Lasers 100-fold.

Kickback: Lets do it!

Kickback turned into his Energon form.

Kickback: CYBER KEY POWER!

The Decepticon Cyber Planet Key went into his Dual-Cannon and enhanced it 100-fold and allowed 20 more cannons to pop out.

Sunstorm and Kickback: SOLAR PLASMA FIRESTORM!

Sunstorm and Kickback fired powerful blasts of gamma radiation and lasers and they combined and turned into Solar Plasma and they slammed into Ricky and exploded.

KRABBBBOOOOOOOOOOOOOOOOOOOMMM!

Kenai: Time for some bear power! ANIMATRON CYBER KEY POWER!

The Animatron Cyber Planet Key went into Kenai's right arm and it enhanced his strength and sharpened his claws to razor sharp levels.

Jetfire turned into his Cybertron form.

Cybertron Jetfire: Time for some Heavy Firepower Mates! CYBER KEY POWER!

The Autobot Cyber Planet Key went into his back and a powerful back cannon popped up.

Kenai and Cybertron Jetfire: SUPERCANNON BEAR SLASH!

Kenai slashed Ricky with his claws and Jetfire fired his supercannon and the blast hit him and exploded.

KRABBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOMMMMM!

Iris C.: That is so cool!

Me: Thanks Iris. It's our Cyber Planet Key powers. You can do it too. Go for it.

Iris C.: Okay. Lets me see here. DECEPTICON CYBER KEY POWER!

The Decepticon Planet Key went into her right arm device and she got Cybertron Crumplezone's Shoulder Cannons.

Iris C.: Whoa! This is so cool!

Nico: Good choice for your first time.

Iris C.: Thanks Nico. CRUMPLE CRUSHER BLAST!

She fired a massive blast of purple energy from the cannons and they hit Ricky and exploded.

KRABBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOM

Crumplezone: Wow! That was awesome!

Ransack: I'll say. Well done Iris.

Iris C.: Thanks guys.

Me: Lets finish him!

Mystique: Lets get him! DARK RAVEN MURDER!

Mystique fired a powerful cloud of darkness and it turned into a massive murder of crows. They hit Ricky and exploded.

KRABBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOMMM!

Girl Jordan: You and your kind are not welcome here Ricky! MAELSTROM DRAGON DELUGE!

Girl Jordan fired a massive blast of water that turned into a powerful dragon of water and it slammed into Ricky with the massive force of a powerful Megatsunami.

Iris C.: This is for my friends and my family! FIRESTORM SWORD SLASH!

Iris formed a powerful sword of pure fire and she slashed Ricky and burned him.

Me: Watch this Iris. Ready Leobreaker?

Leobreaker: You know I am J.D.!

I went Super Angel and Leobreaker turned into a powerful arm.

Me: J.D. Knudson, SAVAGE CLAW MODE!

Iris C.: That is so cool!

Nico: When humans and Transformers work together, we become an unstoppable force.

Me: It gets even better Iris. Watch this. ANIMATRON CYBER KEY POWER!

The Animatron Cyber Planet Key went into Leobreaker and his claws popped out.

Me: SUPER LION SLASH!

I slashed Ricky with Leobreaker and his Creep look shattered into a million pieces and he was human again!

Ricky: What!? NO! My power!

Iris punched him in the face and knocked him out.

Iris C.: That was awesome!

Leobreaker: Thanks Iris.

Nico: And Ricky has failed this city.

Me: And this whole planet. It's the Neptune Prison for Traitors for him.

Iris C.: You got that right.

Ricky was tied up.

Me: If you weren't a kid Ricky, we would make you suffer and then kill you.

Ricky was sentenced to life in the Neptune Prison for Traitors for eternity. He now shares a cell with Mandy.

Iris C.: This was so cool!

Me: Thanks Iris. And you did really well for your first Cyber Key Power Up and Final Smash.

Iris C.: I sure did. Thank you all so much for helping us deal with the

Creeps.

Nico: Anytime Iris. I just can't believe Ricky said all that.

Qin: Nico, I want you to know that I don't blame you for my parents' death.

Nico: I know, Qin. We've already established that.

Iris C.: But I think you need to calm down. Since this town is now Creep free, how about we get some ice cream?

Me: That sounds great.

We went and got some ice cream. Nico caught a Tsareena and Bewear. We also destroyed the seeds that made everyone into Creeps. Ricky was disowned by his family and he was now condemned to spend the rest of his life in prison without parole.

Iris C.: (To the viewers) No one will stop Team Loud Phoenix Storm. Not even a bunch of stupid Creeps.

Me: You got that right Iris.

We made Iris a member of the Goosebumps Monster Busters.

THE END

Another Fanfiction complete and another Goosebumps Monster destroyed and imprisoned.

What the Creeps did in Calling All Creeps was completely unforgivable! But it was a great story. NicoChan11 gave me the ideas for this one. Thanks man. Let me know what you all think.

See you all next time.

# OPHELIA SHROUD!

HAPPY FIRST DAY OF FALL 2019 EVERYONE!

---

Chapter opens with a view of Lynn's Table. It was a beautiful sunny first day of fall.

Lori: [from inside] One Cheesy PLisa and fries for table two little bro. It's literally awesome having you work here bro.

[cut to inside of the kitchen]

Lincoln: Thanks Lori. It's awesome here too. Not only is the pay good but it's great discounts on employees. (To the viewers) You're probably wondering why I'm working now at dad's restaurant, Lynn's Table. Well it's now a great family restaurant and dad pays a great deal for having his family work. (Flips pizza dough) (French Accent) Oui, oui. Un Cheesy PLisa, Mademoiselle. First, les dough. [flips it up in the air and it lands in his hands and he flattens it. He holds up the other ingredients]

Lori: Way to go bro.

Lincoln: Next, les ingredients. [throws them in the air] Ah, oui! [they land on the pizza dough in order of sauce, spices, and cheese.] Les love. [he adds some love and it lands onto the pizza]

Lori: Good job bro.

Lincoln: Les almost done! [Lincoln takes the pizza and lifts it off the table with his powers and puts it in the oven] And voila! [He goes up to Lori and pulls a whole pizza and some fries from under her nose] It's under your nose! [Laughs and puts it on a plate. Lori laughs]

Lori: You're literally killing me, little bro. That was a good trick though. [Close-up on the patty]

Lincoln: Look at it, Lori. Dads gift to all of Gotham Royal York - his food from his restaurant.

Lori: Dad is literally the best chef in the state of Michigan. [The Pizza glows and flies off of the plate and starts bouncing all over the place] Are you doing that Lincoln?

Lincoln: I swear I'm not doing anything. Dad! Your pizza is haunted! [The pizza slithers out the door and heads for the exit. Lynn Sr. spears it with a fork.]

Lynn Sr.: Not so fast there you little thief! This is no ghost.

Lucy Loud: Dang it.

[A tiny thing comes out from it and Lynn Sr. inspects it with a magnifying glass.]

Lynn Sr.: This is… [view of in the magnifying glass, of a tiny little girl with green eyes, black hair and glasses and she had a black shirt and blue pants and black shoes!] OPHELIA SHROUD! Stealing my recipe!

She grew to her normal size. She was a genius and was 4-years-old like Lisa.

Me: She's a genius like Lisa!

Lana: Lisa and Ophelia have been going at each other's throats for a long time J.D. She used to go after all her inventions. But now she's the owner of a restaurant.

Lola: She owns a restaurant called The Pasta Bowl. It's right across the street from daddy's restaurant.

We saw a restaurant that looks like an old bowl of pasta.

Me: I've heard about that restaurant. The food is absolutely terrible and it'll make your stomach turn inside out.

Laney: And make you throw up for three weeks.

Lucy Loud: The food is so terrible that not even zombies would eat it.

Me: Yuck!

Ophelia L. Shroud: Hear me, Loud. When I discover your formula for your food, I'll run you out of business. I went to college!

Me: Oh great. A Plankton on Land.

Linka: My thoughts exactly.

Shroud: [Lynn Sr. picks up the little girl by the back of her shirt] Hey! Let me go!

Lynn Sr.: Oh, I'll let you go, squirt. On a flying saucer! [Laughs. He splats Shroud on a plater and spins her back across the street, to the Pasta Bowl] Back to the Pasta Bowl with you!

Shroud: You'll pay for this, Loud! [slams through the doors]

Me: Strong sense of déjà-vu.

Lily: You got that right.

Lisa: Ophelia Shroud and I hate each other with a vengeance and she wants nothing more than to acquire father's family recipes for his confectionary delights so that she can make her restaurant the best and rule the world.

Me: Oh great.

Maria: Plankton on Land.

Me: I said that already Maria.

Maria: Oh. Sorry.

[Cuts to Mr. Grouse's house.]

Nico was over at Mr. Grouse's house.

Loki: (British Accent) Oh hello Nico. Come on in.

Nico: Thanks for letting me come over.

Loki: It was no problem. (seeing my sad look) Are you okay?

Nico: Not really? (sighs) Do you think I'm a monster?

Loki: Look, if this is about what that Beamer boy said to you, don't worry about it. I've seen the Universe's most dreaful monsters. And trust me, you're not one of them.

Nico: Thanks Loki. I guess even for a god you do have a heart.

[Cuts to the Uranus Prison]

Nico is over at the Uranus Prison.

DNAmy: Is something wrong, Nico?

Nico: Well, it's just that Ricky Beamer accused me of letting Qin's parents get killed by the Russian Mob.

DNAmy: What?! That's not true. They would've killed Qin's parents even if you had tried to stop them. I mean, how were you supposed to know about what happened?

Monkey Fist: Look, Nico. I may be bitter towards you for throwing me in this prison. But I have respect for you. And even I think that what Beamer said to you was cruel.

Nico: I can tell. Thanks.

[Cuts to the Jupiter Prison]

Nico then went to the Jupiter Prison.

Nico: Manboy, can I ask you a question?

Manboy: Sure.

Nico: What's your opinion of me?

Manboy: I get what this is about. Well, I think you're a good person who helped your friends defeat many baddies, including me. You're a nice kid, Nico. But please, don't do anything bad to yourself.

Nico was feeling better!

Nico: Thanks Manboy. See you next Icky Vicky Rant.

Manboy: Will do.

He left.

[Cuts to the Neptune Prison]

Raythor was over at the Neptune Prison paying a visit to Ricky Beamer.

Raythor: (grabs Ricky by the throat) Listen here, Beamer! You better hope that Nico snaps out of this depression or I'm gonna snap your neck!

Ricky: (CHOKES) Nico is a fucker! He deserves to die for everything you all do! (Laughs malevolently)

Raythor: If you weren't a kid I would gladly kill you where you stand.

[Cut to nighttime at Lynn's Table]

We were getting ready to walk home.

Me: Boy that was awesome!

Lynn: But that Ophelia brat needs to learn how to grow up.

Laney: If she keeps this up she will go insane.

Me: How can you go insane from something like this Laney?

Laney: Well, if you keep doing something like this for a long period of time over and over again, expecting to see a different result, you lose your sanity.

Lisa: It deteriorates the gray matter of your brain and destroys your sanity.

Me: Some villains are just that stupid.

Varie: And they never will learn.

Aylene C.: One thing is for sure: As long as we're here, Ophelia Shroud will never get her hands on Lynn Sr.'s awesome food.

Lola: You got that right Aylene.

Lincoln: And I'm gonna make sure she never does. Ever!

But little did we know that Ophelia was watching us from the shadows and she overheard our talk about her.

Shroud: Oh, I'll get Loud's food and you're gonna hand-deliver it to me personally! You white-haired weak-minded fool! [takes out a gramophone that plays evil music and laughs evilly to it.]

[Cut to Lincoln and Linka's bedroom, where Lincoln and Linka go to sleep]

SpongeBob: Good night everyone.

Charles: Night Lincoln.

Lyra: Night big bro.

Liberty: Night bro.

Lee: Night.

Janeen: Night guys.

They all go goes to sleep. Just then, the wall comes alive and a figure pops out. It's Shroud in disguise, wearing a backpack.

Shroud: [chuckling] (Whispers) Lincoln Loud, you will be mine! [pulls out the record player and laughs evilly to it, but it actually plays a children's song of the A-B-C's.]

Woman in the recording: Letters of the alphabet, A-B-C…

Shroud: Oops. Wrong song.

[Flips the record around. It plays the evil music like last time and she laughs quietly.]

Shroud pulls out a mind-control helmet and quietly puts it on Lincoln's head.

Shroud: Now it's time for a little wakey-uppy.

She pressed a button that said Total Control and Lincoln wakes up.

Lincoln: Morning already? [Shroud is hiding in the shadows and she jams the controls causing Lincoln's legs to jam out to his side. He rumbles and falls down. Shroud laughs evilly] I… I feel a little funny today. [using the controls, she makes Lincoln walk. Shroud laughs]

Shroud: I have you now! [outside, Lincoln keeps walking towards the kitchen]

Lincoln: Time for a well-balanced breakfast. [he rams through the wall and through his refrigerator, emerging with bread, a bottle of milk, and an egg carton on his head] This isn't what I had in mind. [he walks towards the closet with his clothes hanging up] Let me just grab my clothes. [he walks toward them and they fall onto him. He eventually gets them off and keeps walking] I guess I'm not wearing any pants today. Only my pajamas. [he crashes through the side of the wall] I guess I'm not using the door either. See you later, Charles!… I guess.

Charles: There's something wrong with you Lincoln!

Lincoln: You're right, Charles! There is something wrong with me!

I woke up and saw what was happening!

Me: Oh no!

I pressed the Code Red emergency button and Air Raid Alert Sirens sounded as a bunch of lights turned on all over the estate.

Lincoln: Mr. Grouse! Mr. Grouse! Wake up! I need some help! [inside Mr. Grouse's house, he tries to sleep. Off-screen] Mr. Grouse! Help!

Mr. Grouse: Be quiet, Loud! [Lincoln bursts through the wall of Mr. Grouse's bedroom]

Lincoln: Help!

Mr. Grouse: Lincoln! What are you doing? I'm talking to you! Lincoln! Lincoln, are you mad? [Lincoln crashes through the opposite wall. He stops walking and his head turns around 180 degrees]

Shroud: [through Lincoln] Shut your mouth, you worthless and Mediocre old man.

Mr. Grouse: Mediocre? [from outside, Shroud speaks through a microphone]

Shroud: You pretentious, little insignificant old coot. Your snivelly creations and yard work are worth less than a snail's waste! [Lincoln snaps out of it]

Lincoln: Something must be wrong with my brain!

Loki came in.

Loki: (grabs Lincoln by the throat) Lincoln! What are you doing? Have you gone mad?

Shroud: [through Lincoln] Shut your mouth, you so called God.

Loki: (narrows his eyes) I know you're controlling Lincoln. Because I've done my share of mind control!

Loki then took the mind control helmet off Lincoln's head.

We all arrived and we saw Lincoln.

Laney: Lincoln!

Loki: Lincoln was being controlled by this helmet.

I looked at it.

Me: This is a mind control helmet.

Lisa: This is Ophelia Shroud's handiwork.

Lola: Loki, how did you know he was being controlled?

Loki: I'm a god and I've had my usage of mind control through the Mind Infinity Stone.

Nico: That's right. I remember that. Who is Ophelia Shroud?

Me: She's the owner of the Pasta Bowl restaurant across the street from Mr. Lynn's restaurant.

Nico: That cesspool dump restaurant that makes crappy food that turns your stomach inside out?

Me: That's the one. I tried some of their spaghetti and it tasted so bad that it had to have my stomach pumped.

Lori: You think that's bad? I tried their chicken parmesan and I literally got botulism from expired tomato sauce.

Lincoln: I remember that.

Me: Well we need to get over to the Pasta Bowl and teach her a lesson she'll never forget.

We ran over to the Pasta Bowl.

Loki: If I still had my powers, we'd be at Ophelia's lair by now.

William: If you still had your powers, you'd probably go crazy and try to kill us again.

Loki: You're right.

We arrived at the Pasta Bowl.

Me: Here it is. The Pasta Bowl.

Eddy: Oh, Ophelia! Come out to play!

Ophelia Shroud came out and we were slamming our fists into our hands and we were ready to fight.

Me: Say your prayers Ophelia.

Edzilla: ED SMASH PUNY GIRL!

We viciously pulverized Ophelia.

Later she was in her bed wrapped in a full body cast.

Ophelia Shroud: I HATE THAT TEAM LOUD PHOENIX STORM!

Later the next morning Lily was at the Krusty Krab working.

SpongeBob: So now you guys are having problems with a human-plankton?

Lily: That's a good way to put it Mr. SquarePants. But she's a 4-year-old girl named Ophelia Shroud. She and my sister Lisa were going at each other's guts for a while. Now she's the owner of a disgusting restaurant called the Pasta Bowl. It's Gotham Royal York's version of The Chum Bucket and it's right across the street from my dad's restaurant Lynn's Table.

SpongeBob: I'm getting a strange case of Deja Vu.

Lily and SpongeBob laugh.

Back at the estate, The Constructicons were showing us a picture of a horse titled, "Doofus Mcgoof Business Horse".

Scrapper: What do you guys think?

Maria: It's good! I don't know why Megatron thought it was stupid.

Me: That's great Scrapper!

Elsewhere in another part of the City, 6 rangers were getting ready. They were the Operation Overdrive Rangers.

Mack Hartford: It's gonna be awesome helping out Team Loud Phoenix Storm.

Ronny Robinson: You said it.

Mack Hartford: Lets do it!

Operation Overdrive Rangers: OVERDRIVE ACCELERATE!

The Operation Overdrive Rangers transformed and a blinding light appeared as the screen turned white.

Another Fanfiction Complete and a new villain makes her debut.

I got the idea for this chapter out of inspiration from DarthFlores fanfic Lincoln Orangeshirt. The chapter was called Lena Shroud! A parody of the 1999 episode Plankton! It's a SpongeBob parody fanfic. It was funny and awesome! Thanks for the inspiration and idea. NicoChan11 gave me the ideas for this one. Thanks man as usual. Let me know what you all think.

# A Cult of Robots

At the Gotham Royal York Mall, everyone was running for their lives in fear. The mall was under siege by the evil Terrorist Organization called the Ten Rings.

---

While Tony Stark is in Afghanistan to demonstrate Stark Industries' new Jericho missile, a group of terrorists attack the convoy he is on, killing everyone but Stark. He is kidnapped by the terrorists (led by Raza), who introduce themselves as the Ten Rings. They demand that Stark build a Jericho missile for them. He refuses, so they begin to torture Stark.

Hours later, the terrorists show off a huge stockpile of weapons - all made by Stark Industries. Tony appears to relent and start building the missile, but has other plans. With the help of fellow captive Yinsen, Tony constructs a tiny device called an Arc Reactor - a new type of power generator - streamlined from a much bigger design used in one of his companies factory. The power output is enough to run Stark's heart for fifty lifetimes… or something much bigger for about fifiteen minutes.

Tony designs a way out for himself and Yinsen - a powered weapon suit that he will wear and use to defeat the terrorists. Midway through construction, the apparent head of the Ten Rings, a man named Raza, arrives and attempts to torture Yinsen, angry because he thinks Stark is not working on the Jericho as they wanted. Raza gives them one more day to finish.

Working overnight, Yinsen straps Tony into the completed armored suit, telling him the way out of the cave. They set off a bomb inside the cell as a distraction for the guards as Tony powers up his suit. Yinsen realizes that they will not have enough time. He grabs a gun and runs off to distract the surviving guards.

Tony, fully powered, muscles his way through the cave. The guards try to stop but his suit easily deflects their weapon fire. Halfway out, Stark finds Yinsen, mortally wounded. Tony tearfully thanks Yinsen for saving him, and Yinsen encourages Tony to not waste his life as he dies. Tony turns his suit on the terrorists, igniting flame-throwers. He destroys their stockpile of weapons and uses a rudimentary jet-pack to blast away from the captive zone. The armor is ruined as he crash-lands into a sand dune, but he escapes alive.

Months later, Tony learns that the Ten Rings is using weapons created by Stark Industries to terrorize the Middle East, and that Obadiah Stane was dealing them weapons behind Stark's back. Stark dons his Iron Man suit for the first time and flies to the Middle East. Within seconds, he defeats the terrorists the armors superior targeting allows him to kill a group using civilians as human shields without harming the hostages and destroys the weapons they had obtained. The leader of the group tries in one of the buildings to hide only to find a red and gold arm smash through the wall and yank him back out into the street Iron Man then hands him over to the villagers saying "He's all yours." before taking off.

Not long after this, the Ten Rings are visited by none other than Obadiah. It is revealed that Stane paid the Ten Rings members to kill Stark, but they realized who Stark was and demanded a much higher price. After killing Raza, Obadiah takes the remnants of the Mark 1 armor they have gathered.

In a deleted scene from Iron Man 2, an unnamed Ten Rings agent gives Ivan Vanko a pass to enter the Prix de Monaco so that he can kill Stark, though this failed.

In Iron Man 3, Aldrich Killian uses the Ten Rings name, and hires drunken British actor Trevor Slattery to use The Mandarin persona to mask his failed Extremis experiments as purposeful attacks on the military.

After Aldrich Killian dies, and Trevor Slattery is placed in Seagate Prison, an undercover Ten Rings agent, Jackson Norriss, breaks Slattery out of prison, and informs him that the real Mandarin wants to meet him after Trevor made a mockery of his beliefs.

As Darren Cross was holding an auction for his Yellowjacket suit at the Pym Technologies headquarters, a buyer working for both

HYDRA and the Ten Rings was seen attempting to buy it. As Ant-Man entered the room, a fight had ensued with the buyer being knocked out and later killed when the building imploded.

---

The Ten Rings had hostages in the mall and it was wired to blow with 8,000 pounds of C4 explosives.

Nico was outside the mall and with him and the Transformers were the Operation Overdrive Power Rangers

Nico: (to the Overdrive Rangers) You picked a perfect time to meet us. We really need help getting these hostages out. And J.D. and the others won't get here in time.

Mack: What's the plan?

Nico: (to Will Aston) Will, you and Soundwave will keep a lookout for any of the terrorists trying to ambush us.

Will Aston: Got it, Nico.

Soundwave: Affirmative.

Nico: (to Rose Ortiz) Rose, you and Mirage use your invisibility to take care of the guards.

Rose: Right!

Mirage: It would be our pleasure.

Nico: (to Ronny) Ronny, you get the hostages out. Trailbreaker, use your force field to shield Ronny from any gunfire.

Ronny: (smirks) Speed's my middle name.

Trailbreaker: I'll make sure my force field doesn't drop.

Nico: Dax, you and Laserbeak take out the snipers on the upper floor.

Dax: (Laserbeak nods) You can count on me!

Nico: Tyzonn, you, William, and Maria deactivate the bombs that the terrorists placed around the mall.

Tyzonn: I won't let you down.

Maria: (salutes) Aye aye!

William: I'm glad my uncle taught me how to defuse bombs. I even deactivated some when we were fighting X.A.N.A.

Nico: After you guys do your parts, me and Mack will bust in and kill the terrorists that are left.

Frenzy: It's good to have the old Nico back.

Rumble: Any Nico's better then the mopey and depressed Nico we've had to deal with for the last few days.

Lasher: Weren't these guys in cahoots with Iron Mongor before?

Nico: Yes they were. They also captured Tony Stark to try and get him to build a bomb powerful enough to destroy the United States.

Agony: That's horrible.

Nico: It is. Lets go.

They put their plan into action and they got the hostages out, killed the snipers, defused the bombs and they also arrested some of them after tying them up.

Iron Man then busted in!

Iron Man: (to the terrorists) Hi there. Remember me? (fires repulsors)

He blasted some of the terrorists.

They blasted and killed all the rest of the terrorists and they arrested them as well. We then busted in with a massive fiery explosion and a phoenix cry was heard and we saw that Nico and everyone had everything under control.

Me: Whoa! You had everything under control Nico.

Nico: We sure did.

Laney: Thank goodness.

We saw the Operation Overdrive rangers.

Me: No way! The Operation Overdrive Power Rangers.

Mack: It's an honor to meet you J.D.

Rose: Same here.

Me: You guys are so awesome how you burned rubber against Moltor and Flurious.

Maria: That was so cool.

Me: It sure was.

I went over Moltor and Flurious's history.

---

Moltor.

When they were once humans, Moltor and his brother, Flurious, tried to obtain the Corona Aurora, but he was transformed into a fiery, dragon-like being. He was then imprisoned in a distant planet, only to be freed when Andrew Hartford discovered the Corona Aurora. Moltor set out to obtain the jewels of the Corona Aurora, before Flurious could, whom he held a grudge against. He attacked Andrew Hartford to try and get the crown, setting off a volcano after getting what he thought was the crown. It was actually a clever fake, but Moltor captured Andrew and the real crown and tried to make the explorer help him get the jewels. However the rangers arrived and saved Andrew, destroying a monster Moltor sent against them. Flurious confronted the fire being, demanding the crown, and they fought, ending in a tie and agreed to be enemies.

At one point, Moltor tried to gain his brother's respect by creating a device to control weather. However Moltor lost control of it, leaving the Power Rangers to destroy it and Flurious mocked him for his failure. After this, the fire being transformed one of his Lava Lizards into a half-dragon monster named Volcan. In order to make him invincible, Moltor went after a dragon scale that the rangers were also trying to get. After a fight with the rangers, he got the scale and planned to use intense heat to completely empower Volcan. However the rangers interfered and took the scale, destroying Volcan with their new Drill Blaster Weapon.

Later Moltor received a proposal from his brother to join forces since now Kamdor and Miratrix were also looking for the Corona Aurora's jewels. Using two giant robots Moltor was constructing, he and Flurious were able to take down the Rangers and disable their Megazord.

They managed to take Mack, the Red Ranger, prisoner, but he was able to play on their hatred towards each other to make Moltor and Flurious enemies again. He managed to escape with the Megazord and with the other rangers help, destroy Moltor's robots. After this, when Miratrix and Kamdor obtained a parchment that led to the Toru diamond, one of the jewels of the Corona Aurora, Moltor sent a monster to take care of them.

They managed to bury the monster in a cave and then created monsters of their own, as well as brainwash stunt actors to become their army. Moltor engaged them with his own forces, but the rangers joined the fight and Dax brought in the Transtek Armor. The fire-being and Kamdor teamed up temporarily to fight the armor, but both lost and retreated, with the parchment falling into the ranger's hands.

So as to get the parchment back, Moltor sent Tyzonn, a good alien who he'd turned into a monster, promising to change him back if he served him, to get it back, along with the monster, Bullox. However in the struggle, the most important piece was torn off and ended up in Mack's hands. Moltor sent the two to get the piece, but Tyzonn was convinced to turn against the fire being. He told his former master he wouldn't help him anymore and eventually helped the rangers get the diamond with the rangers restoring him to normal. Later the Lava Lizards retrieved a map to Thor's hammer, Mjolnir, for Moltor from a museum in Norway, but the rangers arrived at the rainforest he met up with them in.

The fire being managed to defeat them and returned to his lair to find Norg, who had left Flurious after the ice being had gotten mad at him. The yeti gave Moltor Chiller stones to let him stay and he commanded Norg to clean his lair, before going to find Mjolnir. After the Rangers arrived, he released the Chillers against them and continued searching for the hammer. Tyzonn and Will caught up with him and Moltor released more Chillers to fight them. Tyzonn went after him and managed to get Mjolnir first, prompting the fire being to engage him and succeeded in taking the hammer. When all the rangers caught up with him and defeated his Lava Lizards, Moltor used Mjolnir to ressurect three Lava Lizards in giant size, more than twice the size of the Drivemax Ultrazord. Tyzonn managed to get the hammer from him and grow the Drivemax Ultrazord to match the Lava Lizards. After his Lizards were defeated, Moltor returned to his fortress, before kicking Norg out for the failure of the Chillers. Later, the rangers were trying to break open the rock that held the next jewel of the Corona Aurora with help from "Thor" (actually Loki in disguise).

Moltor attacked with his Lava Lizards, but the real Thor appeared and the fire being retreated. But after the rangers broke open the stone to find it contained a powerful compass, the Piedra Aztec del Compás, instead, Moltor reappeared and stole it, before teleporting away. His old friend, Blothgaar, arrived and the fire being commanded him to use the compass on the rangers. He succeeded in giving Mack excessive bad luck with the compass and Moltor brought Blothgaar to a suppository of energy to help finish the rangers. The rangers arrived to confront them with Mack bearing numerous good-luck charms from his friends, much to Moltor and Blothgaar's amusement. They didn't help at first and the fire being left while Blothgaar and some Lava Lizards fought the rangers. The rangers emerged victorious due to Mack using the good luck charms, taking the compass, but Moltor returned with an army of Lava Lizards. While Tyzonn battled his minions in the Transtek armor, the fire being fought the rangers himself, eventually retreating. Moltor helped Blothgaar into the energy suppository, growing him to giant size only for the monster to finally be

destroyed.

Moltor later contacted the Fearcats and offered them invincible armor, in exchange for defeating the Power Rangers. He gave them a map to the armor, but they weren't interested and mobilized a new giant robot. After their robot failed due to being unable to handle the power, the Fearcats decided to go after the armor. Despite the rangers' interference, they equipped it to the robot, but the rangers still defeated them and took the armor, much to Moltor's disappointment and anger. Soon after this, Moltor, along with Flurious, Kamdor, Miratrix, and the Fearcats, was called to a meeting by Thrax. He proposed a temporary alliance between them all to destroy their mutual enemies, the Power Rangers. They agreed, since it would leave Earth open for them to plunder for the jewels of the Corona Aurora. Moltor and the rest of the alliance faced off against the rangers and devastated them in the battle, then combined their energies to cut off the team's link to the Morphing Grid, leaving them unable to morph. After the Sentinel Knight teleported the rangers away, Moltor and the others set off to find the crown's jewels. However the Sentinel Knight restored the powers of some previous rangers, who battled the evil alliance in place of the Overdrive Rangers. Moltor and the others talked about the fact that Thrax hadn't kept his promise to get rid of the Power Rangers and were getting suspicious of him. Finally Moltor and the rest of the evil alliance faced off against the Power Rangers in one final battle. However they proved unable to win against two ranger teams and with Thrax's destruction, were defeated by one final blast from the group, before severing their ties.

Some time after this, Molltor was working on another robot that was powered by one of Flurious' gyro generators, which he got from the Fearcats. However it didn't work and he confronted them about this, but they said they'd kept their part of the deal and told him to find another way. Moltor and the Fearcats attacked the city, luring the rangers into a trap, and successfully captured Ronny and Will, as well as the Sentinel Sword. The Fearcats got angry about taking Will, saying he could be a liability and Moltor agreed to destroy him. Will and Ronny managed to escape their bonds, but the Fearcats recaptured Ronny, who'd stayed to give Will a chance to escape. The Fearcats brought her to the energy harnessing device and

Moltor plugged the Sentinel Sword into a converter that would turn the Sentinel Knight evil or destroy him. Moltor activated the device and started draining Ronny's energy, eventually gaining enough for his robot. He got in a brief fight with the Fearcats when he left to activate his robot before Ronny was completely drained. Moltor faced off against the rangers' Zords with help from a now evil Sentinel Knight and a fleet of his Lavadactyls. He managed to devastate them, even blasting the Drivemax Ultrazord into its individual zords. However the rangers struck back with their new Battlefleet zords and suddenly Moltor's robot ran out of energy, forcing him to retreat. He began draining more energy, telling the Fearcats the energy draining machine worked too slowly. However Moltor noticed Will and Norg approaching on a monitor and sent Lava Lizards to attack them.

Will managed to fight them off and infiltrate Motlor's fortress, only to be confronted by the fire being himself. They fought and Will won with use of his Drive Slammer, then freed Ronny and Moltor used what energy he'd gathered to mobilize his robot. The rangers used the Battlefleet Megazord to fight him and managed to destroy his robot, forcing Moltor and the Fearcats to retreat. Moltor later retrieved the Root of Hesper to keep it out of the hands of the Fearcats, but was confronted by Ronny and Mack. He and his Lava Lizards engaged them and Moltor was eventually defeated by the sudden arrival of Dax. The Fearcats arrived, taking the root and taunting the fire being, as well as the other villains who'd gotten other relics the cats were after, but had lost them to the aliens.

They watched as the Fearcats summoned the being, Agrios, then defeated the rangers, trashing the rangers' Zords. Moltor and the others watched Mack in the Flashpoint Megazord have a rematch with Agrios, angered that the Fearcats would make them their servants when they won. But when the Fearcats lost, Moltor contacted Flurious, saying out he would claim the gems, only for the ice being to demand that his brother join him, but he refused.

Moltor was watching the rangers as they discovered the location of the last Corona Aurora jewel and that they needed a key to get to it. However his volcano fortress began growing unstable, Flurious' doing with use of the Corona Aurora jewel in his possession.

Moltor pursued the rangers to Japan and confronted them with the monster, Magmador. They fought and the fire being almost managed to get the key, but it burrowed underground, forcing Moltor to try and find it again. Magmador used his tentacles to search for the key and brought his master to where it would appear, but the rangers arrived. Another fight ensued and the rangers destroyed Magmador but he revived in giant form and was engaged by the Sentinel Knight. While his monster fought the Sentinel Knight and Tyzonn in the Flashpoint Megazord, Moltor battled the other rangers. Magmador was destroyed, just as the key appeared, but before the fire being could get it, Will took it. After being badly weakened by an attack by Will, Moltor retreated to his crumbling lair and marshaled his Lava Lizards for a final attempt to get the jewel. Suddenly Will arrived to take the crown and the fire being and his Laca Lizards engaged him as the volcano started to erupt. Moltor was stuck down as the volcano exploded, but escaped and went to Flurious with the crown and Vella, Tyzonn's wife. At first his brother treated him kindly, but he simply froze Moltor, then shattered him to pieces.

Flurious.

Flurious's past is unknown. When he and Moltor were children, Flurious broke Moltor's little red sled, much to his brother's dismay. He is extremely argumentative, short-tempered, cantankerous, and irritable, attacking Norg at the slightest provocation. He was the first of the two brothers to openly declare hostilities, attacking Moltor for the Corona Aurora and declaring "it's every man for himself" afterwards. He is heavily disdainful, opprobrious, and vituperative for his brother (Flurious considers himself the smarter and more handsome one), laughing at his misfortunes and openly calling him to insult his intelligence. He always thinks of Moltor as incompetent, and gets easily annoyed when Moltor fails, although he fails too. One can infer from the verbal exchanges of the two siblings that Flurious is the older brother, though this was never stated onscreen.

Following his release from his prison, Flurious took over Norg's ice cave and enslaved the yeti, and has been regretful ever since. He has tried several times to make Norg either useful - such as finding the Fearcat's base and making him run away - or leave, but with no luck.

At one point, Flurious went to Moltor's base, suggesting that with Miratrix and Kamdor searching for the jewels, it was time for the two brothers to put their differences aside and work together. They did manage to beat the Megazord with the cyborg-zords Moltor built, and capture Mack in the process. Mack used their own suspicions and past issues to set them against each other, and at the end of the episode, they were fighting once more.

Flurious is one of the least active of the villains, and has had the least success as a result. He originally tended to not search for the jewels, and just wait for Moltor to find them so he could steal them. However with the Fearcats' debut, his way of thinking soon changed. He briefly attempted to work with other villains: he brought back the Fearcats as cyborgs with his gyro technology, intending for them to work for him, and teamed up with Kamdor to find the Cannon of Ki Amuk. This backfired when the Fearcats turned on him near-instantly and stole one of his robots, and Kamdor and Flurious fell out over whose fault it was. All three villains battled each other as a result, and - aside from Thrax's alliance - this was the last Flurious has tried working with others. The only exception since then came when the Fearcats were destroyed, and Flurious made a one-chance offer to Moltor to work for him; though it is unlikely that he thought his brother would actually take him up on the offer. Flurious gets his hands on the third jewel of the Corona Aurora, thanks to Norg. However, he is also very unappreciative and thoughtless towards the poor Yeti. Flurious uses his jewel to destroy Moltor's lair, then destroys Moltor by luring him to his lair and taking the Corona Aurora before freezing him solid and shattering him. Using the combined power of the blue sapphire and the crown, Flurious was able to locate the rangers' base where the remaining jewels were hidden.

In the final episode, "Crown and Punishment", Flurious gets the rest of the jewels for the crown but the Rangers attack his forces before he can put it on. He freezes the city, and the rangers freeze during mid-morph. The Rangers escape because of this, and Flurious puts on his crown, transforming into an immensely powerful form. The Rangers manage to use teamwork to fight him back but he responds by growing giant sized. The Rangers combat him with the Super Drivemax Megazord and Battlefleet Megazord but he quickly defeats the Zords, then shrinks back down to human size and he sends out a huge army of Chillers. He comments that no mere human can defeat him. Mack says he isn't human, and while the other rangers take on the Chillers Mack becomes the Red Sentinel Ranger, and he uses everything he has to defeat Flurious. After he is beaten the crown falls on the ground and he reverts to his original form. Flurious refuses to admit defeat and goes after the crown, only for Mack to stop him and use all of his powers left to finally destroy Flurious with an energy beam and save the world.

Qin: Geez! Those two are dangerous!

Lana: No kidding. I use Ice.

Lola: And I use fire but we don't complain.

Bobo: Ok, I've heard of fire and ice being opposites. But those two having a feud is ridiculous!

Me: No kidding.

Mack: Nico, we heard on the news about what Ricky Beamer said.

Nico: And I'm guessing you disagree with him?

Ronny: Of course we do! We know you would never let anything bad happen to anyone who's not a bad guy

Rose: He was just saying that because you backed him into a corner.

Will Aston: Besides, how wer you supposed to know that Qin's parents were about to be killed by the Russian mob.

Andrew Hartford: Nico, take it from someone who's made some bad mistakes in his lifetime. It's ok to make mistakes. What matters is that you learn from them.

Nico: Thanks, guys.

Crumplezone: If I knew that Ricky was gonna say all that, I would've pounded his face in!

Me: We all would Crumplezone.

We later went back to the estate.

---

We were watching TV and reading books. Then the alarm sounded.

Me: Uh oh.

We got a video call from General Thornton, commander of the U.S. Governments BGY Project.

Me: General Thornton. (Salutes) It's an honor to meet you sir.

General Thornton: You too J.D. We've heard so much about you and all of Team Loud Phoenix Storm. But I'm afraid we got some big problems.

Me: What's wrong sir?

General Thornton: The Legion Ex Machina, an organization of robots trying to destroy all of Neutronic City has somehow created their own Big Guy and it is heading over to Quark Industries.

Me: This is bad. We're on our way sir!

We headed out for Neutronic City, Maine.

---

NEUTRONIC CITY, MAINE

---

We arrived in Neutronic City and we saw a fight happening on top of the roof of Quark Tower.

Me: Looks like a huge fight is brewing.

We saw the Legion's version of the BGY-11 called the 11X fighting a little boy robot called Rusty the Boy Robot.

Me: Whoa! What a battle!

I turned on my computer eyes and it analyzed everything about the 11X. It was a true robot and was built by the Legion Ex Machina to destroy the Original Big Guy and gain access to all of the country's and Quark's classified military data and protect humankind from all threats except those from the Legion.

Me: Whoa! This version of the Big Guy is terrible! I got this guys.

I snapped my fingers and grew to the size of the 11X.

The 11X had its shoulder blaster ready to fire at Rusty.

11X: Toodle-oo tinker toy.

I tapped the 11X on the shoulder.

Me: No one hurts robots on my watch!

I punch him in the face and sent him crashing into the wall of the roof building. I grab the blaster and rip it off and threw him and he rebounded and I punched him in the face and headbutt him and knocked him down. I did a pile drive and we crashed through the roof and we were plummeting to the ground!

Me: No one disgraces the original Big Guy you cheap ripoff!

Me and 11X: CANDYGRAM!

I fired energy blasts and the 11X fired his machine guns and missiles and they were hitting both of us and exploded with incredible power and we were enveloped in fire as we were plummeting. When we landed we caused a massive explosion of fire that blew all the windows away.

KRABBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

The 11X was out of ammo.

Me: Looks like you're out of ammo.

I was ready to fight him.

I got into a fight stance.

Me: Shall we dance?

11X: Lets.

We went at each other and tore each other apart. I punched his face off and kicked him in the chest and I ripped right arm out. 11X had his buzzsaw ready and he slashed me in the arm and I had blood pouring down my arm and I splashed it onto his arm and melted it off.

11X: Your power is indeed impressive J.D. Knudson. But unlike you I was programmed to destroy people like you. And I have something you don't.

Me: And what is that?

11X: One of these.

His chest opened up and out came a super powerful particle cannon!

Me: A Microfusion Particle Cannon!

I got up and he fired and I fired a powerful Kamehameha Wave and it overpowered his blast and went into the cannon and overloaded it.

11X: For the love of…

He exploded into a massive fiery pile of scrap metal.

KRABBBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

The 11X was completely destroyed.

Me: No one ruins the Big Guy's image.

The Real Big Guy then landed by me.

Big Guy: Thanks for that J.D. You did really well.

Me: Thanks Big Guy. It's an honor to meet you.

Rusty: It's an honor to meet you guys!

Me: You too Rusty.

I returned to my normal size and my wounds healed.

Dr. Erica Slate then came.

Dr. Slate: Thank you for saving us J.D.

Me: No problem Dr. Slate. It's a pleasure to meet you in person.

Dr. Slate: You too. Lets get the 11X to the lab for analysis.

Me: No problem.

---

Later we ran some analysis on the 11X and we found out some incredible things.

General Thornton: So you're saying the Legion didn't just eyeball our Big Guy to create their own?

Dr. Slate: Correct. The components of the 11X are identical to those of the original BGY.

Garth: Identical. Not counting those artificial intelligence gizmos.

Dr. Slate: Right. Their Big Guy was a true robot. Which means the Legion must've gained access to Dr. Poindexter's original plans and finally made them work.

Me: How is that possible?

Laney: No idea.

Lisa: This Legion Ex Machina is very crafty.

General Thornton: They are, and Poindexter took everything with him when he went A.W.O.L. Even we don't have those plans.

Lincoln: These guys sound really dangerous.

Lana: No kidding.

Lola: But who are these Legion guys anyway?

Dr. Slate: They are a dangerous underground organization of robots that want to destroy all of Neutronic City and rule over it with robots.

Me: Lets see what the Legion is. I can now access my database through the satellite uplinks in my device.

I looked them up.

---

The Legion ex Machina was invented by Dr. Roland Poindexter. His goal was to create what he perceived as the perfect artificially intelligent robots. Poindexter was successful, but that was also his downfall, and his creations soon turned against him. The Legion placed Poindexter in stasis where they had complete access to his mind. The Legion then built a secret base and began their goal to eradicate mankind.

ARG0-12

ARGO-12 was the first robot that was created by the Legion. Its purpose was to recruit any other robots to join the Legion. It terminated any of them if they refused the offer. It was powered by packs of nuclear energy that Number 6 stole from where he worked. ARGO-12 engaged in a fight with the Big Guy and was almost successful. It ran low on fuel and was given a defective nuclear pack from Rusty, which then resulted in a massive overload. ARGO-12 was then scrapped afterward.

Rebellion

Number 6 (also known as Dr. Gilder) was placed inside Quark Industries as a mole in order to gather information. He harbored bitter feelings toward the CEO, Quark Donovan, for destroying his inventions. Gilder eventually lost his patience and shifted his focus towards killing Donovan. His first attempt was to hack a robot but it was stopped by the Big Guy. He then hacked into Rusty and controlled the boy as an assassin. Dr. Gilder was then stopped when one of Quark's scientists, Dr. Erika Slate, discovered what he was doing. Dr. Gilder chased her to a grinder, lost his skin in the process, and revealed that he was a robot. then fell into the grinder after Big Guy shot him. The Legion took no pity in the demise of Number 6.

## ARGO-12000

ARGO-12000 was the Legion's second robot creation. It was a 400ft version of ARGO-12. ARGO-12000 was sent to steal a Micro-Fusion generator that could be used to build more robots like it. The body parts of ARGO-12000 were transported through an underground rail station. The remaining piece, the left hand, was salvaged before construction was complete, but that didn't stop the robot from stealing the micro-fusion generator which was successful. ARGO-12000 headed towards the nearest ocean, but was shot by a beam from its missing hand. It collapsed and went permanently offline. The generator was then recovered.

## Stealing Rusty's Brain

The Legion built a machine to steal Rusty's mind. It damaged a dam to draw attention. While it was attacked by the Big Guy, a mechanical orb was released from the backside. The sphere attached to Rusty's head and absorbed his brain waves, which then caused his entire body to go offline. The Legion used the acquired data to access his Rusty's thoughts. Rusty managed to escape their computer network and entered the Internet. Number 4 then chased Rusty throughout the Internet. The pursuit ended at Quark's Digital Archives. Big Guy appeared and intervened: he shot Number 4 into a stream of data. The Legion then spent time and repaired Number 4.

## Project NOVA

In order to finish their latest creation, the Legion needed specialized fuel. Their only source was a power plant that manufactured neutrinos. They sent a machine to steal a new kind of neutrinos: anti-tronic neutrinos. As it began to drain the entire supply, it was interrupted by the Big Guy. Rusty then attempted to download data from the machine's archives. Number 4 attempted to use his own strength to counteract Rusty. Both sides then engaged in a mental tug-of-war. The connection ended after Rusty and Number 4 were overwhelmed. Later, it was revealed that their personalities were swapped. Rusty started to build Project NOVA and released it. Rusty went after NOVA and so did Number 4. When they reached the scene, Rusty and Number 4 engaged in another mental tug-of-war. That time, there was a swap between their identities. Rusty took full control of Number 4's body. He then short-circuited NOVA and deactivated his original body. The brain of Number 4 was then acquired by Quark.

## Confronting Big Guy

Sometime later, the Legion sent Number 5 to acquire a robot from the Chopshoppers. Number 5 was greeted by the Big Guy upon his arrival. A fight took place where Number 5 had his cybernetic modification as an advantage. His skin was destroyed after he revealed himself as a robot, but he still had the upper hand in the battle. Big Guy used his own body to smash Number 5 into the ground. Number 5 malfunctioned from the impact and was then shot into a tank of cryogenic ice. His existence came to an end when Rusty shattered his frozen body.

## Missing Colleague

Quark still had the brain of Number 4, and Donovan's nephew, Pierre, stole it for his science project. He then placed the brain inside a toy robot. Once activated, the toy robot escaped. Unaware of the Legion, Pierre had no idea about the possible consequences. Meanwhile, the Legion made plans to eliminate Number 4 because he became incompetent. As revenge for their betrayal, Number 4 attempted to destroy the entire city. He failed when his auto-safety mechanism was activated by the Big Guy and destroyed his head.

## Sabotaged Rusties

The remaining three members of the Legion acquired a household version of Rusty from Quark industries. Using their advanced technology, they redesigned the circuitry. Then they connected the robot into a machine and used it to control every other household version. Their first part of their mission was to replace their own batteries with nuclear packs. The next phase was to shoot green beams at New Tronic City, that would annihilate the inhabitants and allow the Legion the opportunity to build a utopia for robots. They were almost successful, but a bomb destroyed all of the Rusties.

## Fake Big Guy

Frustrated by their constant defeats, the Legion built an exact duplicate of the Big Guy. They dubbed it the BGY-11X. The Legion trapped the real Big Guy in a remote desert. During the BGY-11X's time at Quark Industries, the Legion learned the truth: the Big Guy was piloted by a human: Lt. Dwayne Hunter. Despite the efforts of the BGY-11X to act like its counterpart, Rusty became suspicious and found out. The real Big Guy returned after his body and pilot were found. Both the original and the clone then engaged in a brutal fight. The Big Guy won by shooting his arm into the cannon of his opponent.

## Abduction

The victory was short lived, however. The Legion then dispatched a clone of the pilot, Lt. Dwayne Hunter. It shot Hunter and sent him directly to the Legion's Headquarters.

## Revelation

Upon Hunter's arrival, the Legion introduced themselves. The Legion revealed their creator who was also their prisoner. Poindexter's mind was a source of data. According the Legion, they felt no human emotions and therefore overthrew their creator. Their lack of human emotions led the Legion to believe that mankind was inferior. They felt that Hunter was less inferior, but was more problematic. Then Hunter was placed into stasis.

## Downfall

The Legion's Headquarters were soon discovered when Quark found some old schematics. Rusty then promptly flew to the location, saved Hunter, and his presence alerted the Legion. The Legion then engaged in a climatic battle with their enemies. Number 1 equipped himself with blasters; Number 2 utilized his exoskeleton; and Number 3 took control of a giant robot. Poindexter was freed from his prison when the battle started. Poindexter and Rusty were intervened by Number 2. Number 2 then tried to kill Poindexter, but was pulled into a nearby fan which shredded his entire body. Meanwhile, Big Guy and Number 3 were in a fierce fight and were evenly matched. However, Big Guy found a way to defeat his opponent: he pushed Number 3 into a pool of blue acid that melted him. Afterward, Poindexter took cover while Big Guy and Rusty fought Number 1. Number 1 trapped Big Guy and Rusty in a force field and Big Guy lost his left arm in the process. Poindexter then used it to hit a machine which catapulted Number 1 directly into the force field. After Number 1's destruction, the field deactivated. A video message then suddenly appeared and the complex started to self destruct. Big Guy. Rusty, and Poindexter then escaped. During a later conversation, the members of Quark Industries attempt to reassure Poindexter by saying that they had destroyed all six members of the Legion, but Poindexter was struck with a sudden fear as he told them that he had created seven members.

## Members

### Number 1

The first member who was created and was the last one destroyed. As the leader, Number 1 was in charge of production and tactics. The other members fully respected him. Despite the loyalty, Number 1 took no pity in the death of his own colleagues. Occasionally, he displayed an ironic sense of humor.

### Number 2

Number 2's exoskeleton was entirely different from his colleagues. He was first who was destroyed in the Legion's downfall.

### Number 3

Number 3 was emotionless and spoke in a flat tone of voice. His eyes were never revealed. He and Number 2 usually agreed about the same matter. Despite his personality, Number 3 was capable of expressing anger. Number 3 was destroyed before Number 1 in the Legion's downfall.

Number 4

Number 4 was the only one who swapped personalities with someone else. He was captured by Big Guy and Rusty.

Number 5

Number 5 was equipped with a visor that shot red lasers. Number 5 was the first member who fought the Big Guy. Despite his smaller size, Number 5 was a formidable combatant. Despite his abilities, Number 5 was the most successful member who severely damaged Big Guy.

Number 6

Number 6 was also known as Dr. Gilder. He was only one with human emotions. Also, he was the only one without cybernetic parts. Number 6's outer appearance was different from his colleagues. He built robots for Quark Industries, but was actually a mole. He was the Legion's first member who was destroyed.

---

We were shocked!

Qin: I can't believe they are that dangerous!

Dr. Slate: But this data you have on them is amazing.

Me: It is fascinating.

General Thornton: How did you get this data?

Me: The most important rule we have General is Know Thy Enemy. When we face a bad guy, we have understand how they work, think, feel and operate and find out what their motives are. Wait. The satellites are picking up an audio transmission.

General Thornton: Lets hear it.

I put the transmission on.

Number 1: You're late Number 6.

Number 6: You must appreciate how difficult it is to get here on such short notice Number 1.

Big Guy: That's Dr. Gilder's voice.

Dr. Slate: So Dr. Gilder is in allegiance with the Legion.

Number 1: Perhaps a trial if Quark Security hadn't been increased due to a certain incident.

Number 3: The Legion has gone to great lengths to position you in Quark Industries, Dr. Gilder.

Number 2: It concerns us to see this vendetta of yours jeopardizing that position.

Number 6: But Donovan's destroying my robots! Our robots! There's nothing left of KX-5 but his head!

Number 4: Donovan is insignificant! You are our mole. Our information gatherer.

Number 5: Not an assassin. You must learn to control your emotions Number 6.

Number 6: I understand.

The transmission ended.

Me: That was intense.

Lola: But they all sounded like Lex Luthor was when we killed him.

Me: We didn't kill Luthor. His disease did that on the way to his prison. But the satellites did pick up where the transmission was coming from and we can now take the fight to the Legion Ex Machina and destroy them all.

Dr. Slate: I know you all can do it.

Me: Lets show those tin cans what happens when Humans and Robots work together.

Dr. Slate: I'm coming with you all.

Me: Are you sure Dr. Slate? This is gonna be incredibly dangerous.

Dr. Slate: I'm positive. I've been ready for helping you all ever since you all emerged.

Rusty: This is gonna be cool Dr. Slate!

Big Guy: We're gonna be ready for them.

Me: Awesome! The satellites picked up the Radio Transmission from an abandoned hydrogen power plant located 90 miles northeast from here.

Dr. Slate: Then that must be where we need to go.

Me: Lets do it.

Lincoln: Lets get them!

We went after the Legion Ex Machina.

We were heading to their hideout. We arrived at the Power Plant.

Me: Target sighted.

Horsea: Maria, where can I hide while you guys are fighting?

Maria: You can hide in my backpack till the fight's over Horsea.

Horsea: Okay.

She did so.

Inside the base, the Legion was working.

Number 5: Progress Number 2.

Number 2: Nearing completion.

Then a massive fiery explosion blasted a hole through the ceiling and a phoenix cry was heard.

We landed in the hideout and it was loaded with all kinds of machines and equipment.

The Legion saw us. We saw that they were bald guys with fancy devices on and wearing lab gear.

Number 1: Team Loud Phoenix Storm.

Me: So you guys are the Legion Ex Machina.

Number 1: Indeed.

Number 2: How nice of you to pay us a visit.

Nico: You guys all almost look the same.

Me: Not 100%. But right up there.

I looked at them with my data eyes and the data I got on them was amazing.

Me: Whoa! The data on all of you is amazing! You all were built by Dr. Roland Poindexter.

Dr. Slate: Dr. Poindexter built you all?

Number 1: That's right. We are his masterworks.

Number 2: His final creation.

Number 3: A bone for his wounded soul.

Number 1: After the failure of the BGY 11. But our artificial intelligence was so advanced, it overpowered our human emotion grids.

Number 2: Thus with no hard feelings, we overthrew our creator. Confirming the superiority of machine over man.

Number 1: Survival of the fittest.

Me: More like an act of cowardice. So that's how you got ahold of the original plans for the Big Guy. You accessed his brain somehow.

Number 4: Indeed.

Number 5: Say hello to our creator.

They showed a tank and inside it was Dr. Roland Poindexter. He was in a state of suspended animation in a tank full of some kind of water and he was hooked up to all kinds of machines.

Dr. Slate: Poindexter.

Me: You killed him!

Number 1: No. The good doctor is very much alive.

Number 2: Fused with our technology. If he were conscious, we are certain he would appreciate the irony.

Lisa: Ingenious! You all tapped into his grey matter in his neurological network.

Me: Very interesting.

Private: They're identical! What're we looking for?

Skipper: The look of unsustained pure evil!

Number 4: I've got news for you, penguin. We all want to see you heroes get what's coming to you.

Me: And now we've come to stop you once and for all! Lets take them down!

We went at them. We split up into 6 groups and went at them.

---

Group 1: Nico, Lori Loud, Hay Lin, Vida Rocca, Rose Ortiz, Girl Jordan, Depth Charge (Beast Wars), Luna Loud, Irma, May and Abby Martin VS Number 6

---

Group 1 was facing Number 6 A.K.A. Dr. Gilder.

Nico punched him in the face and he crashed into the wall. Number 6 then ripped off his clothes and artificial skin and they saw that he was a robot far more advanced than what we faced when we faced H.A.R.D.A.C.

Nico: Whoa! He's far more advanced than anything we've ever seen.

Girl Jordan: He sure is much different than the robots we heard about from when we faced H.A.R.D.A.C.

Luna: No kidding dude.

Number 6: You all are stupid fucked up humans!

Nico: Same to you freak! You are an overzealous walking tin can!

Hay Lin: Time for you to be blown by the storm!

Hay lin fired a massive blast of wind and blew him around in a powerful tornado and she threw him into the wall!

Rose Ortiz turned invisible and punched Number 6 in the face and sent him crashing into the wall.

Depth Charge (Beast Wars): Time for you to face the Manta Ray. Depth Charge, MAXIMIZE!

Depth Charge transformed and he fired powerful missiles at Number 6 and they hit him and exploded.

KRABBBOOOOOOOOOOOOOOOOOMMM!

The explosion blew him in half and Girl Jordan, Luna, Irma, May and Abby fired a powerful blast of water and it soaked him and shorted him out and he was sputtering.

Nico: Number 6, you have failed this world!

Number 6 exploded and he was reduced to scrap metal.

KABOOOM!

Lori: That is literally it for him.

Irma: You said it Lori. He gives all robots everywhere a really bad name.

Depth Charge: I agree with you there Irma.

---

Group 2: Lola, Taranee, Mack Hartford, Nick Russel, Darcy, Lori Jimenez, Volcana, Sam S.L., Leni Loud, And Michael Munroe VS Number 5

---

Lola fired a powerful blast of fire at Number 5 and it hit him and exploded. It burned his jacket and his jacket had a hole in his back revealing his robot back.

Lola: That is gross!

Michael Munroe: No kidding. Lets burn this creep!

Lori J.: Lets!

Lola, Taranee, Lori J., Sam S.L. and Michael fired a massive blast of fire and it hit Number 5 and burned him all over. His burned clothes and artificial skin fell off and he was now in his robot form.

Taranee: Wow! So this is what you look like.

Lola: Incredible!

Darcy: Amazing! I may be a cyborg but even I know how to respect the laws of robotics.

Lori J.: Me too.

Volcana: This is insane. I can't believe Dr. Poindexter built all of you.

Lola: Lets melt him!

They fired a massive blast of fire and lightning and destroyed him.

---

Group 3: Luan, Winx Club Stella, Chip Torn, Ronny Robinson, Eddy, Boone Dixon, Lizzy Morris, Lana Loud, Bloom, Lincoln, Will Vandom, Earth, and Shrapnel VS Number 4

---

Luan fired a powerful blast of light and burned his face off. They saw his robot face.

Lana: Whoa! He sure is a cool robot!

Lincoln: He sure is far more advanced than what Lisa builds.

Stella (Winx): No kidding.

Ronny Robinson: It's a cool robot though.

Lizzy: I would not want to have him for a science fair project.

Eddy: None of us would.

Luan: He sure lacks SCIENTIFIC ROBOTICS (Laughs) Get it?

Bloom: Love the jokes Luan but now is not the time.

Ronny Robinson used her super speed and punched Number 4 all over the place.

Lincoln: Time to electrocute this robot to death!

Lincoln, Will Vandom, Shrapnel and Boone Dixon fired a powerful blast of lightning and electrocuted Number 4 and he exploded.

KABOOOMMM!

Chip Torn: That's it for him.

Lana: Yep.

---

Group 4: Carol, Lynn, Cornelia, Will Aston, Xander Bly, Jillian Gerard, Beast Wars Inferno, Pan and Qin VS Number 3.

---

Number 3 was facing Group 4 and he was in a huge robot suit!

Carol fired Godzilla's Atomic Ray and it hit the suit and completely destroyed it.

Jillian Gerard fired a glob of lava and burned his skin off and revealed his robot form.

Carol: Whoa! What an awesome robot.

Lynn: Lisa would love a robot like this.

Xander: (Australian Accent) He sure would Sheila.

Pan: Lets blast this clod into nothing.

Inferno (Beast Wars): Lets do it for the boss! Inferno, TERRORIZE!

He transformed.

They all blasted him and destroyed him.

---

Group 5: Brittney Knudson, Brittney Crosby, Roxy (Winx Club), Daggeron, Tyzonn, Lucy Loud, Lucy Dark, Wolfang (Beast Wars) and Oceanus Shenron VS Number 2.

---

Group five was facing Number 2. He was an interesting robot with long telescoping arms.

Brittney K.: Lets see how you like this!

Brittney fired a powerful blast of dark energy and blew him in half.

It was a powerful and explosive fight.

Wolfang: Lets see him survive this. Wolfang, MAXIMIZE!

Wolfang transformed and he fired grabbed one of Number 2's arms and tied it to one of his grappling hooks and he fired it and it sent him going into the fan and it ripped him to shreds and he exploded.

Brittany Crosby: That was very clever.

Oceanus Shenron: It sure was. That was really clever.

Lucy Loud: He just hit the fan.

Daggeron: Good riddance.

Tyzonn: Lets help J.D. deal with the last one.

---

Group 6: J.D., Varie, Lisa Loud, Tecna, Flora, Layla, Madison Rocca, Dax Lo, Sakura Avalon, Jared Knudson, Linka Loud, Laney Loud and Lily Loud VS Number 1.

---

Group 6 was facing Number 1.

Me: It's just you and us now Number 1.

Number 1: Indeed. Now you will die.

Then he had 2 powerful energy blasters pop out of his back and he was ready.

Me: Lets dance.

I ignited my lightsaber and he fired red energy blasts at us and I deflected them with my lightsaber. We fired energy blasts, nucleoproton blasts and so much more. It was a massive firefight and it was blowing much of the entire hideout apart. We were firing energy blasts and more and we were tearing him apart.

Eddy: (fires at Number One's guns) Let's see how your firepower fairs against mine!

Eddy blew his blasters apart with his blasters.

Me: Lets blow him apart with our teamwork and final smashes!

Xander: Right mate!

Xander went into his Mystic Muscles form and Will had his Drive Slammer.

Xander Bly and Will Aston: OVERDRIVE MYSTIC SUPERSLAM!

They ran fast and rammed Number 1 with devastating force!

Mack had his Drive Lance ready and Nick had his Magi Staff in Sword mode.

Mack Hartford and Nick Russel: OVERDRIVE MYSTIC PHOENIX SLASH!

They slashed Number 1 with a powerful blade of red fire energy.

Vida fired a powerful blast of pink energy from her Magi Staff and Rose fired a massive blast of energy from her Drive Geyser.

Vida Rocca and Rose Ortiz: OVERDRIVE MYSTIC BUTTERFLY BARRAGE!

Their blasts combined and turned into a powerful barrage of energy bomb butterflies and they hit Number 1 all over.

Ronny Robinson had her Drive Claws ready and Chip Thorn had his

Magi Staff in Crossbow mode.

Ronny Robinson and Chip Thorn: OVERDRIVE MYSTIC GARUDA SLASH!

Ronny Robinson slashed Number 1 and Chip fired numerous yellow blasts of energy.

Madison fired powerful blasts of blue energy from her Magi Staff and Dax fired a powerful blast of wind from his Drive Vortex.

Madison Rocca and Dax Lo: OVERDRIVE MYSTIC MERMAID VORTEX!

The blasts combined and turned into a spirit mermaid with wings and it slammed into Number 1 and exploded.

Daggeron: Lets get him!

Daggeron fired a massive blast of solar light from his Laser Lamp and Tyzonn fired a massive blast of Mercury energy from his Drive Detector.

Daggeron and Tyzonn: OVERDRIVE MYSTIC SOLAR SYSTEM BURN!

The blasts combined and turned into the Sun and the planet Mercury and they slammed into Number 1 and exploded.

Trailbreaker: Time for some heavy firepower! CYBER KEY POWER!

The Earth Cyber Planet Key went into his back and enhanced his abilities 100-fold as well as enabled him to fire powerful blasts of lightning from his eyes.

Bobo Haha: Lets get him! ANIMATRON CYBER KEY POWER!

The Animatron Cyber Planet Key went into his right arm device and he formed a powerful energy sword in his hand.

Trailbreaker and Bobo Haha: LIGHTNING ENERGYFORCE SLASH!

Trailbreaker fired a powerful blast of lightning and it merged with his sword and he slashed Number 1.

Crumplezone: Lets get this clod! CYBER KEY POWER!

The Velocitron Cyber Planet Key went into his back and his shoulder cannons popped out.

Lasher: Lets do it! ANIMATRON CYBER KEY POWER!

The Animatron Cyber Planet Key went into his right arm device and it enhanced his Symbiote Powers 100-fold.

Crumplezone and Lasher: SUPER CRUMPLECANNON SPEARBURST!

Crumplezone fired his shoulder cannons and Laser fired numerous stars made of Symbiote matter and they hit Number 1 and exploded.

KRABBBOOOOOOOOOOOOOOOOOOOOOMMMM!

Me: Lets finish this clod!

Dr. Slate: I'll start us off. NUCLEOPROTON BLASTWAVE!

Dr. Slate fired a massive blast of Nucleoproton Energy and it hit Number 1 and exploded.

KRABBBBOOOOOOOOOOOOOMM!

Rusty: Sure-a-shootin ready for this! NUCLEOPROTON FIRESTORM!

Rusty fired a massive blast of Nucleoproton energy and it hit Number 1 all over and exploded.

KRABBBBBOOOOOOOOOOOOOOOMMMM!

Hawkgirl: Lets see how he likes Thanagarian Metal. THANAGAR SUPERSLAM MACE!

Hawkgirl charged up her mace and slammed it onto Number 1 with devastating force. Blowing him in half.

Big Guy: Time to finish him for good. SUPER WEAPONBARRAGE FIRESTORM!

Big Guy fired all his weapons from his arms and head and let all hell loose on Number 1 and blew him apart into nothing. Number 1 was dead.

Me: YEAH!

Nico: Legion Ex Machina, you have failed this universe!

Qin: And then some.

Then we saw another robot, Number 7, getting away.

Lola: Number 7 is getting away!

Hawkgirl: Let him go. Us killing the others is enough for today.

Me: Yep.

Lana: And we rescued Dr. Poindexter too.

Then a computer image appeared and it was a message from the Legion Ex Machina.

Number 1: (On Computer) If you are viewing this message, it would seem we have no doubt met our demise.

Number 2: (On Computer) How unfortunate.

Number 3: (On Computer) However, be assured that you shall not scrutinize our technology.

Number 1: Or escape.

Then the whole place was rumbling!

Me: This whole place is gonna blow!

We got out of there fast as the whole base went up in flames and massive explosions. The Legion Ex Machina was defeated and we would face Number 7 when the time came. Nico caught a Comfey and Oranguru.

Rusty: (To the viewers) Never mess with the laws of robotics or you will answer to us!

Me: You got that right Rusty.

We moved Neutronic City to Gotham Royal York and made it into a plant city like the rest. And we placed Neutronic City under our protection.

Nico was talking to the Operation Overdrive Rangers boss Mr. Andrew Hartford.

Nico: (to Andrew Hartford) You want us to beam your mansion next to ours?

Andrew Hartford: I would like that Nico.

We beamed his mansion to Gotham Royal York.

THE END

Another fanfiction complete and an evil organization destroyed.

Big Guy and Rusty the Boy Robot was one of my favorite shows from back when I was a kid. From September 18th, 1999 to March 5th, 2001 it was so cool! It's a shame it couldn't continue because after the last episode it left us with a massive cliffhanger! What a rip! But it was still a great show! This chapter is also a tribute to famous Gunnery Sergeant of the United States Marine Corps, R. Lee Ermey, who is one of the most famous sergeants of the Marines. He was a tough one and he will always be remembered.

# Battle for Dinosaur Leadership

Over at Lake Superior, we were going fishing. Nothing is more satisfying than spending some bonding time than going fishing.

Maria: Ready to go fishing, Horsea?

Horsea: You know I am Maria.

We were fishing. We had bait, rods and more.

Kira: Hey Lana can you give me another worm?

Lana had eaten all the worms and she slurped them into her mouth.

Lana: Sorry. All out.

Me: Oh Lana.

Penny M. was catching a lot of fish.

Sandman (to Penny): How are the fish, Penny?

Penny M.: Really biting daddy.

Thunderblast: I'll use my vehicle mode to catch more fish.

Nico: Go for it Thunderblast.

She turned into her speedboat mode and caught a lot of fish.

Qin: Hey J.D. can I ask you a question?

Me: Sure Qin.

Qin: I heard you all had a hated kid named Chandler Henderson.

Laney: You would hate him Qin. He was the worst ever kid ever.

Me: He hated everything and he wanted nothing more than to see the entire world burn.

I revealed his history and went over everything that happened during the events of Laney's Revenge, The Nature Sisters Cometh and Bully Dinosaurs VS Were-dogs.

Qin gasped in sheer horror!

Qin: I can't believe that kid! He was a monster!

Optimus Prime: I don't know who's worse. Chandler or Megatron.

Me: Chandler was a malicious, maniacal psychopath and he got what he deserved.

Tuck: (French Accent) And Chandler's spirit isn't in the Book of Vile Darkness becuase…

Nicole: Because he's not worth it. Besides, I admit that we do need at least one villain roaming around to keep the balance of good and evil intact.

Roll: (French Accent) Fair enough.

Lincoln: Chandler got a sick thrill out of making people suffer.

Laney: But he got what was coming to him. Death.

Nico: Chandler Henderson has failed this world in life and in death. We sent him into the Ghost Zone for all eternity.

Then a massive fish pulled my line!

Me: WHOA! I GOT A WHOPPER!

Varie: It's a really big one!

Ed came and helped.

Ed: IT'S A FIGHTER EDDY!

I was pulling it in and the fish jumped out of the lake water and it was a giant White Sturgeon!

Me: Whoa! It's a huge White Sturgeon!

Nico: That is the biggest fish I've ever seen!

Lana: Unbelievable!

Lisa: Fascinating specimen!

Lori: That's the legendary fish MOBY NICO! No one his ever been able to catch him!

Me: WOW! What a fish! Lets reel it in!

We did so! It put up quite a fight and it was a tough one. We pulled it in and it was a ginormous white sturgeon as big as a whole bus!

Me: Whoa! What a fish!

Nico: That is a huge fish!

Lisa: What an amazing catch!

Kira: Unbelievable! I've never seen a fish this big!

We called a news crew and got our picture taken with the legendary fish. It was a fish that was so elusive that no one has ever been able to him. We became the first ever people to ever catch Moby Nico!

Back at the estate we were watching one of my favorite Disney Movies: Dinosaur. From the year 2000.

---

Millions of years ago in a nearby breeding ground, a Carnotaurus ambushes an infant Parasaurolophus after it accidentally attracts its attention, triggering a stampede which forces an Iguanodon mother to abandon her nest which is crushed by the pursuing predator and eventually kills a Pachyrhinosaurus. One surviving egg, after being removed from the nest by an Oviraptor and lost in a river following a fight with another, journeys through several dinosaur terrains via the flight of a Geosternbergia before ending up on a faraway island populated by lemurs. Plio, the daughter of their leader, Yar, names the hatchling Aladar and raises him as her adopted son, much to Yar's initial objections.

Years later, a fully grown Aladar and the lemurs take part in a mating ritual, where his friend Zini is unable to achieve a mate. Moments after the ritual ends, they are interrupted when a gigantic meteor crashes into the Earth, creating an explosion-like tsunami that destroys the island and spreads countless exploding fireballs. However, Aladar, along with Plio, Zini, Yar, and Suri flee and survive by leaping across the sea towards the mainland. They look back at their ruined home and mourn for the loss of their loved ones before deciding to move on.

While crossing deserted wastelands, the group are attacked by a pack of Velociraptors. After escaping from them, the family encounter a massive herd of dinosaurs led by two Iguanodons named Kron, who is their leader and his lieutenant Bruton, during a journey to the "Nesting Grounds", a valley said to be untouched by the devastation of the meteor. After the herd stop to spend the night, Aladar and the lemurs befriend some members of the herd including Baylene, an elderly Brachiosaurus who is the last of her kind, her friend Eema, a Styracosaurus and Url, her pet dog-like Ankylosaurus. The next morning, the herd begin to journey across the desert and after walking for hours, finally reach a lake they have relied on for past trips. It appears to be dried up and Kron orders the herd to move on until Aladar and his friends discover water buried under the surface, thereby saving the herd from dehydration.

Later that evening, Kron's sister Neera, impressed by Aladar's compassionate ways, begins to have a relationship with him. Meanwhile, two Carnotaurus follow the herd's tracks and begin hunting them for food. Bruton and an Iguanodon scout search for water in a canyon, but are ambushed and attacked by the Carnotaurus. Bruton manages to escape, but the scout is killed and devoured. Bruton warns Kron that they are being followed, sending the entire herd in a panicked flurry. Kron picks up the pace and starts to evacuate the herd, leaving Aladar, the lemurs, and the elderly dinosaurs behind while the Carnotaurus are in pursuit some distance away.

During a storm, the group encounter Bruton, who was left to defend himself against the Carnotaurus after he was abandoned by Kron, before deciding to take shelter in a cave to spend the night. Later that night, the Carnotaurus pair enter the cave and attack the group, but Bruton intervenes and is able to fight off the predators while giving Aladar and the others time to escape. Bruton sacrifices himself by triggering a cave-in, crushing him and one of the Carnotaurus under falling debris. However, the other larger Carnotaurus survives unharmed and leaves the cave to resume its hunt for the rest of the herd. Aladar and his friends venture deeper into the cave, but unfortunately reach a dead end and Aladar loses hope. The others convince him to try and keep going, relating how he inspired them to do the same and together, the group smash through the dead end until they finally find the Nesting Grounds on the other side. While exploring, Eema finds a large wall of boulders blocking the original entrance to the valley.

Realizing that the herd will die attempting to climb over it, Aladar rushes off alone to rescue them, although he is pursued by the surviving Carnotaurus along the way. Aladar soon catches up with Kron, Neera, and the herd just as they were about to climb the wall and suggests a safer way to the valley due to a sheer drop on the other side that would kill the herd. However, Kron selfishly refuses to listen and jealous of Aladar becoming leader, starts to attack him. The two Iguanodons end up fighting each other with Aladar getting injured in the brawl, but before Kron can deliver the final blow, Neera knocks her brother aside, saving Aladar's life as she comes to his aid. The herd eventually turn against Kron and abandon him, deciding that they should help Aladar lead them to the Nesting Grounds the safer way.

As they prepare to leave, Aladar and the others find themselves cornered as the Carnotaurus appears and confronts them, making the herd panic and causing Kron to realize that Aladar had led the carnivore right to them. However, Aladar rallies Neera and the herd to stand together and they stun the predator by unleashing bellows at it in order to get past. The Carnotaurus senses weaker prey and discovers Kron, where it starts to pursue him to the top of a cliff while Neera and Aladar follow it. When Kron eventually reaches a sheer drop that Aladar had warned him about, he realizes that the latter was right and tries to defend himself against the Carnotaurus, but the large theropod quickly overpowers Kron and mortally wounds him. As it prepares to finish Kron off, Neera saves her brother by assaulting the carnivore, but is quickly overwhelmed. However, Aladar intervenes and fights against the Carnotaurus, until the cliff it is standing on crumbles beneath it due to its weight, sending the theropod plummeting to its death into the ravine and onto the rocks below. Kron dies from his wounds and Neera mourns for the loss of her brother while Aladar comforts her.

Now as the new leader, Aladar leads the herd through the cave as a route to the Nesting Grounds where they finally find sanctuary. Some time later, a new breed of dinosaurs hatch and among them are Aladar and Neera's children. The lemurs find more of their kind and the group all begin a new life together in their new home.

We saw the meteor slam into the Earth and it was unbelievable! We were shocked and it was awesome that Aladar and the Lemurs got out.

We saw the movie and it was awesome! We cheered wildly!

Me: That was so awesome!

Littlefoot: It was so cool!

Ducky: Oh yes, yes, yes.

Cera: But that guy Kron was a major jerk.

Chomper: I can't believe he was that bad.

Littlefoot: That Carnotaurus was even bigger then the first one that we fought!

Me: It sure was Littlefoot.

Aylene C.: The one we fought was a tough one.

Me: No kidding.

Lola: It sure was. But that one wasn't nearly as tough as that one in the movie.

Naruto: No kidding.

Aylene C.: But I think that Kron was the worst dinosaur ever.

Strut: I agree with you Aylene. He makes all good brothers look like a joke. No offense Lincoln.

Lincoln: None taken Strut.

Me: But what he was doing to Aladar and the heard was awful. And that pass into the nesting grounds was blocked off.

Nico: No kidding.

Me: Sora did you ever go to the world of Dinosaur?

Sora: Yes. We were there and it was beautiful.

Riku: For all of us actually.

Kairi: Yeah.

Me: So it's one of the worlds we haven't covered. Let me see here.

I looked it up on the computer and we saw that the world of Dinosaur is actually an alternate Planet Earth set in the age of Dinosaurs, back 69 million years ago.

Me: Wow! It's an alternate Earth from 69 million years ago. Lets head into the Simulator and check it out and take Kron's leadership away.

Aylene C.: I have a feeling I'm gonna like where this is going.

Me: Lets head into the Simulator.

We did so.

---

We got ready to head into the Simulator. We were ready for action.

The simulator activated and we found ourselves in the world of Dinosaur from 2000. It was set 69 million years ago and we were on the island of the lemurs.

Me: Wow! Here we are on Earth, 69 million years ago.

Nico: Wow! It's just as beautiful and adventurous as the Land Before Time.

Aylene C.: It sure is.

Then we saw Aladar and the Lemur's playing.

Aladar: That was so fun guys.

Sora: Hey Aladar!

Aladar saw us.

Aladar: Sora, Donald, Goofy!

Suri: It's so good to see you all!

Zini: You guys have changed a lot!

Sora: We sure have!

Aladar: Who are all your friends?

We introduced ourselves.

Aladar: It's an honor to meet all of you.

Siri: Same here.

Me: You two Aladar.

Then a meteor shower began.

Me: Look at that.

Lana: Whoa!

Siri: What are they?

Aladar: I don't know.

Me: It's a meteor shower. It's a magnificent spectacle.

Then ducks flew over us.

Yar: Something is wrong.

Then we saw a huge meteor! It was as big as a mountain and bright as the sun as it was falling towards the Earth! Then it slammed into the planet with devastating force and a massive fiery mushroom cloud explosion lit up the sky!

KRABBBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Me: Whoa!

Lana: Unbelievable!

Then we saw the shockwave coming.

Me: Shockwave coming! Brace for impact!

We braced ourselves and we felt the enormous power of the impact!

Laney: Whoa! What power!

Lola: And it's gonna get worse! Look!

We saw countless small fireballs explode out of the base of the mushroom cloud and they were scattering all over and the explosions were coming right at us!

Me: Everyone stay close!

I formed a huge force field bubble around us and it protected us as we were heading away from the island! The explosions destroyed it.

Me: Wow! That was a close one.

Plio: It sure was. But thank you all for saving us.

Me: No problem Plio. Thank goodness you're all safe.

Naruto: That was an epic escape.

Me: It sure was. Sorry about your island home Yar.

Yar: It's all right J.D. But thank you all for saving us.

Me: It's what we do. But we'll give you all a new home on our Earth.

Plio: We would like that very much J.D.

We were searching the planet and we found a huge herd of Dinosaurs!

Me: Whoa!

Aylene C.: What a huge herd.

We saw lots of dinosaurs. Brachiosaurus, Triceratops, Ankylosaurus, Iguanodon, Styracosaurus, Stegosaurus, Maiasaura and so much more. They were all plant-eating dinosaurs.

Lana: This is a huge herd.

Fu: It's amazing.

Littlefoot: It's amazing and big.

Cera: This is a lot of dinosaurs.

Me: Lets go see.

We saw leading the herd was the Iguanodon Tyrant, KRON!

---

When Aladar and his lemur family have just narrowly escaped from a pack of hungry and carnivorous Velociraptors, a sandstorm blows up, impairing their sight. Aladar looks up and sees Kron leading the dinosaur herd to which Kron knocks him down and shouts at him to stay out of his way. When the sandstorm settles, the herd soon stops to rest, and Aladar meets the two old dinosaurs named Baylene, Url, and Eema (who say that Kron the leader is driving them unmercifully to the Nesting Grounds), so when Kron walks by Aladar asks her "What's his problem?". Strangely enough here, despite having met before, Aladar cannot immediately remember who Kron is until Eema reminds him.

Aladar soon stops him and asks him if he could slow it down a bit for the old dinosaurs who are having trouble keeping up, to which Kron sarcastically replies "Let the weak set the pace? Now there's an idea.". He then tells Aladar to leave the thinking to him and to watch himself, to which Kron's sister named Neera replies to Aladar, "Don't worry, that's how my brother treats newcomers, no matter how charming they are.".

The next day as the herd is traveling to get to the lake, Kron tells his second-in-command named Bruton to give orders that the herd must keep up because if a predator catches anyone, they are on their own. Kron and Bruton then continue to drive the herd unmercifully across the hot sunny desert, losing a couple of members in the process, until they finally reach the lake.

However, when Kron reaches the top, he and the rest of the herd are shocked to see that the lake is a dry bed caused by the destructive fireball earlier in the film because there is no water here. Bruton appears by his side and tells him that the rain might have possibly collected somewhere else, and asks him "What do you want us to do?". Kron tells Bruton to take a scout with him and check the whole perimeter. When he reminds the herd that they are just a few days away from the nesting grounds, he orders the herd to keep moving. Neera tells Kron that if they keep moving like this lacking water, they will lose at least half of the herd, to which Kron replies that they then save the half that deserves to live. Luckily for everyone, Aladar finds water by having Baylene press down on her foot, causing water to seep up out of the ground. Far from grateful, Kron pushes his way into it and drinks the water for himself showing no mercy for the herd. Soon afterward, however, Kron and the herd rested for the night.

In the meantime, Bruton and his scout named Creto were assaulted by the two Carnotaurus during their search for water, and only Bruton escapes with severe wounds. As Kron watches the herd sleep (and suspiciously eyes Aladar and Neera becoming closer), Bruton returns and informs him that the Carnotaurus are coming, but Kron is shocked and angrily berates him for leading them to their location.

As Kron moves the herd, Neera and Aladar approach and ask what was going on, to which Kron says that the Carnotaurs are coming and if they do not move, they will catch up to them. Aladar tells Kron that the old ones won't make it, to which Kron says that their deaths will slow down the predators and allow the rest of the herd to escape. Refusing to let the old ones be sacrificed like this, Aladar tries to stop the herd, but Kron furiously pushes him down and warns him that if he ever interferes again, he will kill him. Kron then pushes Neera along with the herd while Aladar stays behind with his family, Eema, Baylene, and Url, making sure that they at least can leave the dry lake bed at their own pace.

Kron continues to push the herd on unmercifully through the desert until they finally reach the rocky hill entrance into the Nesting Grounds, and discover to their horror that it has been blocked by a landslide. Neera suggests that they will find a way around the rock wall, but Kron tells her that the herd will climb over it the next morning. Next morning, sure enough, as he had promised, Kron orders the herd to start climbing the wall, which they do until Aladar returns, telling Kron to get the herd out of there because a Carnotaurus is coming and that he knows a safer way to the Nesting Grounds. He also tells him that the herd cannot get over the rocks because there is a sheer drop on the other side. Kron stubbornly refuses to listen, and Aladar eventually yells that Kron is going to kill the herd, and attempts to lead the herd out of the canyon. However, Kron becomes enraged and says that they are staying with him. He violently attacks Aladar, but then gets knocked to the ground by him twice. He then throws sand in his eyes, scratches him across his chest with his spiked thumb, knocks him into the ground, and almost kills him by delivering a deadly strike until when Neera pushes her brother away from him. After that, Aladar's life was eventually saved by Neera in the process. Before Kron's eyes, she and the herd abandoned him and proceeded to follow Aladar out of the canyon.

At that moment, the ferocious Carnotaurus appears and charges at the herd. Kron begins climbing the hill, and in a last attempt to regain leadership, urges the herd to do the same, accusing Aladar of leading the dangerous predator right to them. However, Aladar and the herd all manage to stand their ground together and bellow their way past the savage beast, while Kron stupidly continues up the hill, determined to prove Aladar wrong. Though foiled by the herd, the Carnotaurus sees Kron and starts to climb the hill after him, while Neera and Aladar follow in order to help him. Kron manages to reach the top, only to discover that Aladar was right about the sheer drop, and is promptly cornered by the Carnotaurus. Kron tries his best to fight the Carnotaurus, but the aggressive beast then bites into his back and throws him against a rock, mortally wounding him.

Just before he could finish him, Neera and Aladar come and knock the Carnotaurus off of the cliff. It may be possible that Kron reforms slightly as he tries to fight the Carnotaurus, but he eventually dies of his horrific injuries after the battle, as Neera is left grief-stricken and inconsolable when she discovers his corpse after the Carnotaurus has been killed. Despite everything that he had already done, since he may have tried to reform, Neera is deeply saddened by Kron's death, as he was still her brother, but is comforted by Aladar before they depart for the Nesting Grounds.

* * *

Me: That's Kron.

Sora: Yep. And with him was Bruton.

Me: Lets go.

We caught up with the herd and everyone saw us. They were happy to see us again.

Eema: Good to see all of you again!

Sora: You too Eema.

Baylene: My goodness how you have grown.

Goofy: It feels like forever Baylene.

Bruton: Good to see you again Sora.

Sora: Same to you Bruton.

We introduced ourselves.

Eema: It's an honor to meet you all.

Me: You too Eema.

Aylene C.: I'm glad we came.

Neera: My brother is a jerk. He won't listen to us.

Me: We know Neera. But we're here to help you all. Lets get to work.

Kron then came.

Sora: Hello Kron.

Kron: So the keyblader has returned.

Me: And so has his friends, Team Loud Phoenix Storm.

Optimus Prime: (to the herd) Do you really want a leader who will lead you to your deaths? Or do you all want a change in leadership?

Kron: (laughs) That's funny. Now, dispose of the idiot!

Optimus Prime: (smirks) You heard him, everyone. Dispose of the idiot!

Static: There's only one thing a tyrant like you is good for now!

Kron: And what would that be?

Spiderman: (smirks) Live bait!

Static fired a blast of lightning and Spiderman fired his webbing.

Static and Spiderman: ELECTRO CAPTURE NET!

The lightning went through the net and entangled Kron.

William: And now we wait.

Me: Yep.

Aladar: I knew we made the right choice of making you guys leaders!

20 minutes later we heard a roar!

Me: Carnotaurus.

Sora: Here it comes.

Aylene C.: Yep.

We then saw CARNOTAURUS!

---

Carnotaurus /ˌkɑːrnoʊˈtɔːrəs/ is a genus of large theropod dinosaur that lived in South America during the Late Cretaceous period, between about 72 and 69.9 million years ago. The only species is Carnotaurus sastrei. Known from a single well-preserved skeleton, it is one of the best-understood theropods from the Southern Hemisphere. The skeleton, found in 1984, was uncovered in the Chubut Province of Argentina from rocks of the La Colonia Formation. Carnotaurus is a derived member of the Abelisauridae, a group of large theropods that occupied the large predatorial niche in the southern landmasses of Gondwana during the late Cretaceous. The phylogenetic relations of Carnotaurus are uncertain; it might have been closer to either Majungasaurus or Aucasaurus.

Carnotaurus was a lightly built, bipedal predator, measuring 8 to 9.1 m (26.2 to 29.9 ft) in length and weighing at least 2.24 metric tons (2.20 long tons; 2.47 short tons).3 to 3.5 m (9.8 to 11.5 ft) in height. As a theropod, Carnotaurus was highly specialized and distinctive. It had thick horns above the eyes, a feature unseen in all other carnivorous dinosaurs, and a very deep skull sitting on a muscular neck. Carnotaurus was further characterized by small, vestigial forelimbs and long, slender hindlimbs. The skeleton is preserved with extensive skin impressions, showing a mosaic of small, non-overlapping scales approximately 5 mm in diameter. The mosaic was interrupted by large bumps that lined the sides of the animal, and there are no hints of feathers.

The distinctive horns and the muscular neck may have been used in fighting conspecifics. According to separate studies, rivaling individuals may have combated each other with quick head blows, by slow pushes with the upper sides of their skulls, or by ramming each other head-on, using their horns as shock absorbers. The feeding habits of Carnotaurus remain unclear: some studies suggest the animal was able to hunt down very large prey such as sauropods, while other studies find it preyed mainly on relatively small animals. Carnotaurus was well adapted for running and was possibly one of the fastest large theropods.

A Carnotaurus first appears in the very beginning of the film where a young Parasaurolophus chases a flying lizard into the jungle. It then looks up to where the reptile is, but before it can get close saliva falls on the branch which caused the young dinosaur to look up where the Carnotaur eventually awakens. The young Parasaurolophus starts running out of the jungle which causes attention to many of the herbivorous dinosaurs. As it starts running, the Carnotaur soon bursts out of the trees and starts chasing all the dinosaurs, and eventually kills a Pachyrhinosaurus.

At the middle of the film, two Carnotaurus, the male presumably the same one from the beginning of the film, scare off a pack of Velociraptors. The pair go after the herd in which Aladar and his family and friends are in by following the tracks left behind.

A little later, Bruton and a scout are attacked by the Carnotaurus. Bruton escapes to warn Kron, albeit being injured, as the scout is killed by them. As soon as Bruton tells Kron, he is left behind to fend for himself.

Later as Aladar, his family and friends, and Bruton take shelter from a rainstorm in a cave, the Carnotaurs attack. Bruton comes to the rescue and sacrificing himself by causing a cave-in, although killing the female as the male leaves and apparently roars in rage at the loss of his mate.

After Aladar and company find the Nesting Grounds, Aladar rushes back to warn Kron's herd about the rock pile blocking the main entrance. On the way there, he see a dead dinosaur (Stygimoloch) and soon flees when he hears the Carnotaur coming and eating the Stygimoloch.

Aladar then warns Kron and the herd about the approaching Carnotaur, but Kron doesn't listen to him as he thinks he's leading him right to the herd.

After his battle with Kron, Aladar assumes the herd's leadership, then the Carnotaur arrives and the herd panics. Alader states that they should stand together, or the Carnotaur would pick them off, in which they do and the Carnotaur backs off. Then, the Carnotaur sees Kron and runs after him with Neera and Aladar not far behind. After Kron climbs the rocks and finds a cliff, the Carnotaur and him engage a short fight. Kron fought back the Carnotaur by smacking him with his tail, but he managed to bite him in the back and toss him against a rock, fatally injuring him. As he is about to finish him off, Neera comes and shoves the Carnotaur in an attempt to save her brother, but was easily overwhelmed. Then when the Carnotaur was about to kill Neera, Aladar arrives, but the Carnotaur manages to knock him out by smack him with his tail. But Aladar managed to get back up from the ground and to push the Carnotaur to the edge of the cliff and the Carnotaur's weight causes the cliff ledge to crumple. As the cliff starts to crack, the Carnotaur grabs Aladar and ties to pull him down with him, but fails and the Carnotaur falls off the cliff to his death.

---

Me: Carnotaurus. 69 million years of ruthless terror.

Aylene C.: Just like its cousin the Tyrannosaurus Rex.

We saw the Carnotaurus come towards Kron and he was moving and the Carnotaurus saw Kron as lunch.

Me: Here it comes. Almost. Now!

We jumped out and attacked! I punched the Carnotaurus in the face and knocked out one of its teeth. Eema rammed the Carnotaurus with her horns and Baylene slapped it with her tail. Lola and Aylene fired a massive blast of fire and burned it.

Lincoln and Linka fired a powerful blast of lightning and electrocuted him.

Laney then tied him up in nasty bramble vines.

Fu used her incredible speed and power to pummel the Carnotaurus all over the place.

Big Guy: Time to floss some razor sharp teeth!

Big Guy fired his machine guns and missiles and Rusty fired his Nucleoproton Blasters.

Rusty: Awesome!

Lana fired a powerful blast of ice lightning and froze the Carnotaurus.

Lucy Loud fired a powerful blast of black lightning and Luan fired a powerful blast of light and so did Eddy and Lensay and they electrocuted and burned it.

Luna and Sam S.L. fired a powerful blast of water and fire and burned and boiled it.

Leni threw a heavy rock at the Carnotaurus and slammed it into it and Lori blew it around with a massive tornado.

Me: Time for some teamwork!

Optimus Prime: Right!

Optimus Prime turned into his Cybertron form.

Optimus Prime: CYBER KEY POWER!

The Gold Autobot Cyber Planet Key went into his arm and turned his gun into a powerful cannon.

Tuck: Time to Tuck!

Roll: And Roll!

Tuck & Roll: ANIMATRON CYBER KEY POWER!

The Animatron Cyber Planet Key went into Tuck's arm device and it enhanced their pillbug abilities 100-fold.

Optimus Prime and Tuck & Roll: PILLBUG CANNONBALL EXPLOSION!

Tuck & Roll went into Optimus Prime's cannon and Optimus Prime fired them and they slammed into the Carnotaurus and exploded and it knocked him down!

Tuck & Roll: YEAH!

Thunderblast: Time for some deadly firepower! CYBER KEY POWER!

The Earth Cyber Planet Key went into her rocket launcher and turned it into a bigger rocket launcher.

Sandman: Lets do it! EARTH CYBER KEY POWER!

The Earth Cyber Planet Key went into Sandman's right arm device and it enhanced his powers 100-fold.

Thunderblast and Sandman: SUPER THUNDERSTORM FULGARITE!

Sandman fired a massive blast of sand and Thunderblast fired a powerful blast of energy and they hit and exploded.

Me: Lets finish him! Final Smash time!

Littlefoot: Lets do it! BRACHIOSAURUS THUNDERTAIL!

Littlefoot fired a powerful blast of lightning from his tail and it hit the Carnotaurus and electrocuted it.

Aylene C.: Time for some firesword power! FIERCE LOYALTY

FIRESTORM!

Aylene had her sword engulfed in fire and she slashed the Carnotaurus!

Aladar: This is for my friends and my family! IGUANODON SUPER RAM!

Aladar rammed into the Carnotaurus with devastating force and blew it apart! Killing it!

Me: Yeah!

Nico: Carnotaurus you have failed this Prehistoric World.

Me: Yep.

Kron: At least you saved us.

Me: We didn't save you. We saved them. (Points to the herd)

I snapped my fingers and banished Kron to a jungle planet far away.

Aladar: (To the viewers) Never mess with Sora, his friends or Team Loud Phoenix Storm. These guys are just that good.

Me: You got that right Aladar.

I beamed everyone in the herd to Paleozoic World and they were now home. Nico caught a Sandygast and a Wimpod.

# Volcanic Activity in Los Angeles

At the estate, Andrew Hartford was in his study doing research and and he heard his phone ring.

Andrew: Hello?

On the phone was world famous French fashion designer Gabriel Agreste.

Andrew Hartford: Gabriel! How've you been?

Gabriel: I've been fine, Andrew. How are things with Mack?

Andrew: Quite well. He and I have really been bonding after the Legendary War.

Gabriel: I heard about that. I'm glad to know that he's alright.

Andrew: He is. The two of us and the rest of Operation Overdrive have joined forces with Team Loud Phoenix Storm and most of the other Power Rangers. Is everything okay in Paris? I've heard about the Akuma attacks.

Gabriel: Oh, everything's fine on my end. Me and Adrien haven't been harmed. But we're still trying to cope with Emile being in a coma.

Andrew: Well, if you need anything-

Gabriel: Don't worry, Andrew. Adrien and I are ok so far.

Andrew: If you say so. I'll talk to you later.

Gabriel: I'm looking forward to it. Goodbye! (hangs up)

What Andrew didn't know was that Gabriel was actually the ruthless powerhungry super villain Hawk Moth!

Spencer: I am so glad that Gabriel and young Adrien are alright.

Andrew: I just can't help notice that something was off about the way Gabriel was talking.

Mack: Dad, he's probably still mourning Emile's condition. Just give him time.

---

In Maria's room, she brought lunch over for Horsea.

Maria: Horsea, lunchtime!

She had apples and more ready.

Horsea: Yummy!

---

Later the next morning at 7:15 AM, Nicole was working on some research in the lab and then the Volcanic Activity Alarm went off.

Nicole: Uh oh!

She went to the computer and she found out that there was volcanic activity brewing in Los Angeles, California!

Nico: There's volcanic activity in Los Angeles!

Nicole went to a glass cover and lifted it and pressed a big red button. The alarm sounded and she pulled out a microphone.

We heard it.

Nicole: (On the loudspeaker) ATTENTION ALL MEMBERS OF TEAM LOUD PHOENIX STORM! THIS IS NICOLE ASHLEY KNUDSON, ISSUING EMERGENCY CODE VΩΣE T-9! THIS IS NOT A DRILL! REPEAT! THIS IS NOT A DRILL!

Double D: Good lord! A volcano's about to erupt?!

We went into Nicole's lab.

Me: What's the problem Nicole?

Nicole: There's a new volcano about to erupt!

Agony: Shouldn't be a problem. We've dealt with a volcano before. How bad can this one be?

Nicole: It's worse than you think Agony. There's a new volcano forming as we speak in Los Angeles, California.

We gasped in shock!

Nico: This is not good.

Nicole pulled up the seismographic satellite data and what we saw was incredible! The X-Rays and Satellite images of the Earth's crust underneath Los Angeles, California found a massive magma chamber directly underneath the city and a volcanic vent is starting to form! The magma chamber was 491 miles deep, 715 miles wide and 263 miles in length.

Me: Whoa! Look at that!

Lisa: Inconceivable! There's a magma chamber directly underneath the city!

Sam (TS): My home is in danger!

Me: It's a good thing we moved all of you here to Gotham Royal York when we did.

The alarm on the Seismographs went off.

Nicole went over and she saw that a massive earthquake was shaking Los Angeles.

Nicole: Huge earthquake in Los Angeles! 8.2 on the Richter Scale. Eruption and volcanic formation is imminent.

Me: The eruption must be minutes or seconds away. We better get over there and fast!

With that, we were off to Los Angeles, California.

---

LOS ANGELES, CALIFORNIA!

---

We arrived at Los Angeles, at 5:27 AM and we saw a huge column of ash and rock spewing out of the La Brea Tar Pits!

Me: Whoa! Look at that!

Nicole: The Volcano is about to erupt out of the La Brea Tar Pits!

Nico: Oh shit! This is not good!

Qin: This is awful!

Suddenly we saw lava bombs explode out of the tar pits and they hit buildings, billboards and more. We saw the manhole covers explode off like a cork on teapots!

Me: Whoa! Looks like we got here just in the nick of time!

Carter: Me and my team will help get the civilians out of here!

Me: Good idea Carter. Lets put out some of the fires.

Lola and Yuko absorbed some of the fire and we did the rest. A lava bomb hit a firetruck and it wrecked. We lifted it up and took them to the hospital.

But then we felt a powerful earthquake and then a massive explosion occurred right over the tarpits!

KRABBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

The explosion was so powerful that it shattered all the windows in some of the buildings! We then saw a massive amount of volcanic lava explode out of the tar and into the air and a new volcanic cone was forming! We then saw a massive amount of volcanic lava pour out of the volcano and spilled onto the street! It was unbelievable!

Me: Lava is pouring onto the street!

Ben: Maybe we can use water to put out some the lava.

Me: Lava doesn't extinguish when you put water on it. It turns into solid rock.

Nicole: This is unbelievable!

Lana: We could plug up the volcano.

Me: No that won't work. It's too dangerous. If you plug up a volcano it'll build up the intense pressure to incredible levels. We got to get everyone out of here and save as much of Los Angeles as we can! Lets go! Lets go! Double Time! Lets go!

We got to work and saved a lot of people and got them out of the area. We got their possessions with them and their pets and more. As we were saving as much of the city as we could, the lava was burning everything it touches. It was incinerating everything in its path and turning much of the city into a massive conflagration of epic proportions. Not only that but a subway train under McArthur Park was in Peril. Lily and Lola went down and got everyone in that train out of there and they were saved. Buildings, stores, shops, cars and more were on fire. We saved everything in the local museum and formed a bunch of blocks to channel some of the lava away from the major buildings. We got everyone all over the entire city moved to San Diego, Mariner Bay, Sacramento and San Francisco. We also helped move the injured to Cedar Sinai Medical Center near the Beverly Center. The whole city was totally in peril! With us was Nicole's friend and colleague of the United States Geological Survey, Dr. Amy Barnes.

Nicole: Amy, we have evacuated everyone all over the area. We're doing everything we can to save the city.

Amy: Great Nicole.

Nicole: We found out that there was a massive magma chamber directly underneath the city.

Nicole pulled out her data charts and Amy was amazed!

Amy: This is amazing! We never even knew this was here.

Nicole: No one did. This totally happened without warning.

Eddy: Good thing we got here in time. The death toll would've really been high otherwise.

Luan: Yeah that is true.

Nicole: We've lost only 10 people. But so far our evacuation efforts have been successful.

Prowl: We can't run. We can't stop the lava. But… what if we divert it into the ocean?

Me: No. That won't work Prowl. If we do that, then the lava will continue to burn through the city until there is nothing left. But I do have a plan.

I revealed that we were going to stop the flow of lava with concrete k-rails and block the flow and then with the combined efforts of the firefighters, helicopters loaded with thousands of gallons of water and our powers over water and ice we would cool the lava until it was rock solid. We put our plan into action and we put the rails in a horseshoe formation and a bunch of firetrucks arrived. Fires were breaking out all over the city and more as the lava was getting closer and closer. The heat coming from the lava was unbelievable as it was moving toward us. It was over 2,200˚ Fahrenheit and it was so hot that it was intense. We were sweating waterfalls. Everything was on fire and we all were absorbing as much fire as we could from all of the buildings that were all on fire. Newspaper reporters from all over the city were telling everyone all over the country and the world about what was going on in Los Angeles. The lava then was blocked by the rails and it was pushing some of us back. It was pooling up all the way to the top. But then a massive armada of helicopters loaded with thousands of gallons of water arrived!

Me: Here they come! Open hoses Chief!

Fire Chief: Open Hoses!

The firemen released the water and so did the helicopters by dumping the water. Lily, Maria, Lana, William, Irma, Bai Tza, Luna, Oceanus Shenron, Varie, Girl Jordan, The Neptune Crusaders, Nico, Sakura Avalon, Sakura Haruno, Lapis Lazuli and most of us were firing water at the lava. The amount of steam coming off of it was incredible as the lava was being cooled down! It took over an hour but we managed to cool the lava down to where it was rock hard and cooled down! We cheered wildly as our plan worked and it was a success!

Me: We did it!

Nico: It sure as hell worked!

Varie: Way to go!

Naruto: Awesome thinking bro!

Me: Thanks bro. We all did it together.

But then I got a call on my cell phone and she told me that something was happening. We were told to meet her over at a vent that leads to the subway tunnel.

We went over to where she was and we opened a vent that leades into the Red Line Subway Tunnel.

Amy: We're right over the Red Line.

Me: What's going on Doctor?

Nicole: I think something is brewing down in the tunnel.

I have an idea.

We attached a video camera to a rope and it had a flashlight on it.

Me: So far so good.

Amy: This is so stupid.

Me: Sometimes stupidity works.

We saw on as screen the tunnel.

Amy: I can't see anything.

Then an orange glow was seen and we saw lava in the tunnel! We pulled up the camera and we saw a blast of fire explode out and it was sucked back into the tunnel.

Me: Whoa!

Lola: Did you all see that!?

Me: Yeah!

We went over and we saw lava flowing in the tunnel!

Nico: There's lava in the tunnel!

Lana: How freaky!

Amy: The tunnel's insulating it! It's like a lava tube. It's keeping it fluid, which is why it's moving so fast.

Me: Where's it heading?

Amy: It's gonna go through the tunnel, till it hits the block. When it hits the block it's gonna punch through!

Me: This is bad! We got to follow it!

We went into a jeep and some of us flew.

Nicole: Lets see here.

Amy: 1… 2… 3…

Amy was measuring the lava and how fast it was going before we pulled up the camera.

Amy: 1… 2… 3… How far between tunnel sections?

Nicole: 10 to 12 feet I think.

I called my friend in the city subway engineering Dan.

Me: Dan, J.D. here. We need to know where the Red Line subway tunnel stops.

Amy: I got to figure out how fast this shit is moving.

Dan: You mean where the last station is?

Me: No. Where did you stop the drilling for the tunnel?

Dan: We stopped drilling under the Beverly Center, La Cienega.

Me: Oh shit! All those people are in danger!

Nicole: How long before it gets there Amy?

Amy typed in a code on her laptop and a red line showed the Red Line and the time it will take for the lava to get there. It was moving at 0.15 Miles Per Minute.

Amy: God! 30 minutes! Maybe less.

Me: Holy shit!

Lana: It's moving fast!

Nico: We got to get moving!

Lana: And get those people out of there!

We hightailed it over there!

Emmit: No, no. That ain't a possibility J.D. We don't have any hands left for that kind of evacuation. We have secondary fires popping up all over the city. They're looting in Beverly Hills for Christ's sake.

Me: We got to reroute it somehow Emmit. We got 2,000 people in the way down there Emmit.

Emmit: J.D. listen. Moses couldn't reroute this shit. It's everywhere. We got a flow in the storm drain under Fairfax, the Genesee Transformer is out. That means the whole west side is dark now.

Me: Where does the Storm Drain go Emmit?

Emmit: It dumps into Ballona Creek.

Me: That's it! We can reroute the flow into the Holly Hills Trench! Lets go!

We went there fast. We arrived and went over the plan with the L.A.P.D., the National Guard and the military. Our plan was to extend the Holly Hills Storm Drain Extension 200 yards up to San Vicente Blvd to the spot where the lava is gonna break out. But there was a problem. The street sloped in the opposite direction at a 159.5˚ to 162˚ Angle. But luckily we have a plan for that. Lynn and Earth are gonna form the trench and Tara is gonna form a dam that will block the lava to prevent it from going into that direction. We got to work and we put our plan into action. We formed the dam and it was ready.

Lynn and Earth placed explosive rocks that act like dynamite into the street and it was all set!

Me: 1 minute left. All set.

Then an earthquake was felt!

Me: HERE IT COMES!

We went for cover. Everyone was out of the way. Steam was shooting out of the vents and manhole covers.

Nico: It's gonna blow!

May: It's gonna blow!

Lincoln: Move everyone!

Then a massive fountain of lava exploded of out the street!

KRABBBBOOOOOOOOOOOOOOOOOOOOOMMMMM!

What we saw could only be described as a nightmare from Hell. We saw a huge fountain of lava spew 10's of feet into the air and it was unbelievable!

ME: WHOA!

Nico: HOLY SHIT!

Lincoln: UNBELIEVABLE!

Fu: OH MY GOD!

Vince: What power!

Carol: Holy fuck!

Laney: Incredible!

Lava was going high into the air and it was raining all over the street. Setting everything in its path on fire.

Me: Start detonation sequence!

Air Raid sirens sounded.

Me: (Into a radio) La Cienega, are we clear?

Man 1: La Cienega clear.

Me: Lower San Vicente?

Man 2: Lower San Vicente all clear.

Me: Upper San Vicente?

Man 2: Upper San Vicente all clear.

Me: All clear. BLOW IT!

Lynn and Earth snapped their fingers and on command each charge was blowing 1 at a time towards the lava. They were blowing a trench into the street and it was working. We got the trench made and the lava was pouring into the trench and it was working. The trench had the lava go into the creek and it went into the Pacific Ocean and the steam coming off of it was unbelievable!

Me: We did it guys!

We cheered wildly!

We were the heroes of Los Angeles, California! Damage was estimated to be in the 10's of billions of dollars and only 10 people were dead. We rounded up the looters and recovered everything that was stolen. But now Los Angeles has a new problem: A Volcano was now in the middle of the city where the La Brea Tar Pits once were.

We were looking at the volcano and it was over 75 feet high and it was spewing smoke out of the top.

Me: Whoa! This was unbelievable. This has to be the most infernal challenge we have ever faced. But we saved all of Los Angeles.

Nico: We sure did J.D. But this is a brand new volcano. We should name it.

Me: Good idea. Since Nicole told us about it she should have the honors.

Nicole: Thanks dad. We'll call it Mount Wilshire. It formed on Wilshire blvd and it's now as active as Kilauea.

Lola: Great name Nicole.

Qin: I like it.

Hunter: (German Accent) Ja. Wunderbar! Perfect name for it.

Me: I agree. But now not only is Los Angeles an Earthquake spot, but it is also a volcano spot. Now we have to help get them ready for volcano drills and tests should Mount Wilshire erupt like it did today.

Nico: Good idea.

We were awarded medals for our heroism in saving Los Angeles. We headed back home to Gotham Royal York and now Nicole has Mount Wilshire under her watchful eyes.

THE END

Another Fanfiction complete and another heroic adventure done.

Volcano from 1997 was a great movie! Tommy Lee Jones, Anne Heche, Keith David, Gaby Hoffman, Jacqueline Kim, Don Cheadle and a lot of stars did a great job in that movie. Can you imagine how terrifying that would be if a volcano formed in the middle of a city like Los Angeles, California? That would be a horrifying nightmare! NicoChan11 gave me the ideas for this one. Thanks man. Let me know what you all think.

# A Prehistoric Villain

In the X-Men estate we were trying out the X-Men Danger Room. It was like the Training Simulator we have at home and it was awesome that they have one. We were battling robots that looked like all of the X-Men's most dangerous enemies!

I was facing a robot that looked like DARK PHOENIX!

---

As children, Jean Grey and Annie Malcolm were very close friends. One day while playing Frisbee outside Annie, being too competitive and not paying attention, made the catch and was soon hit by a speeding car. Jean ran over to her slowly dying friend and suddenly felt as if she was dying too. That's when Jean first got her powers. After Annie's death, Jean began to dream of fire and dancing among the stars. And then she fell into a two year coma.

Jean was reading in her room from Arthur C. Clarke's Childhood Ends when Erik Lehnsherr and Charles Xavier arrived at the Greys' home. She overheard them talking to her parents, and they wanted to meet a mutant who had a great telepathic power. While Lehnsherr wants to use her power, Xavier fears that it's far too dangerous. As a result, he creates psychic barriers to restrain Jean's powers, which ultimately causes her to develop a suppressed alter ego: The Phoenix.

After years of attending Xavier's school together, she began a relationship with her classmate and teammate Scott Summers.

Depressed for many months by Jean's apparent death and haunted by her psychic echo, Cyclops returns to Alkali Lake to mourn his loss. Once there, he releases a powerful optical blast towards the lake, breaking a telekinetic cocoon. Soon afterwards, Scott discovers Jean Grey in front of him - alive and well. She manages to control Scott's power with hers, and the two share a kiss. During the kiss, Jean abandons herself to instinct and an unspeakable horror seemingly kills Scott. Worried for Cyclops, the other X-Men arrive at

Alkali Lake, finding only Scott's glasses telekinetically floating in the air with stones and logs. A little distant, they find an unconscious Jean.

Back at the X-Mansion, Xavier explains to Logan how she survived (using telekinetic energy), and how she is a Class 5 mutant with potentially limitless power due her mutation being seated in the subconscious part of her mind. Because of this, Jean developed a dual personality; the conscious Jean Grey and the dormant Phoenix - a purely instinctual creature.

Later on, Logan returns to check up on Jean. Once there, she tries to seduce him, but when he refuses the Phoenix breaks through and possesses her. After attacking Logan, she escapes the Mansion and returns to her childhood home. There, she was approached by both the X-Men and the Brotherhood of Mutants - who fight each other while Xavier and Magneto attempt to convince Jean to join their respective sides. When Xavier tries to block her alternate personality, the Phoenix becomes enraged and unleashes her power, destroying the home and killing Xavier. Confused and saddened by her mentor's death, Jean follows Magneto to his hideout.

Wolverine eventually follows them and tries to reason with Jean, but Magneto intervenes and defeats him. Magneto believes he can use her powers for his aims, and brings her with him to Alcatraz Island to destroy Worthington's facility.

During the battle that follows the X-Men's arrival, Magneto tries to convince Phoenix to participate, but she appears uninterested during its duration. Wolverine almost manages to make Jean's personality resurface, but human soldiers intensify their fire on her, unleashing her rage. The Phoenix breaks through again and takes over Jean's body. She starts a massive attack on everything and everyone within the area, destroying Worthington's facility and killing any human or mutant in her way. While everyone is forced to escape, only Wolverine manages to approach her, since his healing factor prevents her powers from disintegrating him. When Logan manages to break through to Jean, she begs him to stop her. In tears, declaring his love to her, Wolverine stabs Jean Grey, killing her and putting an end to the destruction.

Sometime after the events on Alcatraz, Jean's grave is placed near Scott's and Xavier's.

The Dark Phoenix is the titular anti-villainess of the eponymous movie, with Vuk being the main antagonist.

---

I fired a powerful energy blast at Dark Phoenix and she fired a massive blast for fire and the blasts collided and exploded.

KRABBBBBOOOOOOOOOOOOOOOOOMMMMMM!

I fired a massive blast of Nuova Shenron's fire energy and it hit Dark Phoenix and exploded.

KRABBBBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

She was obliterated in an instant by the explosion.

With us was a new Transformer named Slugfest.

Slugfest: Thanks for letting me join you guys.

Nico: No problem Slugfest.

Nico and Slugfest were facing a robot that looked like Mary Walker A.K.A. Typhoid Mary.

---

A mutant with low-level telekinetic powers, Mary Walker is plagued with a mental condition causing her to have three distinct and fluctuating personalities; the timid, pacifistic, and conscientious Mary, the bold, lustful, and provocative sociopath Typhoid Mary, and the brutal, sadistic, and treacherous misandrist, Bloody Mary.

Typhoid Mary often worked as an assassin for the Kingpin, and had a tense love/hate relationship with Daredevil. Bloody Mary was a serial killer who went on crime-sprees, usually centered around killing abusive men.

The Mary Walker personally sought help for her condition, and through hypnosis she has the other two psychotic personalities suppressed, and lived on with a normal life, but it didn't last long. Bloody Mary resurfaced and battled Spider-Man, however with Spidey's help, Mary Walker gained control and turned herself in to a mental institution.

Her multiple personalities have come back often, and she has had encounters with many other characters, including a relationship with Deadpool. She was imprisoned on the Raft supervillain prison, but escaped when Electro caused a mass-breakout. She has continued working for Kingpin and tormenting Daredevil.

After the Marvel Civil War, she joined the Initiative and was given a new persona and a powered suit as Mutant Zero, which helped to merge her personalities into one. Her identity was kept secret from the other members, but was revealed by Taskmaster when he recognized her fighting style.

She has since gone back to being a mercenary for Kingpin.

---

Nico: Typhoid Mary.

Nico and Slugfest fired blasts of energy and blew the robot apart.

Tommy Oliver was facing a robot that looked like Cain Marko A.K.A. Juggernaut.

---

Cain Marko is the stepbrother of Charles Xavier and always resented his stepbrother due to the fact his father often abused him and seemed to favor Xavier - this resentment led to Marko developing a bullying nature which he never really grew out of and he made Xavier's life as difficult as possible from an early age.

Later in the 1960s Marko and Xavier were stationed in Korea, serving in the army - during this period Marko stumbled across a hidden temple dedicated to Cyttorak, Marko entered the temple and found the mystical ruby known as the Gem of Cyttorak and read the gem's inscription aloud (which was: "Whosoever touches this gem shall be granted the power of the Crimson Bands of Cyttorak! Henceforth, you who read these words, shall become… forevermore… a human juggernaut!")

The gem proceeded to transform Marko into the Juggernaut but caused a cave-in in the process, apparently burying him alive, and leaving Xavier to believe that his stepbrother was dead.

As the Juggernaut Marko managed to escape after a long period of time and instantly tracked down Xavier, attacking the X-Mansion and battling the X-Men. The Juggernaut proved powerful enough for Xavier to call on the aid of the Human Torch as well - during this battle Juggernaut is defeated by Angel, who removes his helmet and exposes him to Xavier's telepathy, forcing Marko to flee.

However, Marko would soon return, seeking revenge and had to be delayed by three X-Men while Cyclops, Marvel Girl and Dr. Strange worked together to find another Gem of Cyttorak in order to banish Marko to the Crimson Cosmos, the home-dimension of Cyttorak. This proved a costly mistake on Dr. Strange's part as Juggernaut soon returned even more powerful and fought against the sorcerer until he was cast into an alternate universe by Eternity itself.

Yet it seems even Eternity's drastic actions were insufficient and Marko returned to Earth through sheer force of will some time later - though the dimension he had been banished to had caused him to age rapidly, and in his panic, he attacked the Beast before being drawn back into the alternate dimension.

The Juggernaut would reappar again on Earth when dimensional-experiments designed to get rid of the Hulk backfired - the Juggernaut would then have a brief alliance with the Hulk to escape the base but got into a fight when the Hulk objected to Marko threatening an innocent civilian, during this battle Marko was ambushed by Xavier, Cyclops, and Marvel Girl and was defeated once more.

However, the Juggernaut was never one for giving up and he soon resurfaced with Black Tom Cassidy, a mutant criminal who would soon become one of Marko's closest friends. Together they battled the new X-Men but suffered defeat - with Juggernaut retreating and Black Tom seemingly falling to his death after a sword-duel with his cousin (Banshee).

Juggernaut would return, alongside a very much alive Black Tom, to terrorise Spider-Woman and the X-Men during a plan by Tom to manipulate Banshee's daughter (Siryn) into stealing a shipment of vibranium. Once again, Marko is forced to flee when Black Tom is arrested and Siryn is put under the care of her father.

Juggernaut's friendship with Black Tom didn't end however, and no sooner had Black Tom escaped from prison than he had Marko hunt down Madame Web, a psychic he felt could be a useful ally. Juggernaut destroyed several city blocks in his quest and ignored the futile attempts by Spider-Man to stop him, however Juggernaut nearly kills Madam Web when he remobves her life-support device and decides to abandon her. By this time Spider-Man was frustated enough to lure Juggernaut into a trap and the villain ends up sinking into setting concrete without a trace.

The Juggernaut, as per usual, managed to escape his prison however and soon began getting involved in several exploits such as a bar fight with Colossus (in civilian guise), another battle with Spider-Man (this time aided by the X-Men), suffering a horrible defeat at the hands of Nimrod - the ultimate Sentinel and becoming one of the many villains assembled to take on the omnipotent being known as the Beyonder. During this time-period Marko all battled the new generation of X-Men and has a comedic encounter with Captain Britain.

Marko also participated in Loki's "Acts Of Vengeance" and fought Thor and the New Warriors

Marko continues to be a popular character in Marvel and has been a villain, anti-hero and even a fully redeemed hero over the course of the "modern era" - during his time in New Excalibur he was a full-on hero but soon began to show signs of falling back into his criminal past and by the time the World War Hulk storyarc gets into play he has returned to villainy - declaring that redemption, at least in his eyes, is now impossible.

After Cyttorak took away the power from Cain during the Fear Itself storyline for his betrayal when Cain became Kuurth, an Avatar for the Serpant, originally the role of Juggernaut was to be been passed down to the X-Man Magik, but her brother Colossus took the role of Cyttorak's avatar instead and can transform into Juggernaut's armor at will. Despite now possessing Juggernaut's power and using it for heroic purposes, Colossus suffers from mental instability when he uses that power and has to keep himself in check.

Following the Avengers vs. X-Men event the Juggernaut's powers were purged from Colossus by Magik. Eventually Cain was able to reclaim his powers as the Juggernaut.

A different kind of Juggernaut appears in the live-action movie X-Men 3, he is neither mystical nor particularly unstoppable - though he is immensely durable and strong. In the film he fights against Kitty Pride and is nowhere near as formidable as the comic-book or animated-versions of Juggernaut. It is also worth noting this Juggernaut is a mutant rather than a magic-user due to both this and his costume are based off Marvel's Ultimate X-Men comic book series and has no relation to Charles Xavier.

Juggernaut appears in many arcade and console games as a boss, playable character or sometimes both - some titles he's been in all Marvel's X-Men, Captain America and The Avengers, Spider-Man/X-Men: Arcade's Revenge, X-Men: Mutant Apocalypse, X-Men: Children of the Atom, Marvel Versus Capcom, X2: Wolverine's Revenge, X-Men Legends, X-Men Legends II: Rise Of Apocalypse, Marvel Ultimate Alliance II, the Super Hero Squad video game, Spider-Man: Shattered Dimension, and X-Men vs. Street Fighter.

Juggernaut is one of the bosses in the Regular Spider-Man Dimension. After Spider-Man found a piece of the Tablet of Order and Chaos, Juggernaut appears out of nowhere, on the run from the Silver Sable. While he was running, the Tablet got caught on his foot. After a very lenghty fight, Spider-Man managed to defeat Juggernaut and acquire a piece of the Tablet.

The Juggernaut was a playable character who was on the X-Men side and was a minor villain. He was the biggest character in the game, making him easy to combo and punish. His rival/partner was another hulk just like him, Zangief.

Juggernaut has appeared in many Marvel cartoons such as Spider-Man and His Amazing Friends (1980s), Incredible Hulk series (1982), X-Men (1992), X-Men: Evolution (2000), Wolverine and The X-Men (2008) and the recently released Black Panther cartoon series (which began in 2010).

Juggernaut is also the main focus of the novel X-Men: The Jewels Of Cyttorak and also appears in X-Men: Mutant Empire where he is allied with his traditional enemies the X-Men against Magneto, who is intent on conquering Manhattan - both novels were released in 1997.

Tommy Oliver was in his Green Ranger form.

Tommy (slashes robot Juggernaut with Dragon Dagger): Didn't Juggernaut start a meme after his movie debut?

Me: Yes he did.

Juggernaut: Don't you know who I am?

Me: I don't give a flying fuck about you!

Juggernaut: I'm the Juggernaut, fucker!

Me: That's it.

I fired a powerful energy blast and blew the Juggernaut robot apart.

Harley Quinn was now facing a robot that looked like Erik Lehnsheer A.K.A. Magneto.

A Holocaust survivor, Magneto was a young Jewish boy by the name Max Eisenhardt growing up in Nazi Germany where he and his family were constantly subjected to bullying and harsh treatment. Max had to learn to scavenge, steal, and evade the Gestapo to provide food for his family. Eventually, the family were rounded up and executed by gunfire; Max was the sole survivor, possibly due to his mutant powers manifesting, and was buried alive with the corpses of his family, however he dug his way out only to be recaptured and sent to the Auschwitz concentration camp, where in order to survive he was forced to become a Sonderkommando - one of the Jews who were tasked with operating the gas chambers. It has been hinted on occasion that he may also have been sexually abused by Nazi guards and officers. He survived there until the Allied Forces liberated the camp and escaped with Magda, a fellow prisoner whom he had fallen in love with. They married and had a daughter, Anya, and tried to start a new life in the Soviet city of Vinnitsa; however, tragedy struck again. During an argument with an employer who was trying to cheat him out of his pay, Max's powers accidentally manifested and threatened the man. Upon returning to the inn in which he and his family were living, he found the place on fire, with Anya still inside. Before he could rescue her, his employer arrived with the police to have him arrested, and he was restrained and beaten despite his pleas, forced to watch helplessly as his daughter was burned to death and fell from the building. In that terrible moment, his powers manifested again in an explosion of force which destroyed a large area of the city and killed all those present at the scene apart from he and Magda, who fled in shock and terror at the "monster" her husband had become. Unawares to both of them at the time, Magda was pregnant with the twins who later became Quicksilver and the Scarlet Witch, whom Magneto would finally meet as teenagers. After burying Anya, Max spent some time searching for Magda whilst evading the authorities, but eventually abandoned the search. Under the forged identity "Erik Magnus Lehnsherr", Max eventually made his way to Haifa, Israel, where he found work as a medical orderly in a psychiatric hospital for other Holocaust survivors, and struck up a friendship with a young American doctor, Charles Xavier, himself a powerful mutant telepath. The two men shared theories on the emergence of mutant humans; Xavier believed that mutants and normal humans could come to co-exist peacefully, but Magnus had seen and experienced too much of the horrors humans could inflict on each other over the smallest of differences, and argued that mutants would have to seize the reigns of power in order to avoid being wiped out. They eventually parted ways after a confrontation with the terrorist group

HYDRA - led, incidentally, by the Nazi war-criminal Baron Wolfgang von Strucker.

Magnus then began working with a covert American agency to capture fugitive Nazi war criminals using the codename "Magneto" for the first time and started a relationship with a physician named Isabelle; on an assignment he happened upon and captured Hans Richter, a former Nazi officer who was secretly working with the US against the Soviets in the Cold War, and his handlers murdered Isabelle to put him in his place; now firmly convinced humanity would go to any lengths to exploit, and finally, exterminate mutants, Magneto exacted his revenge on his handlers and vowed to lead mutantkind to dominate humanity. He spent years amassing resources and followers, and finally made his public debut in his now-iconic armor, helmet and cape by thwarting a US military missile launch and taking over the Cape Citadel military base - however he was opposed by the five original X-Men, the students of his former friend Chrales Xavier, who managed to defeat him and drive him off despite his far greater power and experience, thus beginning a long-standing enmity.

Magneto, often referred to as the "Master Of Magnetism" has control over the entire electromagnetic spectrum - this manifests most famously as control over any magnetic metal, allowing him to shape it to his will.. however his control is so great that he can also generate force-fields, electrical-energy, amplify his strength to superhuman levels and also manipulate some other forms of energy. In many appearances Magneto wears a helmet specially designed to block out telepathic assaults and even without the helmet has shown some resistance to psychic attacks, of course he is no match for Xavier's psychic powers.

He is also extremely knowledgeable and has shown some degree of resistance to age (though so do many characters in the series).

Magneto wants to protect the mutant race from what he views as the inherent evil of mankind. As a survivor of Nazi Germany and the Holocaust before he even came of age, and as an adult, witnessing a rising hatred of mutants, he fears that mutants may suffer the same fate as the oppressed races of the holocaust.

He came to hate mankind for its failure to accept those who are different and became increasingly dogmatic in his views, unable to accept differences in opinion and often seeing mutants that displayed human-friendly views as either foolish or misguided - in a tragic irony Magneto would start to mirror the qualities of those who had oppressed his people and only much later in his life did Magneto finally acknowledge this, having been blinded by his hatred for a large portion of his career.

Deeply cynical and often merciless he also holds the belief that mutants are superior to humans and should be treated as such - he also destroys any views as being a danger to his kind, including other mutants if necessary - however he is not quite as monstrous as some X-Men villains, such as Apocalypse, and doesn't wish to specifically enslave the world, rather shape it into his own vision of right and wrong. To achieve his ultimate goal of protecting mutantkind, Magneto has on various occasions allied with heroes such as the X-Men.

After most of the mutant population was depowered in the comics due to Scarlet Witch altering reality, after failing numerous attempts to reverse this, Magneto joined the X-Men to protect what is left of mutantkind despite the fact he cannot be fully trusted due to his past actions, this puts Magneto in a hero spot rather than his traditional villain role in the comics making him more neutral.

Magneto is the secondary antagonist in Season 1 of the 1992-1997 TV series X-Men and and anti-hero in the later series, with his voice provided by David Hemblen. During the first season, he plans to incite a war with humanity and allow mutants to live safe in the world, but is thwarted by the X-Men. Following the first season, Magnus would be an uneasy ally of the X-Men and still seems to respect Professor Xavier. In Season 2, Mister Sinister tricks Xavier and Magneto into going to the Savage Land only to end up trapped there and get their powers removed; Xavier regained his ability to walk here. When the X-Men arrive to save the two, Sinister is blown up and Magneto goes his separate ways. In Season 3, he is introduced by the High Evolutionary to his children, Quicksilver and Scarlet Witch. He tells them that their mother was horrified at him upon hearing his speeches about mutant freedom and abandoned him while still pregnant with the children. They manage to defeat High Evolutionary, but the two still hold Magneto in negative regard. During Season 4, he creates Asteroid M and kidnaps mutant scientists from Russian and American space-stations to do so, and brings loads of mutants (including the X-Men) to his haven. He ends up being betrayed by Fabien Cortez and is forced to destroy his mutant santuary upon discovering his intention to launch nuclear missiles at Earth. In the Season 5 end episode/series finale, he gathers an army of mutants to attack the world, but upon hearing that Xavier was dying, he saved him by sending his telepathic message to Lilandra and watches him be taken away by her.

Magneto returns in X-Men: Evolution, voiced by Christopher Judge and he serves as main antagonist-turned anti-hero. In Season 1, he is most covered in shadow and gives orders to the Brotherhood and Mystique, and the X-Men are unaware of his existence. Xavier is taken to Asteroid M in the season finale, where we see that he is elderly, and seeks to mutate his mutant followers to fight the coming war with humans. He even convinces Cyclops and Alex Summers to mutate themselves, but they are convinced to give up their new powers. Magneto and Mystique end up thrown into the mutation device and escape in floating metal spheres right before Cyclops and Alex destroy Asteroid M. In the second season, he is revealed to be the father of Scarlet Witch, a deranged and mentally-scarred mutant with terrifying powers, and Quicksilver, who was in the Brotherhood during the other season. He tries to de-age himself using similar technology to what created Captain America, managing to save himself after his genetic enhancements failed his body. In the season finale, Magneto gathers his Acolytes (Gambit, Colossus, Pyro and Sabretooth) to New York City to face the X-Men, then (as part of a larger plan) ends up revealing to the world that mutants exist when a Sentinel attacks the X-Men and they have to fight it. The Sentinel supposedly falls on Magneto and explodes, blowing him apart, but the third season reveals he was saved by Quicksilver at the last minute.

He later makes it his job to obliterate the mutant Apocalypse and teams up with the X-Men to do so, but they fail to stop his re-emergence. In Season 4, Magneto learns of his plan to turn all humans into mutants and tries to destroy him, only to be turned into a Horseman. He is freed from mind-control after fighting the teamed-up X-Men and Brotherhood, and disappears. Xavier gets a vision of Magneto (in the future, at least) training the New Mutants and becoming an ally of the X-Men.

Magneto appears in "The X-Factor" episode in Season 2 of Iron Man: Armored Adventures, voiced by Ron Hadler. He plans to kill Senator Kelly using Jean Grey, but is defeated by Iron Man and taken away to a plastic prison, never to be seen again.

Harley Quinn: Batter up! (knocks off robot Magneto's helmet with baseball bat)

POW!

Harley Quinn then bashed him into a flat pancake with her hammer and Nico blasted him.

Me: Nice!

The simulation ended.

Cyclops: That was really well done guys.

Me: Thanks Scott. It was really cool using your Danger Room. It's like our simulator we have back home but without the Universe-Hopping abilities.

Cyclops: That's true.

Storm: But it was cool how you can now use the powers of the Shadow Dragons.

Me: That is neat huh?

Qin: But those were all dangerous enemies that the X-Men all face.

Me: We haven't faced Typhoid Mary yet.

Nico: But some day we all will. And throw her in jail.

Naruto: You got that right.

Later we went back home to the estate.

---

Later it was a rainy and cold day. It was really raining.

Bleez: Boy it sure is coming down out there.

Eion: No kidding.

Laney: Rainy days are so boring.

Lana came in with some mud.

Lana: In a couple more hours, this mud will be perfect to play in!

She slathered it all over her face.

Me: Oh Lana.

Lily: Rainy days are so awesome. They bring life to all the plants and stuff.

Laney: That's true.

Riley: Yeah.

Then there was pounding on our door.

Me: Whoa. I'll get that.

I went to the door and I saw that it was Leni's friend Mandee and she was crying hard and her clothes were torn up and she had bruises and cuts on her arms, face and legs and blood was on her shirt.

Me: (Gasp) Oh my god! Mandee what happened to you!?

Mandee: I was mugged and robbed and attacked!

Me: Oh you poor girl. Come on in.

She came in and she was crying hard.

Everyone saw her and gasped.

Leni: Mandee!

Lori: My god! What literally happened to you!?

Me: She was attacked by muggers.

I brought her to the sofa and she sat down.

Varie: These injuries are bad.

Varie was healing her.

Leni was comforting her as Mandee as she was crying.

Nico: What happened to Mandee?

Me: She was attacked by some muggers.

Leni: It's okay Mandee. It's okay.

Ed: What in the world happened to her?

Me: First she needs to tell us.

Lincoln: I called her friends Jackie, Fiona and Miguel over.

There was another knock on the door.

Lincoln went and got it and it was Jackie, Fiona and Miguel.

Jackie: We got here as fast as we could Lincoln.

Fiona: We heard what happened.

Miguel: Where is she?

Lincoln: Over here.

He took them to the sofa and they saw Mandee.

Fiona: (Gasp) Oh man!

Miguel: Oh my gosh!

Jackie: Mandee!

They went over to her and comforted her.

Jackie: Mandee.

Me: Give her some space guys. Mandee, are you ready to tell us what happened?

Mandee: (Sniffles) Yeah. I'm ready. I was walking home from the mall when it happened.

Mandee told us that she decided take a shortcut through an alley and it was the worst idea ever. She was mugged by two people from the shadows and they took her purse, her money and her jewelry.

We gasped in shock.

Me: Did you get a good look at their faces?

Mandee: Yeah.

Mandee told us their appearances.

Me: Now we know who to look out for. Mandee, you stay here and Fiona, Jackie, Miguel, Lori and Varie will look out for you. We're going after the guys that did this.

Mandee: Okay.

We went after them.

---

At an abandoned building in the middle of the city, we were roughing up a nasty gang of criminals.

We were now facing the notorious gangster Rocky and Mugsy. Two of the most feared gangsters in all of Looney Tunes.

Rocky first appeared in the 1946 film Racketeer Rabbit where Bugs decides to find himself a new home, but the one he chooses is unfortunately occupied by a duo of bank robbers. The characters here are called "Rocky" (drawn like movie gangster Edward G. Robinson) and "Hugo" (a caricatured Peter Lorre).

Freleng liked the Mobster idea, and so Rocky later appeared in Golden Yeggs as a criminal who wanted Daffy Duck because he thought he could apparently lay golden eggs which were actually done by a goose although Mugsy didn't appear with him; he had a number of different henchmen with the main one named Nick and he made a deal with Daffy that if he couldn't lay a single golden egg he would kill him and when the time comes he shoots Daffy in the head causing him to actually lay a golden egg, but the catch was he had to lay enough to fill an egg carton. Beginning from this cartoon, Freleng redesigned Rocky, making him a more generalized caricature of the "tough guy" gangster rather than Edward G. Robinson in particular. Freleng used several of the same techniques that would make Sam, his other Bugs villain, such a humorous character: Despite Rocky's tough-guy demeanor, everlasting cigar (or cigarette) and foppish gangster clothing, he really is little more than a dwarf in a much-too-large hat.

Rocky and Nick reappeared in Catty Cornered where they kidnapped Tweety because he was worth a lot of money, but Sylvester unknowingly rescued him after attempting to eat him many times and he was greatly rewarded.

Rocky next appeared this time with Mugsy in his first appearance in Bugs and Thugs where they unknowingly kidnapped Bugs Bunny after robbing a bank they concluded that he knew too much and held him hostage. Bugs attempted to call for help at a gas station but they saw through him and yanked him away from the phone, later on he tricks them into getting hit by a train which they survive afterwards, they force him to rebuilt their car and drag the car to their hideout. Once there Rocky orders Mugsy to kill Bugs by saying "You know what to do, let him have it!" while entering the room he points his gun at Bugs and Bugs says "You heard him let me have it" and he stupidly gives him the gun and he shoots Mugsy in the face and he stumbles next to Rocky and says "Duh, I let him have it boss, just like you said", then he faints and lands on top of Rocky, who punches him off. Next Bugs makes a siren sound and pretends to be a cop by using a thick Irish accent and he tells them to hide in a stove, then he goes into a conversation with himself pretending to be a cop, he says "Where's Rocky? Where's he hiding?", "He's not in the stove!", "Ho-ho, he's hiding in the stove, eh?", "Look pal, if my friend Rocky was in there, would I toin on the gas and toss a lit match inside?", "You might rabbit, you might", "I guess he's not here, let's go Clancy", immediately afterwards a real cop shows up (with exactly the same voice that Bugs uses) and they go through exactly the same routine but this time when he was about to throw in a lit match they run out and beg themselves to be arrested.

They appeared next in Bugsy and Mugsy in which Bugs makes Mugsy do things that cause him to get hit by Rocky and their fighting eventually leads to them getting arrested, Mugsy looked completely different from the previous short and depicted as being thinner and having a big chin.

They last appeared in The Unmentionables in which Bugs Bunny is an undercover detective come to arrest them; he does so by trapping them in cereal boxes, in this appearance Mugsy looked like he did in Bugs and Thugs.

The characters play a major role in The Sylvester & Tweety Mysteries episode "The Cat Who Knew Too Much". They would later appear in "Furgo" as Ducky Wheezy's henchmen.

They make a very small cameo in The Looney Tunes Show. They appear in a book of people that the police have arrested before. There are other older characters in there like Hugo.

---

Edzilla (slams Mugsy into Rocky): ED SMASH PUNY MUGGERS!

We were punching and smashing all of Rocky and Mugsy's gang into pulp.

Me: I used to watch both you guys on TV. You guys were so funny how you were beaten and outsmarted by Bugs Bunny.

Rocky: We will not be outsmarted again.

I punched Rocky in the face and knocked him out.

Mirage (unimpressed with Rocky and Mugsy): That's it? I was expecting more threatening muggers.

Me: Don't be so sure Mirage. Rocky and Mugsy are the most notorious criminals ever known in the world of Looney Tunes. They stole millions of dollars in cash and jewels.

Mirage: Wow! That is impressive.

Sly Cooper came back with bags of jewels and money without the dye packs.

Sly Cooper: This is all the money and jewels they took.

Me: Nice work Sly.

We brought Rocky & Mugsy to the estate and the police were there.

Me: Are these the two that robbed you Mandee?

Mandee saw them.

Mandee: That's them J.D.!

Me: These two are the notorious gangsters of Looney Tunes, Rocky & Mugsy. The police have been after them for a long time.

Mandee: Wow!

Naruto: Yeah. Glad we found them.

Me: And now they are looking at over 17,250 years in the federal prison system in Solitary Confinement.

Nico: Rocky & Mugsy you have failed this world.

We laughed. Mugsy & Rocky and his gang were sentenced to

20,236 years in the ADX Supermax Prison in Fremont County in Colorado. That place is known as Prison Valley, A.K.A. The Valley of The Damned. But because we were worried about Rocky and Mugsy and his gang escaping we transfered them to one of our space prisons.

---

Later after the rain cleared, we were watching TV. Mandee can now rest easy.

Me: That takes care of those muggers.

Laney: Yep.

Lori: Those guys literally disgust me. They picked on a poor girl like Mandee and she didn't do anything to them.

Me: Some people are just that evil and they don't give a flying fuck about anything.

Lana: Yep.

Then the alarm went off.

Me: Uh oh.

We went to the computer and we saw that trouble was going on in a terrifying place called the Savage Lands.

Me: The Savage Land? Where is that?

Jean Grey: You would not like that place J.D. It's a tropical dinosaur reserve down deep in Antarctica where superheroes go to get eaten by dinosaurs.

We gasped in horror.

Aylene C.: That sounds like a very dangerous place.

Me: Lets see.

I looked it up.

---

The Savage Land is a tropical prehistoric land surrounded by volcanoes deep in Antarctica It is a tropical preserve hidden from the rest of the world.

Zabu

Two ships became stranded in the Savage Land during World War

A number of superhumans have lived in the Savage Land, notably: Sauron, Garokk and Zaladane, the Savage Land Mutates, Devil Dinosaur and Moonboy, and Stegron the Dinosaur Man. The supervillain Magneto has lived there on several occasions when he led the Savage Land Mutates. Chtylok the Che-K'n Kau is a mysterious creature that lived and was worshiped by the Fall People.

The High Technician who, like the High Evolutionary, became a temporary resident and created the Saur-Lords (consisting of Styro, Bront, Pter, Allo,Anky).

Savage Land races

There are many types of races in the Savage Land and Pangea. The Nuwali transported primitive man now known as the Man-Apes, which unlike the rest of the world thrived until the 21st century. The next arrivals were the Ancient Atlanteans, who added the region as part of their empire. They used the Nuwali technology to mutate the Man-Apes into various Beast-Men to perform certain tasks. These slaves rebelled after the great Cataclysm and made Pangea their home. Many Atlanteans remained and their descendants became the various human tribes, with some clinging to the old ways and technology but most forget and resort to more primitive hunter gather society's.

Examples of Savage Land races include the bird people called Aerians, the monkey-tailed Tree People, the amphibious Tubanti fish-people of the inland Gorahn Sea, the Lizard Men of Vali-Kuri City, and the nomadic cat people of Pandori. Popular races in the Savage Land are the Man-Apes, the Lemurans, the Pterons (pterodactyl-like people), the human Sun People, the Swamp Men, and the Zebra People.

SAVAGE LAND, ANTARCTICA.

We were flying over Antarctica and we felt it get warmer and then we arrived at an incredible and absolutely astonishing sight! We saw a massive prehistoric jungle in the middle of the South Pole!

Me: WOW!

Jean Grey: Welcome to the Savage Lands, guys.

Lynn: This is amazing!

Laney: This is unbelievable!

Lori: This is literally unbelievable!

Lola: Incredible! A prehistoric jungle in the middle of the South Pole!

Aylene C.: It's like the Land Before Time is now here on Earth.

Me: This whole place reminds me of a movie from my dads past. It reminds me of the 1957 movie: The Land Unknown.

Lucy Loud: That was an interesting movie.

Nico: I saw that movie and it was awesome and cool.

Aylene C.: That was a creepy one.

Me: This whole place is unlike anything we've seen in the prehistoric times.

Lincoln: It's like Jurassic Park reborn.

Laney: Yeah.

Syd: This is so cool! I can't believe all this is here down here in Antarctica!

Ronnie Anne: No kidding.

Carlitos: This is amazing.

Me: But I think I know why we're here. We're here to defeat the half-Pterodactyl villain Sauron.

Jean Grey: He is deadly.

Nico: He sure is.

Luan: Who is Sauron?

Me: His real name is Karl Lykos.

I went over his history.

---

Karl was the son of an adventurer, and on one expedition they traveled to Tierra del Fuego near the Antarctic Circle. On the trip Karl was attacked by giant pteranodons who had migrated there from the Savage Land, and was bitten by them. He survived, but somehow his genetic structure was altered, and he started craving the life-force of living things. He needed it to survive. At first Karl kept his power a secret, but he still needed to use it in order to live, and he sapped the energy from human beings, making sure not to kill them. Later, he became a doctor and hypnotherapist, and created a device that would transfer his patients life-force to himself.

After a battle between the X-men and the Sentinels, the mutant hero Havok nearly killed himself when unleashing his full powers, and was buried in rubble. The X-men brought him Dr. Lykos, thinking him to be the only doctor they could trust with Havok being a mutant. Later, when Lykos drained Havok's life-force into himself, the mutant's energy mutated Karl into a monstrous, half-pteranodon, half-human creature. He still retained his intelligence, but his personality was changed, and he became evil. He named himself after the archvillain of the Lord of the Rings series, Sauron, and went on a rampage, which forced the X-men to fight him.

Over time, Lykos continued to transform back and forth between his two forms, and he eventually journeyed to the Savage Land, where he stayed, growing more and more animalistic. He eventually came back to New York City, and ended up in the hands of the Weapon X program, who made him one of their agents. He continued to seek out victims to feed his hunger, particularly mutants, whose power makes him stronger.

Sauron appeared in X-Men: The Animated Series. This version of Sauron did not possess the fire breath or sonic scream of his comic book counterpart. Also, Lykos was apparently an inhabitant of the

Savage Land, as he knew and was friendly with Ka-Zar. Lykos was the victim of Mister Sinister's experiments, forced to feed on energy and transformed into Sauron upon mutant contact. Sauron aided Mister Sinister in his efforts to destroy the X-Men. He later attempted to conquer the Savage Land for himself, but was ultimately defeated. With no mutants left in the Savage Land, Lykos was free to live in peace and welcomed into Ka-Zar's tribe.

Sauron appears in the Hulk and the Agents of S.M.A.S.H. episode "Savage Land".

Sauron makes a cameo while crossing a bridge in the first level of the original X-Men game for the Sega Genesis.

Sauron makes a small appearance in the Savage Land arena in X-Men: Next Dimension.

Sauron appears as a boss in X-Men Legends II: Rise of Apocalypse.

Sauron makes an extremely brief appearance on a TV screen in Ultimate Spider-Man.

Sauron appears as a boss character in Marvel Heroes.

In his human form Karl Lykos is a fairly typical doctor, except he keeps his ability to absorb the life forces of other living things to sustain himself. If he absorbs the life force of a mutant this will trigger his transformation into his pterodactyl form and also he will absorb a portion of their powers temporarily. Due to manipulation by the Weapon X program, Sauron can expel the life force energy in concussive bursts from his hands.

In the pterodactyl form he is superhumanly strong and possesses the ability to fly at a natural winged flight limit. In battle Sauron has several additional weapons; a lethal beak and sharp talons on his hands and feet.

He also has an amplified hypnotic ability when he is in his pterodactyl form, that requires direct eye contact to complete. He frequently uses his hypnotic power to give his victims terrifying delusions that allies have become monsters.

---

Everyone gasped in horror!

Luna: Dude! That is awful!

Sam S.L.: No kidding.

Riley: So those Pterodactyls made him this way.

Me: Yeah. We can cure him and help him get back home.

Nico: Good idea and we can kill the Pterodactyl half.

Me: Yep. Sauron is somewhere here.

We went into the jungle and what we saw was incredible. It was loaded with all kinds of dinosaurs, human tribes and more. We then arrived at Sauron's hideout. It was a cave in a volcano.

Me: He's in this cave. I can sense it.

We were about to go in. But I stopped everyone.

Me: Wait. It's too easy. There could be traps all over the place.

Lincoln: What kind of traps?

Me: Poison darts, weapon walls, molten lava, closing walls with spikes, pitfalls, anything.

Mack: Okay. Dad and I dealt with these kinds of traps before. We just need to make sure we don't step on any wrong floor tiles.

Me: Okay. Follow me and stay alert.

We walked into the cave and we saw that it was a terrifying place. It had an ominous presence.

?: Hey! Get me outta here!

I recognized the voice.

Me: That's Stan Lee.

Nico: What is he doing all the way out here?

Me: No idea.

We saw him in a cage in the cave wall.

Me: Stan!

We went over to him.

Stan Lee: Oh thank goodness you've come true believers.

Qin: Stan Lee! Wow! It's such an honor to meet the world famous creator of Marvel Comics.

Stan Lee: Thank you for becoming a true believer.

Me: We'll have you out of there in a sec Stan.

We broke the cage open and Stan got out.

Stan Lee: Thank you so much.

Me: No problem Stan. Us true believers will be there for you when you're in trouble.

Stan Lee: Thank you. I got to go now. Excelsior!

Me: Excelsior!

Stan Lee ran and watched out for the traps.

Qin: That was awesome!

May: Stan has appeared in many of our adventures.

Me: Yep. Lets continue on.

We continued and we arrived in Sauron's main room. There we saw SAURON!

Me: Sauron!

Nico: Sauron!

Sauron: So you all came. Welcome Team Loud Phoenix Storm to your doom.

Lincoln: So that is Sauron!

Laney: He sure looks scary.

Lola: But he looks ugly!

Lana: I think he's the coolest super villain we've ever seen.

Me: He is a cool one. But he's really dangerous.

Sauron: (to Mystique and Deathstrike) I thought I told Magneto that I wasn't joining his Brotherhood!

Mystique: I guess you didn't hear the news.

Deathstrike: The Brotherhood of Mutants has been permanently disbanded thanks to J.D. and the others.

Sauron: (evilly chuckles) Really? Then, there's no one other then all of you standing in my way to conquer this world!

Wolverine: Bub, I think you're forgetting about Mr. Sinister and Apocalypse.

Me: We won't let you do that lizard lips!

Lana: We will stop you!

Sauron then grabbed Wolverine!

Sauron: (starts to drain Wolverine of his powers) Let's see how you fair with one of your strongest members weakened!

Me: We are more powerful than you think!

We went at him and I punched him in the face and Nico punched him in the face and kicked him in the stomach and Carol fired a powerful blast of Godzilla's Spiral Ray and it hit him and exploded.

KRABBBBBOOOOOOOOOOOOOOOOOMMMM!

Naruto: (Echoing) WIND STYLE: RASENSHURIKEN!

Naruto formed a powerful Wind Style: Rasenshuriken and slammed it into Sauron and it exploded with incredible power.

KRABBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Erika fired a powerful blast of Biollante's radioactive sap and it fried him all over.

Erika: You will never terrorize the world again you freak!

Qin fired a powerful blast of fire and burned him.

Me: Lets show him some teamwork!

Mirage: Lets get him! CYBER KEY POWER!

The Velocitron Cyber Planet Key went into his back and it enhanced his Rocket Dart Hunting Rifle 100-fold.

Tommy Oliver: Lets do it! ANIMATRON CYBER KEY POWER!

The Animatron Cyber Planet Key went into his right arm device and it enhanced his Power Rangers abilities 100-fold and it enabled him to get powerful green dragon armor with wings.

Me: Wow! That is awesome armor Tommy!

Tommy Oliver: I'll say! This is amazing!

Kimberly: Wow! Tommy you look incredible!

Adam: He sure does.

Me: Lets see what it can do.

Mirage and Tommy Oliver: LIGHTNING DRAGON VOLTBURST!

Mirage fired a massive blast of lightning and Tommy Oliver fired a massive blast of green energy and the blasts combined and turned into a powerful energy dragon made entirely out of pure lightning! It slammed into Sauron and exploded.

KRABBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Bella: Time for some Ultimate Bella power!

She activated her Ultimate Bella form.

Bella: ULTIMATE BIG CHILL!

Bella fired a powerful blast of Ice Fire and froze Sauron.

Chione punched him in the face and she went intangible and slammed into him and froze his arms to the ground.

Chione: Hope you have a good heat source.

Bella: And now for you to see true strength! DIAMONDHEAD!

Bella fired a massive barrage of diamond crystals at Sauron and they hit him and shattered with incredible force.

Sylvia punched Sauron in the face all over the place.

Sylvia: You are never gonna terrorize this world again!

She mercilessly thrashed Sauron all over the place with indiscriminate fury. She had a powerful martial arts style and she was mercilessly pulverizing Sauron!

Laney: Wow! Look at Sylvia go!

Me: I've never seen her go at him with such brutal fury!

Pan: Incredible!

Nico: Wow!

Sylvia: Finish him off guys!

Slugfest: You got it Sylvia! CYBER KEY POWER!

The Animatron Cyber Planet Key went into his back and it enhanced his vibro-cannons 100-fold.

Harley: Time to show this punk some hammer power! GIGANTION CYBER KEY POWER!

The Gigantion Cyber Planet Key went into her hammer and it grew spikes and grew 20 times its size and it enhanced Harley Quinn's Strength 100-fold.

Slugfest and Harley Quinn: SUPERSONIC VIBRO-HAMMER BASH!

Slugfest fired his cannons and the blasts merged with her hammed and she slammed it into Sauron with devastating force!

WWWWHHHAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAA

Lincoln: That's gotta hurt!

Sylvia: No kidding!

Me: Time to separate Lykos from Sauron!

I chanted a magic incantation and fired a beam of light energy and it separated Karl Lykos from Sauron.

Karl: I'm free! Thank you all!

Me: You're welcome Karl.

Bleez: Now that Sauron's out of Lykos, I think I'll eat his heart. Haven't done it in a while.

Eion: Lets do it mom!

Bleez put on her Red Lantern Ring and recited the oath.

Bleez: **WITH BLOOD AND RAGE OF CRIMSON RED,**

**WE FILL MENS SOULS WITH DARKEST DREAD;**

**AND TWIST YOUR MINDS TO PAIN AND HATE,**

**WE'LL BURN YOU ALL, THAT IS YOUR FATE!**

Bleez turned into a Red Lantern!

Qin: Whoa! So Bleez is a Red Lantern.

Me: Yep. They govern the emotion of Rage. Rage is a very dangerous and very unpredictable emotion.

Brittney: That's right. We killed the Red Lantern Leader, Atrocitus and I am now the new leader of the Red Lantern Corps. But because Rage is a dangerous, deadly and unpredictable emotion, I have to be very careful. But I reformed the Red Lantern Corps to destroy evil.

Qin: That's amazing Brittney!

Nico: It sure was.

Me: Lets finish him!

Jean Grey: Time for some Phoenix Power!

She activated the Phoenix Force!

Qin: Whoa! So that's the Phoenix Force.

Me: Yep. It's one of the most powerful cosmic entities in the entire universe.

Qin: Incredible!

Jean Grey: PHOENIX FIREBURST BARRAGE!

Jean Grey fired a massive barrage of fireballs at Sauron and they hit him and exploded all over him.

Bleez: Lets see how you like this! RED RAGE CARNAGEBEAM!

Bleez fired a powerful blast of red lantern energy and it hit Sauron and exploded.

KABOOOOMMM!

Then Bleez plunged her hand into Sauron's chest and ripped his black heart out of his chest!

Everyone: EEEWWWWWWWWWW!

Me: Oh sick!

Then Bleez and Eion did something that made us hurl our guts out! They ATE HIS HEART!

We saw this and we were throwing up all over the place!

Me: Oh that is so disgusting!

They were done.

Bleez: Sorry you had to see that.

Me: No worries. But next time can you warn us when you do that?

Bleez: Noted.

Eion: Sorry about that.

Me: No worries.

Nico: But Sauron has failed this world.

We threw his spirit and body into the River of Fire.

Jean Grey: (To the viewers) Not even mutated dinosaurs are a match for all of us. You mess with Team Loud Phoenix Storm and we will mess with you.

Me: Yep.

We went back home and Nico caught a Pyukumuku and Silvally. We rested after a long day.

# Any Given Sundae

Note: The Flashback in this chapter takes place after the events of Raw Deal.

---

In the estate in the living room, Qin and Lily were looking through a photo album. They were laughing as they looked at pictures.

Qin: Boy you have all kinds of awesome pictures Lily.

Lily: I sure do. Most of them are pictures of what I did before I became a 10-year-old girl.

Lincoln: I remember that. These were my favorites.

Lincoln pointed to pictures of what he and Lily did before she got her powers.

They laughed.

Lily: Good times.

Then they heard Luan throwing up.

Lincoln: Boy that is a bad stomach flu.

Laney: Luan got the Stomach Flu from a piece of tainted cake at a clients house.

Qin: I thought your powers made you immune to getting sick.

Laney: Obviously not to food borne illness.

Nico: I know what will make her better.

Nico pulled out a bowl and he made a delicious sundae with Strawberry, Vanilla and Chocolate ice cream. He poured the ice cream out of his hands.

Nico: Here Eddy. You can give this to Luan

Eddy: Nico, how'd you make this ice cream?

Nico: Remember in the Mystery Inc. Game when we took down the Strawberry, Chocolate, and the Vanilla Technicolor Phantoms?

Eddy: That was awesome! Who knew you could do that.

Eddy went to give Luan the ice cream.

Horsea: Can I have some Ice Cream?

Maria: What ice cream do you want, Horsea?

They went to the kitchen.

Lily: I remember when I got my first ice cream.

Lily then remembered what happened.

---

It was shortly after the events of Raw Deal.

[Lily goes to the kitchen and yawns, stretching. Lynn Sr. is shown cooking and Rita talks to him and I was in the kitchen getting a glass of water.]

Rita: "Thanks for breakfast, honey." [Kisses him.] "I should be back around four after I finish pulling Flip's wisdom teeth." [She makes an annoyed face.]

Lynn Sr.: "I thought you already did that."

Rita: "He grew another set."

Lynn Sr.: "What?"

Me: Is that even possible Ms. Rita? Usually after you have them taken out, you never grow them back.

Lynn Sr.: Yeah.

Rita: "That is unusual J.D. You know, I was thinking, the kids have been really good this week, haven't they?"

Lynn Sr.: [Flipping an egg] "Oh, they've been great. No calls from school…"

Rita: "No trips to the ER…"

Me: No conflicts with each other.

Lynn Sr.: "I only had to raise my voice once."

Rita: "We should do something special for the kids. How about taking them out for ice cream when I get back?"

Lynn Sr.: "Oh, I love it! We could go to Auntie Pam's Parlor!"

Rita: [Looks at Lily, who has her toy keys in her mouth.] "And you know what? I think someone's ready for her first taste of ice cream~."

Lynn Sr.: "Oh! This is my favorite of all the milestones!" [To Lily] "What do you think, sweetie? You wanna try some…" [in slow motion] "ice cream?"

Lily: [gasps] "Huh? Ice ceam?"

[She then imagines being in a pink sky on a cloud and there's a sundae floating in the air. She turns towards it and gasps, reaching out to it, giggling. She then sees a flying teapot spraying chocolate sauce from its sprout, onto the sundae, then the rainbow above her melts into sprinkles, which lands on the sundae, the cloud, and her. She giggles, then some gummi bears appear on top of her head, do some dancing, and leap off her head, into the sundae. She grabs it and goes flying through the air, going through a cloud of whipped cream, which is on the sundae and on her face. Two spoons then hop past her, dance with each other, and jump into the sundae. She laughs and claps, then looks on in wonder as a cherry falls out of the sky, and onto the sundae. She is exuberant and begins to levitate towards it, until Rita's arms grab her and literally pulls her out of the daydream, while she screams. Back in reality, Rita is holding an unamused Lily.]

Rita: "So, ice cream sounds good?"

Lynn Sr.: "Darn tootin'! If today goes okay, too."

Me: You want your first ice cream Lily?

Rita: [affectionately to Lily] "Let's see if your siblings can behave for just a few more hours. [Boops Lily's nose and Lily giggles] And if they do, it's ice cream time!"

[She puts Lily on the floor and Lily imagines the ice cream, then imagines her siblings arguing.]

Imaginary Lisa: "Don't touch my glasses!"

Imaginary Lynn: "I can't believe you-"

Imaginary Lola: "Leni,-"

[The siblings in Lily's imagination start arguing too quickly to make sense of and that imagination devours the other.]

Lily: [Stops imagining and looks ticked] "Wah-wah!" [growls, then walks off looking grumpy]

[Lily is walking Lincoln and Lori into her and Lisa's room.]

Lincoln: "Uh, Lily, is everything okay?"

[He and Lori look surprised to see that Lily has led their other sisters into her and Lisa's room too.]

Leni: "Isn't this cute? Lily's calling a sibling meeting."

[Lily brings in a pad of paper, which hits a block, and crudely draws a sundae. She then points and babbles to it.]

Lola: "Good job, Lily, you drew an… upside-down tree."

[Lily facepalms, then tries to mime eating ice cream.]

Lincoln: "I think she's trying to tell us something."

Lisa: "Perhaps the infant has some trapped wind."

[Lily facepalms again and Lori tries to burp her but she exclaims and flails her arms around.]

Lola: "You guys are all wrong; she's clearly waving at us."

Leni: "I guess Lily called this meeting just to say hi." [waves] "Hi, Lily!"

Lily's siblings except Leni: [in unison] "Hi, Lily!"

Laney: I know what Lily wants. She called this meeting to tell us that we have to be on our best behavior because mom and dad are taking us out for ice cream later.

Lily nodded.

Lola: I love ice cream!

Me: Me too Lola.

Varie: I love ice cream.

Me: So guys we have to be on our best behavior.

We agreed and everyone left.

[The siblings leave the room.]

Laney (to Lily): You have something planned to get your ice cream, don't you, Lily?

Lily nodded.

[Lily then sees some toys discarded.]

Lynn Sr.: [singing offscreen] Checking the mail, skippa-dee-bop. What did we get in the latest crop?

[Lily looks nervous and imagines Lynn Sr. coming out of the bathroom.]

Imaginary Lynn Sr.: Doo-be-doo- [steps on a jack] "Ow, ow, ow! Oh, ow!" [Steps on a skateboard and goes sliding along.] "Whoa! [Falls off the skateboard and his head lands inside a drum.] No more ice cream!"

[The imagination ends as Lily screams and frantically moves all the toys.]

Lynn Sr.: [comes out of the bathroom] Maybe a crop. Maybe a bill [Lily sees a toy car where Lynn Sr. about to step and hastily grabs the controls and moves it away just in time.] Checking the mail is always a thrill. Doo doo doo ba-da-ba-da! Doodley doo doo doo- [walks downstairs]

[Lily smiles, then walks into the kitchen, where me and Lincoln are talking on the walkie-talkie and mopping the floor.]

Clyde: [on the walkie-talkie] "Lincoln! I've got a code denim!"

Lincoln: "You're stuck in a pair of skinny jeans?!"

Me: Yikes! I had that happen to me and it cut off the blood flow to my legs!

Clyde: "Yeah I was trying to update my looks, but now I can't feel my legs!"

Lincoln: [puts the mop down] "Mopping the floor can wait. We're on our way! [runs out of the kitchen and past Lily] Don't struggle, Clyde, it'll only make it worse."

Me: Hang on Clyde!

[Lily imagines her parents both slipping on the wet floor. She looks determined and slides along the floor on her butt, thereby completing its mopping.]

Varie saw it.

Varie: Wow! This floor is so shiny that you can see your own reflection.

When Lily was done, she walks into the living room, where the twins are on the couch fighting over the TV remote. Laney was reading a book.]

Lola: "I wanna watch my pageant show!"

Lana: "I wanna watch my penguin show!" [The twins struggle as the TV keeps flipping between their favorite shows back and forth, then Lana has the remote.] "Got it!"

Lola: "Give it to me!"

[She jumps on Lana and they begin fighting. Lily hears Vanzilla's horn to show that Rita just pulled into the driveway. She nervously runs towards the twins, but then sees Lynn with her football on top of the stairs.]

Lynn: "Lynn Loud looks downfield but nobody's open! She's going for the quarterback sneak!"

Lily: "Huh?" [She then sees Luan with a spring-loaded boxing glove.]

Luan: "If all goes according to plan, my family will glove this prank!"

[Lily gasps and imagines Rita entering and being tackled by the twins' fight, or Lynn, or being punched by Luan.]

Imaginary Rita: "No more ice cream!"

[The imagination ends and Lily whistles for Charles, then rides on him as she lets out a battle cry and steals the remote from the twins. She then changes the channel.]

Woman on TV: "And now, back to Penguin Pageants!"

[The twins stop fighting.]

Lana and Lola: "Huh?"

[They watch intently.

Laney: I didn't know there was a thing like that.

Me: Me neither.

Lily, still riding Charles, whistles for Walt, who flies out of his cage and around Luan.]

Luan: [giggles while trying to shoo the canary] "Walt, knock it off!"

[Luan then accidentally punches herself in the face with the glove and is knocked unconscious. Meanwhile, Lily jumps off Charles and uses the glove to launch herself onto Lynn's face, knocking her over.]

Lynn: "Oh no, it's a fumble!" [Points]

[Lily sees Lynn's football roll down the stairs and gets nervous. Rita enters and Charles catches the ball just as it was going to make contact with her. Rita looks confused, but happy.]

Rita: "Well, this is nice to see everybody getting along. And Luan's even taking a nap."

[Lily is seen climbing down the stairs]

Lynn Sr.: [comes out of his and Rita's room] "Yep, they've been perfect all day. Not a single mess or meltdown."

Rita: "That's all I needed to hear. Kids, come down here, please! [All the Loud kids assemble.] Do you want to tell them the surprise or should I?"

Lynn Sr.: "Oh, you do it."

Rita: "You guys have been so well-behaved this week, we wanted to do- Luan, wake up. Something nice for you, so everybody get in Vanzilla because-"

Lynn Sr.: [excitedly] "I changed my mind, I wanna tell them, we're going for ice cream!"

[We all make various cheerful exclamations, from which can be heard "Yes!" from one of the sisters, "Awesome!" from Lincoln, "Seriously?!" from Leni, and "Ice cream!" from Lynn. Lily imagines her sundae, and Charles imagines a dog treat. Lily somehow sees Charles' thought bubble and gives him a treat.]

[The Louds begin walking out the door.]

Lynn Sr.: "Catch up, my little tomatoes, time to head out!"

We went out the door and I was about to get Lily.

[Lily is about to head out as well when sees an ad on TV.]

Ad: "Come beat the heat at Auntie Pam's Parlor, but make sure you get there by five; [Lily watches intently and does a victory fist pump before realizing what the commercial is saying] we're closing early to give our scoopers a break. Don't forget, five PM! One more time; five PM! Five PM!"

Me: 5:00!? Oh man!

[Lily notices on the clock that it's 4:31 and tries to get Lynn Sr.'s attention.]

Lynn Sr.: [picking Lily up] "I know, sweetie; I'm excited for ice cream, too." [Turns the TV off.]

[Cut to Vanzilla driving off. Lynn Sr. types in their destination on his phone and sets it on the holder.]

GPS: "Your estimated arrival time at Auntie Pam's Parlor is 4:46 PM."

[Lily is relieved and imagines the dot on the GPS turning into a cherry.]

Imaginary Cherry: "See you soon, Lily!" [kisses]

Lily: [gasps] "Cherry…"

[Suddenly, Vanzilla comes to a stop to find it in the middle of traffic.]

Rita: "There's never this much traffic on this street."

GPS: "Your new estimated arrival time is 5:05 PM."

Lynn Sr.: "No biggie. Auntie Pam's doesn't close 'til eight." [Lily starts reaching out.] "Oh, you wanna play with Daddy's phone, Lily? [Gives Lily his phone] Ok, but please don't call Aunt Ruth again. It's two hours I'll never get back."

[Lily presses buttons on the phone, then throws it back onto the holder.]

GPS: "Rerouting, make a U-turn onto Oakville Road."

Lynn Sr.: "Oh, look at that. [In his british accent] Lily accidentally found us a faster route."

[Vanzilla drives to that route]

GPS: "Your new estimated arrival time is 4:52 PM."

[Lily wipes the sweat beads off her forehead. Just then, police sirens then sound, scaring Lily.]

Rita: [annoyed] "Shoot, what now?" [pulls over]

Cop: "Ma'am, do you know your registration's expired? I'll have to write you a ticket for that. Get comfy; this could take a while."

[Lily looks out the window to see the cop writing Rita's ticket. She frantically looks around, and finds one of her blocks and blankie on the floor. She picks them up and places the block inside on the end of the blanket, then looks out the window again and spots the clutch of the officer's motorcycle. With one spin and a toss from her "weapon", she was able to move the clutch, sending the bike rolling down the hill.]

Cop: [Notices and chases after it] "Ahh! My bike! Come back, precious!"

Rita: "Uh, thanks, officer, we'll take that as a warning! Whoo!" [drives off]

GPS: "Your new estimated arrival time is 4:58 PM."

Lily: "Phew!"

[Later, The Louds arrive at Auntie Pam's Parlor.]

GPS: "You have arrived at your destination."

Lynn Sr.: [Looking through his pockets] "Uh-oh."

Rita: "Oh, honey, please tell me you didn't forget your wallet. This place only takes cash. "

[Lily's eye twitches in anger. She digs through the seats, and holds up a twenty.]

Lynn Sr.: "The emergency twenty! Lily, you've done it again!"

Lily's siblings: [in unison] "Yay, Lily!"

[Everyone, but Rita and Lily, is eating ice cream.]

Rita: "Hi, can I get one scoop of vanilla ice cream, please." [Lily babbles and points at the picture of the sundae.] "Haha, okay, I guess she has other ideas. One sundae, please."

[Rita is given the sundae and sets Lily up to eat it. Lori has her phone out and recording Lily.]

Lori: "You ready, Lily? Okay, guys, I'm recording."

Lynn Sr.: [teary-eyed] "I can't believe this is the last time we get to introduce a little Loud to ice cream."

Lily's siblings: [in unison] "Go, Lily!"

[Just as Lily was about to take the first-ever bite of her sundae, she hears a bird call in the distance, and said bird swoops in front of her, having Lily drop the sundae and onto the grass, all the while happening in slow-motion. Lily looks at the remains and gets teary-eyed.]

Me: You stupid bird!

Rita: "Oh no, sweetie, don't worry, we'll get you a new sundae. [knocks on the window] Uh, excuse me!"

Luna: "No dice, dudes, they close at five this week."

Lynn Sr.: "What? Huh. You think they'd advertise something like that."

[Lily looks down for a second, and just like that, she starts crying uncontrollably.]

Rita: [picks her up] "Oh, poor baby. Let's get you home."

Me: Oh Lily.

[The parents and Lily walk off looking somber. Everyone's in Vanzilla again and the siblings are trying to cheer up their baby sister.]

Lily's siblings, except Luan and Lana: "Oh, it's okay, Lily."

Luan: "Cheer up, Lily."

Lana: "Oh, Lily…"

Leni: "I've never seen Lily look so sad."

Luan: "You'll get that ice cream sundae, Lily, perhaps when the road isn't so rocky! Don't have a mint chip on your shoulder about this."

Lola: "Luan, read the room!"

Me: Don't worry, Lily. One way or another, you're getting that ice cream!

Varie: Yeah!

[Just then, Lily sees Flip's Food and Fuel and tries to get her parents' attention.]

Rita: "It's okay, honey; we'll be home soon."

[Lily then deliberately poops her diaper.]

Lucy: [sniffs] "Oh, what is that? It smells like a thousand angry skunks."

Varie: GEEZ! LILY!

Me: OH YUCK!

[Lynn groans in disgust, followed by everyone else.]

Rita: [Smells it as well] "Oh, somebody needs a diaper change, stat!" [Turns the van around]

[Flip's Food and Fuel. Lynn Sr. carries Lily out of the bathroom and into the store.]

Lynn Sr.: [singing] A little powder, a little wipey, now you've got a fresh new diapie! [Lily sees some ice cream in the freezer and struggles out of her father's grip.] "We've got a runner!"

[Lily jumps onto the freezer and starts banging it with her fists.]

Rita: "Look what Lily found!"

Lincoln: "That gives me an idea."

Me: Same here.

Laney: Me too.

[And so… ]

Lynn Sr.: [Making a sundae for Lily.] "One ice cream sundae coming up!"

Lincoln: "Don't forget the gummi bears!" [puts them on]

Me: And the sprinkles. [puts them on]

Lynn: "Whipped topping in the hizz-ouse!" [puts it on]

Lola: "And some yummy cookie crumbles!"

[Lola puts a cookie on the bench, which Lana smashes with her spanner and Lily sprinkles the crumbs on. Flip is seen with a bandaged face, speaking in a garbled way and putting chocolate sauce on, then he falls over.]

Rita: [takes the ice cream] "Thanks, Flip, but you're not supposed to be talking after your wisdom teeth surgery." [Puts a cherry on top and hands it to Lily.]

Me: I think this is an act of karma for Flip being a total cheapskate.

Luan: "You guys, she's about to try it!"

[The family gasps excitingly as Lily takes a spoonful of her sundae and eats it, then she imagines herself once again in the pink sky, this time with her family, and is laughing. Back in reality, everyone's in Vanzilla again just as it was leaving Flip's. Lily has ice cream all over her face, giggling when she finally got her ice cream.]

Laney: Congrats on getting your ice cream, Lily. You've earned it!

Lisa: "Hmm, if I didn't know better, I'd swear Lily orchestrated this whole thing."

Lynn Sr.: "Oh, don't be silly, honey, she's just a baby, haha."

Me: Lily may be a baby, but she is a smart baby.

[Iris out, Lily winks at the audience.]

FLASHBACK ENDS

We laughed.

Me: That was so funny.

Stewie: You came up with that at your baby age? And I thought I was clever back in my world domination days!

Lily: (Laughs) I may be a baby biologically, but I am a smart kid.

We laughed.

Tommy Oliver then came in and he had a photo with him.

Me: Hey Tommy.

Tommy Oliver was looking at a picture of him, Jason, Billy, Kimberly, Zack, and Trini back in their first year as Rangers.

Jason (comes in the room): You still have that photo?

Tommy: Yep. I always kept it even after all these years.

Jason (smiles): Man, those were good times.

Me: Yeah they sure were. I remember seeing all that on TV. It was so awesome. I'll leave you guys alone to reminisce okay.

Jason: Thanks J.D.

I left.

Tommy and Jason then looked at a clip board that had pictures of Aurico, TJ Johnson, Andros, Casey Rhodes, Scott Trueman, Jayden Shiba, Troy Burrows, Tyler Nevarro, and Brody Romero.

Tommy: Those are the Red Rangers of the Ranger Teams that haven't joined us yet. We should also show J.D. our Zeo Powers.

Jason: What about Devon Daniels and the Beast Morphers team?

Tommy: They already have Evox and the rest of their own enemies to deal with. It's best not to disturb them.

Jason: Good point. (sighs) You ever wonder what would've happened if we weren't chosen by Zordon to become Power Rangers?

Tommy: We all wouldn't have become friends.

Jason: You're right. Being a Power Ranger is the best thing that's happened to us.

Tommy (smiles): And we wouldn't have it any other way.

It was a great time for them.

However as we were reminiscing, out in space on an awesome space station in orbit above Earth, 6 rangers were getting ready. It was the Space Power Rangers

Andros: Lets head down to Earth and see some old friends.

Their spaceship took off to Earth and planets and stars transit before the screen turned black.

# Revenge of The Invisible Man

It was night in the city. This is when the city becomes a completely different place.

KRABBBOOOOOOOMMMMM!

An explosion just happened at the bank. The Akumatized villains Animan, Guitar Villain, Troubemaker, Frozer, Simon Says, and Animaestro came out carrying bags of money. But something was off about them. They had red eyes and teleported away with the money.

Commissioner Jim Gordon: (comes out of the bank and pants) Damn! I don't know how those villains got here. But I need to call J.D. about this.

---

At the Team Loud Phoenix Storm estate we were playing video games. With us were the Space Power Rangers.

Andros: Nice to see you again, Tommy!

Tommy: Same here!

T.J.: (sees us playing Super Smash Bros Ultimate) Is that the recent Smash Bros game?

Yusuke: Yep. It really is awesome. Wanna play?

T.J.: Sure.

They got to playing.

Yusuke: By the way J.D., I heard that Lincoln and his sisters are now in the Super Smash Bros. universe.

Me: You heard right Yusuke. That really threw us for a loop. We were really surprised and shocked.

Lincoln: News about it spread all over the city like wildfire.

Laney: We were floored and still are.

Andros: That's amazing.

Nico: No kidding. Andros I'm so glad your sister is all right.

Andros: Thanks Nico. I'm happy Karone is now free of the evil that was controlling her. It was thanks to Zordon that we'll never see Rita Repulsa or Lord Zedd or any of Tommy's enemies again.

Me: You did us a huge favor Andros. But if they do somehow come back, we will be ready for them and destroy them.

Nico: That's right.

Then the alarm rang.

Me: Uh oh.

We went to the computer.

On a holographic screen was Commissioner Jim Gordon.

Me: Commissioner Jim Gordon. Haven't talked to you in a while.

Commissioner Jim Gordon: Sorry about that guys.

Stone Man: What do you need, Commissioner?

Gordon: Lloyd Ventrix is up to good again.

Maria: I've heard about him. He's the invisible guy, right?

Commissioner Jim Gordon: That's right and that's not all. There are several Akumatized villains helping him.

Nico: What?! Why would they show up here? Usually, they would want to get the Miraculous of Ladybug and Cat Noir in Paris.

William: Well, either way, we have to stop them.

Me: Who is Lloyd Ventrix?

Maria: You would hate this guy J.D. He was a paroled bad guy.

Maria went over his history.

---

Lloyd Ventrix, is a minor villain in Batman the Animated Series. He's also known as Mojo. Years ago, Lloyd was a con artist who after being paroled came to possess a suit that allowed him to turn invisible. He uses the suit so he can see his daughter; Kimberly. He pretend to be his daughter's imaginary friend and brings her all sorts or jewels and anything she wanted.

Lloyd Ventrix was a con artist who was arrested for one of his crimes. As a result, his ex-wife named Helen had a restraining order issued, and he wasn't allowed within 100 feet of either her or his daughter Kimberly. However, Lloyd, wasn't about to be stopped by the law.

After being paroled and finding work with a scientist Sam Giddell as his errand boy, Ventrix stole some samples of a plastic that grants invisibilty. This allowed Ventrix to see his daughter but in the process, the material became toxic to both the mind and body. Ventrix made a suit out of the material; using it, he acquired both the means to steal anything without detection and the ability to visit his daughter without being detected. Using the name "Mojo", Ventrix became Kimberly's "imaginary friend".

While the suit prevented him from visible detection, he could still be heard and physically interacted with. Robbing a jewel exposition in Gotham City while the day was young, he attracted the attention of Batman. The Dark Knight investigated, and discovered the link between the material, Giddell, and the Ventrixes. Lloyd Ventrix deactivates the invisibility suit. Ventrix kidnapped his daughter after learning Helen had planned to move from Gotham. Taking her to an abandoned station, Ventrix had planned to escape the city with his daughter. However, Kimberly became hesitant, and attempted to flee when Ventrix revealed his identity to her. Batman arrived, and a skirmish ensued in which Kimberly escaped back to her mother.

Ventrix attempted to flee in his invisible car, but Batman held on and the chase eventually led them to a rooftop with a water tower. In a crazed fury, Ventrix began beating Batman severely and ignored his pleas to remove the suit before it poisoned him fatally, but Batman manage to punctured a water tower nearby. This caused Ventrix to be revealed, Batman quickly defeated Ventrix by pummeling him into unconsciousness with one pumuch and a couple kicks and apprehended him. Ventrix was sent back to prison and hasn't been seen since.

---

We were shocked and amazed!

Me: Whoa! So he has this strange invisibility plastic that enables him to turn invisible!? That must be some crazy stuff.

Nico: But it sure looks cool.

Lana: And very clever.

Me: We're on our way Commissioner. But we got to know more about this invisibility plastic.

Commissioner Gordon: Okay. It's over at a warehouse at WayneTech.

We were on our way.

---

We were at WayneTech Industries and we were looking at the Invisibility Plastic. It was in a bunch of rolls.

Lincoln: So this is the Invisibility Plastic.

Batman: Looks like ordinary plastic.

A scientist that made it named Sam Giddell was with us and he was showing us how it worked.

Sam: It's really quite remarkable.

He put a jumper cable on it and charged up an electrical wand.

Sam: See those filaments imbedded in the plastic?

We saw them.

Me: Yeah.

Sam: Run an electrical current and the stuff bends light instead of absorbing it. So you can't see it.

We saw Sam put electricity into the plastic and it disappeared from sight completely. It glowed blue and it was gone!

Me: Wow! That's really cool.

Lincoln: It totally vanished!

Nico: It sure did.

Lana: That is some really amazing stuff.

Sam: It is. But in the process the plastic becomes toxic.

Me: Toxic? How does that happen?

Sam: I don't know. I spent the last few months trying to correct the problem but it's hopeless.

Nico: What does the poison do?

Sam: Well if worn it can destroy your mind and your body.

We gasped.

Lori: That's literally awful.

Me: So you were gonna dump this stuff Sam?

Sam: Yes it's too dangerous.

Me: Hmm. Let me see something.

I looked at the plastic while it was invisible with my Infrared Vision and it showed a yellow square in heat on the table.

Me: I still see the plastic with my infrared vision. It's completely invisible on the visible light part of the spectrum. But not to Infrared.

Sam: So all invisible things have heat?

Me: Exactly. We got word that Lloyd Ventrix is back. And we heard that he's trying to do the same thing he's doing when Batman beat him the 1st time.

Sam: I'm glad you guys are onto him.

Me: We have to know our enemies before we take them down. Lloyd Ventrix is about to get a one way ticket to prison. This time because he's a repeat offender, he's going to one of our space prisons for life.

Andros: You guys have prisons in space?

Me: Yep. We built them.

I went over what they are.

Ashley: Whoa! That is amazing!

T.J.: Very impressive.

Cassie: Space is perfect for someone like Ventrix.

Me: Yep. Lets head out and stop Ventrix.

We did so. We were keeping our eyes out for any of the Akumatized villains clones.

Me: So what are these Akumatized villains?

Nico: They are the possessed people that were forced to work for the evil Hawk Moth. They were made into Supervillains against their will.

Nico went over them.

---

We gasped in sheer horror.

Me: That's insane! How can one bad guy have the power to make people do all this?

Nico: He just does. Hawk Moth is not really a bad guy. He just wants to have his wife back. He was trying to find a way to bring his wife that's in a coma back.

Lana: Maybe we can help him out in the future.

Me: We'll cross that bridge when we get there. But now everyone all over the world knows about the crimes of Hawk Moth. He's on the top of Interpol, the FBI and Team Loud Phoenix Storm's most wanted list.

We then saw Animan!

Me: Animan! He has the ability to shapeshift. His real name is Otis Césaire.

Animan has the ability to transform into any animal he desires, even those that are extinct. He also has the ability to clearly communicate with other animals. However, transforming in rapid succession wears him out.

Nico: Wow! It's amazing to see Animan here.

Me: It's hard to imagine that the villains that Marinette has to deal with on a daily basis are here too. She and her friends have to juggle normal life and superhero life at the same time.

My Dark Orb detector went off.

Me: Uh oh. There's a dark orb here. And I'm willing to bet that Ventrix has it.

We saw Animan turn into a bald eagle and come at us. Beast Boy turned into a Condor and grabbed him and threw him into the sign and knocked him out.

Nico: Sorry about that, Animan. Now let's get that Akuma out and-

Animan suddenly vanishes.

Mixmaster: What was that?! Akumatized villains just don't disappear once you beat them. We weren't even trying to kill him.

Me: These are clones. The Dark Orb must've given Ventrix the power to summon clones of them that disappear when knocked out.

We got to work in dealing with the clones. We took out the clones of Jagged Stone A.K.A. Guitar Villain, Penny Rolling A.K.A. Troublemaker, Phillipe A.K.A. Frozer, Simon Grimault A.K.A. Simon Says, and Thomas Astruc A.K.A. Animaestro.

Me: That's it for those clones. But I have a feeling that they were just a diversion for Ventrix to try and escape.

Bullock then arrived.

Bullock: You may be right.

Tracks: (to Harvey Bullock) We've had an encounter with some of the Akumatized villains. But something's wrong. They're not acting like themselves.

Bullock: Either way, they're getting what they deserve. We've also got reports that Cat Noir's in the area.

Nico: Nice! (realizes something) Wait. How did he get here without teleportation?

Bullock: Beats me. I'm just happy that he's here.

Maria: We better tell him what's going on.

Bullock: (we're about to leave) Wait. (we stop) Look, you know I'm no good at compliments. But since you've all helped keep Gotham Royal York clean of bad guys, it's good that there are folks like you to help the world.

Me: Thanks Bullock. That means a lot.

We went out to find Cat Noir. But we had a strong feeling that it could be a trap.

We see Cat Noir with his back to us on a skyscraper.

Jinx: Cat Noir! Thank God we've found you. You need to watch out for clones of your Akumatized villains. They look like your bad guys but with red eyes and-

"Cat Noir" turned around to reveal he had red eyes as well!

"Cat Noir": (smirks) Tell me more!

Nico: You're not Cat Noir! You're a clone of his look alike, Copycat!

It was really a clone of Théo Barbot A.K.A. Copycat!

Copycat clone: Of course I am. Poor Ladybug and Cat Noir don't even know that me and my fellow clones exist!

Me: No but soon they will and we'll do them a favor and destroy you!

I punched him in the face and knocked him into a billboard.

Copycat clone: Cataclysm!

The clone holds his hand to the air as a black ball forms in his hand and he clenches his hand into a fist, followed by making several gestures with his hand and causing black energy to flow through the air.

Copycat Clone: This attack disintegrates things on contact. Imagine what it'll do to humans like you! (He uses the attack on me and I go flying back into a wall hard)

CRASH!

I was imbedded into a building.

Me: (Blubbers) WHOA! What power! But he's not the only one with awesome power!

I got out and fly at him and punch my fist through his chest and out his back and then he disappeared.

Me: Thank goodness that wasn't the real thing.

Batman: Now to find Ventrix.

We looked around the city.

Nico: Nothing.

Laney: Ventrix is really crafty!

Batman: There has to be a way to find out where Ventrix is hiding.

Then I saw an empty space in the parking and I saw a man bump into something invisible.

Me: What the?

I turned on my Infrared Vision and it saw a car that was completely invisible!

Me: That car is invisible! But I can see it with my Infrared Vision.

Lori: That must be Ventrix's car!

Me: Lets get him!

We went down and Ben turned into Predator.

Predator: No more hiding behind your clones, Ventrix. Come out and show yourself!

I saw through my infrared vision a figure come out and it was Ventrix completely wrapped from head to toe in that Invisibility Plastic.

Ventrix: So how did you know I was here!?

Me: We saw a man bump into your car while it was invisible and we can see you with our infrared vision.

Ventrix: That's impossible! The invisibility plastic bends light!

Me: True. But the plastic doesn't block out heat. So Infrared Vision can still see your heat signature.

Lana: And another thing. We have you completely surrounded.

The entire Gotham Police Force arrived and they drew their guns on him!

Commissioner Jim Gordon: Lloyd Ventrix, you're under arrest for robbery and impersonation of several Akumatized victims.

Ventrix: I don't care! I will not stop until I get my daughter back! Even if I have to kill all of you!

Me: That suit is destroying his mind! Lets get him!

We went at him and I punched him in the face and Lincoln fired a powerful blast of lightning at Ventrix and the suit shorted out and he was exposed!

Me: That was very clever!

Batman: Peek-a-boo.

Me: Now we see you, you son of a fucking bitch!

I punched him and Batman punched him in the stomach and Nico kicked him in the back.

Lana bit Ventrix in his ankle and he screamed in pain! Her bite drew blood!

Laney kneed him in the face and Lola fired a powerful blast of fire at him and burned a hole in his suit and out came a dark orb.

Lola: The Dark Orb.

Nico: It was inside him.

Lola grabbed it and crushed it. We got an immense power boost.

Sheila punched Ventrix and kicked him in the stomach and kneed him in the face and knocked out some of his teeth.

Sylvia punched and kicked him all over with her powerful martial arts.

Me: Lets show him some teamwork.

Tracks: You got it boss! CYBER KEY POWER!

The Earth Cyber Planet Key went into his back and enhanced his black blinder beam 100-fold.

Yusuke: Lets kick this guys fucking ass! SPIRIT WORLD CYBER KEY POWER!

The Spirit World Cyber Planet Key went into his right arm device and it enhanced his spirit powers 100-fold.

Tracks and Yusuke: DARKNESS BLINDER GUN!

Yusuke fired his Spirit Gun and Tracks fired his black blinder gun and the blasts combined and they hit Ventrix and he was blinded! Part of the plastic was also burned off and it revealed his face.

Stone Man: Time for some serious pounding! GIGANTION CYBER KEY POWER!

The Gigantion Cyber Planet Key went into his right arm and it enhanced his Power Stone abilities 100-fold.

Mixmaster: Time for some mixing pain. CYBER KEY POWER!

The Decepticon Cyber Planet Key went into his back and it enhanced his Magna Laser 100 fold.

Stone Man and Mixmaster: LAVA BOMB METEOR SHOWER!

Stone Man threw his Power Stones and Mixmaster fired his Magna Laser and heated the stones to red hot levels and they rained on Ventrix and burned the rest of the plastic off.

Me: Time to finish him!

Predator: You got it! YAUTJA PLASMABURST SHOT!

Predator had his plasmacaster ready to fire and his helmet had the tri-laser targeting system locked on Ventrix's leg.

His vision had the triangle target system locked onto his leg and he fired and the plasma blast burned his whole leg off and he screamed in pain.

Cody: Wow! Nice shot Ben!

Me: That was so cool!

Lana: It sure was.

Batman: Now to lock you up for good Ventrix! BAT NET INCAPACITATION!

Batman fired a net at Ventrix and he was in a net bag!

Me: This time you're not going to prison for 10 to 20 Ventrix. You're going to prison for life without parole.

Ventrix: Why Life?

Me: You're a repeat offender and you need to go away for good.

Nico: Lloyd Ventrix, you have failed this city.

Lola: Clever thinking Linky. Your lightning powers shorted out the suit.

Lisa: I must say, that was a very genius way to expose him.

Laney: Very genius.

Lincoln: Thanks guys.

Me: First we got to take care of something.

Lucy Loud: What's that J.D.?

Me: We have to tell his estranged wife Helen and his daughter Kimberly about what went down.

Commissioner Jim Gordon: Good thinking J.D. She also has a restraining order out on him.

Me: We saw that Jim. Restraining Orders are usually never enough in most cases.

Lola: We can tell Kimberly and Mrs. Ventrix.

Lana: Kim goes to our class at school so we can tell them.

Me: All right.

We went to the Ventrix Residence. It was located on the west side of the city.

Lana: Here we are.

Lana went and knocked on the door. Answering it was Helen Ventrix.

Helen: Oh hello Lana. Hi Lola.

Lana & Lola: Hello Mrs. Ventrix.

Lana: We have good news for you.

Lola: We captured your ex-husband Lloyd Ventrix.

Helen: You did?

Me: We sure did Mrs. Ventrix. We apologize for coming like this. But Commissioner Gordon told us about what happened.

We showed him all tied up and beaten to nearly within an inch of his life.

Helen: Whoa! You all did a number on him.

Me: Well we just want to let you know that you will never see this monster again. He's going to spend the rest of his life in one of our space prisons. Since he's now a repeat offender, he just bought himself a life sentence in one of our space prisons. He's going to spend the rest of his miserable life in solitary confinement.

Helen: Well that's good.

Kimberly then came.

Kim: Lana, Lola.

Lola: Hey Kim.

They hugged. Ventrix was sent to the Moon Prison and was condemned to spend the rest of his life in Solitary Confinement.

Nico caught a Minior and Komala.

Batman: (To the viewers) Even if villains are invisible they will be caught no matter what.

We got another villain out of Gotham Royal York forever.

THE END

Another Fanfiction complete and another Batman Villain defeated.

Lloyd Ventrix of Batman appeared only one time in the episode of the Batman Animated Series, See No Evil. That was a strange one. He was voiced by Michael Gross who starred in the Tremors movies and he is awesome! Michael Gross plays Burt Gummer, the world famous Graboid hunter on the Tremors movies and he's gonna have a 7th movie coming out later this year. So get ready to eat worm guts! NicoChan11 and vinjedi1995 gave me the ideas. vinjedi1995 gave me the idea for the whole chapter. Thanks guys. Let me know what you all think.

See you all next time.

# Himalayan Mountain Mystery Mayhem

In the middle of the city, everyone was going nuts. They were watching as the world famous singer Jagged Stone was in town! He came onto the stage and he was awesome!

Jagged Stone: Hello, Gotham Royal York! Are you ready to rock?!

Everyone screamed in excitement!

He sang some of his songs and it was awesome!

After it was done, everyone was getting autographs.

Jagged Stone: Wow! Team Loud Phoenix Storm!? It's such an honor to meet you guys.

Luna: You too dude.

Michelangelo: Dude, I'm a big fan of your work! Can I have your autograph?!

Luna: Back of the line, Mike! I want his autograph first!

Jagged Stone: Guys, guys! Relax. There's plenty of autograph to go around.

He signed their autographs.

Jagged Stone: Is it true that there was a clone of my Akumatized form?

Livewire: Yep. But don't worry. We took care of it.

Jagged Stone: (laughs) Good! I bet that faker wasn't as handsome as me!

They laughed.

Omega Supreme: Omega Supreme: Likes Jagged Stone's music.

Songs: Actually fun to listen to.

They laughed more.

Over in the forest, Nico and some of the Transformers were looking for a stasis pod.

Nico: It has to be here somewhere.

Shockwave: It's close boss. 10 meters ahead.

They found it.

They activated the pod and out came Battletrap.

Battletrap: What happened?

Shockwave: Battletrap.

Battletrap: Shockwave? Is that you?

Shockwave: It sure is. Thank goodness you're all right.

Battletrap: What happened?

Nico: We have a lot to explain. I'm Nicolas Chan. But everyone calls me Nico. I'm the new leader of the Decepticons.

Nico explained everything.

Battletrap: So Starscream and Megatron are dead?

Nico: Yep. And now I'm the new leader of the Decepticons.

Battletrap: As long as they don't come back, my allegiance is with you Nico.

Nico: Thank you.

They went back to the estate.

---

Back at the estate, Qin, Girl Jordan, Bai Tza and Lincoln were playing Super Smash Bros. Ultimate and Lincoln was winning as Lily was rooting for him.

Qin: I got you now!

Qin was playing as Inkling.

Lincoln: Not this time!

Lincoln was playing as himself in the game.

Bai Tza was playing as Donkey Kong.

Bai Tza: Not for long!

Girl Jordan: I don't think so!

Girl Jordan was playing as Zero Suit Samus.

Lily: Come on Big bro!

Lincoln won! He beat them all with a combo Final Smash of him and his sisters.

Lincoln: Yes!

Qin: That was so cool!

Girl Jordan: It sure was awesome seeing Lincoln and his sisters doing that.

Bai Tza: That still has us reeling after we saw that.

Qin: I know. J.D. said that you guys were flabbergasted.

Lincoln: Flabbergasted is an understatement Qin. We were really floored.

Girl Jordan: News about it really spread like wildfire and everyone all over the city was shocked.

Lily: Yeah. We just couldn't believe it.

Inkling: I think it's really cool having Lincoln part of the Super Smash Bros. universe.

Samus: I agree.

Qin: That is so cool. It's so awesome you guys have Samus, Inkling, Donkey Kong and most of the Super Smash Bros. here.

Lily: It sure is Qin.

Qin: Yeah. Girl Jordan, I heard you got sick and you helped save Carol Ferris from the wrath of an evil Star Sapphire.

Girl Jordan: Oh yeah. That was one of my most determined adventures.

Girl Jordan went over what happened during the events of Love of The Star Sapphire and Qin was amazed.

Qin: Wow! That was amazing! And even though you were sick, you were using every ounce of your strength to see it through.

Girl Jordan: Yeah. J.D. said that he never saw me so determined to push through with it.

Samus: That's amazing.

Out in the backyard, Lana was getting ready for something really unusual. She was training for a special eating contest coming up where she challenges Timon & Pumbaa to a bug eating contest. First was earthworm spaghetti.

Lana: Earthworm Spaghetti.

She ate all of it.

Lana: Next, Beetle-Kabobs.

She ate the beetles off of a stick.

Lana: Grasshopper Juice.

She drank the whole thing.

Lana: Centipede Slaw.

She ate the whole bowl full of centipedes.

Lana: French Flies.

She ate a plate full of French Flies. French fries covered in flies.

She ate numerous kinds of bugs and we were watching and we were hurling our guts out.

Lola was puking the hardest.

Nico: Geez Lana, you are one strange girl.

Me: Well everyone down in Tanzania eats grubs and bugs. I've seen a lot of people eat cockroaches.

Nico: That's true.

Vince: But this is a strange eating contest Lana is gonna be in.

Lana: Aw come on guys. It's not so bad. (BIG BELCH!)

Lincoln: Excuse you.

Lori: But that is literally disgusting.

Leni: I would totes not eat that.

Then the phone rang.

Me: Oh the phone.

I went to get it.

Me: (Answers) Hello?

Velma Dinkley was on the phone.

Velma: Hey J.D. it's Velma.

Me: Hey Velma. What's happening?

Velma: Not much. We're over in Paris, France waiting for Shaggy and Scooby. But they didn't show up.

Me: That's weird. Let me see here.

I looked up where Shaggy and Scooby were and we saw that they were on the wrong plane. They wound up all the way over in the Himalayan Mountains!

Me: The Himalayan Mountains!? That's not good! Velma, Shaggy and Scooby are not in Paris. They are all the way over in the Himalayan Mountains.

Velma: The Himalayas!? All the way over there!? They must've gotten on the wrong plane by accident.

Me: We can go with you guys to help you get them.

Velma: We would like that J.D.

Me: Okay. We'll meet you guys in Nepal.

Velma: Okay.

We hung up and we were off to Nepal!

## KATHMANDU REGION, NEPAL

We were over in the Khumbu of Nepal, home to Mount Everest. We were back in the Himalayan Mountains, the tallest mountain range in the world. We were in our warmest winter clothes.

Me: Wow. The Himalayan Mountains.

Lori: It's literally so beautiful here.

Laney: No kidding. I remember when we were here on our worldwide adventure.

Cody: Me too.

Maria: Horsea, I don't mind the cold. But does it bother you?

Horsea: No it doesn't.

Qin: Wow! So these are the Himalayan Mountains.

Me: Yep. These are the Himalayas. The Tallest Mountain Range on Earth. And it's home to that.

I pointed to something and Qin saw the tallest mountain on Earth. She saw MOUNT EVEREST!

Qin: Whoa! Mount Everest!

Me: Yep. At 29,029 feet high, it is the tallest mountain on Earth.

Nicole: And an amazing spectacle. Many people have climbed it and most of them succeeded.

Then we saw a van pull up to us.

Me: Wow. Look at that.

The van opened and in it was Del.

Del: Hey guys!

Me: Del, boy it's good to see you.

Del: Glad I was in the area. I'm here to prove the existence of the Abominable Snowman.

Me: The legendary Yeti.

Qin: The most feared legendary monster of Himalayan Myth?

Del: That's right.

Bai Tza: I know the Yeti. And believe me they are real. I know.

Del: I can't wait to see them. I was heading over to the nearest monastery.

Me: Lets head over there as well.

Del: Hop in guys.

Some of us hopped in and we flew to the Monastery.

William: So, Del. I hope you were happy meeting Nessie for the first time.

Del: Oh I sure was! It was amazing!

We arrived at the monastery and it was amazing. Then we saw Mystery Inc.

Fred: Hey guys!

Velma: Boy are we glad to see you.

Me: Hey guys. Sorry Shaggy and Scooby got sent on the wrong plane.

Daphne: We didn't know about this.

Shaggy: Like, yeah. We wound up in Nepal by accident.

Scooby: Reah.

Me: Not only that but I sense that a mystery is here as well.

Fred: I can tell.

But then we got an unexpected surprise when we saw the Yeti appear!

Me: The Yeti!

It then crashed into the ground and it was not real! It was a fake.

Me: It's a fake.

We revealed who it was.

It was a girl named Minga.

Mystery Inc.: Minga Sherpa?

Minga: I'm sorry guys. I was only helping Del. The reason I wanted to help him is because I wanted to show Del that the Yeti exists so that he can keep his radio station open.

Me: That's not anything serious.

Minga: I'm really sorry about this. If you want, I'll turn myself in and-

Nico: No. You had good intentions. So, I'll let you off the hook.

Minga: Really?

Nico: Yep. In fact, your costume might come in handy for taking down whoever's the real bad guy here.

Me: Yeah.

Lincoln: And I see him!

We looked and saw a shadowy figure in a cave.

Me: After him!

We flew out and we confronted the man and I punched him in the face.

Nico kicked him in the stomach.

Michelangelo whacked him all over with his nunchucks and Laney wrapped him in bramble vines and slammed him into the ground.

We saw a huge and beautiful crystal by him.

Me: So that's it. He's after this crystal to sell for his own gain.

Fred: Whoever he is, he's not getting it.

Nico: No he's not!

We punched him and tied him up.

Me: Lets see who this creep is.

I took off his mask and it was Professor Jeffries!

Everyone: PROFESSOR JEFFRIES!?

Daphne: Professor Jeffries was the bad guy this whole time?!

Laney: I know about him. He's a famous archaeology professor that was trying to find the legendary city of Shangri-La.

Nico: The Himalayan version of Atlantis?

Laney: Yep.

Prof. Jeffries: Yes. But I'm not done yet!

Then the snow rose up and he summoned a Snowman Heartless called THE SNOWTERROR STRIKER!

Me: Whoa! That is an ugly snowman!

Killer Frost: A snowman Heartless?!

Bai Tza: At least it's not a villain we know or a clone of an Akumatized villain.

Lincoln: Lets get it!

We went at the Snowterror Striker and I punched it in the face and Lincoln fired a powerful blast of lightning and electrocuted it and blew its arms off.

Lana kicked it in the stomach and went all the way through it. Lola fired a massive blast of fire and burned it and melted part of it.

Me: Lets show some teamwork!

Omega Supreme: Roger that!

Omega Supreme turned into his Transformers Energon form.

Omega Supreme: CYBER KEY POWER!

The Autobot Cyber Planet Key went into his arm and a bunch of laser blasters pop out and his firepower was enhanced 100-fold.

Michelangelo: Lets get him dude! ANIMATRON CYBER KEY POWER!

The Animatron Cyber Planet Key went into his right arm and turned his Nunchucks into laser nunchucks and enhanced his strength 100-fold.

Omega Supreme and Michelangelo: ENERGY LASER FIRESTORM SLAM!

Michelangelo slammed his laser nunchucks all over the Snowterror Striker with incredible force and Omega Supreme fired numerous laser blasts and they hit it and exploded.

KRABBBBOOOOOOOOOOOOOMMM!

Battletrap: Lets show them boss! CYBER KEY POWER!

The Earth Cyber Planet Key went into his back and it enhanced his double-barreled assault missile launcher 100-fold.

Livewire: Lets do it! GIGANTION CYBER KEY POWER!

The Gigantion Cyber planet Key went into Livewire's right arm device and it enhanced her lightning powers 100-fold.

Battletrap and Livewire: LIGHTNING FIRESTORM MISSILE BARRAGE!

Livewire fired a bunch of blasts of lightning and Battletrap fired a bunch of missiles and they all slammed into The Snowterror Striker and exploded.

Me: Lets finish it.

Bai Tza: You got it boss! WATER DEMON DEATH DELUGE!

Bai Tza fired a massive blast of water and it turned into a demon made of pure water and it slammed into the Snowterror Striker with the powerful force of a massive megatsunami.

KRABLAM!

Daphne: My turn! DANGERPRONE DEATH SLAM!

Daphne fired a powerful beam of light and it formed a super heavy anvil over its head and it fell on it with powerful force.

CLANG!

The heartless was dead.

Prof. Jeffries was then taken to prison for life.

Prof. Jeffries: I would've gotten away with it too, if it weren't for you meddling kids and your stupid dog!

Me: Meddling can be too much of a good thing fuckface.

Prof. Jeffries was sentenced to life in Federal Prison without the possibility of parole.

Daphne: (To the viewers) You mess with one of the worlds most important treasures and my friends will mess with you.

Me: You got that right Daphne. Sorry about your vacation to France getting ruined.

Daphne: That's all right J.D. Turns out we didn't know this would happen.

Me: Things can get unpredictable when you least expect it.

Shaggy: Like, yeah.

Crystal: I know.

Amber: What a shame.

Me: Yep.

During the fight, Nico caught a Turtonator and a Togedemaru.

We took everyone to Paris for vacation and we were with them for the rest of the day.

Another Fanfiction complete and another Scooby Doo villain brought to justice.

Chill Out Scooby Doo was an awesome and cold and funny movie from 2007. It was funny! NicoChan11 gave me the ideas for this one. Thanks man. Let me know what you all think.

See you all next time.

# Robinson's Lost In Space

We were walking home from school.

Tori Hanson: So what homework do you guys have?

Me: I have to do a Quantum Physics Test. This is one of my biggest weaknesses. Learning all about Quantum Mechanics really hurts my head. This is more Lisa's strong suit.

Lori: I know. That is literally equal to doing trig homework.

Qin: That stuff is really hard for me.

Blake Bradley: Yeah that stuff is way too hard even for me. I may be smart myself, but not that smart.

Me: I agree Blake. By the way Blake I just thought of something.

Blake Bradley: What is it?

Me: I noticed that you share the name of an actor who plays a character from Lucy's favorite show: Vampires of Melancholia.

Blake Bradley: Really? Who is he?

Lori: He's literally you. His real name is Blake Bradley.

Blake Bradley: That is very coincidental.

Me: Very coincidental.

Laney: I'll say. Me and Lucy and the Goths of Darkness watch Vampires of Melancholia and it's amazing.

Me: That's what I heard. Carol, Lori and Leni got into the craze also because of your double, Blake. We'll show you when we get back.

Blake Bradley: Can't wait.

?: Hello Tori.

Out of some bushes came a man that was from Mexico, had black hair, brown eyes, and he was wearing a prison jumpsuit.

Tori Hanson: Carl!? What are you doing here!?

Carl: I came back to see you.

Me: You know this guy Tori?

Tori Hanson: Unfortunately yes. His name is Carl Rodriguez. He's from Mexico and he's my ex-boyfriend.

Nico: Whoa this guy looks bad.

Me: No kidding.

Nico: So what's his story Tori?

Tori Hanson: I'll give it to you.

Tori hands me a wanted flyer and what I read was horrifying.

Me: "Wanted by the FBI. Carlitos Jose Rodriguez. A.K.A. The Border Slasher. Convicted of the murders of 30 people in 4 states and the rapes of 75 people over the course of 17 years. Escaped from prison in 2017 while awaiting trial for his crimes and is believed to be heading towards the Canadian Border. Believed to be armed and extremely dangerous." (GASP) I remember this guy!

Tori Hanson: You do J.D.?

Me: Yeah! I'm the one that busted him!

Lincoln: I can't believe this guy is that dangerous!

Tori Hanson: Not only that but he cheated on me!

We gasped.

Nico: This guy has failed this country!

Me: And this planet.

Blake: (pissed off) Shane, you better get Edzilla and Hulk to hold me back. Because they're probably the only ones who can stop me from tearing Carl apart!

Me: He's all yours Blake. But we need him alive so he can face trial for his crimes.

Blake: I'll make no promises.

Me: This fucked up pervert killer deserves it.

He took off like a rocket on fire and began mercilessly pulverizing him

Maria: (winces as she hears Carl's screams of pain) What do you guys want to do while waiting for this to finish?

Kingdom Hearts Terra: Lets get some ice cream.

Maria: Good idea.

We went to get some ice cream.

We got different flavors of ice cream.

Kingdom Hearts Terra: Should one of us go check to see if Blake's finished beating Carl up?

Rumble: I'll go check.

Hound: I'll go with him.

Rumble went and checked and he and Hound saw that Blake Bradley had destroyed him. Carl was mercilessly pulverized into pulp and he looked like he had lost to an army of crazed superheroes. (Think of how Jimmy mercilessly pulverized Edd in A Fistful Of Ed.)

Rumble: Dude, you did a number on that jerk!

Hound: Holy crap! No kidding.

Rumble: Guys, Blake is done.

Me: We'll be right over.

We came and we saw how bad Carl was thrashed.

Me: Whoa!

Nico: Holy shit! Carl had all of the shit kicked out of him.

Lincoln: No kidding.

Lori: Even I am literally not that brutal.

Nico: But he deserves it.

Hound: I'm sorry, Tori. You didn't deserve to get cheated on.

Tori Hanson: I appreciate it Hound.

Carl was taken to the hospital and was placed back in prison. He was convicted of his crimes and sentenced to death. He was executed the following morning.

---

Later we were back at the estate and we were watching Vampires Of Melancholia and Blake saw his body and name double.

Brittney: Blake plays Edwin's great, great, great, great, great grandnephew Tristan and he is quite a strong guy. Now he's a vampire.

Blake: That is so cool.

Carol: Blake Bradley on V.O.M. is so amazing.

Vince: As long as it's on TV and not in real life.

Carol: True.

Lori: It's all so cool.

---

Later it was movie night and we were watching one of my favorite Science-Fiction movies: Lost In Space. We were watching the one from 1997.

---

In 2058, 39 years into the future, Earth will be rendered uninhabitable within twenty years due to the irreversible effects of pollution and ozone depletion. In an effort to save humanity, the United Global Space Force (UGSF) elects to send Professor John Robinson and his family-wife Maureen, daughters Judy and Penny, and young prodigy son Will-on a mission on the spaceship, the Jupiter II to complete the construction of a hypergate that warp over to the distant planet of Alpha Prime, allowing for the population of Earth to be instantly transported to and populate it as a new home. Penny is resistant to leaving, rebelling by breaking curfew, while Will's prize-winning science experiment involving time travel goes largely unnoticed by John. The Global Sedition, a mutant terrorist group against the mission, assassinates the Jupiter II's pilot, and hotshot fighter pilot Major Don West is instead recruited to fly their ship-much to his chagrin.

Dr. Zachary Smith, the family's physician, turns out to be a spy for the Sedition, who sabotages the ship's on-board robot before launch, but he is betrayed by his cohorts, and left unconscious as the ship launches and the family enters cryosleep. The robot activates soon after and begins to destroy the navigation and guidance systems, en route to destroying the family itself. Smith awakens the Robinsons and West, who manage to subdue the robot, but the ship is falling uncontrollably into the sun. Forced to use the experimental hyperdrive with an unplotted course, the ship is transported through hyperspace to a planet in a remote and uncharted part of the universe, where their known star charts are useless. Going through a strange distortion in space, the crew finds two abandoned ships in orbit, the Proteus, an Earth ship, and another ship that is clearly not of human origin. They board the Proteus, with Will controlling the now-modified robot by remote control to aid them. They find navigational data that can be used to get to Alpha Prime along with a camouflaging creature whom Penny calls "Blarp", and evidence suggesting the ship is from the future. They are attacked by spider-like creatures; in their escape, Smith is scratched by one, and the robot's body is damaged beyond repair, but Will saves its computerized intelligence. West destroys the vessel to eradicate the spiders, causing the ship to crash-land on the nearby planet, where a distortion like the one from before appears. Will theorizes they are distortions in time; in fact, they are his science experiment's predicted results. John, however, frustrates Will by ignoring his input. He and West head off to explore the time bubble, and encounter a future version of Will and a rebuilt robot he crafted with parts and the saved intelligence, who explains that some spiders had survived and attacked after his father and West had left them, and Maureen, Penny, and Judy were all killed. Constructing a time machine, Will intends to go back to Earth to prevent Jupiter II from launching.

Meanwhile, young Will and Smith head out on their own to investigate the time bubble. Smith tricks Will into handing over his weapon, but he is foiled by a future version of Smith, who had been protecting Will ever since the rest of the family was killed, and was transformed by an infection from the spider injury into a kind of anthropomorphic spider creature. Will and West return to the Jupiter II with an injured Smith and the robot in tow while the future Smith reveals his true actions: He had killed the Robinsons, but kept Will alive to build the time machine, so he could go back to Earth and populate it with a race of space spiders. John, remembering the spiders eat their wounded, rips open Smith's egg sac with a trophy Will had turned into a weapon, and while Smith's own army devours him, he is thrown into the time portal, which rips him apart. The increasing instability of the planet caused by the portal forces the Jupiter II to take off, but they are unable to reach escape velocity, and are destroyed by the planet's debris. Will realizes his father never actually abandoned them, and that he really does love him after all. Setting the time machine's controls to send John back to his family, he himself is unable to go along, with only enough power for one person. Saying goodbye to his family, the future Will is killed by falling debris, and John reunites with his living family. Realizing they do not have enough power to escape the planet's gravitational pull, John suggests they drive the ship down through the planet, and use the gravity well to slingshot them back into space. They are successful, but the planet turns into a black hole, and they once again activate the hyperdrive to escape. Using the navigational data from the Proteus to set a potential course for Alpha Prime, the ship blasts off into hyperspace.

---

When it was done, we cheered wildly.

Me: That was so awesome!

Laney: It sure was. But I can't believe that Dr. Smith was that determined to kill the Robinson's.

Lincoln: He was a monster. But it was cool how they blew up that whole ship in the end to destroy those spiders.

Leni: I did not like those spiders! They were totes scary!

Me: They were. But let me see here.

I look up the spiders on the computer in my big universal database that is also my Extraterrestrial Lifeforms Encyclopedia.

Me: Lets see here.

It found them.

Me: Here it is! They are called Nextektorm Spiders. They come from the dark planet Nextektorm XII. It's a dark planet located in the Cartwheel Galaxy, 500 million light-years away from Earth.

Lincoln: All the way out there?

Laney: Wow. That's a long ways from our galaxy.

Lisa: Indubitably. But still they are very fascinating and very interesting specimens.

Rumble: I never even knew creatures like these even existed in real life.

Me: No kidding. But there's so much more of the entire universe to explore. So there's endless possibilities out there.

Lana: And these spiders are ugly.

Me: They are. They are silicon-based lifeforms and they hunt with infrared vision and can breathe in the endless vacuum of space.

Nico: That's amazing!

Vince: I didn't think such creatures like that were out there.

Laney: No kidding.

Me: But all those people on Earth left to die in the next 59 years is not right! (Gets an idea) I know!

Nico: What do you have in mind J.D.?

Me: We're going to build an ark and a massive space colony for everyone on Earth in 2058 to call home.

Lily: That is perfect!

Lincoln: What will the colony look like?

Me: It's gonna be based off of the Warhammer 40K Craftworld ships.

I pulled up the blueprints for it and it was a massive ship that was over 2,000 kilometers long and it was over half of the length of the Moon.

Lola: Wow! With a ship that's over half the length of the moon!?

Lisa: That is scientifically possible. With the planets populations projected to rise to 10.1 billion people by the year 2058, it'll provide all of the necessary accommodations as a space colony as well as an evacuation ark for over 150.2 billion homo sapiens.

Me: That's right Lisa.

Sideshow Bob: They say that in space, no one can hear you scream. I wonder if Smith's screams will be any different.

Me: We'll find out later. Lets get to work on it!

We cheered.

We worked a long time and got it done all the way up in space. It took a while. But we finished it really fast. It was amazing! We had completed an awesome ark and colony! We were inside and it was breathtaking. It was a ship that was over 1,200 miles long and it was a massive ship that was as big as half the size of the continental United States.

Laney: It's amazing!

Lola: Wow! What a ship!

Nico: It's incredible! Just like in the games I played.

Hunter: (German Accent) Ja. You did a great job J.D.

Me: Thanks guys. Lets head into the future of Lost In Space!

We also attached the U.S.S. Valor to it. We upgraded the whole ship and we called it the U.S.S. Valorous Phoenix. We went through a portal into the Lost In Space Universe.

---

We were flying towards the Earth in an Alternate Time in the year 2058.

Me: Captain's Log, Stardate 2762.3: We are now flying our newest massive Ark Space Colony called the U.S.S. Valorous Phoenix and it's the biggest starship we have ever created. Over half the size of the Moon, we were on our way to save the people of Earth from extinction. We are over in the year 2058 and our missions are to save the Robinson Family, destroy the Global Sedition and save the people of Earth in this time.

Lincoln: This is so cool!

Laney: Amazing!

Nikiya: It sure is amazing seeing this ship fly. It's like we have the whole moon as our ship now.

Me: It sure does feel that way doesn't it?

Lisa: Indeed.

Lana: This is so amazing!

Lola: It sure is!

Lincoln: Yeah!

Lucy Loud: This is an amazing starship. I could get used to this.

Me: It's like we have half a planet now as our ship.

Lisa: Captain, the Jupiter 2 is Spiraling out of control into the Sun.

We gasped.

Me: On screen!

The viewscreen turned on and a massive blinding light shined in it.

Me: Whoa! It's too bright!

Lisa: Activating Ultraviolet shade system.

She pressed a button and the screen blocked the bright light of the sun.

Me: That's better.

We saw the Jupiter 2 about to go into the sun!

Laney: Captain, the ship is showing a massive rise in tachyon energy!

Me: It's about to activate its F.T.L. engine.

Lincoln: F.T.L.?

Me: It means Faster Than Light.

Then we saw the ship go through the Sun at incredible speed in the blink of a cosmic eye!

Me: Whoa!

Nico: Holy Shit!

Vince: That was fast!

Lola: Where did they go?

Me: Lets find out.

We looked it up on a holographic map of the galaxy and we looked it up from our current position. We saw that the Jupiter 2 was located far from us. It was located 79,000 light-years away from our position.

Me: It's located 79,000 light-years from here.

Lincoln: We need to follow it.

Me: Agreed. Our ship can go into any location with a hyperdrive that has no need for a jump gate. Lets do it.

I pressed a button and out came a holder with two key cards. I hand one to Nico and he placed he placed it into a key slot.

Me: Ready Nico?

Nico: Ready.

Me: 3… 2… 1… Initiate!

We turned both keys at the same time and our hyperdrive was online. We targeted the Jupiter 2's location. We went into hyperspace and we were traveling Faster Than Light at 600,000 miles per second. It was so cool!

Within less than 10 seconds we were at the location of the Jupiter 2.

Aqua: Whoa! That was amazing!

Sora: I've handled warp speed before.

Nico: What's the difference with our Faster Than Light travel and the Jupiter 2's?

Me: Well according to the laws of physics, no object can travel faster than the speed of light. Light travels at 186,000 miles per second or 669,600,000 miles per hour. In order for the Jupiter 2 to travel faster than light, it would have to stop time completely. It's a transwarp jump drive.

Lisa: That is all correct 2nd Elder Brother.

Laney: That is amazing.

Lola: It sure is.

Lynn: I never knew that all this was so complicated.

Me: It is.

Lisa: We have arrived at the site of the Jupiter 2.

Me: On screen.

We saw on the view screen where the Jupiter 2 is and we saw it enter a strange space hole. Orbiting above the planet was a strange ship of some kind.

Me: Whoa look at that.

Lisa: That looks like some kind of portal.

Me: Lets see. Sensors show that it's a temporal rift. Scans show that it's set 20 years from this time.

Lincoln: So in the year 2078.

Me: Exactly. Lets go see.

We went into the temporal rift and we got close to both the ship and the Jupiter 2. We saw that it was a ship called the Proteus. It was built by the United Global Space Force.

Me: This is an amazing ship.

We scanned the ship and made blueprints for it.

Lincoln: Lets go in guys.

Me: Good idea. Initiating docking sequence.

We put the ship to the front of the bow and a tube came out and we went into the ship and we saw that it was a long ship.

Me: Wow.

Nico: This is an amazing ship.

Laney: Whoever built this ship had great inventive capabilities.

I looked on my scanners.

Me: Oxygen levels are normal and microbe scans are negative.

We went into the ship and it was a big one.

Ben: I'll go Wildmutt and see if I can find the Robinsons' scent.

Me: Good idea Ben. Go for it.

Ben turned into Wildmutt.

We saw that it was an amazing ship. The lights came on as we were walking.

Laney: Motion sensors are still on.

Nico: Yep.

Stewie: We should swipe some of Smith's tech. It could come in handy.

Me: Good thinking Stewie.

Then we heard what sounded like dripping.

Me: Is that dripping?

Lana: It sure is.

We saw blue blood dripping onto the floor and I wiped it and it was still fresh.

Me: It's still fresh.

Nico: Unusual blood.

We saw that it was dripping from the ceiling and we saw that it was dripping from a hole with a film covering it.

Me: Weird.

I scanned it with my Omnitrix and it was Nextektorm Spider DNA and it was weird.

Me: The Nextektorm spiders are on this ship.

Everyone gasped.

Me: We better stay alert.

We pressed on and we heard voices.

Nico: What is it?

Me: Shh. I hear voices.

The Robinson's heard us too.

Prof. Robinson: I hear voices.

We got up to a corner and I had an energy blast ready and we got out of the corner and we had our weapons and blasts ready and pointed at each other.

Me: Whoa! Professor Robinson.

Prof. Robinson: You scared us. We thought we were the only ones on this ship.

Me: Actually we came here looking for you. We came to rescue you. Sorry we should introduce ourselves. We're Team Loud Phoenix Storm.

Prof. Robinson: We heard so much about you. It's an honor.

Major West: You are all widely known all over the universe.

Judy Robinson: Your achievements are powerful.

We saw DR. ZACHARY SMITH!

---

Dr. Zachary Smith is the main villain of the 1998 sci-fi thriller movie Lost In Space.

He was portrayed by the Academy Award winning actor, Gary Oldman, who also portrayed Dracula in Bram Stoker's Dracula, Drexl Spivey in True Romance, Norman Stansfield in The Professional, Jean-Baptiste Emanuel Zorg in The Fifth Element, Ivan Korshunov in Air Force One, Ruber in Quest For Camelot, Mason Verger in Hannibal, Carnegie in The Book of Eli, General Grawl in Planet 51, Lord Shen in Kung Fu Panda 2, Dreyfus in Dawn of the Planet of the Apes and Vladislav Dukhovich in The Hitman's Bodyguard.

In the movie, he gets betrayed by his organization and is left on the ship he was sent to kill. Then he wakes the Robinsons up from their rest and the ship is unfree by the pulling of the sun. When they use the hyperdrive and get lost in the galaxy, they come across really old ships, which 1 of the ships has spiderlike creatures that cut and hurt Dr. Smith. Later Dr. Smith uses Will Robinson, hero and son of Professor John Robinson, to escape and then turns on him.

Dr. Smith almost kills Future Will Robinson, but is knocked unconscious by his future self, Spider Smith, who has become a mutated monster from the spider attack. Towards the end of the movie he is knocked unconscious again but this time by Major West and it's unknown what happens to Dr. Smith.

---

Me: We're also here to arrest him. (Points to Dr. Smith)

Major West: That's fine with me.

Prof. Robinson: It's good you all are here. We..

Me: We know. Before we arrest Smith, we have to explain why we're here.

We did so.

Major West: So this ship is from 20 years into the future.

Me: Yep. I don't know how that happened but somehow it did. Our ship is right outside. It's a massive ship. We'll talk later. Right now we have to arrest Smith.

We went after Smith and I punched him in the face and knocked him down.

Me: Dr. Zachary Smith, you are charged with Terroristic Activity, Treasonous Crimes and Sabotage.

I pulled out my S.P.D. morpher and put it into Judgement Mode. After a few seconds a red X lit up.

Me: Guilty!

I contained him into a Containment card.

I picked it up.

Dr. Smith: Let me out of here!

Jack Landors: (to Smith) You are so lucky you're being contained. For all the crap you did, you deserve a lot worse!

Me: He deserves death. But because he's human, he deserves to spend the rest of his miserable life in prison.

Will Robinson: That was amazing how you did that.

Me: Thanks Will.

Nico: Dr. Zachary Smith, you have failed this world.

Then we heard growling and we saw the holes in the walls moving.

Judy Robinson: I don't like the sound of that sound.

Me: It's the Nextektorm Spiders.

Maureen Robinson: John, everyone, Get the Hell Out of There!

Me: Here come the spiders.

We saw them. They were 6-legged spiders and they had razor sharp teeth! They roared ferociously at us!

Me: Nextektorm Spiders.

I fired an energy blast and blew one apart. They had blue blood!

They saw us through Infrared Vision and they came at us and we were heading back to the ship and blasting the spiders with our powers and blowing them all apart. But we also saw that the spiders were cannibalistic creatures. They eat their wounded!

Laney: Yuck!

Me: They eat their wounded.

Lola: Gross!

We blasted, burned and more. But they had superior numbers. They kept on coming!

Laney: There's too many of them!

Me: I know.

Lincoln fired lightning and electrocuted and fried them!

Hound: Lets blow them away with our teamwork! CYBER KEY POWER!

The Earth Cyber Planet Key went into his back and it enhanced his weapons 100-fold.

Kingdom Hearts Terra: Time for some pain! EARTH CYBER KEY POWER!

The Earth Cyber Planet Key went into his right arm device and it enhanced his keyblade powers 100-fold.

Hound and Kingdom Hearts Terra: SUPER MISSILE FIRESTORM!

Terra fired a bunch of blasts of fire and Hound fired numerous missiles and the blasts hit the spiders and blew them apart in fiery explosions.

Rumble: Time for some pain! CYBER KEY POWER!

The Decepticon Cyber Planet Key went into Rumble's back and it enhanced his thruster guns 100-fold.

Maria: Lets see how they like some water! ANIMATRON CYBER KEY POWER!

The Animatron Cyber Planet Key went into her right arm device and she turned into a water version of Tarantulus!

Rumble and Maria: MAELSTROM THRUSTER SPIDERSTOMP!

Maria went at the spiders with amazing speed and Rumble pushed her with his thrusters and they pulverized a bunch of spiders with the devastating force of a hundred megatsunamis!

Tarantulus: These spiders are no spiders! Tarantulus, TERRORIZE!

Tarantulus transformed and fired his machine gun spider legs at the spiders and blew them apart.

Nico: You Nextektorm Spiders have failed this universe!

Me: And they will be destroyed. Lets finish them for good!

Lisa: Affirmative! TECHNO NOVA PYRAMID!

Lisa formed a pyramid of pure energy with her powers and entombed numerous spiders into it and she crushed it and the spiders exploded with incredible power!

KRABBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOMM

Stewie: You spider bastards are going back to hell! MACHINE GUN FIRESTORM BURST!

Stewie fired a bunch of machine guns and blew a bunch of spiders apart!

Will Robinson: Lets finish them! JUPITER SUPERSTORM FLARE!

Will Robinson fired a powerful blast of solar plasma and burned the spiders all over. But there were still more spiders. We went back to our ships and we had the Jupiter 2 put into the dock of our ship.

Me: Okay. Now we got to destroy that ship. I hope this works.

I activated the Proteus's fusion drives and overloaded The whole engine and the whole ship exploded. We got out of there as the whole ship went up in a massive explosion.

KRABBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

We got away from the explosion just in time!

Me: That was a close one.

Nico: It sure was.

Stewie: You know J.D., you may be an awesome pilot, but you're a pretty cool cat. (Gives Thumbs Up to the viewers)

Choir: STEWIE JUST SAID THAT!

Stewie: (To the Viewers) Take it home with ya!

We laughed.

We got to Earth and we got all the people on board the ship and we also built a cool ring around the ship that had all of the Earth's landscapes. (Halo Ringworld) We got everyone on Earth off the

planet.

When we got back, Nico Caught a Mimyu and a Bruxish. It was a daring rescue in the future.

---

In the Simulator, I was doing a daring exercise. The Simulator activated and I saw the Planet Vegeta.

Me: So this is the Planet Vegeta, the home of the Saiyan Race. I can't believe that the Saiyan's were that feared all over the galaxy. It's hard to imagine that they caused all that pain and suffering.

I saw Frieza's ship above the planet. I had my energy suppressed so that I wouldn't be detected.

Me: There's Frieza's ship.

I also saw a huge number of Saiyan's ready to face him!

Me: Whoa. Look at all the Saiyan's. So this is what happened when Frieza destroyed the entire planet. If I can save Goku's mom and Nico's mom, then maybe they can have some family back.

I saw him form a huge energy ball as big as a huge moon.

Me: I got to hurry!

I flew down to the planet and I had to move fast! I saw Goku's mother, Gine working on something and the Energy Ball was coming fast. I grabbed her and I saw Nico's mother, Hikana working at home and I grabbed her and we got away from the planet just as the energy ball hit and obliterated the whole planet.

Me: That was a close one. Are you two okay?

Gine: Yes. We are thanks to you.

Hikana: That was too close for comfort. Who are you?

Me: I'm J.D. Knudson, leader of Team Loud Phoenix Storm. Gine, I'm also the student of your son Kakarot.

Gine gasped.

Gine: Kakarot is all right?

Me: He is. But everyone calls him Goku now. And Hikana, your son Bokrua is all right too. He now is called Nico.

Hikana: I'm so happy.

Gine: Where are they?

Me: They're on the planet Earth in the dimension I came from. I have a lot of explaining to do.

I told them everything.

Gine: Thank goodness.

Hikana: I'm so proud of my son.

Me: You both would be proud of them.

We went back home and Goku met his mother for the first time in his whole life.

Goku: Mother?

Gine: Kakarot? Oh Kakarot!

They hugged.

Goku: Mother, I'm so happy to finally meet you.

Gine: My little boy.

Hikana: Are you Bokrua?

Nico: I sure am mother. Everyone calls me Nico. (Tears stream down his face) It's nice to finally meet you.

Hikana: My boy!

They hugged for the first time. It was a happy reunion.

Meanwhile at the Order of The Claw Dojo, 5 people were getting ready for action and were getting ready to join us. Those 5 People were The Jungle Fury Power Rangers.

Casey Rhodes: It will be an honor to meet Team Loud Phoenix Storm.

Theo Martin: Yeah I can't wait to see how awesome they are.

Lily Chillman: Yeah. First lets go have Eddy come down to help us at R.J.'s Pizza Shop.

R.J.: Good idea.

Dominic: Yeah lets do it.

Jungle Fury Rangers: JUNGLE BEAST, SPIRIT UNLEASHED!

In a flash of light they transformed.

THE END

---

Another Fanfiction complete and another villain from the future brought to justice.

The movie Lost In Space from 1997 was an awesome movie! NicoChan11 gave me the ideas for this one. Thanks man. I got the idea for the final part from the opening scene of the new Broly Movie from 2018. That was sad how Goku went to Earth alone. Let me know what you all think.

See you all next time.

# The Voracious Ravenous Blob

At the estate, Eddy was heading out and going somewhere very special. Edd was noticing some very strange behavior in him and called everyone into our briefing room.

Double D: Gentlemen. And ladies. I believe you're all wondering why I've set up this meeting today.

Ed: Is someone getting married?

Double D: No, Ed. The topic of this meeting is to discuss Eddy's strange behavior.

Luna: Dude, how exactly is he acting strange?

Double D: Well, he's been sneaking off every morning for the last few days. And while doing so, he's brought one of our teleporters with him.

Spiderman: You don't think he's defected to the Legion of Doom, do you?

Luan: Of course not! Eddy would never do that!

Tara: How do we find out what Eddy's been up to?

Double D: The next time he decides to wander off, we follow him.

They agreed. The following day they tailed Eddy. They followed him while hiding in the shadows. They found him going into a restaurant. But this restaurant was special. Eddy went into the Jungle Karma Pizza Shop and it was the restaurant where the Jungle Fury Power Rangers worked at. They were Casey Rhodes - the Red Gorilla/ Tiger Rangers, Theo Martin - the Blue Jaguar/Antelope Ranger, Lily Chilman - the Yellow Cheetah/Penguin Ranger, Robert "R.J." James - the Purple Wolf Ranger, Dominic "Dom" Hargen - the White Rhino Ranger and also with them were Jarrod and Camille - former Dai Shi members.

Eddy: Hey guys!

Jarrod: Eddy!

Camille: What's happening man?

Eddy: Not much guys.

Luna and everyone came in!

Luna: Busted!

Thumpback (Nautical Accent): Hey there, Eddy!

Eddy: Guys? What are you doing here?

Tara: I think you already know.

Eddy: Look, I can explain-

Spiderman: Explain that you've been lying to us? You've been sneaking out on us. And you've been taking one of our teleporters with you. You've joined up with the Legion of Doom!

Eddy: What? Of course not!

Ed: (sees who's in the room with them) Guys, I don't think these are Legion of Doom members.

Jungle Fury Jarrod: Actually, I sort of understand why you thought we were Legion of Doom members.

Double D: (recognizes them) Oh dear. It seems we've made a miscalculation.

Bluestreak: Eddy, I'm really sorry that we-

Eddy: It's ok, guys. I know you were just looking out for me.

Luna: Wait a sec. I know you guys! You're the Jungle Fury Power Rangers dudes!

Camille: That's right Luna.

Jarrod: It's a pleasure to meet you.

Me: Hey guys what's going… (Sees the Jungle Fury Rangers) No way! The Jungle Fury Power Rangers!

Casey Rhodes: J.D. Knudson, It's an honor to meet you.

Lily C.: Same here. We heard so much about all of you.

Me: (Kung Fu Bow) It's an honor to meet you all as well. We watched you all on TV all the time.

Casey Rhodes: (Kung Fu Bow) I'm glad we have some fans.

Me: We love the Power Rangers. We have a bunch of the Power Ranger Teams now on Team Loud Phoenix Storm. We met the original Power Rangers, Space Rangers, Lost Galaxy, Lightspeed Rescue, Time Force, Wild Force, Ninja Storm, Dino Thunder, S.P.D., Mystic Force, Operation Overdrive and now you guys.

R.J.: So you've encountered many other rangers.

Me: We sure have. Power Rangers has evolved a lot over the course of 26 years.

Eddy: Is that how long Power Rangers has been on?

Me: Yep. Since 1993.

Luan: That's amazing.

Fuzzy was eating some of their pizza.

Fuzzy: This here pizza is yummy!

Me: Jungle Karma makes really good pizza. You guys are awesome pizza chefs as well as awesome rangers that can kick some butt.

Jarrod: We get around.

Eddy: But weren't Jarrod and Camille bad guys?

Me: They were. But they switched sides when they discovered Dai

Shi's true colors and how evil he really was.

Luna: That's amazing dudes!

Bluestreak: I'll say. That's awesome.

Lily C.: Thanks. We would be more than happy to show you how we make good pizza.

Me: That would be awesome!

---

Back at the estate, the Jungle Fury Rangers were showing us how they make awesome pizza. Lola was helping them and she learned how to make awesome pizza during the events of Read Aloud and she is learning how to be an awesome pizza chef. Lola was making pizzas well. It was a great job for her.

Me: Wow! Look at them cook that pizza.

Nico: I'll say. This is so amazing!

Lynn Sr.: Hot dog! Look at them cook!

They made all kinds of awesome pizza!

We were eating it.

Fuzzy: This here pizza is yummy!

Me: You already said that Fuzzy. But yeah it sure is awesome!

Fu: Yummy. I have never had pizza this delicious.

Eddy: I'll say.

Luan: It sure is a Cheesy Slice of Heaven! (Laughs) Get it?

Most of us laughed and everyone else groaned.

Me: (Laughs) That was a good one Luan!

Eddy: (Laughs) Good one!

Laney: Okay that one was funny.

Nico: I have a strong feeling that we'll meet the R.P.M. Power Rangers next.

Me: Me too Nico.

Gine and Hiyana ate a lot of bowls of Ramen and they were good.

Naruto: Wow! That's a lot of ramen! Even for me.

Gine: Sorry Naruto. We Saiyans eat a lot of food.

Naruto: We know. It's a lot of food.

Me: So Gine are you fully caught up with Master Goku?

Gine: I sure am. I missed out on so much with my son. I'm glad that I'm reunited with him.

Hiyana: I'm glad that I'm reunited with Bokrua.

Nico: Me too mom. I have two moms now.

Me: I know. It's so cool. We faced some of the most incredible foes and they pushed us all to the brink and we triumphed.

Lincoln: It was awesome.

Nico: Yep. Casey can I tell you something?

Casey Rhodes: Sure Nico. What is it?

Nico: (to Casey Rhodes) There's a good chance that some of your enemies might come back. When they do, we'll have to kill them. But once we do that, I think I can use their Animal Spirits as zords.

Casey Rhodes: You can do that?

G1 Ravage: Of course he can. Nico can use the powers and abilities of any villain that's been defeated. And besides, from what you've told us, all Animal Spirits can be used as Zords.

Me: That's right.

Isabelle: I'm known as the Shaman of the family. I have this amazing power that enables me to tell anyone what spirit animal they have. My spirit animal is the Wolf.

R.J.: That's amazing. My Spirit Animal is the wolf too. How did you know about your spirit animal being the wolf?

Isabelle: Like I said. I'm the shaman of the family. Let me tell you my story.

Isabelle lifted up her shirt and we saw her scar that went up from her lower back all the way up to her neck.

Qin: Whoa! That is a nasty scar. How did you get that Isabelle?

Isabelle: When I was 13, I had a nasty incurable bacterial infection that was destroying my whole spinal column.

Me: Yeah, that still makes me cringe seeing that.

Isabelle: I know. Doctors diagnosed me with an extremely rare bacterial infection called Gangrenous Necrotizing Osteomyelitis.

Nico: Oooh! That must've really hurt!

Isabelle: "Hurt" is an understatement Nico. It's a nasty bacterial infection that destroys the whole spinal column and if left unchecked, it will kill you. When the doctors found out about this, they had no choice but to replace my whole spinal column. It was one of the most painful operations I've ever had on me. It felt like someone was ripping my organs out. They replaced my whole spine with a cybernetically enhanced artificial spinal column. Here's a picture of what my spine looked like when they removed it.

Isabelle showed them a picture of her spine and it was gross! It was all black, rotten and gangrenous.

Qin: Oh that is disgusting!

Nico: No kidding! Yuck!

Isabelle: No kidding. But when it was done, I was recovering and that's when I got my powers. I saw the animals of the Spirit Totems and they were amazing and when I woke up, I had this ring on my finger. It's my spirit animal ring.

Laney: It's true guys. Isabelle is an awesome shaman. She found out a lot of things about our spirit animals. Mine is the Deer.

Laney showed her spirit animal ring.

Qin: That is a cool ring.

Nico: It sure is. I saw those rings and they are amazing.

Qin: I can tell. Isabelle, what is my spirit animal?

Isabelle: Yours is the Komodo Dragon. They represent strength and overwhelming power in the face of adversity.

Qin: Wow!

Isabelle them blew some glowing blue dust and Qin had a beautiful ring with a green gem that had the Komodo Dragon in it.

Qin: Wow! What a ring. And I was gene-slammed with Komodo Dragon DNA. So that makes me technically one with my Spirit Animal.

Isabelle: That's true Qin.

---

Later me and Nico were looking through his Goosebumps Books.

Me: Hmm.

Nico: How about this one? Stay Out of The Basement?

Me: That was a creepy one. Lets save that one for later.

Nico: All right.

Me: Hmm. (Sees a book) Ooh! How about this one? The Blob That Ate Everyone.

Nico: That was a weird one. Lets do it.

Me: Okay. The Blob That Ate Everyone it is.

Maria: That pink Blob looks like purple and pink slime with eyes and a tongue.

Me: Yeah but the one on TV I saw looked like a living mass of throw up.

Lily: I remember and it actually looked like The Appetizer.

Me: The Appetizer?

Lily: I'll show you.

Lily put the TV Version of The Blob That Ate Everyone onto the computer and she put the Appetizer on another screen and we saw two gross vomit-fucking piles of slop!

Nico: Oh yuck!

Me: They sure as hell do look similar. But one looks like it's made of mystery meat and a bunch of things you would find in a sewer. Who made the appetizer?

Lily: That was Mr. Krabs. Before I started working at the Krusty Krab, Squidward was running the restaurant to try and impress Squilliam Fancyson. He wanted to impress him by having the Krusty Krab turned into a high class 5-Star Restaurant. Mr. SquarePants was the waiter, Patrick was the Hat Check guy and Mr. Krabs was the chef.

Me: Wow. That probably didn't work out well.

Lily: No it didn't. Patrick mistook a hat stand for someone wearing a hat and he beat it up. Mr. Krabs was a terrible chef. Squidward thought he worked on a ship called the S.S. Gourmet, but instead he cleaned the bathrooms on it. He was actually the head chef on a run down junky sewage-filled ship called the S.S. Diarrhea. He makes terrible food. Food that would send health inspectors running to the hills. SpongeBob was given a book called "How To Become a Fancy Waiter in Less Than 20 Minutes" and he had to memorize the whole thing in that timeframe. But it made his brain go full to bursting. If he memorized a single order he would exploded like a bomb. He would snap.

Me: Boy the stress must've really gotten to them.

Lily: It did. So Squidward told Mr. SquarePants to empty his mind and clear it out of everything that doesn't have to do with fine dining. And when Squilliam arrived he saw the whole restaurant changed and SpongeBob served the whole group really awesome food. But things went south big time after Squilliam asked for his name. He couldn't remember and SpongeBob went bonkers and destroyed everything and in the end Squidward was exposed and he had failed in his chance.

Nico: That stinks. But Squilliam is a nice guy.

Me: I know. Squidward is the biggest loser of them all. But lets focus on the matter now. We have to go after the blob.

Lincoln: Lets do it!

We were off to San Diego, California.

---

## SAN DIEGO, CALIFORNIA

---

We arrived in a forested suburb of San Diego, California.

Me: Here we are. San Diego, California.

Sam (TS): It sure is amazing.

Clover: And you can see the smoke of the new volcano in Los Angeles from here.

Clover was right. We saw the smoke from Mount Wilshire in Los Angeles.

Me: Yep. We can see Mount Wilshire from here all right. It's hard to imagine. The La Brea Tar Pits, the most famous and most perfectly preserved tar pits in North America is now an active volcano right in the middle of the third most populated city in the country.

Suddenly we saw numerous people running for their lives!

Me: Whoa!

Nico: Looks like we got here just in time.

Me: Yep.

We went to the front of the crowd running.

Me: Wait! What's going on here?

Man: There's a monster eating everyone! Run for your lives!

Me: The Blob. Get out of here fast sir.

They ran fast.

Me: I have an idea.

The Blob was crawling around city and it was looking for people to eat.

The Blob heard a Phoenix Cry. Thinking that it was us, it slithered towards the location that it heard it from.

Horsea: (we're hiding in the bushes) We've gotta get Zackie out of there while the Blob's distracted.

Maria: We will. But after we destroy the blob.

With us was Zackie Beauchamp and Alex Iarocci.

William (to Zackie): It's only a matter of time before that Blob finds the recording of our Phoenix Battle cry. We need to find somewhere safe so we can make a plan.

Zackie: Don't you normally just attack bad guys head on?

William: Well, despite what other villains think, we're not brutes.

Me: Quiet. Here it comes.

We saw the blob coming. It was a hideous freak of nature and it was so ugly in real life than on the computer or on the cover of the book.

Me: That blob is ugly and hideous.

Laney: Oh yuck!

Theo Martin: (sees the Blob) I can't believe I'm saying this but I'm starting to miss Gacko and Rantipede now!

Zackie: Lets get it.

We went to face it.

I punched it in its face and my hand went all the way through it!

Me: Oh yuck! Physical attacks don't work!

Lana: Lets see if our powers will work.

We backed away and we fired blasts of fire, lightning, ice and more at it. It roared in excruciating pain.

Me: That did it!

Nico: This blob has failed this world!

Thumpback slammed his anchor into the blob and spun it around in a massive whirlpool.

Lincoln fired a massive blast of lightning and electrocuted it and Earth fired a powerful glob of lava and burned it.

Laney fired barbs made of plants and they went into the blob and poisoned it.

Casey Rhodes: Jungle Chucks!

He channeled the spirit of the Tiger and fired powerful blades of of fire and they slammed into the Blob and burned it all over in massive fiery explosions.

Sakura Avalon: Lets burn this freak!

Sakura fired a powerful blast of fire with the power of the Firey Card and burned it.

R.J.: Time to burn! WOLF MORPHER BEAM BLAST!

R.J. fired a powerful blast of purple fire and it hit the blob and exploded!

KRABBBBOOOOOOOOOOOOOOOOOOOOMMM!

Me: Casey, lets see what your Jungle Master Mode can do on the blob. Ready?

Casey Rhodes: You know I am J.D.! JUNGLE MASTER MODE!

He pressed a button on his claw and the claws extended out and his suit was so cool!

Me: Wow! So awesome!

Casey Rhodes: Thanks.

Me: Time to unleash my power. LIGHTS OF ORION ACTIVATE!

I activated the Lights of Orion and I got an awesome Belt Buckle, Armband, Armclaw and my Quasar Saber got a really cool cross guard.

Me: Lets do it! POWER UP MODE!

I turned into a ball of purple energy and Casey Rhodes went fast!

Me and Casey Rhodes: STARBURST OF THE WESTS WHITE TIGER!

We turned into a powerful ball of white energy as the spirit of Byakko the White Tiger of the West appeared in the background and we went right through the Blob and it bursted into flames as a massive explosion! It was burning and roaring in pain!

We reappeared.

Me: Wow! That was awesome!

Casey Rhodes: It sure was J.D. That was cool! You learned so much from our shows.

Me: We're huge fans Casey. Lets finish this blob! Time for some teamwork!

G1 Ravage: You got it boss! CYBER KEY POWER!

The Animatron Cyber Planet Key went into his back and his claws glowed with a powerful amount of energy.

Fuzzy: Lets hogtie this freak! ANIMATRON CYBER KEY POWER!

The Animatron Cyber Planet Key went into his right arm device and it enhanced his strength 100-fold and he was in his enraged Lumpkins mode!

G1 Ravage and Fuzzy: ENRAGED PANTHER LUMPKINS SLASHSTORM!

G1 Ravage and Fuzzy mercilessly slashed the blob all over the place!

Bluestreak: Lets get him! CYBER KEY POWER!

The Earth Cyber Planet Key went into his back and it enhanced his beam rifle 100-fold.

Thumpback: Time to Hail To the Whale! ANIMATRON CYBER KEY POWER!

The Animatron Cyber Planet Key went into his right arm device and it enhanced his powers 100-fold.

Bluestreak and Thumpback: LASERSHOWER WHIRLPOOL DEATHPOOL!

Thumpback formed a whirlpool under the blob and Bluestreak fired a bunch of lasers at the whirlpool and the lasers blasted the blob from underneath it.

Me: Time to finish this monster!

Linka: Lets get it! LIGHTNING THUNDERBALL BURST!

Linka fired a massive ball of lightning and it hit the Blob with incredible power and exploded with a lot of voltage. Electrocuting it.

Zackie: You are the worst fucking creation I ever made! SATURN LIGHTNING INCINERATION!

Zackie fired a massive blast of Saturnian Lightning and it hit the Blob and it incinerated it into nothing!

Me: That blob is toast!

Linka Loud: Nicole, you should seal the Blob into the Book of Vile Darkness.

Nicole: Good idea. I haven't used it in a while.

Nicole pulled out the Book of Vile Darkness.

Nicole: This is for all your Cannibalistic ways! (Chants an incantation) ALDRUON ENLENTHRANEL VOSOLEN LIRUS-NOR!

The Blob was sucked into the Book of Vile Darkness for all eternity.

Me: That did it!

We cheered wildly.

Zackie: That was so awesome!

Me: You did great Zack! Well done!

Zackie: Thanks J.D.

Nico: And I caught a Dhelmise and a Drampa during the battle.

Me: Nice job Nico.

Hiyana: He sure is doing great.

Me: I know Hiyana.

Zackie: (To the viewers) You mess with Team Loud Phoenix Storm and they will mess with you.

Me: We sure will.

We later went back home and Zackie and Alex were inducted into the Goosebumps Monster Busters. Another Goosebumps Monster bites the dust. We destroyed the typewriter that made the Blob in the first place.

# The Legendary Ghostbusters

HAPPY 35TH ANNIVERSARY TO GHOSTBUSTERS!

---

In the early morning hours at 3:25 AM while everyone was fast asleep, Lincoln was having a horrible nightmare. He was tossing and turning in his sleep and he had cold sweat dripping down his face.

Natilee was watching TV and she sensed Lincoln having a nightmare!

Natilee: Uh oh!

Natilee rushed up to Lincoln's room and she turned on his lights. He was screaming and thrashing around.

Natilee: Lincoln! Lincoln! Wake up!

Lincoln: (BLOODCURDLING SCREAM!) Stay away from me!

Natilee: Lincoln are you all right!?

Lincoln: Natilee?

Natilee: You were having a nightmare. It's all over.

Lincoln: This one was scary! (Crying)

Natilee comforted him.

Natilee: It's all right Lincoln.

They head downstairs and sat on the sofa and Lincoln told us all about his dream. Lincoln had a nightmare that the Evil Carol escaped from prison and she came back to kill him and everyone he loves. We gasped in horrifying shock!

Me: Whoa man!

Lynn Sr.: Oh Lincoln, that must've been a horrible dream.

Lincoln: (Crying) It was dad!

Tailgate: Lincoln, relax. Evil Carol won't get to you now. If she tries to escape, she'll die in the vacuum of space.

Me: Tailgate is right Lincoln.

Natilee: I'm sorry this happened to you Lincoln. The Evil Carol was a monster that deserves to be locked up forever. But I tell you what. Later today, I'll take you and Lori to the Moon Prison so we can have you confront her. Is that all right?

Lincoln: (Sniffles) Sure Natilee.

Runabout: Lincoln, what made you have that nightmare about Evil Carol in the first place?

Lincoln: It's what happened when we found out about the evil Carol on the news.

Me: The video of her and her friends raping Lincoln. That news report was awful.

Qin: I remember that. That was terrible what she did.

Carol: That version of me gives all loving wives everywhere a really bad name.

Vince: You don't have to tell me twice.

Lynn Sr.: I'm glad you're getting better son.

Lincoln: Sorry I woke you all up.

Lola: It's okay Linky.

Lana: Yeah you were having a nightmare.

Lisa: It's all right elder brother.

Me: Lets try to get some more sleep.

Lori: Good idea.

Lincoln: Lori, can I sleep with you? I'm scared.

Lori: Oh Lincoln of course you can sleep with me.

Everyone: Aww.

Lincoln went into Lori's room and she sang him a lullaby. She sang Part of Your World from The Little Mermaid. Me, Rita and Lynn Sr. were watching.

Rita: (Sniffles) Oh that is so adorable.

Lynn Sr.: Just like when he was little.

Me: That is so adorable.

We went back to sleep.

---

Later in the morning, we were over in Peach Creek in Atlanta, Georgia.

Me: So we're back in Peach Creek.

Marie K.L.: Yep. I want to show you guys something.

We followed Marie and we arrived at an old abandoned house in a spooky forest on the outside of the cul-de-sac. It was a creepy house.

Me: Whoa! That is a creepy house.

Laney: Looks like no one has been in it for years.

Nico: It sure is creepy.

Zuko: So this is the haunted house you went to before?

Marie K.L.: Yep. Me and my former sisters used this house as a trap to lure the Ed's in.

Marie K.L. went over their plan in the events of Honor Thy Ed and it was a clever trap.

Me: Boy that is genius.

Iron Fist: (to Marie) I must admit. As evil as you and your sisters were back then, you three were really crafty.

Marie K.L.: I know. But I can't believe I was like that. I hate my former sisters!

Me: We hate them too.

Eddy: I wonder if the candy store here in Peach Creek is still open.

Me: I think it is. Lets check out the house and go get some jawbreakers.

We went up to the house and it was terrifying.

On the front door, we saw that the door lock was missing.

Me: The doorknob is missing. No worries.

I kicked the door down and we went in. It was a spooky house. It was loaded with furniture covered in sheets, cobwebs, spiders, dust, everything that would send chills down your spines.

Me: Boy this house is creepy.

Lana: No kidding.

Lucy Loud: I wouldn't mind living here. But it's the house down the street back home that has me curious.

Nico: That's right. That house is next door to mine.

Ed: This looks like the house from *I Was A Cotton Swab In Madame Tongue-Itch's Earwax Museum: The Mini-Series!*

Eddy: [in a spooky voice from behind a row of candles] "Double D! Let me poke your brain!" [He laughs evilly, and Edd faints.]

Luan: (Laughs) That was a good one Eddy.

Me: Yeah you really scared him.

Eddy: I remember that.

Nazz: (Giggles) That was funny Eddy.

Kevin: That was a good one pal.

We then heard some creaking and we heard voices coming from another room.

Me: Shh.

We went into another room and the voices were getting closer and we had our powers and weapons ready and they we turned a corner and we saw 4 men in uniforms and they had awesome high tech equipment.

Me: Whoa we didn't know anyone else was here.

Peter V.: Sorry about that.

Me: Wait a second. No way! It's the Ghostbusters!

Nico: (to the Ghostbusters) It's an honor to meet you guys! I've listened to your song 24/7 back when I was younger.

Peter V.: I'm glad we have some fans.

Me: Are you kidding? You guys are legends. For 35 years you've been a huge inspiration.

Lincoln: I love you guys!

Clyde: Me too!

Lori: It's literally so cool to meet you guys.

Peter V.: Same to you. I'm Peter Venkman.

Raymond: I'm Raymond Stantz.

Egon: I'm Egon Spengler.

Winston: And I'm Winston Zeddemore.

Me: It's an honor to meet you all. We're Team Loud Phoenix Storm.

Egon: It's an honor.

Winston: We saw all your achievements on TV. You're a powerful force.

Nico: We watched all of you on TV and you guys are awesome at fighting ghosts.

Peter V.: We've had a lot of experiences.

Me: We know. And it was so funny how you humiliated Walter Peck like that. He was a Dickless Son of A Bitch.

We laughed.

Peter V.: (Laughs) You got that right J.D.

Me: I have an even better name for him. Pencil Dickless Motherfucker.

We laughed hysterically.

Nico: (Laughing) That was so funny!

May: That was funny!

Lily: That was a good one!

Peter V. then saw Rita.

Venkman (to Rita): Hi there. Peter Venkman. A pleasure to meet you.

Me: Back off there lover boy. She's already spoken for.

Then Lincoln and Danny had a ghost sense and we heard an evil laugh fly by.

Ray Stanz: Great. One of our enemies is on the loose.

Maria: Which one is that? Slimer?

Winston: Right now, I'm wishing it was.

Me: Whoever it is that we're facing is really powerful. Lets work together and bring one of your enemies down. We dealt with a lot of ghosts before.

Venkman: You got it J.D. Lets do it.

We shook hands.

We went down into the basement of the haunted house and we saw the ghost! It took form and we saw that the ghost was really that of the most powerful and most feared evil sorceress that ever lived during the ancient Arthurian Legend: MORGAN LE FEY! (The Sorcerers Apprentice's Morgana Le Fey)

---

Morgana (who was once known as Morgan Pendragon) was a powerful witch and also the former apprentice of the legendary wizard named Merlin. After discovering her witchcraft abilities, Morgan asked Merlin to teach her magic and train her in the sacred arts of sorcery. As Merlin helped Morgan gain control over her powers, for years Merlin looked after Morgan with love and care, until she eventually betrayed him by practicing black magic.

Because Morgana believed that witches and wizards were more important than humans, she plotted to enslave the human race by casting a dark and powerful spell known as The Rising that would bend them to her will and have the resurrected conjurers conquering the Earth. She began the demonstration of her supremacy by savagely attacking mortals, including those that were allied with Merlin.

She succeeded in killing her mentor with the help of another traitor, a former Merlinean named Maxim Horvath. Her last words to Merlin, were "I am no one's servant.". Later she tried to kill Merlin's two apprentices Balthazar Blake and Veronica Gorloisen, Veronica sacrificed herself by absorbing Morgana's soul into her via the Fusion Spell and her lover Balthazar locked them both in the Grimhold.

---

We gasped in pure shock as we saw her!

Me: Oh fuck me sideways!

Lola: That's Morgan Le Fey!

Brittney: The most powerful and most feared evil sorceress that ever lived!

Morgan Le Fey: So you all know of me.

Me: In storybooks and movies and TV. You were widely known and feared all over the known world for over 1,500 years.

Brittney: And a lot of evil sorcerers have fallen because they followed in your evil footsteps of magic.

Laney: You terrorized all of Camelot.

Morgan Le Fey: That is correct. I'm impressed you all know of my reputation.

Nico: We read a lot of books about you.

Venkman: We're now going to seal you for good Morgan!

Morgan Le Fay: Don't expect Balthazar Blake and his apprentice to help you and your new friends out, Ghostbusters. My dear friend Maxim Horvarth is keeping them occupied. Making sure this conflict remains entirely between us.

Balthazar then appeared.

Balthazar: He has already been dealt with. And now you will be dealt with as well.

Veronica then appeared too.

Veronica: Hello Morgan.

Me: Balthazar and Veronica. It's truly an honor.

Balthazar: You too J.D.

Me: Lets dance Morgana!

I snapped my fingers and we were on a storm planet called Hurriran.

Planet Hurriran is a Super Earth Storm Planet located 12,500 light-years away from Earth. Hurriran is home to a bunch of creatures of legend. The greenish-blue blotch in the middle is a huge storm that's as big as Earth. The planet is as big as Neptune at 30,599 miles in diameter. The winds in the massive hurricane are at 350 miles per hour and the eye in the center of the storm is 50 miles in diameter and lightning strikes everywhere with 3 bolts per second.

Lola: Wow!

Lana: Where are we?

Me: This is the planet Hurriran.

Nico: It's a big ocean storm planet.

Me: Lets get this evil witch! Power Up!

(Zero Two Super Smash Bros. Brawl Theme plays.)

We transformed and powered up!

Oceanus Shenron had an Aqua Blue Aura and it had water swirling around her.

Brittney: Wow! That is awesome Oceanus.

Oceanus Shenron: Thanks Brittney.

We went at Morgan Le fey and I punched her in the face and she went flying and we flew into the air and Morgan fired powerful blasts of fire at us and I fired powerful fire energy blasts and they collided with all of them and exploded with incredible power.

KRABBBBBOOOOOOOOOOOOOOOOOOOOOOOOOMMMM!

Lincoln fired powerful blasts of lightning and they hit Morgan and he kicked her in the face and sent her flying.

Morgan fired powerful blasts of fire and Nico fired powerful energy blasts of pure fire and the blasts collided and exploded.

KRABBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOMMMM!

Me: Can't you come up with anything different!?

Morgan: I'm only getting started you fool!

Morgan fired a powerful blast of lightning and fire and I fired a powerful energy blast and the blasts collided and exploded with incredible power!

KRABBBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

The explosion was so powerful that it blew some of the water away in a massive tsunami.

I punched Morgan and she blocked it and she punched at me and I blocked it and we locked and clasped hands. Then we flared up our auras! Mine was made of pure fire and Morgan's was made of pure lightning! Our powers mixed and clashed and the whole planet shook violently and water spiraled up into the sky and lightning struck everywhere Lola fired a powerful blast of fire and it hit Morgan in her back and exploded and I dealt a powerful headbutt and knocked Morgan away and Nikiya kicked Morgan into the sky.

Oceanus Shenron: AIR SHATTERING ENERGY BALLS!

Oceanus fired numerous energy balls made of pure concentrated wind they hit Morgan and exploded with the power of a thousand hurricanes!

BOOOMM! BOOOM! BOOOOOOMMM! BOOOOOOOOMM! BOOOOMM! BOOOOM!

Lana fired a massive blast of ice lightning and froze her. But Morgana being a ghost broke out of it!

Lucy H.: You're not the only one that can use magic like this!

(Chants an Incantation) Survey the Heavens, Open the Heavens…

All the stars, far and wide…

Show me thy appearance…

With such shine.

Oh Tetrabiblos…

I am the ruler of the stars…

Aspect become complete…

Open thy malevolent gate.

Oh 88 Stars of the heaven…

Shine!

**Urano Metria!**

Lucy fired constellations as planets and they slammed into Morgan with devastating force and knocked her all over the place!

Me: Lets show this monster what happens when we work together!

Zuko: Got it J.D.! ANIMATRON CYBER KEY POWER!

The Animatron Cyber Planet Key went into Zuko's Right Arm device and it enhanced his Firebending Powers 10,000-fold.

Runabout: Lets get her! CYBER KEY POWER!

The Decepticon Cyber Planet Key went into his back and it enhanced his Particle Ray Rifle 10,000-fold.

Zuko and Runabout: PHOENIX STARBURST BLAST!

Zuko fired a massive blast of fire and Runabout fired his particle rifle and the blasts combined and turned into a powerful Phoenix and it slammed into Morgan and exploded.

KRABBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Tailgate: Lets get her! CYBER KEY POWER!

The Earth Cyber Planet Key went into his back and it enhanced his magnet 100-fold and it enabled him to fire it like a powerful laser.

Iron Fist: I will fight for honor. EARTH CYBER KEY POWER!

The Earth Cyber Planet Key went into Iron Fist's right arm and it enhanced his Chi Powers 100-fold.

Tailgate and Iron Fist: MAGNETIC DRAGON FIRESTORM!

Tailgate fired a massive magnetic blast and Iron Fist fired a massive blast of Chi Fire and it turned into a massive dragon and it slammed into Morgan and exploded!

KRABBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Me: Lets finish this monster off for good.

Nico: Morgan Le Fey, you have failed this universe!

Morgan: Soon you all will be my slaves and servants!

Me: For the record, we are nobody's servants!

Morgan Le Fey was shocked that she had her own words thrown right back at her into her face!

Lucy Loud: You will see what true fear is! BLACK LIGHTNING FEARSTORM!

Lucy fired a massive blast of black lightning and it hit Morgan and electrocuted her.

Lucy Heartfilia: Time for you to go back to Hell! CELESTIAL ZODIAC DEATHBURST!

Lucy Heartfilia fired a massive blast of magic energy and it took the shape of the symbols of the Celestial Zodiac and they slammed into Morgan and exploded.

KRABBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOMMM!

Venkman: Lets finish this! ATOMIC BEAM BURST!

Venkman fired his atomic proton pack and it hit Morgan and exploded.

KRABBBBOOOOOOOOOOOOOOOOOOOOOOOMMM!

Me: Ghostbusters, it's time for the grand finale! It's incredibly risky but lets cross the streams!

Venkman: Lets do it!

I fired a proton beam and so did Nico and the Ghostbusters and our powers enhanced the beams and we crossed the beams and it enhanced its power! They hit Morgan and then she exploded with unbelievable power!

KRABBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

The massive fiery explosion was so powerful and so devastating that it covered everything in the eye of the storm and set much of the entire ocean on fire! When the smoke cleared Morgan was knocked down.

Lucy Heartfilia: Egon, if you would do the honors and bust this ghost?

Egon: With pleasure.

He trapped Morgan in the ghost trap and it was so cool!

Me: That was awesome!

The area returned back to the haunted house.

Me: That was awesome!

Venkman: It was. But you guys are amazing at facing ghosts.

Me: We've dealt with a lot of ghosts. But not nearly as many ghosts as you guys.

Lincoln: This adventure beats A.R.G.G.H. by a long shot!

Clyde: It sure does Lincoln!

Venkman: (To the viewers) Ghosts beware, because Team Loud Phoenix Storm and The Ghostbusters are coming for you all!

Me: You said it Peter. It was so awesome working with the legendary Ghostbusters. But I have a feeling that we're gonna be helping you guys more often.

Venkman: We have that feeling too.

We shook hands.

We went to the candy store and got some jawbreakers.

Then we went to New York City city hall and we faced Walter Peck.

Me: Walter Peck I presume?

Walter Peck: That's right and if it isn't the lunatics.

Venkman: And if it isn't the Dickless Shithead.

Me: Or better yet, the Pencil dickless Motherfucker.

We laughed at him and then he snapped and went at me and he was going to kill me. I punched him in the face and knocked him down.

Walter Peck was arrested for abuse of power and corruption.

Walter Peck: I will kill you for this J.D.! I WILL FUCKING KILL YOU, YOU FUCKING SON OF A BITCH!

Me: 6 words Peck: GO FUCK YOURSELF PENCIL DICKLESS MOTHERFUCKER!

Peck was sentenced life in the Neptune Prison for Traitors without parole.

Nico: Walter Peck you have failed this whole city.

Me: And the whole planet. I'm gonna miss fucking him up.

Nico caught a Hakamo-o and Tapu Koko.

---

Later Natilee, Carol, Lori and Lincoln went to the Moon Prison to visit Evil Carol.

Natilee: The Evil Carol is in Solitary Confinement for her crimes.

Lincoln: Well okay.

They went up to her cell and there were 2 guards by the door. They were instructed to kill her should she try to escape. Her door was replaced with an indestructible window.

Natilee: Carol you better stay back. We don't want her to see you.

Carol: Good thinking.

Lincoln walked up to her cell and Lincoln saw her. Carol saw her.

Evil Carol: Linky! Have you come for me?

Lincoln: No. I came here to talk. I want to know. Why did you rape me all the time and used me as a sex toy?

Evil Carol: Because, I have always wanted a brother.

Lincoln: Your good counterpart does have a little brother. His name is Connor.

Evil Carol: I saw that. Let me tell you my story. Let me tell you the story of how I REALLY came to be. You see, Lincoln, my folks didn't pay much attention to me when I was younger… and there was a reason why. They were afraid… Afraid of their daughter's lust for having a brother. I always wanted a brother of my very own. Whether he be the same age or younger… I had interests in discovering what makes boys tick… For years, I've tried to make friends with some of the boys my age, but my parents found out it was just so I could have my way with them. When I was hitting my teen years at age 13, I started befriending boys who were younger than me. My parents were getting really concerned about my behavior. They tried everything to suppress my obsession, but nothing worked. And by the time I was 15, I was definitely laying into the younger boys. So, as a last resort, they sent me away to live with Aunt Connie, a distant relative that was cut off from the family inheritance. They thought she changed her ways after all those years… Now, this part of the story I made up actually happened, but there's a catch I didn't tell you guys about. While Aunt Connie really was the leader of an all-women gang, we teamed up to get payback on my parents. Together, we bumped them off, and I was left to take control of the family fortune. But after I heard about her milk maid scheme, I wanted to know more. After I used part of the fortune to buy another house to live in, I visited Aunt Connie's hideout to learn what kind of things she and her gang do to little boys. But of course… One day, Connie and her gang got nabbed by the cops after one of the new members turned out to be an undercover cop. After that, I used all the knowledge I got for little boys and what made them tick to my advantage. After spending time living the average teen girl lifestyle, and one-upping Lori at everything she did… I came across you Lil' Linky, You were the one thing I could use to beat Lori and indulge in my personal interests. So, I took you and had all kinds of fun with you, along with my new friends. I'm sure you know some of them.

Lincoln: So you turned all of our friends against us!

Carol: That is absolutely sick evil me.

Lori: Literally sick.

Guard 1: Boy this girl has some serious problems.

Natilee: No kidding.

Carol: I am now happily married to an amazing husband and have 3 awesome daughters, but you give me a really bad name! You brought all that on yourself.

Natilee: Yep.

Lincoln: You can't hurt me anymore you witch! I'm stronger than you now!

Natilee: Well said buddy.

They left.

Natilee: So how do you feel Lincoln?

Lincoln: Much better.

Carol: I'm glad Lincoln.

It was a great adventure for all of us.

Another Fanfiction Complete and Part 1 of the 13 Days of Horror Complete.

Ghostbusters was a great movie! Today is the 35th Anniversary of when Ghostbusters was created and it was awesome! It was a great series! Walter Peck was a monster and a freak of nature. NicoChan11 gave me the ideas for this one. Thanks man. Part 2 is next and that one is gonna be for the 1982 movie The Thing! Let me know what you all think.

See you all next time.

# Nightmare Of The Thing

In the early morning hours, at 2:35 AM, Kate Lloyd was in her room and she was having a really bad nightmare. She was having a nightmare about what happened to her down in Antarctica at Thule Station and she was seeing what she went through with the horror of the shapeshifting monster called The Thing! She saw her friends at Thule Station turn into horrible grotesque monstrosities. Then one of them attacked and the dream broke! She woke up and gasped! It was now 8:00 AM.

Natilee and everyone came in.

Natilee: Kate are you all right?

Kate L.: Really bad dream.

Maria: First, Lincoln. And now, you? Is everyone getting nightmares now?

Natilee: Maria, now's not the time. Kate were you having nightmares about The Thing again?

Kate L.: Yeah. I was.

Lori: That monster was terrifying.

Natilee: You can tell us about it at breakfast.

Kate L.: Okay.

We went to breakfast.

We were having pancakes and eggs. Kate told us her dream.

Me: Whoa! Kate that's terrible!

Alicia: That is almost like what we went through with the Necromorphs.

Me: This is a whole new different ballgame Alicia. The Thing is a whole new different matter.

Thing: You guys aren't talking about me are you?

Me: No Ben, this is a different kind of Thing. It's a Shapeshifting Alien monster that imitates lifeforms perfectly. Kate had a horrifying encounter with it down in Antarctica when she worked at Thule Station 37 years ago. It killed everyone but her and she was forever scarred because of it.

Kate L.: Yes. It traumatized me.

Thing: Oh man. That's awful.

Qin: What is this Thing?

Me: It's a horrifying creature Qin. It's a shapeshifting alien monster that can imitate lifeforms perfectly.

I went over the history of The Thing from 1982, 2002 and 2011.

---

In nature, the Thing is basically an ambush predator, isolating a potential victim or threat to consume and assume its form. In certain cases, usually when exposed or the person it assimilated is fatally inflicted, the Thing will discard all caution and defend itself by manifesting features that may be of its natural form, including tendrils, claws, and mouths. However, the Thing's most dangerous aspect is its cells, each a functional life form that can become independent from the main body when severed by force or separate to assimilate and self-preservation. For this reason, it is necessary to destroy the body down to the cellular level with incineration an effective method.

Behavior and Intelligence

The Thing has only assimilation and self-preservation in mind, as it will selfishly save itself or even attack other forms of its manifestation/progeny in order to avert attention and suspicion. When The Thing is left alone with a suitable target, it will begin to split open and fire out tendrils, which grab the target and begin to assimilate it. In certain cases after discovery or high chance of discovery, The Thing will sometimes perform "divide and conquer" tactics, as in the case of the assimilated Edward which split up into three separate forms: One on his hand quickly detaches and animated itself before engaged and began assimilating Jonas, another limb scuttled away soon after detaching for potential assimilation in a safer location, and the main body of the Edvard thing killed Derek and successfully assimilated Adam Finch, resulting a form of The Thing named Split-Face. This is also performed, albeit much less successfully, by the Norris-Thing. When exposed, Things will react depending on how big they are compared to the threat. Smaller Things will generally attempt to escape and ambush prey when the individual is more vulnerable. However, a larger Thing will usually attack prey head on and attempt to overwhelm any hostiles instead of escaping, although if it has not completely lost its cover it will attempt to flee.

In terms of intelligence, The Thing's intelligence depends on the size of their manifestations: Smaller ones are quite stupid, dimwitted, nonsensical and reckless while the larger ones, especially those who imitate a human are quite cunning, manipulative and formidably calculating. For example, Norris' mutated head foolishly led itself seen by MacReady and his friends while scuttering away from them that resulting its incineration. Because The Thing can acquire the memories and knowledge of those who it previously assimilated, they can used the said memories and knowledge for their advantage, though only larger manifestations of The Thing that more competent to do so: Thing Beast who has assimilated Sander was capable of taking control over UFO which brought it to Earth while the assimilated Blair on the other hand, build a makeshift UFO and aware how dynamite works as when ambushing MacReady, it disposed the detonator before revealing itself to confront him. However, this not always apply to all larger manifestation of Thing Beasts: Rapture-type Thing Beasts (see below) have no intention of hiding themselves from view as well as not manifesting useful appendages that supposedly give them advantage in battle like legs, and their chosen forms act primarily with little intelligence. A plausible explanation of this is likely Rapture-type Thing Beasts' own overconfidence against their foes that they believe mobility to evade their foes' attacks unnecessary due to their formidable but stationary form.

When exposed, The Thing would attack anyone on sight to save itself. This somewhat serves as their psychological weakness due to their aggressive mood blinded them from serious threat that their foes unexpectedly posed on them: The Thing who manifested from assimilated Juliette recklessly attempted to kill Kate and the others as soon as it unveil its true form which ironically led to its incineration. Should it survived the ordeal from its foes/preys and managed to hide, The Thing would regain its composures in order to use their original intelligence once again: When Split-Face Thing confronting Sam, it hesistate upon noticing his flamethrower.

The Thing's ability to interact with plant based life-forms is largely unknown. Its only interaction with plant based life was in the form of wood/clothing fibers. It cannot absorb these as noted by MacReady, which could suggest an inability to absorb plant cells or dead cells. The Thing themselves also a remarkable Master Manipulator in certain degree, not only because they enciting paranoia among their foes and victims alike, but also not shown eating or drinking beyond living humans or dogs, and it also leaves the bodies of killed humans or dogs untouched even though there is usable biomass, implies that it understands that potential hosts will react strangely to the presence of someone they know to be deceased. Possible other reasons why it never seen assimilating fresh corpses was either it only able to assimilate victim alive or aware that missing dead bodies would arouse suspicion.

In another feat of reasoning, a Thing destroyed a test that would have lead to its exposure, demonstrating awareness of biology and medical practices that would have exposed it. Interestingly, the second time this same method was proposed as a test the Thing had seemingly preempted the idea, this despite the fact that the Thing that had arrived at the second base was spawned long before the first test was thought of and was in a non-human form. This lead to the theory of a shared consciousness between Things, especially as the second sabotage was far harder to pull off covertly and while sowing seeds of misdirection it also exposed its presence.

Biography

The Thing (1982) & The Thing (2011)

The depiction of The Thing from these two modern movies are a lot more faithful to the original novella description than the 1951 counterpart.

Its origin a mystery, the Thing crash landed in a spacecraft within the icy fields of Antarctica 100,000 years ago and was frozen attempting to escape. However, in 1982, the spacecraft and the Thing were found by a team of American and Norwegian explorers/ researchers under Dr. Sander Halvorson from Thules station, who hired Columbia University paleontologist Kate Lloyd to take a sample of the creature's blood as it was brought to the base in a block of ice. But later that evening, the Thing bursts from the ice and kills Lars' Alaskan Malamute, Jed while ingesting Henrik before it was burned alive. However, an autopsy of the scorched alien corpse reveals that its cells are still alive and in the process of assimilating Henrik.

When Kate realizes the Thing already might have had assimilated others, she places the base on quarantine to weed out the Thing based on those who still have metal fillings in their teeth and such, after her initial plan of weeding out the monster through blood sample test had been sabotaged by The Thing. Due to The Thing's ability of imitate, emulate, mimic and appearing exactly like any of research members paranoid began to set in. Eventually the majority of research team were infected and incinerated before Sander, having been infected, makes a run for the spaceship. Kate and Sam Carter, the only two surviving crew members, chase Sanders to the alien UFO where Kate and Carter got separated. Kate eventually manages to pursue and kill the monster and heavily damages the ship to be beyond any repair. After reuniting with Carter, Kate resolved herself to catch him off guard and incinerated him when he is discovered that his earring he previously wore was missing and pointed to the wrong ear when confronted. When Carter was set aflame he emitted an inhuman scream, another evidence that Carter was The Thing. After this Kate is left all alone, leaving her fate unknown.

Meanwhile back at the Thules station, Lars' dog (having been infected and lying low until the time was right) makes its way to an

American Antarctic research station with Lars attempting to kill it before he was shot by Lt. Garry, the station commander. Helicopter pilot R.J. MacReady and Dr. Copper fly to the Norwegian's camp, finding the charred remains of the various Things included the burnt yet preserved corpse that was the station's commander Edvard Wolner after it assimilated Sander's assistant Adam Finch.

After the two-faced corpse was brought to the base, the Americans realize the Thing's presence too late when Lar's dog was placed in a kennel with the station's sled dogs and attempted to assimilate them all. After Childs incinerates the creature, with the team finding the ruins of the spacecraft, the autopsy done by Blair confirms the Thing's nature as he later proceeds to trap everyone on the base and kill the remaining dogs so no one can leave until the Thing is truly dead before being locked in a tool shed by the others as they devised a way to weed out the Thing by using its autonomous cells to weed out the assimilated. By the time that McReady and the other normal humans remain, they learn that Blair got assimilated and is building a small escape craft. Realizing that the Thing may also intentionally freeze itself to wait for a rescue team in the spring, MacReady resolves to kill it with dynamite around the complex. After the Thing that Blair became is dead, with Garry and Nauls killed off prior, MacReady finds Childs with both thinking the other got assimilated before seeing no point in distrusting each other as they would die of frost within hours.

In Videogames

In the 2002 videogame "The Thing", which serves as sequel for the 1982 film and set 3 months after events of the said film, it is revealed that The Thing still alive and waiting for more victims to absorb and kill. This time, there are more numerous manifestation of this alien lifeform at once and worse, everything became more complicated as most of them have been captured as means to be repurposed into bioweapons by Gen Inc. Things went wrong however, following their escape, Whitley, the mastermind behind the experiment to modify The Thing into bioweapons, has inject himself with Cloud virus, viral agent based on Thing's cells and planned to infect the whole planet. Fortunately, Blake (the protagonist of the game) foiled his plan and destroyed him with help of MacReady, sole survivor of the 1982 film, before he had a chance to infect the rescue team.

In the videogame, The Thing was regarded more like viral organism that has the ability to replicate the original biological entity, including their clothing. This likely due to in the said game, The Thing had further developed its ability which intrigued Gen Inc. to experimenting on it.

## Variants In-Game

### Scuttlers

A form of Thing that has assimilated and formed from mutilated body parts (often from those whom already assimilated by Thing's cells). These autonomous small Things' primary transformation involves manifesting teeth, arachnid-like limbs, and also a pair of strong hind legs that enable them to leap toward the non-assimilated lifeforms. Aside leaping, they could either attacking by biting or spitting digestive fluid as projectile. They could be crippled easily by crippled it first with few shots from guns before finished by a single blast from flamethrower. They were inspired by mutated form of Norris' head after mutated by Thing's cells.

### Scuttler Pods

A form of Thing that in form of fleshy, blob-like biomass that immobile but dangerous due to manifesting Scuttlers as means of defense. Their prime weakness is incapable of moving nor having alternate means of defense and can be destroyed by a blast of flamethrower and variety of firearms.

### Walkers

Form of Thing that manifest as humanoid monster with deformed torso, deformed claw hands, and insectoid legs that formerly humanoid ones. Their early form were brutish, muscular monster with a huge, transparent hole in their torso.

### Imitations

Imitations are form of Thing that previosuly introduced in the films.

They perfectly assumed their victim's appearance and able to transformed to their mutated form when their potential victims lower their guard. For the game incarnations, they tend to retain some elements of their hosts' appearance like clothes that still intact though their limbs in mutated state, similar with the mutated Palmer in the 1982 film.

## Dog Beasts

Thing beast that similar with mutated form of Lar's dog as both formerly has assimilated dogs. But unlike the latter, Dog Beasts still retain their limbs (though the said bodyparts also mutated to the point where they could support their weight as well as enable them to run at the tremendous speed).

## Ruptures

They are form of huge Things that take up an entire room or even be part of the room integrated into the architecture. Typically, they have human forms imbedded in them and attack with tentacles, teeth and fluids. They are immobile and are confined to the location in which they are met, which made them vulnerable due to unable to avoid their enemies' attacks.

## Weakness and Countermeasures

Though their deadly capacities in assimilation and other abilities made The Thing became a villainous, threatening force to deal with, there's a number of methods that can be done to expose them:

The Thing cannot assimilated non-organic components (for example, tooth fillings or prosthetics) on the victims. So, when one notice one of their friends not wearing any earrings/tooth fillings/prosthetics/other non-organic components that embedded/put on their body, they likely have been previously assimilated into a manifestation of The Thing. This method is the least effective in exposing a Thing's manifestation.

Blood Tests: There are three type of blood test that can be done to differentiate regular lifeforms and the assimilated ones which actually a Thing in disguise:

Blood serum test: A suspected imitation's blood is mixed with uncontaminated blood; which will hypothetically react if the creature is an impostor. This was yet to be proven effective, as The Thing quickly destroyed stored sacks of uncontaminated blood to avoid suspicion.

Hot needle test: When a sample of disguised Thing's blood is burned with a hot needle, the blood would jumped away from the needle. If the blood sample was taken from yet to be assimilated person, the blood would simply burnt.

Blood Test Hypo tool: More advanced version of the previous method, where this device extracted a suspected person's blood and it mixed the said blood with stored chemical agent. As before, the blood would animates and make an attempt to escapes, but failed as chemical agent killed it.

Aside the means of exposing a disguised Thing, the methods to killing them are:

Electrocution: Electrocution works against The Thing as the method would fry it's cells as seen in Who's Got There?, as well as implied by a Thing's manifestation from Norris' body which suddenly reacts by chomping on Chopper's hands when the latter tries to electrocute him.

Explosives: Explosive can obliterate Thing completely into pieces, effective to weakened the larger Thing beasts before incinerate their remains.

Incineration: Incineration can killed a Thing manifestation as fire would destroyed it in cellular level, but this mostly effective on medium to smaller sized Thing manifestation, as the larger one had a chance to survive albeit incapacitated, as proved when Split-Face Thing whom part of it survived in spite of being heavily injured by Kate's flamethrower.

The last two known weakness that The Thing possessed are:

As previously mentioned before, upon being exposed, a Thing manifestation would angrily attack and assimilate anyone on sight which give their foes an opening.

The Thing had a limit in maximum size expansion during assimilation process, as had they grown too large during the assimilation process, this would transformed them into a boiling mass of flesh and random body parts where in this state, hindered their mobility and made them vulnerable.

Qin was horrified!

Qin: That is a nightmare! Kate, I'm so sorry you went through all that.

Kate L.: It's all right Qin. But thank you for your concern. I've now gotten over my fear of the Thing. But the nightmares still haunt me.

Me: You're still having problems with your inner demons from long ago events. There's also a Thing that was from before all this that we saw. It was made in 1951 from my dads past.

Kate L.: Really? I didn't know there was a movie before the one I know.

Me: It was made in 1951. It was called "The Thing From Another World." That is a whole different version of it.

Lola: How so?

Me: That version of The Thing takes place at the North Pole and the creature was made of Plant Material. The one that Kate knows is made of blood, guts and gore.

Kate L.: That is an interesting difference.

Me: It is.

Kate L.: And it can imitate lifeforms perfectly. It causes extreme fear, distrust, paranoia and dissension among anyone it comes into contact with.

Qin: That's horrifying.

Poison Ivy: If that Thing monster has perfect shapeshifting abilities, it could've turned into anything it wanted.

Me: Yes it could. And it can turn into anything.

Alicia: I can't believe this Thing is that dangerous and elusive.

Me: No kidding. We can go deal with Kate's inner demons later. Right now we're gonna go on a tour of the Baxter Building.

Qin: What's that?

Me: It's the main base of operations for the Fantastic 4.

Qin: Oh that is so cool!

Me: Yep. Professor Richards A.K.A. Mr. Fantastic owns it. We've been there before and it's loaded with all kinds of things.

Qin: Wow!

Me: You want to come with us Qin?

Qin: You bet I do!

Me: Great!

We later went to the Baxter Building.

---

We arrived at the Baxter Building!

Me: Here we are Qin. Welcome to the Baxter Building.

Qin: Wow! It looks interesting.

Me: Wait till you see the inside.

We went into the building.

---

The Baxter Building is a 35-story building located at 42nd Street and Madison Avenue, Manhattan, New York City in the United States of America just a few blocks from the United Nations Headquarters. It has been home to many individuals and organizations. The most famous being the Fantastic Four.

## Early History

The building was originally constructed in 1949 by the Leland Baxter Paper Company. The building's steel frame construction utilized the first application of "K bracing" in the world and is one of the strongest structures of its kind. Originally designed to accommodate pulp recycling machinery to serve the mid-Manhattan area, each floor was given a ceiling height of 24 feet.

## World War II

It first became a headquarters to super-heroes in the late 1940s. In September of 1946, when the original headquarters of the All-Winners Squad was destroyed in a battle against Madame Death, their leader Captain America set his eyes on relocating the groups base of operations to the future site of the Baxter Building. The group finally moved into the partially completed building in until April of 1948. They remained tenants of the building until the group disbanded later in February of 1950.

In the late 20th century, the super-villain known as Nocturne attempted to unleash a alchemtechno virus upon New York City, using the Baxter Building as ground zero for his attack. This attempt was thwarted by the hero group known as the First Line. Although they stopped the virus, the top seven floors of the Baxter Building were destroyed and needed to be rebuilt.

In recent years the Baxter Building had become world famous as home to the super-heroes known as the Fantastic Four. When the Fantastic Four's military liaison suggested the building as their new headquarters, team leader Mister Fantastic agreed that it fit the needs of his group. Reed had purchased the building outright, Reed tapped his former professor Noah Baxter, part owner of the building, to assist him in reconstructing the top five floors of the Baxter

Building to suit their needs. Much of the equipment originally installed in the Fantastic Four's headquarters was a collaborative project between the two men. The group moved in shortly after reconstruction began.

Initially, Reed bought that section of the building outright, though the Fantastic Four continued to pay monthly service fees. When the they were in a tight financial situation a year later, Reed sold the Fantastic Four's floors back to the Baxter Paper Company. As tenants, the Fantastic Four had many problems with Walter Collins, the building manager. Whereas Mr. Collins had originally been delighted that a real superhero team was moving into his building, he soon began to see the problems in such a situation. When Doctor Doom lifted the entire building into deep space, relations cooled between the manager and his tenants. Other tenants worried that their offices might become battlegrounds and, as their leases ended, many of the building's original tenants did not renew. Nor did new tenants appear to fill the vacancies. In desperation, Mr. Collins offered all tenants ironclad, 99-year leases with significant discounts in their rents.

Still, problems continued. Occasionally either the Thing or a foe would be driven downward through the building, tearing a shaft through floor after floor. Battles occurred on the outer walls of the building. Explosions were a common occurrence. No insurance company would write a policy on any organization maintaining offices in the Baxter Building.

Collins also discovered that losing the Fantastic Four as tenants would not solve his problems. During a period when the Fantastic Four had split up and vacated their headquarters, Collins discovered that no one would rent their former headquarters. There was too great a fear that supervillains would attack those floors regardless of who now lived there. When the Fantastic Four later reunited. Collins was forced to accept the FF back as tenants, and grudgingly agreed to charging them a lower rent as well.

Then one day Terrax the Tamer disintegrated everything above the 32nd floor. Collins was fed up. He stormed into the remains of the headquarters and announced he was evicting the Fantastic Four. Reed suddenly exercised a lease option and bought the entire building outright. That was the last that was seen of Collins. As landlords, the Fantastic Four tried to be considerate of their tenants, but their sudden foray into land ownership proved to be a challenge. They wished most of the tenants would voluntarily leave, but they realized they were required to honor Collins' special leases. The final act in the Baxter Building's history came when Kristoff Vernard, Doctor Doom's adopted son, sent the entire building once again into orbit, this time blowing it up.

Fortunately, no one was in the building except for the Fantastic Four. Still, when the Fantastic Four returned to the empty foundation, they found angry tenants demanding action. Reed announced that he would establish an insurance pool to cover the tenants' losses and to help them find new offices. Then he set about designing a new headquarters to be erected on the same site. Reed eventually constructed the Four Freedoms Plaza to replace the destroyed Baxter Building. It served as the FF's headquarters until they were seemingly slain by the psychic entity known as Onslaught. The Four Freedoms was later co-opted by the Thunderbolts as their new headquarters. It remained their headquarters part of the building was dumped into the Negative Zone. Meanwhile, the Fantastic Four turned up alive and well and were returned to Earth from a pocket dimension. They took up residence in a new headquarters dubbed Pier Four, because the Four Freedoms was uninhabitable. Ultimately the rest of the building was teleported to the Blue Area of the Moon by Ronan the Accuser during a battle against the Fantastic Four. This left a vacant lot in the place where the Four Freedoms used to stand. The Fantastic Four continued to use Pier 4 as their headquarters until it was destroyed in an attack by their long time foe Diablo. By that time, Reed and Noah Baxter had reunited to build a new Baxter Building, which was being secretly constructed in Earth orbit on Baxter's Alexandria space station. When the building was completed, and activated by the Fantastic Four it was lowered into the empty lot where the original Baxter building, and Four Freedoms Plaza previously resided.

The Baxter Building remained the Fantastic Four's headquarters for some time, until they hit more financial troubles. Forced to pay for the damages they caused to New York City over the years, Reed was forced to turn over the property to the City of New York, and the

FF were promptly evicted from the premises. Eventually, the Fantastic Four were able to obtain a windfall of money and reclaim their former headquarters. Most recently the Baxter Building was shattered by an attack by creatures from a pocket dimension. The building was later ordered closed down by S.H.I.E.L.D.. Although the Fantastic Four ultimately defeated the Quiet Man, who masterminded recent events to take them down, the Fantastic Four decided to disband for the time being.

## Parker Industries

Over a year after this, and following the apparent demise of Mr. Fantastic and the Invisible Woman, the Baxter Building came up for sale. Roxxon, Alchemax, and other corporations attempted to claim it, but it was purchased by Parker Industries not only to be the New York headquarters of the company, but to keep it safe for when the Fantastic Four reunited at long last. At first, Johnny was angry at Peter for buying their home, but upon learning why and seeing the statue of the family in the lobby, Johnny gave his blessing to Peter. A few months later, Parker Industries dissolved, and with its end, the Baxter Building had to be sold.

## The Fantastix

The Building was eventually bought by the new superhero team the Fantastix, who made it their headquarters. After Mister Fantastic and Invisible Woman returned from repairing the Multiverse, Mister Fantastic decided to let the Fantastix keep the Baxter Building. He told a confused Human Torch that the Fantastic Four were a family, not a building.

## The Lobby

The ground floor contained Abe Shoenstein's snack shop, an optometrist's shop, a visitors' center, the elevator bank, and the freight loading dock. The visitors' center was as close as most people could get to the Fantastic Four; a multimedia show on the Fantastic Four's history was shown hourly from 9 to 4. The floor directory listed building tenants such as Pierre Picolino (a famous abstract sculptor), the Ladies' Canasta, Mah Jonng Society, and Fantastic Four Inc.

## Elevators

Three elevators serviced floors floors 1 through 30. The fourth elevator was marked by the Fantastic Four's insignia. This was the express elevator to floors 31 through 35, the Fantastic Four's headquarters. The elevator could only be summoned by a solenoid activator such as were embedded in the Fantastic Four's belt buckles. Normally this elevator stayed on these floors and only descended to street level when summoned. On the way up, hidden scanners identified the passengers and checked them for hidden weapons or devices. If questionable material was found, the elevator would stop in midshaft until the Fantastic Four was prepared to deal with the intruder. All elevators doubled as freight elevators.

## 30th Floor

If a visitor chose to take one of the regular elevators, he was taken to the 30th floor. The bulk of the floor was occupied by the building's mechanical systems (plumbing, ventilation, and elevator winches). Acoustic insulation kept the noise from affecting the Fantastic Four's reception area. This floor also acted as a buffer zone to absorb damage from battles in the upper floors. It also contained the magnetic repulsion system. This system was designed to lift the upper floors away from the rest of the Baxter Building; the theory being that this way the rest of the building could have been protected from a particularly damaging battle. The system was designed as a compromise to placate Collins, the building manager. It was controlled from the Computer Center on the 33rd floor.

## Reception Area

All the typical visitor saw on the 30th floor was the Fantastic Four's reception area. The visitor was greeted by Roberta, a usuform robot. Her visible half (above the waist) appeared to be an attractive blond in her 20s. Below the waist she was a pivoting arm attached directly to her desk. Roberta was tied directly to the Fantastic Four's computer system and could monitor the entire building. The reception room was also filled with hidden scanners to probe visitors. If the visitor were hostile, the floor was rigged to deliver a stunning electrical shock. Once the visitor had been cleared, a panel opened to reveal a lift to the 31st floor.

31st Floor

The 31st floor contained the Fantastic Four's living quarters. There were suites for Reed and Sue, Ben, and Johnny; originally Sue and Johnny commuted, using their suites when convenient, while Reed and Ben were permanent residents. Several guest rooms for other Fantastic Four members and the extended family, and the dining and living areas. After the building was bought by Parker Industries, Spider-Man uses on of the rooms as living quarters, while Johnny crashing in said room on occasion. Peter also converted Johnny's original room into the executive bathroom.

32nd Floor

The 32nd floor contained more living areas, Alicia Masters' studio (when she was a resident), the medical lab, the library, and reference room.

33rd Floor

The 33rd floor contained Reed's laboratory. The floor plan changed constantly as Reed added additional experiments and devices. In the Computer Center was a lever for activating the magnetic repellors on the 30th floor.

34th Floor

The 34th floor could be considered the actual headquarters. The computer banks, monitor banks, communications center, and briefing room were all there, as well as the overflow from Reed's laboratory below. The Astro-sciences section was tied in to SHIELD's and Project: Starcore's systems.

35th Floor

The 35th floor contained the hangars for the Fantastic Four's various vehicles, storage space, and a machine shop capable of building or repairing vehicles. A reinforced door in the corner led to the launching silo for the Fantastic Four's rocketship. This passenger ICBM was launched and stored in a heavily muffled silo with vibration-asborbing walls and exhaust pipes leading all the way to the Hudson River. The other vehicles were on platforms that carried them around the floor and over to the launching hatch.

## The Roof

The roof was flat and featureless. A large Fantastic Four insignia marked the retractable hatch for launching and landing vehicles. If a Fantastic Four vehicle approached, the hatch would open automatically. There were a series of observatory domes located at various spots on the roof. Originally a permanent dome was located on the corner opposite the rocket silo. The last dome was closer to the silo but retractable. The entire dome could be lowered through the floor to the 35th-floor hangar. This left the roof completely clear for action and eliminated the only hiding place for a trespasser. The observatory equipment included a computer-linked telescope and twin telescopic cameras.

## Construction

Windows are 2-foot thick composites of various glasses and plastics which are mirrored on the outside. Solid, armored, exterior walls are also mirror-clad and are indistinguishable from transparent sections. The top five sections of the Baxter Building are completely airtight, all doors are airlocks. Complete environmental support, including atmosphere is provided by the area between elevators 2, 3, and 4 on all floors. The building's steel-alloy framework may be rigid enough to be stood on one corner and not deform (though Reed himself stated that this was due to the use of tactile telekinesis by Gladiator).

## Stairs

While the fire stairs extended the length of the building, they were blocked by a Fantastic Four insignia marked door on floor 34. The door opened automatically from the inside or could be externally opened by a solenoid activator. Since the door was never used except in emergencies, its opening triggered alarms in the master control and computer systems. This prevented intruders from entering the Fantastic Four's headquarters by way of the stairwell.

## Security Systems

The Fantastic Four's master computer controlled all locks involving the upper floors. Such locks could be manually operated or overridden by either the master control or the computer system. The computer system maintained visual, audio, biophysical, and electronic surveillance on every section of the building. The building was equipped with devices that could disrupt the functioning of a single targeted device or stop the functioning of all electrical machinery within the Baxter Building. This system could be activated by the computer, by Roberta, by someone in the control room on the 33rd floor, or by anyone who might punch the panic buttons located in every room. If the button were pushed, the field would envelope the entire building.

We went into the building.

Kairi: Welcome to the Baxter Building, Qin.

Qin saw amazing cutting edge technology and more.

Qin: Wow! It's so high-tech!

Me: It is. Everything they do here has cutting edge technology that is decades more advanced than what we have now.

Qin: That's amazing!

Me: It is.

Stan Lee then appeared as a scientist.

Stan Lee: Well you guys are doing good.

Me: Stan Lee!

Qin: You're a scientist now!?

Me: He's full of surprises Qin. He appears in these parts when you least expect it.

Qin: That is so cool!

Stan Lee: That's right True Believers. Thanks again for rescuing me.

Me: Any time Stan. You're one of the Greatest Comic Book creators of all time. We would do anything for one of our heroes. EXCELSIOR!

Stan Lee: EXCELSIOR!

Everyone: EXCELSIOR!

Stan Lee left.

Qin: That is so awesome that Stan can appear like that.

Me: He always has had a knack for appearing in places never thought possible.

Qin: I can see that.

We saw Thing's room.

Cliffjumper: (to Thing) I see you got your room back to normal. Without the pink color, of course.

Qin: It was pink?

Me: Johnny decided to pull a silly prank on Ben by painting it Pink. It really infuriated him.

Thing: It sure did.

Me: They were just looking for a good laugh Ben. No harm done.

Thing: That's true. But it did feel humiliating.

Me: I know.

Blot: How are you enjoying the Baxter Building so far, Qin?

Qin: It's incredible!

Me: It sure is.

We continued to explore the building and it was unforgettable.

Later back at the estate, we were watching both movies for The Thing from 1982 and 2011. We were watching 2011's The Thing first and it was horrifying! The 2011 movie takes place 3 days before the events of the 1982 movie.

In the winter of 1982, a buried alien spacecraft is discovered in Antarctica by Lars, Peder and Olav, members of a Norwegian research station, "Thule". American paleontologist Kate Lloyd is recruited by Dr. Sander Halvorson and his assistant Adam Finch to investigate. They fly to Thule in an American helicopter operated by Carter, a pilot, Jameson, his co-pilot, and Griggs, a crewman. The scientists are met by station chief Edvard, Juliette, and Karl. After seeing the spacecraft, the scientists examine an alien body buried in the ice nearby, and make plans to excavate it. That evening, the new arrivals meet the rest of the base: Jonas, Henrik, Colin, and Lars' dog.

The next day, the body is excavated in a block of ice, which gradually melts in storage. In the evening, Jameson sees the alien burst from the ice. The team search for the creature, finding Lars' dog dead. The creature is found; it kills Henrik by dragging him into itself, spattering blood on Olav. The group burn the creature, killing it. An autopsy finds a metal implant of Henrik's outside of his body, and further that the creature's cells were copying Henrik's. Olav falls ill.

The next morning, the helicopter crew departs with Olav, for McMurdo. During takeoff, Kate discovers dental fillings near a bloodied shower. She runs outside to flag down the helicopter. When it attempts to land, Griggs transforms and attacks Olav. The helicopter spins out of control and crashes in the mountains. Kate finds the shower has been cleaned up and tells the team that the alien organism imitates its victims. Noting that Thule's helicopter is away for refueling at Halley, Edvard orders the team to drive to the closest base. Juliette lures Kate into an abandoned room, transforming and attacking her. Kate escapes, but the Juliette-creature instead kills Karl. Lars arrives with a flamethrower and burns the Juliette-creature. The team resolve to quarantine themselves until the threat is eliminated, and discuss scientific tests.

That night, Carter and Jameson improbably stagger back to the base, out of the cold. Suspecting them as creatures, the group isolate them. Thule's laboratory is sabotaged, and tensions flare. Inspired by her earlier discovery, Kate proposes a simple test: everyone must open their mouths to check for dental fillings. The alien does not assimilate inorganic or metallic material, and so people with fillings are cleared. The test implicates Sander, Edvard, Adam, and Colin, who have no visible fillings. Lars and Jonas go to get Carter and Jameson for testing, and as Lars searches an outer building, he is suddenly pulled inside. Chaos erupts, and Carter and Jameson break into the main building, shooting Peder dead and puncturing his flamethrower's tank. The flamethrower's leaking fuel meets its active flame, causing an explosion which knocks Edvard unconscious. When brought to the main room, Edvard violently transforms, infects Jonas, kills Jameson, and gruesomely assimilates Adam. The Edvard-creature drags Adam's body away, now part of its own body. Kate burns Jonas and Jameson before she and Carter pursue the creature, which assimilates Sander. The Edvard-Adam-creature attacks Carter but is burned by Kate, saving him.

An assimilated Sander drives off into the night, pursued by Kate and Carter. They arrive at the spacecraft which suddenly activates, separating them. Kate falls into the ship, confronting the Sander-creature. Kate kills it with a grenade and the explosion shuts down the ship's engines. Kate and Carter reunite. Kate notices that Carter is missing an earring he wore earlier. When confronted, Carter points to the wrong ear. Kate burns the Carter-Thing, which emits an alien scream, and she seeks warmth in a nearby snowcat.

The next morning, Thule's helicopter pilot Matias returns. Absent from the film's events until this point, Matias views the ruined station and the husk of the Edvard-Adam-monster with horror. Colin is shown to have committed suicide in the radio room, to ensure the Thing could never get to him. Lars shoots at Matias and orders him to open his mouth. Lars' dog, thought dead, emerges and runs away. Lars orders Matias to start the helicopter and give chase.

Leading to the start of the 1982 movie.

Next we watched the 1982 version.

In Antarctica, a Norwegian helicopter pursues a sled dog to an American research station. The Americans witness the Norwegian passenger accidentally blow up the helicopter and himself. The Norwegian pilot fires a rifle and shouts at the Americans, but they cannot understand him and he is shot dead in self-defense by station commander Garry. The American helicopter pilot, R.J. MacReady, and Dr. Copper leave to investigate the Norwegian base. Among the charred ruins and frozen corpses, they find the burned remains of a malformed humanoid which they recover to the American station. Their biologist, Blair, performs autopsies on the remains and finds a normal set of human organs.

Clark kennels the sled dog, and it soon metamorphoses and absorbs the station dogs. This disturbance alerts the team and Childs uses a flamethrower to incinerate the creature. Blair autopsies the new creature and learns that it can perfectly imitate other organisms. Recovered Norwegian data leads the Americans to a large excavation site containing a partially buried alien spacecraft, and a smaller, human-sized dig site. Norris estimates that the alien ship has been buried for at least 100,000 years. Blair grows paranoid that the creature could assimilate all life on Earth in a matter of years. The station implements controls to reduce the risk of assimilation.

The "dead," malformed humanoid creature assimilates an isolated Bennings, but Windows interrupts the process and MacReady burns the Bennings-Thing. Blair sabotages all the vehicles, kills the remaining sled dogs, and destroys the radio to prevent escape. The team imprisons him in a tool shed. Copper suggests a test to compare each member's blood against uncontaminated blood held in storage, but after learning that the blood stores have been destroyed, the men lose faith in Garry, and MacReady takes command.

MacReady, Windows and Nauls find Fuchs's burnt corpse and surmise he committed suicide to avoid assimilation. Windows returns to base while MacReady and Nauls investigate MacReady's shack. On their return, Nauls abandons MacReady in a snowstorm, believing he has been assimilated after finding his torn clothes in the shack. The team debate whether to allow MacReady inside, but he breaks in and holds the group at bay with dynamite. During the encounter, Norris appears to suffer a heart attack.

As Copper attempts to defibrillate Norris, his chest transforms into a large mouth and bites off Copper's arms, killing him. MacReady incinerates the Norris-Thing, but its head detaches and attempts to escape before also being burnt. MacReady is forced to kill Clark in self-defense when the latter lunges at him from behind with a knife. He hypothesizes that the Norris-Thing's head demonstrated that every part of the Thing is an individual life form with its own survival instinct. He sequentially tests blood samples with a heated piece of wire. Everyone passes the test except Palmer, whose blood jumps from the heat. Palmer transforms and infects Windows, forcing MacReady to burn them both.

Childs is left on guard while the others go to test Blair. They find that Blair has escaped, and has been using vehicle components to assemble a small spacecraft. On their return, Childs is missing and the power generator is destroyed. MacReady speculates that the Thing intends to return to hibernation until a rescue team arrives. MacReady, Garry, and Nauls decide to detonate the entire station to destroy the Thing. As they set explosives, Blair kills Garry and Nauls disappears. Blair transforms into an enormous creature and destroys the detonator. MacReady triggers the explosives using a stick of dynamite, destroying the base.

MacReady sits nearby as the station burns. Childs returns, saying he became lost in the storm while pursuing Blair. Exhausted and slowly freezing to death, they acknowledge the futility of their distrust and share a bottle of scotch.

We got done and some of us were shaking in fear. But because we saw them before some of us weren't scared.

Me: That is horrifying.

Varie: I can't believe they went through all that.

Kate L.: But I didn't know it went to another outpost in Antarctica.

Nico: Yeah. It was awful. The Thing killed 15 people in both movies. That is awful.

Me: No kidding. But it's absolutely terrifying that the Thing can look like anyone or anything.

Spiderman: My Spider Sense can enable us to find out who the monster is disguised as.

Me: It doesn't work that way Peter. The Thing has the ability to imitate lifeforms perfectly. Our best chances are to use my Omnitrix to flush it out or use the Blood Test MacReady thought up. His findings were good.

Lana: They sure were. And I think our powers can protect us from the Thing should it get to us.

Me: They will Lana. Good point.

Lincoln: Also I heard that there's a video game for The Thing.

Me: That's right Lincoln. It's for Playstation 2.

I showed him said game.

Me: This game takes place in 2002, 20 years after the events of the 1982 movie.

Kate L.: I didn't know that there was a video game for the movies.

Me: Yep. Let me show you guys.

I put the game in and played it and everyone was watching.

---

The game begins at U.S. Outpost 31 in Antarctica, a short time after the events of the film. Two teams of U.S. Special Forces have arrived to investigate the U.S. camp and the nearby Norwegian camp. Captain J.F. Blake (voiced by Per Solli) is the leader of Bravo

Team, who are investigating the U.S. camp, whilst Alpha Team, under the command of Captain Pierce, investigate the Norwegian camp. Both teams are under the overall command of Colonel Whitley (William B. Davis), who is in constant communication via radio. Whilst investigating Outpost 31, Bravo Team soon discover the small spacecraft made by the Blair-Thing and a tape recorder with a message from R.J. MacReady, describing how nobody trusts anybody anymore. They then find information detailing how the base has been infiltrated by an extraterrestrial lifeform that is capable of imitating the physical appearance and characteristics of any living organism it assimilates. They also find the body of Childs, one of the two survivors at the end of the film, who has died from hypothermia. The film's other survivor, MacReady, is nowhere to be found. Under orders from Whitley, Bravo Team set up C-4 explosives throughout the facility, which are detonated remotely, destroying the outpost.

Whilst the rest of Bravo Team are airlifted to safety, Blake heads to the Norwegian camp to locate and reinforce Alpha Team, with whom contact has been lost. He soon learns they have been attacked and scattered by a horde of "scuttlers;" small limbs and appendages of much larger Things. Eventually Blake finds Pierce. However, he has become paranoid, believing everyone to be infected and demanding Blake agrees to a blood test to prove he is still human. Blake does so, and he and Pierce set out to find a way to reestablish communication with Whitley. However, they are soon separated, and with no other choice, Blake continues on, finding the radio room, but discovering someone has stolen the radio and fled into a nearby warehouse.

En route to the warehouse, Blake encounters Pierce in an observatory. However, he is infected, and rather than allow himself to turn into a Thing, Pierce shoots himself in the head. Blake continues to pursue the man with the radio, eventually discovering that he is a Thing. Blake kills him, and takes the radio. Moving on, he enters the "Pyron" sub-facility beneath the Norwegian base, learning of a company called Gen-Inc., who have installed a research team under the command of Dr. Sean Faraday (John Carpenter). Gen-Inc. had been conducting biological experiments on the Things when their team was infected, and now only a few survivors remain within the facility. Blake rescues Faraday and attempts to leave. However, he is prevented from doing so by Whitley, who shoots him with a tranquillizer gun, and reveals to Faraday that he has infected himself with the Thing gene, claiming it to be controllable, something of which he is living proof, and therefore demonstrating its capability as a weapon. When Faraday attempts to eradicate the Thing virus, Whitley kills him.

Blake awakens in the now abandoned "Strata" research facility, and learns that his cells have a unique resistance to infection by the Thing virus. After escaping his confinement, he unearths a government conspiracy whereby Gen-Inc. isolated a microbiological form of the Thing called the "Cloud virus", which was intended for use in biological warfare. However, the Thing infected everyone at the facility. Blake learns that Whitley was in charge of the entire operation, and has injected himself with a strain of the virus known as "Cloud Virus B4" in an attempt to cure his terminal cancer.

Blake fights his way through the facility, battling numerous black ops under Whitley's command, as well as many Things. Learning that Whitley plans to distribute the Thing virus around the world using a fleet of airplanes, he is able to destroy them before they take off. Eventually, Blake confronts Whitley himself. He sets him on fire, but Whitely is unhurt. He explains that an airlift team is on its way and when its arrives, he will begin global exposure. Whitley flees further into the base, pursued by Blake. At the partly excavated site of the original Thing's spaceship, Whitley transforms into a massive Thing creature. Blake encounters a helicopter pilot, who helps him defeat the Whitley-Thing. As the helicopter flies away from the base, the pilot reveals himself to be R.J. MacReady.

After 10 hours of playing, everyone was horrified.

Lana: Wow! That was intense!

Lola: That was scary!

Me: It was.

Kate L.: That was worse than what I went through.

Me: I know Kate. Sorry you had to see all that.

Kate L.: It's all right J.D.

Qin: Wow!

Nico: But it's good that Blake beat the Thing and saved the planet from a major global contamination.

Me: Yep. Also Qin, I did a really cool transformation that involved The Thing.

Qin: Really?

Me: Yep. It was back on Halloween in 2016. Just a couple of months after I moved here.

I revealed everything that happened during the events of Tricked.

Qin: Wow! You used a Thing Transformation to scare two major league jerks!?

Me: Yep. It was a fusion of all the monsters from both movies and the video game all togehter. Lucy did an awesome corn maze back then and we scared the living shit out of them. I have it all on video. Watch.

I put in a movie of what happened during the events of Tricked.

---

[Luna is playing on her organ]

Luna:

"When darkness falls on the house of Loud

Around every corner, new terror abounds

You don't want to lose your head! Ha ha ha!"

You can run, but you can't hide

They know that you taste better alive

I don't think that they've been fed

In a long, long time

Every corner, every floor

Watch out, they ain't herbivores

Ghastly ghouls out for blood

Sorry, bud

You got tricked

You got tricked

You got punked and pranked with a spooky twist

Before you wet your pants, better get out quick

Tricked, tricked, tricked

You got… tricked

Beware of fangs and bloody fur

A Loud House chainsaw massacre

There's no chance that you'll get out

Ghosts writing your eulogy

Heads are rolling literally

So, who needs their mommy now?

Spilling guts on the floor

Clean up on aisle four

Why you running off so soon?

Sorry dude

You got tricked

You got tricked

You got punked and pranked with a spooky twist

Before you wet your pants, better get out quick

Tricked, tricked, tricked

You got… tricked

[During the montage, the Loud Sisters scare the stinkers with everything they throw at them. Luan brings Mr. Coconuts to life, Lisa and Lily act rabid, Lori acts like she's been feasting on Rita, Lynn turns on her chainsaw, Lola appears like a corpse, Lana acts as her ghost, Leni walks around blindly under her dress with Geo rolling in his ball with the fake head still on, Laney was stirring a monster filled pot and cackled like a real witch, Varie was in her dark side mermaid form and she terrified the stinkers by snarling and hissing and spraying the stinkers with water that smelled really horrible, I unveiled my surprise. I had my eyes covered by my hair and I start to change. I become a hideously gruesome and horrific monstrosity loaded with blood, guts, body parts, tentacles and more. I was a fusion of every single horrific monster from the movie THE THING! The monsters were from the 1982 and 2011 movies and the 2002 Video Game. Lightning flashed behind the monstrosity and flames from the Netherworld flickered around it and it scared the stinkers so bad that it made them soil their pants 3 times, and everything else in the maze terrifies them to the point where the sounds of their screams catches the attention of the other kids on the block and their screams also catch the attention of a nearby police car, and the stinkers run into Lucy who is blocking the exit]

Lucy: "The crimes you have committed this night shan't go unpunished. You reap what you sow."

[She slashes a rope with her scythe, dumping a bucket of fake blood on them, making them scream]

Hank: "Blood!"

Hawk: "I'm gonna puke!"

Hank: "If you're gonna puke, I'm gonna puke!"

A tentacle with a scary flesh flower covered in blood and slime appears in front of their faces and tentacles come out and slap their faces and the stinkers vomited all over the ground.

[As they run out screaming, Lucy gives a small smile of satisfaction]

Hank: [nauseous] "We're not… coming back here… again…"

[He and Hawk run off and a police car drives up and the officers come out]

Luna: [finishing her song] " You got… tricked. "

Officer Stacy: You two are under arrest.

---

The movie was done and we cheered wildly.

Qin: Whoa! That was so awesome!

Nico: That was really clever! You used the monsters from The Thing movies and game to scare those two jerks into shitting themselves.

Me: Thanks. It was a day of retribution for everyone on Halloween 2016 for us. That was the most awesome Halloween we've ever had.

Qin: I can tell. That was awesome using the monsters from the Movies and Video Games to scare them like that.

Lincoln: It sure was Qin.

Earth: I'll say. That was so awesome that you did that.

Me: Thanks Earth.

Earth: You're welcome. But Lincoln wasn't nearly scared of the Thing like he was with The Harvester.

Me: Oh yeah. That was awful. Lincoln do you want to tell them?

Lincoln: You can tell them J.D.

Qin: What is the Harvester?

Me: It was a slasher movie about a farmer that turned into a Homicidal Crazed maniac. Here's a trailer for it.

I pulled up the trailer for the movie.

Narrator: "He was a humble farmer until a drought ravaged his land." [the farmlands have dried out and a tumbleweed passes by.] "Now, he's found a new crop…" [the farmers eyes turn red with pure evil and he suddenly starts killing innocent victims by slashing them apart with his scythe, killing them and harvesting their organs in a cooler.] "… human organs! He is…

Me in a Diabolical Voice and the Narrator: "The Harvester!"

I laugh Diabolically.

Narrator: "Opens this Friday."

Qin: Boy that is a sick movie!

Me: Lincoln saw that movie and he was scared to death. He was forever scarred by it.

Lincoln: Yeah. But I'm not scared of it anymore.

Me: We helped Lincoln destroy The Harvester when he had a really bad nightmare about it. We used the Simulator hooked up with Lisa's Dream Machine to help him face his fear.

Nico: Wow! That is genius.

Me: Yeah it sure was. Lincoln is now no longer terrified of him.

Kate L.: I'm sorry that happened to you Lincoln.

Lincoln: It's okay Kate. But after everything we saw in both the movies and the video game, we now can face The Thing.

Me: We sure can. Lets head to the Simulator for some action.

Everyone: YEAH!

We went to the Simulator.

---

We got ready for the coldest and most terrifying adventure we could face since the Terror of The Necromorphs. We were in our warmest fur parkas since we were going to Antarctica.

Me: When we go to Antarctica, it's gonna be bone-chilling cold down there. So we're gonna face temperatures of -100˚ Fahrenheit down there.

Lana: This is gonna be interesting.

Lola: It sure is.

Laney: This is gonna be a terrifying adventure. But I'm ready for anything that comes our way.

Me: Yep. Lets do it.

The Simulator activated and we found ourselves in Antarctica back in 1982. We were right outside of Outpost 31. It was a cold place.

Me: Outpost 31.

Nico: Sure looks like a nice place to work in.

Me: If you're into handling cold temperatures and whiteout conditions.

We saw a burned Helicopter.

Me: This Helicopter is gone.

We went into the Outpost.

We saw the crew looking at a man shot.

Me: Wow. What happened to him?

MacReady: Who are you guys?

Me: We apologize for arriving unexpectedly.

We introduced ourselves.

MacReady: Pleasure to meet you all. R.J. MacReady. Helicopter Pilot.

Bennings: Bennings. Nice to meet you.

Norris: Vance Norris. Pleasure.

Nauls: Cool man. Name's Nauls.

Blair: I'm Blair. Pleasure.

Garry: I'm Garry. Pleasure.

Clark: I'm Clark.

Copper: I'm Copper. The doctor.

Fuchs: I'm Fuchs.

Childs: Name's Childs. Pleasure.

Windows: I'm Windows. It's a pleasure.

Palmer: I'm Palmer. It's an honor.

Me: Pleasure to meet you all.

Kate went up to the man that was shot and she recognized him.

Kate L.: That's Lars.

MacReady: Do you know him Kate?

Kate L.: Yeah. He's Norwegian. He's the Snowcat Driver and Dog Handler.

Me: He got shot through the eye.

Garry: He was trying to hurt a dog.

Me: A dog? Why?

Childs: We couldn't understand him.

Me: That's weird. We have stuff to tell you. We're actually not from this time. We're from the 21st Century in the year 2019, 37 years into the future.

Palmer: Really?

Me: Yep. We have a lot of stuff to tell you.

We told them everything.

MacReady: Wow! That's amazing.

Copper: It sure is.

Childs: I would find all this to be a bunch of voodoo bullshit. But it's all believable.

Me: The Reason we're here is because Kate has been through a terrifying ordeal and we need to show you.

---

Later we took the helicopter and flew and we saw the burning remains of Thule Station. It was burned all over.

Me: Here we are guys Thule Station.

Lincoln: Or what's left of it.

We went in.

MacReady: Anybody there?

Laney: It's deserted.

We saw the place ransacked and destroyed. We found an axe with blood on the handle and the blade imbedded into the wall. We went into another room and we found blood on the floor and it lead up to a frozen man sitting in a chair.

Copper: Mac!

We got a closer look and we saw that the man had committed suicide. He slashed his throat and his wrists and he had a razor in his hand.

Me: Shit! He took the cowards way out for some reason.

Lola: Geez!

Copper: My god. What the Hell happened here?

Me: A nightmare that's what.

Kate L.: Oh god. That's Colin.

MacReady: Do you know him?

Kate L.: He was from England. He was the radio operator.

Me: Lets see if we can find anything that might be of use to find out what happened here.

We looked around and we found some notes, a video unit, and a lot of tapes and stuff.

MacReady: (Offscreen) Hey guys come here!

We went to MacReady's location and what we found next was amazing. We found a huge block of ice that was broken open.

Me: Whoa!

Lana: That is a huge block of ice!

Me: Looks like something was frozen inside it.

Copper: Whatever it was it's gone now.

We later went back to Outpost 31 and ran an autopsy on a man and a gross monstrosity we found.

Me: This guy looks normal from the looks of things.

Copper: Yep. No drugs, no alcohol, nothing.

Blair was looking at the ugly creature and he cut it open and pulled out some of its organs and it was gross.

Blair: Well, what we got here is what appears to be in any way a normal set of internal organs.

Me: They sure look normal to me.

Nico: Me too.

Laney: Gross.

Lisa was helping him.

Lisa: Heart, Lungs, Kidneys, Liver, Intestines. They seem to be normal.

Me: Yuck. It sure is ugly-looking.

Kate L.: No kidding.

We were playing pool and cards in the Rec Room. Bennings yelped and he saw a dog go underneath him.

Bennings: Clark will you put this mutt with the others where he belongs?

Clark: Yeah, okay.

I looked at Lana and nodded and spoke to her telepathically.

Lana was hiding in the crates and she was watching Clark bring the dog into the kennel. He turned the lights off and left. Lana watched and she saw the dog growl and the huskies were snarling, barking and growling and then the dog started shaking and dripping blood out of its mouth and its face split open and its skull fell out.

Lana: Oh man!

Lana opened the kennel door and got all the dogs out of there and they were scared and Lana was consoling them. The creature sprouted tentacles, it's tongue grew longer and it grew spider legs.

Lana: It's all right dogs. You're okay.

Clark came back in and wondered what all the commotion was about and he saw Lana caring for the huskies and he saw The Thing in the Dog Kennel. MacReady went to get a beer and he heard the commotion and pulled the Fire Alarm and we all went to the kennel!

Clark: I don't know what the hell's in there, but it's weird and pissed off. Whatever it is.

Lana: I got all the dogs but they are scared!

Me: Good work Lana.

MacReady: Bennings go get childs!

We heard a creature growling ferociously and it was unlike any kind of growling we've ever heard.

Kate L.: It's the Thing.

We went to the kennel and we saw a grotesque and gruesome sight! It was an ugly mass with a bunch of ugly features, blood, carnage and gore and it had a fake dog on it.

Me: WHAT THE FUCKING HELL!?

The creature screeched and it was horrifying! Everyone was looking at it in sheer horror! It was a grotesque and horrifying sight!

Laney: What is that Thing!?

Kate L.: That's The Thing! It's what attacked Thule Station!

MacReady and Garry fired guns and they hit the Thing and injured it. But the bullets weren't having any effect.

Me: Mac! Gerry! Stop! Bullets are useless against it.

Lola: Let me destroy it!

Lola fired a powerful blast of fire and burned it!

Lincoln: That Thing is toast!

Me: Good thing these Things don't like fire.

Nico: Yep. Hard to imagine that dog was a Thing.

Me: Yeah.

We ran an autopsy on the Dog-Thing and it was a disgusting and bloody and gruesomely grotesque sight. It was so disgusting seeing it. It made me almost want to throw up my guts. It made most of us want to throw up.

When it was done, Blair told us his findings.

Blair: You see, what we're talking about here is an organism that imitates other lifeforms, and it imitates them perfectly. When this Thing tried to attack our dogs it was going to digest them. Absorb them. And in the process shape its own cells to imitate them. This for instance. (Points to something) That's not dog. It's an imitation. Lana saved our dogs just in time.

Me: The poor babies. They were terrified by this ugly thing.

Laney: The poor things.

Lana: Yeah.

Me: But good work Lana.

Lana: Aw it was nothing.

Me: But it's obvious that the dogs aren't gonna be safe here with The Thing running around.

I scanned the dogs for any signs of The Thing and there was nothing.

Me: Good. No signs of the Thing in them.

Blair: How are you able to tell J.D.?

Me: My Omnitrix can detect Alien DNA and it can know a lot of things no human can understand.

Blair: That's really interesting.

I beamed the dogs to our estate at home and they were safe. Lana went back and was watching over the dogs.

We looked over the tapes from the Norwegian Camp and we saw that the people of Thule Station were digging around something.

Garry: Where'd they take these shots?

Me: Somewhere far from the looks of it.

Norris: Seems like they were spending most of their time someplace northeast of their camp at about 5 or 6 miles.

Fuchs: What's that?

We saw some strange shape under the ice.

MacReady: Looks like something buried under the ice.

Kate L.: That's the ship. We found a strange alien spacecraft under the ice.

We gasped.

MacReady: How is that possible?

Me: We've encountered a lot of things from space MacReady. It's a long and strange history.

MacReady: I can tell.

Later Kate told everyone about The Thing and what it's capable of and how dangerous it is to the entire planet.

MacReady: I don't know. Thousands of years ago it crashes. And this Thing gets thrown out or crawls out and it ends up freezing in the ice.

Childs: I just cannot believe any of this voodoo bullshit.

Me: There are lots of things we don't believe Childs.

Lola: Yeah. It's all true.

Palmer: Childs, it happens all the time man. They're falling out of the skies like flies. Government knows all about it. Right Mac?

MacReady: I believe it.

Me: Me too. But a lot of things are out there. A lot of things are waiting for us to explore.

Childs: And how does this motherfucker wake up after thousands of years in the ice?

Fuchs: And how can it look like a dog?

MacReady: Because it's different than us see? Because it's from outer space.

Kate L.: That's right. But we can't let this Thing leave here. If it makes it out of here, millions of people could die.

MacReady: It wouldn't just be millions, it would be the end of the world.

Me: Yep. That's why we have to keep it contained here. So we can destroy it.

Lincoln: This is turning into a nightmare from hell.

Me: Yep. Kate went through the exact same thing. The Thing killed everyone she knows in Thule Station.

Nico: And we've come here to destroy it completely.

Laney: But our powers make us impervious to getting infected by it.

We were in for one of the toughest battles ever.

---

Later we went to keep first watch. Then we heard the alarm go off and we followed MacReady and the crew outside and we saw Bennings outside and we saw him on the ground.

We surrounded him.

MacReady: It isn't Bennings!

We saw that his hands were horribly grotesque and gruesome!

Me: WHAT THE FUCK!?

Lincoln: What's happening to him!?

The Bennings-Thing let out a horrifying screech and it sounded like a bunch of creatures all at once. The sound of that screech sent shivers of fear down my spine. It was horrifying.

Thing: Hey, ugly! Ya probably don't care but you're making my name look bad!

Thing smashed the Bennings-Thing with devastating force and crushed it! But it regenerated itself.

Me: Physical Force is completely useless! But not this!

I fired a massive blast of fire at the Bennings-Thing and incinerated it. It let out a horrifying scream as it was being incinerated.

MacReady went to get a flamethrower.

Garry: My God what was happening to him!?

MacReady: If it had more time to finish, it would've looked and sounded and acted just like Bennings.

Garry: I don't know what you're saying.

MacReady: It was one of those Things out there trying to Imitate him Garry.

Me: That's what this Thing is Garry. It's a Shapeshifter. It imitates lifeforms perfectly.

We gathered the gruesome bodies of The Thing and we dumped fuel and oil on them and lit them on fire and incinerated them.

Nico: You Things have Failed this universe.

Kate L.: They sure have.

There was nothing left in the outpost.

Lola: Where's Blair?

Me: That's what I was wondering.

Fuchs came up to us.

Fuchs: I can't find Blair.

Me: Where's everybody else Fuchs?

Fuchs: Windows is still in the radio room trying to get through and everyone else is in the rec room.

Me: We'll be in there shortly.

MacReady: Right.

Fuchs: Okay.

He went back inside.

We looked around and we heard sparking and we saw that the Helicopter control board was destroyed.

BANG!

We heard a gunshot and went back inside fast! We heard Blair ranting and he was destroying everything in the Radio Room.

Norris: He's got a gun.

Blair: If anybody interferes, I'll kill them!

BANG!

His shot grazed my face and cut it.

Me: Wow!

MacReady: He smashed up some of the chopper pretty good. Childs, go see if he got to the tractor.

Childs went to do so.

We saw Blair smashing the radio equipment and Windows was hiding under the desk with a nasty wound to his head.

MacReady: Christ.

Me: He's fucked up.

Nico: No kidding.

Childs came back.

Childs: He got most of the chopper and the tractor.

Me: The dogs are safe. They're back in our dimension.

Clark: Thank goodness. Thanks J.D.

Me: Lana's watching them for you while we're here. I'll handle this. Laney, you help Windows when I subdue Blair.

Laney: Right.

I went over.

Me: Blair! Put the gun down and lets talk.

Blair pulled out his gun and shot at me and it hit my arm!

Blair: I'll Kill You!

He shot me 4 times. But I was still standing.

He grabbed the axe and I kicked it out of his hands and I punched him in the face and sent him crashing into the wall and knocked him out.

I pulled out the bullets and they were good ones.

Me: Wow.

Laney went over to Windows and looked him over.

Laney: You all right Windows?

Windows: Yeah.

Norris: Nice shot J.D.

Me: Thanks Norris.

Copper: You okay there?

Me: Yeah. It's gonna take a lot more than just bullets to kill me. Immortality and invincibility has its perks.

Copper: You're really something J.D.

---

Later we took Blair and we were gonna keep him in the Tool Shed. We had the tool shed boarded up.

Norris: What about your shack MacReady?

MacReady: I don't want him in my shack. We'll lock him in the tool shed.

We put him in the shed despite the blistering cold.

Copper injected him with morphine.

Blair: Why am I in here?

Copper: For your own protection Blair.

Me: We have to keep you in here now Blair. You've gone insane and you became a danger to everyone around you and to yourself.

Blair: I don't know who to trust.

MacReady: I know what you mean Blair. Trust is very hard to come by these days.

Lincoln: Especially with The Thing running around.

Me: Yep. How about you trust in the lord?

We regrouped.

Copper: And now the radio's gone.

Childs: And so are the choppers.

Copper: Ah we're completely cut off.

Garry: All we can do now is hold up till Spring and wait for the rescue team.

MacReady: No. We don't wait. Somebody in this camp ain't what he appears to be. Right now that may be one or two of us. By Spring, it could be all of us.

Me: The Thing can't become us. Our powers make us impervious to any outside infection or contamination.

Childs: That's really something.

Kate L.: It is.

Childs: So how do we know who's human? If I was an imitation, A perfect Imitation, How would you know if it was really me?

Me: I have a couple of tests we can do. Doc do you have a test in mind?

Copper: Well, yeah, possibly I've been thinking about a blood serum test.

Childs: What's that?

Copper: We could take a sample of each persons blood, we could mix it with uncontaminated blood. I suppose if there's a reaction, we'd know who isn't human.

Me: That test might work. And if it doesn't I can use my Omnitrix to scan for The Thing inside you and flush it out.

MacReady: Good idea. We'll go with the Doc's test first.

Me: Okay.

Fuchs: We've got whole blood in storage.

Garry: (Hands Copper some keys) Start working on that.

MacReady: Keep an eye on Clark. He was close to that dog.

Me: We'll keep our eyes peeled. I'm sorry Clark, but I'm afraid this is for your safety.

Clark: I understand.

MacReady: Lets do it.

Me: Okay.

Fuchs: Mac. We need Blair's help. He's the only one that knows this organism.

MacReady: He's too far gone Fuchs. But get the rest of his notebooks. Start going through them.

Me: Lisa and Kate can help you with this Fuchs.

Fuchs: Okay.

We got to work.

---

Fuchs and Copper went to the storage room and we found blood pouring out of a refrigerator. Fuchs opened it and saw that the blood packs have been ripped open!

Fuchs: Garry! Hey you guys! Come here!

We went to the storage room and we saw the blood was all over the floor.

Me: What happened?

Copper: Somebody got to the blood.

Norris: What!?

Childs: Where's Clark?

Clark: Right here.

MacReady: Wait a minute. Wait a minute. Was this broken into?

Fuchs: No the lock is undamaged. Somebody opened it, closed it and then locked it.

Me: Looks like somebody tampered with it somehow.

MacReady: Who's got access to it?

Me: Usually Doc right?

Copper: Yes. I guess I'm the only one.

Garry: And I got the only key.

MacReady: Would that test have worked, Doc?

Copper: Oh I think so yes.

Kate L.: I think it would've worked too.

Norris: Somebody else sure as hell thought so.

Me: Sounds like the Thing doesn't want to be exposed.

Lisa: That could be a logical assumption.

Me: Kate, you tried to think up a test to see who wasn't human at Thule Station right?

Kate L.: Yes. But it was sabotaged and the lab was set on fire.

Lincoln: Sounds like this Thing is that crafty.

Nico: No kidding.

MacReady: No shit. Well who else could've used that key?

Garry: Nobody! I just give it to Copper whenever he needs it.

MacReady: Could anybody have gotten it from you, Doc?

Copper: I don't see how. As soon as I'm finished, I return it right away.

I sensed distrust building.

Windows: Great.

He started to back away in fear.

Fuchs: When was the last time you used it?

Copper: Day or so ago I guess.

Me: Garry, you gave Windows the keys when Bennings was killed right?

Garry: Yeah. I did. I suppose, somebody could've lifted it off me.

Childs: Oh, come on! That keyring of yours is always hooked to your belt!

Then everyone started yelling.

I broke them up.

Me: All right you guys! That's enough! I know you guys don't trust anybody now, but that's what this Thing wants. It causes fear, paranoia and distrust among everyone it comes into contact with.

Nico: J.D.'s right. We have to find out who's human somehow.

Me: And since the blood test is out of commission, we'll use my test.

Then we heard some clattering.

Garry: Windows!

Me: Uh oh!

Windows went down the hall and he got to a gun cabinet and kicked through the window and got a rifle. Garry had his gun pointed at him.

Garry: Put that down.

Windows: (Fearful) No!

Garry: I'll put this right through your fucking head!

Windows: You guys gonna listen to Garry? You're gonna let him give the orders? I mean he could be one of those Things!

MacReady: Wait a minute. Just take it easy, put the gun down. Put it down. Garry, you don't want to hurt anybody.

Garry: Right.

Me: Garry look at him. He's totally scared out of his mind. He's in a state of total fear. Now please. Lets just go with my test and then I'll flush out the Thing. Garry, I know you didn't go near that blood. But I have a feeling I know who did.

Garry then handed me his gun.

Me: First we got to burn the blood packs and the bad blood.

We did so.

We went into the Rec room and I had everyone in the Outpost but Blair tied down.

Me: I know this isn't right. But unfortunately it's what we have to do.

Garry: We understand.

MacReady: I know I'm human. If you were all these Things, then you'd just attack me right now. So some of you are still human. This Thing doesn't want to show itself. It wants to hide inside an imitation. It'll fight if it has to. But it's vulnerable out in the open. If it takes us over, then it has no more enemies, nobody left to kill it. And then it's won.

Me: Okay. I know you're all scared. But we can get through this if we work together. I'm going to scan you all with my Omnitrix and it'll look for the Thing inside you guys. If the light is green, that means you're clear. If it's red, that means you're the Thing.

MacReady: That's very genius.

Me: Okay. Here goes.

I fired a green scanning beam of light from the Omnitrix at Windows and a green light blinked.

Omnitrix: No alien DNA detected.

Me: Well that's good. You're clear Windows.

We untied him.

Me: Now for Nauls.

I scanned him and a green light blinked.

Me: Nothing. You're clear Nauls.

Nauls was untied.

Me: Mac now.

I scanned him and a green light blinked.

Me: You're clear Mac.

MacReady: I knew I was human.

Me: It's good you are. Okay, now for the Doc.

Childs: It's a crock of shit.

I scanned Copper and a green light blinked.

Me: Nothing. You're clear Doc.

We untied him.

Me: Now for Garry.

I scanned him and a green light blinked.

Me: Garry's clear.

Garry: I know that you all have been through a lot, but when you find the time I'd rather not spend the rest of this winter TIED TO THIS FUCKING COUCH!

Me: Okay okay Garry.

We untied him.

Me: Sheesh. Fucking temper. Fuchs is next.

I scanned him and a green light blinked.

Me: You're clear Fuchs.

We untied him.

Me: Childs is next.

I scanned him and a green light blinked.

Me: Negative. You're clear Childs.

We untied him.

Me: Only 4 left. Clark.

I scanned Clark and a green light blinked.

Me: Clear.

We untied him.

Me: Palmer now.

I scanned him and then a red light blinked.

Omnitrix: Alien DNA detected. Subject is Contaminated.

Me: Palmer's one of those Things!

Palmer then started shaking and then blood was pouring out of his face and his face swelled up and he broke out of the ropes and hit the ceiling and I blasted him with a powerful blast of fire and incinerated him!

Me: Yes!

Garry: Nice save J.D.

Me: Thanks. Norris is next.

I scanned Norris and the light blinked red.

Omnitrix: Alien DNA detected. Subject is contaminated.

Me: Norris is infected!

Norris then shook and his chest opened up.

Edzilla: (punches the Thing Monster) ED SMASH MONSTER!

He smashed it through the wall and I pulled out a stick of dynamite and lit the fuse and threw it. It blew the Norris-Thing apart!

KRABBOOOOMMM!

Me: That takes care of them.

Garry: Good work J.D.

Me: One more to cover. Blair. If he tries to make it back here and we're not with him, burn him.

We went out to the tool shed and I saw Blair sitting. I opened a window in the door.

Me: Hey Blair. Just need a couple seconds with you.

I scanned Blair. The Omnitrix blinked red.

Omnitrix: Alien DNA detected. Subject is contaminated.

Me: He's infected!

Blair: Very clever flushing me out fool!

Me: Wait. How come you aren't changing yet?

Blair: I want to explain myself first.

Me: We're all ears.

Blair: The reason my kind crashed here on this wretched planet 100,000 years ago is because I was waiting and I formulated a plan to get out of this frozen wasteland and infect everything on this wretched planet and turn everyone into Things like me.

Me: What you are doing will cause the ultimate destruction of the entire human race!

Blair: They are a flawed species and now we will deliver our judgement onto this planet as soon as we get out of here!

Nico: That's Omnicide!

Me: Who is we?

Blair: Me and the Thing inside me.

Me: So that's it. The Thing virus transforms a lifeform into a carrier!

Kate L.: I was right. If it did make it out of here, everyone would die.

Me: They would become carriers. Now we're gonna make sure that doesn't happen "BLAIR". We're sending you to hell!

Kate L.: I've been waiting a long time for this!

Me: 37 years too long. Lets get him!

Nico: You Things have failed this universe!

We went at The Blair Thing and it transformed into a huge monstrosity!

Me: WHAT THE FUCK!

Lincoln: This creature is ugly!

Me: We've seen uglier creatures than this.

We blasted it and I fired a powerful blast of fire and burned it.

Lincoln fired a massive blast of lightning and electrocuted it. MacReady, Childs and Kate fired flamethrowers and fire blasts at the Blair-Monster and it was burning him all over. Lola fired a powerful blast of fire and Linka and Earth fired lightning and globs of lava at the creature. It roared in pain and it had tentacles grow out and they went out at us and we dodged them and slashed them and burned them.

Me: Lets finish him with some teamwork!

G1 Cliffjumper: Right boss! CYBER KEY POWER!

The Autobot Cyber Planet Key went into his arm and it enhanced his blasters and hand blasters 100-fold.

Kairi: Time for some action! DISNEY KINGDOM CYBER KEY POWER!

The Disney Kingdom Cyber Planet Key went into her right arm device and it enhanced her Keyblade powers 100-fold.

G1 Cliffjumper and Kairi: LIGHTLASER FIRESTORM BLAST!

G1 Cliffjumper and Kairi fired powerful laser and light blasts and they hit the Blair Monster and burned it all over in a massive explosion.

KRABBBOOOOOOOOOOOOOOOOOOOOOOOMMM!

Poison Ivy: Lets get him! ANIMATRON CYBER KEY POWER.

The Animatron Cyber Planet Key went into her right arm device and enhanced her plant powers 100-fold.

Blot: Lets get him! CYBER KEY POWER!

The Animatron Cyber Planet Key went into his right arm and enhanced his corrosive gun 100-fold.

Poison Ivy and Blot: POISON ACID DISINTEGRATION!

Poison Ivy and Blot fired a powerful stream of acid and burned him all over.

Me: Lets finish him with final smashes! But first lets see how many aliens and creatures you are and what they are.

I scanned the Blair Monster and my Omnitrix revealed a shocking revelation!

Omnitrix: 10,232,453 unknown DNA samples acquired. Scan complete.

Me: WHOA! Over 10 million Aliens!? HOLY FUCK!

Nico: That's incredible! And I thought the Animorphs knew a lot of aliens.

Lori: They know 15,000+ Aliens.

Fuchs: Looks like Blair was not even close about his findings.

Me: No kidding. This has to be the most aliens one creature is composed of.

Lori: How is that literally possible!?

Me: No idea.

Bella: That's incredible. This Thing is all those aliens all in one.

Bella got the same number of aliens as well.

Riley: That is amazing.

Laney: It sure is.

Me: Now lets finish it!

Tanya: You are never going to infect us! SAPPHIRE DRAGON FIRESTORM!

Tanya fired a massive blast of blue fire and it turned into a powerful dragon of blue fire and it slammed into the Blair Monster and exploded.

KRABBBOOOOOOOOOOOOMMM!

Lincoln: Lets fry this monstrosity. LIGHTNING DART PIERCE!

Lincoln fired a powerful blast of lightning and it skewered the Blair Monster all the way through him!

Qin: Lets fry his ass! KOMODO FIRESTORM BURN!

Qin fired a powerful blast of fire and it turned into a deadly Komodo dragon and burned the Blair Monster.

MacReady: You helped us so I'll give you a swift death. MOLOTOV COCKTAIL BURN!

MacReady threw a molotov cocktail and it hit the Blair Monster and burned it.

Kate L.: This is for all of my friends that you all killed! FIRESTORM SPIRIT NIGHTMARE!

Kate summoned a bunch of fire spirits that looked like her friends at

Thule Station and they slammed into the Blair Monster and burned it.

Me: Now for the Grand Finale. Kate, Mac?

Kate: Lets do it!

Me, Kate and Mac: YEAH FUCK YOU TOO!

We fired a powerful energy blast and it hit the Blair Monster and exploded with incredible power.

KRABBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

The Blair Monster was obliterated in an instant.

Me: That takes care of him.

Lincoln: There. It's finally dead.

Me: Yep. But we're not done yet. We got to destroy the Alien Spaceship that the Thing came in.

Kate L.: Right.

We repaired the helicopter and set out for the sight of the Alien Spaceship.

We arrived at the ship. We saw that it was a flying saucer type ship.

Me: It's a flying saucer ship.

Nico: Interesting mechanics.

Kate L. Oh god. Last time I was here it was in an ice cave, not a crater.

Me: Something must've moved it. Lets go see what the inside looks like.

We went down and we went into the ship. We walked around the ship and what we saw was amazing. It was an incredible alien spaceship loaded with all kinds of alien technology the likes of which we have never seen before. We found some holographic logs, but they were all in an alien language that no one can understand. I translated them and saw that The Thing was supposedly an experiment designed as a biological weapon. But it went horribly wrong and it caused the ship to crash land on Earth as a result.

Me: Whoa! Whatever these aliens were, they were really playing with fire.

Lincoln: No kidding. They created a horrifying monster!

Me: Composed of 10,000,000+ different aliens. Very complicated stuff.

Lisa: Indeed. This is all a magnificent feat of genetic science.

Lola: It sure is dangerous what they were doing.

Kate L.: I agree.

MacReady: We have to destroy all this.

Me: I agree Mac. We can't let all this get into the wrong hands or it'll be catastrophic.

We went out of the ship. We looked at it.

Me: You will never terrorize the universe again! (Cups Hands to Side) KAAAAAAA! MEEEEEEEEE! HAAAAAAAA! MEEEEEEEEE! HAAAAAAAAAAAAAAAAAAAAAAAA!

I fired a powerful Kamehameha Wave at the ship and it hit it and the whole ship exploded in a massive and powerful explosion.

KRABBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

The Whole Ship was completely destroyed and obliterated into nothing in an instant. When the smoke cleared, there was nothing left of the ship.

Me: That takes care of that.

Kate L.: My nightmare is finally over.

Kate then looked at me and hugged me and she broke down crying hard and her cries were full of sadness and grief. I hugged her as she was crying.

Me: It's okay Kate. It's okay. Just let it all out.

I was comforting her. She was crying hard after everything she went through. She was wailing hard and her crying was making our hearts hurt. She went through a horrifying nightmare that was worse than 100,000 Hells put together. It was a nightmare no one ever wants to experience in 250,000 lifetimes.

Mac and the survivors of Outpost 31 went with us. The nightmare of The Thing had been erased from all of existence forever.

Kate L.: (To the viewers) If you plan on going down to Antarctica, make sure that there are no horrifying alien monsters that are shapeshifting creatures with you there.

Me: Good advice Kate.

MacReady: Thanks for saving all of us J.D.

Me: Anytime Mac.

Nico: The Thing has failed this whole universe.

Me: It sure has Nico.

Nico also caught a Tapu Lele and Tapu Bulu.

Kate's friends at Thule Station have been avenged. Clark's dogs were now our dogs too. I love huskies and malamutes and they are cute.

THE END

Another Fanfiction Complete and Part 2 of The 13 Days of Horror

Saga done.

The Thing has been a really horrifying movie that scared me really bad ever since I first saw it. When I was 18 I was so terrified of it that it sent me into these terrible panic attacks of pure fear. I got these really bad nightmares and they were awful! I saw both movies for The Thing from 1982 and in 2011 and everyone in that movie did a great job in both movies. The Thing Video Game from 2002 was really scary. I didn't play the whole thing, but it was really terrifying. The final boss at the end, the Cloud B4 Carrier was a huge and horrifically ugly monstrosity. But as I watched the movies again and again I got stronger in courage as I realized that it was not real. But I'm not scared of the movies anymore. NicoChan11 gave me the ideas for this one. Thanks man. Next for part 3 is The Blob from 1988. Prepare to face the OOZE OF CARNAGE! Let me know what you all think.

See you all next time.

# The Ooze Of Carnage

At the Estate, we were watching TV and playing card games. We were also petting our pets and the huskies. They were cute. Ben came down.

Ben: Hey guys, we're gonna go to Mr. Smoothy. You all want to come?

Me: Sure Ben.

Ben: Hey, Qin. We're going to Mr. Smoothy. Wanna come?

Qin: Sure Ben.

We were heading out to Mr. Smoothy.

---

In the middle of the city, we were walking over to Mr. Smoothy.

Me: So Ben, you guys have been to Mr. Smoothy several times from what we were told.

Ben: Oh yeah J.D. The smoothies are delicious.

Kevin Levin: They are good. We're frequent customers at Mr. Smoothy and we get good smoothies there.

Me: Sounds like you guys had some good times there.

Gwen T.: We sure did.

Julie Y.: Yep.

Ben told me the history of Mr. Smoothy.

---

The grand opening of Mr. Smoothy in Bellwood was presented in a flashback in A Jolt from the Past when Ben was 11 years old and did not like smoothies.

4 to 5 years later, Ben became infamous for drinking numerous amounts of them whenever he goes to Mr. Smoothy, drinking a collection of strange flavors, only to burp unpleasantly loud.

In Vreedle, Vreedle, the Vreedle Brothers destroyed Mr. Smoothy.

In In Charm's Way, the restaurant's iconic mascot was brought to life, only to be drunk dry by Murk Upchuck.

Mr. Smoothy was again destroyed in Greetings from Techadon, but was rebuilt by The More Things Change: Part 1.

Since So Long, and Thanks for All the Smoothies, after the universe is destroyed by the Anihilaarg and recreated by Alien X, in the new version of the universe, Mr. Smoothy's mascot, colors and logo are different.

---

Me: Wow! You guys are really well known there.

Alan: Yep.

Manny: It's a good place too.

Chione: I've never been to Mr. Smoothy. I'll have to try it.

Overkill: Thanks for letting me join you guys.

Me: No problem Overkill.

We arrived at Mr. Smoothy. It was a really cool juice bar and it was a cool one.

G1 Jazz: So this is Mr. Smoothies?

Ben: Yep. Team Omnitrix's home away from home.

We laughed.

Star Man (Mega Man): How many flavors does Mr. Smoothy's have?

Ben: They have a lot of flavors.

Kevin Levin: Over 10,000 flavors and a huge number of combos to pick from.

Me: That's cool!

We went in and we ordered our smoothies. We got them and they were delicious.

Me: (Slurps) Mmm! These are good! I like the blue raspberry and mint flavor. It's good.

Nico: They sure have all kinds of good flavors though. I like the strawberry and vanilla.

May: Me too Nico.

Lincoln: I like the Orange Creamsicle flavor. It's tasty.

Chione: I like the blueberry and kale. It's good.

Katara: (tries a Smoothy) This is actually good! I like the strawberry, orange, banana flavor.

Aang: They sure are good.

Me: I think we may have a new Summer Cool Down spot.

We laughed.

Kate L.: That was really clever using your Omnitrix to flush out the Thing, J.D.

Me: Thanks Kate. I'm glad we've now seen the last of the horrifying nightmare of The Thing. That monstrous creature destroyed many lives.

Nico: Yep. It sure has.

Megan: That creature was a monster. It deserved to be destroyed and erased forever.

Me: Yep. But what really shocked me was that it was a fusion of 10,000,000+ aliens from all over the universe. Now we have a massive menagerie of aliens in our arsenals.

Ben: We sure do.

Bella: Yep.

Lana: That was still a terrifying adventure though.

Lola: It sure was.

Laney: It's just absolutely terrible that the Thing can cause that kind of psychological mayhem.

Lisa: Indeed.

Me: Yeah.

We were having a good time at Mr. Smoothy.

* * *

Back at the estate, we were watching one of my dad's favorite movies from his past: The Blob! It was the one from 1958.

In a small rural Pennsylvania town in July 1957, teenager Steve Andrews (Steve McQueen) and his girlfriend, Jane Martin (Aneta Corsaut), are kissing at a lovers' lane when they see a meteorite crash beyond the next hill; Steve decides to look for it. An old man (Olin Howland) living nearby finds it first. When he pokes the meteorite with a stick, it breaks open, and a small jelly-like globule inside attaches itself to his hand. In pain and unable to scrape or shake it loose, the old man runs onto the road, where he is nearly struck by Steve's car; Steve and Jane take him to Doctor Hallen (Stephen Chase).

Doctor Hallen anesthetizes the man and sends Steve and Jane back to locate the impact site and gather information. Hallen decides he must amputate the man's arm since it is being consumed. Before he can, the Blob completely consumes the old man, then Hallen's nurse, and finally the doctor himself, all the while continuing to grow. Steve and Jane return in time for Steve to witness the doctor trying to get out the window with the creature on his head. They leave and go to the police station and return with Lieutenant Dave (Earl Rowe) and Sergeant Bert (John Benson). There is no sign, however, of the Blob or its victims, and Bert dismisses Steve's story as a teenage prank. Steve and Jane are taken home by their parents, but they later sneak out.

In the meantime, the creature consumes a mechanic at a repair shop and grows in size every time it consumes something. At the Colonial Theater, which is showing a midnight screening of Daughter of Horror, Steve recruits Tony (Robert Fields) and some of his friends to warn people about the Blob. When Steve notices that his father's grocery store is unlocked, he and Jane go inside. The janitor is nowhere to be seen. Then the couple are cornered by the creature; they seek refuge in the walk-in freezer. The Blob oozes in under the door, but quickly retreats. Steve and Jane gather their friends and set off the town's fire and air-raid alarms. The townspeople and police still refuse to believe Steve. Meanwhile, the creature enters the Colonial Theater and engulfs and devours the projectionist before oozing into the auditorium. Steve is finally vindicated when screaming people leave the theater in blind panic.

Jane, Danny, and Steve become trapped in the diner, along with the manager and a waitress. The Blob, now enormous and blood red from the people it has consumed, has engulfed the building. Dave has a connection made from his police radio to the diner's telephone, telling those in the diner to get into the cellar before they bring down a live power line onto the diner.

When the live wire lands, it discharges a massive electrical current into the Blob, but it is unaffected and the diner is set ablaze. When the diner manager uses a carbon dioxide extinguisher on the fire, Steve notices that this causes the creature to recoil. Steve remembers that it also retreated from the freezer, saying "That's why it didn't come in the ice box after us. It can't stand cold!" Shouting in hopes of being picked up on the open phone line, Steve tells Dave about the Blob's vulnerability to cold. Jane's father, Mr. Martin

(Elbert Smith), leads Steve's friends to the high school to retrieve the twenty fire extinguishers there. Returning, the brigade of fire extinguisher-armed students and police first drive the creature away from the diner, then freeze it, saving Steve, Jane, and the others.

Dave requests authorities send an Air Force heavy-lift cargo aircraft to transport the Blob to the Arctic, where it is later parachuted down to the ice and snow pack. Dave says that while the creature is not dead, at least it has been stopped. To this, Steve Andrews replies, "Yeah, as long as the Arctic stays cold".

The film ends with the words "The End" which then morph into a question mark.

Next we watched the sequel for it from 1978: Beware! The Blob.

Picking up fifteen years after the events of the first movie The Blob, an oil pipeline layer named Chester (Godfrey Cambridge) returns to his suburban Los Angeles home from the North Pole, bringing with him a small sample of a mysterious frozen substance uncovered by a bulldozer on a job site. Prior to taking the substance to a lab to be analyzed, he places the storage container with the substance in his freezer, but he and his wife Marianne (Marlene Clark) accidentally let it thaw, creating a second Blob. It starts by eating a fly, then a kitten, then Marianne, and then Chester himself (while, in an intentional anachronism by the film makers, he is watching a television broadcast of the film The Blob).

Lisa (Gwynne Gilford), a friend, walks in to see Chester being consumed by the Blob. She escapes, but cannot get anyone to believe her, not even her boyfriend Bobby (Robert Walker Jr.). Meanwhile, the rapidly growing creature quietly preys upon the town. Some of its victims include a police officer and two hippies (Cindy Williams and Randy Stonehill) in a storm drain, a barber (Shelley Berman) and his client, transients (played by director Hagman, Burgess Meredith and Del Close), a Scoutmaster (Dick Van Patten), a farm full of chickens and horses, people in a gas station, and various townspeople who turn up "missing".

At one point, Lisa and Bobby find themselves trapped in Bobby's truck with the creature attempting to find a way inside. While panicking, the truck's air conditioning is accidentally switched on and the Blob retreats because of its vulnerability to cold.

The now-massive Blob then invades a bowling alley and a skating rink (consuming dozens more people in the process). It is finally stopped when Bobby activates the rink's ice mechanism, freezing it. While the frozen Blob is being filmed by a television crew, one of the crew's bright lights is positioned on the ground, melting a small portion of it, which oozes toward the sheriff and envelops his feet as he is speaking on camera to a nationwide television audience.

Lastly we watched the 1988 movie of The Blob.

A meteorite crashes near Arborville, California. An elderly transient discovers, within the sphere, a massive slime mold-like substance that adheres to his hand. Three high school students, Brian, Meg and Paul, take him to a hospital. After Brian leaves, Paul witnesses the lower half of the transient melting from exposure to the Blob. As he calls for help, the Blob drops on top of him. Meg arrives to see Paul being devoured by the growing Blob. While she tries freeing him, his arm dissolves off, Meg is thrown against a wall and knocked unconscious, and the Blob oozes out of the hospital.

After Brian and Meg have unsatisfactory encounters with the police, they meet at a diner where Meg tells Brian about the Blob. Brian's disbelief is shattered when the diner's handyman is pulled through a sink drain by the Blob. It pursues them to the diner's walk-in freezer, but the Blob retreats after entering the freezer. After consuming the diner's owner Fran Hewitt and Sheriff Geller, the Blob reenters the sewers. Meg and Brian return to the police station, where the dispatcher tells them Deputy Briggs is near the meteor-landing site. They discover a military operation led by a scientist, Dr. Meddows, who orders the town and the two teens quarantined. While Brian escapes, Meg is taken to town where she learns her younger brother, Kevin, is missing. Meg learns he and his friend, Eddie, sneaked into the movie theater. The Blob enters the theater, attacking the staff and audience. Meg arrives as the audience flees the theater, rescuing Eddie and Kevin.

Brian eavesdrops on Meddows and Jennings talking and learns that the Blob is a biological warfare experiment created during the Cold

War, launched into space because it was so dangerous. Learning that the Blob has entered the sewers, Meddows decide to trap it there, even if that means allowing Meg, Kevin, and Eddie to die. Brian is discovered listening in and evades military personnel by driving his motorcycle into the sewers. In the sewers, Meg and Kevin flee from the Blob when it emerges and consumes Eddie. Kevin escapes by scaling a pipe to the surface, and Meg is saved by Brian, who confronts Meddows in front of the townsfolk and Briggs. After failing to convince everyone Brian is contaminated and must die, Meddows attempts to shoot him, but is killed by the Blob as it oozes into his chemical suit and drags him into the sewer. Then the Blob feasts upon the population, impervious to the military's attempts to stop it, killing Colonel Hargis and multiple others. The town's Reverend Meeker proclaims the scene to be the prophesied end of the world, after which a failed flamethrower attack on the Blob sets him ablaze. Meg saves him with a fire extinguisher, and in the process blasts the Blob with it. When the monster backs off, she realizes that the Blob cannot tolerate cold.

The survivors retreat to the town hall and hold the Blob off with furniture-barricades and fire extinguishers, but it is a losing battle; the Blob engulfs half the building and devours Briggs. Brian goes to the town's garage and gets a snow maker truck that has canisters of liquid nitrogen attached. As the Blob is about to consume Meg and her family, Brian shoots snow at the creature, which is angered and knocks the truck over. As the Blob surges toward Brian, Meg lures it away from him toward the canisters, which she has rigged with an explosive charge taken from a dying soldier. She tries getting clear, but snags her foot between two pieces of metal, trapping her. Brian regains consciousness and runs over to free her. The Blob is about to overrun them when the charge goes off, blowing up the canisters and covering the Blob in liquid nitrogen. The creature is flash-frozen into a mass of crystallized pieces. Moss Woodley has its remains stored in the town ice house.

Later, at a tent-meeting church service in a field, Meeker, disfigured by his burns and secretly driven insane, preaches a doomsday sermon resembling the Blob's attack. He has a still-living piece of the Blob, trapped inside a glass jar, to eventually unleash it once more upon the world.

When the movies were done we cheered wildly.

Me: That was so awesome!

Laney: It sure was.

Lana: That blob was ugly.

Lola: Didn't we face one that was just like it?

Nico: That blob was a Goosebumps monster made on a magic typewriter. This blob was from outer space.

Me: Yep.

I looked up the history of The Blob.

---

The Blob comes from a small meteorite which falls on Earth. An old man finds it and pokes the meteorite using a piece of tree branch, making it crack and reveal the small Blob inside. He picks up the Blob with the branch to observe it, but the Blob attaches itself to his right hand. The old man is found by a couple, Steve Andrews and Jane Martin who take him to Dr. Hallen, who realizes that the Blob is dissolving the old man and tries to amputate the arm. Unfortunately, before he can do so, the Blob dissolves the old man. Dr. Hallen realizes that the Blob needs to be killed and has Nurse Kate pour trichloroacetic acid on it, but the Blob soaks it up. Dr. Hallen goes into his office to get his gun, leaving Kate behind who ends up getting devoured by the Blob. Dr. Hallen shoots at it several times, but the Blob is unharmed and goes after the doctor. Steve and Jane return in time to see Dr. Hallen being devoured by the Blob and try to alert the police, but by then, the Blob disappears and the police dismiss the warning as a prank.

Meanwhile, the Blob consumes a mechanic at a repair shop before going into Steve's father's grocery store, presumably devouring the janitor. Steve and Jane sees the store unlocked and goes to investigate, where they encounter the Blob. The Blob chases the couple into a freezer, but quickly retreats. The Blob later invades the Colonial Theater, first attacking the projectionist before oozing into the auditorium. As people flee the theater in blind panic, Lt. Dave enters the theater and encounters the Blob, whom he attempts to kill, but finds that bullets have no effect and retreats, stopping his deputy from entering. Then, the Blob emerges, having grown to gigantic size and blood red from the people it has consumed. The Blob attacks a diner with Steve, Jane, and her brother Danny trapped inside along with the diner's owner and waitress.

The police attempts to fry the Blob with a live power line, but it fails and the diner is set ablaze. The Blob then starts making its way into the basement, and as the owner tries to put out a fire with a CO2 fire extinguisher, he unintentionally blasts the Blob with it. Steve notices the Blob backing away from the exhaust and realizes why the Blob did not come into the freezer: because the Blob cannot tolerate the cold. Steve manages to use the diner's phone to tell Dave the Blob's weakness to the cold. The townspeople get all of the CO2 extinguishers that they can find and blasts the Blob with them, freezing it solid. Dave then requests an Air Force jet to transport the Blob to the Arctic, where it is parachuted onto the ice.

Son of Blob

In the sequel, an oil pipeline layer named Chester Hargis returns to his suburban Los Angeles home from the North Pole, bringing with him a small sample of a mysterious frozen substance uncovered by a bulldozer on a job site. Chester places the substance container in his freezer, but his wife, Mariane takes it out after reading that the container contains a specimen. The container pops open and the substance is revealed to be the Blob, which thaws out and revives. The Blob first consumes a fly that lands on it, then going after Mariane's cat, Samuel. When Mariane goes outside looking for Samuel, the Blob ambushes her. As Chester gets ready to watch a movie, the Blob crawls up his seat and patiently waits for Chester to absentmindedly sit down.

Later, Chester's friend, Lisa Clark, walks in to see him being devoured by the Blob. She flees to notify the police and her boyfriend Bobby Hartford, but when they investigate Chester's house, the Blob has disappeared and Lisa's claims are dismissed. Meanwhile, the Blob begins its hunt on the town with some of its victims being a police officer and presumably two hippies in a storm drain, a barber and his client, transients, a scout master, and a farm-full of chickens.

Later, when Lisa and Bobby drive back to Bobby's farm, the Blob descends down to try to get inside Lisa's truck. Despite the two's attempt to escape, the Blob covers the truck and squeezes in through the gap in the door. In panic, Lisa accidentally turns on the air conditioner, making the Blob retreat, establishing its vulnerability to cold as in the original film (though the characters, also as in the 1958 original, do not immediately make the connection).

As Lisa and Bobby's friend, Joe drives down the road, he sees the now-massive Blob blocking the path ahead of him and tries to turn around, but he's going to fast to stop and he ends up steering out of control, crashing straight into the Blob. Later, Lisa, Bobby, and another friend of theirs, Leslie drive by and see the Blob and Joe's car. Despite Lisa and Bobby's attempt to stop her, Leslie tries to go help Joe, only to end up as the Blob's next victim.

The Blob then invades a bowling alley, where it starts off with a repairman's assistant and then the repairman himself before it starts feeding on the customers. It then oozes into an ice rink where it consumes more people before chasing Lisa, Bobby, and the ice rink manager into the commentator's booth. Bobby attempts to fry the Blob with electricity, but it fails (like in the 1959 original). Sheriff Jones and Deputy Davis enter the ice rink and spot the Blob. Davis tries to shoot it down with his gun, but it fails and Davis gets eaten. Jones fires a few shots before realizing that bullets are not going to work and flees. Back in the booth, Lisa, the manager, and Bobby get on the counter to avoid the Blob, and in the process Bobby almost knocks down a refrigerator and spills out all of the ice onto the floor, making the Blob retreat and Bobby realizes the Blob's weakness to cold. Bobby tries to inform the police about the Blob's weakness, but fails due to the microphone being busted. Bobby then asks the manager how to freeze the rink and makes his way to the fuse box despite the Blob's attempt to catch him and successfully activates the rink's ice mechanism, freezing it.

While the frozen Blob is being filmed by a television crew, one of the crew's bright lights that is positioned on the ground melts a small portion of it, which oozes toward Jones and envelopes his feet as he is speaking on camera. The movie ends with a cliffhanger, not knowing if the Blob is stopped, as it is about to engulf Jones.

The Blob (1988)

The Blob's origin is changed, as it is now the result of a military experiment, created by Dr. Christopher Meddows, involving some bacteria being launched into space to be mutated by outer-space radiation.

In the woods, an elderly transient known the Can Man sees a meteorite crash onto the ground and goes to investigate. Through a crack on the meteorite, he sees something moving inside and uses a tree branch to poke inside, picking out the small Blob, which quickly attaches itself to the Can Man's hand. The Can Man then runs around in panic and encounters Brian Flagg. The Can Man attempts to cut off the hand with the Blob attached with an axe, but the Blob simply holds it in place and the Can Man runs off, with Brian chasing after him.

The Can Man eventually runs out into the open road, where he encounters Paul Taylor and Meg Penny, who take him to a hospital. While the Can Man is left unattended, the Blob starts feeding on the Can Man, which is noticed by Paul, who brings a doctor over, and the two sees that the Can Man's lower half has been dissolved. Paul then goes to call Sheriff Geller, but the Blob sneaks up on him and drops onto him. Paul's scream draws in Meg, who sees Paul enveloped by the Blob and tries to save him by pulling on his arm that is not covered by the Blob, but Paul's arm melts off and Meg falls unconscious while the Blob flees the hospital after dissolving Paul.

In the woods, the Blob comes across Vicki De Soto and Scott Jeske in the latter's car. As Scott gets out to prepare a drink to get Vicki drunk, the Blob sneaks into the car and gets into Vicki's body, killing her. As Scott gets back in the car, he sees Vicki unresponsive and moves onto unbutton her blouse, but before he can get on with the date rape, Scott gets grabbed by the Blob which comes bursting out of Vicki's body before engulfing Scott. Afterwards, the Blob slithers out of the car and enters the sewers.

At the town's diner, there is a clog in the kitchen sink and when the handyman, George reaches into the drain, he gets a mysterious substance on his fingers, and then, the Blob bursts out of the pipe and grabs George by the face before pulling him into the sink drain. The diner owner, Fran Hewitt, along with Brian and Meg, walk in to see George's corpse being dragged into the drain as the Blob emerges. The Blob chases Brian and Meg into the freezer, but it quickly retreats. Fran manages to get outside and runs into a phone booth to call Sheriff Geller, unfortunately, she is spotted by the Blob, which slowly starts covering the phone booth. When Fran manages to get a hold of the sheriff's office, she learns that Sheriff Geller is not present, and that's when the Blob presents her with Sheriff Geller's dissolving corpse. Fran screams at the sight as the Blob bursts into the phone booth and captures her. Afterwards, the Blob reenters the sewers while Reverend Meeker sees the creature and goes over to the diner to investigate, where he sees the frozen pieces of the Blob that were left behind and puts them in a glass jar.

At the theater, a projectionist named Phil Hobbes is relaxing and playing with a yo-yo in the projection room when it starts getting hot in the room. After calling the theater manager, Hobbes looks into the vents where he gets ambushed by the Blob. The manager comes into the room looking for Hobbes, when he sees Hobbes's yo-yo come down from the ceiling. The manager looks up to see Hobbes being digested by the Blob before the manager himself gets snatched up by the Blob.

Afterwards, the Blob enters the auditorium and begins its carnage with a rude patron that keeps talking and acting disrespectful. Meg runs into the theater to look for her brother, Kevin and his friend, Eddie. When she enters the room, she witnesses the audience fleeing in panic along with the Blob snatching up some unfortunate victims, including a woman with her head half-dissolved. Meg manages to reach Kevin and Eddie and direct them towards the emergency exit with the Blob in hot pursuit. The three manage to get out of the theater, but they are forced to go into the sewers when they encounter a dead end.

In the sewers, Meg, Kevin, and Eddie reach an area they can use to get out, but the Blob catches up to them and manages to catch

Eddie. Meg tries to save him, but fails and is forced to run as the Blob closes in on her and Kevin. However, the Blob gets distracted by three of Meddows's men attacking it and Meg is able to get Kevin to safety while Brian comes by and saves Meg. After barely dodging the Blob, the two encounter one soldier that survived the Blob's attack on his group. He leads the two to an exit, but Meddows has the exit blocked, and Brian uses the soldier's rocket launcher to blow the exit open.

As Meddows is about to kill Brian to cover up his crime of creating the Blob, the said creature grabs its creator and drags him toward the manhole, Meddows is able to grab on to the edge, but the Blob oozes inside his suit and after a struggle, Meddows is dragged into the sewer, eaten by his own creation. Following Meddows's death, Colonel Hargis has his men riddle the Blob with bullets and drops in a satchel charge for good measure, however, this only angers the Blob as it comes bursting out of the sewer. It crushes Hargis and then starts targeting the townspeople.

The townspeople flee from the Blob, and it chases after them, snatching up a few unfortunate victims. Reverend Meeker sees the ensuing carnage and believes it to be prophecy. A soldier attempts to attack with a flamethrower, but the Blob simply jams the nozzle with a tentacle, causing the flamethrower to backfire and burn the soldier, as well as Meeker, who gets caught in the backdraft. Meg gets a CO2 fire extinguisher to save him and instinctively blasts the Blob with it when it moves in for an attack, causing the Blob to back off. Meg realizes the Blob's weakness to the cold and uses the extinguisher to keep the Blob at bay as she and the other survivors barricade themselves in the city hall.

The Blob attempts get inside, but the townspeople hold it off with furniture barricades and CO2 extinguishers, but it is a losing battle and Deputy Briggs is killed. Meanwhile, Brian gets a snow maker truck and uses it to shoot snow at the Blob. The Blob gets angry and turns its attention towards him and flips the truck over, knocking off its liquid nitrogen canisters. Meg sees Brian in danger and goes to help him. She takes a satchel charge and and a M16 rifle from a dying soldier. As the Blob tries to get into the truck, Meg shoots the Blob to distract it from Brian and rigs the canisters with explosive charges. However, she ends up getting her foot caught. Fortunately, Brian recovers and is able to get Meg to safety as the Blob engulfs the canisters and gets doused by liquid nitrogen when the canisters explode. The Blob is flash-frozen and shatters into millions of crystallized pieces. Moss Woodley then calls for its remains to be stored in the town's ice house.

However, this is not the end of the Blob, as Meeker, who was disfigured and driven insane by the attack, preaches for the Day of Reckoning (commonly known as the Apocalypse). When asked about when it will happen, Meeker replies when the Lord gives him a sign, as he holds up the jar containing the small piece of the Blob that he found, which is revealed to be still alive as it moves around in the jar.

* * *

Me: Whoa! This blob is a creature of terror!

Nico: No kidding.

Maria: Ok. The Blob will probably be immune to physical attacks. But water should affect it.

Me: Water won't begin to cut it. Our best chance is to freeze it solid and then throw it right into the Sun where it will be completely obliterated in a flash.

Lana: I can do that.

Nico: I can use Eis Shenron's powers to freeze it.

Iceman (Marvel): I'll help out.

Then a news report came on!

News announcer: We interrupt this program to bring you this special report!

News Reporter: The Town of Arborville in California is under attack by a massive living blob of jelly! It's eating and killing anything that it touches!

Me: The Blob! We got to get over there! This looks like a job for Team Loud Phoenix Storm!

We were off to Arborville, California!

ARBORVILLE, CALIFORNIA

We were flying to Arborville.

William: We need to find a way to kill the Blob before it takes anymore lives.

Me: We're gonna first freeze it solid and then we're gonna send it into the Sun where it will be completely obliterated. Then we're gonna deal with that fucked up lunatic minister Reverend Jacob Meeker.

We arrived at the town and we saw THE BLOB! It was an ugly magenta mass of slime and it was gross!

Me: That is disgusting!

Laney: That is gross!

Me: Lets get it guys!

We went at the Blob.

Iceman (Marvel): This Blob needs to chill! (shoots ice beam at it)

It roared in pain as it was being frozen.

Lana: This Blob is gross! Not that I mind anyway.

Lana fired a powerful blast of ice lightning at it and froze part of it.

Nico: This ugly blob of slime has failed this universe!

The 3-Star Dragonball on his necklace glowed and he fired a powerful green energy beam from his eyes and froze part of it and it roared in pain.

We were blasting it with freeze rays, ice powers and more as we froze it. With us was Steve Andrews, who warned the town about the Blob and he was helping in getting everyone to safety.

Steve A.: This way guys! Hurry!

Everyone was running for their lives and running fast! We were blasting the Blob with freeze powers and more and it was a powerful battle. Steve then fired his freeze powers at the Blob and froze it.

Me: Great job Steve!

We blasted the Blob all over.

Me: Lets finish it with some teamwork!

Overkill: You got it boss! CYBER KEY POWER!

The Animatron Cyber Planet Key went into his back and it enhanced his strength and missile blasters 100-fold.

Star Man: Time for some pain! GIGANTION CYBER KEY POWER!

The Gigantion Cyber Planet Key went into his right arm and it enhanced his Star Crash 1,000-fold.

Star Man and Overkill: STARSTORM MISSILE BARRAGE!

Star Man fired a wheel of stars and Overkill fired a bunch of missiles and they combined and they hit the Blob and exploded.

Jazz: Lets do it! CYBER KEY POWER!

The Autobot Cyber Planet Key went into his right arm and it enhanced his weapons 100-fold.

Katara: Lets freeze this blob! GIGANTION CYBER KEY POWER!

The Gigantion Cyber Planet Key went into her right arm device and it enhanced her waterbending powers 100-fold.

Jazz and Katara: ARCTIC PHOTON BURST!

Katara fired numerous blades of ice and Jazz fired a powerful barrage of photons and they hit the Blob and it roared in pain.

Me: Lets finish this blob once and for all. Nicole, open the portal into the sun.

Nicole: You got it dad.

Nicole opened the portal that was really close to the sun.

Me: Lets final smash this jelly freak!

Lana: Roger that! ARCTIC LIGHTNING FIRESTORM!

Lana fired a powerful blast of ice lightning and it froze part of the blob.

Steve A.: Lets do this! NITROGEN FREEZE BURST!

Steve Andrews fired a massive blast of liquid nitrogen and it froze part of the blob.

May: This will finish it! ABSOLUTE ZERO DELUGE!

May fired a powerful blast of cold fire at 459.67˚ Fahrenheit and it completely froze the blob into crystal. The portal sucked in the blob crystals and there was nothing left of it as they flew into the sun and were completely obliterated in an instant.

Me: That's it for that ugly freak!

Nico: Yep. Now we have one more thing to do.

We went to face Reverend Meeker. He was now insane.

Meeker: (Insane Laughter) I WILL ENJOY WATCHING YOU ALL DIE!

Me: Three words Meeker: GO FUCK YOURSELF.

Steve Andrews: (laughs) Don't worry, Meeker. I'm sure the Saturn

Prison Cafeteria will keep you fed!

Me: You got that right.

Meeker was sentenced to spend the rest of his miserable life in the Saturn Insane Asylum in Solitary Confinement.

Lana: (To the Viewers) Not even a monster like the blob is a match for the power of Team Loud Phoenix Storm.

Nico caught a Tapu Fini and a Solgaleo.

We went back home and rested.

Another Fanfiction Complete and part 3 of the 13 Days of Horror complete.

The Blob from 1958 was an awesome horror movie from my dads past. It was a weird and gross movie. The one from 1988 was scary. But great movies nonetheless. NicoChan11 gave me the ideas for this. Thanks man. Part 4 is Silent Hill and we're gonna face the evil Order Cult and make sure that they all die. Let me know what you all think.

See you all next time.

# Supernatural Cult of Silent Hill

We were walking home from school.

Qin: So how long have you been collecting the duel monster cards J.D.?

Me: Over 10 years now. They are amazing.

Qin: They sure are.

Alexis: Our Duel Academy trains us in how to become awesome duelists.

Me: Yep.

Nico: We should go there for that cool Spirit Festival you guys told us about.

Me: I heard that Syrus met the real Dark Magician Girl there.

Alexis: He sure did. He was in love with her.

Me: She has that kind of charm. After all, she is one of the most beautiful characters in Duel Monsters.

Alexis: That's true.

Qin: I heard you guys killed a ruthless monster names Sartorius. He was possessed by an evil force called the Light of Destruction?

Me: Yep. That was one of our most harrowing adventures. Sartorius was a monster hellbent on destroying the entire universe because of the Light of Destruction.

I revealed the full history of the Light of Destruction and what happened during the events of The Duel Academy Corruption.

The Light of Destruction.

For billions of years, a white hole released a mysterious energy called the Light of Destruction.

Yubel came into contact in with with this energy while she was in space, which distorted her sanity although it did not control her, probably because Yubel was a spirit of darkness so being exposed to the malignant entity of light probably had aberrant consequences. Jaden had also always been the individual destined to oppose the Light with Yubel being specifically created to protect Jaden's ancestor The Supreme King until he was old enough to utilize his latent power to complete his mission.

When this energy reached Earth it caused several calamities such as dictatorships and wars.

Ten years before the events of the second season, the Light of Destruction was released, infecting a card created by Aster's father, "Destiny Hero - Plasma". When The D acquires the card by murdering Aster's father, it possesses him, causing him to develop an uncaring and sadistic alter ego.

Afraid of what is happening to him, The D consults with a fortuneteller named Sartorius. The Light takes Sartorius as his main host instead, but a small portion remains within The D, which helps him to ascend the Pro League and become world champion.

After possessing Sartorius, it sets the stage for the events of the second season by amassing a cult of brainwashed students and acquiring a satellite capable of extinguishing all life on Earth (in the dub, the satellite would cause a mass-brainwashing of all Earth's populace).

It later partially infects Prince Ojin, who had been brainwashed to serve Sartorius in the Society of Light. It is ultimately sealed away, releasing Sartorius from its influence due to the efforts of Jaden and Aster. However, only the portion of it controlling Sartorius was destroyed and the Light still exists in the universe.

Near the end of the third season, Jaden learns that the Light of

Destruction made his childhood card, Yubel, even more dangerous than it was before. He is also soon taken to the past where he learned that Yubel was given the mission to protect a young prince, who held the power of The Supreme King, as he fought the light waves of chaos. As a result Jaden decided to fuse with the soul of Yubel, and together they went off to fulfill the mission.

Sartorius

In the past, Sartorius and his sister Mizuchi Saiou had the ability to see into the future, resulting in them being ostracized by others and eventually running away from home. Sartorius had later met Aster Phoenix and formed a friendship with him. At the Pro League champion, Sartorius was taken over by the Light of Destruction when DD came into contact with him. From then on, Sartorius became focused on changing the world and ridding it of darkness. He also formed the Society of Light in his efforts to expedite his plans.

Sartorius appeared on Duel Academy in his hopes of completing his plans. He first planned to have Jaden lose to Edo in their second duel so that Judai would be placed under his control. However, Jaden was able to resist the Light of Destruction's influence. Sartorius later duels Chazz and defeats him; as a result of the defeat, Chazz joined the Society of Light.

Sartorius later finds out that Jaden is able to defy his destiny and the fortunes when he thought that Jaden would lose in a duel to Aster. The members of the Society of Light began to increase subsequently when Chazz defeated his fellow students in duels, eventually taking over the entire Obelisk Blue dorm (repainting it white and renaming it Obelisk White) and bringing Alexis Rhodes into the Society's ranks. Sartorius eventually arrived at Duel Academy and dueled Tyranno Misawa, interested to see the bond he shared between Aster and Jaden. Although he defeated Tyranno in a duel, he did not become a member of the Society of Light. Subsequently Sartorius enrolled as a transfer student at Duel Academy, moving into the Obelisk White dorm

Sartorius's sister, Mizuchi, also appeared and she talked about their troubled past and Sartorius's turn to the dark side. As the Society of

Light began to expand, Sartorius had trouble controlling himself against the influence of the Light of Destruction. He also defeated Prince Ojin in a duel and gained access on a satellite that would help him in his plan to take over the world. He later gave Judai and Edo the keys as a way to prevent himself from carrying out his goal. He also got a hold of Alexis and used her in an effort to get the key back from Jaden but it failed. Fed up by this loss, Sartorius ordered many members from the Society of Light to duel Jadeni and anyone else who were with him.

Aster wanted to go after Sartorius. But when he was about to give Sartorius one of the keys to the satellite, Jaden appeared and told him the truth about Sartorius. He advised him on dueling him instead to get the key. However, Aster lost the duel and Sartorius gained the key. Jaden then duels Sartorius in a final battle to save the world. As the duel went on, Sartorius ordered Ojin to prepare the satellite. Ultimately, Sartorius lost his duel to Jaden and he was released from the influence of the Light. With the defeat of the Sartorius, the Society of Light was disbanded and all their members were released from the Light of Destruction's control. He later thanked Jaden and Aster for helping him get pass his pain and reuniting him with his sister. Sartorius and his sister then left the island.

---

Qin gasped in powerful horror!

Qin: That's terrifying!

Tanya: That Sartorius guy was a monster!

Me: Yeah. The Light of Destruction was an even bigger monster though. Its goal was to destroy all life in the entire universe.

Qin: That is awful.

Me: You think that was bad, just wait till you hear about Dartz.

Qin: Who was Dartz?

Me: He was the King of Atlantis from 10,000 years ago. He was going to destroy the entire human race with the power of an evil force called the Orichalcos.

Qin: What's the Orichalcos?

Me: An extremely dangerous evil force that uses the Negative Energy in everyones hearts.

I revealed the history of Dartz and the Orichalcos in the events of The Negative Energy Of The Orichalcos.

---

Orichalcos.

The Orichalcos is a primal evil force said to be as old as time itself. It seeks to corrupt (and eventually consume) the souls of living beings and spread all forms of wickedness throughout the world, and possibly even the whole universe. It's power is apparently fueled by the darkness that resides in the the hearts of humans.

The exact details and origins of this Orichalcos are unknown, but thousands of years ago, the mysterious and mystical stone comprised entirely of the Orichalcos energy rained down upon the ancient kingdom of Atlantis. The fragmented pieces of the object became jewel-like stones, imbued the Atlantean people with ultimate knowledge and power. In just a few years, Atlantis became the most advanced civilization on the planet, far more advanced than the modern world of today. But unfortunately, as is human nature, with progress and power also comes corruption and greed. The people of Atlantis rapidly became selfish and power-hungry and soon, the stones of the Orichalcos began to expose the evil in them, turning those with darkness on the inside into monsters on the outside. When consulted, the Orichalcos tainted the mind of the Atlantean kingdom's ruler, Dartz.

The Orichalcos granted Dartz immense power and lent him supernatural soldier-like monsters known as the Orichalcos Soldiers to do his bidding. It also gave him control of a powerful beast, the Orichalcos God (also known as the Great Leviathan in the 4Kids dub), which would help him to destroy the world and create a new one that would be free of evil.

Ironheart and Dartz's daughter fled and called upon the world of Duel Monsters and its guardians, the three Legendary Dragons (in actuality, three soldiers whom Dartz had transformed into dragons) for help against the corrupted Dartz. One day, an army of benevolent magical creatures-including the three dragons-led by Ironheart met with Dartz's army of evil Orichalcos Soldiers and the Great Leviathan, and the Battle of Atlantis took place. The battle concluded with neither side being victorious. The three dragons were frozen in ice, and the magical creatures were sent back to their own world. The bestial soldiers of the Orichalcos were destroyed, and the Great Leviathan drained of it's power and was sealed away from this world. The island of Atlantis sank beneath the sea.

But despite this, the Orichalcos itself continued to exist. Also, Dartz, kept alive and young by it's power, sought to revive the Great Leviathan and finish what he started and to do so he required the one thing the Orichalcos itself also desired, human souls.

For almost 100 centuries Dartz wandered the earth, collecting millions of souls and recuiting many followers to assist him.

10,000 years later in the present day, Dartz was ready to revive the the Great Leviathan, through the power of countless human souls collected through the power of the Orichalcos, which he infused into Duel Monster cards to create the card known as the "Seal of Orichalcos", named after the symbolic crest of the Orichalcos magic itself.

The Seal of Orichalcos is a magic card infused with the power of the Orichalcos. It consists of an inner layer where there is a unicursal hexagram and an outer layer where the word "Oreichalcos" is inscribed in Enochian (though the text on the card itself reads "Orichalcos" in Enochian). This card unleashes the said mystical darkness' power of the player who is playing it. The Orichalcos itself can greatly affect the gameplay itself. Because of its power, many duelists lose one way or another, and one must also lose their own soul.

In the end, Yugi defeated Dartz and freed him from the Orichalcos' control. He also destroyed the Great Leviathan for good and freed all its captured souls, most passed on to the afterlife, while the more recently captured ones returned to their bodies. Though the Orichalcos still existed and presumably always will, without it's living avatars and corrupted servants, its influence on the world was most likely broken.

Dartz

Dartz is the main antagonist of the anime-only filler Waking The Dragons in Yu-Gi-Oh!. He lives in the ancient city of Atlantis while he was the legendary continent's former king, and is the father of Kris and son of Ironheart.

Dartz was turned evil by the power of the Orichalcos, making him believe that mankind was evil. As a result, he served the Orichalcos' master, the Orichalcos God (also known as the Great Leviathan), and planned to awaken him by using Orichalcos cards to steal souls from victims to feed to him. The power of the Orichalcos kept him alive for over 10,000 years. Disguising himself as Gozaburo Kaiba, he killed Amelda's brother Miruko (kidnapped him in the 4Kids dub), framed Valon by paying a gang to burn down the church that he lived in (framed him for an unknown crime in the 4Kids dub), and caused a ship Rafael was on to crash into a typhoon, which killed Rafael's parents in the Japanese version (in the dub the parents survived but forgot about him), making them work for him.

He dueled Dark Yugi and Kaiba together, and defeated Kaiba, but was defeated by Yami when his Serpent God Geh (whose attack power was infinity) was destroyed by the combined form of the three dragon cards (whose power was beyond infinity). He then offered his own soul to the Leviathan, but was released from his influence when the Leviathan was destroyed by Atem. Dartz then returned below the sea with Atlantis, Kris, and Ironheart, to enter the afterlife.

Ten thousand years ago, Atlantis, an island isolated from the rest of the world, was a perfect civilization. One day, however, meteors rained down upon the kingdom. These meteorites were mysterious and powerful stones of the Orichalcos, and glowed a bright greenish blue light. These stones imbued the people of Atlantis with ultimate knowledge and power. In just a few years, Atlantis became the most advanced civilization on the planet, even more advanced than the modern world of today. However, with power comes corruption and greed.

Ironheart, the king of Atlantis, gave his throne to his son, Dartz. Soon, the stones of the Orichalcos began to expose the evil in people, turning those with darkness on the inside into monsters on the outside. Dartz witnessed his own wife Iore become a horrid, ugly beast who attacks him. Confused and frightened, Dartz consulted a stone of the Orichalcos for guidance. The Orichalcos granted Dartz great power and lent him soldiers to do his bidding. It told him to resurrect an ancient mystical beast known as the Orichalcos God, which would help him to destroy the world and create a new one that would be free of evil. Eventually, Dartz became corrupted and misguided.

Ironheart and Dartz's daughter Kris fled and called upon the world of Duel Monsters and its guardians, the three Legendary Dragons (which were, in actuality, three soldiers whom Dartz had transformed into dragons) for help against the corrupted Dartz. One day, an army of benevolent magical creatures-including the three dragons-led by Ironheart met with Dartz's army of evil Orichalcos Soldiers and the Great Leviathan, and the Battle of Atlantis took place. The battle concluded with neither side being victorious. The three dragons were frozen in ice, and the magical creatures were sent back to their own world. The bestial soldiers of the Orichalcos were destroyed, and the Orichalcos God was sealed away from this world. The island of Atlantis sank beneath the sea.

The corruption of the Orichalcos made Dartz believe the world to be a wicked place, and that humans had an inherent malice in their hearts. The transformation the Orichalcos had inflicted on his fellow Atlanteans was, he believed, the punishment for being evil, as the outside of man became as twisted as the inside.

Dartz was driven to revive the Great Leviathan to raze the world, so that he may reconstruct it in the image of glorious Atlantis. To do so, Dartz required human souls. He proceeded to wander the Earth for the next 10,000 years, presumably kept alive by the power of the Orichalcos, and knew he had found one of the powerful souls he required when he encountered the Pharaoh Atem in ancient Egypt, witnessing his control of the powers of darkness and his ability to command Duel Monsters. He also witnessed the Pharaoh, with

Slifer the Sky Dragon pursuing Thief King Bakura and his Diabound. However, Dartz could not capture the Pharaoh's soul because Bakura was in his way. He therefore had to wait another 3000 years (5000 in the 4Kids version) to capture the pharaoh's soul.

It is unclear precisely when Dartz began to collect souls, but eventually, Dartz established a multinational conglomerate named Paradius, which became a well-known, yet mysterious force in the business world. But this was not the only organization Dartz had formed. He also controlled the Doma Organization (unnamed in the English version), a group formed to gather souls to feed the Great Leviathan by challenging unsuspecting players to games of Duel Monsters only to have their souls taken by the "Barrier of Orichalcos," a card he had suffused with the Orichalcos' power.

For ten thousand years, Dartz collected the souls of his adversaries and many innocents in order to ensure the return of the Orichalcos God into this world. With time, the number of souls Dartz had stolen stretched into the millions, thanks in part to his underlings.

Dartz's most recent underlings, Rafael, Valon and Amelda, a trio of Duel Monsters players known as Doma's Three Swordsmen, had their lives manipulated by Dartz to make them feel only hatred, molding them to be ideal servants to his cause. He gave them each a small fragment of the Orichalcos, which can be used to break the "Seal of Orichalcos" from outside in case of emergency, and gives them magical abilities that rival the Millennium Items.

Once aware of the fact that the Pharaoh had been reincarnated and his spirit revived in the present day, Dartz began his agenda to take his soul by freezing over the Tablet of Memories (thus preventing the Pharaoh from remembering his own past). Later, he ordered his minions to steal the Egyptian God Cards, using their power along with human souls to revitalize the Leviathan. Subsequently, Yugi Muto, Seto Kaiba and Katsuya Jonouchi released and joined forces with the Legendary Dragons as the souls of both them and their friends come under threat. Dartz's surviving family, Ironheart and Kris, would assist Atem in recovering his self-confidence and the trust of "Timaeus." Events gradually converge on a duel between Dark Yugi, Kaiba and Dartz, in which Dark Yugi claimed victory by releasing the power of the Legendary Dragons and returning them to their human forms. Yugi, Kaiba, and Jonouchi's souls are emancipated from the clutches of the Orichalcos God.

However, Dartz sacrificed his own soul, with his human body reduced to dust, to give the Orichalcos God enough power to fully resurrect and raise Atlantis once more with himself combined with the Great Beast. In the ensuing battle, Dark Yugi released the spirits of the Egyptian Gods from within the god and together they destroyed it, discharging all of the captive souls. However, a trace of its darkness remains, revealing the god's original form, along with Dartz's soul, which Dark Yugi is able to banish, releasing Dartz from the influence of the Orichalcos and allowing him to be reunited with the spirits of his family and enter the afterlife as Atlantis sank back beneath the sea.

* * *

Qin gasped in horror!

Qin: I can't believe he was that evil!

Me: Yeah. But Dartz and the Great Leviathan were very formidable adversaries. In the end, Heidi sealed Dartz and the Orichalcos into the darkness of her mind for all eternity.

Qin: That is amazing!

Me: I was so proud of my granddaughter for doing it. She was the true hero that day.

Tanya: Wow. That's so cool!

Me: It was.

Carmen: I'm happy for Heidi. I'm glad she put that Dartz guy in his place.

We laughed.

Then a 19 year-old kid came out and he had red hair, brown eyes, an orange shirt, brown pants and spiked boots.

Shaun: (grins evilly at Carmen) Hello, pipsqueak!

Carmen: (Gasp) Shaun McVeigh!

Maria: I thought you were gone for good!

Me: You guys know this jerk?

Maria: Unfortunately yes. He was a ruthless bully that would always pick on Carmen. But he was sent to Juvie before the Big Bang happen.

Me: Whoa!

Nico: This twerp has failed this city!

Me: Yep. Wait, Shaun your last name is McVeigh. Are you by any chance…?

Shaun: Yeah. I'm the son of Timothy McVeigh, the Oklahoma City Bomber.

We gasped in horror!

Me: Your father was a monster!

Carmen: What's the Oklahoma City Bombing?

Me: That was a terrible event that happened back on April 19th, 1995. Timothy McVeigh blew up the whole Alfred P. Murrah Federal Building with a powerful fertilizer bomb and it killed 168 people.

I revealed everything.

---

The Oklahoma City bombing was a domestic terrorist truck bombing on the Alfred P. Murrah Federal Building in Oklahoma City, Oklahoma, United States on April 19, 1995. Perpetrated by Timothy McVeigh and Terry Nichols, the bombing happened at 9:02 am and killed at least 168 people, injured more than 680 others, and destroyed one-third of the building. The blast destroyed or damaged

324 other buildings within a 16-block radius, shattered glass in 258 nearby buildings, and destroyed or burned 86 cars, causing an estimated $652 million worth of damage. Local, state, federal, and worldwide agencies engaged in extensive rescue efforts in the wake of the bombing, and substantial donations were received from across the country. The Federal Emergency Management Agency (FEMA) activated 11 of its Urban Search and Rescue Task Forces, consisting of 665 rescue workers who assisted in rescue and recovery operations. Until the September 11, 2001 attacks, the Oklahoma City bombing was the deadliest terrorist attack in the history of the United States, and remains the deadliest incident of domestic terrorism in the country's history.

Within 90 minutes of the explosion, McVeigh was stopped by Oklahoma Highway Patrolman Charlie Hanger for driving without a license plate and arrested for illegal weapons possession. Forensic evidence quickly linked McVeigh and Nichols to the attack; Nichols was arrested, and within days, both were charged. Michael and Lori Fortier were later identified as accomplices. McVeigh, a veteran of the Gulf War and a U.S. militia movement sympathizer, had detonated a Ryder rental truck full of explosives parked in front of the building. His co-conspirator, Nichols, had assisted with the bomb's preparation. Motivated by his dislike for the U.S. federal government and unhappy about its handling of the Ruby Ridge incident in 1992 and the Waco siege in 1993, McVeigh timed his attack to coincide with the second anniversary of the deadly fire that ended the siege at the Branch Davidian compound in Waco, Texas.

The official investigation, known as "OKBOMB", saw FBI agents conduct 28,000 interviews, amass 3.5 short tons (3,200 kg) of evidence, and collected nearly one billion pieces of information. The bombers were tried and convicted in 1997. McVeigh was executed by lethal injection on June 11, 2001 at the U.S. Federal Penitentiary in Terre Haute, Indiana, and Nichols was sentenced to life in prison in 2004. Michael and Lori Fortier testified against McVeigh and Nichols; Michael was sentenced to 12 years in prison for failing to warn the United States government, and Lori received immunity from prosecution in exchange for her testimony.

As a result of the bombing, the U.S. Congress passed the

Antiterrorism and Effective Death Penalty Act of 1996, which tightened the standards for habeas corpus in the United States, as well as legislation designed to increase the protection around federal buildings to deter future terrorist attacks. On April 19, 2000, the Oklahoma City National Memorial was dedicated on the site of the Murrah Federal Building, commemorating the victims of the bombing. Remembrance services are held every year on April 19, at the time of the explosion.

---

Qin and Carmen gasped!

Carmen: That's horrible!

Qin: Why would Timothy McVeigh do all that?

Me: He hated the whole country for stopping the Branch Davidson cult and wanted to make us all suffer with the worst acts of terrorism ever. President Bill Clinton called it the worst act of domestic terrorism in the history of the country.

Shaun: Yes my father was a monster. I hate my father for everything he has done. The reason I bully people is because of everything that my father did.

Me: Your father is dead now. He was executed on June 11th, 2001.

Shaun: Yes and I'm glad he's dead.

Nico: That's good that he got what was coming to him for killing all those people. But you shouldn't bully people for everything that your father did.

Shaun: I know. But I can't help it. I hate my father with a terrible vengeance. He was a monster! Sure he did a lot terrible things, but I just hate everyone that reminds me of him.

Nico: That is insane!

Maria: Yeah! It's not right.

Shaun: So, now you want to stand up for Carmen after being missing for so long, Maria? Too little, too late!

Hun Gurr: It's never too late!

Blackfire: (to Shaun) You Clorbag Varblernelk!

Everyone: A what?

Blackfire: That's Tameranean for a Monster of Mayhem.

Me: Oh. That fits him well.

Nico: Starfire called Beast Boy that from what I remember.

Me: Yeah. Lets teach this clod a lesson!

We went at him and pulverized him! After we knocked him down, Ben as Ampfibian held him up.

Ampfibian: Say the word and this asshole gets fried!

Me: No Ben, allow me.

I pulled out my S.P.D. Morpher.

Me: Judgement Mode.

I had it in Judgement Mode and a red X lit up.

Me: GUILTY!

I put him in a containment card and picked it up and he was locked in it.

Me: You're looking at life in this card. As Carmen's prisoner.

Carmen was crying.

Carmen: (Crying) Why did he have to come back!

G1 Bumblebee: Don't worry, Carmen. That jerk won't hurt you again.

Maria: (hugs a crying Carmen) Of course he won't.

Laney: Poor Carmen.

Lincoln: That guy was a total jerk.

We later went back to the estate.

---

Back at the estate, we were watching TV and playing card games. Carmen keeps the card with Shaun McVeigh inside it in her room on her desk.

Me: I'm so sorry that he picked on you all that time Carmen.

Carmen: It's all right J.D. But I'm glad he's now in a containment card. Maybe I can try to talk some sense into him while he's in there.

Maria: Good for you sis.

Then the alarm went off.

Me: Uh oh!

We went to the computer and we saw that there was a supernatural disturbance coming from the town of Silent Hill, West Virginia.

Me: (Gasp) Silent Hill. Oh shit!

Lori: What is Silent Hill?

Lincoln: You mean that video game that is a horrifying story that is full of monsters and all that?

Me: Yep. The whole town was left abandoned when a coal seem fire exploded out 40 years ago.

Laney: How did that happen?

Me: It was caused by an evil Satanic Cult.

I pulled up the symbol of the cult called The Order.

Me: The Order.

Lana: These guys look dangerous!

Me: They are. They are a Satanic Cult that want to turn the world into a perfect utopia. But they are going to destroy the whole planet to do so.

I revealed their whole history.

---

The Order believes they are the "one true faith" and "one true religion", and all other religions are deceits and false truths. It is ambiguous if this is true, or if it is make-believe fantasy manifested by the ancient power of Silent Hill.

The cult's official seal is known as the Halo of the Sun and is often used or seen in the presence of cult members, particularly while conducting rituals. The Order is involved with esoteric occultism, black magic (sometimes referred as the dark arts), arcane ceremonies, and blood sacrifices.

The Order is prevalent in all of the games, and are deeply rooted in Silent Hill's history and culture. They are responsible for:

Orchestrating the deaths of several people who developed the town, the local anti-drug mayor and his private investigator.

Selling illegal drugs such as the hallucinogen PTV to tourists.

Kidnapping young girls for their ceremonies. These abducted girls were intended to be used as prospective surrogate mothers. It is possible they were murdered after.

Alessa Gillespie's immolation and supernatural rise to power, as well as the subsequent attempts to contain it.

Running the Wish House Orphanage, and were responsible for Walter Sullivan's descent into madness. His murdering almost 21 people became known worldwide as "the Walter Sullivan case".

Involvement in the damnation of Shepherd's Glen.

Creation of multiple Books of Memories to imbue the writers with God's will.

Pyramid Head takes the form of an iconic figure of judgment and punishment of the Order's mythos, Valtiel. The creature itself even makes an appearance to follow Heather Mason (the reincarnation of Alessa) and the Order's God still sleeping within her womb.

When people refuse to convert to the Order, the cult often resorts to brainwashing, kidnapping, drug trafficking, child abuse, acts of violence, torture, and even murder. The Order uses each method to achieve different goals. Loyalty, discipline, and the rebuilding of their flock and faith requires many approaches to ensure that no one attempts to leave the Order. At the same time, the Order has certain goals to achieve in order to seek the path of the old ways as well as certain needs to fulfill. Without total control over the town and the people living within, the Order would not be able to achieve its true goals.

Some Order members threaten eternal damnation towards non-believers, especially those whom they consider as pagans, heretics, sinners, blasphemers, and mockers.

However, not all of their members are necessarily hateful or violent. Many of them are brainwashed, making them mentally and spiritually ill while occasionally also being twisted and depraved. Dr. Michael Kaufmann is an Order member, but he chooses not to be involved with the religious side of it. Some members, such as the unseen Confessor, are treated sympathetically. As with a real cult, some members are not so much evil as they are born into the environment of a cult. While the Order itself is evil, not all of the people within are as well. In truth, the Order genuinely believes that what they are doing will create a Paradise for what they believe is a tainted humanity.

Other Order members fear certain members among them with special powers, which was possibly given to them because of their "great faith".

Their occult and seemingly magical abilities are but further unexplained, as many of their rituals produce arcane effects that defy all logic. It is implied that the town itself is to blame for the power, along with a classic superstition of building on top of a Native American burial ground as explained in Silent Hill 2. Their tie to the forces of the Otherworld are also quite strong, as some members of the Order can even go so far as to manipulate it to a degree.

The Order themselves follows a philosophy of moral nihilism; they do not believe in "good" and "evil", only chaos and order, and feel this somehow justifies their wicked ways.

The Order takes inspiration and draws elements from other religions, such as the origins of Christianity, Japanese folklore, Aztec rituals, and Native American beliefs.

## History

It is important to note that the Order itself is not the same as the religion of the land's original Native American inhabitants before the settlers arrived. The roots of this religious organization originally date back as far as the 17th century, with the burning of Jennifer Carroll in 1692 before she was declared as a saint afterwards by the Order. However, back then, they were not formally known as the Order.

When Silent Hill became a tourist location around the 1900s, the Order was formed at the same time, and were despised by most of the local citizens, thus their union was carried out in secret. With time, the cult infiltrated the public institutions of the town, gradually gaining more influence and power.

Since the Order is suggested to be the same as the Native American tribe's religion, it is possible that the cult's high priestess, Dahlia Gillespie, became their leader because of her family background of a coal company the Gillespies used at the Devil's Pit, which contain artifacts and human remains of the local region's former inhabitants.

The Order used the plant White Claudia for its mystical and hallucinogenic properties and to create the drug PTV, which they used for their ceremonies, and also distributed to the populace of Silent Hill.

After the events of Silent Hill in 1983, the cult was left in shambles and went through a period of inactivity. Father Vincent invested in the cult and revived it. After the events of Silent Hill 3 in 2000 including the demise of 2 ruling Order clerics Father Vincent and Sister Claudia, it can be speculated that all but one sect were eliminated. Detective Douglas Cartland worked to expose the "now defunct" Order, according to Paul Schieble's book "Through the Fog: A Skeptic in Silent Hill". Paul interviewed long time residents during his 2 year-stay in Silent Hill, many of them proclaiming the Order is the "great evil". Journalist Joseph Schreiber believed that while the Order itself was gone, the spirit of the cult was still alive in Silent Hill because there were too many weird things happening in the town.

After the events of Homecoming in 2007, the presumed final sect in Shepherd's Glen was destroyed, leading to the [supposed] death of the cult.

Beliefs

These paintings are the iconography of the Order's religious mythology of spiritual beliefs.

The Order worships the entities of the Otherworld of Silent Hill, which they believe house their faith's incarnation of God, which is often depicted as an orange haired Caucasian woman in flowing long red robes; it has been stated that this belief lies the foundation for the whole cult. Their mythos has a wide variety of angels and saints, including:

God

Valtiel

Metatron

Lobsel Vith

Xuchilbara

Nicholas: saint, a Doctor of God.

Jennifer Carroll: saint, Unwavering Faith under Death's Blade.

Alessa Gillespie: saint, Holy Mother of God, Daughter of God.

Paradise as described according to the beliefs of the local religious cult in Silent Hill known as The Order.

The Order's main goal, as many of its members state, is to usher in the apocalypse and deliver the faithful to the "Eternal Paradise", an utopian world that is a place without hunger, illness, war or greed, a realm where all would lived by God's grace alone. This paradise means many different things to different members, but the goals remain the same, and this is brought about in ways that vary from sect to sect. Some try to actively aid it while others simply prepare for the inevitable.

As stated on several occasions, the Order themselves follows a philosophy of moral nihilism; they do not believe in terms of "good" or "evil", only the concepts of "chaos" and "order", and they feel this justifies their actions. Their ways are cruel and brutal, to ensure order remains in place. To ensure loyalty and discipline, many children under the Order's care are cruelly treated and disciplined harshly in some sects. Human life is inconsequential to them, as they are more than willing to sacrifice and kill to appease God. They believed in God, Paradise, sin, salvation, souls, Purgatory and Hell.

The Rite of Spring

The Rite of Spring painting (with The Man offering a serpent and The Woman offering a reed both depicted in it) shows the fact that The Order has its own unique beliefs which are based on the mythology of other religions.

The Order's occult and seemingly magical abilities are further unexplained, as many of their rituals produce arcane effects that defy all logic. Their tie to the forces of the Otherworld is also quite strong, as some members of the cult can even go so far as to manipulate it to a degree.

The Order believes that humanity and society is but corrupt, drowning in pain and loss, shackled by sin, and that they are among the elite "chosen people" to bring about a new world unspoiled by evil. Claudia Wolf, a sister of the Order, believes that happy people are most often the cruelest and humanity has been contaminated by avaricious behavior and Earthly materials and base desires.

The Order themselves appears to be either Gnostic or Ascetic, which shuns the material/physical world, instead embracing the spiritual world.

System of Beliefs

1. Commitment

This bible with the Halo of the Sun seal is The Order's system of beliefs found in Silent Hill: Homecoming.

All members of the Order must have fully committed themselves to this purpose in their beliefs, their activities and their lives.

2. Membership

Membership within the Order is extended to all that seek the Old Ways.

Levels of Membership:

Mother Circle

The Mother is considered the founding group of the Order.

Daughter Circle

Any Second Generation group hived off of The Mother.

Servant Circle

Any Third Generation group stemming from The Mother.

3. The High Council

The High Council is set in place as a tool for all within the Order to make use of. The purpose of the High Council shall be to aid in the process of group formation as needed, act as governing body in matters pertaining to the Order as a whole, and to be a judge/jury if asked to settle disputes.

## 4. Grievances and Discipline Procedures

All decisions made by the High Council are binding. Presenting your case before the Council implies your acceptance of their decision. Those seeking mediation must contact the Scribe.

The High Council shall be called in to preside over disputes within a group to hear complaints and accusation of inappropriate acts, heresy, abuse of power by leaders, any other complaints that are deemed worthy to preserve the public image or internal integrity of the Order.

The nature of the disciplinary action shall be decided at the sole discretion of The High Council. These actions shall contain, but not be limited to, assignment of manual labor, persecution of an individual member, execution or torture, and the banishment of a group.

If an individual member wishes to leave the Order, he or she is required to bring his or her request to the High Council.

## Sects

The Order is divided into several sects.

### Sect of the Holy Woman

This sect, the Holy Woman Sect or the Sect of the Holy Woman, is centered around a priestess named Dahlia Gillespie. This sect believed that God would return to Earth one day and await her coming faithfully. However, Dahlia Gillespie had attempted to hasten God's rebirth by using an immolation ritual which meant her daughter, Alessa, would be used as a sacrifice. Members of this sect include Dahlia Gillespie, Claudia Wolf, Vincent Smith and Leonard Wolf. They believe that once God has come, She will cause the apocalypse and usher the faithful to paradise. Not all their members are active in this, however, such as Vincent. Claudia believes that a God born from pain and hatred would thereby be more sympathetic.

## Sect of the Holy Mother

Members of the Holy Mother Sect or Sect of the Holy Mother (not to be confused with Alessa Gillespie, known as the Mother of God), used their self-run Wish House to raise a conjurer. They respected the Mother Stone as something sacred, and called the God "Holy Mother". This sect believed that the Holy Mother would be descended by a conjurer performing a ritual to descend the God into a sacred object. Members of this sect include Toby Archbolt. They are slightly more pacifistic than the Sect of the Holy Woman, though their cruelty is still directly shown by their treatment of the orphans in their care, including a younger Walter Sullivan. They also held a ritual for the resurrection of the dead, which James Sunderland may find in Silent Hill 2.

## Members of the Valtiel Sect.

This sect, the Sect of Valtiel or the Valtiel Sect, is centered around the priest Jimmy Stone. This sect believed Valtiel to be the closest to God, and worshiped him as a divine executioner. Members of the Valtiel sect would don red pointed hoods and act like executioners in honor of Valtiel. Members of this sect include Jimmy Stone and George Rosten.

## Sect of Shepherd's Glen

An unnamed sect of the Order residing in Shepherd's Glen, they are a splinter group, having broken away from the core of the Order to live more peaceful, stable lives. Though separate from the Order, many of the core beliefs are still upheld, including faith in their God and a desire for discipline.

The Founding Families that made up this sect entered into a pact with their God; if one child from each of the four families was sacrificed every 50 years, Shepherd's Glen would be spared from the effects of the Otherworld.

The families are: The Shepherds, the Holloways, the Bartletts, and the Fitches.

With Adam Shepherd's failure to fulfill his portion of the Pact, the agreement was broken, and Shepherd's Glen was left to the ravages of the Otherworld.

Members include Curtis Ackers, Adam Shepherd, Sam Bartlett, Martin Fitch and Margaret Holloway.

---

We gasped in sheer horror!

Alicia: That's like the Church of Unitology!

Isaac Clarke: So we have a variation of the Unitology cult here on Earth.

Me: In a way. But without the Markers and The Necromorphs. The Order is a very dangerous cult. And according to legend, it is said that The Order plunged the entire town of Silent Hill into purgatory and the only way to free the whole town is to kill all of the Order.

Nico: We got to get over there.

Me: Lets head out! Salvation is in our hands!

We were off to Silent Hill, West Virginia.

---

SILENT HILL, WEST VIRGINIA

---

We arrived in Silent Hill, West Virginia. We arrived at the sign that says Welcome to Silent Hill.

Me: Here we are guys. Silent Hill. Once we go passed that sign, there's no turning back.

Nico: This place gives me the creeps.

Lana & Lola were hugging each other in fright.

Lana & Lola: I'm scared.

Me: I know. But we have to stay strong. We can't let fear cloud our judgements. Also this town has a nasty way of messing around with your mind. Stay close.

We went into the town and we saw that it was a deserted town totally trapped in Purgatory.

We saw that it was snowing. But it wasn't snow. It was ash. We saw that the whole town was abandoned.

Laney: Where is everybody?

Me: Hiding. They're spirits now. They will not be at peace until The Order has been eliminated.

Then we saw a teenage girl with blond hair and a red vest and white shirt and blue pants.

She saw us. It was a girl named Heather Mason.

Heather M.: Team Loud Phoenix Storm!

Me: I take it we aren't the only ones not answering to destroy The Order.

Heather M.: Yeah. I'm Heather Mason.

Me: Pleasure to meet you Heather. We came to free this whole town from the grip that The Order has on it.

Heather M.: And we will. We're gonna send that fucking cult off to the fire of hell forever.

Me: We all will. The Order has terrorized this whole town and the world for far too long and now we're gonna destroy them all once and for all.

Lincoln: But where are they?

Me: They're hidden somewhere.

We then saw a cloaked woman. It was the supposed leader of The Order - Dahlia Gillespie.

---

Dahlia grew up in Silent Hill, and eventually became the head of The Order sect known as the Sect of the Holy Woman. Dahlia is also the owner and proprietor of the Green Lion Antiques store in Silent Hill. It is also rumored that she has a side business of magic spells and fortune-telling to her customers. She may have been involved in the mysterious deaths of several people involved in developing Silent Hill into a resort town back in the 1960s. She also started a drug trade, selling a hallucinogen to the tourists, made from a local plant named White Claudia, that was also used in the cult's rituals. She was assisted in this by Dr. Michael Kaufmann, the director of Alchemilla Hospital, whose level of cult involvement and activity is unknown. This led to Dahlia's involvement in the death of the anti-drug mayor and the narcotics officer Gucci. But Dahlia's supreme goal was to bring The Order's God into this world and bring paradise on Earth, but her real interest was in gaining personal power. She attempted to impregnate several young girls with the god, but none of them could withstand the trauma involved in the impregnation process.

Alessa

Dahlia Gillespie then found out that her seven year old daughter Alessa had vast mental powers. Dahlia and the cult proceeded to perform the impregnation ritual on Alessa, which involved setting the girl on fire, in an upstairs room in the Gillespie house. She had managed to bind Alessa's power with a mystical device called the Flauros, but she did not count on Alessa drawing in an outsider named Travis Grady to help her fight back. Travis unwittingly helped her release her powers, and Alessa foiled the cult's plans by splitting her soul in half, shaped it into an infant, and placed it on the side of the road, where the childless Harry Mason and his dying wife Jodie found her and named her Cheryl, raising her as their own. Although the god was successfully impregnated in Alessa, the half of her soul left was not powerful enough to give birth to it. Dahlia cast a summoning spell, keeping Alessa alive and in extreme pain, not allowing her burns to heal. Her intention was for the other half to subconsciously feel Alessa's pain, and come back to Silent Hill, where the soul would be reunited.

## Seven Years of Waiting

Dahlia had Alessa placed in secret room in the sub-basement of Alchemilla Hospital and kept under the watchful eye of Doctor Kaufmann. Alessa's intense suffering caused her to slip into a coma, but her subconscious self was still active. Essentially, Dahlia's spell had caused Alessa to plummet into a nightmare state, which was populated by monsters representing her fears and anxieties. The dormant God inside of her fed off this fear and suffering, allowing it to develop.

## Harry and Cheryl Arrive

7 years after the ritual, Alessa's suffering causes Cheryl to subconsciously choose Silent Hill as the vacation spot they would visit, something which they had done together since Mrs. Mason had died 4 years previously. As they drew close to the town, Alessa awakened and sent out an astral projection of her soul. Near the town lines, while Cheryl is asleep, she runs into the road, causing Harry to crash the car, knocking himself out. When he awakes, Cheryl has disappeared and he is in Silent Hill engulfed by the Fog World which is perpetual dreary silence, and the Otherworld, which is manifesting Alessa's darkest nightmares. In fact, Cheryl has now merged with the half soul of Alessa, and pretty much ceased to exist as an independent entity. She begins rapidly maturing to Alessa's current physical age of 14. Using her powers, Alessa forms a scheme to destroy herself, the town, and the God by spreading a magical crest, known as the Seal of Metatron (known to Dahlia as the Mark of Sammael), throughout the Otherworld town to make up one large crest, with several that were larger than the others placed in key locations. Cheryl's return and bonding with Alessa catches Dahlia's attention, but she cannot finish the ritual until Alessa's soul is brought back to her body. She also cannot enter the dark side of Alessa's Otherworld, known as the Otherside (better known as Nowhere), where Alessa is carrying out her plan. Dahlia needed someone else to help her, and ultimately settles on Harry, whom

Alessa moves between the light and dark worlds in order to keep her beloved "father" from dying. Dahlia proceeds to trick Harry into assisting in her scheme.

## Dahlia's Machinations

Dahlia Gillespie leaves clues around Silent Hill directing Harry Mason to the key locations, including the Midwich Elementary School, the Alchemilla Hospital, and the Lakeside Amusement Park. She even places Cheryl's voice calling for help and her father on a telephone near Harry and even places a similar voice along with an ominous image of Cheryl on a television screen he passes. She meets Harry at the Balkan Church and points him toward the hospital. She also gives him the Flauros, which she told Harry would contain Alessa's evil. She meets with him several more times and at the last one, she tells Harry that Alessa is a demon in a child's form and will make Cheryl into a sacrifice and set the Otherworld loose if she completes the seals, which Dahlia calls the Mark of Samael. He does not fully trust her, but has nothing else to go on. Harry fails to stop Alessa from completing the first several seals, but arrives at the amusement park ahead of her, and confronts her, demanding Cheryl back. Alessa pushes him away with her powers, but the Flauros activates itself and traps her. Dahlia arrives, and Alessa's Otherworld loses its cohesion and collapses into a mixture of the different locations, referred to as "Nowhere". It is here, in a transfigured form of the Gillespie household, that Dahlia prepares to complete the ritual.

## The Birth of the God and the Death of Dahlia

Harry arrives just as the soul is reunited with the body, and confronts Dahlia. She then proceeds to explain most, but not all, of what has been going on. The soul is restored to Alessa's charred, bandaged body. They both disasppear and are replaced, by the God, who has manifested as Alessa's image of her, a woman in shining robes. Kaufmann unexpectedly walks in after the God is born. Blaming Dahlia and the Order for his presence in the fog world and then the Otherworld, he wounds Dahlia with a pistol and hurls a vial of Aglaophotis, a substance used to expel demons, at the God, not fully cognizant of what has just happened. This has an unexpected consequence when it causes the God to transform into Dahlia's image of God, namely that of a winged demon. The God destroys Dahlia with orange lightning and fights with Harry, who destroys him. The God falls to the ground and transforms back into the shining woman. It recreates Alessa into an infant, and hands it to Harry, who is unaware of the woman's true nature. The infant still had the capability of birthing the God.

Legacy

In Silent Hill 3, Father Vincent refers to Dahlia as "that old hag" from 17 years ago. He also claims that she "brainwashed" Claudia Wolf, the game's antagonist. The Holy Woman sect was destroyed during and not long after the events of the game, a causalty of Dahlia's actions. In Silent Hill 4: The Room, It is revealed that Dahlia, in an act of cooperation with the rival Sect of the Holy Mother, told the young orphan Walter Sullivan that performing the aforementioned sect's ritual of birthing, the ceremony of the 21 Sacraments for the Descent of the Holy Mother, would reunite him with his birth mother, intended as a fail safe in case her plans for Alessa went awry. When Dahlia felt she no longer needed the Holy Mother Sect, she showed Walter his birthplace, at Room 302 of South Ashfield Heights, an apartment building in the nearby town of Ashfield. Here, she sabotaged the Holy Mother Sect's plans by telling him that the room was in fact his mother. This led him go on a killing spree as an adult, attempting to commit the 21 sacrifices needed to complete the ritual. Several of his victims were important Order priests, which brought down two of the three original sects.

---

Me: Dahlia Gillespie.

Dahlia: That's right. How did you know?

Me: We came to destroy the Order and free this whole town from the Hell it's in.

Dahlia: I'm glad you came. The Order is the cult of a demon that is going to destroy everything. It took the whole town of Silent Hill into Hell.

Me: So this whole town is in Hell.

Dahlia: Yes.

Me: Then it just became a battle between us and the Army of Hell.

Dahlia: In a way. Heather, you were chosen to destroy the demon.

Heather M.: What demon?

Dahlia: The Demon that commands The Order.

Me: If we destroy the Demon, we can free this whole town from the clutches of The Devil.

Then Air Raid sirens sounded!

Dahlia: The Darkness is coming!

Me: Let it come!

Lana: We don't run!

Dahlia: Be careful.

Me: We are angels of God and we don't give up on his people.

The sky grew dark and we saw out of a girl dressed in a purple dress and black shoes with black hair and pale skin and behind her was a terrifying shroud of darkness.

Me: Whoa!

Heather M.: That's me! I was known as Sharon back then. That version of me is a monster!

Me: Then we have to kill it!

We saw her fired a powerful wave of darkness at a couple of buildings and destroyed them.

Me: Whoa!

Lincoln: Her power is terrifying!

Oceanus Shenron: We've dealt with powerful forces like this before.

Brittney: We sure have.

Heather M.: Her name is Alessa Gillespie and she is The Demon!

We gasped!

---

Sometime around 10 PM on the night of November 1, 1974, a young girl named Alessa Gillespie is burned alive by a group of religious fanatics who believe her to be a witch. The burning goes awry, leaving Alessa alive, but with fourth degree burns over 100% of her body. After being taken to Brookhaven Hospital, Alessa's rage and hatred begin to spiral out of control.

Her hatred causes her to manifest extreme psionic powers, resulting in the flowers next to her hospital bed wilting. When a curious nurse looks into Alessa's burn tent, she lashes out, burning the nurse's eyes and making them bleed forever, staining her clothes. Immediately after that, Alessa's soul splits in two, causing the creation of Dark Alessa. Dark Alessa approaches Alessa, and promises her that she can help her to take revenge on the cult. Alessa gives in to her own dark side, and she and Dark Alessa create the Otherworld, an alternate reality infected by Alessa's dark side.

Dark Alessa uses the Otherworld and a horde of monsters under her control to torture and kill the cultists. In 1995, Alessa splits her soul a second time, and creates Sharon Da Silva, a doppelganger of herself containing her good side. Dark Alessa carries the baby Sharon to the local orphanage, where she leaves her to be found by Sister Margaret.

9 years later, Dark Alessa begins to appear to Sharon in her sleep, causing her to sleepwalk. Dark Alessa continues to call to Sharon, intending to bring both Sharon and her mother to Silent Hill, West Virginia, the town where Dark Alessa and Alessa reside and thus the

events of the film happen.

In a sleepwalking fugue, Sharon Da Silva walks out of her house and to a steep cliff. As her mother calls to her, Sharon looks down and sees nothing but Dark Alessa, who seems to be beckoning her to throw herself off the cliff. At the last second, Rose Da Silva grabs Sharon and throws her to the ground, stopping her from falling to her death. The next day, Rose takes Sharon to Silent Hill, intent on discovering the cause of her illness. As Rose arrives on the outskirts of the town, Dark Alessa darts into the road, causing Rose to crash her car. Once Rose is knocked unconscious, Sharon is removed from the car, and Rose is shifted into the Fog World.

Dark Alessa appears to Rose almost immediately after she wakes up from the crash and into the streets of Silent Hill engulfed in the Fog World, luring her into a dark alley as the sirens in the town sounded upon the approaching Otherworld, where she leads her to a corpse strung on a fence, and the Grey Children. Rose comes across Dark Alessa again at Midwich Elementary School. As before, Dark Alessa leads her to clues pertaining to Alessa's past. When the Otherworld overtakes the school, Dark Alessa appears to Rose in her natural form, with greasy hair, pale skin, and blood smeared on her mouth. Dark Alessa later leads Rose to the secret church-like chamber at the Grand Hotel where Alessa was burned alive, but she quickly catches fire and disappears, rather than telling Rose what happened in this sacrificial chamber.

At the hospital, Dark Alessa tells Rose "the truth", explaining Alessa's history and why Rose was brought there. She then tells Rose her most famous line throughout the film: "It's time for this dream to end, and so too must the dreamers within it. For over 30 years they (the cult) have lied to their own souls. For 30 years, they denied their fate. But now is the end of days, and I am the reaper." She also adds that it is time for the Brethren cult to suffer the consequences of their actions. Dark Alessa warns Rose that Christabella, the cult's priestess, has likely found Sharon already, and that she intends to kill her. Desperate to save her child, Rose agrees to help Dark Alessa and Alessa to get their final revenge. Dark Alessa hugs Rose, allowing her body to merge into Rose's.

Rose then carries Dark Alessa into the local church, where she releases her. There, Dark Alessa dances in the blood of Christabella as Alessa rips her apart with rusted barbed wire. As Alessa's revenge ends, Dark Alessa finds Rose hiding in the corner of the church, shielding Sharon's eyes from the carnage. Dark Alessa approaches Sharon and locks eyes with her, causing her to faint. The darkness ends immediately afterwards, and both Dark Alessa and Alessa disappear. After Rose and Sharon leave the church, Sharon gives a strange look to Alessa's mother, Dahlia Gillespie, and starts Rose's car with her mind, strongly implying that Dark Alessa has merged with Sharon, creating a full rebirth of Alessa living in Sharon's body.

Dark Alessa made a reappearance in Silent Hill's sequel Silent Hill: Revelation, taking the form of both a child and a teenager. She was portrayed by Erin Pitt. Her child form is seen in a flashback chasing cultists throughout the streets of Silent Hill and bringing the darkness with her upon the town, and later appears on the Happy Carousel within Lakeside Amusement Park. When Heather Mason, a renamed, older version of Sharon, returns to the town, Dark Alessa meets her on the carousel and then morphs into a teenaged version whose appearance and clothing match those of Heather. She and Heather recombine and become a complete incarnation of Alessa, allowing Heather to take control of the Otherworld before her ultimate confrontation with Claudia Wolf and her followers, the Order of Valtiel.

---

Me: So she's the Demon!

We fired powerful energy blasts at Dark Alessa and we killed her!

Me: Go back to Hell you little bitch!

We sent her into the River of Fire.

Nicole: You demons are never gonna be welcome here.

Heather M.: But the Order must be destroyed.

Maria: Where's Horsea?

Me: Uh oh!

Horsea got lost in the town.

Horsea: (scared) Maria? J.D.? Where are you guys?

?: (speaks telepathically to her) Hello, child. Are you lost?

Horsea: I think so.

She gasped and she saw PYRAMID HEAD!

We ran and we saw him.

Me: (Gasp) Pyramid Head!

Heather M.: He's my bodyguard. He's with me.

Pyramid Head: I'm sorry Sharon.

Heather M.: It's okay.

Maria: Horsea!

Horsea: Maria!

Me: Thank goodness.

But then we saw him attack us and Nico had his sword ready and they clashed!

Nico: Pyramid Head, what the Hell are you doing?

Puppeteer clone: (with a doll of Pyramid Head) Sorry. But Pyramid Head works for me now!

We saw a clone of Manon Chamack A.K.A. Puppeteer!

The Puppeteer's skin is purple, and her eyes are pink. Her hair is black, the tips of her ponytails light blue with long white spikes sticking out of each. She wears a black mask over her eyes. She also wears a black fairy dress with a black collar, icy blue-colored shirt top, light blue design and two points at the skirt top, and light blue butterfly sleeves with black edges over black puff sleeves at her shoulders with light blue zigzag ends. Long, black, fingerless gloves adorn her hands. On her legs and feet, she has black leggings. Her wand is black with a black star at the end. The tip of the handle and the tips of the points of the star are icy blues.

Me: Puppeteer!

Puppeteer Clone: A clone of her.

Maria: You won't control our friends!

Maria fired a powerful blast of water and it hit the clone and knocked it out. But then the clone vanished!

Me: That's it for her.

Pyramid Head was free from her.

Pyramid Head: What happened?

Eddy: (to Pyramid Head) When I first heard about you, I kinda thought you were an Egyptian.

Pyramid Head: You'd be wise not to test me. I have nothing left to lose. If I don't like what you and your friends have to say, none of you will be leaving here alive!

William: Now that's the Pyramid Head we know.

Then a bunch of figures wearing black cloaks came out and we saw The Order.

Me: The Order! You all are gonna pay for all the pain and suffering you've caused to this town!

Claudia Wolf: You destroyed our master! She was the key to the planets salvation!

Me: Your "Salvation" is a world of chaos and pain. We are the true road to salvation. You guys are nothing but a bunch of Satanic Shitheads!

Laney: You should've summoned more clones instead of just Puppeteer!

Me: Now it's time for you all to die and this town will be free from you!

We powered up and transformed!

Leonard Wolf: We are the world's road to salvation!

Me: No you aren't you fuckers! We are this worlds Salvation from people like you! In the name of God, you Satanic Freaks are going to Hell! People like you deserve to be forever damned!

We went at them and they went at us and we collided and a massive explosion of fire exploded out.

Lincoln and Lincoln fired massive combined blasts of lightning and electrocuted them and blew them apart!

We slashed them all and their evil spirits went into the River of Fire! But they kept on coming.

Me: (Slashes another member) They're like cockroaches!

Nico: Tell me some shit I don't know.

Yuko: These motherfuckers keep on coming! (Blasts a bunch of members with fire)

We kept on blasting, slashing and blowing them apart and sending their evil heretical, blasphemous spirits into the River of Fire! We also punched and kicked them and sent them into the River of Fire with their bodies on them. Bai Tza fired a massive blast of water at the members and it skewered them and killed them.

Bai Tza: These fuckers have no idea what the power of a true demon can do.

Bai Tza turned into her Sea Demon form and she slashed numerous members of the Order and blasted them with a huge amount of water!

Girl Jordan killed numerous members with a powerful dragon made of pure water. Sam Manson slashed a bunch of members with a plant sword and Riley slashed them with a whip and killed them with sulfuric acid in their weapons.

Sylvia punched, kicked and bashed a bunch of Order members, James M. and Sela were mercilessly thrashing and slashing them with powerful martial arts skills.

Me: Lets finish them with teamwork!

Nico: Roger that! Lets go Venom!

Venom: Right!

Nico formed powerful bramble vines and Venom, threw numerous

Symbiote tentacles.

Nico and Venom: LEECH TENTACLE DRAIN!

Using Parasite's powers they drained most of the members of the Order and killed them!

G1 Bumblebee: Lets get them! CYBER KEY POWER!

The Autobot Cyber Key Planet Key went into his back and it enabled him to have 100 missile blasters pop out.

Me: There's only 21 members left. Lets finish them with final smashes!

Laney: I'll start us off! STRYCHNINE Ω POISON OBLITERATION!

Laney fired a powerful beam of light and it obliterated a 7 of them in an instant and reduced them to green slop!

Pyramid Head: Lets make these monsters pay. PYRAMID SLASHSTORM FLASH!

Pyramid Head slashed 7 of the members into a massive bloody mess!

Heather M.: Never will you terrorize my life or my family again! LIGHT OF HEAVEN DEATHBURST!

Heather M. fired a massive blast of rainbow light at the remaining members of The Order and they were obliterated in an instant! The Order was destroyed.

Me: The Order is now in Hell!

All the citizens of Silent Hill came and they cheered and they were now free.

Dahlia: Thank you all so much!

Me: No problem.

But then the whole town and everyone was vanishing.

Heather M.: What's happening?

Me: The whole town is free from The Order and the pain they have caused. They are now crossing over into Heaven.

Dahlia: Thank you. All of you. You saved us and freed us. Now we can cross over into Heaven and be with our families and friends.

Me: In nomine Patris et Filii et Spiritus Sancti. Amen.

They were gone and they were now free. The whole town vanished and in its place was now a burned forest and a barren wasteland. The evil spell of the Order and the psychological trauma it caused was erased from existence forever.

Heather M. came up to me and she looked at me and hugged me and broke down crying.

I hugged her.

Me: It's okay Heather. It's okay. Just let it all out.

She was crying hard. The torture and pain she had to endure because of Silent Hill and the Order was merciless. But her nightmare was over.

Pyramid Head: (To the viewers) The Order are gone and the town can now rest in peace. And my work is no longer needed.

Pyramid Head went back to the afterlife.

Nico later caught a Lunala.

On a post-apocalyptic version of Earth light-years away from our Earth in the city of Corinth, 7 rangers were getting ready to journey to our Earth. It was the R.P.M. Power Rangers.

Summer Landsdown: Are you sure you want to enlist the help of Team Loud Phoenix Storm to help us?

Scott Truman: We can have them help us move Corinth to their Earth. We need a new home again.

Flynn McAllister: (Scottish Accent) He's right lass. We can't stay here anymore.

Scott Truman: Lets do it guys!

R.P.M. Power Rangers: R.P.M. GET IN GEAR!

They transformed in a blinding flash of light and the camera went black.

THE END

Another Fanfiction Complete and part 4 of The 13 Days of Horror complete.

Silent Hill was a strange and terrifying game and movie. Never played or watched it but I heard it's terrifying. I can't even begin to imagine going through something like that. No Timothy McVeigh did not have a son in real life. I made that up. Darkhai gave me the idea for this chapter and NicoChan11 game me the ideas for this. Thanks guys. Next for part 5 is the Giant Mutated Ants from the 1954 movie THEM! Let me know what you all think.

See you all next time.

# THEM!

In the western side of the city, massive fiery explosions were breaking out and gunfire was blazing. The A.I.M. Organization was back and they were hurting people left and right. Just then, we arrived!

William: Hey, there, A.I.M. Agents. Miss us?

Me: Lets kill them all!

We blasted a bunch of the A.I.M. agents and killed them all and sent their evil spirits into the River of Fire.

Laney: You guys are in big trouble!

Nico: You A.I.M. scum have failed this world!

Me: And then some!

We blasted a lot of the A.I.M. members. Then we got some unexpected help! We saw the R.P.M. Power Rangers!

Me: No way! The R.P.M. Power Rangers!

Scott Truman: It's an honor to meet you J.D.

Summer Landsdown: We heard so much about you all.

Dillon: Yeah. You guys are awesome!

Gem: You guys are a force to be reckoned with.

Nico: We don't like to brag but thanks.

Me: We can talk after we finish with these monsters.

Rhino: Thanks for the help!

Scott Trueman: No problem. Never was a fan of A.I.M.

Me: None of us are.

We blasted and killed all of them in 20 minutes.

Me: Serves those fuckheads right.

Ziggy: You got that right.

We then went to Mr. Smoothy and we were talking to the R.P.M. Rangers while having smoothies.

Bonecrusher: You know. There's a good chance that Venjix survived and is in hiding.

Dillion: We'll be ready for him if he does show up.

Ziggy: Personally, I'm looking forward to fighting General Kilobyte if he shows up again.

Qin: Who or what is Venjix?

Scott Truman: Venjix is an evil artificial intelligence program. He was responsible for destroying much of our planet in our world.

Scott Truman went over Venjix's history.

---

Venjix was originally an experimental computer virus created by Dr. K at alternate Earth before accidentally released that he immediately infiltrated the said world's Internet system which resulting it evolved into an all-powerful A.I. that manipulate factories all over the world to create an army of robots to take over the world.

After conquered most of alternate Earth, he has uploaded himself into a red light bulb at his army's fortress he used to speak to his generals in the same way Zordon communicating to first Power Rangers. He also have the same fortress facilitated with anything his minions and himself needs including his own factories of robots.

He later downloads himself into a generation 14 attackbot that Shifter designed. He pilots a special green drone and can make new robots of the same model to download himself into. Venjix made a newer and more powerful model, but he wasn't fully downloaded into it because he was in a rush and was defeated. He decided not to use the model again. He used a new model later on, using old parts of Shifter. He activated many Hybrids within Corinth and took over the control tower.

He then destroyed the lab and took the biofield information, being able to delete Gem and Gemma. Dr. K and a newly restored Tenaya were able to tap a virus into Venjix's main computer and override his ability to delete Rangers. Venjix was physically destroyed with the control tower falling on him. In the finale, it was alluded to that a part of the Venjix virus was still inside the RPM Morphers, that were locked away in a case by Dr. K.

It's possible that he'll return in the future.

---

We gasped in horror.

Qin: Venjix destroyed everything in your world!?

Nico: I Remember that. That is horrible!

Me: We watched you guys on TV and we saw what Venjix did and that makes him nothing short of a monster. He's like a combination of SKYNET from Terminator, H.A.R.D.A.C., X.A.N.A. and Ultron all rolled into one. We haven't faced Ultron yet. But they are all the most deadliest technological enemies we've ever faced and are going to face.

Tommy: Me and several of the other Red Rangers did fight another Venjix before. But he was the leader of the Machine Empire Remnants.

Flash: That's a weird coincidence.

Me: I remember that. But if we face Venjix we will be ready for him. Also we need to get the survivors of Earth in the city of Corinth over to our Earth so they can restart their lives at our home.

Dr. K: That will be a very logical decision.

Grapple: Dr. K, we need you to tell us where Corinth is locaterd so we can beam it to our Earth.

Dr. K: Of course. The city of Corinth is located on a planet Earth in the Lagoon nebula.

Me: That's 6,000 light-years away from our Earth in the constellation of Sagittarius the Archer. Then we better head out over there.

We went back to the estate.

---

In the estate, Liam was comforting a crying Carmen.

Liam: (Southern Accent) Oh I'm sorry he came back to ya my little firebird.

Carmen: (Crying) Oh Liam! It was the worst!

The huskies were comforting them. One of them whimpered for Carmen out of sympathy.

Liam: It's all right Carmen. It's all right.

We came back in and we saw Carmen crying.

Me: Oh man.

Maria: Carmen is still shaken up about running into Shaun.

Luan: Poor girl.

Nico: That kid was a monster.

We deployed the U.S.S. Valorous Phoenix.

---

The U.S.S. Valorous Phoenix was flying through space.

Me: Captain's Log, Stardate 2766.4: The U.S.S. Valorous Phoenix is en route to an alternate planet Earth that has been ravaged and destroyed by the evil A.I. system Venjix and our mission is to beam the whole city of Corinth over to our planet Earth so that Humanity can start over anew. It'll take decades for them to get back on their feet, but we can help them do it.

Summer: I'm glad you're all helping us J.D. and your ship is so awesome!

Me: Thanks Summer. We always help people whenever there is trouble.

Lisa: It's just absolutely inconceivable that an evil artificial intelligence system can go so horribly awry.

Lincoln: No kidding.

Nico: But if Venjix resurfaces we'll be ready for him.

Lisa: Captain, we have arrived at our destination.

Me: On screen.

We saw a planet Earth that was completely different. The whole landscape was radically altered, all the major cities had been completely destroyed and the lands have been stripped clean of vegetation.

Me: My god.

Lincoln: This is horrible.

Laney: I can't believe that Venjix did all this.

Me: No kidding. It's worse than what we saw on TV. But the only city left is Corinth.

Nico: Yeah.

Me: Hailing frequencies.

Lori: Aye captain.

In the city of Corinth, everyone was having a peaceful time. Then I appeared on their viewscreens.

Me: Greetings citizens of Corinth. I'm J.D. Knudson, leader of Team Loud Phoenix Storm.

Everyone was shocked to see that I was contacting them.

Me: I'm sure you're all wondering why we are here. Well we came to help give you all a home on our planet Earth located 6,000 light-years away from here. What Venjix did to you all is completely unacceptable and unforgivable and for that you all have our sincerest of condolences. But you no longer have to worry about that. If Venjix resurfaces we will destroy him for good. And the city of Corinth is now going to be placed under the protection of Team Loud Phoenix Storm.

Everyone cheered wildly knowing that they are all going to be in good hands.

Colonel Mason Truman contacted us.

Colonel Mason Truman: We graciously accept your generous offer J.D. After everything we've been through with Venjix we can now start our lives on a brand new home.

Me: I'm glad Colonel. I'm so sorry this all happened to you. But I promise that you all will be in good hands.

Colonel Mason Truman: Thank you J.D.

Me: You're welcome sir.

We fired a cutter beam around the whole city and cut the whole city out of the ground.

Me: Now hold on sir. It's gonna be a bumpy ride.

We lifted up the whole Domed City of Corinth and brought it up to the ship.

Nico: City loaded into ship.

Me: Excellent. Now to make sure that Venjix doesn't start his factory again.

Lori: What are you gonna do?

Me: Blow up his whole factory with the super laser.

Nico: That's a good idea. He'll have to start over from scratch.

Me: Yep. Charge up Superlaser.

Fu: Aye sir. Commence Primary Ignition.

Fu pressed some buttons and pulled a lever and the Superlaser was locked onto Venjix's factory.

Me: Fire!

We fired our superlaser and it hit Venjix's factory and it exploded with unbelievable power!

KRABBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

The explosion was so powerful and so devastating that it completely obliterated the whole factory in an instant and the explosion can be seen all the way from out in space.

Nico: BINGO!

Me: Nice shot!

Laney: That's it for that factory.

Lola: Now Venjix will have to start all over again.

Me: Yep.

Flynn: (Scottish Accent) Well done lad!

Me: Thanks Flynn. Set a course for home.

We were on our way home.

We later got back to our Earth and we got Corinth settled into Gotham Royal York. It was now part of the city.

---

At the Estate, we were watching one of my dad's favorite movies from his past. It was a movie called "THEM!" It was made in 1954 and it's about mutant ants that threaten to destroy a town in New Mexico and in Los Angeles, California.

New Mexico State Police Sgt. Ben Peterson and Trooper Ed Blackburn discover a little girl wandering the desert, near Alamogordo, in shock and in a catatonic state. They take her to a nearby vacation trailer, located by a spotter aircraft, where they find evidence that the little girl had been there when it was attacked and nearly destroyed. It is later discovered that the trailer was owned by an FBI Special Agent named Ellinson, on vacation with his wife, son, and daughter; the other members of the girl's family remain missing. Now in an ambulance, the child briefly reacts to a pulsating high-pitched sound from the desert by sitting up in the stretcher. No one else notices her reaction, and she lies back down when the noise stops.

At a general store owned by "Gramps" Johnson, Peterson and Blackburn find him dead and a wall of the store partially torn out. After a quick look-around, Peterson leaves Blackburn behind to secure the crime scene. Blackburn later goes outside to investigate a strange, pulsating sound. Gun shots are fired, the sound grows faster and louder, and Blackburn goes missing. Peterson's chief later points out that both Johnson and Blackburn had fired their weapons at their attacker. More puzzling is the coroner's report on Johnson's brutal death, which includes a huge amount of formic acid found in his body.

The FBI sends Special Agent Robert Graham to New Mexico to investigate. After a strange footprint is found near the Ellisons' trailer, the Department of Agriculture sends myrmecologists Dr. Harold Medford (Edmund Gwenn) and his daughter, Dr. Pat Medford, to assist in the investigation. The elder Medford exposes the Ellinson girl to formic acid fumes, which rips her from her catatonia into a state of panic from "Them!" Medford's suspicions of Camponotus vicinus are validated by her reaction, but he will not reveal his theory prematurely.

At the Ellinson campsite, Pat encounters a giant, eight-foot-long foraging ant. Following instructions from the elder Medford, Peterson and Graham shoot off the ant's antennae, blinding it; using a Thompson submachine gun they kill it. Medford reveals his theory: a colony of giant ants, mutated by radiation from the first atomic bomb test near Alamogordo, is responsible for the deaths. General O'Brien orders an Army helicopter search, and the ants' nest is found. Cyanide gas bombs are tossed inside, and Graham, Peterson, and Pat descend into the nest to check for survivors. Deep inside, Pat finds evidence that two queen ants have hatched and escaped to establish new colonies.

Peterson, Graham, and the Medfords join a government task force which covertly begins to investigate reports of unusual activity. In one a civilian pilot (Fess Parker) has been committed to a mental hospital after claiming that he was forced down by UFOs, shaped like giant ants. Next, the Coast Guard receives a report of a giant queen hatching her brood in the hold of a freighter at sea in the Pacific; giant ants attack the ship's crew, and there are few survivors. The freighter is later sunk by U.S. Navy gunfire.

A third report about a large sugar theft at a rail yard leads Peterson, Graham, and Major Kibbee to Los Angeles. An alcoholic in a hospital "drunk tank" claims he has seen giant ants outside his window. The mutilated body of a father is recovered, but his two young sons are missing. Peterson, Graham, and Kibbee find evidence that they were flying a model airplane in the Los Angeles River drainage channel near the hospital. Martial law is declared in Los Angeles, and troops are assigned to find the ant nest in the vast storm drain system under the city.

Peterson finds the two missing boys alive, trapped by the ants near the nest. He calls for reinforcements and lifts both boys to safety, just before being attacked and grabbed by an ant in its mandibles. Graham arrives with reinforcements and kills the ant, but Peterson dies from his injuries as others swarm to protect the nearby nest.

Graham and the soldiers fight off the ants, but a tunnel collapse traps Graham. Several ants charge, but he is able to hold them off with his submachine gun just long enough for troops to break through. The queen and her hatchlings are discovered and quickly destroyed with flamethrowers. Dr. Medford offers a philosophic observation: "When Man entered the Atomic Age, he opened the door to a new world. What we may eventually find in that new world, nobody can predict".

We saw the ants die and the movie was done and we cheered wildly.

Me: That is so awesome!

Nico: But those ants were huge and ugly!

Eddy: Ants. Why did it have to be ants?

Me: Ants are not very well liked.

Inferno (BW): I may be an ant in beast form, but that was an amazing movie boss

Me: It was Inferno.

Lana: I think those ants are amazing.

Lola: Ew! You would have to be crazy to like ants.

Then the alarm went off.

Me: Uh oh.

We went to the computer and we saw the whole city of Los Angeles now under Martial Law.

Me: Uh oh. The whole city of Los Angeles is now under Martial Law.

Nico: Not good.

Me: I'm picking up a radio transmission. Lets hear it.

I pressed some buttons and we heard it.

Man: We interrupt all radio and television programs for an indefinite period. Please keep your radio and television sets turned on. This is an emergency. I repeat, this is an emergency.

Man 2: By direction of the President of The United States and full agreement of the governor of the State of California and the mayor of Los Angeles, the city of Los Angeles is in an interest of public safety hereby proclaimed to be under martial law.

Me: Not good. Something big is happening there.

Sam (TS): Is Mount Wilshire going to erupt again?

Nicole: No there's nothing on the seismic monitors.

Me: Lets keep listening.

Man 2: Curfew is at 18:00. Any persons out on the street or outside their quarters after 6:00 PM tonight will be subject to arrest by the military police. Now is for the reasons for this most drastic decision. A couple of months ago in the desert of New Mexico, gigantic ants were discovered.

Lana: Gigantic ants!?

Lola: Like in the movie!

Man 2: These ants are similar in appearance and characteristics to the household and garden pests you are familiar with. Except that they are mutations. Ranging in size from 9 to 12 feet in length. The New Mexico colony was destroyed but 2 Queen Ants escaped. One has been accounted for and destroyed but the other has not yet been found. It is now known to have established a nest somewhere in the storm drains beneath the city of Los Angeles. It is not known how long this nest has been established or how many of these lethal monsters have hatched. Maybe a few. Maybe thousands. If new queen ants have hatched and escaped this nest, other American cities even now will be in danger. These creatures are extremely dangerous. They have already killed a number of persons. Stay in your homes. I repeat. Stay in your homes. Your personal safety, the safety of the entire city depends upon your full cooperation with the military authorities.

Me: We got to get over there! Team Loud Phoenix Storm..

Jaime: And Team Loud Fairywind…

Me and Jaime: LETS FLY!

We were off once again to Los Angeles, California!

---

LOS ANGELES, CALIFORNIA!

---

We arrived in the city and we followed the Military to where the storm drains are located.

Flynn: Think we should call our Zords for help as well?

Me: No we can't take a chance of the zords destroying the storm drain system.

We met up with General O'Brien and we told him that we were there to help out.

We heard that they found the nest and that it had the same smell as the nest in New Mexico.

Dr. Harold Medford: He's found the nest!

General O'Brien: To all units, to all units. Condition Red. Drain 267 is the target area. Repeat, Condition Red. Drain 267 is the target area.

Me: Lets go!

We ran in fast and we were running into the storm drains and we went to drain 267 and we saw the GIANT ANTS! They were doing this ugly chirping sound that was horrible!

Me: Wow!

Lana: Those ants are huge!

Laney: Those are the biggest ants ever!

Lisa: Very amazing specimens!

Varie: I would not want ants like these roaming around.

Me: Me neither. Just call us the Mutant Ant Exterminators. Lets get them!

We went at the ants.

I punched one ant and killed it.

Hulk: Hulk smash puny ants!

Hulk punched a bunch of ants and blew them apart and splattered their blood and guts all over the place.

Edzilla: (Punches an Ant and kills it) ED SMASH ANTS!

We were blasting and punching a bunch of ants all over the place and killed them. With us was Sgt. Ben Peterson.

Sgt. Ben Peterson: We need to kill the Queen. Without her, the colony will fall!

Me: I know that. Without the Queen, the whole colony dies.

Lucy Loud: The queen will be given a proper burial.

We blasted, froze, burned, punches and smashed a bunch of ants all over the place and crushed them all until it was only the Queen that was left. We saw the Queen and she had a huge abdomen loaded with thousands of eggs.

Me: So that's the Queen.

We put up a barrier and prevented her from escaping.

Inferno (BW): You give royalty a bad name!

Me: It's time to crown this queen! Lets get her! Time for some teamwork!

Bonecrusher: Roger that boss! CYBER KEY POWER!

The Earth Cyber Planet Key went into his back and enhanced his laser pistol 100-fold.

Rhino: Time for some heavy pain! ANIMATRON CYBER KEY POWER!

The Animatron Cyber Planet Key went into Rhino's Right Arm device and it enhanced his strength and power 100-fold.

Bonecrusher and Rhino: LASER RHINO STAMPEDE RAM!

Rhino charged and Bonecrusher fired a powerful barrage of lasers and they both slammed into the queen and bisected her.

Grapple: Time for some action! CYBER KEY POWER!

The Earth Cyber Planet Key went into his back and into his back and it enhanced his arc-welder rifle and missiles 100-fold.

Flash: Time for me to get the need for speed. EARTH CYBER KEY POWER!

The Earth Cyber Planet Key went into Flash's right hand device and it enhanced his super speed 100-fold.

Grapple and Flash: HYPERSONIC FIRESTORM BLASTWAVE

Flash ran faster than ever and Grapple fired a powerful blast of fire from his arc-welder and the blasts turned into a deadly tornado and it burned the half of the ant that had the eggs.

Cliffjumper: Lets do it Triggerhappy.

Triggerhappy: Righto!

Triggerhappy and Cliffjumper fired their lasers and weapons.

G1 Cliffjumper and G1 Triggerhappy: LASER FIRESTORM

HEATSTORM!

The lasers all hit the queen all at once and exploded.

KRABBBOOOOOOOOOOOOOOOOOOMM!

Lynn: You ants make me sick! VOLCANIC FIRESTORM DEATH DELUGE!

Lynn fired a massive torrent of lava and it cooked the ant.

Inferno (BW): For the glory of the royalty! INFERNO FIRE ANT FIRESTORM!

Inferno fired a massive blast of fire from his blaster and burned it.

Sgt. Ben Peterson: You terrorized our planet long enough! AMERICA BURNS STRONG!

Sgt. Ben Peterson fired a powerful blast of red, white and blue fire and burned the Queen and and incinerating it. Killing it.

Me: The ants are toast!

Nico: These giant ants have failed this city!

We cheered wildly.

Inferno (BW): (To the viewers) Never mess with the true system of a great royalty.

Me: You said it Inferno.

Nico also caught a Buzzwole and Pheromosa.

We went back home and we defeated another horror.

THE END

Another Fanfiction complete and part 5 of the 13 days of horror is done.

Them! from 1954 was one of my dads favorite movies from his past. It was so freaky how those mutant ants were terrorizing the whole city. NicoChan11 gave me the ideas for this one. Thanks man. Next for part 6 is the merciless and most ruthless shark ever to terrorize the seas back in 1975: JAWS! Get ready to take a big bite out of the most fearsome shark ever! Let me know what you all think.

See you all next time.

# THE RAVENOUS SHARK NAMED JAWS

In the living room, we were watching TV and playing board games. I was playing chess with Bai Tza.

Bai Tza: (Moves Queen and claims my king) Checkmate.

Me: You are good Bai Tza.

Qin: You did your best J.D.

Me: Thanks Qin.

Then a Breaking News report came on.

News Reporter: We interrupt this program to bring you this Breaking News report!

Katherine Mulligan: This is Katherine Mulligan coming to you live outside of Gotham Royal York Maximum Security Prison, where we just found out that Dark Lynn Loud Jr. has escaped from prison!

We gasped!

Lynn: That evil version of me escaped!?

Katherine Mulligan: The only clue that could be found was this note inside her cell.

We saw the note. It said

"Dear Fuckhead Guards,

If you have found this note then that means that I am long gone and am heading back to my house to kill that fucking jinx and worthless motherfucking excuse of a shithead brother Stinkoln Loud. I will now have my revenge on his fucking hide for sending me to prison and I will make sure that he suffers 100 deaths for it and burns in hell for all eternity! Go fuck yourselves!

Love, Dark Lynn."

Me: That stupid superstitious bitch!

Lincoln: That evil version of Lynn is a monster! She just will never learn!

Nico: That version of Lynn is pure evil and she needs to be brought down a huge number of pegs.

Me: She's the Loud House version of Evil Sasuke. But I have a plan.

We huddled and I revealed my plan. It was to lure Dark Lynn into a false sense of security and have Lincoln pulverize her after Elena reveals that we're onto her.

We put our plan into action.

In the middle of the city we were looking for Dark Lynn and we saw her. Thundercracker went up to her.

Thundercracker: Hey, Lynn.

Dark Lynn: Hey, um…

Thundercracker: Thundercracker? Did you forget already? Me and the rest of the Decepticons have been with you guys for about 9 months.

Dark Lynn: Right. Is Lincoln here?

Elena: He's out with Ronnie Anne. (pins Dark Lynn to the wall) But you're not getting to him!

Dark Lynn: How did you know?

Elena: I've worked for Organization XIII. I know a lot about lies and deceit!

Thundercracker: And I'm a Decepticon. So me and the rest of my Decepticon friends are the masters of deception!

Lincoln then swooped in faster than a bolt of lightning and punched

Dark Lynn in the face and kicked her in the stomach! She was knocked down.

She got up and saw Lincoln.

Lincoln: Hello Dark Lynn.

Dark Lynn: Well if it isn't the stupid jinx! How nice of you to save me the trouble of finding you to kill you so I can rip your fucking head off!

Lincoln: You are nothing but a stupid sore loser Dark Lynn! You are nothing but a bully and a bad sport and you don't care about anyone but yourself!

Laney: That's right you monster!

Lana: Lincoln is not bad luck!

Lola: YOU ARE!

Lucy Loud: You are a demon that has a heart that's blacker than mine!

Dark Lynn: You are ALL SO DEAD!

Dark Lynn charged and Lincoln charged and punched her in the face with devastating force and knocked out some of her teeth and kicked her in the stomach with incredible force.

Lincoln jumped back and he had lightning flickering around his body.

Lincoln: And for the record, I'm not the same as I was before.

Lincoln then flared up his orange aura and a massive blast of lightning erupted high into the sky and flooded the area around us with over 500 Septillion volts of electricity! When the Aura faded, Lincoln was forever changed! He now looked like he was 17 years old and he had an orange and black high school frat jacket on, blue pants, tennis shoes and he had a muscular build and he had angel wings made entirely of pure lightning and they were surging with a massive amount of electricity. He had a thunderbird symbol in the middle of his forehead with a bolt of lightning in its claws. He also had lightning bolt earrings. It was unbelievable! He was now a Super Angel 20,000 Supercell Lightning Thunderbird! His energy level was so powerful that it could be felt all over the entire galaxy and all over the entire universe! The lightning he had overloaded most of the lights all over the city!

Me: Whoa!

Nico: Wow! Lincoln looks incredible!

Earth was flabbergasted and she had blood dripping from her nose and so was Ronnie Anne, Paige, Ariel's Sisters and the others.

Lori: My little brother has literally now become a man.

Leni: I am totes proud of him.

Luna: Me too dudes.

Luan: Lincoln sure had a Shocking Growth Spurt! (Laughs) Get it? But seriously, Lincoln looks awesome!

Lynn: That's my little brother.

Lucy: Lincoln is amazing.

Laney: Lincoln has become a man.

Lana: That's our brother.

Lola: Way to go Linky!

Lisa: Affirmative. Great job on your transcendence.

Lily: Way to go big brother!

Me: Not only that, but his power level is completely unreal. It's far stronger than anything we have seen. He could be just as powerful as me now.

Nico: That could very well be the case.

Lincoln opened his eyes and they had a massive raging thunderstorm with incredible lightning crackling in the clouds and all over the sky. His blue eyes were now purple and he had a whole new level of power and he was now a whole new person of incredible power!

Lincoln: (Older voice) It's time to show you just how wrong you are Dark Lynn. There is no such thing as bad luck and the only true jinx around here is you.

Dark Lynn: (ENRAGED SCREAMING) I WILL KILL YOU JINX! IF IT'S THE LAST THING I EVER DO!

Lincoln took off faster than a bolt of lightning and he kneed Dark Lynn in the stomach with devastating force and electrocuted her with the power of a lightning strike.

THUNDERCLAP!

Me: Whoa!

Dark Lynn belched up a huge amount of blood and she was knocked out.

We went up to him.

Me: Way to go buddy!

Lincoln: Thanks guys.

Laney: Lincoln you look amazing!

Lisa: Affirmative, all that training you've had really has paid off and you brought Dark Lynn her comeuppance.

Lincoln: Thanks Lisa.

Lori: Lincoln, I'm literally so proud of you. You've now become a man.

Lincoln: Thanks Lori.

Me: So how does it feel to have a transformation like this?

Lincoln: It feels incredible J.D.

Lola: Yeah. You really showed that Dark Lynn!

Lana: You sure showed her big bro!

Nico: Lets not give him a swollen head guys.

Me: You look awesome buddy. And the Lightning Bolt Earrings make you look like you are a true Rider of The Storm.

Luna: That was a great song by The Doors.

Lincoln: Thanks guys.

Human Torch was looking at Dark Lynn.

Human Torch (looks at the unconscious Dark Lynn): Ok. I'll say it. Why don't we just drop her off somewhere in Gotham Royal York?

Maria: Because my mom lives in Gotham Royal Work. (to Spiderman) And your aunt. (to Irma) And your dad.

William: What are you suggesting, babe? That we throw Dark Lynn in prison again?

Optimus Prime: She'll just break out again like before.

Sandman: Me and Clayface will handle it.

Adam Park: And by that, you mean you two will take her somewhere private and kill her.

Clayface: Why so surprised? We thought you guys would support this idea.

Me: No. I have a much better idea. Bobby will seal her into a crystal prison and we'll send her to the Pluto Prison where the Dark Sides of Lori and Lola are. Completing the Dark Sides of the Triangle of Violence.

Qin: The Triangle of Violence? What's that?

Lana: It's something I invented. It's a term I created for the 3 meanest members of our family before J.D. moved here and changed us.

Lori: That's right. Before J.D., I literally was the meanest and bossiest bitch that would rather care about Bobby and my phone rather than my family.

Lynn: Before J.D., I was a mean bitch that cared only about becoming number one and being the best at all sports and I would beat up Lincoln for the sheer thrill of it.

Lola: And before J.D., I was a mean black-hearted little brat that cared about no one but herself and wanting to look beautiful only. I would blackmail everyone and treat them like servants.

Lana: That's how me and Lisa came up with the Triangle of Violence.

Lisa: Affirmative.

Me: That's an interesting and very detailed reason for it.

Nico: Very descriptive.

Carol: I agree.

Fu: Yeah.

Qin: I had no idea. But it does make sense.

Me: But we're not gonna let this evil monster ruin our name with bad memories anymore.

Bobby entombed Dark Lynn in a red crystal cluster and she was permanently frozen in time in crystal. We beamed her over to the Pluto Prison.

Seaspray: Good thing she didn't have the real Lynn's powers.

Me: Agreed Seaspray.

We later went back to the estate.

---

Later by the lake, Nico was tracking where a Stasis Pod was transmitting a signal. He found it and activated it and out came Overbite!

Overbite: Where am I?

Nico: You are on Earth. I'm Nicolas Chan, but everyone calls me Nico. I am now the new leader of the Decepticons.

Nico told him everything that has happened.

Overbite: So Megatron and Starscream are dead. Good riddance.

Nico: Yep.

Overbite: I pledge my loyalty to you Nico.

They went back to the estate.

---

We were watching TV when suddenly the alarm went off.

Me: Uh oh!

We went to the computer and we got word of multiple nasty bloody and gruesome shark attacks going on near Miami, Florida.

Me: Whoa! Shark Attacks?

Lana: Sharks are cool.

Syd: They sure are. Sharks are one of natures most amazing creatures.

Heidi: And they are one of natures most powerful survivors. For 480 million years they swam the oceans since the Silurian Period.

Nico: I remember that.

Sakura Avalon: Same here. That was so cool that we learned about that.

Nico: It sure is.

Me: Lets see if we can find out what kind of shark is doing this.

I looked it up and saw that a massive Great White Shark is behind it! It's name is JAWS!

---

Jaws The Shark, sometimes erroneously referred to as Jaws, is the titular main antagonist of the 1975 summer blockbuster film Jaws, and its three lesser sequels and the franchise. It also appears as the main protagonist and playable character in its video games, Jaws Unleashed and Jaws: Ultimate Predator.

The main antagonists of the franchise, they are all shown to be ravenous Great White Sharks of abnormal size and ferocity that terrorize Amity Island (and SeaWorld in Jaws 3-D). None of the sharks have official names, but many nicknames have arisen from them, mostly derived from the production names for them.

Each Jaws film showcases a giant Great White Shark (scientifically called "Carcharodon carcharias") in Jaws, Jaws 2, Jaws 3-D and Jaws: the Revenge. Each shark is a different shark in every film although the race is the same, and all have a size of about 20 to 30 feet in length. Jaws first appeared in the novel by Peter Benchley before Steven Spielberg adapted it into a motion picture. In the movies the sharks are much larger than the real animal and during the course of the series they show to have a certain amount of intellect. The shark is the playable character in the video games Jaws Unleashed and Jaws: Ultimate Predator.

Though none of the sharks have official names, all of them have been given monikers to differentiate them from each other. The animatronic sharks in the first film was nicknamed "Bruce" by the film crew, after Steven Spielberg's lawyer. Whereas the sharks in

Jaws 2 were nicknamed "Brucette" by fans. On the set, keeping in tradition with the first film, the two puppet sharks made for the production were known as Bruce Two, "Fidel" (unburned) and "Harold" (burned), the latter after David Brown's Beverly Hills lawyer. The mother shark from Jaws 3-D was nicknamed "Brucetta". The juvenile shark from Jaws 3-D was named Danny in the movie. The shark in Jaws: The Revenge has no official nickname, but has been dubbed "Vengeance" by fans, as this shark is seeking vengeance on Chief Brody's family. Additionally, the name "Jaws" has been attributed to the sharks (though this is technically incorrect, as this is the title of the films and the sharks are never referred to as such in the films).

Sharks

Bruce (Jaws) - (25 feet in length and weighs in at 3 tons. Hooper claimed it to be a 20 footer. Apparently 12 years old.). Bruce is the first shark to terrorize the citizens of Amity Island.

Brucette (Jaws 2) - (24 feet in length and three tons in weight, apparently 10 years old. Is implied to be the mate of Bruce in the novel adaptation.) Brucette also had the highest body count of any of the sharks, killing eight, not counting Bob in a deleted scene. Just like her mate Bruce, Brucette is terrorizing the people of Amity Island.

Brucetta (Jaws 3-D) - (Somehow 35 feet in length, weighing 5 tons and apparently 14 years old. Her son, Danny's size is unknown, but likely closer to fifteen feet in length.). Brucetta is terrorizing Sea World as revenge for the capture and death of Danny.

Vengeance (Jaws: The Revenge) - (25 feet in length and weighed 2,500 pounds, apparently 10 years old. It is supposedly the child of Bruce and Brucette, as said in the novel based on the film.). Vengeance is seeking vengeance on Chief Brody's family for the deaths of both his parents.

All have a size of about 20 to 30 feet in length.

Appearances in other media

The Shark appears in numerous episodes of Family Guy.

In the episode, The Father, the Son and the Holy Fonz, he stars in Jaws V: Fire Island.

In a DVD exclusive scene in Play It Again, Brian, he eyes Lois and Brian Griffin after they tell Peter there are no sharks in Martha's Vineyard.

In Brian Griffin's House of Payne, Jaws appears in Peter's television series Big Jaws, where he and the other humans team up to fight the antagonist Big Jaws. There he was voiced by Seth Macfarlane.

He is voiced by Mike Henry (who played one of Peter's best friends Cleveland Brown) in all appearances. He is one of the many anthropomorphic creatures that uses the voice of Bruce, the very flamboyant Southern gay man who was also voiced by Mike Henry. Interestingly, "Bruce" was the name given to the mechanical shark prop used in the making of the film.

In the novel It, Jaws is one of the disguises of Pennywise.

The Shark appeared in the computer game called Fisher Price Pirate Ship.

Jaw from Amagi Brilliant Park is based off of Jaws being virtue of similar name and appearance and even has a Jaws like head when he is on water.

In The Lego Batman Movie, Bruce appears as one of the numerous Phantom Zone Criminals who teams up with The Joker to defeat Batman and destroy Gotham City. This incarnation of Bruce is shown to be super-humanly intelligent, to the point of being a parody, as he is shown piloting a plane without assistance.

We gasped in sheer horror!

Linka: The shark from the movie Jaws is real!?

Lola: That shark was really scary!

Lana: He was huge and big!

Laney: He was a big and mean shark though. But he was the biggest Great White Shark I've ever seen.

Syd: Great White Sharks are really cool!

Me: They are also one of the most fearsome and most savage of all the different kinds of sharks out there.

John: I was spliced with a Great White Shark. So I should know about that.

Me: I remember that John. But if we're gonna battle a monster like Jaws we're gonna need some heavy duty power.

Max Cooper: I can call the Blue Shark Zord to help out.

Merrick: Same with the Hammerhead.

Me: And the Sawshark Zord.

Lana: We can use the Sea Animal Zords to battle Jaws.

Me: Good idea. Lets head out!

We were off to Miami, Florida!

---

MIAMI, FLORIDA

---

In the middle of the ocean, not far off the beach was Jaws and on his back was the Wild Force Power Rangers old enemy Retinax!

Retinax (to mind controlled Jaws): Patience, my pet. Soon, you'll have all the meat you can have. And the Power Rangers will fall by my hand!

We landed and we saw that the whole beach was closed.

Me: The whole beach is closed.

Lana: Wait! Look!

We saw Jaws and Retinax coming!

Me: Whoa!

Retinax: Surprised to see me again, Rangers?

Cole Evans: Retinax?!

Retinax: Nice to know you remember me. I bet you also remember destroying Master Org. You didn't even give him time to grow giant!

Me: I remember you! You were one of the General Orgs of Master Org!

Nico: You are really ugly!

Me: Master Org got what was coming to him! Just like you will.

Tori Hanson: I hope you put up more of a fight then Master Org did.

Me: Master Org was completely helpless against our power. So you better be ready to fight.

Retinax: Oh, I think you'll find that I'm more of a challenge! (sends blast towards us)

I deflected the blast back to him and it exploded.

KRABBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOMMM!

Me: We've handled tougher opponents than you.

Retinax: And now, I will perform the greatest service of all to my master. I will end the one who took his life! (grabs me by the throat)

I kicked him away and fired laser blasts and they exploded.

Cole Evans: Lets get him guys!

Wild Force Rangers: WILD ACCESS!

They turned into the Wild Force Power Rangers.

Tori Hanson: Lets help them out guys!

Shane: You don't have to tell me twice.

Ninja Storm Rangers: Ninja/Thunder/Samurai Storm! RANGER FORM! HA!

The Ninja Storm Rangers transformed.

Shane: (Echoing) POWER OF AIR!

Dustin: (Echoing) POWER OF EARTH!

Tori: (Echoing) POWER OF WATER!

Hunter & Blake Bradley: (Echoing) POWER OF THUNDER! (THUNDERCLAP)

Cam: (Echoing) GREEN SAMURAI POWER!

Me: Lets get him guys!

We powered up!

Max Cooper: While we're fighting Retinax we'll summon the Sea Wild Zords to fight Jaws.

Lana: Lets do it!

Me, Lana, Merrick, Max, and Tori: WILD ZORDS DESCEND!

Their Crystal Sabers called forth the Blue Shark, the giant Blue Whale Zord, Purple Hammerhead Shark, Brown Sawshark, and the Aqua Dolphin zord. They dove into the water and were fighting Jaws.

Me: Lets dance you multi-eyed freak!

We went at him and I had my Quasar Saber and Thermo Blaster ready.

Me: You and the Orgs are not welcome here! This is our planet and you are not welcome here!

I fired my Thermo Blast and the blasts hit Retinax and exploded on him and I slashed him with my Quasar Saber. Cole punched him with his Red Lion Fang and Taylor slashed him with her Golden Eagle Sword. Max Cooper slashed and punched him with his Shark Fighting fins and kicked him. Alyssa bashed him with her White Tiger Baton. Danny slashed him with his Bison Axe and Merrick slashed him with his Lunar Cue. The Ninja Storm Rangers slashed and blasted him all over the place.

Me: Lets show this monster some teamwork guys!

Shane Clarke: You got it J.D.! Battleizer Mode! Flight Mode! Engage!

Shane Clarke got awesome armor with cool wings and awesome weapons!

Cole: Animarium Armor!

Cole activated his Animarium Armor and it was awesome!

Me: Wow! Your Battleizer and Animarium Armors are amazing!

Cole: Thanks J.D.

Me: Let me turn up the heat. LIGHTS OF ORION ACTIVATE!

I glowed and got a powerful armband, belt buckle, armclaw and my Quasar Saber got a crossguard.

Shane Clarke and Cole Evans: HURRICANE FALCON DEATHBURST!

Shane fired a powerful blast of wind and Cold fired a powerful blast of red energy from his chest armor and the blasts combined and slammed into Retinax and exploded.

KRABBBOOOOOOMMM!

Me: Lets bring the heat! ERIDANUS STAR WAVE RIVER!

The Constellation of Eridanus the River appeared in the background and I fired a massive wave of stars at Retinax and they hit him all at once and exploded.

KRABBBOOOOOOOOOOOOMMMMM!

Lori: Wow! That was literally so cool!

Lana: That was awesome!

Nicole: The technique he used is based on Eridanus the River, a constellation in the Southern Hemisphere.

Nico: That is so cool!

Tori: Lets do it Max!

Max Cooper: Right with you Tori!

Tori fired a powerful blast of water and Max Cooper fired a powerful blast of blue energy.

Tori Hanson and Max Cooper: SHARKNADO MAELSTROM CARNAGE!

Tori formed a massive tornado of pure water and the blue energy formed a massive number of sharks that were spinning around it and they hit Retinax and exploded all over him.

KRABBBBOOOOOOOOOOOOOMMMM!

Me: Check this out! ULTRAVIOLET LIGHTNING SUPERSTRIKE!

I channeled Force Lightning into the blast of my Thermo Blaster and fired it and the ray had Force Lightning in it. It hit Retinax and exploded.

KRABBBBOOOOOOOOOOOOOOOMMMMM!

Lincoln: Wow! That was awesome! He combined his Force Lightning into his Thermo Blaster.

Nico: That was really cool!

Laney: And clever too.

Me: Lets see how you like this Retinax.

I fired a powerful blast of Force Lightning at him and I was electrocuting him like how Emperor Palpatine did to Luke in Star Wars VI.

Danny Delgado: Wow! That is so awesome!

Alyssa: That is Force Lightning! That is amazing that J.D. can do that!

I stopped.

Me: I'm gonna make sure that you die a tremendously excruciating and horrifyingly painful death by the time we're done with you Retinax!

Danny Delgado: And we will make sure of it!

Danny Delgado and Hunter Bradley: THUNDER BISON CHARGE!

Danny became a spirit Bison and Hunter fired a massive blast of lightning and it turned him into a lightning bison and he charged and rammed Retinax and knocked him down.

I then called forth my V-Lancer and slashed Retinax all over.

Blake Bradley and Alyssa Enrilé: THUNDER TIGER SLASHSTORM!

Alyssa turned into a spirit tiger and Blake fired a massive blast of lightning and turned her into a lightning tiger and she slashed Retinax all over the place.

Me: Lets see how you like this! (Echoing) MAGMA STYLE NINJA ART: SCYTHE OF ETNA!

I formed a scythe made of pure magma that burns at 10,232˚ Fahrenheit and slashed Retinax all over the place. It burned him bad all over the place.

Dustin: Lets get him!

Taylor: Right!

Dustin Brooks and Taylor Earhardt: MAGMA EAGLE FIRESTORM!

Dustin fired a massive blast of Lava and Taylor turned into a Spirit Eagle. The lava merged with her and turned her into a deadly volcanic phoenix and she swooped in and hit Retinax and burned him in a powerful explosion!

KRABBBOOOOOOOOOOOOOOOOOOOMMMMM!

Me: Check this out guys! I summon FIRE PRINCESS!

I pulled out the Fire Princess Duel Monster Card and it summoned Fire Princess.

Me: Lets fire a blast together.

Fire Princess: Right!

Me and Fire Princess: FIRESTORM TORNADO CONFLAGRATION!

Me and Fire Princess fired a powerful blast of fire and it turned into a deadly conflagration of pure fire and turned into a deadly tornado that burned Retinax.

Cam: That was amazing!

Merrick: It sure was! Lets get him!

Cam had his sword ready and Merrick combined his Animal Crystals with his sword.

Cam Watanabe and Merrick Baliton: PREDATOR SWORD STRIKE!

Cam's sword was infused with the Animal Crystals of The Wolf, Hammerhead and Alligator and he slashed Retinax and it exploded.

KRABBBBOOOOOOOOOOOOMMMM!

Me: Lets finish this guy off! Ready guys?

Wild Force Rangers: READY!

They formed the Jungle Sword!

Cole: JUNGLE SWORD!

Me: Guys do you mind?

Cole: Not at all J.D.

I formed the Jungle Blaster with the Falconator, Sword of Pardolis, Deer Clutcher, Armadillo Puck and Rhino Shooter.

Me: JUNGLE BLASTER!

Merrick: Ready.

Shane: Lets do it guys!

The Ninja Storm Rangers formed the Thunderstorm Cannon.

Me: Ready guys? Lets do it!

Cole: JUNGLE SWORD! SAVAGE SLASH!

Merrick: Laser Pool! LUNAR BREAK!

Merrick fired the Wolf, Hammerhead and Alligator Crystals like pool balls and Cole and the Wild Force Rangers slashed him.

Me: JUNGLE BLASTER! SAVAGE BLAST!

I fired a massive blast of orange energy.

Ninja Storm Rangers: THUNDERSTORM CANNON, FIRE!

They fired a powerful blast of energy lightning and it hit Retinax all at once and exploded.

He exploded with incredible power!

KRABBBOOOOOOOOOOOOOOOOOOOOOOMMM!

But then we got an unexpected surprise. Retinax grew to gigantic proportions!

Wild Force Rangers: WILD ZORDS! DESCEND!

The Wild Zords all came.

Wild Force Rangers: WILD ZORDS COMBINE!

The Zords turned into the Wild Force Megazord and the Soul Bird merged with it.

Me: I have an idea! Lana, do you mind?

Lana: Not at all J.D.! Go get him!

Me: Cole, you guys are gonna like this! BLUE WHALE ZORD, ANIMAL KINGDOM ULTRAZORD POWER!

The Blue Whale Zord's eyes glowed and all the Wild Zord's Eyes glowed and the Blue Whale Zord Transformed and turned into an awesome SUPER MEGAZORD and the Wild Zords all merged with the Blue Whale Zord and it turned into the new ANIMAL KINGDOM ULTRAZORD! It was a massive Ultrazord that was 10 times larger than Retinax.

Cole: Wow!

Nico: WHOA! That is so cool!

Laney: We never saw this on TV!

Nico: This is all completely different than from what we remember!

I appeared behind the Wild Force Rangers.

Me: Hey guys. This is the new Animal Kingdom Ultrazord. It's the Blue Whale Megazord with all the Wild Zords we have combined together. It's power is 10,000 times stronger than all the Wild Force Megazords combined.

Cole: This is amazing!

Taylor: This is incredible!

Hunter Bradley: Mind if we help too?

We saw the Storm Megazord and the Thunder Megazord.

Me: Wow!

Alyssa: This is amazing!

Hunter and Blake: THUNDER SPIN BLADE!

He formed his spin blade and it had a lot of lightning around it. He slashed Retinax.

Shane: Lets do it! Serpent Sword!

The Storm Megazord formed the Serpent Sword and slashed Retinax.

Me: All right guys. Lets finish this clod. Ready guys?

Wild Force Rangers: READY!

Me: ANIMAL KINGDOM ULTRAZORD!

Me and The Wild Force Rangers: ANIMAL KINGDOM SUPERLASER!

The entire Ultrazord fired a massive energy blast that had all the energy spirits of the Wild Zords and they all hit Retinax all at once and he exploded with incredible power!

KRABBBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Retinax was completely obliterated in an instant and there was nothing left of him! His spirit went into the Book of Vile Darkness.

Anakin and the Jedi arrived.

Anakin: What did we miss?

Max Cooper: Oh, just the usual!

The rest of us just saw the Wild Force Megazord and Thunderstorm Megazord destroy Retinax. They cheered wildly!

Nico: Retinax, you have failed this world and this universe! That was so awesome!

Me: Thanks guys.

Bai Tza: Good news. Retinax is dead and sealed in the Book of Vile Darkness. So, Jaws is longer being controlled by him.

Maria: The bad news is that now, Jaws is back to being out of control!

Me: Then lets finish him for good and turn him into Shark Fin Stew with our Combos and Final Smashes!

Overbite: You got it boss! CYBER KEY POWER!

The Animatron Cyber Planet Key went into Overbite's back and enhanced his Jawbreaker Cannon 100-fold.

Elena: Lets do this! GIGANTION CYBER KEY POWER!

The Gigantion Cyber Planet Key went into her right arm device and it enhanced her lightning powers 100-fold.

Overbite and Elena: SUPERSHARK LIGHTNING CHOMP!

Jawbreaker fired his Jawbreaker Cannon and Elena fired a massive blast of lightning and the blasts combined and turned into a powerful wolf blast and it chomped Jaws and electrocuted him.

Seaspray: Lets get him! CYBER KEY POWER!

The Earth Cyber Planet Key went into his back and it enhanced his lasers 100-fold.

Human Torch: Time for some heavy fire! GIGANTION CYBER KEY POWER!

The Gigantion Cyber Planet Key went into his right arm device and it enhanced his fire powers 100-fold.

Seaspray and Human Torch: LASER FIRESTORM

MEGABARRAGE!

Seaspray and Human Torch fired numerous laser and fire blasts and they hit Jaws and exploded all over.

KRABBBBOOOOOOOOOOOOOOOOOOOOOMMM!

Anakin: Time for some Jedi Power!

Kingdom Hearts Terra: Lets get him!

Anakin lifted up a huge rock with the power of the Force and Terra fired a powerful blast of fire.

Anakin and Kingdom Hearts Terra: LAVA METEOR EXPLOSION!

The fire heated up the rock and it slammed into the ocean and exploded.

KRABBBBOOOOOOOMMM!

The explosion blew Jaws onto the Land and he was beached!

Bai Tza: Time for some heavy water power! MAELSTROM DEMONSTORM TSUNAMI!

Bai Tza fired a massive blast of water and it slammed into Jaws and wounded him.

Max Cooper: Time for some action! BLUE SHARK MEGA SLASH!

Max Cooper slashed Jaws with his Blue Shark Fighting Fins.

Me: Time to finish you for good Jaws! You've terrorized our oceans and killed far too many innocent people! LIGHTNING ELECTROCUTION DEEP FRY!

I fired a powerful blast of lightning and it hit Jaws and he was on fire. The terror of Jaws, the meanest Great White Shark ever to terrorize the oceans has been roasted!

Me: Jaws is deep fried!

We cheer wildly!

Nico: Jaws, you have failed our oceans!

Me: You said it!

Nico: But dude, that was so cool how you formed the Animal Kingdom Ultrazord! How did you learn that?

Me: I just somehow knew it was capable of doing that.

Lori: That was literally so cool!

Me: Thanks Lori.

Then an orange light shined out of nowhere and it appeared in front of Lori. It was an animal crystal. It landed in her hand and it was a Giant Squid Zord!

Lori: Wow! It's a Giant Squid Zord!

Me: Amazing! The Giant Squid Zord chose you Lori.

Lori: It literally did.

A Crystal Saber appeared on her left hip in a holster.

Max Cooper: (To the viewers) Never mess with the combined power of Transformers, Team Loud Phoenix Storm and the power of The Entire Animal Kingdom or you will end up like Jaws.

Me: You said it Max.

We went back home with the deep fried body of Jaws. Nico caught a Celesteela and Xurkitree.

Bai Tza: (To the viewers) Bad fish of the ocean will watch out when we're on the case.

Me: Yep.

---

Back home we were cooking a really good dinner. Using the meat from Jaws we were making Shark Fin Soup and Shark dinners. We made Shark Fin Soup and it was really good. Jaws was a huge shark that was over 40 feet long and he weighed over 5,000 pounds. A lot of meat for a shark. But he was now dinner for all of us.

Another Fanfiction Complete and part 6 of the 13 Days of Horror Complete.

Jaws was a terrifying movie from 1975 and it was also one of the bloodiest I've ever seen. Loaded with blood and guts and death. Peter Benchley made an awesome and terrifying monster fish next to the giant squid from The Beast. NicoChan11 gave me the ideas for this one. Thanks man. Next for part 7 is Scooby Doo and The Goblin King and we're in for a horrifyingly monstrous time when we take down Krudsky! Let me know what you all think.

See you all next time.

# Revenge of Krudsky

At the estate we were reading books and having snacks.

Me: So far everything has been quiet.

Nico: Yep.

Then the alarm went off.

Me: Uh oh!

We went to the computer and we saw that a bunch of M.A.D. agents were being slaughtered by Rose Wilson A.K.A. Ravager, the illegitimate daughter of Slade.

---

Rose Wilson is a character and former villainess, later an Honorary Titan, appearing in many of the Teen Titans series, including the Teen Titans GO! comic books.

Although she is the fourth character and sole female who holds the title Ravager, Rose is the most well-known out of four individuals, moreso than her predecessor and half-brother Grant Wilson.

There are three individuals who bears Ravager. The first and original one was Grant Wilson, who died in the attempt to assassinate the Teen Titans under a contract from the H.I.V.E., causing Deathstroke to hold the Titans responsible for his death. The second Ravager was Bill Walsh, a former rival of Deathstroke's who takes up the title to lure Deathstroke into battle before eventually killed himself. The third Ravager was Slade's half brother, Wade LaFarge, a small-time hitman who used the name in mockery of Slade. This lead to Deathstroke orchestrated a series of events which culminated to his death at hands of his successor, Rose Wilson herself.

In Other Media

Teen Titans Go! (comics)

Ravager is the daughter of the Teen Titans' arch nemesis Slade. In his honor, she wears a mask much like her father's which covers her left eye, even though the eye is still intact and functional (though in the original comics, she actually cut out her eye in an effort to emulate her father).

In Teen Titans Go! #49, Ravager returns to Jump City, hoping to claim "what is rightfully mine (hers)". Ravager finds Wintergreen and Professor Chang, both of whom had something which belonged to her father. It is revealed here that all of Slade's robot commandos were built by Professor Chang. However, Professor Chang had already sold the robots to General Immortus in Teen Titans Go! #35, which angers Ravager so much that she leaves him shaking with fear when the Titans come to his aid.

Now Ravager goes on a rampage in Jump City, determined to carry on her father's legacy; defeating the Teen Titans once and for all. However, after fighting with them, Ravager understands that she does not have to carry on her father's legacy, and needs not follow in his footsteps as a villain. The Titans offer her a family and they tell her that she is free to make her own decisions in life. Touched by the Titans' words, she decides to join and train with them until she is ready to face her future.

Teen Titans Go! (TV series)

In "Cool School", Ravager manages to escape prison and get past the guards, however she is then confronted by the Teen Titans. After using wordplay to insult the Titans, Robin tells her to cut it out and tells the Titans to attack.

In "Operation Dude Rescue", Ravager temporarily turned to the good side as she helped Raven, Starfire, Terra, and Jinx save Robin, Cyborg, and Beast Boy from The Brain.

Justice League: Crisis on Two Worlds

Rose Wilson as she appears in Justice League: Crisis on Two Worlds.

In the movie "Justice League: Crisis on Two Earths", Rose Wilson (Ravager) appears and her hair is red instead of white. This, however can be forgiven since she originates from a parallel universe.

Smallville

Rose Wilson appears in Eleventh season of Smallville tries to avenge her father Slade Wilson.

---

Me: Whoa! That's Rose Wilson, A.K.A. Ravager.

Nico: I heard about her. She's the illegitimate daughter of Slade Wilson.

Robin: Yep. She's a fantastic sword master.

Me: And quite a deadly martial artist from the looks of it.

Shanan: No kidding. She must be taking her rage and frustration out on leftover M.A.D. Agents because I'm the one that killed her father.

Me: So did Tara. Slade did a huge number of terrible things over the years and he tried to kill everybody. But mostly he tried to kill the Teen Titans. After all he was their most deadliest enemy.

Qin: I remember Slade. He was really bad news.

Me: He was worse than that Qin. Slade was the ultimate personification of Pure Evil.

Shanan: He forced Tara to commit the Ultimate Sacrifice. A Volcano was about to erupt and Tara made the ultimate sacrifice to save the city from total destruction.

Gloria gasped.

Gloria: Mommy, did that really happen?

Tara: It sure did Gloria. I was forced to work for Slade because he poisoned my mind with lies. And I killed Slade and inadvertently set off a volcano that was about to erupt and destroy the whole city. And that's when I realized that I had no choice but to sacrifice myself to save everyone from total destruction.

We gasped.

Qin: Tara, that was a truly heroic act of redemption.

Beast Boy: It was.

Me: No kidding. Tara made the ultimate sacrifice for the safety of her friends and loved ones and to save the whole city from total destruction. But that reminds me, how did you come back Tara?

Tara: That is an amazing experience.

Beast Boy: Raven told me that a kiss on her lips would work and to our shock and surprise it did! I kissed her as a stone statue and it brought her back to life.

We gasped.

Me: Wow!

Shanan: That's incredible!

Nico: That is amazing!

Lincoln: That is so cool!

Lori: That is literally the sweetest thing I've ever heard!

Me: It sure is.

Tara: Thanks guys.

Me: The Kiss of life Resurrected Terra.

Tara: It sure did.

Gloria: Wow!

Me: Yeah.

We were watching the footage of Ravager.

Ravager was mercilessly slaughtering a lot of M.A.D. Agents!

M.A.D. Agent: Why are you doing this? We never did anything to you.

Ravager: You survived. But most of your fellow scumbags didn't. (draws her sword) They got Team Loud Phoenix Storm to kill you. The rest have got me to kill you.

The M.A.D. Agent lunges at Ravager and the two exchange several blows with their swords before separating.

Ravager: You're done hurting people.

M.A.D. Agent: We hurt people? (gestures to the carnage around him) You're crazy!

The two exchange several more blows before Ravager forces the M.A.D. agent's sword down and brings her own up to his neck. A moment later, the M.A.D. Agent smacks Ravager's blade down and strikes back. Ravager however, gets in a cut on the M.A.D. agent's stomach as she dashes past him.

The M.A.D. Agent slowly turns back to face Ravager. He utters a war cry and he lunges to attack again, but Ravager easily disarms him and cuts him across the throat.

M.A.D. Agent: (falls to his knees and clutches his throat) Wait! Help me! I'll give you anything! What do you want?"

Ravager: What I want… you can't give me. (she raises her sword before stabbing it down, instantly killing the M.A.D. Agent)

Armada Hoist: (sees Ravager's footage on the computer screen) Oh, man! She must really be pissed.

Robin: The only reason she's doing that is because she's dealing with the grief of Slade getting himself killed and leaving her alone.

Tara: We've still got to calm her down, though.

Shanan: And I'm the one that killed him the second time as a Heartless.

Yuko: And I killed him the Second Time when he got those Fire Powers.

Shanan: Actually, you stripped him of his powers and made them your own Yuko.

Yuko: Oh yeah. Now I remember.

Shanan: But you still get part of the credit.

Tara: And I killed him the first time.

Shanan: Just call us the Slade Kill Triangle.

Me: Interesting name.

Shanan: It was the first name that came to my mind dad.

Me: Either way, we have to help her out. She's going through some tough times.

Ben turned into Diamondhead.

Ben: DIAMONDHEAD!

Robin: Ben, did you really have to go Diamondhead for this? We're not going to kill her.

Diamondhead: Well, in case she gets out of control, Diamondhead will be more then capable of withstanding her attacks.

Me: Good thinking Ben. Lets head out!

Scrapper: Why couldn't Slade use guns and swords outside of his Heartless form?

Shanan: No idea Scrapper.

We headed out!

* * *

Rose was killing a bunch of M.A.D. Agents and we arrived!

Robin: Rose stop!

Robin and us landed.

Ravager: (to Robin) Robin, you and the others shouldn't be here.

Robin: Neither should you.

Ravager: I've got a job to do.

Robin: Is that what you're calling this? Killing all these people out of vengeance isn't going to change the fact that Slade got himself killed and left you by yourself.

Kevin Levin: To be fair, these people did have it coming.

Robin: (to Kevin) Kevin, can you please let me handle this? (to Ravager) Rose, you don't have to be like your father. You're a way better person then he was.

Ravager: [voice breaking] Don't.

Robin: Don't what?

Ravager: Don't give me hope.

Robin: (hugs her) I'm sorry I couldn't give it to you sooner.

Me: Robin is right Rose. You have some good in your heart. Slade got himself killed because all he ever cared about was himself. He wanted nothing more than to see the whole world burn.

Lincoln: That's right.

Shanan: And Rose, you don't have to follow him ever again.

Tara: I killed Slade first.

Yuko: Me and Shanan killed him second.

Shanan: And I killed him the third time as a heartless. He brought all this on himself. And we made sure that he doesn't return. He was a monster and he got what he deserved in the end all because of his own selfishness.

Rose knew that we were right and then she hugged Robin and started crying hard and she was finally glad that Slade gone and that she never had to see his face ever again.

We saw the mess that Rose Wilson did and she did a full fledge massacre. She mercilessly killed 723 M.A.D. Agents. They were slashed to pieces and blood and guts were all over the place.

Me: (Whistles) What a bloodbath.

Laney: This is a massacre.

Nico: No kidding.

We later went back to the Estate.

---

We were watching TV and reading books.

Ravager: Thanks for helping me guys.

Me: No problem Rose. But that massacre you did reminded me of what happened when we faced Richard Fenton.

Qin: Who was Richard Fenton?

Me: You would hate this guy Qin. He was probably the most fucked up monster I've ever seen since the Joker.

I went over his history.

---

Fenton is a 37 year-old former teacher at Bridgeport High School in Bridgeport, Pennsylvania, who developed an obsession with one of his students, a 14 year-old girl named Donna Keppel.

When she rejected him, he became violent. He was then fired when she told the principal about him and her parents filed a restraining order which that did not stop him as he broke into their house, killing almost the entire family including her younger brother Joey except for his former student.

He was caught and placed in a maximum security prison for the criminally insane by Detective Winn while Donna lived with her aunt Karen Turner and her uncle Jack, but he escaped 3 years later.

He then tracks down his former student, Donna, to her prom and began a crazed search for her.

First, he murdered a man named Howard Ramsey and hid his body in his car trunk. He then went inside the hotel where the prom was under Ramsey's name and rented a room on Donna's floor.

In order to locate Donna in her room, Fenton murdered the housekeeper to obtain the master key, hiding his body in the room. Later, he encountered one of Donna's friends, Claire whom recognized him as Fenton.

To keep her quiet, he then grabbed her by the throat and stabbed her to death. Upon hearing Michael, Claire's boyfriend, coming he attempted to hide in the closet but Michael saw the door being shut.

When he opens the door, Fenton jumps on Michael, knocking him to the ground and stabbing him to death.

His efforts were in danger when Detective Winn, the man who caught and arrested Fenton, showed up at the hotel and warned the staff.

He then had to kill an employee that was looking for the housekeeper in order to keep his death a secret, he also stole the employee's uniform as a disguise.

Afterwards, when Fenton took an elevator, he encountered two more of Donna's friends, Lisa and Ronnie who did not recognize him.

Lisa later realized it was Fenton and tried to warn Donna, but Fenton catches her on the way which he gave chase to Lisa to the lower floors and began a search when she tried to hide.

Upon hearing Ronnie calling out for her, Lisa attempts to run for it but Fenton grabs her and slits her throat.

Winn and his partner, Detective Nash, find the body of the real Howard Ramsey in his car trunk.

When they investigate the apartment under Ramsey's name, they find the housekeeper's body, prompting Winn to sound the alarm, exposing Fenton and having the hotel evacuated.

Before leaving, Donna went back upstairs to get her mother's shawl, but ran into Fenton. Fenton was delighted to see her again and instantly attacked her.

Winn realized Donna was still inside and raced back inside to save her, while she managed to escape Fenton, much to his dismay. SWAT and police then entered the building in search of Fenton.

Unable to stay any longer, Fenton put on the employee's uniform and fled the hotel, heading for Donna's house to finish his obsession.

When he arrived outside the house, he found an officer guarding the back of the house and Detective Nash in his squad car in front of the house.

Then, Fenton ambushed, killed them both off-screen to clear the way, snuck inside the house and murdered Donna's boyfriend, Bobby by slitting his throat off-screen.

He then hid in the closet, waiting to ambush Donna who was in the bathroom at that time. He was unaware that Winn is fast on his trail as he realized that Fenton left the hotel and has found Nash dead in his squad car.

Then, Donna returned to her room and found Bobby dead. She then saw Winn's shadow in the hallway and hid in the closet, thinking that it was Fenton. When she realizes it is Winn, Fenton grabs and quiets Donna in the closet.

Winn is about to check the closet when he hears a scream from Karen from noticing the dead officer outside, so he runs to her bedroom.

Donna bites Fenton's hand after Winn leaves and tries to escape. Fenton tries to restrain her, leading to a violent struggle.

The struggle ends with Fenton subduing Donna and preparing to stab her. Just before this could happen, Winn, who had heard the struggle, runs in and finds Fenton. He then shoots Fenton seven times, finally killing him.

After he was dead, Donna cried over her boyfriend's corpse, with Winn trying to reassure her that with Fenton dead, it is now finally over.

---

Qin gasped!

Vince: I remember that. That was awful.

Qin: That guy was a monster!

Me: He killed 142 people that night. Here's the footage of the whole fight from that night.

I revealed the footage of the events from The Prom Psycho.

---

Fenton got up and he saw me.

Fenton: You!?

Me: That's right. It's me. The kid who put you away 3 years ago.

Fenton: You will pay for locking me up and taking me away from Donna.

Me: And I show no remorse in doing so. All I see when I look at you is a love-obsessed homicidal maniac. Now I realize that letting you live was a mistake. But now I'm going to correct that mistake and kill you and send your wretched damned soul off to Hell. Personally!

Fenton: Come and try it.

Me: Bring it on you fuckhead!

He pulled out his knife and went at me and I kicked the knife out of his hand and punch him in the face and kick him in the stomach. He punched me in the face and I kicked him in the face and I kick him in the stomach and punch him in the face, mouth, nose and stomach and crotch. It was a savage and deadly fist fight.

Fenton: You stupid piece of shit!

He kicked me in the head and I take a bottle of acid and throw it in his face and he screamed in pain and I kick him in the mouth and knock out some of his teeth.

He kicked me in the face and punched me in the head and kicked me in the stomach.

Fenton: Look in my eyes J.D.! I'll see you in Hell!

Me: Not if I take you with me you motherfucker!

It was an extremely vicious fight and neither one of us were giving up without a fight.

Suddenly I take out my sword and slash both of his arms off and he screamed in excruciating pain.

Me: That's for all the people you senselessly slaughtered. You fuckhead! Now you will go back to prison and we'll make sure that you face the Chair.

Laney put him in a straitjacket and he was rearrested and sent back to prison. My accelerated healing restored me. 12 hours later he was sentenced to death. He was strapped to the execution table. We were watching the whole thing. He stated his last words

Fenton: I never got to spend the rest of my life with you Donna. I wanted us to start a family and be together forever. Now it looks like I won't get that chance. But I will always be with you.

Me: You are one sick man Fenton. You have no love for anyone but yourself. All you are is a selfish, pitiless, heartless, remorseless and ruthless monster with no conscience. I would call you an animal but that's too good for you. But your pain has just begun. Burn in Hell you Son of a Fucking Bitch! And I never want to see your worthless ugly face again! (To the executioner) Kill him.

They pumped the chemicals in him and he was pronounced dead at 9:02 AM.

Lincoln: Now to burn the body.

Lincoln fired a blast of fire and incinerated Fenton's body into ashes instantly. He then took the ashes and put them in a bag. He then flew up into Space and threw them into the Sun. Where they were vaporized in an instant.

Never will Richard Fenton terrorize Bridgeport again.

---

Vince: Wow! I remember that. You came out all bloody and looked like you went through a meat grinder.

Me: It was a bloody fight. But after we killed him I called a press conference in Washington D.C.

I showed the footage of the press conference.

---

Me: Good afternoon everyone. I'm sorry for interrupting your activities but less than 18 hours ago, Homicidal Maniac Richard Fenton savagely slaughtered and butchered 142 high school kids at the Bridgeport High School Senior Prom in Bridgeport, Oregon. He was in a relentless pursuit for a student he was obsessed with named Donna Keppel. He was fired because of this and he became violent. I arrested him after he killed her family but her. He was locked up in a maximum security prison for the criminally insane until 3 days ago. He escaped and went on a rampage at the High School Prom. He killed all kids at the prom, so he can have Donna all to himself. We got word of this senseless massacre and set out to stop him. Me and Fenton got into a vicious fight and in the end I won. He was executed by Lethal Injection 4 hours ago and was pronounced dead at 9:02 AM Pacific time. We threw his ashes into the Sun. The President of the United States has officially ruled that last nights massacre is an act of Genocide by the work of a Homicidal Maniac with incredible psychological problems. He should've never been a teacher to begin with. Had he not been employed to that school this whole thing would've been avoided. The President has officially signed in a law today where any and all teachers with a history of psychological instability, mental illness or aggressive criminal behavior be removed from the system of teaching at our schools and kept under close watch at all times to make sure that tragedies like this can be prevented.

---

Qin: That's good that this law was put into effect.

Me: Yep. We made our schools a safer place and not have criminals teacher and insane fuckpots work at them with our kids.

Nico: Good. Richard Fenton, you have failed this country as a teacher and as a human being.

We laughed.

Crysta: I remember that. That was horrible that he did that.

Laney: I know. Richard Fenton was diagnosed with Paranoid Schizophrenia.

Me: So that's why he was placed in that prison. But the question is how did he escape in the first place?

Nico: I guess we'll never know.

Then the alarm went off.

Me: Uh oh!

We went to the computer and we found a huge spike in supernatural energy coming from Sleepy Hollow in New York.

Me: Sleepy Hollow!? That place is loaded with horror.

Lucy Loud: Gasp! I've read a lot about Sleepy Hollow. It's was home to a lot of Satanic Rituals and supernatural activity.

Rocky: I heard that it's home to the scariest monster of them all: The Headless Horseman.

Me: I've heard about the Headless Horseman. They call him that because he's said to be the evil spirit of a German Hessian Soldier that lost his head and it turned him into a ghost that will kill people for a new head.

Everyone gasped and shuddered in fear.

Nico: He sure sounds terrifying.

Me: No kidding. Not only that, but a popular Halloween Festival is going on there.

Lori: That literally sounds like fun!

Leni: That would totes be a perfect place to have fun.

Luna: Rockin dudes!

Me: First we got to find out what's going on and then we'll have fun. The festival opens tonight. Lets head out guys!

We were off to Sleepy Hollow!

---

SLEEPY HOLLOW, NEW YORK

---

We arrived in Sleepy Hollow, New York.

Me: Here we are guys. Sleepy Hollow, New York. This town is embroiled in History that dates back to 1664.

Lisa: Indeed it does 2nd Elder Brother.

Nico: I've been here before. It's an amazing town.

Me: If we do run into the Headless Horseman, we can send him back to the fire of Hell forever.

We walked around and we saw the Halloween Festival being set up.

Me: Wow. This town loves Halloween as much as Salem, Massachusetts does.

Nico: It sure does.

Me: But Salem, Massachusetts has a much darker history than Sleepy Hollow does.

Lincoln: And that history is because of The Salem Witch Trials.

Me: Yep. A Dark History full of fear, persecution, murder and Satanism.

Lori: I can't believe ancestor Loraine was literally killed like that. It's awful.

Lucy Loud: Great Grandma Harriet was a witch and she was a famous one.

Me: I remember that you told us that your great grandmother was a master of the mystic arts.

Lily: That's still really cool!

Brittney: That's really interesting. I know all the forms of light and dark magic and they are amazing.

Ravager: That is really something.

Qin: I didn't know you know magic Lucy.

Lucy Loud: We found a magic book that belonged to our Great Grandma Harriet. She was a user of the mystic arts.

Qin: That is so cool!

Me: It is.

Then we saw a magician stand. It belonged to a Magician called The Amazing Krudsky.

---

When Scooby-Doo and the gang arrived at the Halloween Carnival in Coolsville, Krudsky let them come and see his show, but wouldn't allow Scooby to do so, since Scooby had jumped into a pool of apples and splashed water onto him.

Later, Krudsky put on his magic show, but Shaggy and Scooby deliberately exposed him as a fraud. Krudsky was furious with the twosome, and the crowd booed him off the show despite his pleas. The magician glared at Shaggy and Scooby and yelled at them: "I'll get you for this… and your big dog too!".

Krudsky was upset that he had failed at his magic show. Searching for a way to get his fame back, Krudsky discovered in his spell book the Goblin Scepter, which belonged to the mighty Goblin King. That gave Krudsky a golden opportunity and he vowed that he's finally going up in the world. The mischievous Fairy Princess Willow fluttered in and played tricks on him. After he grabbed a flyswatter, Krudsky chased Willow, who slammed into a wall. Knocked unconscious, the fairy collapsed onto a table and Krudsky smashed his flyswatter down on her. After he recited a spell from his spell book, Krudsky stole her magic powers and turned himself into a sorcerer.

Later, Krudsky entered Mr. Gibbles' Magic Shop, and searched for Willow, who had escaped him. He found her hiding inside a clock and recaptured her, by trapping her in a glowing orb. The eccentric Mr. Gibbles tried to stop Krudsky, but the sorcerer turned him into a rabbit and took most of the magic items from the magic shop.

Inside his tent, Krudsky made a deal with the Goblin King that he would exchange Willow for the Goblin Scepter. Krudsky finally arrived at the Clock Tower and presented Willow to the Goblin King, who reluctantly accepted his offer. After he turned into a goblin, Krudsky betrayed the Goblin King and turned him into a goose. As the new Goblin King, Krudsky unleashed his new powers on the Mystery, Inc. gang, turned the Mystery Machine into a monster, and transformed Fred, Daphne, and Velma into a vampire, a witch, and a werewolf.

Luckily, Scooby-Doo and Shaggy arrived, stole the Goblin Scepter back, neutralized Krudsky's powers with it, and freed those who were transformed.

Before Krudsky could get even with the brave twosome, the Goblin King turned against him and trapped him in a glowing ball. The Goblin King, who turned out to be Princess Willow's father, reprimanded and punished her for her selfishness and reckless behavior before he told her that he's glad to have her back. Krudsky begged for forgiveness, but the Goblin King told him that he needed "time to work on his magic act." The Goblin King congratulated both Shaggy and Scooby for saving his kingdom and erased the memories of Fred, Daphne, and Velma to bring peace between both the mortal and the spirit world. Krudsky cried out: "I WANT MY MOMMY!" as the Goblin King took him into the Spirit World and imprisoned him for his treachery.

---

Me: The Amazing Krudsky. Hmm. That name is very familiar to me somehow.

Then we saw some men put a cancelled sign on it.

Me: Is there something wrong guys?

Man 1: Oh hello there guys. Krudsky was exposed to be nothing but a liar and a thief, so his act is cancelled. Also the police are finding him so they can arrest him and throw him in jail.

Me: Wow.

Man 2: Yeah but he fled into the woods and they are looking for him now.

Me: Maybe we can find him.

Man 1: Good luck guys.

We looked at the woods and it was a scary dark spooky forest. We heard crows caw and an evil spooky laughter echo in the woods.

Me: Here we go.

We went into the woods. It was scary and creepy. The mist was thick and it was really creepy.

Lynn: Boy, this forest gives me the creeps.

Luan: It sure is something to Creep Up to! (Laughs to Rimshot) Get it?

Me: (Laughs) Good one Luan. Love the jokes but now is not a good time.

Eddy: This forest is not that scary.

Me: These forests are said to be home to the legendary Headless Horseman, Eddy.

Nico: Yeah.

Naruto: This forest is scary.

Sakura: We're with you Naruto.

Me: (Looks at a device) The Supernatural Energy is getting stronger. We're getting close.

?: Psst.

We looked.

Me: Did one of you say something?

?: Over here.

Laney: It's coming from that tree over there. (Points to a tree with a hole in it.)

Laney went over and she found a fairy in it. She had blonde hair, light blue eyes, dragonfly wings and brown clothes.

Laney: Wow! A fairy.

Willow: Yes. I'm Willow. You must be Laney Loud.

Laney: I sure am.

Crysta: I'm Crysta. I'm from Fern Gully.

Willow: It's a pleasure to meet you Crysta.

Laney: Did you call us here Willow?

Willow: I sure did. I met Shaggy, Crystal, Amber and Scooby Doo.

Me: So Mystery Inc. is here too.

Willow: Yes. And they are all in danger. Krudsky stole the scepter of The Goblin King and is gonna use it to get revenge on the world!

Me: Then we have to stop him!

Willow: He's in that castle over there!

We saw a malevolent fortress.

Me: That fortress looks terrifying. It looks like a true fortress from Hell.

Nico: Then we better get over there.

Me: Lets go bring that phony magician down!

We went to the fortress and then we saw Shaggy, Scooby, Amber and Crystal running! And with them was a living pumpkin head named Jack O'Lantern!

Me: Shaggy, guys!

Shaggy: Like, are we glad to see you J.D.!

Crystal: Krudsky has like, lost his mind man!

Scooby: Reah.

We then saw what they were running from and it was THE HEADLESS HORSEMAN!

Me: It's the Headless Horseman!

Nico: He's real!

Me: Shaggy, you go with everyone else, I'll face the Headless Horseman.

Shaggy: Like, Right!

I ran and kicked the horseman off his horse.

We stood ready and I had my sword ready.

Nico and the rest went off.

Me: You've terrorized these woods for far too long you monster.

---

Nico and everyone else went into the castle and it was a terrifying fortress. They were looking around for Krudsky. In the castle they found The Goblin King! He was tied up. They freed him. But then, a bunch of the Power Rangers Foot Soldiers enemies appeared! Putties, Batlings, Mutants, Robots and more!

The founding Redemption Squad members are cornered by past foot soldier enemies that the Power Rangers faced before.

Goblin King: Those minions have been empowered by Krusky's magic. We must retreat and come up with a solution to-

Stewie: No way, man!

Elena: Yeah! Look at what kind of army Krudsky's made with only a fraction of his power. Imagine what he'll make with all of it!

Venom: It's time for the 6 of us to get a power boost!

Goblin King: (realizes what Venom's thinking) No! Your symbiote nearly corrupted young Peter Parker before. What makes you so certain-?

Maria: Because he'll be sharing it with us as a team!

Riku: And this time, it'll be used this way for good, not evil!

Goblin King: Well okay then.

Venom shared some of his Symbiote with Maria, William, Riku, Elena, Stewie and Volcana. They had black suits on them that were humanoid and they were now Black Suit members.

Maria: Wow! I look awesome!

Volcana: I sure do.

Riku: This is fantastic! I feel incredibly powerful!

Elena: Me too!

Stewie: This is an amazing power boost.

Maria: Lets see what they can do.

They went at the foot soldiers and punched, kicked and bashed them all over the place and killed them all with incredible power!

Maria: That was so cool!

Volcana: That was amazing!

Venom: Well done guys. But you all have to be careful. We nearly corrupted Peter Parker long ago and nearly destroyed his mind.

Maria: We'll have to use these black suits as a last resort whenever needed. So we'll use them as a last resort.

Venom: Good thinking.

Maria: In these suits we'll be called our Black Suit names.

Goblin King: That's good thinking.

Maria: Lets go.

They went to catch up to everyone else.

In another room, everyone was fighting Krudsky!

Nico punched him in the face.

Nico: Krudsky, you have failed this world!

Krudsky: No it's you that has failed you fuckhead!

Nico: Shut up!

Then Krudsky captured Willow!

Willow: Help me!

Suddenly, The 6 Black Suited Redemption Squad members land behind Krudsky, getting his attention.

Black Suit William: Hi, we're your friendly neighborhood Redemption Squad.

Krudsky throws a punch Maria effortlessly blocks with one arm.

Black Suit Maria: But, we're not feeling so "friendly" right this second. (uppercuts Krudsky)

Black Suit Riku freed Willow.

Willow: Thank you for freeing me!

Black Suit Riku: No problem.

Nico: What happened to you guys!?

Venom: We gave them a piece of the Venom Symbiote so they can now use as a last resort.

Nico: But didn't that nearly corrupt Peter Parker when he was bonded with you Venom?

Venom: It nearly did yes. But they promised to use it as a last resort.

Nico: That's good thinking.

Black Suit William (to Goblin King): Sorry, your Majesty. But it's time to fight fire with fire!

Goblin King: Go get him!

They all went at him and punched him all over the place.

Nico punched him in the stomach and Black Suit Maria turned into a black version of her water form and slammed a fist of black water into Krudsky's face!

They all punched and bashed him all over the place!

---

In the forest I was clashing with the Headless Horseman and we were clashing all over the place. Sparks were flying everywhere and setting much of the forest on fire! I then ducked under a slash and jumped into the air and did the Tremendous Horsecut Technique and it destroyed his sword and I slashed the Headless Horseman in half and killed him and sent him into the River of Fire!

Me: Yes! Headless Horseman, you are now dead.

I heard an explosion coming from the castle.

Me: No time to lose!

I flew to the castle!

---

The fight with Krudsky was heating up.

Suddenly a massive fiery explosion blasted a hole through the roof and a phoenix cry was heard and I swooped in and kicked Krudsky in the face with devastating force and knocked out most of his teeth.

Me: I hope I'm in time for the party.

Nico: You arrived just in time buddy.

Me: Lets finish this clod!

Scrapper: You got it boss! CYBER KEY POWER!

The Earth Cyber Planet Key went into his back and it enhanced his shovel and strength 100-fold.

Kevin Levin: Lets do it!

Kevin turned into solid rock after absorbing concrete.

Kevin Levin: GIGANTION CYBER KEY POWER!

The Gigantion Cyber Planet Key went into Kevin's right arm device and enhanced his powers 100-fold and gave him the ability to mold himself into different shapes.

Scrapper and Kevin Levin: SUPER CATAPULT SMASH!

Kevin got into Scrapper shovel and he turned into a giant spike mace ball and Scrapper threw him like a catapult. Kevin slammed into Krudsky with devastating force.

SLAAAAAMMM!

Armada Hoist: Lets get him! CYBER KEY POWER!

The Earth Cyber Planet Key went into Hoist's shovel and it turned it into a double punch shovel.

Diamondhead: Time for some razor sharp pain! GIGANTION CYBER KEY POWER!

The Gigantion Cyber Planet Key went into Diamondhead's Omnitrix Symbol and it enhanced his crystal powers 100-fold.

Armada Hoist and Diamondhead: CRYSTAL SUPERPUNCH FLURRY!

Armada Hoist and Diamondhead punched Krudsky all over the place and smashed him all over!

I went at Krudsky and kicked the Goblin King's Scepter out of his hands.

Me: Now to finish you!

Fairy Princess Willow: This is for imprisoning me! FAIRY WIND TORNADO!

Fairy Princess Willow fired a massive blast of golden dust and it spun Krudsky around in a tornado.

Scooby Doo: Rhis is for my friends! HAMBURGER & MEAT BOMBSTORM!

Scooby Doo fired a powerful barrage of hamburgers and meat and they hit Krudsky and exploded.

KRABBBBOOOOOOOOOOOOOMMMM!

Krudsky was defeated and the Goblin King had his scepter back.

Krudsky: You fools think you won?! Look at yourselves! You're no better than me! Those suits-

Me: Oh shut the fuck up!

Venom: We'll make sure they come off.

Elena: Unfortunately, crazy megalomania lasts forever.

Stewie (to Goblin King): Your majesty, it's over. We got your sceptor back, Krudsky's down, and we'd really like to go home now.

Scooby: Re Roo!

Me: But those black suits look cool on you guys.

William: Thanks J.D. But we all agreed to keep them on and only use them as a last resort.

Me: Oh. That's good thinking.

Goblin King: And for his crimes against me, he will be imprisoned in the Spirit World for all eternity.

Me: Good riddance.

Velma: Hey guys!

Daphne: You all saved us!

Fred: Thanks guys.

Me: No problem guys. Thank goodness you're all safe. Your majesty, we apologize for what Krudsky did. He was trying to get revenge on Mystery Inc for ruining his Magic Act.

Krudsky: And I would've gotten away with it too, if it weren't for you fucking meddling kids, their stupid dogs and that fucking Team Loud Phoenix Storm! YOU FUCKHEADS!

Me: You're gonna wish that we had killed you Krudsky. But your majesty, please don't erase their memories for this. They were trying to help you.

Goblin King: I know J.D. And I won't erase their memories of what transpired here.

We talked to the Goblin King about everything. Willow agreed to go with us and we went to enjoy the Halloween festival. Nico caught a Guzzlord and Kartana.

Scooby Doo: (To the viewers) Remember this folks. Never ret, a mad magician take things nobody runderstands.

We had a great time at the Halloween Festival.

Signed Chancellor Shepherd."

Cool!

Nico: That's gonna be fun.

Me: I was told about what the Spirit Festival at Duel Academy is like. It's a special cosplay duel tournament.

Lori: That's literally so cool!

Nico: Sounds like it.

Jaden: I remember that. I dressed up as a mixed Duel Monster. I had the hat of Saggi the Dark Clown, the body suit of Breaker the Magical Warrior, the shoulder pads of Celtic Guardian, and the shield of Gearfried the Iron Knight.

Me: That's an interesting combination.

Jaden: Well I couldn't decide what to dress as.

Me: Oh. That would make a great Duel Monster Card idea though.

Chazz: I dressed up as XYZ-Dragon Cannon.

Alexis: Me, Jasmine and Mindy dressed up as the Harpie Lady Sisters.

Bastion: I was dressed up as Amazoness Tiger.

Me: You guys dressed up as the most awesome monsters ever. Some of them.

Jaden: Think you can go as a Duel Monster J.D.?

I stood away and spun around and I turned into Destiny HERO - Dreadmaster!

Me: What do you think? I'm Destiny HERO - Dreadmaster.

Jaden: Sweet! Get your game on J.D.!

Me: I found out that Dreadmaster is modeled after the legendary Man In The Iron Mask.

Nico: Really?

Me: Yep. Famous story about King Louis XIV back in the late 17th Century. Check this out.

I spun around and turned into Gilford the Lightning!

Me: I'm now Gilford the Lightning!

Alexis: Wow! That is really accurate!

Bastion: Very impressive! You look just like the real thing.

Me: I do don't I?

I reverted back.

Me: So shall we head over to Duel Academy?

Everyone cheered.

We were off to Duel Academy.

---

We arrived at Duel Academy.

Jaden: Here we are, at Duel Academy!

We saw that it was just like it was when we were here the last time.

Me: Wow. It's still the same as it was when we first came here.

Shockwave: It's amazing that Seto Kaiba founded a school to teach others about Duel Monsters.

Nico: It sure is.

Me: Yep. I don't duel, I just collect the cards.

Jaden: My first years here were amazing though.

Chazz: You know, back in Jaden's first year, I used to be a mean bully to the Duel Academy Students.

Leo Corbett: And now?

Chazz: Now, I like to think of myself as a lovable sarcastic jerk with a heart of gold.

Me: But you are quite a motivational speaker Chazz.

Chazz: That's true.

Me: My friend Charlie Nottingham warned me about the corruption going on here with Dr. Crowler. He was causing a lot of trouble here.

Qin: Who was Dr. Crowler?

Me: His name was Dr. Vellian Crowler and he was one of the teachers here at Duel Academy. He hated Jaden's guts because he lost to him in his welcome duel. He wanted to make Jaden look so bad and ruin his life and get him expelled. Fucking sore Loser. So Charlie and me blew the whistle on him and got him fired and arrested for his corruption.

Laney: I heard about that. Good riddance.

G1 Blades: Who exactly took over Dr. Crowler's position when he gott arrested?

Me: Yugi's friend Mai Valentine is now a teacher here.

Alexis: Wow! That's awesome that she's here!

Me: Yep. I figured that she would be perfect for the job.

We toured all of Duel Academy and there were all kinds of fun things to do and more.

Nico: How are you liking the place, Ratbat?

Ratbat: It's amazing boss! There's so much to do here and all kinds of activities.

We saw a lot of places in Duel Academy and we attended the Spirit

Day Festival.

Me: Wow! So this is the Spirit Day Festival.

Alexis: Yep. It's where we appreciate the spirits of Duel Monsters by dressing up like them and dueling them.

Me: That's so cool!

We saw a lot of people dressed up like Duel Monsters and there were many kinds.

Me: Wow! Look at everyone. I know. Lets summon some real Duel Monsters to liven the place up.

Jaden: That's a great idea J.D.!

Me: Lets only summon Fairy Monsters and some of our favorite monsters.

Chazz: Lets do it!

Me: Okay!

I pulled out my deck of cards.

Me: I summon Night Wing Sorceress, Magician's Valkyria, Wingweaver, Aqua Spirit, Fairy's Gift, Victoria, Tethys, Goddess of Light, and Fire Princess!

I summoned said monsters.

Night Wing Sorceress: Thanks for calling us for Spirit Day.

Me: Anytime.

Wingweaver: It's gonna be interesting to see everyone here.

Aqua Spirit: I agree.

Victoria: Same here.

Varie: Time to bring out the fun. I summon Red Archery Girl, Blizzed

Varie summoned said monsters.

Red Archery Girl: Spirit Day, my favorite day.

Enchanted Mermaid: Mine too.

Ill Witch: This is gonna be fun.

Ice Water: It sure will be.

We all summoned a bunch of monsters and joined in the fun.

Me: This is gonna be awesome!

We turned and we saw Dark Magician Girl!

Me: Wow! Dark Magician Girl!

Lana: Wow! She is beautiful!

Laney: She sure is!

Celica: I never knew she was beautiful.

Nico: Wow.

We were having fun and more. Later we went back to the estate.

---

We were watching a movie for movie night. We were watching 2011's Season Of The Witch.

In Villach in the 13th century, three women are accused of witchcraft by a priest. One claims to be a witch through persuasion from the church, one claims she made a copper polish and not a potion, one a hag with a blind eye doesn't deny it and curses the priest. He orders them hanged and drowned. That done, he urges the guards to pull them back up for a ritual to make sure the so-called witches never come back to life. The guards refuse, claiming they are dead enough. The priest returns late at night to perform the ritual. The third corpse, the one of the woman who claims she made a copper polish, takes on a demonic appearance and kills the priest.

In the 14th century, German Teutonic Knights Sir Behmen von Bleibruck (Cage) and Sir Felson (Perlman) are engaged on a crusade, taking part in battles throughout the 1330s (1332 Gulf of Edremit, 1334 Siege of Tripoli, 1337 Imbros and 1339 Artah) and eventually in the Smyrniote crusades. After witnessing the massacre of civilians during the 1344 capture of Smyrna, the two knights desert the Order and the crusade and return to Austria.

While traveling through Styria, Behmen and Felson encounter the grotesque sight of people infected with the Black Death and discover that the Holy Roman Empire has been swept by the plague. They enter an unnamed town, trying to conceal their identity as deserters but are revealed as knights by the crest on Behmen's sword. They are arrested and taken to Cardinal D'Ambroise (Christopher Lee), who is infected with the plague. The Cardinal asks the knights to escort an alleged witch suspected of causing the plague to a remote monastery, where an elite group of monks reside. These monks can determine if the girl is truly a witch and if she is found guilty, know a sacred ritual to cancel her powers and stop the plague that is devastating Europe. The two knights agree under the condition she be given a fair trial and that the charges of desertion against them be dropped. The Cardinal agrees and they set out accompanied by a priest, Debelzaq; a young altar boy, Kay von Wollenbarth, who wants to become a knight like his deceased father; a knight, Sir Johann Eckhardt, whose family was killed by the plague and the well-traveled swindler Hagamar, who will serve as their guide to the monastery in return for a pardon. The witch, a young girl later identified as Anna from Marburg, shows hatred towards Debelzaq and forms a bond with Behmen.

Shortly after setting off, the group camp for the night and Johann decides to take first watch. When Debelzaq comes to relieve him of the watch, Johann says how much she reminds him of his dead daughter, then goes on to speak of the politics of her trial and how the Church cannot have her not be guilty. Johann decides to give up the mission and goes to convince the others to do the same, leaving Anna alone with Debelzaq. Anna becomes hysterical at the prospect of being left alone with Debelzaq. She attacks him and grabs his key to the cage, then escapes, fleeing toward a nearby village. The search for her leads the group to a mass grave, where Johann has visions of his dead daughter. Chasing the visions, he impales himself on Kay's sword and dies. When they recapture her, the tearful Anna explains that she only ran away for fear of Debelzaq but the group gradually becomes less trusting of her. They cross a rickety rope bridge, where Anna saves Kay from falling to his death by grabbing him with one hand, showing unnatural strength. The group enters the dark forest called Wormwood, where Hagamar attempts to kill Anna so that the group can go home, only to be stopped by the others. Anna appears to summon monstrous wolves, which chase the group and kill Hagamar. An enraged Behmen tries to kill Anna but is stopped by Debelzaq and Felson, who point out that the monastery is in sight.

At the monastery, the men find that all the monks have been killed by the plague but locate the Key of Solomon, an ancient book filled with holy rituals used to defeat evil. The men confront Anna and Debelzaq begins to perform a ritual used on witches. As Anna begins precisely recounting Behmen's past actions during the Crusades, Debelzaq realizes that she is not a witch, rather she has been possessed by a demon - he begins frantically performing an exorcism. The demon that is possessing Anna reveals himself and melts the metal of the cage. He fights off the knights effortlessly but when Debelzaq throws a vial of holy water on him, the demon flies out of sight. As the men search for the demon, they realize he is not trying to escape but to destroy the book so that nothing can stop his powers. They find a room where the monks were writing copies of the book, where the demon, revealing himself to be Ba'al, destroys the copies and possesses the dead monks' bodies to use as weapons. The three men fight the possessed monks while Debelzaq continues the exorcism ritual. During the fight, Baal/Anna breaks Debelzaq's neck, then kills Felson. Kay gathers the book and continues the ritual, while Behmen continues fighting Ba'al/Anna. Behmen is mortally wounded during the fight but Kay is able to finish the ritual and Ba'al is expelled from Anna's body, freeing her and sending Ba'al back to Hell. After Ba'al's defeat, Behmen asks Kay to keep Anna safe before dying. Their fallen friends have been buried and Anna asks Kay to tell her about the men who saved her, so they depart from the monastery with the book.

When the movie was done we cheered wildly.

Me: That was so cool!

Nico: That was wicked that the demon did all that.

Lori: But it was literally awful that all that happened so long ago.

Me: The Bubonic Plague killed over 475 million people back in the 14th century. That's why it's called one of the most devastating Pandemics in the history of the world.

Lana: That's horrible! But what was going on in those fights?

Me: Those fights were part of the longest and most devastating wars in all of history: The Crusades.

Jessie K.: That's right. From 718 A.D. to 1492 A.D. it lasted. It was a war of Religion.

Jessie told us all about the Crusades.

---

The crusades were a series of religious wars sanctioned by the Latin Church in the medieval period. The best-known crusades are the campaigns in the eastern Mediterranean aimed at recovering the Holy Land from Muslim rule. The term crusade is now also applied to other church-sanctioned and even non-religious campaigns. These were fought for a variety of reasons including the suppression of paganism and heresy, the resolution of conflict among rival Roman Catholic groups, or for political and territorial advantage. At the time of the early crusades the word did not exist, and it only later became the leading descriptive term in English.

Pope Urban II preached for the First Crusade in 1095, at the Council of Clermont. He encouraged military support for Emperor Alexios I who needed reinforcements for the Byzantine Empire's conflict with westward migrating Turks colonising Anatolia. Urban aimed to guarantee pilgrim access to the eastern Mediterranean holy sites under Muslim control. The crusade established four crusader states in the eastern Mediterranean: the County of Edessa, the Principality of Antioch, the Kingdom of Jerusalem and the County of Tripoli. The enthusiastic response to Urban's preaching across all social strata in western Europe established a precedent for further crusades. Volunteers became crusaders by taking a public vow and receiving plenary indulgences from the Church. Some were hoping for a mass ascension into heaven at Jerusalem or God's forgiveness for their sins. Others participated to satisfy feudal obligations, obtain glory and honour, or to seek economic and political gain.

Conventionally an arbitrary system devised by the historian Charles Mills in 1820 is used to number nine distinct campaigns as Crusades. The Second Crusade achieved little beyond the capture of Lisbon. The Third Crusade failed to recapture Jerusalem. The Fourth diverted to sack Constantinople. The Fifth was defeated in Egypt. The Sixth regained Jerusalem by negotiation. The Seventh also ended in defeat in Egypt and the Eighth failed in Tunis. The Ninth is sometimes considered part of the Eighth and is of minor importance, only notable for the presence of Prince Edward, the future king of England. The last of the Eastern Crusader cities fell in 1291 and there were no more crusades to recover the Holy Land. Territorial gains lasted longer in northern and western Europe. Crusades brought all the north-east Baltic and the neighbouring Slavic tribes, known as Wends, under Catholic control in the late 12th century. The French monarchy used the Albigensian Crusade to extend the kingdom to the Mediterranean Sea. The rise of the Ottoman Empire in the late 14th century prompted a Catholic response which led to further defeats at Nicopolis and Varna. In the 15th century the pivotal events in Christian-Islamic relations were marked by two events: the Fall of Constantinople to the Ottomans, and a conclusive victory for the Spanish over the Moors in the conquest of Granada. The idea of crusading continued, not least in the form of the Knights Hospitaller, until the end of the 18th century.

Modern historians hold widely varying opinions of the crusaders. To some, their conduct was incongruous with the stated aims and the implied moral authority of the papacy. Muslims were killed in large numbers on many occasions, as were Christians of other denominations. The crusades had a profound impact on western civilisation. The republics of Genoa and Venice flourished, establishing communes in the Crusader States and expanding trade with eastern markets. Venice gained a maritime Empire. The collective identity of the Latin Church was consolidated under papal leadership by the ideological developments of Crusading and these reinforced the connection between western Christendom, feudalism and militarism. Accounts of crusading heroism, chivalry and piety influenced Medieval romance, philosophy and literature.

---

Everyone was floored!

Lincoln: That's awful!

Me: Yeah. For 774 years, the Christians and Muslims went at each other and killed a lot of people. People all over Europe and the Middle East tore each other apart in a vicious bloodbath.

Lori: That was literally a dark time back then.

Me: It was over 1,300 years ago that the Crusades started. Now the Crusades are starting all over again because of what happened on September 11th, 2001. Essentially we've entered the Crusades all over again.

Lisa: That is an accurate way to describe it 2nd Elder Brother.

Me: Thanks. But that girl was possessed by that demon and she ended up as the main cause of the Black Death.

Leanbow: An innocent being being possessed by a dark force. I know that feeling all too well.

Lucy Loud: Me too.

Me: Demonic Possession is an awful thing. Demons have been known to escape from Hell and cause people to do crazy things against their wills. It's absolutely insane that the Devil has that many minions.

Nico: No kidding.

Brittney walked in.

Brittney: Hey guys. Sorry I missed the movie. I was over in Iceland investigating the appearances of volcano demons that were terrorizing Reykjavik.

Me: That's all right Brittney. Lets head into the simulator for this.

We went to the Simulator.

---

We were getting ready. We made sure to bring enough holy water and we went into the Simulator and it activated and we found ourselves at the monastery in Austria. It was a beautiful and old monastery.

Me: Wow! Severac Monastery, 1344 A.D.

Nico: It sure was beautiful here.

Lincoln: We're now 675 years into the past.

Me: Long time huh?

Then we saw the birds leave in fear and then a nasty storm was brewing!

Me: Whoa! Look at that!

Brittney: I sense a nasty demonic force!

Me: Lets go!

We ran fast and went to the monastery and we saw Behmen, Felson, Kay and Debelzaq on the ground and a cage was on fire and its bars were melted.

Debelzaq: We're gonna need more Holy Water.

We arrived.

Me: Are you all okay?

Behmen: Yeah we are.

Me: We came to help you guys. First we should introduce and explain ourselves.

We did so.

Behmen: It's a pleasure to meet you all.

Felson: Same here. So you're all from the future huh?

Me: 675 years into the future.

We went into the monastery.

Behmen told us what was happening.

Me: Demons are terrifying monsters.

Felson: Yeah they are.

Nico: How did this girl end up getting possessed by one?

Kay: No idea Nico. Demons are dangerous.

Me: Not only that but they have powers that are dangerous.

Felson: The demon could've escaped at anytime. Why did it wait until we reached Severac?

Kay: Perhaps escape wasn't it's purpose.

Me: Demons have their own evil agenda like the Devil does.

Behmen: It wants to be here. Debelzaq, you said Eckhart tried to free her. And he killed him and Hagamar too. He stood in its way.

Lori: Demons are literally very dangerous.

Lucy Loud: They will not stop until they destroy those that are around them.

Behmen: The Demon wanted to come here from the very beginning.

Debelzaq: My God.

Lincoln: But the question is why?

Debelzaq: He's right. Everything it's done has lead us here.

We heard the demon roar and it was terrifying.

Me: We're getting close.

Brittney: This demon is dangerous. I can sense how powerful it is.

Haiku: We have to be ready for anything it may throw at us.

Maggie: Haiku is right. We have to be ready for anything.

We went into another room and we saw a bunch of monks dead on their desks.

Me: Shit.

Laney: Happened to these guys?

Kay: Over here.

We saw that the monks had grotesque skin lesions and more.

Me: It's the Black Plague. It killed them.

Lana saw a rope tied to the desk and to the monk.

Lana: This monk tied himself to his desk for some reason.

Behmen: Why would a dying monk do this to himself? Why would he tie himself to a desk?

Me: No idea Behmen.

Linka: But whatever the reason is it can't be good.

Debelzaq: It's a passage from the Book of Solomon.

I picked up the pages the monk had on the desk and read them.

Me: Wow. Very interesting.

We followed Kay and we saw tools and weapons.

Me: Sacrificial tools. Christian Monks don't use tools like these in the 21st century.

Kay: That's unusual.

The storm outside was getting worse and the demon was summoning his legions of demons for some reason.

Kay: There are more over here.

We saw more dead monks and more pages from the Book of Solomon. I picked them up and gathered them all and read them.

We found more dead monks and more pages. I gathered them all.

Me: I wonder what these monks were doing with the pages.

Debelzaq: They were copying it. To spread the wisdom of Solomon to all the corners of the Earth that the pious might be armed.

Me: I wonder how come.

Behmen: It wants the book. That's why the demon deceived us into believing the girl was a witch. It knew that a witch would be brought to those who possess the book of Solomon.

Luna: So the demon wants to destroy it!

Lori: Why does he want to do that?

Me: The Book of Solomon is said to contain powerful rituals and incantations that are infused with the power of God. That why God doesn't like Solomon. Solomon wrote his power down in a book. He was playing with powerful forces that man should never know.

Debelzaq: That's right. But you've all seen what this plague has done.

Me: Yeah. It killed 475 million people. Making it one of the most devastating biological disasters of all time. 675 years later, it is still remembered as one of the darkest events of our history.

Debelzaq: That's awful. But if the book were to fall into the demon's hands, we would face an endless darkness. It's our last defense.

Me: Then we have to make sure that it doesn't fall into his hands.

Demon: **I should thank all of you.**

We went into the library. We saw the demon on the ceiling. It was a terrifying creature.

Demon: **You sacrificed so much to deliver me here. And now you've brought me the book.**

Brittney: I know that voice. You're Ba'al, The Storm Demon!

Ba'al: **Very good Brittney. I'm flattered that you know me.**

Me: I heard a lot about you Ba'al. You're a weather demon that causes mayhem and chaos through the weather!

Ba'al: **That's right.**

Me: You will pay for causing centuries of pain and suffering!

Behmen: Debelzaq.

Debelzaq: (Reads Latin Exorcism Incantation)

Ba'al: (Grunts) **SILENCE!**

Ba'al made all bookshelves fell.

Kay: WATCH OUT!

Laney: HEADS UP!

We dodged them.

Brittney: Dad, I'll face Ba'al. Debelzaq, you keep reading the ritual and weaken him while I fight him.

Debelzaq: Okay. (Continues Reading in Latin)

Udonna: Stop what you're doing right now!

Ba'al: (laughs) **Oh, it's not what I'm doing.** (the possessed monks appear) **It's what I've already done!**

Me: Whoa!

We fought the monks with our swords and weapons and powers and we were blasting, burning and slashing the monks.

Lana: Weren't these monks dead!?

Me: It's Ba'al's legions of demons! He's turned the monks into his weapons to try and kill us!

We blasted them and Behmen slashed off one of the monks heads and a spirit left the monk.

Behmen: The Head! Cut off the head!

Me: Right!

We were slashing a bunch of monks and burning them and blowing them apart and more. They kept on coming.

Felson: They're like cockroaches.

Me: Tell me about it.

We slashed more of them.

Brittney punched Ba'al in the face and kicked him in the stomach and punched him in the chest.

Brittney: Let that girl go you monster!

Ba'al: **Never! I will have that book!**

Brittney: You will never get it! Why the hell do you want the Book of Solomon so badly?

Ba'al: **You have no idea how that accursed book has tormented me over the centuries. I destroyed the others. This is the last one.**

Brittney: You won't get it! We'll make sure of it!

Brittney fired a powerful blast of black lightning and it hit Ba'al and electrocuted him.

Ba'al fired a powerful blast of lightning and Brittney fired a powerful blast of black lightning and the blasts collided and exploded.

KRABBBBBOOOOOOOOOOOOOOOMMMMM!

The explosion blew the whole monastery completely into rubble. I had everyone protected in a force field.

Me: That was a close one.

Behmen: That was clever though.

Me: We got the monks taken care of. Now we have to finish the ritual and weaken the demon with our power!

We went at the demon and I punched it in the face.

Nico punched the demon in the stomach and kicked him in the face and kicked him in the stomach.

Nick Russel: It's like Octomus all over again!

Lana: It sure is!

Ba'al fired a powerful blast of wind and Lori fired a powerful blast of wind and the blasts collided and exploded.

KRABBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOMMMM!

Vida: (to Ba'al) You're not the only one who can use wind!

Vida fired a powerful blast of Pink Sprite Wind at Ba'al and blew him around.

Me: Lets blow this demon back to Hell with some teamwork!

Shockwave: You got it boss! CYBER KEY POWER!

The Decepticon Cyber Planet Key went into his back and it enhanced his electromagnetic spectrum rays 100-fold.

Ratbat: Time for some pain! CYBER KEY POWER!

The Animatron Cyber Planet Key went into his back and it enabled him to fire electron laser blasters and it enhanced them 100-fold and 4 more laser blasters popped out.

Shockwave and Ratbat: GAMMA-RAY LASER FIRESTORM!

Ratbat fired a bunch of laser blasts and Shockwave fired a powerful gamma ray blast and they hit Ba'al and exploded.

KRABBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOMMMM

Leo Corbett: Lets do it! EARTH CYBER KEY POWER!

The Earth Cyber Planet Key went into his right arm device and it enhanced his Quasar Saber's fire powers 100 fold.

Leo Corbett: And for good measure, LIGHTS OF ORION, ACTIVATE!

He glowed and got an awesome armband, belt buckle, arm claw and his Quasar Saber got a cross guard.

G1 Blades: Lets hit him Leo! CYBER KEY POWER!

The Earth Cyber Planet Key went into his back and enhanced his smart missile launchers 100-fold.

Leo Corbett and G1 Blades: FIRE GALAXY MISSILE BURST!

Leo slashed Ba'al with a powerful fire slash and Blades fired a powerful barrage of missiles and they hit Ba'al and exploded.

KRABBBBBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOMMM

Gwen T.: This demon has plagued our planet for far too long!

Ahsoka: Agreed Gwen. Lets get him!

Gwen formed a sword of mana energy and Ahsoka had her lightsabers ready.

Gwen T. and Ahsoka: FORCE MANA ENERGY SLASH!

They slashed Ba'al all over with incredible power and force.

Me: Lets finish him and free Anna!

Brittney: Right dad! BLACK HELLFIRE FIRESTORM!

Brittney fired a massive blast of black fire at Ba'al and it burned him all over.

Vida: Blow on this! FAIRY WIND TORNADO STORM!

Vida fired a massive blast of wind and blew Ba'al in a number of tornadoes!

Behmen: You will go back to hell and free the girl! CRUSADE SLASH BURST!

Behmen slashed Ba'al and slashed his wings off!

Debelzaq finished the ritual!

Debelzaq: (Finishes in Latin) AMEN!

Ba'al then ignited and was burning!

Behman: Time for you to exit this body!

Ba'al then ejected the girl from him and he turned into a ball of fire and went into the air and the storm he made was gone.

Anna was naked and Maria went over to her. Maria put a blanket on her.

Maria: (to Anna) You ok?

Anna got up.

Anna: What happened? (Groans) My head.

Maria: You were possessed by a demon.

We explained everything about it.

Anna: I don't remember anything. But I owe you all my life.

Me: Think nothing of it Anna.

Laney: But thank goodness you're all right.

Nico: What that demon did to you and several hundred million people over the course of this time was unforgivable.

Me: Millions of people died because of it. But it's not your fault Anna. That demon made you do all this against your will.

Nico: And it has failed this whole world.

Me: Yep.

Behmen: (To the viewers) These guys are a force here and in the future.

Later we were standing before them.

Behmen: J.D. thank you all so much for helping us.

Me: No problem Behmen.

Felson: You guys are a powerful force to be reckoned with. Not even the demons of hell can be a match for you.

Me: Well we don't know about that. But thanks Felson. I have a feeling that the impact we've had here will be echoing throughout all of time for many generations to come.

Anna: It will. I owe you all my life. Thank you all.

Me: Think nothing of it Anna.

Kay: You guys are true knights and you helped us in our time of need.

Lori: Thanks Kay.

Debelzaq: God be with you all.

Me: He always is with us.

We shook hands and we went back home. We had an awesome adventure in the 14th century and we learned so much. Nico caught a Necrozma and a Magearna when we went to the park to relax. Brittney put the Book of Solomon in her room and we put the pages of the Book of Solomon in Jessie's room so she can make more copies of the book.

On another planet located at the very distant edge of the Solar System, a bunch of figures were getting ready.

Figure 1: (Alien Voice) **Our friends on Earth need us more than ever! IT'S MORPHIN TIME!**

A blinding flash of light appeared and the screen went black.

THE END

Another Fanfiction complete and part 8 of the 13 days of Horror complete.

Season Of The Witch from 2011 was awesome! Nicholas Cage and Ron Perlman did an amazing job in that movie. The Crusades were a dark time in all of history. 1,000 years ago, it was a terrible war of religion. NicoChan11 gave me the ideas for this. Thanks man. Next for part 9 is The Addams Family and we're gonna face Tally and that evil loan shark. Swords VS Guns. Let me know what you all think.

See you all next time.

# Return of The Addams Family

We were at Peach Creek in Atlanta, Georgia. We were at Peach Creek Junior High School. Home of the Peach Creek Cobblers.

Eddy: Here we are at Peach Creek Junior High!

Me: Wow. So this is your old school you went to.

Eddy: Yep. It was not a bad place.

Luan: Your school looks awesome Eddy. It sure looks Peachy. (Laughs) Get it?

We laughed.

Laney: (Laughs) That was a good one.

Me: That was a good one. And the Peach Creek Cobblers are their team name.

Edd: Yeah they are.

James: Cacnea, don't get lost, ok?

Cacnea agreed.

Eddy: But look at this.

We went to another hallway and we saw that the trophy case for the Peach Creek Cobblers Teams in sports was totally empty. It was filled with nothing but cobwebs and dust and spiders.

Me: It's totally empty.

Laney: Not one trophy for your team?

Eddy: Yeah the Lemon Brook Lumpers always beat us at everything. They hate us with a merciless vengeance and they beat us at everything.

Nico: Boy that sucks!

Me: No kidding. I think those Lemon Brook Lumpheads are cheating numbskulls.

Lori: That is literally too awful.

Me: Eddy, you guys tried out for the football team right?

Eddy: Yeah we did, but we lost big time.

Me: Boy that stinks.

Lynn: I may be a sports star, but I would not want players from the Lemon Brook Lumpers to be on our school teams.

Me: You got that right. Those guys are terrible.

Luan: I heard you guys got mercilessly thrashed by all of them.

Edd: We certainly did Luan. It was awful.

Me: Well I know sports aren't your forte Double D, but now that you have your Iron Boy suit, you can easily win.

Edd: That's true J.D.

Linka: Yeah.

Kevin: But it's great being part of the football team.

Nazz: It sure is.

Me: Nazz, you were on the cheerleading squad right?

Nazz: I sure was J.D. Now I'm on the cheerleading squad for the Gotham Royal York Roosters.

Me: Sweet! Marie, you hated school right?

Marie K.L.: Ugh! I hated school! I wanted nothing more than to cause trouble because of my stupid former sisters.

Me: Boy they left a mean streak on you huh?

Marie K.L.: They sure did. And they are the reason why I was taking part in the True Vengeance Express.

Syd: That was awful.

Qin: What's the Vengeance Express?

Nico: That was a terrible event Qin.

Me: Here's a newspaper of what happened back then.

I handed Qin a newspaper of what happened 5 years ago back in 2014 and Qin read it. What she saw was terrifying.

Qin: (Gasp) That's awful! I can't believe that you and your sisters would do all that and cause so much destruction to the whole city of Atlanta!

Marie K.L.: Yeah. Blame my sisters for that too.

Kevin: The Vengeance Express is a term J.D. invented where we went after the Ed's in a hunt for their blood. We wanted to kill them and mount their heads on pikes for revenge.

Qin: That's terrible! What did they do?

Me: Ed has a sleepwalking problem and he accidentally took the Kanker's Ship-In-A-Bottle the 2nd time. The Ed's had to run after the Kanker's completely destroyed the whole neighborhood. But in doing so, the Kanker's completely destroyed all of Atlanta. Thousands died, many injured and billions of dollars, maybe trillions of dollars in damages. The whole city looked like it was hit by a nuclear bomb.

Qin: That's terrible! I can't believe all that happened.

Ed: It's because of my sleepwalking that caused the city to be destroyed.

Me: It's not your fault Ed. Sleepwalking causes a lot of people to do crazy things against their will in their sleep. You had no idea that all that would happen.

Lincoln: That's right Ed.

Leni: It's all right Ed.

Ed: Aw. Thanks guys.

We then were walking around the school and showing the classrooms and some of the teachers were happy to see the Ed's and their former classmates.

In the cafeteria, we saw the good food.

Me: Boy the food looks good.

Nico: It sure does.

We had a little snack with some of the food and we were in luck. Today was Whopper Weiner Wednesday and it had lots of big hot dogs and really good fries. They also had all kinds of fruit, vegetables, meats and desserts. But they also had a big pot full of Butterscotch Pudding. Mary got some desserts, Jared got the fruits and vegetables, Nicole and Rolf got the meats and Laney got a bunch of hot dogs.

Nico: Boy these are big hot dogs.

Me: They sure are.

We ate them.

Nico: Wow! These are great hot dogs.

Me: They are delicious. Ketchup Kevin?

Kevin: After you amigo.

He took the ketchup bottle and squirted it on mine in the shape of Kev.

Me: Nice!

?: (Alien Voice) **Excuse me, are you all Team Loud Phoenix Storm?**

We turned and we saw the Aquitar Power Rangers!

Me: No way! The Aquitar Power Rangers.

Nico: It's truly an honor.

Cornelia: (to the Alien Rangers) It's really nice to meet you guys.

Aurico: **You too Cornelia. I'm Aurico, the Red ranger.**

Delphine: **I'm Delphine, the White Ranger.**

Cestro: **I'm Cestro, the Blue Ranger.**

Tideus: **I'm Tideus, the Yellow Ranger.**

Corcus: **And I'm Corcus, the Black Ranger.**

Me: It's truly a pleasure. We welcome you all to Earth.

Tommy Oliver: It's great to see you all again.

Kimberly: It's a pleasure to meet you all.

Aisha: We missed you guys.

Billy: Same here.

?: And the Power Rangers know me.

We saw a blue robot man appear. It was Ninjor!

Me: Wow! Ninjor!

Ninjor: It's an honor to meet you J.D. Knudson. And you too Team Loud Phoenix Storm.

Hot Spot: (to Ninjor) It's nice to meet you, Ninjor.

Ninjor: Same to you Hot Spot.

Shanan: Planet Aquitar is half a light-year away from here. I guess Zordon called the Aquitar Rangers to help you guys.

Adam: That's right Shanan.

Rocky: We were turned into kids when Rita Repulsa and Lord Zedd used a spell that sent Earth back in time and we had to find a way to reverse it.

Me: I remember seeing that. That was intense. Master Vile destroyed the whole command center at the end.

Tommy: Yeah. We thought that was the end of the Power Rangers.

Me: There will never be an end to the Power Rangers, Tommy. Once a ranger, always a ranger. In heart and spirit.

Nico: That's right. We've watched all of the Power Rangers from over the course of 26 years and it's so awesome!

Laney: Yep.

Delphine: **That's interesting.**

Aurico: **Might we trouble for some water please?**

Maria: I got you covered.

Maria fired a blast of water and got them wet and rehydrated.

Delphine: **Ahh. That's better.**

Me: Like fish out of water, they need to stay wet and hydrated.

Nico: I know.

Aurico: **Thank you.**

Maria: No problem.

Me: So you've decide to live here on Earth?

Aurico: **Yes we have.**

Me: I'm glad you've decided to give Earth a chance.

Onslaught: Now that you guys are with us, you can always go to one of us with water powers whenever you need to hydrate.

Delphine: **Thank you all.**

We made a brand new water base for the Aquitar Rangers in Lake Huron and we were given special devices that would call the Aquitar Rangers whenever needed.

---

At the estate, Wednesday Addams was looking through a photo album we recovered from her house that was blown up in an accidental explosion caused by Uncle Fester.

Qin: What are all those photos Wednesday?

Wednesday: These are all the times I've had with my family.

Me: Wednesday lost her whole family 2 years ago when her Uncle Fester accidentally blew up the house.

Qin: Oh no! Wednesday, I'm so sorry.

Wednesday: Thank you Qin.

Me: Maybe we can bring them back. Everyone, lets head to the Simulator to bring back the Addams Family. Everyone may find the Addams Family to be spooky, but we don't!

Nico: Lets do it!

We went to the simulator.

---

We were in the Simulator and we were ready for a chance to bring the whole Addams Family back together.

Nico: No one should ever be without their family. Accidental or otherwise.

Me: I agree. But I have a strong feeling that it was because of those landlords that the Addams Family died.

Laney: We'll find out when we face them.

Me: Lets do it.

The Simulator activated and we found ourselves near a hotel on the other side of the city.

Me: Feels like we didn't go anywhere.

Nico: It sure feels like it.

Pugsley: We're Addams's!

Wednesday: I never thought I would hear that voice again!

Me: That's Pugsley.

We went to a hotel room and the door opened and Morticia Addams answered.

Wednesday: Mom!

Wednesday hugged her for the first time in two years.

Morticia: I never thought I would be hugged like this.

Me: Morticia Addams. It's an honor to meet you. We are Team Loud Phoenix Storm.

Morticia: It's a pleasure to meet you all.

Me: We have a lot to tell you.

We went in and told the Addams Family minus Fester everything that went down.

Gomez: So we've been killed in the future?

Me: I'm afraid so Gomez and it left Wednesday an orphan. It devastated her.

Morticia Addams: What exactly happens to us in the future?

Horsea: An explosion kills you off.

William: Did you have to be so blunt, Horsea?

Me: Uncle Fester made a new explosive that blew the whole mansion to flaming rubble, leaving Wednesday as the only survivor.

Lori: So we came here through time to help deal with your landlords and that fake doctor working with Fester.

Pugsley: Wait. Dr. Pinder-Schloss is a fake doctor?

Me: She is a fraud Pugsley. Her real name is Mrs. Abigail Craven. She's a ruthless loanshark that Tully owes a huge amount of money to. She and Tully are after the whole Addams Family Fortune.

Gomez: That monster!

Me: Gomez, let us handle this. We can make sure that they pay for it.

Wednesday: That's right father. My friends on Team Loud Phoenix Storm have taken down a lot of powerful bad guys over the course of three years and they are the strongest force anywhere.

Me: We don't like to brag but yes. Also Gomez, that "Fake Fester" as you called him is really your brother Fester. He has amnesia and Mrs. Craven found him and twisted him. Poisoning his mind with lies.

Gomez: He is?

Me: Yes. We can help you guys get your house and everything you lost today and in the future back together.

Grandmama: How can you do that?

Maria: Don't worry. As soon as your landlord's… dealt with, we'll bring you to the future so Wednesday can have her family back.

Me: We are also the most powerful force in the entire universe and we can do anything.

Wednesday: It's true everyone. Team Loud Phoenix Storm will take care of everything.

Me: Now here's what we do.

I went over the plan and I told them that I was gonna face Tully in a sword fight and kill Mrs. Craven with my gun. Mrs. Craven is actually wanted by the FBI and she was one of the top 10 most wanted fugitives. But they don't know where she is. But they declared her to be extremely dangerous and they had orders to shoot her on sight.

We went to the Addams Family estate and we saw a sign that said "Addams Family, Keep Out." And another sign that said "No Trespassing."

Me: The Addams Family estate.

Gomez: Our old home.

But then we got an unexpected surprise when we saw 3 familiar ghosts flying around.

Pugsley Addams: What are those things?!

Double D (activating his Iron Boy suit): Heartless of deceased enemies.

Me: It's the Chocolate, Vanilla and Strawberry Technicolor Phantoms. Old enemies that we know. Okay. Change of plans. I'm going to face Tully and Mrs. Craven alone, you all can face the Technicolor Phantoms.

Nico: Right. Be careful J.D.

Me: Will do.

We flew over the gate and everyone went to face the Technicolor Phantoms and I went around the back and flew to the back of the house and I was outside of Gomez's study.

Nico and the others went to face the Technicolor Phantoms.

The Technicolor Phantom Heartless came at them and Nico kicked them in their faces and Lori fired a massive blast of wind and blew them around in a powerful tornado. Leni lifted a huge rock and crushed the Chocolate Phantom Heartless and splattered it all over the place as chocolate ice cream.

Eddy: (sees the remains of the Heartless) Well, can't let good ice cream go to waste.

After the heart of the Chocolate Phantom Heartless disappeared, it was purified and he ate all the ice cream.

Nico used Naturon Shenron's Aftershock blast and blew the Vanilla Phantom Heartless apart and splattered Vanilla Ice Cream all over May and himself. The heart disappeared and they licked themselves clean.

Nico: You taste delicious May.

May: So do you Nico.

They laughed.

Lincoln: Now it's time for you Strawberry Phantom Heartless.

Lincoln punched it in the face and fired a massive blast of lightning and electrocuted it.

Lana fired a massive blast of ice lightning and froze is and Lola fired a massive blast of fire and burned it.

Nico: Lets show this freak some teamwork!

Onslaught: You got it boss! CYBER KEY POWER!

The Earth Cyber Planet Key went into his missile and it enhanced its explosive power 100-fold.

James: Lets show this monster no mercy Cacnea! ANIMATRON CYBER KEY POWER!

The Animatron Cyber Planet Key went into James's right arm device and it enhanced his Cacnea's abilities 100 fold.

James: Cacnea, use Energy Ball!

Onslaught and James: SUPERBLAST MISSILEBOMB!

Cacnea fired a powerful energy ball and Onslaught fired a powerful missile and they both slammed into the Strawberry Phantom Heartless and exploded with incredible power!

KRABBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

The explosion was so powerful that it shook much of the town with 30,000 tons of TNT.

Nico: WHOA! What power!

Luna: That was explosive power dudes!

Nico: Lets keep fighting!

Hot Spot: Time for you to melt! CYBER KEY POWER!

The Earth Cyber Planet Key went into his back and it enhanced his fireball cannon 100-fold.

Cornelia: It's time for some earth power! EARTH CYBER KEY POWER!

The Earth Cyber Planet Key went into Cornelia's right arm device and it enhanced her Earth Powers 100-fold.

G1 Hot Spot and Cornelia: VOLCANIC FIREBALL METEOR FLARE!

Cornelia threw a bunch of rocks and Hot Spot fired a barrage of fireballs and they turned the rocks into red hot globs of lava. They rained onto the Strawberry Phantom Heartless and burned him all over.

Superman: Lets burn him Thor!

Thor: We'll smite thee.

Superman fired his laser vision and Thor fired a massive blast of lightning from his hammer.

Superman and Thor: LASER LIGHTNING FIRESTORM!

The blasts combined and they hit the Strawberry Phantom Heartless.

Nico: Lets finish this clod for good!

Wednesday: I'll start! BLACK LEAF DEATH TORNADO!

Wednesday fired a massive vortex of black leaves and they cut the Strawberry Phantom Heartless all over.

Pugsley: My turn! CHEMICAL ACID BURN!

Pugsley fired a powerful blast of sulfuric acid and burned the phantom.

Lucy Loud: You reap what you sow. BLACK LIGHTNING FEAR STRIKE!

Lucy fired a powerful blast of black lightning and electrocuted the Strawberry Phantom Heartless.

Haiku: Time for you to melt. BLACK FIRE HELLFIRE SPEAR!

Haiku formed a massive black spear of black fire and it skewered the Strawberry Phantom Heartless and it exploded all over the place as strawberry ice cream. It's heart vanished and purified it. They ate it.

Nico: Lets go help J.D. out now.

Lincoln: Right.

They went to help me.

---

Mrs. Craven and Tally were thinking.

Mrs. Craven: Someone is here to stop us!

I then smashed through the window and landed on the floor.

Me: Surprise you fuckers!

I shot Mrs. Craven in the head with my 25 Caliber pistol and blew her head off. (Garry's gun)

Tully then appeared with a sword and I clashed my sword with his.

Me: Dirty Pool old man! Never again!

I slashed him and cut him across his stomach and disemboweled him.

Fester came. I fired a powerful blast of lightning and it hit him in the head and electrocuted him and it also restored his memories.

Me: Now you are a dead man.

I slashed Tully and cut his head off.

Everyone else came in.

Me: You guys missed a short fight.

Nico: Looks like you got everything under control.

Me: Yep. They didn't put up that much of a fight. Now we can bring the Addams Family back.

Nico: Mrs. Abigail Craven and Tully Alford, you both have failed this world.

I snapped my fingers and the Addams Family was now in our dimension next to our estate on the island we use for the awesome obstacle course. The fortune was put in the vault for safety.

Wednesday: Thank you for reuniting me with my family J.D.

Me: Anytime Wednesday.

Wednesday: (To the viewers) Never mess with our friends or families or you will regret it from Team Loud Phoenix Storm.

Me: You said it Wednesday.

Nico caught a Naganadel and a Stakataka when we got back.

Another Fanfiction Complete and part 9 of the 13 Days of Horror Complete.

Another Addams Family Chapter in the books and I wanted to make it based on the 1991 movie. NicoChan11 gave me the ideas for this one. vinjedi1995 gave me the idea for the chapter. Thanks guys. Next for part 10 is Attack of The 50 Foot Woman. We're gonna have Ginormica be the 50 Foot Woman. Let me know what you all think.

See you all next time.

# The Giant Woman Cometh

In the special Jedi Temple training room, I was learning all about the powers and skills of the Jedi and training in more of the ways of the Force. The Jedi Temple Training Room was in every way like our training simulator back at the estate and it too had universe hopping capabilities. I was fighting simulations of the Droids, the Mandalorians and all the hostile enemies of the Jedi. I was deflecting the blasts of the droids back to them and blowing them apart. I was also slashing a bunch of Droids and enemies and blasting them with Force Lightning. I was blowing them away with the Force and slashing them and deflecting their blasts.

Jedi Master Mace Windu was observing my moves.

Mace Windu: You're doing really well J.D.

Me: Thank you Master Windu.

Mace Windu: You have learned well in your past endeavors. Lets see how you fair against one of the Sith Lords.

Me: All right.

The training room activated and called forth the infamous DARTH MAUL!

---

Darth Maul, later known as Maul, is a major antagonist in the Star Wars franchise. He was a Sith warrior and the first apprentice of Emperor Palpatine prior to the Battle of Naboo and his abandonment by his former master. A Zabrak Nightbrother male from Dathomir, Maul later resurfaced during the Clone Wars and sought revenge against all who had wronged him turning to a life of crime and terrorism and plunged much of the galaxy into fear and chaos in the process. He is the archenemy of Obi-Wan Kenobi.

Maul first appeared as the central antagonist of The Phantom

Menace, the first film of the prequel trilogy. He was later a major antagonist in the 2008-2014 television series Star Wars: The Clone Wars, serving as the final antagonist of Season 4, and as one of the main antagonists of Season 5, and is set to return as the final antagonist of the upcoming 7th and final season. He also appeared as a major antagonist in the series Star Wars: Rebels, appearing as one of the main antagonists of the two-part Season 2 finale (alongside Darth Vader), and as the secondary antagonist of Season 3. He next appeared as the overarching antagonist of Solo: A Star Wars Story.

In The Phantom Menace and Solo: A Star Wars Story, he was portrayed by Ray Park, who also played Toad and Snake Eyes, but his voice was provided by Peter Serafinowicz. In his TV appearances and Solo: A Star Wars Story, he was voiced by Sam Witwer, who also played Galen Marek/Starkiller in the Force Unleashed, and the Son in Clone Wars.

Me: Darth Maul!

Darth Maul: So you have come to die J.D. Knudson.

Me: I don't die that easily.

Darth Maul: You won't stop me this time, Knudson. Soon the Republic and the Confederacy will be ashes and my revenge will be complete.

He ignited his double-bladed red lightsaber.

Me: What kind of fucked up world do you live in Maul? Your hate blinds you.

Darth Maul: We shall see.

Me: Yes we will. When I kill you.

Darth Maul: I cannot be killed, not by you, not by anyone!

We went at each other and clashed ferociously and I kicked him in the face and slashed his hand.

Darth Maul: Your tenacity will be your downfall!

Me: Your overconfidence is yours!

Darth Maul: Submit or suffer!

Me: Fuck you Maul!

I kicked him in the face and punched him in the stomach and fired a powerful blast of Force Lightning and electrocuted him all over.

Darth Maul: (FEROCIOUS GROWLING!) I HATE YOU!

My aura flared up with an incredible intensity and I saw that my aura looked more like blue fire and it didn't burn me. His hatred was so incredibly powerful that it rivaled that of the strongest of all the villains that we faced. It intensified my power 100 Octillion-fold.

Darth Maul: What's this!?

Me: Whoa! What power! But this aura is also energized with the Force. Lets see what else the Force is capable of.

I held out my hand and fired a powerful blast of incredibly powerful blue fire from my hand and it hit him and exploded with incredible power.

KRABBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

The explosion blew him into a thousand burning pieces and killed him instantly. All that was left of him was his lightsaber.

Me: Whoa!

Mace Windu came.

Mace Windu: That was unbelievable J.D. You did well.

Me: That was incredible! I didn't know the Force could do that.

Mace Windu: Indeed.

Me: That was Force Fire.

Mace Windu: It was J.D. This is the first time we Jedi have heard of this kind of ability. Never before in our history have we known about this.

Me: First times for everything Master Windu. I have a feeling that there are many more possibilities with the Force.

Mace Windu: We'll see when we get the chance.

Me: Okay.

I later went back to the estate.

---

I arrived back at the estate and everyone was talking.

Me: Hey guys.

Nico: Hey J.D. How was the training in the Jedi?

Me: Intense.

I revealed everything about what happened.

Lincoln: Whoa!

Laney: You blew apart Darth Maul with Force Fire!?

Lori: That is literally intense!

Me: It was. Darth Maul's hatred towards everything was so powerful that it was far more powerful than all the Negative Energy Power Ups we had. It unlocked the Force Fire inside me.

Lana: That is so cool!

Lola: It sure is.

Me: Force Fire is 1,000 times more powerful than Force Lightning and Darth Maul didn't stand a chance against it.

Nico: That's incredible.

I went to the kitchen.

---

In another room, Tommy, Jason, and Andros were looking at the clip board with the remaining Red Rangers yet to be found. Now, only the pictures of Jayden Shiba, Troy Burrows, Tyler Nevarro, and Brody Romero remained.

Andros: There's only 4 more Red rangers left to join us.

Jason: There's also the matter of finding Justin and Blue Senturion.

Tommy: We should also show J.D. the Turbo and Zeo Powers as well.

Andros: Good idea.

---

In the living room, Qin was curious about something.

Qin: Hey Nicole, can I ask you something?

Nicole: Sure Qin. What's up?

Qin: Lincoln told me you used a terrifying technique on an Evil Sasuke called Malevolent Insanity. What is that?

Nicole: That is one of my most devastating sanity-destroying techniques. What the technique does, is it takes the target to another world where that world tortures the target with insane hallucinations and mind-destroying images.

Qin: Wow! That sounds terrifying!

Lincoln: It is Qin.

Nicole: I learned the technique from my brother Jared. He taught it to me. Would you like to see the technique?

Qin: Sure.

Nicole: Okay. But as long as you're all with me, you're all safe.

Nicole snapped her fingers and they were in the Malevolent Insanity World.

Qin saw that they were in a whole new different world and it was a horrifying place.

Qin: Whoa! What is this place?

Nicole: This is the Malevolent Insanity World. It's a place where it takes your worst fears, brings them to life and torments you with them to beyond the point of Zero Conscious Reasoning. But also this whole place is another universe where the very physical laws of nature do not apply.

Laney: This is still a very terrifying place.

Qin: It sure is. Look at all these terrifying monsters.

Nicole: Yep. They are, in a way, the demons of Hell here.

They then saw an Evil Sasuke.

Qin: Is that Sasuke?

Nicole: Yep. That's an evil Sasuke that I imprisoned here. Watch what he's tormented with.

They saw the Evil Sasuke being tormented with what he is afraid of during the events of the Shinobi of The Cosmic Storm Saga. He saw all of his clan being mercilessly butchered and deforming into ugly monstrosities and horrible grotesque monsters tormenting his mind. Then he saw the faces of all of Team Cosmic Dragon in stone tormenting him.

Nicole (MI): (Echoing) How does it feel to be a worthless loser and a pathetic disgrace? That's all you are Sasu-gay.

Lincoln (MI): (Echoing) You will never be good at anything. All you are is a coward and a worthless thief.

Naruto (MI): (Echoing) I'm glad Itachi killed your family and they can burn in the Netherworld.

Sakura (MI): (Echoing) You will never be a challenge to us Sasu-gay. Go kiss more boys.

Fu (MI): (Echoing) You will never have friends or a loving family. You're a disgrace and a worthless loser you dead last scum.

Juri (MI): (Echoing) How does it feel knowing that you will never match up to us Sasu-gay?

Ami (MI): (Echoing) I don't know what I ever saw in you. All you are is a demon in human skin.

Akiko (MI): (Echoing) Naruto is a much greater shinobi than you ever will be in a trillion lifetimes.

Sasuke (MI): (Echoing) You have disgraced the Uchiha name and you are no longer fit to be a member of my family.

Rin (MI): (Echoing) You are a worthless loser and Naruto is a far greater shinobi than you ever will be.

Yamiko (MI): (Echoing) You are a total failure Sasu-gay.

Itachi (MI): (Echoing) You're still too weak. You don't have enough hate. And you know something, You never will.

Nicole: What they are telling him is that the evil Sasuke will never have the power to do anything, ever. And he will always be nothing more than a worthless loser.

Qin: I hate that evil Sasuke.

Lincoln: We all do Qin.

Laney: The evil Sasuke's are nothing more than menaces to the entire world of shinobi.

They saw Nicole's red eyes looking at the Evil Sasuke imprisoned in the Malevolent Insanity World.

Nicole: Those are my eyes. When a target becomes trapped here in the Malevolent Insanity World, they are forever subjected to torture under the ever-watchful eyes of the user of the technique.

Qin: Like the eyes of the devil always watching you.

Nicole: Bingo.

They left the Malevolent Insanity world.

Qin: That was scary and intense.

Nicole: It is. But as long as you're with me, you're safe.

Lincoln: Yep.

Qin: That's a relief.

Cornelia: Megan, you never did tell me the whole play by play scenario of when you guys dealt with the Wet Bandits.

Poison Ivy: It was only a few days after I joined the Redmeption Squad.

Megan: We helped Team Loud Phoenix Storm deal with the Wet Bandits.

Megan went over what happened during the events of Christmas With The Wet Bandits.

---

We set up all kinds of booby traps all over the house in and out. It took us 2 hours to do it.

Me: All right it's all set. Megan, Kevin, you are about to see Team Loud Phoenix Storm in action.

Megan: We know you all can do it.

Me: And if we cause any damage I'll reimburse you for it.

Kevin M.: No worries.

Me: Lets get em.

Outside we saw a van pull up to the house.

Me: That's them. (Imitating Mr. Incredible) Showtime.

Kevin had a BB gun ready.

We had the door unlocked and they came in and when Harry poked his head in he saw Lola.

Lola: Surprise.

Lola fired a blast of fire and burned the top of his head and he screamed in pain.

He ran out to a snow pile and put his head in and extinguished his head. But his hat was gone.

Marv came in.

Lisa: Greetings.

Lisa had a bunch of nails skewer his feet and he screamed in pain as they went through his foot. He fell back and landed on the concrete steps.

Me: I hope his prison has insurance coverage for tetanus shots.

Lana: No kidding.

Outside Marv and Harry went to the windows and they were slipping and sliding along the way. Lana had turned the whole path into a path of ice with her powers.

Harry: Geez! This path is slippery!

They opened the window and were climbing through it. But Marv had no shoes on because the nails yanked them off.

Marv: Tell me something, Harry. When you said piece of cake, was this even close to what you had in mind?!

Harry: I don't appreciate your tone, Marv! This situation isn't even my fault to begin with!

Marv: Well, it certainly isn't mine!

Harry: Oh no? You're the one who made a lot of noise!

Marv: And you're the one who suggested on killing the kid when there were still people around?

Nico: Ok, do you two want some time alone to finish your argument?

Marv and Harry: STAY OUTTA THIS!

Marv came in and he stepped on some Christmas Ornaments on the floor and screamed in pain.

Marv: I'M GONNA KILL THOSE KIDS!

Lincoln: Try this on though.

Lincoln fired a blast of lightning from his fingers and the lightning got his hands and started electrocuting him badly. Lincoln increased the voltage and Marv's skeleton started showing as he was screaming in pain. He was screaming like a little girl. Lincoln stopped and Marv was twitching on the floor with lightning arching all over him.

Earth: That was awesome Linky.

Lyra: It sure was.

Harry came in and I flipped him over and on his right hand was a burn scar with the letter M on it.

Me: Whoa. That's a nasty scar you have here.

Harry: Yeah that little kid burned me the first time with a red hot doorknob.

Me: He sure left his mark on you huh?

Laney formed a cactus gun and fired cactus balls at their faces.

BANG BANG!

They screamed in pain.

Laney formed a paddle made of a cactus and she handed a bigger one to Poison Ivy.

Laney: This'll cause some serious pain.

Poison Ivy: It sure will Laney.

They went over and slapped them with the cactus paddles and they screamed in excruciating pain.

Poison Ivy: Merry Christmas, darlings! (punches Harry)

POW!

Harley: And Happy New Years', chumps! (hits Marv with her hammer)

Black Widow punched Harry in the face and Lola punched Harry in the crotch and he screamed like a little girl.

Lola: Lets use our combo on him Natasha.

Black Widow: (Russian Accent) You got it Lola.

Lola fired a blast of fire and Black Widow fired a blast of lightning.

Black Widow and Lola: FIRE SPIDER CROTCHCRUNCHER!

The blasts combined and turned into a spider with big spiked boxing gloves on 6 of its 8 legs and struck Harry multiple times with a ferocious flurry of fisticuffs on his face and the crotch.

CRUNCH! CRUNCH CRUNCH CRUNCH CRUNCH CRUNCH!

Lola: That was awesome!

Black Widow: It sure was.

Hawkeye bashed Marv with his bow and Lana grabbed Marv's hands and froze them together. Dallas fired two arrows and they pinned him to the wall as his screamed in pain.

Me: Awesome shots Dallas.

Dallas: Thanks J.D. Archery is my strongest weapon. I am a true marksman.

Me: I can see that.

Lana: Lets use our combo on him Hawkeye.

Hawkeye: You got it Lana.

Lana fired a stream of ice lightning and Hawkeye fired a bunch of arrows.

Hawkeye and Lana: SUBZERO ARROW CROTCHKICKERS!

The ice lightning turned the arrows into spiked mace balls of pure ice and they slammed into Marv's crotch with tremendous force.

CRUNCH!

Me: (WINCES) OOH! Ouch!

Nico: Right where the sun doesn't shine.

Rachel: Ouch! But these two deserve it.

Me: Now it's my turn.

I walk up to them and I have my gun ready.

Me: Kevin, Megan you guys may want to plug your ears.

Megan: Okay.

They did so.

Me: Merry Christmas you Fucking Filthy Animals.

I shoot them in the legs with my gun and paralyze them for life.

Me: And a Happy Fucking New Year.

I blow the smoke out of the muzzle.

Lynn: That was awesome J.D.

Me: Thanks Lynn.

The police arrived and arrested them.

Me: What a couple of losers.

---

Cornelia: Wow! You guys really showed them!

Nico: We sure did.

Dallas: That was the most awesome fight ever. Carlota said it was so cool that we brought them to justice.

Me: It sure was Dallas and you did a great job there.

Dallas: Thanks J.D. Sorry I haven't been with you guys much. I've been so busy helping Carlota out with our children.

Me: I heard about that. Congratulations on your kids.

Dallas: Thanks man.

Nico: We're very happy for you Dallas. But you also have a big responsibility to your kids and to helping out around the city.

Dallas: I know.

Eddy then came.

Eddy: Hey, guys. Quick question?

Maria: Yeah?

Eddy: WHO THE HELL PUT THESE BAD PICTURES OF SPICER AND PRINCESS MORBUCKS AS A COUPLE?!

Me: What!?

We saw pictures of Jack Spicer and Princess Morbucks and we were screaming and covering our eyes and blood came out of them and so did fire!

Me: (SCREAMING) MY EYES!

Lincoln: (SCREAMING) I'M BLIND! I'M BLIND!

Laney: I'M GONNA BE SICK!

Lucy Loud: That is gruesome. Wicked.

* * *

Later we talked to Jack Spicer at the Burpin' Burger.

Spicer: You saw what?!

Maria: That's what we saw. A bunch of pornographic pictures of you and Morbucks doing… (shudders)… stuff!

Spicer: I would never like a brat such as Princess Morbucks! I'm glad she's dead. Too bad I didn't kill her myself!

William: It wasn't any of us who posted them.

Maria: Just a bunch of fans that think it's cool on the internet.

Spicer: That explains it. It was nice talking to you two. But I need to get back to my hideout now.

Maria: Ok. But it would be really nice of you to join us one day.

William: Yeah. And if you do, we'll settle this whole tension between you and our Xiaolin friends.

Spicer (sighs): I'll think about it, ok? But thanks for the burgers.

Maria: No problem.

Jack Spicer left.

---

In the middle of the city, Defensor was helping in getting some people down from a burning building.

Defensor: (getting citizens out of a fire) It's ok. You're safe now.

Man: Thanks Defensor.

Defensor: Anytime.

Suddenly they heard thunderous footfalls.

Defensor: Uh oh!

The footfalls were getting closer and they turned and saw a huge 50 foot tall woman with white hair walking around in the city and unintentionally destroying things.

We arrived at the sight!

Me: That's Susan Murphy A.K.A. Ginormica!

Laney: From Monsters VS Aliens!? Awesome!

Lincoln: That was one of my favorite movies!

Nico: How did she get so tall!?

Me: She was exposed to a radioactive element called Quantonium and it made her grow to 49' 11" tall.

Nico: Wow! So one inch shy of 50 feet.

Me: Yep.

Giganta: I got this.

Giganta grew to 50 feet high. She grabbed her in an elbow hold.

Giganta: Susan, calm down!

Susan: Giganta?!

Giganta: Were you expecting Dai Shi?

Susan: (punches her) I don't know why you're here. But I'm putting a stop to your crimes!

Edzilla: (restrains Susan) GIANT WOMAN CALM DOWN! OR ED WILL SMASH!

Iron Boy flew up to her.

Iron Boy: Are you calm now?

Me: Susan!

I was not at exactly her height and we were looking at each other.

Ginormica: J.D. Knudson of Team Loud Phoenix Storm!

Me: That's right Susan. You have to calm down and we can talk this over.

Susan calmed down.

Me: Susan, I know all about what happened to you. Your wedding day turned into a nightmare from hell huh? Because you grew to this size.

Susan: That's right. I was supposed to get married. But I ended up turning into a giant.

Me: That really must be awful for you. But I can help you out. I can give you the power to change your height into anything at will. I can give you the power to grow and shrink at will.

Susan: You can do that?

Me: I sure can. And Giganta has renounced her criminal ways. She is no longer part of the Legion of Doom.

Giganta: That's right Susan. I am no longer affiliated with the Legion of Doom and now I'm on the road to redemption.

Me: Yep. We can help you Susan.

Susan: Okay.

I snapped my fingers and Susan began shrinking. She was back to her normal height and she had her brown hair back

I gave her a robe and she put it on and her wedding dress fell off.

Susan: Sorry.

Me: It's all right Susan. I'm sorry your wedding was ruined because of this.

Susan: It's all right J.D. But thank you so much.

Me: Leni can make you elastic clothes that will fit you at any size.

Susan: I would like that.

Ben: Good.

Nico: Lets go home.

Ben: Glad we could end this without anyone dying!

Me: Yep.

We went back to the estate and we got Susan some brand new clothes. We made her a black and orange short-sleeve unisuit that will grow and shrink with her size alteration. Some awesome new tennis shoes that grow and shrink too. We also made her an awesome sleeveless Trench Coat that had atomic particles on it and the kanji for Growing Fist of Righteous Justice on the back. 正義の拳の成長

Susan: Wow! I look amazing! Thanks Leni.

Leni: You're totes welcome Susan. It's the latest fashion trend at Team Loud Phoenix Storm.

Me: Yep. But I'm so sorry all that happened to you Susan.

Susan: It's all right J.D. To tell you the truth, I don't mind being giant. I can do things no one else can't.

Me: Well you got to be careful at that size though. The Bigger They Are, The Harder They Fall.

Susan: Yeah I know that saying. But thank you for helping me J.D.

Me: No problem Susan. We'll have your friends come over to help out when we get our next mission.

Susan: Okay.

We went down to the living room and we were watching TV.

However two long friends of the Power Rangers were getting ready to reunite with them.

Tanya (Zeo): This is gonna be awesome seeing the guys again.

Kat: (Australian Accent) You said it Tanya.

They transformed and a blinding flash of Light was seen as the screen went black.

THE END

Another Fanfiction Complete and Part 10 of the 13 Days of Horror complete.

I based this chapter off the famous movie from 1958 and made it with a Monsters VS Aliens twist. Attack of The 50 Foot Woman was an awesome movie from my dads past and it was scary how that woman became so tall! Monsters VS Aliens was awesome! Never saw it but it sure looks funny! NicoChan11 gave me the ideas for this one. Thanks man. Part 11 is Scooby Doo Return to Zombie Island and I chose September 13th for it because it's the first full moon of the Month. The Harvest Moon. Let me know what you all think.

See you all next time.

# Curse of Moonscar Island

In the middle of the city we were over at the Kwik-E-Mart.

Apu: (India Accent) Hello, J.D. and friends. Welcome to the Kwik E Mart!

Me: Hello Apu. How are you liking Gotham Royal York and not a dump like Springfield?

Apu: It's wonderful. Me and Manjula and our 8 children are really happy now.

Sideshow Bob: It's good to be here again and not get arrested.

Apu: Thank you Bob.

Maria: Horsea, do you want anything at the Kwik E Mart?

Horsea: Some ice cream if they have it.

Qin: What happened to Springfield? Is it Springfield, Illinois?

Me: No. It's Springfield, Oregon. That town was the worst ever. It was a total dump and the crime rate was off the charts. It was essentially a one horse town. They didn't call it "The Meanest Town in America" for nothing. They also called it "The Armpit of America's Buttcrack."

Qin: (Laughs) That is so funny!

Me: It was humorous yes.

I went over the history of Springfield and it's locations and citizens.

---

Springfield was founded in 1796 by a group led by Jebediah Springfield (in reality a cover identity for notorious pirate Hans Sprungfeld) who, after misinterpreting a passage in the Bible, left

Maryland (which may be a small clue as to depict Springfield's location; not in Maryland) trying to find "New Sodom." After he refused to found a town where men were free to marry their cousins, half of the group left. The dissenters founded the nearby town of Shelbyville, after fellow pioneer Shelbyville Manhattan, and the two cities remain rivals after centuries. Springfield reached its pinnacle in the mid-20th century, when it became the home of the world's first Aquacar factory; one half of the U.S. was said to wear Springfield galoshes and Springfield's streets were basically paved with gold. The town's prosperity faded; a Time cover story on Springfield was titled "America's Worst City", and Newsweek called the town "America's Crud Bucket".

Springfield's geography is varied, including forests, meadows, mountain ranges, a desert, a gorge, a glacier, beaches, badlands, canyons, swamps, a harbor, waterholes, and waterways; a very varied city indeed. Major named geographical features include Springfield Gorge, Springfield National Forest, the volcanic Mt. Springfield, the West Springfield Desert ("three times the size of Texas!"), the Springfield Badlands (also known as the Alkali Flats), the gigantic Murderhorn Mountain, Springfield Glacier, Mt. Useful National Park, Springfield Mesa, Springfield Monument Park, and Springfield National Park.

The town's climate is usually dry and sunny, with a bright blue sky. However, it has been subject to many natural disasters, including heat waves, blizzards, avalanches, earthquakes, acid rain, floods, hurricanes, lightning strikes, tornadoes, and volcanic eruptions.

Springfield's environment is unusually polluted. Overflowing garbage forced the whole town - both population and structures - to move five miles (8 km) away from the massive dump that the old town of Springfield had become. Springfield is also, unfortunately, home to the state's largest self-sustaining tire fire, which has been burning continuously for many decades. Lake Springfield's pollution almost led to the town's destruction by an Environmental Protection Agency bomb, and pollution from the nuclear power plant has mutated the fish in the river, with the Nuclear Power Plant's mascot being Blinky, with three eyes. Its atmosphere is so polluted that it reduced a comet to a tiny rock the size of a chihuahua's head.

In politics, the mayor of Springfield is Joe Quimby, while the town's representative in Congress is Herschel "Krusty the Clown" Krustofsky (R) of the 24th congressional district. In "Sideshow Bob Roberts", Sideshow Bob (R) ran for Mayor of Springfield and defeated Mayor Quimby, but was later discovered to have committed pure electoral fraud. Previous representatives include Horace Wilcox, who died of a heart attack while in office, and Bob Arnold, who is forced to resign after Lisa exposes his corruption. Mary Bailey (D) is the governor of Springfield's state. Political corruption and police bribery are common in this corrupt, pathetic town. The town is infamous for its corruption. Mayor Quimby: a sleazy, womanizing politician is known for his stupidity. During the MENSA tenure, Mayor Quimby is confronted by Lisa Simpson after a group of drunks steal their Gazebo for a Shakespeare play. Thinking he is exposed for his corruption, he flees for a while and the MENSA chapter runs Springfield. Other corrupt parties include the Police Force (Specifically Chief Wiggum)

Religious houses of worship include Congregation Beth Springfield, the First Church of Springfield, First AME Church, the Cathedral of the Downtown, and a Buddhist vihara.

KBBL Broadcasting Inc. is the major media outlet, owning at least three radio stations and one television station. Channel 6 of KBBL, the most watched channel by far, airs The Krusty the Clown Show and Kent Brockman's nightly news broadcast. The Springfield Shopper is a town newspaper, although it mainly prints tabloid-like newspapers and thus, in the episode "Three Gays of the Condo", it is stated that the headlines are "all a joke" and that most other people read the New York Times. However, the New York Times has never been mentioned since.

The town is divided into many neighborhoods, including Rats Nest, Bum Town, Chinatown, Crackton, East Springfield, Greek Town, Russian Town, Junkyville, Little Bangkok, Little Ethiopia, Little Italy, Little Newark, Little Stockholm, Little Seattle, Little Ukraine, Ethnictown, the Jewish Lower East Side, Kelly Terrace, Pressboard Estates, Recluse Ranch Estates, Skid Row, Springfield Harbor, Springfield Heights, Hyperion Drive, Springshire, Tibet Town, Waverly Hills, the borough of Sprooklyn, the Lincoln Park Village

Housing Project, the Flammable District, a gay district and a fast-food district.

Springfield boasts an opera house, an outdoor amphitheater, an arboretum, and a vibrant jazz scene, and was previously regarded as the entertainment capital of its state.

For transportation, Springfield has an international airport, is served by a railroad, and has both an abandoned subway system, a public transit system, and an unsuccessful monorail line, as well as an escalator to nowhere.

The town is home to the Springfield Isotopes, an AA minor league baseball team which plays its home games at Duff Stadium; the Springfield Atoms football team at Springfield Stadium; the NBA's Springfield Excitement (formerly the Austin Celtics); and the Springfield Ice-O-Topes hockey team at the Springfield Arena.

## Springfield Nuclear Power Plant

The Springfield Nuclear Power Plant is a nuclear power plant in Springfield owned by Charles Montgomery Burns. Opened in 1974, the plant is the key supplier of the city of Springfield's energy supply, and the carelessness of Mr. Burns and the plant's employees (like Homer, who is employed at Sector 7G) often endangers the residents and natural environment of Springfield. At the core of the plant are two Fissionator 1952 Slow-Fission Reactors, operating in spite of more than 342 safety violations with an estimated repair bill to bring the plant up to code being in excess of $56 million. Among the more alarming safety violations are emergency exits that are just painted on the wall, cracks in the cooling towers held together by tape, massive amounts of poorly stored toxic waste and dangerously unqualified personnel (mainly Simpson), some of which are not even human, such as a chicken that briefly substituted for Homer, and a duck that was used to pull a cart of toxic waste around. A running gag in earlier seasons was the poor security of the plant, with the outside security booth often going unmanned, but this has changed in recent episodes, with the entrance to the plant being heavily guarded. The plant has come close to a meltdown several times and has blown up at least once.

There is a crow or raven that lives near the Power Plant that caws whenever an establishing shot of the Power Plant is on screen. Mutated fish with more than two eyes have been seen in the lake behind the power plant, which has a large pipe pumping nuclear waste into it. According to Mr. Burns, the plant is endowed with flippered mutants. In the Season 25 episode "Homerland", he comments that the air conditioning system has never worked properly.

In one episode, Mr. Burns mentions that he owns the electric company as part of his power monopoly.

The design and folly of Springfield Nuclear Power Plant is often rumored to be based on the troubled Trojan Nuclear Power Plant (closed in 1993 due to defects) near Matt Groening's home town of Portland, Oregon, or the Hanford Site in southeastern Washington. However, Antonia Coffman, Groening's publicist, has said that the Springfield plant's design is generic and that "the Springfield Nuclear Power plant was not based on the Trojan Plant or any other power plant in the country."

Waylon Smithers is Burns' executive assistant and lackey, as Burns calls him. Among the plant's employees are Homer Simpson, Lenny Leonard, and Carl Carlson. The plant offers yearly visits from the Springfield Elementary School.

## Kwik-E-Mart

Kwik-E-Mart is a convenience store located in Springfield and run by Apu Nahasapeemapetilon. The Kwik-E-Mart first appeared in the first-season episode "The Telltale Head" (although mentioned in "Bart the General" as the "Quick-e-Mart"). In "Stark Raving Dad", a street sign reading "Highland" is seen outside one of the front windows, in the same blue color as is used for signs for Highland Avenue in Los Angeles. Likewise, three buildings are visible that are similar to some of those that might be seen on that street: two low buildings with bars over the windows, and a third, also with barred windows, which has a mission-style roof and a sign reading "Smog Center."

The episode "Homer and Apu" suggests that Apu is an employee of the Kwik-E-Mart and after losing his job there had to travel to India, where the Kwik-E-Mart head office is located, in the Himalayas. However, Apu mentions at a bachelor auction that he runs his own business in "The Two Mrs. Nahasapeemapetilons".

In addition to the sale of food, alcoholic beverages, cigarettes, and other items offered at a typical convenience store, gasoline pumps have been shown in front on two occasions. The Springfield Shopper also sells well there and it is where Principal Seymour Skinner purchases his tabloids. In the episode "Sweet Seymour Skinner's Baadasssss Song", Apu has just installed 16 new gas pumps to compete with rival convenience store, the Gas 'N Gulp. However, they, along with the Kwik-E-Mart, are destroyed due to Bart accidentally interrupting a live mortar exercise at Fort Springfield when visiting the re-enlisted Skinner, forcing the soldiers to redirect the mortar fire into the town, destroying the store and pumps off screen. The episode "Scenes from the Class Struggle in Springfield" also shows the pumps where Apu refuses to go out and serve a customer on the forecourt.

In July 2007, convenience store chain 7-Eleven converted 11 of its stores in the United States and one in Canada into Kwik-E-Marts to promote the release of The Simpsons Movie. The locations of the renovated Kwik-E-Marts were: Bladensburg, Maryland/Washington, D.C.; Burbank, California; Chicago; Dallas; Denver; Henderson/Las Vegas; Los Angeles; Mountain View/San Francisco; New York City; Orlando/Lake Buena Vista, Florida; Seattle; and Vancouver/Coquitlam, British Columbia, Canada. These 12 locations, as well as the majority of other North American 7-Elevens, sold products found in The Simpsons, such as "Buzz Cola", "Krusty-O's", "Squishees", pink frosted "Sprinklicious doughnuts", and other Simpsons-themed merchandise. The Squishees were Slurpees that are sold in special collector cups and the Krusty-O's were made by Malt-O-Meal. The promotion resulted in a 30% increase in profits for the changed 7-Eleven stores. This can be seen during the opening of The Simpsons Movie.

### The Android's Dungeon & Baseball Card Shop

The Android's Dungeon is a comic book store owned by Jeff Albertson a.k.a. the well known Comic Book Guy. The comic book store and its owner first appeared in the episode "Three Men and a Comic Book", when Bart sees a copy of the first issue of the Radioactive Man comic on sale for $100.

In the episode titled "Worst Episode Ever" (which is a remark often used by Comic Book Guy), Bart and Milhouse are given the job of running the comic book store after Comic Book Guy suffers from a stress-induced heart attack and is instructed to try and gain a social life. During their brief tenure at the store, Bart and Milhouse discover a secret room filled with bootleg videotapes of various extremely rare or illegal subjects, such as a taping of Mr. Rogers on a drunken bender and several interrogation tapes from the Springfield Police. These tapes are later confiscated during a police raid on the store. It was damaged in The Simpsons Movie, like most of the rest of the town, with Comic Book Guy living out of the ruins, considering that all-in-all, his life collecting comics had been "well spent".

Comics sold there are well-loved by Bart and Milhouse's Radioactive Man, Manboy, Radiation Dude, Batboy, Mr. Hop, Batchick, Mr. Smarty Pants, Birdguy, Nick, Cat Girl, Power Person, Dog Kid, Iguana Girl, Snake Kid, Lava Lady, Star Dog, The Human Bee, Mister Amazing and Tree Man, as well as real-life comics such as The Amazing Spider-Man and Fantastic Four.

## Barney's Bowl-A-Rama

Barney's Bowl-A-Rama is the bowling alley in Springfield. It is owned by Barney Gumble's Uncle Al. The very first known appearance is the episode "Life on the Fast Lane" where Homer forgets Marge's birthday and after rushing out to purchase a gift, he ends up buying a bowling ball. Marge is insulted at the fact her gift from Homer was something obviously intended for his own personal use given the fact the ball had Homer's name engraved on it. Marge decides she will keep the gift for her own use and goes bowling for the first time. This is seen destroyed in The Simpsons Movie.

In the episode "And Maggie Makes Three", Homer tells the family the story of Maggie's birth. In this story, Homer explains how he quit his job at Springfield Nuclear Power Plant to work at the Bowl-A-Rama, which was Homer's dream job. This episode reveals where the bowling pins go after they are knocked over; the pins are shown ending up in a heap and new pins are manufactured instantly by a Rube Goldberg device to replace those knocked over, in a massively wasteful process that only produces one pin out of a single tree.

The Bowl-A-Rama is used in the episode "Homer vs. the Eighteenth Amendment" as a way of smuggling beer into Moe's Tavern. In this episode, alcohol is banned in Springfield and Homer begins bootlegging beer he uncovered from the city dump. The beer is poured into bowling balls and Homer then bowls the ball into the gutter at the Bowl-A-Rama; the ball then falls into a pipe leading to Moe's Tavern where Moe charges an outrageous price.

"Hurricane Neddy" has the bowling alley briefly relocate to a precarious teetering position on top of a nearby train tunnel after a hurricane blows through Springfield and tears the alley off its foundation.

There are seven known bowling teams, from The Pin Pals (Homer, Moe, Apu, and Otto/Mr. Burns), to the Holy Rollers (the Flanders, and Reverend Lovejoy and his wife).

## Costington's

Costington's is a high-end department store located in Downtown Springfield. Costington's is a parody of Macy's, an American department store. Their slogan is "Over A Century Without A Slogan". Costington's sponsors the annual Thanksgiving Day Parade (an identical move to Macy's) and holds a "Love Day" celebration. Owned by Mr. Costington, the store has employed many Springfieldians, including Homer (as their parade Santa and as a mattress salesman), Gil and The Yes Guy. Lenny and Carl once crashed into Costington's, which sparked a city riot. It was first seen in the episode "Trash of The Titans".

## KBBL Broadcasting

KBBL Broadcasting is a media company which runs all KBBL TV and radio stations, which is used to parody the media. Its most notable television personalities are news anchor Kent Brockman, children's entertainer veteran Krusty The Clown and Hispanic comedian Bumblebee Man. Their radio channel hosts are DJ's Bill and Marty.

The station jingle is "No sports, no rock, no information! For mindless chatter, we're your station!"

## King Toot's

King Toot's is a music store located next door to Moe's Tavern. The store sells musical instruments and is the place where Lisa's saxophone was purchased. The most notable appearance of King Toot's Music Store was in "Lisa's Pony" where Lisa asks Homer to pick up a new reed for her saxophone for her recital. Homer heads to the store after work and realizes Moe's is next door; since the store wasn't to close for 5 minutes, Homer decides to have a quick beer first. Homer finishes his beer with 15 seconds to spare only to find the store owner has closed early. Homer goes back to Moe's fortunately to find the owner of the store and after much convincing from Homer and Moe the owner opens up to sell Homer a reed. Unfortunately, Homer is too late for Lisa's recital. Another appearance was in "Lisa's Sax" where after Lisa's saxophone was run over by a truck, as a result of a fight between Bart and Lisa, Homer tells the story of how Lisa first got her sax. King Toot's is seen briefly during the opening of The Simpsons Movie and later while the dome is being put over Springfield. In "Covercraft" King Toot is revealed to be a sleazy, overweight middle-aged man with a mustache who torments Moe by dumping all of his junk into Moe's alley dumpster without paying him, and ends up having a huge fight with Moe that ends with them both getting arrested and the music store being closed for repairs.

## The Leftorium

The Leftorium was a store in the Springfield Mall that specialized in products for left-handed people. The store was owned by Ned Flanders, who first started The Leftorium in the season 3 episode "When Flanders Failed".[45] At first, business at the store was going very poorly. Irritated with Flanders, Homer wished that the store would go out of business after Homer received the larger half of a wishbone. Homer got his wish and the Flanders family were forced to sell many of their possessions, much of which Homer purchased at a meager price of $75. The bank repossessed the Flanders' home and the Leftorium was to be the next asset repossessed. Homer then regretted making this wish and the fact that he never told any of his friends who were in need of left-handed items about the Leftorium. As a result, he managed to get everyone he knew in town to shop at Ned's store, saving it from closure.

The Leftorium continued to thrive over the following years. However, Flanders mentioned in several episodes that the store does not do that well, such as in the season 10 episode "Thirty Minutes over Tokyo", where Ned mentions that he purchased most of his possessions cheaply, and that the business moved way downhill since "Leftopolis" moved in next door to it. In the episode "Home Away from Homer", Ned mentions that a recently opened, left-hand megastore, called "Left-Mart" (a parody of Wal-Mart) is threatening his business. The season 25 episode "White Christmas Blues" reveals that competition from the Southpaw Superstore forced Flanders to downsize the business to a mall cart, the "Leftorium Express", which he splits with a cosmetic saleswoman. In the season 29 episode "Left Behind", the Leftorium closes for good, leaving Flanders unemployed until he finds a new job as Bart Simpson's new teacher, substituting the void left by his deceased second wife Edna Krabappel.

The writers had wanted to have Flanders own a failing business and the idea for the store was suggested by George Meyer. He got the idea from a friend whose family had owned a left-handed specialty store which had failed.

Matt Groening himself is left-handed, and once remarked that 1 in 3 Springfieldians were left-handed.

## Noiseland Video Arcade

Noiseland Video Arcade is the video arcade in downtown Springfield, a popular place for the youth. Arcade games include Escape from Grandma's House (versions I-III), Kevin Costner's Water World and Larry the Looter. The video arcade has had several appearances in The Simpsons, although mostly in the earlier seasons. The earliest known appearance was in "Moaning Lisa" where Bart challenges Homer to a boxing game on their home TV game system. As Bart is continuously undefeated, Homer decides to fight back by going to the video arcade to learn from the young children how to win in the same boxing game. Homer almost beats Bart but Marge switches off the game at the crucial moment. It was seen destroyed briefly in The Simpsons Movie.

## Sprawl-Mart

Sprawl-Mart is a big department store in Springfield and a parody of Wal-Mart. It is first seen in "The Fat and the Furriest". While the entire Simpson family has shopped there, and Homer and Abe worked there, it is a terrible place to work, perhaps worse than the Power Plant, with low pay, 24 hours a day shifts, no bathroom breaks, and fake passports given to American citizens to get arrested, if ever caught escaping. They also implant microchips in the workers during the company physicals that give them electroshocks if they try to leave. Even though most of the workers have already managed to remove their chips, they stay anyway, since they use the lack of management during nightshifts to steal from the store.

## Springfield Mall

The Springfield Mall is a shopping mall in Springfield. It features stores such as Happy Market, Cost-Mo, and smaller stores such as Girdles N' Such, Eye Caramba, The Ear Piercery, Happy Sailor Tattoo Parlor, Love Your Computer, Gum4Less, Popular Books, The Leftorium, Nick's Bowling Shop, Stoner's Pot Palace, Bookacchino's, Moe's Express (a mini version of Moe's Tavern), a Mapple Store (a parody of the Apple Store), numerous Starbucks coffee shops, several Krusty Burgers, and many others

## Try-N-Save

In the episode "Marge Be Not Proud", Bart is caught shoplifting in a Try-N-Save. Despite being told by Try-N-Save security Don Brodka to never return to the store because of shoplifting, Bart is forced to go back with his family for a photo portrait session. Seen by security again, Bart's crime is revealed, and his relationship with Marge is threatened. The store also appears in the "Kamp Krusty" episode. In "The Good, the Sad and the Drugly", the Try-N-Save brand comes up when Seymour Skinner leads Superintendent Chalmers to believe that his shoes are genuine Hush Puppies when they are Try-N-Save Shush Mutts.

## Jake's Unisex Hairplace

Jake's Unisex Hairplace is a salon/barber in Springfield. As the name implies, it serves both men and women. In the Simpsons app, it is called Jake's Unisex Hair Palace. It is one of the oldest location shown in the series, as it originally appeared in the Tracy Ullman short "Bart's Haircut" (where it was called Snipper Cuts). It is owned and operated by Jake the Barber.

## Mapple Store

Season 20 Episode 7 "MyPods and Boomsticks" A spoof of an Apple store, where Lisa almost bought a MyPod.

## Shøp

An IKEA parody, Shøp sells assorted furniture with unique and unusual designs. Their mascot appears to be an anthropomorphic hex key named Allen Wrench, but rather than being a costume is in fact an alien being who needs tungsten to live. Cutlery in the canteen is self-made from Lego, allowing Homer to create a multi-pronged fork.

## Coolsville Comics and Toys

Coolsville only appeared once, on the Season 19 episode 7 episode of "Husbands and Knives". Milo owns the store, which is right across the street from The Android's Dungeon. Unlike Comic Book Guy, Milo treats the kids like royalty and lets them read comics at leisure, rather than hoarding them until the time is ripe. He also started an autograph signing with three famous writers. Comic Book Guy goes out of business in the episode, but somehow jumps back in the next.

## Herman's Military Antiques

Formerly Pet Shop, Herman's sells all sorts of war memorabilia, from muskets to a Confederate flag.

## I Can't Believe It's A Law Firm!

Also known as "Lionel Hutz also Expert Shoe Repair" or "The Law Offices of Lionel Hutz", it is located near the Springfield mall. It is a law firm visited by the Simpsons on multiple occasions, including when Bart was hit by a car. Hutz usually has an incentive for visiting, such as smoking monkeys. His number is 5-LAWW, or 5-5299.

## Phineas Q. Butterfat's 5600 Flavors Ice Cream Parlor

The ice cream parlor actually owns several locations, but most of them are in the Springfield Mall. They serve, indeed, 5600 flavors, with their premier item being "The Ark", a gigantic sundae featuring all the store's flavors, 26 sauces, toppings and nuts. In "You Kent Always Say What You Want", Homer purchased the 1,000,000th ice-cream cone (though briefly lost the prize because he could not decide between a cup or a cone), and won a special interview with Kent Brockman.

## Hairy Shearers

A barbershop; pun on the name of the actor Harry Shearer. It is frequented by Marge Simpson whose massive hairdo requires significant effort to maintain. In "Hungry, Hungry Homer", they refused to honor her coupon for discount hair streaks, as their thin profit margins would ruin them, but Homer (in an unusual exhibition of helpfulness) assisted the owner with finding ways of decreasing their spending, and they honored the coupon in return. The shop reappears in "The Blue and The Gray", where it is revealed that Marge's hair has been grey for decades, but the industrial-strength coloring they use keeps wiping out her memory.

## 1987 Calendars!

1987 Calendars! is a calendar store in the Springfield Mall that sells calendars from 1987.

## The Gilded Truffle

The Gilded Truffle is an elegant, upscale restaurant in Springfield. The restaurant once employed Groundskeeper Willie until he quit and returned to his old job at Springfield Elementary. The restaurant serves French cuisine. It first appeared in the episode "Bart The Lover". The store is "worldwide-famous" for their truffles.

Moe's Tavern

Moe's Bar in Concepcion, Chile, closely based on images from The Simpsons.

Moe's Tavern (called Moe's Bar in The Simpsons Movie) is a local bar in Springfield frequented by Homer Simpson, Carl Carlson, Lenny Leonard and Barney Gumble. The tavern is named after and run by Moe Szyslak. Moe's Tavern first appeared in the episode "Simpsons Roasting on an Open Fire". In the first season of The Simpsons, the entrance appeared to be a saloon door. The bar sells mostly Duff Beer although other beverages are served. In the episode "Flaming Moe's", Moe's beer payments were delinquent so his beer distributor stopped delivering to him. When Homer shows Moe a drink he developed called the Flaming Homer, Moe sells it as his own, calling it the Flaming Moe. The drink becomes extremely popular until Homer reveals its secret ingredient, allowing other businesses to create a similar product. The drink's popularity wanes significantly. A recurring gag is the dirty and dilapidated state of the bar. In "Mommie Beerest", it is revealed that Moe was long able to avoid several enormous health code violations (among other things, the corkscrew has a severed human ear on it, and there's a toilet on the roof) due to being friends with the health inspector. Another episode reveals that the bar's liquor license is expired, is only valid in Rhode Island and is just signed by Moe himself. The bar is also infested with rats, a large number of whom moved to the bar after the destruction of a derelict factory as seen in "Homer's Enemy". The tavern had to be briefly shut down as shown in "Who Shot Mr. Burns?", due to toxic fumes runover from Mr. Burns' oil rig nearby.

Moe's Tavern undergoes several makeovers in various episodes of The Simpsons, but it always reverts to its original dark, squalid state before the show's end. In the episode "Homer's Barbershop Quartet" Moe's Tavern is named Moe's Cavern as a reference to the world-famous Cavern Club in Liverpool, where The Beatles played. Other notable makeovers are in the episode "Bart Sells His Soul" where Moe turns his tavern into a family restaurant called Uncle Moe's

Family Feed Bag and in "Homer the Moe" where Moe turns his tavern into a yuppie bar called "m". Also in this episode, it is revealed that the television in Moe's is not black and white (as it is always seen) but a dirty color television (Homer says "When was the last time Moe cleaned this thing?" then wipes the screen with a cloth). In addition, it is turned into an English pub named Nag and Weasel in the episode "Mommie Beerest". In "My Sister, My Sitter", Moe appears to have become Moe's Brewing Co., a brewpub that is moved to a posh new premises at the Springfield Squidport, but it is revealed to just be a very long tunnel to the existing bar. In "Flaming Moe", he enlists the help of Waylon Smithers to transform the bar into a gay bar called Mo's, although he changes it back again at the end of the episode. In "Three Gays of the Condo", it is revealed that when it first opened, it was originally called "Meaux's Tavern". In The Simpsons Movie it is located next to the church and named Moe's Bar, and in The Simpsons Game it is seen next to the Sleep-Eazy Motel. In the episode "Homer the Smithers", Mr. Burns believes in order to operate a telephone, you spell the requested person's name out using the alphabetic keypad (he spells out S-M-I-T-H-E-R-S), he is instead connected to Moe's Tavern. As a result, if one was to spell Smithers name out on a telephone keypad, the fictional phone number minus the area code for the tavern would be revealed as 764-8437(7). Moe and his tavern had been the victim of Bart's ongoing prank calls in the earlier seasons when Bart would call looking for nonexistent people with names that would get Moe laughed at by his customers. Though there was one name that backfired on Bart when he asked for Hugh Jass, who had been sitting in the tavern. In more recent episodes it was revealed that Bart still torments Moe with prank calls, although the calls themselves haven't been shown onscreen.

Universal Studios Florida, includes a Moe's Tavern in the Springfield section of the park.

Krusty Burger

Krusty Burger is a fast food restaurant chain owned by Krusty the Clown as one of his many branded products and services. Krusty Burger is seen as a parody of a typical fast food chain such as McDonald's, Burger King, KFC, Carl's Jr., Wendy's, or Arby's. A typical store features a drive-thru with a speaker box and most of the employees are young teenage workers. In the episode "22 Short Films About Springfield", the Springfield police are comparing the differences between Krusty Burger and McDonald's, a parallel of the "Royale With Cheese discussion" seen in Pulp Fiction.

It appears that Krusty Burger is located across the entire United States; in the episode "Boy-Scoutz 'n the Hood", Homer loses the map of the rafting route but tells the group that luckily he has brought a map along. It happens to be a map of the entire United States with locations of Krusty Burger restaurants. There is even a Krusty Burger located on an unmanned offshore oil rig; Homer, Bart, Ned Flanders, and Rod Flanders find it after being lost at sea for several days and reaching the verge of starvation, and place a huge order of food that saves it from going out of business. There is also a Krusty Burger in France, as seen in the episode "The Devil Wears Nada". It exists under the name "Le Krusty Burger". In the episode "I'm Spelling as Fast as I Can" it was also revealed that Krusty Burger operates in different markets across the US when Krusty Burger has a new burger called the Ribwich. After the Ribwich stopped selling in Springfield, Homer and a group of Ribwich fans known as the "Ribheads" followed the "Ribwich tour" as the Ribwich was tested in various markets. The Ribwich sandwich is based on a real life McDonald's sandwich called the McRib.

According to the episode "The Mook, the Chef, the Wife and Her Homer", Krusty Burger is one of the only burger places open in Springfield because Krusty has been paying mobster Fat Tony to keep McDonald's and Burger King from establishing local locations. The extent of Fat Tony's involvement is unknown, as there are no locations of Wendy's, and other major chains. However, Springfield does have an In-N-Out Burger location in town to compete with Krusty Burger.

A common gag, especially in the later seasons of the show, is the extremely low quality of the food served at the restaurants, a parody of common beliefs and urban legends surrounding American fast food. Documentary filmmaker Decland Desmond has made several exposes on the chain, revealing practices such as stapling together half-eaten burgers and serving them to new customers, and substituting all manner of cheap filler as meat. Krusty also reveals that the Ribwich was made of an unspecified animal with more than four legs, presumably some sort of insect or spider, that was driven into extinction by its production.

Universal Studios Florida, includes a Krusty Burger in the Springfield section of the park.

## Lard Lad Donuts

Lard Lad Donuts is a donut store in Springfield. Its mascot is an (estimated) 8-metre (26 ft) tall statue of a rather chubby boy proudly holding a donut over his head. The name and the statue of the eponymous boy are likely references to Big Boy Restaurants.

In The Simpsons Game, the Lard Lad mascot is a boss. Lard Lad Donuts is shut down by a health inspector in The Simpsons Movie, and the Lard Lad is painted in different colors and seen later in the movie during the dome sequence. The former was disproved in "E Pluribus Wiggum" when an explosion violently detaches the correctly colored Lard Lad's head. In "Sweets And Sour Marge" it is revealed to contain the entrance to a secret passage, which leads to an underground bunker where the pro-sugar enclave of Springfield meet. In "Treehouse of Horror VI", the Lard Lad statue is the first advertising mascot brought to life by a mysterious atmospheric disturbance, enraged by Homer Simpson having stolen his giant donut, and ends up leading the various mascot statues of Springfields "miracle mile" business district on a destructive rampage.

Universal Studios Florida, includes a Lard Lad Donuts in the Springfield section of the park.

## Luigi's

Luigi's is a Springfield Italian restaurant owned by Luigi Risotto, who is a parody of the "Italian pasta/pizza chef" stereotype but seems to be aware of his status as a stock character. Luigi is polite to his customers and treats them with respect when they order and then loudly insults and belittles them to his cook Salvatore, fully aware that they can hear him from the kitchen. The restaurant also employs an old Italian saucier, who in Take My Life, Please, claims they can tell what someone's life could have been like by stirring tomato sauce in a certain way. By using his magical tomato sauce, the saucier helps Homer see what his life would have been like if he had won his high-school election. Fat Tony and his mob frequently use the restaurant for their meetings.

Luigi takes customer service very seriously.

Universal Studios Florida, includes a Luigi's in the Springfield section of the park.

## The Frying Dutchman

The Frying Dutchman is a maritime-themed restaurant operated by Sea Captain Horatio MacAllister. Its cuisine specializes in seafood (to which Marge is allergic), and even the bread has fish in it. Homer sued for their refusal to honor the 'all you can eat' promise in the episode "New Kid on the Block" and was given a job as a freak attraction "more stomach than man" (to Marge's great embarrassment).

Universal Studios Florida, includes a Frying Dutchman in the Springfield section of the park.

## The Singing Sirloin

The Singing Sirloin is a restaurant where all the waiters sing everything they say. It is first featured in the Season 1 episode "Life on the Fast Lane"; Marge celebrates her birthday there. Bart also celebrated here after getting an A, however after Homer was unable to pay them for the food, they had to sing on stage to pay for the bill (in the episode "Homer vs. Dignity").

## The Happy Sumo

The Happy Sumo is a Japanese restaurant. Among the restaurant's menu offerings are all kinds of sushi, including fugu, which can be fatally poisonous if not properly prepared. The Master Sushi Chef is the only person at the restaurant qualified to prepare fugu. The restaurant also offers karaoke. Akira works as a waiter and translates on occasion for the Simpson family.

## The Java Server

The Java Server is an internet cafe and coffee shop, originally appearing in "Thirty Minutes Over Tokyo". On its opening day, it was the site of a robbery by Snake Jailbird, who used uncharacteristic tech savvy to rob the Simpsons' online bank account.

## Pimento Grove

The Pimento Grove is an Italian restaurant in the style of "Olive Garden". It is shown to be fairly upscale and features photos of celebrities on its walls.

## Springfield Elementary School

Springfield Elementary School is a local school on The Simpsons, attended by Bart Simpson, Lisa Simpson and other Springfield children. Springfield Elementary is a grossly underfunded school and suffers from the incompetence and apathy of its administration, teachers, staff and students. It is portrayed within the show as a satire of publicly funded schools and education in the United States. As an illustrative example and parody of the lengths undertaken by some schools to attempt to overcome underfunding, some Springfield Elementary School students (specifically Cletus and Brandine Spuckler's children) are purposely excluded from state or federal standardized testing regimens. The impetus being the maintenance of artificial school-wide averages and therefore basic levels of government support-a practice not unheard of in the United States and other systems where funding is tied to test results.

Established in the episodes "Separate Vocations" and "Pokey Mom", the school's mascot is a puma. It is revealed in the episode "Lisa Gets an "A"" that Springfield Elementary was at one time voted "The Most Dilapidated School in Missouri"-it was then moved, brick-by-brick, to Springfield. It has been stated several times that the school is filled with asbestos, and the underfunding of the school has resulted in a variety of troubling scenarios for students and staff. Sub-standard facilities abound; including a cinder block having replaced the school's tetherball, cafeteria food made from circus animals and in several decades-old cans, shredded newspaper, and old gym mats, among others (only the teachers eat French fries made from potatoes), and "malk" having replaced milk. In one episode, prison inmates occupied the cloakrooms in the classrooms, in an effort to make extra money. In another episode, Lisa Simpson, who has been voted student president, is tricked into authorizing the cancellation of music, gym and art. The school later finds the funding for these extra curricular activities by cancelling flu shots. The school's poor funding is made worse by the town's refusal to accept any tax increases, no matter how minor, and even basic services are sometimes refused by the PTA, including a free service of refilling the fire extinguishers.

For a few episodes the school also had a tower with a winding staircase within which led to an observation area. This has since been removed. Other short period additions include a phony disabled ramp access system built by the local Mafia and other constructions. In one episode, the presentation hall is bulldozed to make way for a mini-mall. The school's address is 19 Plympton Street, revealed in the episode "Bart on the Road" when Principal Skinner receives an envelope addressed to the school containing his airline tickets to Hong Kong. In the episode "Team Homer", school uniforms are temporarily introduced following a riot brought on by Bart wearing a "Down With Homework" T-shirt to school. This policy was rescinded after the uniforms turned out not to be waterproof and washed out into psychedelic colors when it rained.

Most students travel to school by bus, usually driven by Otto Mann. However, in "The Otto Show", Otto is suspended from his job (due to not actually having a drivers license) and Principal Skinner temporarily takes over Otto's role. Additionally, in another episode, the students are forced to carpool when the school bus is wrecked after Otto falls asleep at the wheel and the bus crashes into the auto wrecking yard. In the episode "The Boy Who Knew Too Much", the regular school bus breaks down and a Springfield State Prison bus is used instead. The bus is sometimes shown to be in extremely poor condition, another indicator of the school's low funding.

In "Lisa the Vegetarian", it is shown that both Ms. Hoover and Lunchlady Doris have access to "Independent Thought Alarms" which are sent to Principal Skinner's office and are both triggered by Lisa. Also, in "Sweet Seymour Skinner's Baadasssss Song", Superintendent Chalmers fires Ned Flanders, who has become Principal after Skinner being sacked, only because he freely expresses his religious views in the school. Edna Krabappel was Bart Simpson's 4th grade teacher, and from Season 23 onwards also neighbor due to marrying to Ned Flanders until Season 25 established Krabappel's death. In "Left Behind", the Leftorium closes, leaving Flanders unemployed, and he returns to Springfield Elementary School, where he finds a new job as Bart Simpson's new teacher, substituting the void left by his deceased second wife Edna Krabappel.

Many of the school faculty seem very bored with their jobs and do not try to help students, leaving them to unfulfilling futures. They also take full advantage of any-and-all time off that they have. Several of the teachers and staff smoke and drink in the staff room and in front of their students. In one episode, the teachers are shown joyfully running out of the school building with the students at the end of the day and subsequently are then shown trooping back into school the following day. Otto Mann is shown to be a user of illegal drugs, and in the episode "Weekend At Burnsie's", Lisa notices a smell of marijuana and remarks that "it smells like the art teacher's office". The teachers like Miss Hoover do not seem to care whether or not the students achieve in their class, and seem to have given up on many of them.

In 1994, the naming of a new, real-life elementary school in Greenwood, South Carolina, was left up to the students, and the name Springfield Elementary was chosen. The school board was unaware of the connection to The Simpsons until a protest by one group of parents, who argued that the character of Bart Simpson was a poor role model. The name stood, and the school opened in August 1994. Bart Simpson weighed in on the controversy, in a statement from the Fox Network where he said "at least they didn't call it Beavis and Butt-head Elementary".

## West Springfield Elementary School

West Springfield Elementary School is an elementary school in Springfield. It is identical in layout to Springfield Elementary, as both were built from the same plans.

Lisa arrives at the school by mistake in the episode "Trilogy of Error", one of the differences being that French is taught at the school.

## Springfield Preparatory School

Springfield Preparatory School was a private school in Springfield. Greta Wolfcastle and other students attend there. The Simpsons attended an Annual Fair there in the episode "The Bart Wants What It Wants".

## Colleges/universities

Springfield University is a large college which Homer attended in "Homer Goes to College". It teaches several different courses, including nuclear physics, arts management, and the meaning of cartoons, and has a fierce rivalry with Springfield A&M University. In the episode "Faith Off", the nickname of the Springfield University football team is revealed to be the Nittany Tide-a reference to the Penn State Nittany Lions and Alabama Crimson Tide.

Springfield Agricultural and Mechanical (A&M) University is a rival institution of Springfield University, possibly a reference to the fierce rivalry between Texas A&M and the University of Texas. Carl Carlson is an A&M alumnus. Springfield A&M's mascot is a pig named Sir Oinks-A-Lot, who was kidnapped by Homer and his three student tutors as a prank in "Homer Goes to College".

Springfield Heights Institute of Technology (S.H.I.T.) focuses on the engineering sciences. Professor Frink is a college professor at the university, and it is where Apu Nahasapeemapetilon earned his doctorate from.

Springfield Community College is a community college.

## Springfield High School

Springfield High School is most often seen in flashbacks, notably in "The Way We Was" when Homer and Marge tell the story of how they met. Springfield High School is seen in the present day in "The

Front" when Marge and Homer have their high school reunion there. The Squeaky Voiced Teen has said that the school has an air hockey table. As well as being a school, they have hosted events there. One such event was a ballet performance, despite the fact there was a gas leak in the school.

## Krustylu Studios

Krustylu Studios is the television studio in Springfield in which the Krusty the Clown Show is recorded. It is located either on or in the vicinity of the Channel 6 studio lot. The lot is located across the street from a box factory. The name Krustylu is an homage to Desilu Productions, Lucille Ball and Desi Arnaz's production company, which produced the 1950s sitcom I Love Lucy. The first appearance was in the short "The Krusty The Clown Show".

## Sleep Eazy Motel

First seen in "The Cartridge Family", this is a run-down motel where everything is coin-operated, including the Bible. The building itself is deteriorating and prostitutes hang outside the lobby. When Marge and the kids stayed there, a body was seen floating in the pool. Selma claims that she woke up there once. Homer once stayed there to cheat on his diet behind Marge's back, though he was caught on camera by the producers of Sneakers. The name is a play on "sleazy motel", a fact highlighted by its malfunctioning neon sign.

## Springfield Retirement Castle

The Springfield Retirement Castle is Springfield's retirement home for the elderly. Some noted residents of the Castle include Abraham "Grampa" J. Simpson and his neighbors, Jasper Beardley, and the Crazy Old Man.

For Grampa Simpson, the Retirement Castle is a lonely place to be. He often gets mad when his family does not come and visit him. The door features a sign reading 'Thank you for not discussing the outside world'. The most interesting way to pass time at the home is to "stake yourself out a good spot at the staring window", which overlooks nothing but a barren tree, and bingo (the prize being a banana). The staff of the home have little to no respect for the residents, doing things like vacuuming their hair during "nap time", or switching their IV bags with their catheter bags when the former is empty and the latter is full. In the episode "Old Money," Grandpa inherits $106,000 from his girlfriend Beatrice "Bea" Simmons. He uses both this money and his winnings from a gambling junket to refurbish and redecorate the home and has the dining hall renamed in Bea's honor.

## The Springfield City Hall

The City Hall of Springfield serves as the workplace of Mayor Quimby and the City Government. Often it is the site of town meetings regarding an issue facing the city, where the citizens vote to approve a proposal that generally causes havoc (most of the time proposed by Homer) and causes more problems. The building is based on the Chelmsford, Massachusetts public library due to longtime The Simpsons background designer Lance Wilder, being a former Chelmsford resident.

## Springfield Courthouse

The courthouse is the center for all trials and cases in Springfield. Its judges include Judge Constance Harm, who is a tough and unforgiving judge who enjoys giving cruel punishments to criminals in her courtroom, and Judge Roy Snyder, who is known for his lenient punishments. Often the prosecutor is The Blue Haired Lawyer who also represents Mr. Burns and The Walt Disney Company and unlike Gil Gunderson or Lionel Hutz, he is a competent lawyer (but not always ethical).

## Five Corners

Five Corners is "the only geographic location in the US where five states meet". A boundary marker indicates the exact spot. While on their road trip to Itchy & Scratchy Land the Simpsons visit Five Corners, where they each "stand in five different states while holding hands". The location is visited again in "The Bob Next Door", where Sideshow Bob plots to kill Bart at the marker where the location's unique property would result in a lack of extraterritorial jurisdiction, explaining it as: "I can stand in one state, fire a gun in a second state, the bullet will travel through the third, hitting you in the fourth, so you fall dead in the fifth. No single act is against any law, but their sum total is the greatest murder…" In reality no such place exists in the US; the location is a spoof of Four Corners.

## Krustyland

Krustyland is The Simpsons version of Disneyland. It appeared in "The Food Wife" at the end where the Simpsons went out for a family fun day, which Homer promised Marge.

## Itchy & Scratchy Land

Itchy & Scratchy Land, is a themed amusement park owned by "Itchy and Scratchy International", marketed as the "violentest place on earth". It first appears in the eponymous episode in Season 6 as a direct response to the more stringent censorship laws put in place at the time and the Fox network trying to stop the writers from including Itchy & Scratchy cartoons in episodes as result. The theme park also features in "Mommie Beerest", "Bart's New Friend", "To Courier with Love" (mentioned) and "Dad Behavior". It is a parody of Disneyland, complete with a similar park layout and similar attractions, and the fact that its European counterpart ("Euro Itchy & Scratchy Land") fails to attract the expected number of customers. It being located on an Island as well as Professor Frink's prediction via Chaos Theory were both references to Jurassic Park. In addition, the robots going wild and being taken down by cameras was a reference to Westworld.

## Springfield Mystery Spot

A strange attraction in Springfield, referencing the Mystery Spot. It is quite popular. Its most likely location is somewhere around the Alkali Flats,

It was first mentioned by Lisa Simpson on the way to Discount Lion Safari in "Old Money". She claimed it was because of paint fumes and completely fake.

In "Homer at the Bat,"Ozzie Smith visits it and literally "vanishes off the face of the earth"

Discount Lion Safari

The Simpsons visit it on Beatrice Simmons' birthday in Old Money. It references Indiana Jones ("Mr Simpson, I presume?")

They get trapped in the car and attacked by a lion.

Qin: Springfield, Oregon sounds like a nice town from the looks of it.

Me: Yes but that was just a front. It's true colors were shown when there was a lot of corruption shown in the town.

Qin: Corruption? Like what?

Me: The worst kind you can think of.

I revealed everything on Springfield, Oregon's corruption and the reasons why everyone and everything in the town should be destroyed.

Qin gasped in horror.

Qin: That town WAS a dump!

Me: Yep. Springfield was a total cesspool of evil. We blew it up with a 250 megaton nuke and turned it into nothing more than a radioactive crater.

Qin: Good. I'm glad Springfield is gone.

Keith: Thanks to us Qin. J.D. and his friends arrived to deliver the final blow.

Me: We were on the final days of our Worldwide Adventure and I saw in a newspaper that Springfield, Oregon was under siege.

Nico: We weren't called Team Loud Phoenix Storm back then and I wasn't part of the group then.

Me: Yeah. Keith and his family got all the kids together in Springfield and they declared war on the whole town and blew it all to pieces.

They are known as the Dysfunctional Town Liberation Army.

Keith: That's right and our mission, no matter how good or bad is to rid the country of towns that have caused a lot of problems for the country and the city.

Qin: That sounds like a big job.

Me: It is. But the corrupt towns of Springfield, Oregon and Quahog, Rhode Island will never terrorize our country again. They got what was coming to them. We blew up Springfield with a nuke and we blew up Quahog with a Thermobaric Bomb.

Qin: Wow!

Nico: Both those towns have failed this universe.

We laughed.

Me: That's true Nico.

Will Vandom: Homer, what do you usually get here?

Homer: They have a lot of great food here. They have donuts, hot dogs, good nacho cheese sauce, candy bars, ice cream, everything good.

Apu: Yes and we also have Homer's favorite thing: Beer.

Me: Oh yeah, Springfield also had a good beer company called Duff Beer. They make great beer that we use in our chili.

Homer: That's right.

Me: We also use Pawtucket Brewery Beer. That's the beer from Quahog.

Allie: Pretty ironic that we use their beer huh?

We laughed.

?: (Australian Accent) Too ironic.

We turned and we saw Katherine "Kat" Hillard and Tanya Sloan.

Me: No way! Kat Hillard and Tanya Sloan!

Kimberly: Kat!

Kat and Kimberly hugged.

Aisha: Tanya!

They hugged too.

Kat: It's great to see you too Kim.

Me: It's an honor to meet you both.

Kat: You too J.D. It's awesome that you're helping out my friends mate.

Me: Thanks Kat.

G1 Brawl: (to Kat and Tanya) Aren't you girls from the Zeo team?

Tanya: We sure are Brawl.

Me: I also remember Kat that you're one of the Turbo Rangers.

Lincoln: That is so cool!

Lana: We have yet to meet the Turbo Rangers.

Kat: That's right. Before I joined the Power Rangers as the Pink Ranger, I was under the control of Rita Repulsa.

We gasped.

Me: I remember that. You were once under Rita's spell and it turned you into that terrible cat monster Katastrophe.

Kat: That's right.

Nico: And she was also a white stray cat.

Streetwise: (to Kat) What was it like being a cat?

Kat: It was weird. But it was cool.

Me: I remember that too. But if Rita were still alive, I would gather everyone here and go after Rita and her cronies and unleash our wrath on them 100-fold.

Kat: I'm glad you would do that for me J.D.

Me: We would do anything to protect our precious people.

Then I got a call on my cell phone.

Me: Hello?

It was Daphne Blake.

Daphne: J.D. it's Daphne.

Me: Hello Daphne. How have you been doing?

Daphne: Good thanks. We're over in Louisiana heading over to a place called Moonscar Island.

I gasped when I heard that name.

Me: Moonscar Island? That island is a death trap.

Daphne: I know. We're heading over there to solve a mystery.

Me: We better go with you guys to help protect you.

Daphne: Okay. See ya.

Me: Bye and be careful.

I hung up.

Me: Guys we got to get over to Louisiana! The Mystery Inc. Gang may be in danger.

Lincoln: What makes you think so J.D.?

Me: They are heading to a terrifying place in the Louisiana Bayou called Moonscar Island.

Lucy Loud: Gasp! I've heard about that island.

Laney: How do you know about that island Lucy?

Lucy Loud: The Spirits told me all about the island and how dangerous it is. Also, Vampires like to keep records of everything that has happened over the centuries.

Lucy went over the history of Moonscar Island.

---

A group of settlers who worshipped cats came to the island in 1798. The island gained its name after the infamous pirate, Morgan Moonscar, who died there after he and his pirates drove the settlers into the bayou to be eaten by alligators. Moonscar and his crew were then cursed and killed by the two of the surviving settlers who became cat creatures after praying to their cat God to get rid of the pirates.

In time, it became home to a pepper plantation that flourished until the werecats cursed the planters.

Sometime during the American Civil War, Colonel Jackson T. Pettigrew and his 8th Louisiana Regiment were stationed on the island. Pettigrew, his troops, along with the Union troops, were then cursed by the werecats. For the next two centuries, tourists and other people continued to disappear due to the cat creatures.

At an unknown period, Jacques also became a werecat, due to his desire to become immortal.

Scooby-Doo on Zombie Island

Mystery Inc. came to the island hoping to find real ghosts for Daphne Blake's show. When they arrived at the mansion, Scooby-Doo immediately chased Simone Lenoir's Simone's cats, causing an amount of damage, angering Beau Neville and Simone. They find that the ghosts want them to leave the island. Fred Jones believes that it's someone, who's trying to find Moonscar's treasure.

Shaggy Rogers and Scooby encountered a zombie who looks like Morgan Moonscar. They thought the zombie was trying to attack them, when in reality, he was trying to warn them about the werecats.

Later that night, dozens of zombies emerged from the ground, trying to get the gang to leave the island before it's too late. Fred, Daphne, Velma Dinkley and Beau heard Lena Dupree screaming at the mansion, and upon returning, they found the place seemingly empty. Fred discovers a secret passageway where Lena explains that the zombies dragged Simone down the tunnel. She lead them to a ritual chamber, where Velma reveals that Lena lied about Simone getting dragged by zombies. Simone emerges from the darkness, and used voodoo dolls of the gang, to subdue them. They reveal their true nature as werecats, who have to drain the life force from victims lured to the island every Harvest Moon.

After explaining their history, they were about to start draining their life force as the moonlight has reached the midnight alignment, but Shaggy and Scooby stumbled into the chamber, getting the werecats to chase them. At the same time, the others untie the ropes on the voodoo dolls freeing them, and created dolls of Simone and Lena. They used the dolls to hold the werecats, until they were knocked away by Jacques. As the werecats had the gang cornered, they discovered that the midnight alignment has passed, ending the curse. The werecats disintegrated into dust, as well as the zombies since they have been avenged.

The next day, the gang headed home on the ferry.

---

We gasped in sheer horror.

Me: Boy that is horrifying! One sec.

I called Velma on my cell phone.

Velma: Hello?

Me: Hey Velma, J.D.

Velma: Jinkies, hello J.D.

Me: Sorry to call like this, but we were told that you were heading to Moonscar Island.

Velma: We sure are J.D. and we've been there before.

I gasped.

Me: Velma, before we head over there, you have to tell use about what happened when you all went there the first time.

Velma: Okay.

Velma told us everything that happened and how they met Simone Lenoir and Lena Dupree.

---

Simone Lenoir.

The human Simone Lenoir lived in the 18th century, born in the late 1690s, and was one of a group of peaceful settlers who lived on Moonscar Island and worshiped a cat god. One night while the settlers were celebrating a bountiful harvest, the island was raided and pillaged by Morgan Moonscar and his pirates; the pirates drove all the settlers except Simone and Lena Dupree into the bayou, where they were devoured by alligators. Devastated and vengeful for what Moonscar's pirates had done to their friends and home, Simone and Lena invoked the cat god to curse the island and give them revenge upon the pirates. The cat god granted their wish by transforming Lena and Simone into werecats, who subsequently killed Moonscar and his pirates.

However, this was not the end for Lena and Simone, as they afterwards found that the cat god's curse had turned them into werecats permanently, cursed to live forever through draining mortal victims' life energy every harvest moon. For the next two centuries, Simone and Lena would drain the life energy of Moonscar Island's human inhabitants every harvest moon; if there were no others on the island at the time of the annual harvest moon, Simone would have Lena find and lure tourists and visitors to the island to drain. A side-effect of the werecats draining their victims' life energy was that it would curse the victims' souls so they would rise as zombies every harvest moon and unsuccessfully try to warn the annual victims off from suffering their fate. Lena and Simone also at some point recruited Jacques as their ferry driver for bringing lured victims to the island, and granted his wish for immortality by passing the were-cat curse onto him.

## Encounter with the Mystery Gang

The werecats' latest to-be victims in the present were Mystery, Inc. when the gang were lured to Moonscar Island by Lena in Daphne Blake's search for a real haunting for her TV show. As the gang settled in, Scooby-Doo caused a destructive pursuit of Simone's cats all over her property and it was a running irritation for her.

## Revelation and Death

On the night of the harvest moon, when the zombies of the werecats' previous victims rose and went after the gang to try and warn them, Lena lured Fred, Velma, Daphne and the human gardener Beau to her and Simone's underground voodoo dungeon so that the zombies would not interfere. The werecats captured and bound them using voodoo dolls to be drained. The gang managed to slip free before Simone and Lena could drain them, in the commotion when Shaggy and Scooby, followed by Jacques and the zombies, fled into the dungeon. Lena and Simone almost succeeded in draining Shaggy and Scooby, but were stopped when Velma and Daphne reconfigured the voodoo dolls and used them against the werecats. Jacques, Simone and Lena eventually overcame the zombies' efforts to stop them and cornered the gang to drain them, but just then, the midnight phase of the harvest moon ended. With the harvest moon's midnight phase having ended before the werecats could drain their victims, Simone, Lena and Jacques' immortal lives were taken away and they decayed away and perished; ending the cat god's 200-year-old curse, and freeing the souls of the werecats' zombified past victims to rest in peace once and for all.

Lena Dupree

A beautiful young woman born in the late 1700s. She was a settler, who made her home on Moonscar Island with her mistress Simone Lenoir. Lena and Simone both witnessed the murder of the other settlers by Morgan Moonscar and his crew. The two women uttered a curse on the pirates, and vowed to destroy them. The Cat God that they and their fellow villagers worshipped granted their wish, and they were transformed into Werecats. They killed all of the pirates, by draining their life force, forcing their spirits to return to their lifeless bodies every Harvest Moon. After that, Lena and Simone were cursed by the Cat God's dark magic.

They were now forced to consume the life force of those unlucky enough to be drawn into their clutches. They also must drain the souls while the Harvest Moon was in its midnight alignment, or else they will die. Whenever people did not show up to the island on their own, Simone would have Lena lure them to the island under various pretenses. Some of their victims over the centuries have included the residents and workers who established a pepper plantation on the island, a Confederate Army regiment under the command of Colonel Jackson T. Pettigrew, and numerous tourists lured to the island by Lena.

Eventually, Lena invited Mystery Inc to the island, kidnapping them under the guise of helping them learn about Moonscar Island, which at that point had become infamous for the number of disappearances throughout the years, and had been home to a Confederacy plantation.

Inevitably the zombies return to Moonscar Island. When the Mystery Gang return to the mansion after encountering the zombies, Lena claims to them that Simone had been captured by the zombies and had been dragged to an underground tunnel. However, they discover from the footprints that Lena had been deceiving them and that Simone had simply walked down to the tunnel. She then proceeds to capture them along with Simone.

Lena is finally destroyed after she, Jacques and Simone fail to drain the life force from Mystery Inc, and the werecats disintegrate into ashes, never to be heard from again. This causes the souls of all their victims to finally be set free to rest in peace in the afterlife.

Jacques.

Jacques was originally represented as a genuinely friendly Cajun ferry driver, but it was later revealed that along with Lena and Simone, he had tricked the gang into going to Moonscar Island.

As Scooby and Shaggy were running from the zombies, it was revealed that Jacques was also a werecat. It was also revealed that he was aware that Simone Lenoir and her aid Lena Dupree were draining the life force of the former inhabitants of the island, in order to preserve their immortality. He later asked for immortality, and they granted it to him. Unlike Simone and Lena, who did not know that the cat god would curse them to drain life from others (it is even implied that they despise it cursing Morgan Moonscar for forcing them to become werecats to avenge their tribe), Jacques had absolutely no problem with having to kill others to preserve his immortality. Therefore, this makes him one of the most despicable antagonists to ever appear on Scooby-Doo.

He was defeated when the moon's shadow moved past the midnight alignment of the Harvest Moon. He, along with the other werecats, disintegrated into ashes so the zombies could rest in peace.

Morgan Moonscar

Sometime in the 1700s, Morgan Moonscar and his crew of pirates arrived on an island now known as Moonscar Island. While the residents were having a party, celebrating their cat goddess, Morgan Moonscar and his crew attacked them. He forced the residents into the bayou, resulting in them getting eaten by alligators. However, two of the residents, Simone Lenoir and Lena Dupree managed to escape from Moonscar and the pirates. In utter rage and hatred, the two women uttered a curse on the pirates, which resulted in them becoming werecats. With their new powers, the two killed Morgan Moonscar and the pirates. They would only be their first victims.

Moonscar, along with his crew and the other victims were left to wander Moonscar Island after having the life drained from them. 200 years later, they tried to drive Mystery Inc. off the island, to spare them the same fate. After Simone, Lena, and Jacques died, the souls of Moonscar and his crew were released, along with those of the other zombies, allowing them to finally rest in peace in the afterlife.

---

I gasped in horror.

Me: Oh shit! You're all in terrible danger! We're on our way Velma.

I hang up and we left for Moonscar Island. Kat and Tanya went with us.

---

MOONSCAR ISLAND, LOUISIANA!

---

On Moonscar Island in the Louisiana Bayou, evil activity was brewing. Trakeena and her resurrected cohorts Furio and Barbarax were talking to the werecats that were brought back to life because of a dark orb imbedded in Trakeena's hand.

Trakeena (to the Werecats): Now, now. I know you three are wanting to get revenge on Mystery Inc. But trust me. I want revenge too. Those Power Rangers have teamed up with those meddling kids. What we need is a way to lure them to us.

We were flying and we saw Moonscar Island. We hid in the trees and we saw TRAKEENA, FURIO AND BARBARAX!

---

Trakeena

Trakeena was born the daughter of the evil space overlord, Scorpius, with the features of both an insect and a human. After her father began his battle with the Galaxy Power Rangers, Trakeena began accompanying his generals on their missions, despite Scorpius' disapproval. After Furio initially failed to get the Lights of

Orion, she managed to convince her father to give him another chance, though it is unclear why she did this. After accompanying another general, Treacheron, on one mission, he claimed Trakeena had followed him even though he had allowed it. In retaliation, she convinced Scorpius the general was a traitor, resulting in him being locked up. They continued to feud with one another and Trakeena was tricked by Treacheron into looking for a silver goblet, so he could ambush her when he was free. However, she ironically survived thanks to intervention from the Power Rangers.

Later Scorpius wanted Trakeena to enter a cocoon that would turn her into a more insect like being like him and increase her powers. She refused to go through with it, since it would take away her beauty and when Scorpius tried to force her, she fled to Planet Onyx. After getting in a fight and beaten easily, Trakeena met Villamax, who trained her in hand-to-hand combat and swordplay. However she returned to the Scorpion Stinger upon hearing that Scorpius was dying after his battle with the Power Rangers. After arriving on the ship, Trakeena bid her father a fond farewell and was given his throne and all of his powers, along with a new staff created from one of Scorpius' tentacles.

After Deviot told her the Red Galaxy Ranger was the one that struck down her father, Trakeena captured him, but he escaped her wrath. Later when Terra Venture entered the Lost Galaxy, she was unwilling to follow it, but after it reemerged she took down Captain Mutiny's ship, which was following the space colony.

After Deviot was proven to be a traitor, he dragged her into the cocoon, which had been put into storage. There, they merged into one being and Trakeena emerged with Deviot's power and ruthlessness. She equipped her Sting Wingers with bombs and launched an all out assault on Terra Venture, succeeding in bringing down the space colony as well as the Centaurus and Stratoforce Megazords. Trakeena destroyed Villamax when he refused to follow her orders and after the Scorpion Stinger crashed, she was critically injured and entered the cocoon. She then lost all her beauty and emerged as a slimy humanoid insect, powering up what remained of Terra Venture so as to attack the peoples' new colony on Mirinoi. Trakeena began fighting the Rangers and was eventually defeated by the Red Ranger after he fired a blast from his Battlizer at her at point-blank range.

Trakeena managed to survive and return to her human form, only now horribly scarred. While she had been purged of Devoit's physical traits, she still appeared to have some of his personality since she wished to return to become an insect once again. She managed to get to Earth, where she allied herself with the demon Triskull, planning to destroy the Rangers' home planet in revenge. With the skull demon and his army of ghouls aiding her, Trakeena began capturing humans to drain their life force.

Once she had all the life force she needed, she strapped herself to a chair and phased in and out of her insect form. But Queen Bansheera ordered her son, Prince Olympius, to stop Trakeena from fully absorbing the life forces and regaining her insect form. He tainted her energy with a poisoned dagger, transforming Trakeena into an enormous monster. The Galaxy Rangers and Lightspeed Rangers joined forces to fight her, but were unable to take her on until they infused the Omega Megazord with the Lights of Orion; Trakeena was finally destroyed.

### Furio

Furio led the brutal attack on the planet Mirinoi, seeking to gain the powers of the Quasar Sabers. Not amongst those chosen, however, Furio couldn't pull the saber from the stone, just like numerous warriors before him. He was confronted by six warriors (Mike, Leo, Maya, Kendrix, Damon and Kai) who battled his army of Stingwingers to protect the people. It was in this awesome battle, five of the six warriors than pull the legendary Quasar Sabers from the rock. Enraged, Furio sought to destroy everyone in Mirinoi by turning them to stone. He pursued the warriors and managed to create a crevice in the jungle like planet, which tragically sealed Mike inside. Furio witnessed the warriors transform into Power Rangers and was no match against their energy. He left the planet and reported to his superior that he was going to retrieve the sabers for him.

His next encounter with the rangers would take place on Terra Venture, where he attacked Leo but left abruptly. With Scorpius growing impatient with him, Furio assigned several monsters to snatch the sabers. When Horn succeeded, Furio ordered him to destroy the weapons, having been commanded by Scorpius to do so. He then allied with Scorpius' daughter, the adventure-starved Trakeena, and sought to gain the Lights of Orion, yet another ancient source of power.

In a devious plot to use Leo for the Lights, Furio and Trakeena managed to trick Leo into believing that his brother had returned. When this plan failed, Scorpius almost destroyed him, having grown tired of his constant failures. Desperate to prove his worth, he finally stumbles on what he believes are the Lights of Orion. Before he can retrieve it to his master, however, he's interrupted by Leo once more. The two engage in battle and Furio, at his last straw, commits suicide by exploding himself and Leo, in a fruitless attempt to destroy his enemy because Leo is saved by Magna Defender.

Barbarax

Barbarax was a menacing enforcer and slave driver, the right-hand man of Captain Mutiny. He wielded a large battle axe that was capable of emitting energy charges through the ground. He was destroyed, alongside his captain, by Trakeena when she obliterated Mutiny's fortress.

---

Me: Oh fuck! That's Trakeena, Furio and Barbarax!

Lincoln: What are they doing here?

Me: Revenge no doubt.

Lana: I can't believe that's the same Trakeena we know on TV.

Lola: Along with Furio and Barbarax.

Me: I remember them. They were terrifying. We blew up their ship and destroyed it forever. Now it's time for some serious firepower. GO GALACTIC!

I fired a radio signal into the sky and called forth the Lost Galaxy

Power Rangers.

Lincoln: I have a plan.

Lincoln told us his plan and it was genius.

Later Lincoln flew at the island.

Furio heard a Phoenix Cry. Making a fist, he turned around and punched one of us! He then saw that he punched Lincoln, giving him a black eye.

Furio: (laughs) Oh, I'm sorry. Did I hurt your eye?

Barbarax: Maybe that wouldn't have happened if you tried a more stealthier approach. Or at the very least, not given your location away with that Phoenix Cry.

Lincoln: But you are really stupid!

Purple energy blasts hit the ground by them and exploded.

BOOOM! BOOOM! BOOOOOM! BOOOM! BOOM!

The explosions blew them to Trakeena!

Trakeena: Get up you fools!

Then Trakeena saw Lincoln vanish.

Trakeena: It was a clone!

We landed.

Me: Trakeena, so we meet at last.

Nico: We didn't expect you to show up of all people.

Trakeena: Team Loud Phoenix Storm, so at last we meet.

Me: And it'll be the last time you bitch!

Carter Greyson: I don't know how you survived our battle Trakeena, but now we're gonna make sure that you die!

I saw Simone, Lena and Jacque.

Me: And you three should've stayed dead after 200 years.

Leo: (to Trakeena) It's one thing to bring back Barbarax and Furio. But to bring back the Werecats?

Trakeena: Tonight's the harvest moon. It was an opportunity I couldn't pass up.

Simone: After all, the 6 of us want one thing. To see you all dead!

They turned into their werecat forms!

Me: You guys are ugly up close! Your 9 lives ended 21 years ago and you should've stayed dead since then! Also Trakeena, we destroyed your ship. I'm sure you saw that.

Trakeena: You blew up the Scorpion Stinger!?

Me: That's right! With our ship Superlaser we blew up the ship.

Leo Corbett: You will pay for your crimes Trakeena!

Me: Just like when Leo killed your disgusting father! He brought all that on himself just like you are about to. Lets get them guys! Power up!

We transformed and powered up and our power was incredible!

Me: You will pay for your crimes Trakeena! You guys take down the werecats, Furio and Barbarax. I'll take Trakeena.

Nico: Okay. Show her no mercy J.D.!

Me: I plan not to. And time for some help.

I pulled out the Sword of Omens.

Me: THUNDER! THUNDER! THUNDER! THUNDERCATS! HOOOOOOO!

The Sword of Omens blade grew and the gem turned into the ThunderCats Symbol and projected into the sky and roared ferociously.

RRRRROOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOAAAAAAAAAA

The symbol turned into a portal and out of it came the ThunderCats!

Chorus: (SINGING) THUNDERCATS ARE ON THE MOVE, THUNDERCATS ARE LOOSE! HEAR THE MAGIC, HEAR THE ROAR, THUNDERCATS ARE LOOSE!

They arrived and landed.

Me: Nico, you can use my Transdagger and Galactabeast for this fight.

Nico: Okay. Thanks man.

I handed him my purple Transdagger.

We went at them. It was gonna be a brutal fight!

Then her evil Spirit appeared.

Nicole: The Book of Vile Darkness is too merciful for you. You are gonna burn in the River of Fire for all eternity!

Trakeena was being sucked in through the portal to the River of Fire!

She went through the portal and she was gone for good!

Me: Go to hell Trakeena!

Nico: AND STAY THERE!

# Journey Into The Digital World

HAPPY 32ND BIRTHDAY TO ME!

---

We were all in the Digital World. We saw that it was an amazing world loaded with Digimon and more. It was a magnificent place loaded and an incredible place.

---

The Digital World featured in Digimon Adventure and its sequels Digimon Adventure 02 and Digimon Adventure tri.

This incarnation of the Digital World runs closely parallel to two other dimensions. One is a kaleidoscopic world of dreams that possesses the power to transform beliefs into reality The Last Temptation of the DigiDestined and the other is a "world of darkness", the grim and foreboding Dark Ocean that has the ability to make the darker thoughts of others come to life. Opposites Attract The Digital World is tied very closely to these two worlds and has absorbed a fraction of the former's power to bring thoughts to life; this power, combined with the data of the Digital World gave life to human thoughts, dreams, spiritual beliefs and myths in the form of Digimon. As explained by Gennai the reason why the Digital World has primitive and modern things is because of data deleted from the Real World. For example, if someone were to create a construction project but had to shut it down and delete it for good that data would be sent to the Digital World and the construction project would continue to build there.

In this universe Digimon life is cyclical. When a Digimon reaches the end of their life, the data which makes up their body disperses, only to reform at Primary Village where it takes the form of a Digi-Egg. The eggs are tended by Elecmon and hatch out into baby Digimon so that the Digimon can live their lives over again, ad infinitum. There is some evidence to suggest that the data of evil Digimon does not reform at Primary Village, but rather is sent to the world of

darkness.

Many locations in this Digital World are named after computer programs and hardware. For example, the two continents of the Digital World are named Folder Continent and Server Continent. File Island is a key location in this Digital World, home to Primary Village and a form of nexus point for the world's data.

Several decades before the events of the series, Apocalymon and his Dark Masters came to the Digital World from beyond the Wall of Fire, causing the Digital World to become warped in both space and time. To defeat this being the original five DigiDestined, including Maki Himekawa and Daigo Nishijima were chosen and brought to the Digital World. Their Digimon were able to defeat the Dark Masters and fend off Apocalymon, becoming the Harmonious Ones in the process. The children's legend was famed throughout the Digital World with temples erected to their memories and a prophecy made stating that a new generation would arise when the Digital World would need them again, while their Digimon became the guardians of the four regions of the Digital World-Azulongmon in particular being the guardian of the Eastern region, where most of the Japanese DigiDestined's adventures take place. When Apocalymon eventually returned to the Digital World and his Dark Masters sealed away the Harmonious Ones, a new group of eight children were selected to become the new DigiDestined. They were transported to the Digital World, and as a result of their eventual victory over Apocalymon, the flow of time in the Digital World was re-synchronized with Earth time.

In Digimon Adventure 02, the dimensional balance of the Digital World came under threat when the human Yukio Oikawa-possessed by the digital ghost of the evil Myotismon-used agents such as the Digimon Emperor, Mummymon, and Arukenimon to erect huge black obelisks known as Control Spires around the Digital World, destabilizing all reality around it so he could gain access to it. The culmination of this plan resulted in the revelation of the Digital World's existence to the world at large; twenty-five years after these events all humans have a Digimon partner.

Davis: Well, here we are at the Digital World. Well, the one we're used to anyway.

Me: It's beautiful.

Laney: It's amazing. There's a lot of Digimon here and more.

Nico: Yep. This is where we helped all the Digimon here.

Lola: That is so cool!

Tyzonn (Operation Overdrive): There are so many Digimon here.

Me: 1,200+ Species and counting.

Takato: It's an amazing world to visit.

Maria: Is there any reason why we came here?

Me: From the looks of things, destroy any evil Digimon that may threaten the world and the Digimon.

Nico: And to visit the ruins of Ken's base.

We gasped and turned to Nico.

Blast Off: (to Nico) But Boss, are you sure you want to visit the ruins of Ken's base? You don't have to.

Nico: But I want to. I have to get some closure.

Me: Well if that's what you want then okay then.

We went to the desert and we saw the ruins of Ken's Base and it was an old base buried halfway in the sand.

Sunstreaker: I hope the sand doesn't get on my paint.

Me: Don't worry Sunstreaker.

We went into the base and we saw that it was run down and beaten up. A Huge Battle had taken place in the base.

Me: Wow! So this is Ken's base.

Kazemon: Sure looks like the kind of place I would not want to visit.

Lillymon: Me neither.

Mimi: But what Ken did was unforgivable.

Me: He was doing all that against his will Mimi.

Kazemon: MaloMyotismon ruined the lives of both humans and Digimon alike

Me: He sure did. And so many Digimon died because of him.

Lincoln: What he was doing was awful.

Lori: Literally a monster of ultimate evil.

We then saw a huge hallway blown apart.

Nico: This is the hallway I fought Ken.

Me: It's been totally blown apart.

Laney: What happened here?

Nico: This is where I fought Ken and killed him.

Me: Myotismon, if you were alive today, I would gladly kill you where you stood for all the pain and suffering you caused to both our worlds.

Lincoln: Me too.

Kira: But he deserved to be destroyed and I'm glad Nico killed him.

Nico: But I couldn't save Ken. (Crying) I COULDN'T SAVE HIM! (Crying Hard!)

Nico broke down and cried hard.

Qin: Nico.

Maria: (sighs) Damn it, Ken, why'd you have to wind up corrupted and get yourself killed? If you really are in heaven, I hope you're feeling just as bad as Nico is right now!

Me: I agree Maria. But he didn't do this stuff on purpose. He was doing all this against his will because of Myotismon. Ken was nothing more than a pawn in a dark scheme that would destroy both worlds.

Qin: What was Myotismon's plan?

Tai: It's one that was filled with death and destruction.

Tai went over Myotismon's whole history.

---

Myotismon is an Ultimate Level Digimon. But he also had the power of a Mega Level Digimon. His appearance is of a vampire, with pale blue skin, gold hair and a red, bat-like eye mask. He is also dressed elegantly as a gentleman and also has a red vampire-like cape.

It seems that whenever he is destroyed, his shadowy spirit form will return and can be revived in a stronger Digivolved form through certain procedures. The only way to finish him off for good is to destroy his shadow form.

VenomMyotismon

VenomMyotismon is an Ultra Level Digimon. He is a presumably a 30-40 foot tall monster that looks like a combination between a vampire and a demon. He has 6 bat wings, extremely long arms, Myotismon's face, two horns on his head, yellow eyes and hair and a hidden face inside his abdomen.

MaloMyotismon

MaloMyotismon is a Super Ultimate Level Digimon that resembles a mechanical, demonic vampire. He has Myotismon's original head with a modified mask, has 2 extra mouths, one on each shoulder, a tail with a sharp end and mechanical wings that can shoot out a deadly mist.

After Etemon was defeated, Myotismon emerged as the third main villain of Season 1. There, he sent his pathetic servant, DemiDevimon, to try and defeat the Digidestined, but each of his plans failed. He tried to find the eighth Digidestined and take over both the Digital World and the real world. He and his servants departed from his Castle in the Digital World and entered the real world, but one Digimon, Wizardmon, who was only pretending to be following Myotismon, attempts to get the tag and crest for the eighth digidestined and double-crossing him along with Gatomon. Myotismon had his bats throw him into the ocean. Gatomon, initially one of Myotismon's servants, remembers that he enslaved her while she was searching for the eighth Digidestined as Salamon.

Often Myotismon would bite people and suck their blood, as vampires do. Also he would only come out at night, as he is weaker during the put up a fog barrier and captured all the inhabitants of the city. The Digidestined fought against him and his many minions. It soon became revealed to the Digidestined that Tai's sister Kari was the eighth Digidestined all along. TK and Joe find Wizardmon and soon a battle begins between the Digidestined and Myotismon. Myotismon appears to be more powerful than the others, with only Angemon able to damage him. Myotismon shoots an energy wave at Kari and Gatomon, but Wizardmon jumps in front of them and is killed by the blast.

Upon his death, Kari gets her Digivice back from DemiDevimon, allowing Gatomon to Digivolve into her Ultimate form, Angewomon and hit Myotismon with a Celestial Arrow, defeating him.

Upon his defeat, the DigiDestined thought it would be over. However, everyone didn't believe that Myotismon's spirit lives on and his fog was still around. Gennai suddenly appears and told the prophecy about the king of the undead. Bats would blanket the sky in darkness, the fallen would chant the king's name and at the stroke of the hour of the beast, the king's true form would appear. DemiDevimon used Myotismon's bats to resurrect his master by collecting the data of his defeated henchmen.

Everything that Gennai mentioned started to happen and soon, Myotismon was reborn as VenomMyotismon. He had an insatiable hunger, at one point devouring his own servant, DemiDevimon.

MetalGreymon and WereGarurumon both attacked VenomMyotismon, but the giant monster easily wiped them out. Angemon and Angewomon distract VenomMyotismon while Izzy plans a miracle. He is the first Mega Digimon to be introduced in the series and it's because of his appearance that the DigiDestined learn about the Mega level.

Though he is much more powerful than his previous form, he is also much less intelligent. He is quick to anger and is solely motivated by his desire to devour life. The only thing he retains from Myotismon being a strong hatred of the Digidestined. When WarGreymon tunneled though VenomMyotismon's abdomen, his true form, "The Beast Within" reveals himself. He is defeated when the Digidestined seize the giant beast with their Digivices, WarGreymon clogs his true body with a water tower and WarGreymon and MetalGarurumon finish him off with their combined attacks, obliterating him.

Digimon Adventure 02

He returns in season 2 as the main antagonist.

It's revealed that Myotismon's spirit once again continues to live on and discovers that Oikawa requests to go to the Digital World. He possessed Oikawa and took control of his body in order to grant his wish.

While confronting Oikawa, BlackWarGreymon takes the fatal attack by Myotismon's powers used by Oikawa. Much to BlackWarGreymon's horror, it was revealed that Oikawa was actually being controlled like a puppet by Myotismon, then leaves. BlackWarGreymon sacrifices his life to seal the gate to Highton New Terrence in order to prevent Myotismon from entering the Digital World.

After Oikawa and the Dark Spore children grieve about not going to the Digital World and instead enter the World Of Dreams (thanks to BlackWarGreymon sealing the gate), the mouth of Myotismon appears, speaking with Oikawa, telling him that he'll never see the Digital World again. Gatomon suddenly recognizes this voice, revealing to the Digidestined it was her old enemy, Myotismon all along. After Oikawa realizes that the evil Digimon took control of his body all this time three years ago, Myotismon exits Oikawa's body and takes the form of an Oikawa duplicate himself, thus leaving Oikawa weakened and wounded, then feeds on the Dark Flowers from the Dark Spore children while Arukenimon and Mummymon distract the Digidestined.

After Myotismon completes his hunger, he transforms into his reincarnated form, MaloMyotismon. He first tests out his newfound strength by grabbing Arukenimon and torturing her twice just before killing her with one of his shoulders. Mummymon, infuriated by this, attacks MaloMyotismon to avenge Arukenimon's death, but was killed too by his Crimson Mist attack, disintegrating him. Horrified by this, the Digidestined were scared to fight him, but Davis, refusing to stand down, encourages his friends to stand up for themselves and fight for courage.

ExVeemon attacks MaloMyotismon, but then all of a sudden was interrupted when MaloMyotismon banishes the Digidestined into several illusion dimensions, causing them and their Digimon partners to be separated. Luckily, Davis and their Digimon partners were able to reunite them, noting the illusions weren't real. When Davis, Ken and the others returned from the illusions, they summond all of their Digimon's forms then launched an assault on MaloMyotismon, which opened a hole to the Digital World, presumably destroying MaloMyotismon. Unfortunately, MaloMyotismon survived the assault and thanked the Digidestined for bringing him to the Digital World, and attacks Imperialdramon, Silphymon, and Shakkoumon, knocking them down easily.

MaloMyotismon unleashes his power of darkness to open up the gate to the Real World. Suddenly, several Digimon gathered around to call help to their human partners from all around the world, while MaloMyotismon tries to drive them away with his Screaming Darkness attack. Suddenly the Digidestined from all over the world were summoned to the Digital World, witnessing the battle against MaloMyotismon, being blinded by the light. MaloMyotismon attempts to undo the damage by feeding the Dark Spore children's doubts and despair to get stronger, but Davis and the other chosen Digidestined encourage the children to overcome their negative emotions and embrace their dreams, destroying MaloMyotismon's physical form. With his body destroyed, Myotismon's spirit rises into the sky in an attempt to spread the darkness everywhere, and Imperialdramon calls to the Digidestined to use their Digivices to create his Ultimate Weapon, the Giga Crusher, and obliterates Myotismon for good.

After Myotismon was defeated, a badly weakened Oikawa finally sees the Digital World, and apologizes to the Digidestined for his previous actions, and then sacrifices himself to restore the damaged Digital World.

---

Qin gasped in sheer horror!

Qin: Myotismon is the ultimate personification of pure evil!

Me: He made even the devil himself look like a total joke.

Lillymon: What Myotismon did makes him one of the worst enemies ever.

Me: No kidding. What he did to both our worlds makes him nothing short of a devil.

Nico: (Crying) KEN! I'M SO SORRY! I DIDN'T MEAN TO KILL YOU! I'M SORRY! I'M SORRY!

Nico was crying hard.

Me: Poor guy.

Beelzemon: I've never seen him this broken before.

Me: He accidentally killed Ken when he discovered his powers. It devastated him and scarred him for life. As a result he has P.T.S.D. The wounds may heal, but the scars will not.

Kion: I can't believe that Nico killed Ken like that.

Jeri: It was all an accident Kion. He didn't mean to do it.

Kion: I can't believe he's hurting that bad inside.

May: Poor Nico.

May went over and comforted him.

After Nico was better we continued on and we explored all of the Digital World. We saw a lot of awesome digimon.

We walked around the Digital World and destroyed some evil digimon and loaded their data into our new devices Lisa made called Digital Power Downloaders. They give us all the ability to use all the Digimon's powers and attacks.

Later we were in the Digital World that the Digimon Tamers went to.

It was completely different than what Tai and the others know.

---

Digimon Tamers features a very different Digital World from that depicted in the first two Digimon series.

In the earliest stages of its existence, this incarnation of the Digital World was little more than a barren desert. As it grew alongside the Earth's communications network, however, it evolved and changed in dynamic ways, with more and more "layers" coming into existence over the top of the old ones. The lowest layer is the original desert plain, and the highest is the home of the four Digimon Sovereigns that rule the Digital World. In between lie many small miniverses, self-contained environments specially suited to the Digimon that live there, including (but not limited to) an area of clouds and clockwork; a warped, black-and-white town; an area of forests, lakes and rivers; and a world entirely composed of water.

Random packets of discarded data often roam the Digital World like tumbleweeds and can be used to help repair and heal injured Digimon. Although the Digital World has both night and day, there is no transitional period between the two with darkness instantly sweeping across the world like a sheet. Visible in the sky no matter what plain it is viewed from is a pulsing globe of code and light, which represent the Earth-from it emanate data streams, vast columns of energy which reach into the Digital World and manipulate its digital matter, physical representations of acts performed on computers across the world. Should an individual be caught in a data stream they will be swept into it and deposited elsewhere on any of the Digital World's potential planes. Between Earth and the Digital World is a warped region of interdimensional space where reality is constantly in flux and defined only by the perceptions of individuals passing through it.

Digimon are, in fact not native to this Digital World, having been created by a group of teenage computer programmers in the late 1980s as an experiment into the development of artificial intelligence. When the project was shut down due to a lack of funds their primitive digital lifeforms accidentally found their way into the Digital World where they began to grow and evolve. One of the programmers, Shibumi observed this and wrote an algorithm that allowed the Digimon to evolve beyond their original specifications and truly become individual lifeforms. Four Digimon in particular evolved into especially powerful forms and became the aforementioned Digimon Sovereigns. The Digital World does have native lifeforms, however, in the form of DigiGnomes, the first form of artificial life who evolved from the matter of the Digital World itself before the Digimon. The DigiGnomes tend to the welfare of the Digital World and have mysterious powers that allow them to grant the wishes of others.

Another definitive feature of this Digital World is that any Digimon that dies is dead indefinitely. While in other Digital Worlds the death of a Digimon usually results in an infinite cycle of rebirth, Digimon in this Digital World are turned into data upon their deaths. In most cases this data is absorbed or "loaded" by other Digimon in order to power up or digivolve. However, this is contradictory to Rika Nonaka's claim that Digimon return to where they came from after their death. Now You See It, Now You Don't

While conducting secret information-gathering on the network the Japanese SIGINT organization Hypnos became aware of the existence of the Digital World and Digimon which they dubbed Wild Ones, a term used in the Matrix Evolution theme song of Tamers as well as the opening theme of Frontier. Sometime after this Digimon began to appear in the real world, possibly due to Hypnos's inadvertent creation of a "weak spot" in the borders between the worlds with the use of the Juggernaut, a program designed to send errant Digimon back to Digital World or erase their data from the Real World. Digimon materialize on Earth through a process known as "Bio-Emerging," which begins when the barrier between the worlds is temporarily sundered to allow their passage through. The interaction of the two dimensions creates Digital Fields-small gray fog banks which allow Digimon to synthesize false proteins and convert themselves into physical forms after interacting with Earth's electromagnetic field. These Digital Fields can appear in random locations instantaneously and often with little warning.

In addition to Hypnos and the original programmers the Monster Makers, initially the only humans to be aware of Digimon and the Digital World are a small group of children known as Tamers. These Tamers had been chosen by the DigiGnomes to become partners with Digimon and the creatures had used Shibumi's algorithm to bond human and Digimon together as partners via the D-Power. However, with the progression of the series and the increase in Digimon activity on Earth escalating from small skirmishes between the Tamers and single Digimon (with little to no damage to the Tamers' home city) to more devastating occurrences and eventually a massive, city-devastating battle with the Deva and finally the full-scale invasion of the D-Reaper the existence of Digimon and the Digital World eventually became public knowledge.

Me: Wow! So this version of the Digital World is the one you went to Takato?

Takato: It sure is.

Rika: It's different than the first one. That's for sure.

Jeri: This is also where I lost Leomon.

Varie: I remember that. That was awful. Jeri, I'm so sorry about what happened.

Jeri: It's all right Varie.

Qin: What happened to Jeri?

Varie: Jeri has a very dark past.

Varie told Qin what happened when she discovered Jeri's dark past in the events of The Lion's Angel.

* * *

Her mother died of a terminal disease when she was 5 and it devastated her. Her father Tadashi tried his very hardest to look after her, but it was never enough for her and he remarried and Jeri never got along with her stepmother or her stepbrother. She wore a mask to hide her pain and made Lots of Friends. Takato Matsuki has a crush on her and she became a tamer and her partner was Leomon. But a tragic day befell her in the Digital World. Beelzemon destroyed Leomon and it devastated her alot. She blamed herself for what happened and thought her destiny was to always be alone.

---

Qin gasped in horror.

Qin: Oh my gosh. Jeri, I'm so sorry that all happened to you.

Jeri: It's all right Qin. But thank you for your concern.

Beelzemon: I can't believe I was like that back then. I was so full of rage and evil that I didn't care what happened to me.

Takato: I remember that.

Me: Then there's a very strong possibility that Leomon is still alive and so is your evil self Beelzemon.

Nico: Don't worry, Beezlemon. We can beat your evil self easily.

Beezlemon: And what if you can't? Luckily, I can tell you all about my weaknesses.

Nico: Ok. What are they?

Beelzemon: I have a really bad temper and a really big ego.

Me: That's perfect. Just like the evil Sasuke's we killed.

Beelzemon: Exactly.

But then we got an unexpected surprise! We saw Freddy Krueger and Pennywise reborn as Heartless!

## Pennywise

No mortal knows, or can know, the true form of It. The final physical form It takes is that of an enormous spider, but this is the closest the human mind can understand. What the children actually see is not It's actual form, but its form in the physical realm. The true form of It's exists in an inter-dimensional realm referred to as "deadlights", existing outside the physical world. Any living being that sees the "deadlights" goes insane almost instantly, or dies. Bill comes dangerously close to seeing the deadlights and the shape behind the shape for a brief moment. He described it as an endless, crawling hairy creature made of orange light.

## The Deadlights

Throughout the book, It is generally referred to as male, even by itself, calling himself "Mr. Bob Gray" and taking a male form as Pennywise the Clown. However when confronting It's spider form, the characters find out that It is most likely female, due to its final form in the physical realm being that of a giant female spider which was also pregnant. This however, is not Its true form. Just the true form of the creature in the physical realm which is the closest representation of Its true form, as It's true form is genderless.

## Novel

The TV miniseries film lacked many elements of It that the novel included. In the novel, It was an eternal entity that was almost as old as time itself. It was the natural enemy of Maturin (The Turtle), who both existed in the Macroverse.

Its awakening was always marked by a great act of violence, and another great act of violence ends Its spree and send It back into hibernation. It committed other crimes not mentioned in the film, such as murdering over 300 settlers some time from 1740 to 1773, as well as a group of lumberjacks between 1876 and 1879.

It also took on many more forms than in the film, such as Dracula, a homeless leper, a giant bird, Frankenstein's Monster, leeches, piranhas, the witch from the classic fairytale Hansel and Gretel, Tony Tracker, the statue of Paul Bunyan, the Gill-man, Jimmy

Donlin's mother, a giant eye, Dorsey Corcoran's re-animated corpse and the shark from Jaws.

It is also responsible for deaths of Alvin Marsh, and Beverly's husband, Tom Rogan, once the later goes looking for her when she goes to Derry. Also, in the novel, he appears to the psychotic school bully Henry Bowers as Vic Criss instead of Belch.

When It appears to one of the guards at the asylum Henry Bowers is kept at, it takes on the form of an eight-foot tall Doberman Pinscher, as opposed to a cross between the clown and a rottweiler in the film.

In the novel, Pennywise appeared to Ben as the mummy, and to Stan as the rotting corpses, while in the film it was the other way around. Also, in the novel, It was only able to be stopped when Bill performed the Ritual of Chüd. The book also implies that It may be female, given it laid eggs when in it's spider form.

Another detail left out of the film is that It's spider form is not that of its official true form; it is merely the closest representation of its true form that the human mind can comprehend.

Despite being apparently killed by the Losers, there are several hints throughout King's other works that may show that It is still very much alive.

It is mentioned in Dreamcatcher, Insomnia, 11/22/63, and appears as a possible hallucination in The Tommyknockers. The 25th Anniversary Cover for the book shows "PENNYWISE LIVES" written in what appears to be blood.

It was part of the disasters that occurred every 30 years in the main town of Derry.

IT was never against killing children. In fact, it actually preferred to kill children as they were an easier target. That was probably why it chose the form of a clown, a figure that both entertained and terrified many young children. It had razor sharp teeth that it could use to kill people.

As the film progressed, a group of children known as the Lucky

Seven (also mockingly referred to as the "Losers' Club") banded together to kill Pennywise and end its murderous reign (after it had killed the brother of one of them) and apparently succeed after they tracked it down to its lair. However, Pennywise, being a lesser-aspect of a higher being, was not going to stay dead forever and it swore revenge on the gang for its defeat before it vanished into nothingness.

30 years later, Pennywise kept its promise and came after members of the gang, who were all adults in the present day, to kill them. That prompted the gang to reform and battle Pennywise again in order to kill it yet again and save themselves from its wrath.

At the end of the film, the gang did manage to defeat Pennywise again, but in that final battle, it took the form of a grotesque spider-like monster that was revealed to be its true form rather than the clown disguise (which it used for most of the film). It was killed when they pulled out its heart. After they killed It, the group left its corpse to rot.

2017 Film

It

IT/Pennywise in the 2017 film.

Like the miniseries, It was part of the disasters that occurred every 27 years in the main town of Derry. The movie deals with The Losers as youngsters confronting It. After a whole lot of mayhem It was defeated by The Losers before returning to his resting place.

1 month later after their eventual triumph against It, Beverly informs the group of a vision she had while catatonic, where she saw them fighting It as adults. The Losers form a blood oath that if this evil that is It should ever revive, they will return to Derry in 27 years and destroy him once and for all. After the other Losers depart one by one, Beverly tells Bill that she is moving to live with her aunt in Portland, Oregon the following morning.

It Chapter Two

27 years after the events of the first film, It resurfaces when a group of homophobic teenagers beat up and toss a gay man named Adrian Mellon off the bridge. He then slaughters Adrian in front of his lover before presumably using his blood to write a message to Mike about its return. As such, It wasted no time in hunting the children of Derry, such as when it uses empathy to lure a young girl named Victoria into getting closer to it under the false assumption that he'd help make the birthmark on her face disappear. To further torment Bill, It sends him a skateboard, explicitly letting him know that it was going to go after the young Dean next. Realizing that Dean was heading to the carnival, he chases after him into the hall of mirrors. Unfortunately, It gets the upper hand and gruesomely kills the young boy in front of him. Horrified to have lost another young boy after Georgie, Bill decides to head to the Neibolt house to personally kill It after Henry wounds Mike and Eddie.

After each member of the Losers Club went down their own quests to retrieve artifacts from their pasts to complete the Ritual of Chud, the ritual seems to work when it traps Its deadlights inside of the vase, but it goes awry. A giant version of Pennywise emerges, revealing that the original natives who had performed the ritual were immediately slaughtered by It. This version of It is a combination of its default form Pennywise the Dancing Clown and the Giant Spider as described in the book. It then warps the Losers Club into different nightmarish scenarios, but they inevitably overcome their fears. It traps Richie in its deadlights, forcing Eddie to grab the pole Beverly gave him earlier and attacks Pennywise with it under the belief that it could kill It. Unfortunately, Pennywise impales Eddie with one of its spiderlike appendages, swings him around like a ragdoll, and tosses him, leaving him with a large wound in his abdomen.

This one act proves to be its undoing, however, when the Losers Club realize that in order to defeat it, they had to make it believe it was smaller. Despite its insistence that it was the "eater of worlds," the remaining Losers insult the clown repeatedly until It is forced into a smaller, infantile form. It attempts to lash out at Mike, but is too weakened. To its horror, Mike reaches into its chest and grabs its beating heart. It tries to grab it to no avail, and is left crying like a baby, its final words being "Look at you… you've all grown up!" with weak laughter.

The Losers each mutually take ahold of the heart and crush it slowly. It reacts in pain until the heart exploded into a pasty substance, killing it and avenging the deaths of all its victims including Georgie. It falls silent as its body turning to ash. After its death, Richie tries to coerce Eddie's corpse awake, not accepting that he was truly gone. His attempts of taking the body with him fail when Its lair and the Neibolt house start to crumble and collapse in response to its master's demise. The Losers are forced to leave Eddie's body in It's lair, and the Neibolt house collapses on itself, sinking into a hole in the ground.

Differences

Much like the 1990 miniseries, It is depicted as not having eggs implying that it was the only creature of this caliber to exist (unless the book implied that It asexually reproduces). Also unlike the novel where Derry is nearly destroyed immediately following the supposed death of It, the Neibolt house is the only casualty. It also doesn't enlist Tom Rogan with abducting Bill's wife Audrey as both characters had minimal appearances.

## Powers and Abilities

Deadlights

It's Deadlights as seen in the 1990s' Stephen King's IT.

Being an interdimensional cosmic being, IT was an extremely powerful entity. Although its true form exists outside of time and space in the Macroverse, the powers demonstrated by its earthly avatar include:

Psychic Power: IT possesses an insane level of psychic power. It can steal people's souls and entrap them within the Deadlights (IT's true form). It can also create psychic hurricanes capable of destroying entire towns. When battling the Losers, IT created a psychic storm that devastated downtown Derry.

Mind Control: In addition to its immense psychic power, IT is capable of controlling the mind and actions of a person. It is implied that it controls and influences the mind of every adult in Derry or perhaps even the entire nation, as they are all ignorant of the terrible murders that take place there.

Possession: IT also has the ability to possess people, this was shown when it possessed Mr. Keene in order to get Eddie to leave Derry.

Telepathy: IT can read the minds of anyone he chooses to target. It often uses this to learn a victim's fears and exploit this with its shape-shifting ability. It can also implant thoughts and projections into people's minds.

Physical Illusions: In addition to its telepathy, IT can also create physical illusions, such as balloons floating against the wind, making his face appear on the moon or the smell of popcorn and rotting corpses. It can also use this to cause a person to hallucinate.

Shapeshifting: IT can transform into any form it pleases, whether it be taking on the form of someone or taking the form of flying leeches. IT often uses this power to take the form a victim fears most.

Teleportation: IT can also teleport between locations in an instant. However, it has never been seen teleporting outside of the Derry City limits.

Partial Invisibility: This was clearly stated in several cases, most notably when the adult Beverly encounters Pennywise at the place where she used to live or when the adult Ben Hanscom encounters It in the public library. This suggests that only those who actually believe or have knowledge about It's existence are able to see It, although IT can become fully visible to anybody when it is necessary or wishes to do so. One notable moment was when It helps Henry Bowers to escape from Juniper Hill, one of Henry's cellmates and then the guard also witness It next to Henry.

Near-Invulnerability: IT is not a true physical entity, so it cannot be killed or harmed by conventional means. The only known way to harm Pennywise is to perform the Ritual of Chud, which involves The Turtle and Gan (two multiverse beings) lending their psychic power to the person performing it. They both lent their power to the

Losers numerous times when they faced IT, giving them the power to harm it. Bill likened fighting Pennywise as "fighting smoke".

Immortality: IT's early avatar has existed on Earth since primordial times and has existed even longer in the Macroverse (a void outside of time and space that surrounds our own universe). The Ritual of Chud is the only known way to kill the earthly avatar. However, it is heavily implied that IT's true form still exists within the Macroverse and is eternal and can never truly be killed.

Regeneration: IT can also quickly regenerate when it does receive a wound. This was shown when IT instantaneously healed after being shot in the face by Bill and Richie when it chased them down Neibolt Street.

Dream Invasion: It is also implied that IT can invade dreams, as it tells Eddie that it "will see him in his dreams" when taking the form of the leper at 29 Neibolt Street.

Insanity Projection: No mortal mind can perceive IT's true form, even Bill when his psychic power was insanely boosted by Gan and The Turtle. Anyone who sees IT's true form is driven instantly insane or drops dead from shock.

Chlorokineis/Flora-cide: With a touch IT can instantly cause plants to die. This is shown when Eddie (young and adult) encounters It in its leper form. It must be distinguished from the illusions mentioned earlier as this effect persists long after It's appearance although it does not serve any practical purposes.

Telekinesis: IT can manipulate inanimate objects making them fall, float around, and behave supernaturally. This includes locking doors and electronic devices. It can also affect human bodies, as demonstrated when it sent Eddie flying against a wall merely with a glance in his direction.

Superhuman Strength: Although IT is not a physical entity, it is still capable of superhuman attributes. This was shown when IT could tear the heads and limbs off children with extreme ease.

Superhuman Speed: Bill noted that IT can move at extreme speeds, claiming that it was way faster than an "express train".

Limitations/shortcomings:

Emotional immaturity and impulsiveness: For all his bravado and impressive meddley of powers, Pennywise is also rather hedonistic and emotionally immature. He often does whatever appeals to him instantly and never seems to plan ahead or take precations. He also has a childlike need to cause a commotion and get attention rather than get on with killing his opponents. His arrogance and shortsightedness are ultimately what had led to his undoing. He felt the need to take on all the losers together to reafirm his supposed invincability rather than accept his limitations and pick them off while they where seperated.

Physics: Pennywise has to obey the laws of physics so any shape and texture he adopts must abide by the shape of it's form. If he wants to fly, he has to have wings, if he wants to crawl through tight spaces, he has to to take on a small form.

Anger, insults, and his own fear: Aggression, physical violence,and verbal abuse while deprived of fear will cause pennywise to shrivel and whither into a fetal blob. He will try to flee before he shrinks too much but if cornered, he will become an easy target.

Freddy Krueger

Amanda Krueger was a nun working in a hospital, and was raped by over 100 psychopaths. She became pregnant with a son, who was named Freddy. Later in his life he became a murderer in Springwood notorious for killing children. The media labeled him the Springwood Slasher. He was apprehended, but later released because of a technicality. According to the original film, it was because someone didn't sign the search warrant in the appropriate place. The parents of the children tracked him down and found him in the boiler room where he took his victims. The parents poured gas into the room and set him on fire, which caused his melted-like facial features.

Film series events

In A Nightmare on Elm Street through A Nightmare on Elm Street 5: The Dream Child, Krueger was referred to as an urban legend. The Elm Street parents remained tight-lipped about the events of the decade before, especially now that their children were teenagers. In the closing months of 1981, the children of Springwood, in particular those teens whose parents had formed the mob that killed Krueger, began dying in peculiar ways as they slept. The parents often ignored or denied the pleas of their terrified children, who told tales of a mysterious man named Freddy who was terrorizing them in their dreams.

Krueger met three notable female adversaries in the period before Freddy's Dead: The Final Nightmare:

Nancy Thompson (Heather Langenkamp): Nancy, whose family moved into Krueger's old home, was the first of the Elm Street children to learn about his past and the first to vanquish him. Nancy returned in A Nightmare on Elm Street 3: Dream Warriors, only to be killed by Freddy, who had taken the physical form of her father as a disguise.

Kristen Parker (Patricia Arquette/Tuesday Knight): Kristen was a girl with the ability to bring people into her dreams. In A Nightmare on Elm Street 3: Dream Warriors, she, along with the last surviving "Elm Street children" battled Freddy in the dream world using self imaginative dream powers. Kristen used her natural gift of pulling others into her dream as a way for the group to battle Freddy at the same time. She was killed by Freddy in A Nightmare on Elm Street 4: The Dream Master by being tossed into his boiler and burnt to death.

Alice Johnson (Lisa Wilcox): Alice gained Kristen's power and the dream powers of her friends to become the Dream Master. In A Nightmare on Elm Street 4: The Dream Master, Alice removed the souls Krueger gained over the years and left him powerless. A year later, Alice became pregnant and Krueger started using the dreams of her unborn child to kill again in A Nightmare on Elm Street 5: The Dream Child. Alice vanquished Freddy a second time with the help of Krueger's mother, Amanda. After Krueger was contained, Alice moved away from Springwood before he escaped and caused the events in Freddy's Dead: The Final Nightmare.

The only male to ever be a main victim of Krueger and main protagonist of any the films, who at the end defeats Krueger, is Jesse Walsh in A Nightmare on Elm Street 2: Freddy's Revenge. Here, Freddy tries to enter the real world through Jesse's body. With the help of his girlfriend, Lisa Webber, Jesse regains control over himself and banishes Freddy back to the Dream World

## Death

After a decade of systematically slaughtering all of the children of Springwood in their dreams, the town was shown to be under Freddy's influence in Freddy's Dead: The Final Nightmare. By absorbing the souls of his victims, Freddy was now powerful enough to blur the lines between dreams and reality. The remaining adults were kept in a mass psychosis after their children had been murdered. When there was no one left to kill, Freddy sought to leave Springwood - hoping to continue his murder spree in another town full of more children. Only one person could arrange for this to happen - his daughter, Kathryn Krueger.

Krueger used what was left of his supernatural powers to find his daughter, who was now an adult named "Maggie Burroughs" (Lisa Zane) and was working as a counselor to troubled teenagers in another city. Since her mother's death, Maggie was raised by adoptive parents and had suppressed the disturbing memories of her early childhood. After catching up with Maggie, Krueger attempted to convince her to do his bidding. She proved, though, that a compulsion for murder was not hereditary and instead schemed with Doc (Yaphet Kotto), her coworker (and dream psychiatrist), to help destroy Krueger. After pulling him out of her dream and into reality, Maggie stabbed Krueger in the abdomen with his own glove and then shoved a pipe bomb into Krueger's chest, effectively killing him and releasing the dream demons that had given him his power.

## Other supposed deaths

The following is a list of times Freddy Krueger is killed or supposedly killed in each of the movies in the series.

Before the main events of the series, Freddy's mortal death took place in 1968 when the Parents of Elm Street burned him to death in a gasoline explosion in the boiler room where he had killed their children. Freddy was allowed to live on in dreams by three dream demons who travel the world, searching for the most evil soul.

In A Nightmare on Elm Street he is supposedly killed when Nancy Thompson (Heather Langenkamp) turns her back on him, draining his energy and making him disappear. However, he is not entirely gone, and somehow pulls her into a dream world (which she is eventually shown to have escaped in the third installment).

In A Nightmare on Elm Street 2: Freddy's Revenge, Freddy is supposedly killed when Lisa Webber (Kim Myers) is able to reach Jesse Walsh (Mark Patton), who Freddy is possessing. Due to the love between the two teenagers, Freddy is unable to continue possessing Jesse and burns to death. He apparently possesses Lisa's friend Kerry at the end of the film and is back to normal in the sequel.

In A Nightmare on Elm Street 3: Dream Warriors, Freddy's mortal bones are laid to rest by Neil Gordon (Craig Wasson), who then puts holy water and shines a cross on them, causing Freddy to vanish in the dream world. He returns in the sequel when he possesses Roland Kincaid's dog Jason and makes him go to the dream version of his burial site and dig him up.

In A Nightmare on Elm Street 4: The Dream Master, Alice Johnson holds a mirror shard in front of Freddy, reflecting his evil back at him and causing the souls of all the victims he had collected to tear him apart from the inside. He returns in the sequel by using the dreams of Alice's unborn son Jacob Johnson to enter the dreams of Alice and her friends.

In A Nightmare on Elm Street 5: The Dream Child, Freddy is turned into an infant by Jacob Johnson, and absorbed by his mother Amanda Krueger. He is last seen trying to claw his way out of her womb. He returns in the sequel after Alice and Jacob apparently leave Springwood and there is no one to keep him in check.

In Freddy's Dead: The Final Nightmare, Freddy is stabbed with his own bladed glove by his daughter, Maggie Burroughs (Lisa Zane), and then blown up with a pipe bomb. The explosion completely destroys Freddy and releases the dream demons giving him his power. Though Freddy actually dies in the real world at this point, he is able to come back from Hell in Freddy vs Jason by manipulating Jason Voorhees into killing residents of Springwood, giving him enough fear (and thus power) to return.

In Freddy vs Jason, he is stabbed by Jason Voorhees with his own bladed glove (which is torn off his body, along with the rest of his right arm), and then decapitated by Lori Campbell (Monica Keea) with Jason's machete. At the end of the film, Jason is shown carrying Freddy's head out of Crystal Lake, and the head looks at the audience and winks, signaling Freddy is still very much alive.

## Battle with Jason Voorhees

In the hybrid sequel, Freddy vs. Jason, Freddy was trapped in Hell. After Maggie defeated Krueger in Freddy's Dead: The Final Nightmare, the people of Springwood sought to revitalize their town. Figuring out how Krueger operated, the authorities and town officials covered up any and all traces of his prior existence, which included blacking out obituaries and quarantining anyone who had ever dreamed about, or had any knowledge of Krueger. Other countermeasures included giving Hypnocil, a drug that prevents people from dreaming, to the children moved to Westin Hills. As a result, Springwood returned to obscurity and subsequently repopulated with no ill effects.

Meanwhile, Krueger was unable to escape the boundaries of Hell, thanks to the complete ignorance of his existence to the people of Springwood, and the use of Hypnocil to prevent those in Westin Hills from dreaming. Due to the fact that no one so much as knew of him, much less feared him, Freddy was unable to gain enough power to escape. Thus, Freddy hatched a plan to resurrect the undead, immortal killing machine, Jason Voorhees. First, at the conclusion of Jason Goes To Hell: The Final Friday, Freddy pulled Jason's abandoned mask into the ground. Then, in the disguise of Jason's mother, Pamela, Freddy manipulated Jason into rising from the dead once more and going to Elm Street to kill more teenagers. Jason committed a few murders, which were then blamed on Krueger (as planned). As a result, Krueger began to get his equilibrium back. Enough fear fell over Springwood to make Krueger strong enough to haunt the town again. The problem, which Krueger had not counted on, was that Jason would not stop killing. He became irritated when Jason continued to slaughter "his kids" before he could. Thus, a bloody fight ensued between the two murderous icons that raged from the dream world to the waking world at Jason's old haunt, Camp Crystal Lake. The film ends with Jason walking out of Crystal Lake holding Krueger's decapitated head, which he winks to the audience, followed by Krueger's laughter, indicating his reign of terror may not yet be over.

Freddy's Rhyme

In the movies, Freddy's arrival is usually preceded by children in the dreams of his victims. They chant a rhyme about Freddy that warns others to stay away from him.

One, two, Freddy's coming for you.

Three, four, better lock your door.

Five, six, grab your crucifix.

Seven, eight, gonna stay up late.

Nine, ten, never sleep again.

Freddy's murders

Apart from about 20 children that he killed before he was burned alive by the parents of Elm Street, he killed around 40 after he fused with the dream demons and became able to enter dreams from 1981-1989.

---

Me: Freddy Krueger and Pennywise!

Qin: The monsters from Stephen King's "It" and Wes Craven's "A Nightmare On Elm Street!?" I thought they were dead!

Nicole: They are.

Breach: (glares at the Heartless Pennywise) Guys, go on ahead.

Ace: (glares at Heartless Freddy Krueger) We'll take care of these two.

Me: Show no mercy.

Ace and Breach formed portals that lead into the River of Fire and they banished them into the River of Fire for all eternity.

Nicole: That takes care of them.

Nico: Freddy Krueger and Pennywise, you both have failed this universe.

Me: They sure have.

Later we continued on and we arrived at the bridge gate that leads to the castle of Zhuqiaomon.

?: You're not getting away that easily!

We turned and we saw EVIL BEELZEMON!

---

Beelzemon first appears when Impmon accepts Caturamon's offer. With this new power, Impmon is able to warp digivolve into his Mega form, and Beelzemon was born. He is also granted control over a motorcycle that had previous controlled Guilmon. Calumon is the first Digimon he encounters when he briefly stops his motorcycle in front of the fatigued Digimon, however Calumon does not recognize him as Impmon and asks him for help. Despite Calumon's pleading, Beelzemon leaves him behind. Later, he tests out his new abilities on a swarm of Chrysalimon. After obliterating a few dozen, the rest digivolve into Infermon with Calumon's power. However, Beelzemon still defeats it and finally gets the chance to absorb data, before being approached Caturamon who told him now it was his turn to uphold his end of their bargain. He attacks the Tamers, and Renamon is able to recognize him as Impmon. However, the ensuing battle is interrupted by a fierce storm created by the reactivation of the unstable Juggernaut program.

## Attacking the Tamers

Beelzemon appears again at Digimon Sovereign Zhuqiaomon's Southern Gate to hinder Takato Matsuda and his group. During the following fight, Beelzemon's lust for power quickly overtakes him. Terriermon becomes Rapidmon and attacks Beelzemon with his Rapid Fire attack, but got blasted away by Beelzemon's Double Impact attack. Guardromon and Kyubimon also attacked Beelzemon Beelzemon attempts to finish off the weakened Kyubimon, but suddenly got stopped by Leomon, telling him that having power he had is not meant to be strong, and he will not allow Beelzemon to hurt the children. Angered by this, Beelzemon struck Leomon in the stomach, killing him and absorbing his data, leaving Jeri sobbing with sorrow. Takato, fueled by rage, yells at Beelzemon that he will pay for murdering Leomon, and WarGrowlmon furiously attacks Beelzemon, in an attempt to tear the demon apart with his teeth, only for him to push WarGrowlmon back. Takato then forces WarGrowlmon to dark Digivolve to Megidramon, born from Takato's anger and rage.

## Confronting Megidramon

After WarGrowlmon Dark Digivolved to Megidramon, and attacked Beelzemon by wrapping him with his tail and attempts to devour him at close range. At first, Megidramon seems have the upper hand, but when Makuramon appears to berate Beelzemon, calling him pathetic, Beelzemon kills the annoying monkey and absorbed his power (as well as absorbing Rapidmon and Taomon's power too), allowing him to regain his strength and push Megidramon back, defeating him with his upgraded power, knocking out the dark dragon.

## Fighting Gallantmon

However, after an epiphany, Takato and Guilmon are able to biomerge and form Gallantmon, who is an even match for the empowered Beelzemon. Nevertheless, Beelzemon soon gets the upper hand again when Caturamon appears to attack Lopmon for her betrayal of the Sovereign. Gallantmon destroys the last of the Devas, but Beelzemon sneaks up and loads Caturamon's data, gloating that the Deva got what he deserved. With this power boost, he nearly slays Gallantmon, until Guardromon distracts him with a Guardian Barrage, and Gallantmon is able to finally defeat Beelzemon with a Shield of the Just attack. But when Gallantmon was about to finish him, he is quickly stopped by Jeri, pleading him to spare Beelzemon's life.

---

Me: Oh shit! This is not good!

Nico: Evil Beelzemon!

Naruto: This is not good guys!

Nico: I can never figure you out. One minute, you're a good guy. The next, you're trying to commit attempted murder.

Evil Beezlemon: What can I say? I'm a complicated guy.

Nico: I really don't have time to fight you.

Evil Beezlemon: And I don't have time to explain myself.

Nico: Good. Then maybe, we don't have to fight.

Beezlemon: (smirks) Actually, I want to!

Me: I got this guys!

I went Super Ebonwu 30,000 Phoenix Firestorm and unleashed my full power!

Me: Lets dance Beelzemon!

I went at him with incredible speed and punched him in the face with devastating force and kicked him in the stomach.

Me: (Echoing) PHOENIX FIRE!

I fired a powerful fire blast from my hand and it hit Beelzemon and burned him. He screamed in pain as he was burned.

He then pulled out his guns.

Me: (Echoing) LIGHTNING WHIP!

I formed a rope of pure lightning and grabbed his guns and ripped them out of his hands and I fired them at Beelzemon and hit him all over with powerful bullet blasts.

Evil Beelzemon: (growls) This is why I don't play nice with you hero types.

Kion: (smirks) Yeah. We're just a pain in the ass, aren't we?

Me: And another thing! You will suffer for your crimes Impmon!

Beelzemon: (GROWLS FEROCIOUSLY) I'm not Impmon! I'm Beelzemon!

Nico: You are nothing!

I punched Beelzemon in the face.

Me: (Echoing) BLAZING HELIX!

I fired a powerful blast of fire from my wings and it slammed into Beelzemon and completely obliterated him in an instant and I downloaded his data and he was gone!

?: Jeri!

Jeri turned and she saw Leomon!

Jeri: LEOMON!

She went and hugged him. A piece of her heart has been returned to her.

Leomon: Thank goodness you're safe Jeri.

Jeri: I'm just glad you're back Leomon.

Leomon: Don't worry, Jeri. I won't leave you ever again.

Me: I'm glad you're back Leomon.

Leomon: Thanks J.D.

Me: Now we can help Jeri face her demons with the D-Reaper. Lets head back to Earth and use the simulator for it.

Nico: Okay.

We went back to Earth.

---

We were in the Simulator.

Qin: So what is the D-Reaper?

Me: It's a malevolent computer program that was first designed to control the growth of Artificial Intelligence.

I revealed the history of the D-Reaper.

---

The Reaper program was created in the late 1970s, allegedly by the United States Department of Defense, before Digimon and even the DigiGnomes, which appeared in the early 1980s. Though this is only set 30 years in the past of Digimon Tamers, in the fast-growing Digital World it is comparable to the Cambrian period (542-488 Ma). It was designed so that whenever the number of digital lifeforms surpassed a set amount, it would delete them to return the Digital World back to a state of nothingness, in order to prevent the Digital World from being overloaded. However, when it was written, the Digital World had a very small RAM size, and while the network has grown exponentially, the D-Reaper's threshold is still based on that early, tiny figure. With nothing to do at the time, the D-Reaper program went dormant and remained deep within the recesses of the Net.

At about this time, the "Creeper" virus infected ARPANET, the network belonging to the Department of Defense. It was deleted by the "Reaper" program, which was allegedly created for only this purpose.

In 1980, the Artificial Life research project "Tierra" began operations. However, the Reaper program causes mass genocide of Tierra's virtual lifeforms whenever they multiplied beyond a certain amount of memory. Throughout the 1980s, the SIGINT system known as "ECHELON" began operations under the leadership of the United States Department of National Security, which built communications bases in various nations across the globe. It is thought that the self-defense program used by ECHELON was a forerunner of the D-Reaper, or the program itself.

By the 2000s, the network had expanded exponentially. This created a huge influx of data into the Digital World, which the Digimon used to "digivolve" and change. Though the system was large enough to handle this load, the Sovereign Azulongmon sensed that it could reawaken the D-Reaper, and with the help of the DigiGnomes he transformed the "Catalyst" program into the form of a Digimon, Calumon. Though this greatly slowed the growth and Digivolution of Digimon, it was not enough to stave off the D-Reaper, which soon reactivated. At the time, though, it was still in an extremely primitive state, and the Sovereigns attempted to find solutions before the problem became too huge.

The D-Reaper kidnapped Jeri in order to learn more about humans, creating its first Agent to lead it to the Real World. The main part of D-Reaper followed the Tamers to the Real World through the Hypnos system and immediately began to spread over Shinjuku, keeping the Kernel Sphere high between the two towers of the Hypnos building, with Jeri sealed inside as its source of energy due to her grief. Only the Biomerged and Mega-Level (like Beelzemon) Digimon were able to fight it until it evolved into the Mother D-Reaper. Eventually, the D-Reaper began a global attack on Earth's electronic communication and most of the Digital World was destroyed by the D-Reaper. It deemed that both races were inherently destructive and therefore unsuitable to live. It called the Cable Reaper from the Digital World to assist it in its work. However, through the combined effort of everyone in Operation: Doodlebug, the D-Reaper was regressed back into its original, harmless state, no more complex than a simple calculator. MegaGargomon reversed the pull of the wormhole the Cable Reaper came through and was dragged back down by the Digimon Sovereigns, exceeding the speed-of-light, as the Mother D-Reaper and all the chaos got sucked into the hole.

---

Qin gasped in horror!

Qin: That program wanted to kill all of us!? That's terrible!

Nico: Not just us, but also the entirety of the Digital World as well.

Me: Varie dealt with the D-Reaper once before. She and the Tamers overpowered it and completely obliterated it into nothing.

Varie: Yeah. I remember that.

Me: Lets do it guys.

The Simulator Activated and we were now in the Shinjuku District at night and what we saw was horrifying. We saw the entire D-Reaper Bubble now at 100-times larger and it was more powerful than ever before!

Me: Whoa!

Nico: Holy Shit!

Lincoln: The D-Reaper is now much bigger than what we remember.

Henry: This is the D-Reaper at it's most powerful! We have to be ready for this guys. Now we have to make sure that the D-Reaper never takes our planet!

Me: All right guys! This is it! We're going in!

We powered up to our full power and the Tamers Biomerged and turned into their Digimon's Mega Level Forms!

We flew into the D-Reaper Bubble and we were now inside the D-Reaper Zone! It was a horrifying place and it looked like something out of an apocalyptic horror movie. It also looked like something from another planet. We also were feeling subatomic particles moving faster than the speed of light.

Me: Holy Shit! This place has been turned into Hell.

Naruto: No kidding.

Fu: We have to be ready for anything now that we're in here.

Me: Look up ahead!

We saw the Mother D-Reaper up ahead! It was the heart of the D-Reaper.

---

The Mother D-Reaper is an Ability Synthesis Agent. It is the form created when the D-Reaper unifies itself with ADR-01, ADR-09, and the consciousness of the humans and Digimon it has swallowed. Its body is made up of countless cords, optic fibers, and electrical and telephone wires, and when it appeared it swallowed the town of Shinjuku. It was designed by Kenji Watanabe.

Using Jeri's negative energy, the D-Reaper of the Real World underwent an advance evolution, reabsorbing its agents and becoming the Mother D-Reaper. It managed to create more powerful versions of its most deadly agents and swallowed all of Shinjuku, and the Tokyo Metropolitan Government Building, where Hypnos was located. The Tamers managed to get in (via the Red Card) and save Jeri before the Mother D-Reaper fell victim to the Operation. It was sucked into Juggernaut (Shaggai) and regressed back into a harmless program.

---

Jeri: It's the Mother D-Reaper!

Gallentmon: We have to be ready for anything!

MegaGargomon: Lets get it!

Lincoln: Heads up guys!

We saw the D-Reapers Agents: Bubbles.

---

The ADR-04: Bubbles is a Ground Combat Agent. Like the Searcher, it is a small Agent which appears in swarms, but it is able to use the wave motion guns on its arms to attack. It was designed by Shinji Aramaki.

These are small squid-like agents built for ground assaults, these Agents have pulse cannons in their arms and move in groups. They are rather weak and easily destroyed.

---

Sakuyamon: Looks like we've got company!

Laney: Soon to be dead company!

Laney fired numerous barbs covered with Strychnine Ω and killed all the agents in one fell swoop!

Then out came another agent: The Optimizer!

---

The ADR-08: Optimizer is a Mother Ship Agent. It is large, and somewhat like the mid-boss of a video game. It was designed by Kenji Watanabe, who focused the design on its huge size.

This giant Agent was a carrier ship and carried Bubbles in its body. It could also fire a powerful blue energy blast from its mouth. Proved to be a difficult opponent for Gallantmon, Sakuyamon, Justimon, and Guardromon to defeat. It was destroyed by Gallantmon when he obtained Grani. A second Optimizer in the finale was destroyed by Sakuyamon's Amethyst Mandala attack.

---

Me: Wow! That's a big ass fucker!

Sakuyamon: (Echoing) AMETHYST MANDALA!

Sakuyamon released a powerful barrier that purified it and destroyed it.

Another agent called Creep Hands appeared.

---

The ADR-05: Creep Hands is a Grappling Agent. It is a medium-sized offensive unit, which uses its spiral-shaped, stretchable arms for locomotion and hand-to-hand combat. It was designed by Shinji Aramaki.

This medium sized Agent was adapted for hand-to-hand combat. Its arms were extendable. Killed by Gallantmon and MegaGargomon in the first fight. One later appeared during the final assault on the D-Reaper and fatally damaged Grani with a hit before being destroyed.

---

Lola: Take this you ugly freak!

Lola fired a massive blast of fire at the Creep Hands and incinerated it.

We blasted numerous agents all over the place.

---

Pendulum Feet

The ADR-03: Pendulum Feet is an Antiaircraft Attack Agent. It is the first offensive Agent created by the D-Reaper, and uses its floating extensions to perform remote strikes. It was designed by Kenji Watanabe.

The first Agent of the D-Reaper the Tamers fought, it resembled a stereotypical wraith with a cloth-like body, a pumpkin-like face and cord-like limbs with sickles at the ends. It has the ability to mimic a Digimon's attacks. Built for aerial combat, it had a long-distance pendulum attack. After it was killed by Beelzemon Blast Mode, more appeared after the Tamers regained the ability to Bio-merge, but they were destroyed by Sakuyamon.

## Horn Striker

The ADR-06: Horn Striker is a Military Commander Agent. It is a medium-sized combat unit of overwhelming power. It was designed by Katsuyoshi Nakatsuru.[2]

This Agent was a green beetle-like agent with overwhelming strength and the ability to grow to gigantic proportions when wounded. It was very strong and took the combined powers of Sakuyamon, MegaGargomon, Justimon and Antylamon to kill it. They were mass-produced to serve as the second defense of the D-Reaper but were easily destroyed by Gallantmon Crimson Mode.

## Paratice Head

The ADR-07: Paratice Head (a mis-transliteration of Palates Head) is a Reconnaissance-in-force Agent. It is large, and somewhat like the mid-boss of a video game. It makes sinister, unpredictable attacks. It was designed by Kenji Watanabe.

The "Paratice Head" is a Reconnaissance-in-force Agent with many mouths. Its attack patterns were unpredictable, and its mouths speak with Jeri's voice. Killed by Guardromon and Justimon. Another one was killed by Guardromon alone. One of its many attacks is it can fire a red energy beam presumably from one of the many mouths on it or from the tentacles it has on it.

## Searcher

The ADR-02: Searcher is an Intelligence Gathering Agent. It is small, and has no offensive capability, but usually appears in large swarms. It was designed by Kenji Watanabe.

Created for information gathering, these small bird-like agents appear in large numbers. They are the only type of Agent not made for fighting. Guilmon tried to have a "staring contest" with one before Takato pulled him away. At first, the Tamers were wary of them, but they soon discovered they were relatively harmless. After the Tamers regained the ability to Bio-merge, Gallantmon was seen destroying many of these.

We were blowing many agents apart. We pressed on to the Mother D-Reaper!

Me: Lets blast that thing with our combos and final smashes!

Tyzonn: Lets do it! EARTH CYBER KEY POWER!

The Earth Cyber Planet Key went into Tyzonn's right arm device and enhanced his Mercury Ranger Powers 100-fold.

Sunstreaker: Right behind you Tyzonn! CYBER KEY POWER!

The Earth Cyber Planet Key went into his back and enhanced his electron pulse blasters 100-fold.

Tyzonn and Sunstreaker: QUICKSILVER ELECTRON BEAMSTRIKE!

They fired their blasts and the blasts combined and turned into a powerful silver energy laser and it hit the Mother D-Reaper and exploded with incredible power!

KRABBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Blast Off: Time for some pain! CYBER KEY POWER!

The Earth Cyber Planet Key went into his back and enhanced his X-Ray Gun 100-fold.

Maria: Lets short this monster out with water! EARTH CYBER KEY POWER!

The Earth Cyber Planet Key went into Maria's Right Arm Device and it enhanced her water powers 100-fold.

Blast Off and Maria: RADIOACTIVE MEGATSUNAMI DEATH SPLASH!

Maria fired a massive megatsunami and Blast Off infused it with his X-Ray blasts and it caused the wave to glow and it slammed into the Mother D-Reaper and exploded.

Me: Go get it Electivire!

I sent my Electivire.

Ben turned into Feedback!

Ben: FEEDBACK!

Me: Electivire, THUNDER BOLT!

Feedback and Electivire: SUPER LIGHTNING BOLT RAY!

Feedback and Electivire fired a massive blast of lightning at the Mother D-Reaper and it hit it head on and exploded with incredible power!

KRABBBBBBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Me: Lets see how you like our Final Smashes!

Leomon: I'll start us off! SUPERLION FIST OF THE BEAST KING!

Leomon fired a massively powerful lion head energy blast and it hit the Mother D-Reaper head on and exploded with incredible power.

KRABBBBOOOOOOOOOOOOOOOOOOOOOOOOOOMMMM!

Kion: You are not welcome here on Earth! ROARSTORM FIRE!

Kion used the Roar of The Elders and fired a massive blast of fire from his mouth and it hit the Mother D-Reaper and exploded.

KRABBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOMM

Jeri: This is for kidnapping me and trying to destroy the planet! LIONHEART SWORD BLADEBLAST!

Jeri fired a massive blade of yellow energy and it cleaved the entire Mother D-Reaper in Half!

Nico: D-Reaper, you have failed this universe!

Nico formed a powerful red energy ball and condensed it.

Nico: NEGATIVE KARMA BALL!

Nico fired a powerful energy ball right at the Mother D-Reaper and it hit it and exploded with incredible power!

KRABBBBBBBBBBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

The Energy ball obliterated the Mother D-Reaper in an instant and completely destroyed it!

Me: Nice shot Nico! Lets finish this cancerous freak for good!

We went at what was left of it and then I saw the J-Reaper come out!

---

The ADR-01: Jeri Type is a Spy Agent whose form is based on Jeri Katou from when she started becoming depressed. It was created in order to analyze human thought, and is the only Agent who can operate outside of the D-Reaper Zone detached from the umbilical cords. It starts out identical in form to Jeri, but can evolve into several variations. It was designed by Katsuyoshi Nakatsuru.

This Agent is created for the purpose of espionage, posing as Jeri Katou while the real one is in the Kernel Sphere. The infection begins when a small portion of the D-Reaper infects Jeri not long after Sakuyamon first appears. Song of Sakuyamon It stays dormant while in the Digital World, though it leads to Jeri's thoughts becoming more depressed Janyu's Ark and fully manifests in her personality once back in the Human World. Homeward Bound Takato Matsuki and Guilmon find this Agent masquerading as Jeri in the D-Reaper during one of their assaults on the program. It acts as the D-Reaper's mouthpiece. The D-Reaper's Disguise It wages a mental war against Takato by displaying the information it took from Jeri's memories, dealing emotional damage and keeping him off balance. When Takato is sufficiently weakened, the Agent reveals its true, monstrous form and begins to attack. It is only warded off by MarineAngemon's power. When Is A Mon Justimon? Eventually, when Jeri regains her will to live, it personally attacks Jeri to absorb her energy, but it itself is reabsorbed by the D-Reaper in the same manner. D-Reaper's Feast

The Jeri-type serves as the Mother D-Reaper's first line of personal defense, being made of cables and looking almost like Jeri's face, apart from its distorted eyes and overly large mouth. This avatar is able to incapacitate Gallantmon, but he manages to transform into Gallantmon Crimson Mode and destroy the face with his javelin. Jeri Fights Back

The Jeri-Type once again emerges as the last obstacle between the Tamers and the Kernel Sphere. it proves to be quite a challenge for Gallantmon Crimson Mode, destroying his weapons and slamming him into the Mother D-Reaper itself. All the while, the Jeri-Type taunts the hero, saying that humans and Digimon are naturally destructive and do not deserve to exist. However, Takato and Guilmon refuse to give up, calling upon their full strength to break free and declaring they do deserve to exist, but the D-Reaper doesn't. With that, they deliver a devastating punch to the Agent's chest, finally destroying her.

---

J-Reaper: (Technological Voice) **Negative, subject: J.D. Knudson.**

It went at me and I grabbed its hands.

J-Reaper: **Humans and Digimon exist only to destroy or be destroyed. An exercise in futility. Humans desire total annihilation. Therefore their existence is pointless!**

Me: You have no fucking right to decide that! My life is not pointless and neither is everyone else's! We have a right to live and protect the people we care about and that's something a warped freak like you can never understand!

I spread her hands away and punched her in the face. But then she punched me in the face and stomach at an extremely ferocious level and I did the same and it was a brutal and ferocious fight! She punched me in the mouth and kicked me in the stomach and I belched out a huge amount of blood.

J-Reaper: **You are persistent. But you're only delaying the inevitable!**

I was punched in the face with devastating force and sent crashing into the ground with incredible force!

CRAAAAAAAAAASSSSSHHH!

J-Reaper: **YOU DO NOT DESERVE TO EXIST!**

I was then fed up with her talk! I exploded out of the ground and went flying at her with incredible speed and power!

Me: WE DO DESERVE TO EXIST!

I punched the J-Reaper in the stomach with devastating force!

Me: YOU DON'T!

The J-Reaper was destroyed in an instant!

Nicole: Time to make sure this ugly monster never haunts our planet ever again!

Nicole opened up the portal into the River of Fire and it sucked in the entirety of the D-Reaper and it was gone for good!

Me: It's over guys! We won!

We cheered wildly!

Leomon: (To the Viewers) Rogue Programs better beware, because you will never be a match for Team Loud Phoenix Storm.

Me: You got that right Leomon.

We went back home and we rested. Nico caught a Melmetal.

As we went home, 2 friends of the Power Rangers were gettin ready to reunite with their friends. it was the two remaining Turbo Rangers Justin Stewart - the youngest ever Power Ranger, and the Blue Senturion.

Justin Stewart: Are you ready to see our friends again Blue Senturion?

Blue Senturion: Always ready Justin.

They were off to the estate.

A car driving transition was seen as the screen turned black.

THE END

Another Fanfiction Complete and part 12 of the 13 Days of Horror saga complete.

The D-Reaper of Season 3 of Digimon was the scariest enemy I've ever seen on Digimon back then. It was awesome! NicoChan11 gave me the ideas for this. Thanks man. Next for the grand finale is The Scarecrow Walks At Midnight and we're gonna burn some scarecrows! Let me know what you all think.

See you all next time.

# The Scarecrow Walks at Midnight

At the Gotham Royal York Graveyard, Bruce, Eddy, Laney, Lincoln, First Aid, Maria, Vortex, Lola and Sam S.L. were visiting the graves of Bruce Wayne's parents, Thomas and Martha Wayne.

Batman: (to the graves of his parents) Hello, Mother. Hello, Father. I'm sorry I haven't visited for a while. I've been too busy helping Team Loud Phoenix Storm with their adventures. And most of them are right here in Gotham Royal York. I have done a very good job at helping to take most of Gotham's criminals down while redeeming them. I just hope that makes you proud.

Lola: They would be very proud of you Bruce.

Sam S.L.: I'm sorry about your parents Bruce. What Joe Chill did to your mom and dad was unforgivable.

Vortex: I may be a robot, but even us Transformers have feelings when it comes to family.

Laney: That's right. Joe Chill was a total monster that deserved to be killed no matter.

But then they got an unexpected surprise when they saw SCARECROW!? WHAT IN THE FLYING FUCK IS GOING ON HERE!?

Eddy: (to scarecrow) Back for more, Scarecrow?

The scarecrow just stared blankly at him.

Eddy: Anyone home?

Vortex: I don't think that's Scarecrow. At least, not the one Bats fought in the past.

Lola: I'm not taking chances. (Forms a fireball in her hands) How about a little fire Scarecrow?

Lola threw the fireball and burned the Scarecrow into ash!

Laney: It was a real scarecrow!

First Aid: It was a scarecrow purely made out of straw. But why would it come here just to attack us?

Maria: It's probably another Goosebumps monster. Let's head back to the estate to find out more about it.

Laney: Lets do it.

They went back to the estate.

At the Ceres Asteroid Prison for Fuckhead Perverts, Me, Nicole, Volcana, Brian, Xander, Meg, Stewie and Nico were visiting Quagmire. With us was Quagmire's daughter Courtney Quagmire and she was ready for some answers.

Me: Hello Glenn Quagmire.

Quagmire: Well if it isn't the Quahog destroyers!

Nico: Quahog got what it deserved you fuckhead.

Quagmire: (to Brian) Well, how's your perfect life been you no good douchebag?!

Volcana: His life has been fine, you pervert!

Me: We actually came here to correct something you said to Brian earlier.

Quagmire: What!?

Me: Brian told us that you did a terrible rant at him at a local restaurant. And we're here to correct that.

Brian: That's right! I'll tell you! You are the most terrible person I have ever known! You criticize me for hitting on Lois when you had been friends with Peter longer than me! I have regretted throwing myself on Lois and I promised never to do that again! And I have kept my promise! You were once arrested for peeping on her in the bathroom and all of the women in the entire town before it was destroyed were demanding that you be expelled from the neighborhood! And you tried to hit on your best friend's daughter only managing to wait this long until she turned 18! I was willing to sacrifice my life for Peter's when he had kidney failure! And so what if I defecated on his yard?! I'm a dog! That's what a lot of us do! And you say that I never pay for anything?! Well legally, Peter owned me before he died, so of course I was going to depend on him! You say I date women only for their bodies? I dated two old bags before! And you're not honest about it! You either drug and rape them or dump them after a night of sex and make them feel worthless afterwards! I at least try to establish a relationship with them! I am surprised you are now here in jail floating in space. Wait I'm now surprised It's because your cop friend Joe happened to turn you in with the help of Team Loud Phoenix Storm! And you lied to him about being a virgin so you can do his wife Bonnie and you are currently waiting to screw their daughter! I did kiss Bonnie, but I apologized to Joe afterwards. You just told him off as if though it was nothing! I should also mention that you destroyed Cleveland's marriage by screwing his wife Loretta! You also happen to be a sex offender! Damn I can't stand you! And your only excuse for your behavior is that Cheryl Tiegs dumped you! She dumped you because you were a prick! And you also blamed your mother for her neglect in your childhood. Boo-hoo! I was abandoned by my mother! And you complain about my textbook liberal agenda?! Well there's plenty of others with the same views as me! You say I don't do anything to help people?! I helped Peter expose McBurgertown after he had a stroke and I was the first one who offered to donate their kidneys after he had kidney failure! And working in a soup kitchen doesn't make you a saint! You probably only do that to prey on somebody in need! And you hate me for being an atheist. I sure didn't see that coming! What religion do you believe in Glenn?! You committed every sin to the human race! I failed college twice because I was not going to cheat my way through life! And you call me a bad father?! I helped turned my son around and turned him into a straight A student and he left me so he could do the same for his mother! What about that daughter of yours? I'm sorry! I forgot! You gave her up for adoption because you wanted to maintain your sex life! And you are waiting to do her in 18 years! You had a home, money, and time! But no! Sex was more important to you! Some father you are! And you call me a sad alcoholic bore?! I see you drinking all the time at the Drunken Clam with Peter, Cleveland, and Joe! And I could forgive all of that if you just remembered that I'm a dog! A fucking dog! That's the sad part about you! You've become so fixated on other people's flaws that you've embraced your own! I don't even know why I tried to be friends with you?! I learned that you're the kind of guy people shouldn't be friends with! If I'm friends with you, you'll probably end up screwing my girlfriend or wife! Bye you piece of shit! And you owe me for the fucking steak!

Nico: Yeah! You tell him Brian.

Xander Bly: (to Quagmire) (Australian Accent) Mate, Brian might not be perfect. But he's twice the person you'll ever be!

Me: I'll get you a steak later Brian. But Brian is right Quagmire. You are a nothing more than a piece of fucking shit! You are also nothing more than a goddamned fucking rapist!

Quagmire gasped! Everyone in the prison gasped!

Quagmire: I'm not a rapist!

Me: Bullshit! You drugged and seduced a lot of unsuspecting women and they all had sex with you because of your stupid pervert nature! Brian has a lot of Girlfriends and you think he did what you did to them? Hell Fucking No! You pumped them with drugs and raped them! And then once you're done with them, you dump them onto the street like they are trash! You treat women like they're nothing but sex toys! As far as I'm concerned, Quagmire, you are the ultimate enemy of all women everywhere! You're nothing more than a chauvinistic son of a fucking bitch and a fucked up rapist!

Quagmire: (Points his Finger at me) You will never talk to me like that again you son of a fucking bitch!

I then bit his whole finger and he screamed in excruciating pain! I spit out his finger.

Me: Yuck. That was just your finger. Next time it will be your whole fucking hand! No one ever talks that way about my mother! You're nothing but a red shirt fucking piece of fucking shit! Next time you threaten a woman again, I'll rip your crotch off and shove it so far down your throat that you'll be urinating in your stomach!

Quagmire: You're a fucking psychopath!

Me: I don't give a flying fucking shit what you think of me. Also Brian has done a lot of heroic deeds with all of us. He also helped us destroy Quahog and he did all kinds of humiliating things to your so called friend Peter Griffin and he did all kinds of great things that many people could never achieve. He helped us throw Captain K. Roll into prison and kill Long John Peter, and he also helped Stewie kill Bertram and many more deeds.

Stewie: Oh and Quagmire, I have something for you.

Stewie then beat up Quagmire with a baseball bat, and shot his legs with a gun and bashed him with a golf club.

We left.

Me: Oh and Quagmire, you have a few girlfriends who want a visit. GO WILD GIRLS!

All the girls that Quagmire drugged and raped ran to his cell and went in and they beat the living shit out of him! He screamed in agony as he was beaten to within an inch of his life.

Nico: Glenn Quagmire, you have failed this world as a man and as a human being.

Me: He sure has.

Brian: This turned out to be really good. I'm glad that Quagmire is in here.

Me: You sure showed him though Brian. Great job.

Brian: Thanks J.D.

We went back to the estate.

* * *

At the estate, we were watching TV and Nico was looking over his Goosebumps Books.

Nico: So you guys saw a living scarecrow in the graveyard?

Maria: We sure did.

Nico: I think you guys may have found us our next target. The Scarecrow Walks at Midnight.

Nico held up said book.

Me: That one was creepy.

* * *

The Scarecrows appeared in the book and TV episode. They are inanimate scarecrows brought to life by the main villain of the book so that he can take over the farm. They attempt to get into the house multiple times in the episode. One of them is later seen attacking one of the protagonists, Jodie. They break through the barn house wood and attack everyone. In the book the scarecrows all die by being burned to ash by Sticks, one of the protagonists' friends. In the television episode, the scarecrows are shredded by the thresher, activated by Mark, one of the protagonists.

* * *

Lana: Those Scarecrows are monsters!

William: So we're going to a farm this time? First time one of our adventure has ever took place near one.

Liam: (Southern Accent) Whoo yeah! First time we did an adventure on the farm!

Carmen: I've always wanted to see what it's like on a farm.

Me: It's all work guys. My dad worked on a farm a lot over in Iowa.

Iowa, Missouri, Nebraska and Texas are the best farming states in the country.

Lori: That's literally interesting.

Lincoln: Where does the book say that it takes place in?

Nico looked at the book and saw that it said nothing.

Nico: Hmm. It doesn't say.

Me: Lets see here.

I scanned the book and it said that it takes place on a farm in Iowa. It was located on the edge of Elk Horn, Iowa.

Me: Elk Horn, Iowa?

Liam: That's an interesting place.

Me: And it looks like a perfect place for a lot of crows to go and eat corn. Iowa is known for growing a lot of corn.

Nico: That's right. And Scarecrows are known for keeping the crows away.

Me: Yep. Fire will burn these scarecrows into ash. Lets go!

We were off to Elk Horn, Iowa.

## ELK HORN, IOWA

---

In the home of Jodie and Mark's grandparents who live on an awesome farm, Stanley and Miriam were having pancakes.

Jodie: I love pancakes. I hope the scarecrows won't get us this time.

Stanley: You know, I put the scarecrows to sleep if Miriam made my favorite foods and Kurt stopped telling scary stories. But now, I actually like Miriam's pancakes.

Miriam: Thank you, Stanley.

Stanley: Kurt's stories still scare me, though.

We were walking down the street to Stanley and Miriam's house.

Me: Wow! They have a really nice farm here.

Vince: They sure do.

Carol: It sure is amazing that Iowa has all this corn.

Me: Iowa is one of the major corn exporters of the country. Also Iowa is where the 1984 film "Children of The Corn" was once filmed.

Nico: I remember that story. That was so terrifying.

Lucy Loud: I remember that book. It's about a terrifying cult that kills people in the name of a bloodthirsty deity.

Lincoln: That is scary Lucy.

Laney: I remember that book also. It was really scary. Mystery novels are more my thing.

Me: I know. It was all ritualistic killing. Probably Satanic killings. But I have a feeling we're going to encounter that cult one day in the future and it's gonna be a bloody battle.

Nico: But if we do, we're gonna kill them all.

Me: Normally it goes against our code to kill kids. But because that was a terrible cult, we'll make an exception.

Lola: I heard that a lot of Crop circles were made in Corn fields!

Me: Oh yeah! For decades, many people all over the world thought that crop circles were the works of aliens drawing designs into crop fields.

Lisa: That is correct. But it was proven to be nothing more than a practical joke.

Me: I know. But the scariest movie that had them was Signs.

Nico: Ooh! I remember that movie. That was a scary one.

Me: Those aliens in that movie though were ugly.

Shanan: I looked up where they were from though. They are called the Neptreptons and they from the distant desert planet of Neptrepros VIII.

Lana: That planet sounds dangerous.

Shanan: It is. The Neptreptons are very phobic of water and it kills and burns them like acid. Even the slightest drop of water can kill them.

Ben: That's very similar to the Limax's.

Shanan: The slime aliens that took over your Aunt Vera's home and tried to eat her?

Ben: Yeah. The Limax's hate water. They come from the desert planet of Liman.

Syd: That is so freaky! I would not want to meet aliens like that.

Me: Wow! That is very similar. We're here.

We arrived at their farm and went up to the door and I knocked on it.

Stanley: Get that for me Jodie.

Jodie answered it.

Me: Are you Jodie?

Jodie: Wow! Team Loud Phoenix Storm!

Me: That's right. It's a pleasure to meet you Jodie.

Jodie: Your adventures are so awesome! We love how you take down all the bad guys.

Nico: We try to do what we have to while making the world safer.

Jodie: So awesome! Come on in.

We went in. Miriam had a lot of pancakes for us.

Jodie: So you all met a lot of Goosebumps monsters and they are all real.

Nico: Yep. We sure did. I formed my own team with all the people that met and faced all these monsters before. We're a branch of Team Loud Phoenix Storm called the Goosebumps Monster Busters.

Carly Beth: Yeah it was awful seeing them all.

Sabrina Mason: But they all deserve to be destroyed.

Maria: We had an encounter with one of the scarecrows at Gotham Royal York Cemetery and Lola burned it to ash with her fire powers.

Jodie: That's good.

Stanley: We think that the scarecrows are building something. Something big.

Me: Then we better get ready for what they have planned. This is gonna be a big fight.

Jodie: I want to come with you guys.

Carmen: Are you sure? It's gonna be incredibly dangerous Jodie.

Jodie: I'm more than willing to help out Carmen. I want these scarecrows to suffer and burn!

Me: Okay if that's your choice. Lets go.

We were off into the cornfields.

We were walking through a path in the cornfields. It was a tall cornfield. The corn plants were 7 to 8 feel tall. It was really tall and it was very easy to get lost in them.

Laney: Boy look at all this corn.

Lyra: This is a huge amount of corn!

Me: Iowa is the biggest corn producing state in the country. It's where a lot of companies and grocery stores get it.

Leni: Is corn good for you?

Me: Not as good as other vegetables Leni.

Then we arrived at a clearing with a bunch of piles of straw and a big barn was in front of us.

Scott: Alright. Those scarecrows are building something. So, we better follow them to find out what.

Casey Rhodes: Time to call out the Spirit Rangers!

Casey and the Jungle Fury Rangers called forth the Elephant, Shark and Bat rangers.

Jungle Fury Rangers: JUNGLE BEAST! SPIRIT UNLEASHED!

The Jungle Fury Rangers Transformed!

Casey Rhodes: With the Strength of the Tiger! Jungle Fury Red Ranger!

Lily Chilman: With the Speed of the Cheetah! Jungle Fury Yellow Ranger!

Theo Martin: With the Stealth of the Jaguar! Jungle Fury Blue Ranger!

R.J. James: With the Courage of the Wolf! Jungle Fury Wolf Ranger!

Dom Hargen: With the Power of the Rhino! Jungle Fury Rhino Ranger!

Jarrod: With the Spirit of the mighty Lion! Jungle Fury Lion Ranger!

Camille: With the Cunning of the Chameleon! Jungle Fury Chameleon Ranger!

We saw them transform and it was awesome!

Me: Wow! That is so awesome! Just like on TV.

Lily Chilman: It sure is.

Casey Rhodes: You ready for fighting the scarecrows J.D.?

Me: You know I am Casey.

They summoned the Elephant, Bat and Shark Spirit Rangers.

Liam: (to the spirit rangers) You know, anytime you three want to speak, feel free to do so.

Spirit Elephant Ranger: With the Spirit of an Elephant! Jungle Fury Elephant Ranger!

Spirit Bat Ranger: With the Spirit of a Bat! Jungle Fury Bat Ranger!

Spirit Shark Ranger: With the Spirit of a Shark! Jungle Fury Shark Ranger!

Me: Wow! The Spirit Rangers!

R.P.M. Rangers: R.P.M. GET IN GEAR!

The R.P.M. Rangers transformed!

Me: Wow! So awesome! Just like on TV.

Flynn McAllistair: (Scottish Accent) Thanks lad. You all have been watching us.

Me: We sure have Flynn.

Jodie: That is awesome! I'm a huge Power Rangers Fan! It's so awesome how you guys all kick butt!

Scott Truman: We have been very popular for 26 years now Jodie.

Me: Since 1993.

Then we saw the Scarecrows come out!

Me: Here they come! Lets power up and burn!

We powered up and transformed and flared up our power.

But then the barn opened up and out came a huge scarecrow machine! It was a huge Scarecrow!

Jodie: (sees the giant scarecrow) The scarecrows were never that smart to build something like this before.

Me: Nope. But they will be burned!

Nico: Lets burn these Scarecrows into ash!

Me: Ready rangers?

R.P.M. Rangers: READY!

Jungle Fury Rangers: READY!

Me: LETS BURN RUBBER AND UNLEASH THE BEAST! Lets get them!

We went at the Scarecrows. I punched one in the face and kicked him away and I threw him into the air and fired a powerful blast of fire and burned him into ash.

Me: One down and who knows how many to go.

Nico kicked one in the crotch and it tooted like a steamwhistle and went flying into the air.

Nico: You scarecrow fucks have failed this farm and country! NUOVA STAR!

The 4-Star Dragonball on his bracelet glowed and he formed a powerful ball of fire and threw it at the Scarecrow and it hit it and incinerated it in a powerful explosion of fire.

KRABBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOM

The scarecrow was incinerated into ashes in an instant.

Lola: You scarecrows are making the Scarecrow of the Wizard of Oz look like a crook!

Laney: That movie aired 80 years ago Lola.

Lola: I know.

Lola fired a powerful blast of fire at 2 Scarecrows and incinerated them in an instant.

Lincoln fired a powerful blast of lightning at a scarecrow and incinerated one.

Lincoln: You Scarecrow monsters are freaks!

Sam S.L.: You make all farm scarecrows look like piles of straw!

Sam fired a powerful blast of fire and burned a bunch of them! Carmen and Suzi fired a powerful blast of fire and incinerated a bunch of them.

Carol: You give the name scarecrow a really bad name!

Carol fired a powerful Spiral Atomic Ray at a bunch of scarecrows and obliterated them in an instant in a bunch of powerful explosions.

Lori blew a bunch of scarecrows in a powerful tornado and Lola fired a powerful blast of fire and burned all of them all at once!

Lori: You Scarecrows literally disgust me!

Lucy Loud fired a powerful blast of black lightning and electrocuted a bunch of scarecrows and burned them into ash.

Lucy Loud: You guys would frighten even the most evil of birds.

Lucy then sensed a powerful energy spike!

Lucy Loud: What is that?

She went into the corn field and she then fell down a hole and into a dark cave.

Lucy Loud: Ow.

But then she got up and she saw a strange sword in a dark stone. It was a powerful sword. It had a purple fire-like hilt and a purple handle and the blade was grey and purple!

Lucy Loud: Gasp! What an amazing sword.

She went over to it and grabbed the handle and she then pulled it out of the stone and it was a powerful sword and then a black aura flared up around her and she underwent a massive and powerful change! She was changing dramatically! When the black aura faded, Lucy was forever changed! She looked like she was now 17 years old now and she had longer black hair in a ponytail and she had black vampire bat earrings and a black choker around her neck, a black shirt, grew long fingerless gloves, black pants and black leather boots. She also had black angel wings that were blacker than the night and she also had her vampire fangs exposed. She was now a SUPER ANGEL 20,000 DARKNESS VAMPIRE RAVEN!

Lucy Loud: (Older Voice) Gasp. I look amazing. This sword unleashed the full extent of my power and now I'm far more powerful than ever. Now to help everyone out.

Lucy flew to us faster than ever and she swooped in and slashed a bunch of scarecrows and they exploded into black fire!

We gasped at what happened to Lucy!

Lincoln: Lucy!? What happened to you?

Lucy Loud: I'm not sure myself, but it might be because of this sword.

Brittney then recognized the sword and gasped!

Brittney: (Gasp) I don't believe it! Lucy, that sword is one of the most powerful swords in the universe! That's Nizogamourne, the Sword of Eternal Damnation!

Lucy Loud: Is that this sword?

Brittney: It's one of the most fearsome swords in the universe! Who or whatever it slashes is instantly sent off to the fire of Hell to burn for all eternity!

Me: Wow! That sword sounds like it's incredibly dangerous!

Brittney: It is dad.

Lucy Loud: I will only use it on the most irredeemable of bad guys.

Me: Very wise decision Lucy. Lets finish these straw piles.

Casey: Lets do it!

Casey Rhodes fired a powerful blast of energy in the form of a tiger and Scott Truman fired a powerful blast of energy from his Nitro Blaster.

Casey Rhodes and Scott Truman: TIGER SPIRIT NITROBURST!

The blasts combined and slammed into a bunch of scarecrows and they exploded into powerful flames!

KABOOOOOMMM!

The scarecrows were torched.

Flynn McAllistair: Time to burn these monsters!

Theo fired a powerful blue Jaguar energy blast and Flynn fired a blue Nitro Blaster blast.

Flynn McAllistair and Theo Martin: JAGUAR SPIRIT BURST!

The blasts combined and turned into a powerful energy blast in the form of a jaguar and they hit the scarecrows and exploded.

KRABBBBOOOOOOOOOOOOMMM!

Summer: Lets tear them apart!

Summer fired a yellow Nitro Blaster blast and Lily fired a Cheetah Energy blast.

Gem and Jungle Fury Jarrod: GOLDEN LIONDRAGON FIRESTORM!

Gem and Jarrod fired a powerful blast of energy and they combined and turned into a powerful lion dragon made of pure fire and it slammed into a bunch of scarecrows and incinerated them.

Gemma and Jungle Fury Camille: SILVER CHAMELEON TONGUELASH!

Gemma fired a blast of silver energy and Camille fired a powerful blast of green energy and the blasts turned into a silver and green chameleon and it lashed a bunch of scarecrows and burned them.

Tara and Spirit Elephant Ranger: EARTHQUAKE ELEPHANT STAMPEDE!

Tara fired a powerful blast of earth energy and the Spirit Elephant Ranger fired a powerful blast of green energy and the blasts turned into a powerful elephant made of solid rock and it slammed into a bunch of scarecrows and buried them underground.

Lucy Loud: Lets see what this sword can do.

Spirit Bat Ranger: That sword is powerful. But be careful Lucy.

Lucy Loud: I will.

Lucy Loud and Spirit Bat Ranger: DAMNATION FIRE DEATHBLADE!

Lucy fired a powerful blade of black fire and the Spirit Bat Ranger fired a powerful black blade as well and the blasts combined and turned into a deadly X Blade of pure black fired and it slashed a bunch of scarecrows and they were incinerated in an instant.

Haiku: Lucy that sword is amazing.

Lucy Loud: It sure is Haiku.

Rocky: Lucy, you look incredible!

Lucy Loud: (Blushes) Thanks Rocky.

Maria and Spirit Shark Ranger: MEGATSUNAMI SHARKNADO OBLITERATION!

Maria formed a powerful tornado of pure water and the Shark Spirit Ranger fired a powerful blast of aqua blue energy and it turned into powerful sharks and they ate some of the scarecrows.

Maria: I hope those sharks are vegetarians.

Daredevil: Time for some real martial arts.

Snake Eyes: Right behind you Matt.

Daredevil and Snake Eyes: SOUNDWAVE MOTIONSLASH DEATHBLADE!

Daredevil used his martial arts and Snake Eyes slashed them all over.

We killed all the scarecrows and all that was left was the giant scarecrow!

Me: Now lets take down this giant stupid scarecrow!

First Aid: I'm ready boss! CYBER KEY POWER!

The Autobot Cyber Planet Key went into his back and it enhanced his Photon Pistol 100-fold.

Xander Bly: Lets do it mates! ANIMATRON CYBER KEY POWER!

The Animatron Cyber Planet Key went into his right arm device and it enhanced his Mystic Force powers 100 fold.

First Aid and Xander Bly: MINOTAUR PHOTON BURST!

Vortex and Volcana: FIRESTORM DEATHFLARE STRIKE!

Vortex fried powerful blast of wind and Volcana fired a powerful blast of fire and the blasts turned into a deadly tornado of fire and it incinerated the giant scarecrow instantly! Revealing a smaller scarecrow inside it. It was the Scarecrow from the book!

Me: It's the original Scarecrow! The rest were clones and soldiers!

Liam: Lets finish this monster for good! THUNDERSNOW FREEZE

STRIKE!

Liam fired a powerful blast of snow and lightning and he froze the scarecrow and electrocuted it!

Jodie: This is for terrorizing my grandparents farm! FIRESTORM PLASMA INCINERATION!

Jodie fired a powerful blast of solar plasma and it completely obliterated the scarecrow in an instant! We then sent the scarecrows evil spirits into the River of Fire!

Me: Good riddance to those monsters. It's over! We won!

We cheered wildly!

We went back to the farmhouse and told Stanley and Miriam.

Stanley: We're free!

They cheered and hugged. We were confused.

Me: What are you free from Stanley?

Stanley: You see, the reason I was so paranoid about superstitions is because we were cursed.

Me: Cursed? How?

Stanley: It was many years ago at a local fair. I was cursed by a gypsy fortune teller and she vowed that a scarecrow would come to life whenever we harvest the corn from the lands. We were ordered to leave the farm by 12:00 Midnight. But we refused. So I stayed and didn't harvest anything for a long time.

We gasped.

Me: That's horrible!

Varie: No kidding.

Qin: I'm glad we stopped that curse.

Rachel S.D.: That's awful. A Curse like that is a terrifying thing.

Jodie: So that's why you were so paranoid with superstitions.

Lynn: I know that feeling all too well.

Me: That's awful Stanley. But I'm glad we freed you from it.

Nico: Me too.

Jodie: (To the viewers) Don't run into gypsies at a local fair or you will be cursed.

Me: You got that right Jodie. But you did really well.

Jodie: Thanks J.D.

We went back home to the estate and Jodie was made a member of the Goosebumps Monster Busters.

Elsewhere, at a dojo, there were 6 awesome friends getting ready. They were the Samurai Power Rangers.

Jayden Shiba: This is gonna be awesome helping out Team Loud Phoenix Storm.

Emily: I know.

Kevin (Samurai): Yeah.

Jayden: Lets do it!

Samurai Power Rangers: GO! GO! SAMURAI!

In a blinding flash of light they changed and the camera went white.

# Abracadaver, the Magical Zombie!

Chapter opens to the skyline of Gotham Royal York.

PPG Narrator: The Plant City of Gotham Royal York… A magical town full of magic and excitement! Here we are at the estate of Team Loud Phoenix Storm where magical things happen.

Lynn Sr.: (GROANS IN PAIN)

PPG Narrator: Something is happening that's for sure.

Inside Lynn Sr.'s bedroom we were looking at him in bed groaning in agony.

Me: Geez Mr. Lynn what happened?

Lynn Sr.: I threw my back out helping around the house.

Me: That hurts like you wouldn't believe.

Nico: No kidding.

Lily: I'm sorry your back hurts like this dad.

Lynn Sr.: It happens.

Wasp: I think what Mr. Lynn needs is a massage.

Varie: It's gonna take more than a massage to help him though. This could be more serious.

Lynn Sr.: (GROANS IN AGONY) (BONES CRUNCHING) (SCREAMS IN PAIN)

Me: (Cringes) Yichihuahuas!

Lana: That is really painful!

Francesca: Geez! And I thought Grandma Muriel was in so much pain when you guys were with us.

Bai Tza: No kidding. Muriel was in tremendous pain when we saw her like this.

Lincoln: I remember that.

Laney: Yeah.

Lynn Sr.: It can't be that bad. (BONES CRUNCHING) (SCREAMS IN PAIN!)

Varie: (Cringes) Oooh! That's gotta hurt!

I looked at Lynn Sr.'s back with my X-Ray vision and I saw that he ruptured a disk in his spine!

Me: Oh man! Mr. Lynn, I'm afraid this is more serious than we thought. You ruptured a disk in your spine.

Everyone gasped!

Lola: What is a Ruptured Disk?

Laney: It's a bad back pain where your spinal nerves press up against a disk and it tears it and that causes shooting back pain. It causes back pain that makes it feel like someone is shooting you with a shotgun.

Lori: Yikes! That literally must really hurt.

Nico: No kidding.

Me: My dad has problems with his back a lot and it hurts him bad.

Lincoln: Look at me though.

Lincoln was sitting on the sofa with an ice bag on his leg.

Laney: Sorry you hurt your leg Lincoln.

Lincoln: It's okay Laney.

Maria: Lincoln, I still don't see how this happened.

Lincoln: I pulled a muscle while helping Laney practice for her Ballet Recital.

Sora: I can fix that for you.

Sora used a potion on Lincoln and he was better!

Lincoln: Thanks Sora!

Sora: No problem Lincoln.

The doorbell then rang.

Arixam: I'll get that.

She got the door and there was the Blue Senturion, Justin Stewart and the Samurai Power Rangers!

Blue Senturion: Hello. Are the Power Rangers here?

Arixam: Which ones?

Me: What's all the… (Sees Justin and the Samurai Rangers) No Way! Justin Stewart, The Blue Senturion and the Samurai Power Rangers!

Justin: It's an honor to meet you J.D.

Blue Senturion: Same here.

Jayden: It's an honor to meet you J.D.

Emily: We heard so much about all your adventures.

Mia: It's so awesome how you beat all the bad guys.

Me: We don't like to brag. But we have to do what is right for the safety and survival of the planet and the universe. Come on in guys.

They came in and we were talking about all kinds of stuff and more. Mia was showing us her cooking. But her cooking didn't turn out good. But we promised to help her learn from the masters.

Swindle: (to Justin) You must've been the youngest person to ever become a Power Ranger.

Justin: I sure was Swindle. But weren't you one of the bad guys?

Nico: Not anymore Justin. I'm now the new Leader of The Decepticons and they are on the path to redemption through me after we destroyed Megatron, Starscream and Unicron.

Justin: That is so cool!

Kev: It sure is.

Me: We watched you guys all the time on TV and you guys were awesome in destroying Xandred.

Jayden: We sure were J.D. Xandred was the toughest opponent we've ever face.

Me: I remember.

Qin: Who was Xandred? Sounds like the name of a Nobody.

Me: That does sound like it. But Xandred is the overlord of the Netherworld.

I pulled up his history.

---

Master Xandred is the overlord of the Nighloks. He is the primary adversary of the Samurai Rangers. He comes from the Netherworld and lives on a ship floating on the Sanzu River. It is revealed that he takes large doses of medicine for his frequent headaches often causing him to fall asleep for long periods of time. He becomes angry easily, especially if his henchman are insubordinate or speak out of turn.

When Arachnitor tries to usurp him, Xandred transforms him into a mindless mutant, due to Xandred having gained increased powers.

He also has an intense hatred for Deker, since Deker intervened in one of Master Xandred's plans which also involved the current Red Samurai Ranger that he even burned Dayu's harmonium due to her failure to destroy Deker. Xandred makes an alliance with Serrator.

Xandred learns of Serrator's treachery so he returns to the human world to gain back Dayu's Harmonium, only to dry out severely, due to being so far away from the Sanzu River. Octoroo was able to save him and bring him back to the ship. Master Xandred is currently recharging at the bottom of the Sanzu River. In "The Master Returns", Xandred was also able to fix Dayu's Harmonium, using one of his one own leg scales.

After a lengthy period of recuperation, Xandred eventually returned and faced the Samurai Rangers now led by the true Red Ranger, Lauren. Running into a wounded Dayu, he got an idea when she reminded him she was half-human and absorbed her. He then faced the Samurai Rangers while Lauren drew the sealing symbol. Despite his best effort to stop her, the symbol was completed and used…

However while it caused massive damage it didn't manage to seal him as expected since Dayu's humanity had protected him from the symbol's power. Also, Xandred was no longer in danger of drying out and planned his takeover of the human world. He then defeated the Rangers and wounded Lauren.

When the Sanzu flood waters overflowed, Xandred released him army of Moogers to lay waste to Panorama City. The Samurai Rangers, led by Jayden Shiba once again, took on and defeated the Moogers before facing Xandred. After significantly weakening him with Shiba fire power, Jayden defeated him with the Shogun armor.

However, Xandred transformed into his Mega Monster form and the Rangers called on the Gigazord to fight him. As the Rangers attempted to get close enough to use a final blow filled with symbol power, Xandred blasted away the zords one by one until only the Samurai Megazord remained which managed to succeed and strike Xandred with a fatal blow. However, Xandred unsuccessfully tried to take the Rangers with him by grabbing the Megazord and boasting, before he was destroyed, that the Nighloks would rise again someday. He was then consumed in a massive explosion.

Qin: Whoa!

Me: That battle with Xandred was the most intense I've ever since in all of the 26 years of Power Rangers.

Jayden: It sure was.

Me: I also found out that I too have Spin Katana's like you guys as well as a Folding Zord.

I pulled out my Spin Katana and I had a purple power disk with a phoenix on it and I had a purple folding zord in the shape of a star and it had the kanji for Star on it. 星

Jayden: That's cool!

Nico: He's not the only one.

Nico pulled out a Spin Katana and it was aqua blue and he had a Polar Bear Folding Zord in the shape of an octogon with the kanji for Ice on it. 氷 And he had a spin disk with a polar bear on it.

Laney had a brown Spin Katana with a brown spin disk with a fairy on it and she had a folding zord in the shape of a fairy with the kanji for Crystal on it. 晶

Lana had a dark blue Spin Katana with a dark blue spin disk with an Owl on it and she had a folding zord in the shape of an owl with the kanji for Snow on it. 雪

Mike (Samurai): Wow! That is so cool!

Antonio: Fantastico!

Me: It sure is.

We laughed.

* * *

But in the middle of the city, something evil was brewing!

Mayor: (putting hard hat on) Let the festivities begin!

(Said festivities consist of the demolition of the theatre by several wrecking balls. They swing back and forth as the Mayor cheers them on deliriously from on and off camera.)

Mayor: Yes!… Yes! Smash it! Smash it!… Boom! Boom!… Pow! Pow!… Smash it, smash it, smash it!

(One of the wrecking balls swings into the auditorium and lands squarely on the Iron Maiden before being pulled away. A trick panel in the bottom of the case is sprung open by the hit. Zoom in slowly on this to a close-up. A desiccated, shaking arm clad in men's evening wear reaches into view and produces a bunch of black, dead flowers after a tense moment.)

(Cut to an extreme close-up of the screaming mouth of one of the girls. We hear all three of them, and the camera pulls back to show them on the living room couch, with the lights out.

We were watching an old black-and-white creature feature horror movie in which people are rising from the dead as zombies. They shamble forth from their resting places, moaning and looking for living flesh; we see a steady parade of half-decomposed faces with the remains of their eyes fixed in a dead stare. The procession makes its way out of the graveyard as the girls watch, shivering with fright-even Buttercup, the original hardcase, is not immune.

(A crash of glass startles them into diving behind the couch; they poke their heads out from underneath the cushions.)

Blossom: (gasping) What was that?

Bubbles: (voice shaking) I think it… it was a zombie!

Buttercup: Cut it out, Bubbles. There's no such thing as zombies.

Me: There are zombies girls. But if there is a zombie we'll deal with it.

Shawn: Yep.

(Cut to a screaming woman in the streets of Gotham Royal York. The sky has taken on a weird red glow.)

Woman: A zombie!

(Quick pan from her to a rotting figure dressed in the remains of the aforementioned evening wear. One of the shoes is gone, and a tattered cape hangs down in back. Turn up to the face as the Narrator speaks.)

PPG Narrator: Oh, no! It's Al Lusion! He's returned from beyond the grave as Abracadaver, the magical zombie!

(Abracadaver's face is a withered, shrunken horror, with angry red eyes set deep above parched cheeks. His teeth have gone helter-skelter, and his once-handsome goatee and mustache hang in shreds. His top hat now resembles a dented tin can, and its upper surface has fallen open. His voice is slow and rusty from several decades of disuse, but still carries forth his smoldering fury from his humiliation on his last day among the living. It also has perhaps a bit of a Russian accent.)

Abracadaver: (Russian Accent) You laughed at me..but now, revenge!

(He shoots a spell from his hands; this connects with two kids playing a game of cards. They find themselves turned into giant playing cards. Two carpenters are hard at work sawing planks, but are quickly imprisoned within boxes for the old "saw a woman in half" trick, with their own saws slicing down into the wood. Abracadaver shoots a spell at a school bus, turning it into a giant, diseased-looking rabbit and leaving the driver and kids sitting on its back. The animal bounds along the street. As a crowd of people watches, stunned, a car and a milk truck collide head-on. The zombie magician strides through the onlookers, preparing himself for another ghastly trick. Now he stretches out one hand and zaps the spire of a building; this becomes a giant birdcage, complete with a sickly bird on the swing inside. Several people standing in a group screaming are turned into trees. A dog preparing to relieve itself at a hydrant finds its toilet turned into a bigger, angry dog that chases it away. Giant playing cards bounce down the street as flowers bloom from the roofs of buildings; the school-bus-turned-rabbit hops in and out among the structures and finally moves o.c. A tall building is transformed into a house of cards, from which Abracadaver swipes one near ground level. The entire house collapses, showering cards everywhere; when the screen clears, we see that giant saws have gone to work on various bits of the skyline. Pan slowly across the city to show the rest of it in a similar predicament.)

(Cut to the Mayor's office. He and Ms. Bellum are watching a saw cut through the wall on its way to them, at about the level of his head.)

Mayor: Hmm. That's peculiar. Uh, Ms. Bellum, do you see this saw I see?

Ms. Bellum: Yes, but can't you see that all of Townsville is under attack? (The saw cuts through the Mayor's hat.)

Mayor: I think my hat's under attack! Call the haberdasher!

---

At the estate we were watching the movie when the alarm went off.

Me: Uh oh!

We went to the computer and we saw the city under attack by ABRACADAVER!

---

Abracadaver was once a famed magician by the name Al Lusion known by everyone in the City of Townsville. One day when he was preforming, he asked for a volunteer which was a little girl and her teddy bear. The magician made the teddy bear disappear, but while accepting applause forgot to return the teddy. The little girl was wondering where her teddy was began searching for it to the magician's humiliation when she accidentally pulled his pants down in front of everyone. Freaking out at the humiliation, Al Lusion stumbles and falls into an iron maiden on stage, killing him.

Decades later, he returns from beyond the grave and becomes a zombie with a new name; "Abracadaver," terrorizing the City of Townsville. The Powerpuff Girls arrive to stop the supernatural mayhem caused by Abracadaver. When he looks at Blossom, she reminds him of the young child with the teddy bear whom he blames for his shame and death. He uses a grand finale in which the hypnotized Blossom is being rolled up in sleeves and he rolls her towards an spiked iron maiden until she is ensnared in the trap. It looks as if he killed her, and even the townspeople and narrator think she is gone for good, but as it turns out in the end, it is Blossom, very much alive, who pulled the last magic trick on Abracadaver. The narrator then states that he loves the voodoo that the girls do.

Me: It's a Zombie Magician!

Adult Bubbles: It's Abracadaver!

Me: You dealt with him before?

Adult Blossom: Only once. He was a dangerous foe and he tried to kill us.

Adult Buttercup: That zombie was once Al Lusion. He was a famous magician turned into a laughingstock decades ago when the mayor was younger. He accidentally tripped and died after he fell into an iron maiden.

Me: An Iron Maiden!? That's a torture Device!

Nico: Why would a magician have a torture device like an iron maiden on a stage like that?

Me: No idea. But he's destroying the city. Lets go!

We were off to the city!

Adult Blossom: But it's gonna take a lot of power to destroy him. He can put himself back together.

Groove: We're gonna need a lot of firepower to take that zombie magician out!

Scott Truman (takes out communicator): Hold that thought. (calls a certain Red Ranger)

Jayden was meditating.

Jayden: Hello?

Scott: Hey, Jayden. It's Scott.

Jayden: Scott! How've you been?

Scott: Good. But I need you and your team's help.

Jayden: Of course. Why?

Scott: Meet me and my friends there. There's trouble brewing!

Jayden: We're on our way!

They were on their way.

---

Abracadaver was using his magic and destroying everything.

Suddenly Edzilla punched Abracadaver out of nowhere and he was being punched all over.

Edzilla: (punches Abracadavar) ED SMASH ZOMBIE!

But Abracadaver put himself back together and he saw us!

Me: Al Lusion A.K.A. Abracadaver.

Adult Blossom: How nice to see you again you zombie freak!

Abracadaver: (Russian Accent) You grew much!

Adult Blossom: You tried to kill us the last time.

Abracadaver: (to Fuzzy) Traitor!

Fuzzy: I hardly ever worked alongside ya'll!

Me: You only appeared once you fucked up living corpse!

BANG!

The shotgun blast blew his head off.

Shawn: (shoots Abracadaver in the head with a shotgun) One shot in the head should do it!

Jayden and the Samurai Power Rangers arrived.

Jayden: Hey, everyone. Are we late?

Me: Nope. You arrived just in time.

But Abracadaver put himself back together.

Adult Blossom: He's just as big a challenge as the last time we fought him.

Me: Our best option is total obliteration!

Buttercup: We need to make sure his entire body's destroyed!

Jayden: I've got just the thing.

The Samurai Rangers pulled out the Multi Disk Octo Cannon.

They fired it and the blast hit Abracadaver and exploded.

KRABBBOOOMMMM!

Me: Lets hit him with our combos and everything we got.

We fired energy blasts and elemental energy attacks at him and we blasted, burned, froze, electrocuted, shredded, zapped, dissolved, flattened, smashed, pounded and more.

Me: Time to finish him off!

Hulkbuster Iron Man: I'll start us off! Lets smash him Ironhide

G1 Ironhide: Right with you Tony.

They jumped and Ironhide fired his machine guns.

Hulkbuster Iron Man and Ironhide: SMASHING FIST PULVERIZER!

They smashed and blasted Abracadaver with devastating force!

Groove: Time for some pain! CYBER KEY POWER!

The Earth Cyber Planet Key went into his back and enhanced his oxidizer weapons 100-fold.

Wasp: Time for some buzzing pain! ANIMATRON CYBER KEY POWER!

The Animatron Cyber Planet Key went into Wasp's right arm device and it enhanced her energy blasters and flying powers.

Groove and Wasp: CORROSIVE WASP STINGBURN!

Groove fired a blast of sulfuric acid and Wasp fired a powerful blast of yellow energy and burned Abracadaver all over.

Swindle: Time to take back his life! CYBER KEY POWER!

The Decepticon Cyber Planet Key went into Swindle's back and it enhanced his vertigo ray 100-fold.

Arixam: Time for some serious pain! GIGANTION CYBER KEY POWER!

The Gigantion Cyber Planet Key went into Arixam's right arm device and she formed a powerful set of water angel wings!

Swindle and Arixam: VERTIGO MAELSTROM SHREDBURST!

Swindle fired his Vertigo Ray and Arixam fired a powerful blast of water and the blasts combined and slammed into Abracadaver and exploded.

KRABBBOOOOOOOOOOOOOMMMM!

Me: Now to finish you off for good you fucked up walking corpse!

Brittney: I stripped him of his powers with a magic spell. He's vulnerable!

Adult Blossom: Lets get him! PINK FLOWER LASER BURST!

Adult Blossom fired a powerful pink laser blast and it hit Abracadaver in a powerful explosion of pink flowers.

Adult Bubbles: Time for you to get wet! BLUE BUBBLES WETSTORM LASER!

Adult Bubbles fired a powerful aqua blue laser blast and it hit Abracadaver and got him wet in soap and bubbles!

Adult Buttercup: This will punch your lights out! GREEN PUNCHSTORM LASER!

Adult Buttercup fired a powerful Spring Green Laser and it hit Abracadaver and exploded all over.

Adult Bunny: Time for you to face the furry fury! PURPLE BUNNY FIRESTORM!

Adult Bunny fired a powerful purple laser and it hit Abracadaver and exploded.

KRABBBBOOOOOOOOOOOOOOOOOOOOOOMMMM!

Shawn: I hate zombies! ZOMBIE MACHINE GUN FIRESTORM!

Shawn pulled out an M31 Minigun and fired and blew him apart.

Me: Time for you to go back to hell Abracadaver! FINAL SHINE ATTACK!

I fired a massive green energy wave and it hit him and exploded with incredible power!

KRABBBBBBBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

The explosion completely obliterated Abracadaver in an instant. There was nothing of him left.

Nikiya: That did it! His energy signal is gone!

Lola: Good riddance to bad rubbish!

Me: You got that right.

Nicole: And he will never terrorize the world of the living.

Abracadaver's spirit appeared.

Nicole: (Chants an incantation) ALDRUON ENLENTHRANEL VOSOLEN LIRUS-NOR!

Abracadaver was sealed into the Book of Vile Darkness forever.

Nico: Abracadaver, you have Failed this city!

Me: He sure has.

?: (Familiar Voice) You now have to face me now!

We turned and we saw PETER GRIFFIN REBORN AS A NOBODY!

Me: WHAT THE FUCK?! Peter Griffin!

Rextep: I used to be Peter Griffin. Now I'm a Nobody. It's Rextep now.

Nico: But we sacrificed you on the planet Vormir so that we can get the Soul Stone!

Qin: So you are Peter Griffin!

Laney: That's him Qin. He's the monster that abused Meg and got all of Quahog completely destroyed.

Me: That's right! But you weren't turned into a Heartless, Peter.

Rextep: I know. But I came back as a Nobody to get revenge.

Qin: If you weren't so mean to Meg, Quahog would've been spared.

Lana: That's right! You have no right to call yourself a father!

Rextep: You still won't let that go of destroying Quahog! Quahog was my home and you had no right to destroy it!

Me: It was because of you that Quahog was destroyed you testicle-chined fuckhead douchebag!

Rextep: What do you mean?

Me: Oh you don't know? Then maybe these four faces can shed some light on that.

Meg, Lois, Stewie and Brian came.

Meg: Hello "Dad".

Rextep: Shut up Meg. No one cares about you.

Me: Fuck you Peter. You are the reason why Quahog was destroyed in the first place. For 17 long years, you tormented and constantly abused Meg to the point of wanting to kill herself more times than anyone can even count!

Meg: That's right! I tried all kinds of methods! I slashed my wrists, overdosed on sleeping medications, hang myself, almost stabbed myself, you name it! And it was because of you Peter Griffin!

Me: Not only that Peter you fucking fatass, but you made a lot of the people of Quahog bully Meg constantly without doing anything about it!

Rextep: It's just Meg. No one cares.

Me: Shut your fucking trap! It was because of you that you did this Peter! You are the reason why Quahog was destroyed in the first place. It was all because of you!

Meg: You have no education, no interest, you just do whatever reckless thing you want to do whenever you want to do it without regard for anyone else! And when you're not terrorizing the community with your impulsive escapades, you're being a total jerk to your family and constantly terrorizing me! You shoved my face in your fucking ass and fart on it!

Rextep laughed.

Me: It's not funny Peter!

Meg: And I'm glad Team Loud Phoenix Storm came when they did and sent your fucking ass straight to prison!

Me: That's right!

Meg: You're a fat, lazy, abusive, blue-collar, Irish-Catholic fuckpot that drinks WAY too much and barely makes enough money to support his family! You once lived half your life and you had nothing to show for it!

Me: You're only accomplishments are your kids Peter! And because of you, the only disaster that came out was Chris! You fucked him and destroyed his mind and he is as dumb as you!

Meg: That's right! You're a total and complete embarrassment in every possible way! You are a waste of a man!

Me: And a waste of a fucking life! It was because of you that Quahog was completely destroyed and wiped off the map forever!

Nico: Quahog failed this whole country as a city and as a town just like you have!

Me: You give loving parents everywhere a really bad name Peter. You're nothing more than a big fat fucking alcoholic slob! A big fat slob with testicle balls for a chin!

Nico: That's right!

Me: Your kids on the other hand are now different than you! Stewie Griffin was once a dark kid hellbent on killing Lois. And you know who planted that seed? You Peter. You are the main reason he wanted to kill Lois. It was all because of you! You are the one that is responsible for everything that has happened to Quahog and to you.

Nico: Yeah!

Me: Brian is now the most successful author ever and his books are all bestsellers.

Brian: That's right.

Me: And Lois has redeemed herself and because of everything Carter Pewterschmidt did, we cleared her police record.

Lois: That's right!

Me: You brought all this on yourself Peter! You are nothing more than a Selfish, Drunk, Stupid, Fuckup!

Qin: I hate people like you Peter!

Qin went at Rextep and punched him with devastating force in his crotch and she bit his crotch and he screamed and started foaming at the mouth and she kicked him in the face with a powerful uppercut and she bit his nose and ripped it off in a sickening crunch! Qin then fired a powerful blast of fire at Rextep and burned him all over.

Me: Jayden, lets use a combo on him and finish Peter off for good.

Jayden: You read my mind.

I spun the disk on my sword and so did Jayden and the blades were enveloped in stars and fire.

Me and Jayden: SHOOTING STAR FIRESTORM SLASH!

We slashed Rextep in half and he exploded with incredible power!

KRABBBBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Peter Griffin was dead again and he went back to the planet Vormir. He was now forever bound to the planet ever since we sacrificed him.

Me: Never again Peter.

We went back to the estate.

Shawn: (To the viewers) Zombies better beware, because Team Loud Phoenix Storm and the Zombie Outbreak Response Team are gonna blow you all to pieces.

Me: You said it Shawn.

PPG Narrator: (Laughs) That was awesome! And so once again the day is saved, thanks to Team Loud Phoenix Storm!

We stood in the fiery background in our poses.

THE END

Another Fanfiction Complete and another Powerpuff Girls Villain defeated.

Abracadaver was a 1 time villain that appeared on the Powerpuff Girls and he was terrifying. It's a shame he didn't appear again. What a ripoff! But he got what was coming to him. NicoChan11 gave me the ideas for this one. Thanks man. Let me know what you all think.

See you all next time.

# The Girl and the Half Demon

The bell rang at Gotham Royal York Elementary School and we were walking home from school.

Me: So what did you learn about today Lincoln?

Lincoln: I was learning about the history of wolves. They are so cool!

Me: Wolves are my favorite animals and they are awesome.

But just then as we were coming down the sidewalk, a bunch of guys is different clothes armed with pipes, tire irons and crowbars and razor sharp knives.

Me: Who are you fuckers?

Man 1: We are the Fire Ants gang and we've come to kill you J.D.!

Man 1: ATTACK!

The Fire Ants came at me and I punched one in the face.

Kicked a second one in the mouth and punched him in the face and knocked him out!

KROW! SMASH!

Kicked a third one in the stomach and punched him in the crotch and punched him in the face and knocked his teeth out.

POW! DING! POW!

I kicked them all in their heads and knocked them down.

Spiderman: (webs up Fire Ants) Little kids shouldn't be playing with sharp knives!

Me: Thanks Peter. But I had things all under control.

Spiderman: I can tell. But these guys are nothing but trouble. They want to kill you guys so that they can destroy all of Gotham Royal York and kill everyone.

Me: These guys sound like they are trouble. They call themselves the Fire Ants Gang.

Spiderman: That's right. Here's a wanted poster of them.

Spiderman handed me a wanted poster from the FBI for them and they are extremely dangerous.

Me: Whoo! You aren't kidding Peter. These guys are more than just a gang, They are a terrorist organization.

Lincoln: Yeah.

Later we went back to the estate and then we decided to visit the home of the Samurai Power Rangers. We were at Panorama City in New Zealand.

Me: So this is Panorama City. It looks very much like Auckland, New Zealand.

Argent: It sure does. And I should know. I'm from here.

Nico: That's cool Argent.

We went over to the home of the Samurai Power Rangers: The Shiba House.

---

It is not known how long the Shiba House has existed, but it is at least as old as the previous generation of Samurai Rangers, appearing in flashbacks to that time, and it was the home of the Red Ranger and his family, along with Mentor Ji.

* * *

Jayden: This is it guys. The Shiba House.

Me: It's beautiful guys. Just like on TV.

We saw Skull coming and with him was his son Spike.

Skull: Hey guys.

Me: Hey there Skull.

Skull: Guys, I'd like you all to meet my son, Spike.

Me: Pleasure to meet you Spike.

Spike: You too J.D. Dad and Uncle Bulk told me a lot about you guys.

Me: I can tell.

Mentor Ji, the Samurai Rangers sensei and teacher came.

Mentor Ji: Team Loud Phoenix Storm, I welcome you to the Shiba House.

Me: Mentor Ji. (Kung Fu Bow) It's an honor to meet you.

Mentor Ji: You too J.D.

Nico: We watch the Power Rangers all the time on TV and it is awesome. You are a fantastic teacher to your students and more.

Mentor Ji: I appreciate your support Nico.

We went into the house and it was amazing.

Me: So this is your base of operations in a sense.

Jayden: It is J.D. Just like the estate is your base of operations.

Mia: It's home away from home.

Emily: It's amazing.

Naruto: It's amazing.

We were talking about our adventures.

Kevin (Samurai): It's a shame we can't meet Samurai Jack. The guy was awesome on TV. Did you know that he was my inspiration for becoming a Samurai Ranger in the first place?

Mia: We didn't know that.

Me: That's amazing!

Teresa: I know it sucks. But Jack belongs in his own timeline, not ours. Besides, we can always take the simulator and visit him.

Me: That's true. But he's finally free of Aku and he is happy with his family. Our achievements as the Brave 12 were the biggest thing we've ever done. Aku was a very tough and formidable foe.

Qin: Who was Aku?

Me: The ultimate embodiment of pure evil.

I went over what Aku's history.

---

Originating long ago in the depths of space as a formless evil Aku was banished by the three mighty gods Odin, Ra, and Vishnu in order to protect the universe from his influence - yet a small shard of the great shadow managed to survive and flew off into space - for many years this shard continued flying through space until it eventually landed on Earth, causing the extinction of the dinosaurs in the process.

Many years later, the site on which Aku landed would become the ancient island of Japan, which Aku infected like a horrible disease - creating vast forests of evil in the land and threatening to consume it, eventually Aku's threat became so great and impressive that Jack's father decided to rid the land of the demon once and for all using magical-oil made by Buddhist monks, however, when he fired an arrow coated with this oil into the evil entity it didn't destroy it but rather gave it form and sentience, thus forming Aku as a humanoid threat of just unimaginable power.

However, with aid from Odin, Ra, and Vishnu, Jack's father wielded a magical sword powerful enough to defeat Aku and fought the demon, at the end of the conflict Aku was transformed into a tree - yet the imprisonment wouldn't last much more than a decade before a solar eclipse freed Aku again.

Aku would then proceed to lay waste to the kingdom Jack's father ruled and engaged in a battle with Jack himself - Jack very nearly killed Aku for good using the magical sword but Aku threw open a portal in time and transported Jack to a future-world in which Aku ruled supreme.

For the rest of the series, Aku is portrayed as the tyrannical, omnipresent, all-powerful, and manipulative ruler of the world and is an almost unstoppable force - yet he fears Jack, knowing very well that the warrior has the power to slay him, Aku has placed a high bounty on Jack's head and is always trying to dispose of him, whether it be with manipulation, cunning, force, or trickery.

## Shadow of Aku

Jack encountered Aku yet again at the Pit of Hate, where Aku uses his fluid to attach to pieces of samurai armor before he can let Jack reach the time portal. Jack battled Aku but was too late to go to the time portal.

## Samurai Jack (2017)

Aku returns in the new season and fights against Jack for the last time. In the series, it is also shown that Aku donated a small portion of himself to the Cult of Aku after seeing the statue they built in his likeness. Afterwards, the cult leader drank the potion which somehow impregnated her, creating the Daughters of Aku.

In Episode XCII, Jack fights an assassin named Scaramouche the Merciless who claims to be "Aku's favorite assassin". He tries to call Aku that Jack lost his sword, but Jack destroys his phone before he can get the chance, leading to a confrontation with Scaramouche where Jack seemingly destroys him.

In Episode XCIII, Aku wakes up from his long nap and becomes annoyed with his Royal subjects and minions as they come to his lair, bow down to him and give him gifts while he is trying to do his daily routine. When his minions mention that they built more robots to destroy Jack, Aku states that he doesn't care anymore. Aku then creates a clone of himself to serve as a psychiatrist who asks him about what has been troubling him lately. Aku tell the psychiatrist that it has been 50 years since he destroyed all of the time portals and that he hoped that Jack would have just died off the normal way, but, as a result of the time traveling process, not only has Jack not died from old age but he hasn't even aged a single day and has become biologically immortal, deeply frustrating him.

In Episode XCVI, Aku, after being informed by a henchman that the former's lair was under attack by an army lead by the Scotsman, decides to deal with them himself and flew out of his lair. Later, he transforms into a colossal giant ball and effortlessly slaughtered most of the army. After this, he was confronted by the Scotsman, with the latter insulting and ridiculing Aku, stating that Samurai Jack inspired many to oppose him. However, this leads to Aku killing the Scotsman by shooting him with his eye beams. Aku, with a bored tone, only wondered why the Scotsman brought up Jack before returning to his lair. However, unknown to Aku, the Scotsman returns as a ghost and instructs his army (who are all of his daughters as well) to continue to amass their forces and find Samurai Jack.

In Episode XCVII, Scaramouche (now only a head) tries to reach Aku in order to tell him that Jack is missing his sword and calls him from a phone booth on the boat he was riding, although Aku immediately hangs up after Scaramouche is thrown off the boat.

In Episode XCVIII, in a flashback, it is shown that Aku pulled Jack out of a time portal just as he was about to reach the past and then obliterated it, taunting Jack by telling him that said time portal was the last in existence. In his rage, Jack tried to destroy Aku once and for all. However, Aku backed out of the fight and transformed the Rams that had been helping Jack into mindless beasts that he soon killed, causing him to accidentally drop his sword into a pit in his horror.

In Episode C, Scaramouche finally reaches Aku's tower and manages to tell Aku about Jack's missing sword, not only causing the demon to snap out of his depression, but also give Scaramouche a new body out of gratitude and both dance in joy. Aku then flies over to Jack's location (in which it is shown that he also killed The Guardian) where he and Scaramouche then laugh at Jack for not having his sword, only to realize that he actually does. Aku then kills Scaramouche by destroying his head and prepares to leave, however, he stops when he realizes that there is a little bit of himself inside Ashi. Aku then has a flashback in which it is shown that he gave some of his essence to the Cult of Aku, and then comes to the conclusion that the High Priestess must have drank the essence and birthed the Daughters of Aku. He then remarks on how she is really a true daughter of his to her and Jack's collected shock and anger. As Jack tries to kill Aku, Aku begins controlling Ashi and forcing her to fight Jack watching from the sidelines as they unwillingly do so while remarking on how his daughter fell for his sworn enemy. Eventually, Aku turns Ashi into a humanoid replica of himself, which Jack cannot bring himself to kill, laying his sword down in defeat. As Ashi is about to lay the final blow, Aku quickly orders for her to stop and grabs Jack's sword. He revels at finally besting Samurai Jack after fifty years.

In Episode CI, Aku broadcasts his victory over Samurai Jack to the entire world. Aku then tells everyone who opposes him that they have no hope as he prepares to kill Jack, however, he soon realizes that he does not know how he wants to kill Jack. After a period of indecision, Aku decides that it is best to let Ashi kill Jack. As Ashi readies to lay the final blow to Jack, almost everyone Jack has encountered ( The Blind Archers, Rothchild and his Canine Companions, The Ravers, The Triseraquins, The Spartans, The "Jump Good" Monkey Man and his tribe and The Woolies) and saved came to his aid and attacked Aku. Aku begins to do a great battle with them while Jack fights the corrupted Ashi who is stopping him from take back his sword, Aku finding amusement in the armies' attempts to save Jack since he is nearly untouchable and cannot be killed by them. Aku splats a great number of Woolies and Blind Archers corrupting them into an army of smaller copies of himself ordering them to attack the rebells. While the rebells are in great difficult against the Aku's army and Jack is unable to take the sword back the Scotsman arrives with his Daughters causing several damages to Aku's army. During the fight Max and the Robots of Andromeda join the army of Jack's friends with their giant robot samurai. At the beginnig Aku mocks the robot only to be brutally beaten up by it and also have his horns teared off, at point Aku starts to get annoyed and furious and decides to change himslef into a rain of spikes to kill all of his enemies. The rain kills many of Jack's friends but is stopped by the powers of the Scotsman. then He checks on his daughter Ashi to see if she has killed Samurai Jack, but thanks to Jack, Ashi frees herself from Aku's corruption and stands up against him. The furious Aku attacks her but is surprised to see that she still has the exact same powers as he does. Without a second to lose, Jack and Ashi summon a portal and send themselves back to the past. The future Aku then looks in sorrow as he realizes that his destruction is imminent, realizing that all around him including himself are going to cease from existing.

Back in the past, after Jack's first battle against Aku, the demon has just sent Samurai Jack to the future. After he finishes his speech of meeting him again in the future, he was shocked to see that the future Jack and Ashi have returned on that same spot. As Aku tries to process why he is back so suddenly, Jack immediately charges and begins his short final showdown with Aku. Aku, still greatly weakened by his battle with the previous incarnation of Jack then transforms into a giant rhinoceros beetle-like form to fend him off, but the latter quickly slashes him in two halves with his sword. Jack then completely destroys one, while the other tries to retreat but does not go very far as Jack manages to stab his severed head with his sword and Aku merges into the sword before Jack slams his sword to the ground, finally destroying Aku once and for all as he and his lair begin to explode; avenging all of the deaths and suffering he has committed and ending his tyrannical and magisterial grasp forever.

Qin was amazed!

Qin: Wow!

Jayden: That's amazing!

Nico: I remember reading the book he made: "The 12 Warriors: The Chronicles of The Brave 12." That is an awesome story.

Naruto: That was one of our most amazing adventures.

Kevin (Samurai): Wait a sec? That was you guys!?

Me: We weren't called Team Loud Phoenix Storm back then.

I went over everything that happened during the events of the Samurai Loud's Saga.

Jayden: Wow! That's incredible!

Emily: You guys were really brave there!

Mia: Unbelievable!

Mike (Samurai): Incredible!

Lauren (Samurai): That is an amazing adventure.

Armada Cyclonus: (to Lauren) Any reason why you're Crimson now?

Lauren: Well, I just thought it would be easier to tell me and Jayden apart.

Me: That seems fair.

Mike (Samurai): We never did get a chance to destroy Octoroo and Sharkjaw.

Jayden: They most likely went into hiding after Xandred was destroyed.

Skydive: Well, if they do show up, we'll help you guys kill them.

We later went back to the estate. I was making myself a snack and I saw Lincoln watching one of my favorite shows: InuYasha.

---

In modern-day Tokyo, Kagome Higurashi lives on the grounds of her family's Shinto shrine with her mother, grandfather and younger brother, Sota. On her fifteenth birthday, when she goes to retrieve her cat, Kagome is dragged into the enshrined Bone Eater's Well (骨喰いの井戸 Honekui no Ido) by a centipede demon that emerged from it. But rather than hit the bottom, Kagome finds herself in the past during Japan's Sengoku period. The demon is revealed to have originally been defeated fifty years prior by Kikyo, a warrior priestess who is the keeper of the Shikon Jewel (四魂の玉 Shikon no Tama, lit. "The Jewel of Four Souls"), an artifact created by the sacrifice of the priestess Midoriko which grants its holder's desires. As pointed out by Kikyo's younger sister, Kaede, Kagome is revealed to be the reincarnation of the now-dead Kikyo, who was the priestess in charge of looking after the sacred jewel. The Shikon Jewel was burned along with Kikyo's remains to cast it out of this world entirely, in order to keep it safe from the hands of those who would abuse it. Then Kagome comes across a boy pinned by a sacred arrow on a tree, learning he is Inuyasha, a half dog-demon (yōkai), whom Kikyo trapped as her final act when he attempted to steal the jewel. Kagome frees Inuyasha to kill the centipede demon, but Kaede subdues him with a magical beaded necklace to keep him in line with Kagome saying "sit" or "sit, boy", the Shikon Jewel was extracted from Kagome's body by Mistress Centipede, and then later taken by a crow demon, which Kagome destroyed with her arrow, but in doing so, shattered the jewel into many shards that flew across Japan and into the possession of those who gain the individual shards' power.

After Inuyasha gains his father's sword Tetsusaiga, placing him at odds with his older half-brother Sesshomaru, he aids Kagome in collecting the shards and dealing with the threats they cause as they are joined by Shippo the young fox demon. Kikyo is partially revived while revealed to have been Inuyasha's lover, but her version of how their falling out occurred brings the events into question. It was when the group is joined by the perverted monk Miroku, whose hand is cursed with a wind tunnel that was passed on to him from his grandfather, that his family's curse and the events which resulted in Inuyasha's imprisonment and Kikyo's death were caused by the evil half spider-demon Naraku. The evolving Naraku is revealed to have been born from the soul of the evil bandit Onigumo inhabiting a body created by countless demons as part of a pact to acquire the Shikon Jewel for his own ends, seeking out the shard while absorbing demons to increase his power and remove any weaknesses. Inuyasha's group is soon joined after by the demon slayer Sango and her two-tailed demon-cat Kirara. Sango's clan was killed when her younger brother Kohaku fell under Naraku's control and is kept alive by a Jewel shard. Over time, Inuyasha enhances Tetsusaiga into stronger forms while contends with Naraku's minion incarnations like Kagura and Kanna, and the reanimated Band of Seven. Inuyasha's team is loosely allied by Sesshomaru who took the orphaned girl Rin as a ward, the resurrected Kikyo, and Koga, the leader of the eastern wolf-demon tribe who seeks to avenge many of his comrades' deaths and has a one-sided crush on Kagome.

While Naraku momentarily removes his heart in the form of the Infant, who later attempts to overthrow Naraku through his vessel Moryomaru, Kohaku regains his freewill and memories and attempts to help out of guilt for indirectly killing his father. During that time, Sesshomaru settles things with Inuyasha to enable his brother to perfect Tetsusaiga to its optimal abilities. Eventually, Koga is forced to stand on the sidelines while Kikyo uses the last of her life force to give Kohaku a second chance at life as Naraku finally reassembles the Shikon Jewel. Although Inuyasha and his allies defeat him, realizing his true desire is for Kikyo's love despite his hatred towards her and that it can never be granted, Naraku uses his wish to trap himself and Kagome in the Shikon Jewel. Revealed to be sentient, the Shikon Jewel intends to have Kagome make a selfish wish so she and Naraku will be trapped in conflict and prolong its existence. But with Inuyasha by her side, Kagome wishes for the Shikon Jewel to disappear which causes Kagome to return to her time with the Well sealed, and she and Inuyasha lose contact for three long years.

In that time, the Sengoku period changes drastically: Sango and

Miroku marry and have three children together; Kohaku resumes his journey to become a strong demon slayer with Kirara as his companion; and Shippo attains the seventh rank as a fox demon. Koga marries Ayame, the leader of the northern wolf-demon tribe, joining their tribes. Kaede takes Rin in her care to get her use to living with humans again if she wants to in the future. Back in the present, Kagome graduates from high school before finally managing to get the Bone Eater's Well in her backyard to work again. We gathered and watched all 193 episodes. It took a while but they all were awesome!

Me: InuYasha is so awesome!

Naruto: It sure is.

Natsumi: Those demons were amazing. But none will ever match up to the power of the Tailed Beasts and Team Loud Phoenix Storm.

Me: I know. But Kiba, InuYasha's name sounds like your clan name.

Kiba: InuYasha's name does sound very similar to my clan name and I'll have to ask my mom is the Inuzuka Clan has a version of Sage Mode that looks like InuYasha.

Me: There just might be.

Lincoln: But Naraku was awful!

Me: I know. He's just like Aku and Orochimaru combined together.

Qin: From the way he looked, he sure looked like it.

Me: Lets see what it says about him.

I looked him up on the computer.

Naraku is responsible for most of the characters' misfortunes, including the death of Kikyo, the sealing of Inuyasha to the sacred tree, Miroku's curse, and the death of Sango's family. Naraku was born from the fusion of Onigumo, a crippled human bandit tended by Kikyo, and a horde of weak demons. Driven by frustrated lust for Kikyo, Onigumo made a bargain with the demons: they could eat his flesh, and the demons would combine into one entity to become part of that new body. However the resulting half-demon promptly caused Kikyo's death in an attempt to corrupt and possess the Shikon Jewel-his intent being that she would use the jewel to save herself and thus both would be corrupted and be his. Unlike other Half-Demons, he can choose what time will he lose his powers, however he reverts to a head attached to multiple demons. During this time he discards the weaker demons that he's attached to.

Naraku is driven by three goals: To become a full demon, to possess a fully-corrupted Shikon Jewel, and to possess Kikyo. The third goal is rooted in Onigumo's heart as a vital part of Naraku's body, causing an obsession with Kikyo that prevents him from killing her. He attempts to rid himself of Onigumo's heart multiple times, ultimately separating it into globs of flesh he leaves in Mount Hakurei. With his heart freed from his obsession, he is able to later kill Kikyo. On his final death, he faintly remembered why he made the bargain in the first place and expressed regret at not being able to have Kikyo for his own. When Kagome was able to wish the Shikon Jewel out of existence, the purifying light hit Naraku's soul, cleansing him of all evil. He then understood the true essence of peace and recovered himself from his sins as he faded away.

Throughout the series, Naraku creates many subordinate beings from his own body to aid his goal of killing his opponents and reuniting the shards of the Shikon Jewel, whose corrupted form he hopes to use to gain ultimate power.

Powers and Abilities

High Intellect: Naraku was very intellectual and knowledgeable of the various individuals and powers that existed within the Feudal Era which he could use to his advantage. Whenever there came a hurdle in his pursuit of obtaining a complete corrupt Shikon Jewel that he himself couldn't overcome on his own, Naraku usually set out to gather information and intelligence in order to use them to his advantage. His knowledge and intelligence gathering was as such that he usually knew about a certain individual and their unique abilities some time before he confronted them to make use of them before they even realized it.

Manipulation: Naraku was shown to be a master at manipulating demons and humans alike. Throughout the series, he manipulated many people to get what he wanted without getting his own hands dirty. Possibly the most important instance of his manipulation was when he tricked Inuyasha and Kikyō into thinking they had betrayed each other. Naraku transformed into Inuyasha, cut Kikyō down, and fatally wounded her. He then transformed into Kikyō and attacked Inuyasha. This caused Inuyasha to feel resentment toward Kikyō and he went to go steal the Sacred Jewel. Kikyō, in turn, thought that Inuyasha had betrayed her and used the last of her strength and spiritual power to shoot a sealing arrow at Inuyasha, which pinned him to the Sacred Tree for 50 years. This, ultimately, was to make the Sacred Jewel tainted for Naraku and to get rid of both Kikyō and Inuyasha. This one instance put the entire series in motion and set Inuyasha and the others on their quest to destroy him. Though, there were many other instances in the series where Naraku manipulated others. For example, when Naraku offered the Saimyōshō to Sesshōmaru, when he forced a grief-stricken Kōga to confront Inuyasha, and the numerous times that he controlled Kohaku, just to name a few.

Strategy: Naraku was also very strategic in his pursuit for the Shikon Jewel Shards and for facing off with his enemies. Naraku usually employed the use of Saimyosho in order observe the progress of the various groups in order to effectively delay them as much as possible. There were times when Inuyasha and his group confronted Naraku, it's usually his demon puppets that ended up destroying in order to gather intelligence about their powers for Naraku to counteract against it.

Swordsmanship: Naraku had some skills in using a sword as when he manipulated Sango to bring Tessaiga to him at his phantom castle. Naraku was able to easily fend her off by using an ordinary samurai sword and some of his demon powers before Inuyasha and others arrived. Though given that this was the only instance that Naraku had displayed direct combat against his enemies by using his combat skills, it's unknown how proficient he was at swordsmanship.

Black Magic: Naraku knew many different spells and curses. A prime example being the Wind Tunnel, and the Illusionary Death, which was used to distract Inuyasha's group when they tried to rescue Kikyō from him. However while Naraku is proficient in the use dark spells and curses, it's not his primary power to use and thus he required the dark priestess, Tsubaki's help to curse Kagome with an advanced curse.

Demon Puppets: One of Naraku's trademark spells are conjuring demon puppets which resembled him in his baboon pelt. Naraku controlled them from afar and could see through their eyes. They were mostly made of mud and soil, and were able to spring roots in order to attack opponents. They would only disappear if their heart was destroyed, which was a golem with a piece of Naraku's hair that was wrapped around it. Following Mount Hakurei, Naraku no longer employed the usage of demonic puppetry as he could survive attacks that would have killed him in the past.

Saimyōshō Control: Naraku's minion wasps from Hell. He kept a hive of them with him at all times. Their most common use for preventing the Wind Tunnel from being used, or for poisoning the descendants of monk Miyatsu, who were unfortunate or foolish enough to suck them in. They were also useful for spying on Naraku's enemies, communicating with his subordinates, and gathering Jewel Shards. Their stings were fatally toxic to both humans and demons alike, but they were rather weak as far as demons went. Many of them were killed by Inuyasha and his group.

Shapeshifting: Naraku could take the form of anyone or anything that he chose, usually a humanoid, and change his voice along with his physical appearance. He possessed the young lord, Kagewaki, and remained in that standard form for the rest of the series. We're told by Miroku that every time his grandfather battled Naraku, the demon appeared in a different form, being defeated when Naraku took the form of a beautiful young woman. The most important instance of his shape-shifting would be the time that Naraku had disguised himself as Kikyō and Inuyasha and made them hate one another. As his scent didn't change with his form, Naraku ceased using this ability as Inuyasha and Kōga could smell his scent.

Enhanced Strength: Much like Sesshōmaru, Naraku was far stronger than a normal demon being capable of demolishing boulders and the surrounding area though he seldom resorted to combating with physical strength.

Enhanced Speed: Naraku could move faster than the eye could see, both in the air and on the ground. He managed to fight against Inuyasha and his group many times through his natural speed, though he usually retreated after a short time.

Flight: Similarly to Sesshōmaru, Naraku possessed the ability to float midair, and to ride upon a cloud of his own shōki. After his transformation into a full yōkai, Naraku never chose to employ his shōki-sustained flight, but flew only by the strength of his will, while in his barrier.

Absorption: Naraku was able to absorb other demons into his body, adding their powers and their bodies to his own. This was primarily how he gained strength, by seeking out and absorbing strong demons, and giving him access to their powers. Naraku could also expel weaker body parts in order to rid himself of them.

Demon Parts: As he was made up of multiple demons in one body, Naraku was able to manipulate their body parts at will in order to restructure and strengthen his body, and he could also regenerate himself from injury and reform his body parts if they were cut off. He most commonly used these parts to form tentacles which he used to attack.

Incarnation Creation: Naraku could make incarnations out of his own body to do his dirty work for him. Most had a spider mark on their back which was a result of being born from Naraku when he still was a hanyō with Onigumo inside him. He often removed their hearts to ensure loyalty with the price of death for disobedience.

Energy Projection: Naraku sent out one or more of the horns on his elbows in a zigzag beam attack or extended his fingers into tentacles with a glowing attack at the tip of his fingers to attack his foe(s). In the manga, this attack was of a silverish color, while in the anime it was of a purple color.

Armor Shell: Upon absorbing Mōryōmaru, Naraku gained the Armor Shell of Meiōjū, being able to change its size for his own purposes. He also gained the ability to cover himself at will with Mōryōmaru's impenetrable shell. It was revealed that Naraku was hiding the Shikon Jewel underneath that shell.

Live Body Pieces: After absorbing the Infant/Mōryōmaru, Naraku gained the haku puppet's ability to remotely control his flesh and send them out to scout for other demons whose abilities could prove useful. Naraku used this ability to detach his head while using his Spider Webs, which made it easier for him to flee. It was also used when Naraku had several of his tentacles and other excessive appendages attack Kohaku for his shard. It was presumably what allowed his armored copies to move without being directly connected to him.

Spider Webs: Following his re-absorption of Onigumo's heart a second time, Naraku gained the ability to create threads of spider silk. Only those of high spiritual power, such as Kikyō and Kagome could see them at all times; Naraku could make the webs visible at will if he wanted. Anyone whose heart was corrupt would easily be caught in the webbing, which allowed Naraku to further defile their hearts if he wished. He could also show them illusions. The appearance of this ability further nodded toward his nature as a spider half-demon. In his final transformation, Naraku created a giant body in the shape of a spider, which could, obviously send out threads of spider web to ensnare other demons to add to his body. Naraku used these spider webs to further poison Kikyō, who had not fully recovered from his attempt on her life at Mount Hakurei, which ultimately led to her final death.

Psionics: Naraku was shown using various psychic powers and capabilities; including levitation, telepathy, telekinesis, teleportation, mind control, illusion casting, and astral projection.

Immense Demonic Power: As Naraku started off as a spider hanyo who came into existence from the merging of many demons with a human, he didn't have much demonic power. Throughout the course of the series, as he continued collecting more Shikon Jewel Shards and absorb many demons whether they be ordinary or powerful, Naraku's own demonic powers in turn increased significantly. This was demonstrated on the fact that after he had obtained his new body in Mt. Hakurei, Naraku was able to overpower the strength of the Kaze no Kizu which in turn allowed him to take control of it and managed to evenly combat against Sesshomaru alone while in the Border to the Netherworld for some time though it was only because of his barrier that he was able to last that long against the older Daiyokai. After feeding his soul to the complete corrupt Shikon Jewel in the final battle against all of his enemies, Naraku gained the ability to combat against all of them at the same time with little effort which included Inuyasha with his new power in Tessaiga and Sesshomaru using Bakusaiga for a prolonged period time so that his severed body could destroy Kaede's Village.

Barrier: The most well known and signature ability of Naraku was his barrier which prevented the foe from finding and/or attacking him. At first his barrier was only useful in hiding his presence. As he gathered more shards of the jewel, Naraku became powerful enough to erect a barrier strong enough to survive the Kaze no Kizu. After Naraku had purged his human heart, the barrier became so powerful that nothing but the Kongōsōha and Kikyō's Sacred Arrow was able to penetrate it.

Deflection: Whenever someone sent an attack of yōki into Naraku's barrier, he could channel the flow of the attack into his own jaki and then attack his opponents with it. However, this could only be done with attacks that could not penetrate his barrier, which meant that it was useless against Inuyasha's Kongōsōha.

High-Speed Regeneration: Naraku could quickly heal his own wounds and also put back together severed pieces of his body. He could control 100% of his body all the time, even when his body parts or even head were severed, which came in handy when he was trying to absorb someone. However, there was a limit to how much he could regenerate. The more damage that he took, the more time he would need later on to recover. Too much damage could kill him, which was why he had to flee from his enemies in the beginning of the series. Usually, he would absorb demons to speed up his regeneration process.

Immortality: After he created his new body and removed his heart, which came out as the Infant, Naraku was able to regenerate no matter how much damage his body had taken since his life force wasn't in his body. In fact, this new form of regeneration that Naraku gained caused Kikyo to believe that the only way to destroy him was to utterly destroy his very being and that was by purifying his soul through purifying the last corrupt Shikon Jewel Shard that had harbored in his body. After Naraku detached himself from his body and merged with the complete corrupt Shikon Jewel, he was able to recover from nearly any damage that was dealt to him including direct hits from Inuyasha's new Meido Zangetsuha and Sesshomaru's new Bakusaiga (that had the special property of spreading acidic damage and thus was the bane of Naraku). In this final form, Naraku was only vanquished when Kagome, with her full spiritual powers, purified him by shooting a final sacred arrow through the Shikon Jewel.

Human/Demon Shift: Unlike Inuyasha, who was forced to become fully human on the night of the new moon every month, Naraku, as a half-demon with Onigumo inside him, could choose what time of the month that he lost all of his powers. Unlike Inuyasha who became a normal human, Naraku was merely a human head that was attached to a mass of yōkai parts during this time, which he used to experiment with his body and rid himself of any unnecessary parts. Since the events that transpired on Mt. Hakurei, Naraku no longer had to become human at any time.

Miasma Manipulation: Naraku's trademark, a poison which killed anything that touched it. It's what made his poisonous gas. Naraku used it to cover his entrances and exits, and could surround himself with the gas while flying. He created a "false Shikon shard" for Kōga with this substance. It was able to power Kōga in the manga and anime for a while until it backfired, poisoned him, and ultimately lead him to remove it with the help of Kagome. Naraku's body was filled with it, which was why when a foe bit him or even touched him he/ she got poisoned. Later on, as his power grew upon his transition to full demon, Naraku's shōki was able to take on a liquid form and acted like a river of acid. His shōki was so strong that it allowed him to break away pieces of the nearly completed Shikon no Tama to use in his schemes. In the current manga, he could melt entire mountains. Over time, his shōki had become so dangerous that after he infected Kikyō with it, neither Kagome nor Kikyō's purification powers seemed to be able to purify it. Kikyō absorbed Midoriko's soul in order to protect herself, but she commented that she didn't know how long Midoriko's power could last against Naraku's venom in the regard that she and Midoriko remained at the same strength while Naraku continued to increase in power. Eventually, even the influence of Midoriko was nullified with Naraku's absorption of the tree demon and Mōryōmaru.

Phantom Castle: Naraku was seen having the ability to create various "Phantom Castles" as temporary headquarters throughout the series. After being nearly killed by the Red Tessaiga, Naraku abandoned the usage of these castles, and decided to be constantly on the move to avoid being found.

Dormancy: Naraku had the ability to hide himself within one of his servants and make it appear as though he had disappeared, or have been killed. A simple task; he got himself "killed" and hid within the body of a servant of his choice. The only instance we saw this was when he hid himself inside of Kohaku. When he was close to emerging from Kohaku, a spider mark appeared on his back. To further this scheme, Naraku made Miroku's Kazaana disappear and returned Kagura's heart to her. (This only happened in the movie, Inuyasha: The Castle Beyond the Looking Glass).

We were shocked!

Me: Whoa! Holy shit!

Lincoln: I didn't know Naraku was that dangerous!

Laney: He has the face of an angel, but the heart and soul of a monster and devil.

Me: He's like a mixture of Orochimaru and Aku in one. Just was the universe needs. Another Fucked Up Madman running amuck and messing with powerful forces that he has no knowledge of understanding.

Aylene C.: And I'll bet he makes even the Devil himself look like a joke.

Naruto: No kidding.

Sasuke: But that Sesshomaru guy looks like he's really dangerous. He reminds me in every way about how Itachi was when he killed the Uchiha.

Me: He did act like him. But he doesn't have Itachi's powers or a blue crescent moon emblazoned in the middle of his forehead.

Kiba: And can turn into a giant wolf and is full demon.

Me: Yeah.

I looked up Sesshomaru's information.

---

He is the son of the Great Dog Demon and another dog demon. He saw his father as the ultimate opponent, wishing to defeat him in combat and take his two legendary swords, Tessaiga and So'unga. He talked with his father following the battle with Ryukotsusei, demanding the two swords be handed over to him. However, when questioned if he had anyone to protect, Sesshomaru told his father that he did not. After his father died to protect his half-brother, Inuyasha, and his human mother, Sesshomaru began hating them. He was given the Tenseiga instead of the other two swords to eventually teach him compassion.

Seeking Out The Tessaiga

Sesshomaru began his quest for the Tessaiga by searching for the place that a short poem indicated it would be. "Seen yet never seen, protected, but never known to its protector." This was the only known clue as to Tessaiga's location. His kappa servant, Jaken, suggested they go to his younger brother, Inuyasha, to ask where his father's grave located. Sesshomaru and Jaken are then next seen riding on a huge ogre looking demon and attacks a woman in a flying carriage. Inuyasha tries to save the woman but Jaken tries to fry Inuyasha, gaining Inuyasha's attention. Sesshomaru praised Inuyasha for him and taunts him for being a half demon. He then asked him where their father grave was, but Inuyasha told him that he doesn't know. Sesshomaru proceeds to tell Inuyasha that if he doesn't answer, he will kill the woman in the carriage, Inuyasha's mother. Inuyasha at first doesn't believe that the woman is his mother. However, after hearing from the woman that she is truly his mother brought back from the dead, Inuyasha attempts to attack the demon and save her. Sesshomaru ordered the demon to attack them, but before they could get hurt, Inuyasha's Mother transported them to a different place. Sesshomaru was annoyed by Jaken's bothersome plan and tells him that if it should fail, he would kill him.

Jaken goes to where Inuyasha was located and it's revealed that the woman was not Inuyasha's mother, but a demon called the Unmother. The Unmother was a spirit of women who had their children killed by war. To lure Inuyasha into revealing the secret to the whereabouts of the Tessaiga, Sesshomaru then appeared and gloated that he knew where their father's tomb was. He grabs Inuyasha and pulled a black pearl from Inuyasha's eye. He then used the Nintojo Jaken carries to open a portal from the black pearl. He and the others jumped in, traveling to the world between the living and the afterlife.

Sesshomaru enters the skeleton of his late father and attempts to pull out the Tessaiga but, he is unable to pull out the sword due to a spell on the sword which prevents full demons from touching it. Inuyasha arrives and tries but fails to pull it out. Sesshomaru then attacks Inuyasha. Kagome, who was knocked back by Jaken, with the sword in her hand pulls it out by accident. Sesshomaru, enraged by the fact that a lowly human could pull out the Tessaiga, demanded Kagome that she must submit the sword to him. However, Kagome refused, and threatened that she'd cut him with the sword. Inuyasha warned Sesshomaru to stay away from Kagome for good. Sesshomaru, who hated humans and half-demons alike, then sprayed toxic sludge upon Kagome, covering her alive. He also remarked to Inuyasha that Inuyasha's love for human was what made him weak, just like his mother. Inuyasha is furious and attacks him not only because of what he did to Kagome but also because Sesshomaru insulted the memory of Inuyasha's human mother saying that she has dirty blood. Kagome pops out of the goo and is unharmed because the Tessaiga protected her. She gives it to Inuyasha and Sesshomaru tests him and the sword by transforming into his demon form which is and giant white dog with all his distinguished markings.

Sesshomaru and Inuyasha start to battle. Inuyasha uses the Tessaiga, which looks like a useless scrap of metal, and it doesn't work. Sesshomaru begins to poison up the inside of his father, forcing Inuyasha and Kagome to escape outside. Inuyasha tells Kagome that she's crazy to think that he needs to believe in the sword to make it work. Kagome starts crying, asking if she should give up hope and Inuyasha tells her to shut up so he can protect her. As Inuyasha approaches Sesshomaru to get the fight over with, the sword starts pulsing and suddenly transforms into a huge fang-like sword. Inuyasha then slices off Sesshomaru's left arm, so he is forced to flee.

## Naraku Lends A Hand

A band of outlaws, who had just raided a poor village, are riding through a land where demons supposedly come out at night. They see someone ahead and assume that it is merely a human and they start to attack. The man kills them all with one stroke of his arm. The man is Sesshomaru. Jaken walks up to him through the grass and congratulates his master on destroying the men so quickly. Sesshomaru throws his arm, that he used to defeat the men, on the ground. He had defeated a demon and had stolen it from him. Sesshomaru cannot find a permanent arm to use after Inuyasha had cut off his arm. Naraku appears behind Sesshomaru and offers him a human arm. He says that Sesshomaru could not touch the Tessaiga because he's a demon, but if he used a human arm he could. He also gives him a hive that would be used to block the hole in Miroku's hand. Naraku asks Sesshomaru to use his gifts to defeat Inuyasha for him.

A huge shadowy claw then zooms across the sky and starts wreaking havoc on a town. It turns out to be another of Sesshomaru's shadow beasts, and the villagers fled in fear. Sesshomaru is releasing poison from his hand and Inuyasha covers his nose with his sleeve and coughs while Kagome, Miroku, and Shippo back away. Sesshomaru says that he came to claim the Tessaiga. They go outside to find Sesshomaru, Jaken, and their big ogre demon. Inuyasha and Sesshomaru fight for a while and Sesshomaru uses his human arm to take the Tessaiga. He shows Inuyasha how to slay a hundred demons with one stroke of the blade. They fight for a while before Miroku steps in and uses his wind tunnel. Sesshomaru releases the hive and the insects from hell fly into Miroku's hand. Miroku is poisoned and he cannot fight. Kagome runs to get him an antidote. Inuyasha continues to fight with Sesshomaru while Miroku and Shippo fight Jaken, who uses his Nintojo, tossing fire at them.

Sesshomaru is about to kill Inuyasha with the Tessaiga when an arrow comes flying at it and reverts its transformation. Kagome is seen standing on a hill with her bow and arrow out. She says the next one will go in his heart and warns Inuyasha to move away. Sesshomaru charges at Kagome but Inuyasha jumps in front of him and takes the blow for her. Later on in the battle, Inuyasha manages to tear off Sesshomaru's arm, but gets stabbed by Sesshomaru's poison claws in the process. Sesshomaru and Jaken leave, and the insects retrieve the jewel shard in Sesshomaru's arm.

## Tessaiga vs. Tenseiga

Sesshomaru, dissatisfied with his sword, Tenseiga, wishes to have the old, absent-minded sword smith Totosai make him a new one. The unwilling Totosai has Inuyasha defend him, causing the brothers to fight. Totosai reveals the heritage of Sesshomaru's sword before creating a diversion to allow Inuyasha and the rest of his companions to escape. Soon after leaving Inuyasha and his companions, Totosai is attacked by Sesshomaru. Once again, Inuyasha battles his brother as Totosai's protector, but must now face Sesshomaru's newest defense: a dragon's arm. As Inuyasha and Sesshomaru continue to duel for possession of Tessaiga, both brothers discover the unexpected power of their respective inheritances, as Inuyasha discovers the true power of his sword, and

Sesshomaru, who called his sword useless, is saved by his Tenseiga, which teleports him to another location.

After the fight, an orphaned human child, Rin, attempts to nurse the injured Sesshomaru back to health. Though he initially tries to scare her off, she returns to him, heartened at the smallest show of interest. After being healed up he leaves, but ends up smelling her blood so he goes to see her only to learn she's been mauled to death by some of Koga's wolves, while trying to return to him. Sesshōmaru was initially going to ignore her, but moved by curiosity and prompted by Tenseiga's pulsing, tests the blade on her, cutting down the minions of hell that have come to collect her soul and restoring her to life. He walks off and Rin follows him, becoming his traveling companion for the duration of the series.

## Sesshomaru's New Sword

After finding the corpse of the fallen Goshinki and detecting Inuyasha's scent on it, Sesshomaru takes the demon's head to Kaijinbo, the rogue swordsmith and former disciple of Totosai, in order to commission a sword made from Goshinki's head. On the same day Kaijinbo arrives, possessed and wielding his newest creation Tokijin, Inuyasha has transformed into his human form being defenseless. Then luckily Totosai appears and gives Inuyasha his sword which is too heavy for him to lift. Kaijinbo is destroyed by his own creation, the sword Tōkijin, because it is too evil for its maker to wield. Kagura directs Sesshomaru to Tokijin and watches as the demon claims his sword and wields it against his brother. While Inuyasha and his friends escape before they feel the full brunt of Sesshomaru's new sword, Kagura decides that Sesshomaru may be strong enough to kill Naraku.

## Inuyasha's True Nature

Inuyasha's demonic transformation gives him great power, but no sense of control over himself as he kills indiscriminately, which Sesshomaru discovers after listening to the wisdom of Bokuseno, a demon-tree and friend of his father. When he arrives he learns that Inuyasha cannot control the demon blood in him, but he decides not to kill him.

## The Panther Demons

A group of panther demons come after Kagome for her Shikon Jewel shards, but seem more interested in attacking Inuyasha and Sesshomaru. Seeking revenge for the defeat of their master at the hands of Inuyasha and Sesshomaru's father, they kidnap Kagome. Inuyasha breaks into the Panther demon's barrier using Tessaiga's new ability. After Myoga reveals why the demons are seeking revenge, everyone splits up to confront the panthers separately.

To resurrect their master, the Panther demons have captured entire villages to sacrifice. However, when the master is revived, he unexpectedly kills three of them to return to life and Inuyasha and Sesshomaru end up cooperating to defeat the Panther demon leader. To defeat the panther demon's master, Sesshomaru uses the Tenseiga to bring the rest of the panther demons back to life. Sesshomaru understood that the other three panther demons lives were taken by the master in order for the master to heal, and thus the master died when they were resurrected.

## Rin is Kidnapped

Kagura kidnaps Rin, and threatens Lord Sesshomaru with her life unless he kills Inuyasha, an ultimatum Sesshomaru ignores. Inuyasha breaks through Naraku's Barrier with his newly gained power, the red Tessaiga. Meanwhile, Kagome and the others pursue the lone Shikon shard Kagome senses, which is Kohaku, who has been charged with guarding Rin.

Naraku is forced to fight both Sesshomaru and Inuyasha, who work together to seriously wound Naraku until their sibling rivalry gets the better of them. The fight is halted when Naraku remotely orders Kohaku to kill Rin before vanishing, which forces Sesshomaru to leave and save the girl's life. When he arrives he is about to kill the boy by strangling him, but decides to spare him, because he knew that Kohaku wanted to die. He then leaves together with Rin.

## Koga Meets Sesshomaru

Sesshomaru and Koga are both still looking for Naraku. Ginta and Hakkaku are fishing on a stream when Rin and Jaken run across them. Rin is scared because she was attacked by Koga's wolf clan. They are scared off by Sesshomaru and they flee to find Koga. They come upon Koga and Inuyasha fighting. After finding out about Sesshomaru from Kagome, Ginta and Hakkaku decid to keep Koga away from Sesshomaru (they think Koga will want to defeat Inuyasha's brother). Of course this does not work out and Sesshomaru and Koga meet but don't fight each other. Instead, they each help each other out by saving the others respective parties and go their separate ways.

Mount Hakurei

When Sesshomaru arrives on Mt. Hakurei, he saves Kagome, Miroku and Sango from the poison user Mukotsu, one of the Band of Seven, however when confronted with the fact that he saved Kagome and the others, he merely states, "I only killed him because he wouldn't answer my questions."

Later on, Shippo tells Inuyasha that Kagome, Miroku and Sango stopped breathing due to the poison. Inuyasha goes off to be alone, and starts cutting down trees and yelling in frustration, seeking vengeance on the Band of Seven and on Naraku. In his rage, Sesshomaru appears and asks him why he's so inconsolable. Inuyasha explains, and Sesshomaru tells him that half demons can barely protect themselves, let alone others. Inuyasha, tired of being mocked, says that if he kills Sesshomaru, he would have the Tenseiga and could revive his friends, to which his brother says a half demon could never master the sword. Inuyasha starts to strike Sesshomaru but the illusion disappears, suggesting it was all in Inuyasha's head to begin with.

After Mukotsu's death, Naraku orders the five remaining Band of Seven to kill Sesshomaru as well. So, Jakotsu and Suikotsu go after him, former noting that protecting Rin is Sesshomaru's weakness. Later on, Suikotsu and Jakotsu had Sesshomaru cornered and they threatened to kill Rin if Sesshomaru made a move. Sesshomaru pulls an impressive maneuver, tossing away his sword behind him and impaling Suikotsu with it, then dashing ahead into the path of Jakotsu's snake-sword and plunging his claws into Jakotsu's heart. However, Sesshomaru, thinking that was enough to kill them, lets his guard down, and as Rin runs away from her captors, Suikotsu grabs her and gets ready to kill her. Jakotsu tells Sesshomaru he'll be too late to save her, but suddenly Kikyo arrives and manages to stop Suikotsu with her sacred arrow.

He later watched as Naraku's miasma destroyed the vegetation on Mt. Hakurei and several demons escaped from the destroyed barrier. Possibly watching Naraku's attempt to kill Kikyo, Sesshomaru appeared before him; he believed that since he's emerged from hiding, he has grown stronger. Testing his theory, Sesshomaru destroyed Naraku's body, but the force of Tokijin was sent back by Naraku's barrier. He made one final slash that ripped Naraku's head in half. However, he had no success in destroying him for good, watching as he fled once more. When Inuyasha arrived to see Kikyo's broken bow, Sesshomaru berated his brother for not being able to save her, telling him to chase Naraku instead of yelling at him.

### The woman who loved Sesshomaru

Sesshomaru came across Sara Asano, a woman who had been watching him recover following his first attempt to take Tessaiga. She offered to grant his wish (to possess Tessaiga), not knowing that his main desire now was to find and kill Naraku for using him. Sesshomaru told her to do as she wished, believing she may be useful. When Jaken questioned him as to who she was, Sesshomaru told him that Sara was human once, but never fully became a demon. He later appears when Sara successfully stole Tessaiga, destroying the crow demon she used for transport. Sesshomaru refused to accept Tessaiga from Sara as he does not need help in defeating Inuyasha especially from her and fled into the forest. Sara followed him and found him at the same tree where he laid injured from his first battle from Inuyasha and where Sara came upon him. Listening to her tale of how she came to know him, Sesshomaru noticed the demonic side of her had emerged. Inuyasha arrives to reclaim the Tessaiga. Sara attempted to restrain and kill him, but Sesshomaru steps in the way and strikes her and revealed that the demons she made a pact with were using her spiritual powers as a bridge so they can absorb him. Learning Tokijin's hatred feeds the demons, he temporarily managed to wield Tessaiga and destroy her. As Sara faded into golden dust, he listened to her declare her love for him. Once she passed away, Sesshomaru placed Sara's flute in her remains and then said "Go play your flute in the netherworld."

### Battle in The Afterlife

Sesshomaru followed the scent of a flood of blood to the decapitated Tekkei and wondered what had happened. Kagura appeared and informed him Naraku had gone to the Border Between the Living and the Dead to retrieve the final jewel shard. She leads him to the Gate in the Land of Fire; there, he drew Tenseiga, pacifying Gozu and Mezu, and allowing him to enter the gate without being turned to stone. He flew to his father's grave once more and tried repeatedly to break Naraku's barrier; Naraku taunted him by allowing superfluous limbs to be destroyed. However, once Inuyasha gained and used the Diamond Spears that broke Naraku's barrier, Sesshomaru's attack tore him to pieces. Seeing Naraku had fled back to the World of the Living, Sesshomaru headed back to the gate with Inuyasha's group.

### Forever With Lord Sesshomaru

While searching for Naraku, Sesshomaru came across a village under attack by bandits, killing them once they attack him. Monks arrived shortly after and questioned if he was responsible for attacking the village, Sesshomaru created distraction and left. During his absence, Rin was kidnapped by Ongokuki. Sesshomaru tracks him down, but finds the very same monks he encountered earlier having rescued her and several other children. Knowing that Rin should live with humans, Sesshomaru was willing to allow her to leave, but intervened when Rin called out for his help. Holding back, Sesshomaru destroyed their charms and told Rin to follow him if she chooses; she did. Sesshomaru is later taken off guard by a question from Rin: "When I die, will you always remember me?" Though masking his true feelings, Sesshomaru says "don't say such silly things."

### Kagura's death

Kagura, one of Naraku's incarnations, later betrays Naraku to obtain her freedom. She believes that only Sesshomaru can defeat him;

she also was hinted to have romantic feelings for him, just like Sara. After trying to attack Gorymaru's temple and getting injured, she fell into a river near Sesshomaru's group. Recovering, she explains Naraku is using an orb known as the Fuyoheki to hide his heart; Sesshomaru is given crystal shards of demonic energy to help him find Naraku's heart. Sesshomaru entrusts Jaken to look after the crystals.

During a battle with Moryomaru, Sesshomaru catches the scent of Kagura's blood and Naraku's miasma. Moryomaru insults her, which angers Sesshomaru and he manages to break through Moryomaru's defenses, breaking Tokijin in the process. He leaves the sword behind, choosing to obtain a new one instead of reforging Tokijin.

Just as Kagura thinks she'll die alone in the field of flowers, Sesshomaru appears before her, much to the wind sorceress' surprise. Sesshomaru tells Kagura that he picked up the scent of blood and miasma. Kagura replies, "I see, you thought I was Naraku. Are you disappointed that I'm not Naraku?" Sesshomaru replies to her, "I knew it was you." He reaches for Tenseiga but then realizes at that moment that she can't be saved. Kagura is happy she got to see Sesshomaru one last time. She looks up at him and smiles as she dies, she then turns into the wind and disappears. When Inuyasha comes right after Kagura dies, he asks Sesshomaru if she suffered. Sesshomaru simply looks toward the sky and says, "She was smiling," and then walks away.

Meido Zangetsuha

Tenseiga called out to Totosai at this time and he later states that the sword told him that Sesshomaru's heart had felt something it had not before: rage and sorrow, which he had felt fir another person and not just himself. Because a technique that sends ones foes directly to the Netherworld is so potent and dangerous in the wrong hands, Sesshomaru's heart had to be mature enough to wield it responsibly. In this way, Kagura's death helped Sesshomaru to mature and become a more powerful, responsible individual.

When Sesshomaru learns how to perform Meido Zangetsuha, he reflects on Kagura's death, and how Moryomaru told him that she had died for nothing. He then thinks to himself, "I, Sesshomaru, will be the one to decide if she died for nothing." The wind then blows, which Rin points out, and the group of three leave Totosai. The wind is meant to represent Kagura's spirit.

## Rin's Second Death

In an effort to strengthen and enhance Tenseiga's powers even further, Sesshomaru visits his mother in search of answers to make his Meido complete. He ventures into Hell after a demon from the underworld grabs Rin and Kohaku; the latter is sill alive due to the jewel shard in his back, but Rin did not regain consciousness. Sesshomaru felt regret, believing he should never have brought her along and should had left her in a human village; he felt frustration and blamed himself for her death. Sesshomaru's mother offers him a way out of the underworld, which he declines; this offends her. Sesshomaru finds Rin in the grasp of the master of Hell. After he slays the demon he realizes Rin isn't reviving, he later learns that he can't resurrect her and states that enhancing and strengthening his sword is not worth the price of Rin's life. Dead bodies in Hell surround them, and with his grief for Rin he uses Tenseiga to purify them. When he returns to the living world with Rin's body, his mother scolds him for thinking he was a god who could control life and death, and tells him Tenseiga can only revive the same person once, and she tells him that when his heart wishes to save his "loved one" (in reference to Rin), he must also at that moment feel both sadness and fear; this is what it means for him to have "a compassionate heart."

Sesshomaru could only learn to understand the worth of a life and gain a truly compassionate heart when he lost the life that meant the most to him, and "a compassionate heart" which is what is necessary for one to wield the Tenseiga's destructive power, which can dispatch enemies to the Meido. His mother tells him not to expect her to do this twice, placing the Meido Stone around Rin's neck. Much to his relief and happiness, Rin is resurrected once more. His mother asks Jaken if Sesshomaru is happy when she revived Rin, and Jaken responds that it most likely he is "extremely so."

## Bakusaiga and The Final Battle With Naraku

Sesshomaru realizes his true potential as a greater demon after Tenseiga's fighting technique, Meido Zangetsuha, is given to Inuyasha. Sesshomaru lets go of his obsession with Tessaiga in a battle with Magatsuhi, and regains not only his left arm, but also his own sword, Bakusaiga. Sesshomaru demonstrates his new swords devistating power. Later he uses this sword while fighting Naraku along with Inuyasha's group in the final battle, aiding in the final destruction of the evil demon by destroying large amounts of Naraku's body.

The Epilogue

Three years after the defeat of Naraku, Kaede has convinced Sesshomaru to let Rin grow up in a human village, and when she is older, she will be able to choose whether to stay with humans or go back to travelling with Sesshomaru. He often returns to the village to give Rin gifts. Sesshomaru was also quite annoyed when Kagome called him "big brother."

---

Me: Wow! Sesshomaru is an anti-hero. But he hates his brother.

Laney: That's not right.

Lincoln: So now we have a new enemy to face.

Me: And Kill. But from the looks of things he is really powerful. We're gonna be in for one helluva fight!

Jessie K.: But how are we gonna get there? InuYasha's world takes place during the Sengoku era of Japan back in the 1500's.

Me: That was 500 years ago.

Lucy Loud: I can help. My sword has the power to form portals that can take us to different dimensions and different times.

Me: Wow! This we got to see.

Lucy then turned into her Super Angel 20,000 Darkness Vampire Raven form and she slashed the air with Nizogamourne and it cut a hole in the fabric of dimensions and it opened a portal that lead into the world of InuYasha in the Sengoku Era!

Me: That is so cool!

Nico: Lets head in.

We stepped through the portal and we were in the world of InuYasha.

Me: Here we are guys. Sengoku Era Japan, 16th Century.

Lincoln: It's beautiful here.

It was a beautiful landscape.

Naruto: So how are we gonna find InuYasha?

Me: We sense for his energy signal.

I concentrated and found his energy signal up north.

Me: This way!

We went north following InuYasha's energy signal.

Up ahead was the posse of InuYasha. InuYasha the Half-Demon, Kagome Higurashi, Miroku the perverted wizard, Sango the demon slayer, Shippo the Kitsune and Kirara - Sango's assistant.

InuYasha heard us.

Kagome: What is it InuYasha?

InuYasha: Something is coming.

Miroku: A very powerful force.

Sango: Are they demons?

Shippo: No, it's all a force of pure good.

We landed by them.

Kagome: Oh wow! The world famous Team Loud Phoenix Storm!

Me: It's a pleasure to meet you Kagome.

Miroku: We heard so much about you from Kagome. It's an honor to meet you.

Miroku then grabbed Kagome by her butt and she slapped him in the face, hard!

SLAP!

Nicole then smashed Miroku into pulp and Mia grabbed her and calmed her down.

Mia: (calms Nicole down) Easy. We're all on the same side here.

Nicole: Right sorry.

Me: You'll have to forgive Nicole. She hates perverts with a terrible vengeance.

InuYasha: I can see that.

Naruto: (to Inuyasha) Are you a ninja like me?

InuYasha: (Chuckles) No I'm not.

We set up camp and told them what we were there for.

Kagome: So you've all come to kill Naraku?

Me: Yep. We're gonna make that monster pay for his crimes and send him into the River of Fire.

Nicole: From what we saw, his crimes would make the Book of Vile Darkness too Lenient for him.

Laney: Yeah. Naraku is a monster that makes even the Devil himself look like a joke.

Miroku: I'm not surprised. Naraku is a monster of ultimate evil and he will stop at nothing to destroy everything using the power of the

Shikon Jewel.

Kagome: That's the necklace around InuYasha's neck.

Me: I know. That jewel is really powerful and Naraku wants it so he can destroy the world.

Lincoln: Yeah.

Naruto: And for the record InuYasha, I know exactly what you went through.

InuYasha: What do you mean Naruto?

Naruto: Like you, I had a dark childhood and it was a tragic one.

Naruto revealed his background and everything he went through over the course of his life.

InuYasha was shocked. And so was Kagome.

InuYasha: I didn't know Naruto. You and I are very similar.

Me: My brother and 8 others are like you InuYasha. They had to endure what you went through and for that I'm sorry you went through all that.

InuYasha: It's all right J.D.

Me: Good. But you know InuYasha, that we're gonna face all of Naraku's minions and take them down.

InuYasha: I know. We'll gladly help you J.D.

Me: Thanks InuYasha. We have to work together if we're gonna take him down. And we'll need to find your brother Sesshomaru and get him to help us.

Kagome: There's no reasoning with that guy. But why do you want to kill Naraku?

Me: His crimes can't go unpunished. We have to kill him and make sure that he pays for his crimes in the River of Fire.

Kagome: I agree.

InuYasha: I'm in.

Me: Lets go.

We set out to kill all of Naraku's minions.

First we killed Bankotsu.

---

Before the creation of the Band of Seven, Bankotsu traveled around with Jakotsu, challenging every strong human and demon alike. He meets Naraku while heading to a battle, who made it there before him. Naraku then tells him about the Shikon no Tama before disappearing. Soon after this Bankotsu decides to create the Band of Seven.

Despite being an otherwise normal human, Bankotsu was an extremely powerful warrior. So much so he could defeat demons, which normally only Demon Slayers such as Sango could, or holy men and women like Miroku and Kagome. His strength is such that, despite only being a mere human, he is capable of equaling Inuyasha in battle prowess. After gaining more jewel shards, he nearly surpasses Inuysha's strength, and even taunts him for being weak. However, he underestimated Inuyasha's endurance as the latter used it as a chance to remove Bankotsu's jewel shards. Upon slaying his 1,000th demon, Bankotsu's Banryū transformed into a powerful, demonic sword that could project the master's hatred into a powerful, destructive energy. Much like the nature of Sesshōmaru's Tōkijin, as noted by Inuyasha. Because of this transformation and the gaining of a demonic aura, Inuyasha was able to use the Bakuryūha which shattered Banryū and defeated Bankotsu.

Bankotsu's most well known ability is being able to wield Banryū skillfully. Aside from that, he also seem to posses superhuman strength as seen in episode 110, when the lord mentions that the sword was heavy enough that three strong men were required to lift it. He also possesses great endurance, speed and agility, far above all the other members of his team.

Though highly proficient with Banryū, his weapon of choice, he also displays formidable skill in unarmed combat, as shown when he easily bests Renkotsu without his halberd, and later fights Inuyasha hand-to-hand. In the latter instance, it is shown that, despite Inuyasha's claws, Bankotsu nearly held a clear edge over Inuyasha, even after losing two of his jewel shards as he battered the latter with ease. However, it appears Inuyasha allowed himself to get injured to remove the shards in Bankotsu's neck, which seemed to be the case as Inuyasha remarked he can take more damage than Bankotsu can inflict.

Weapon

Banryū (Barbaric Dragon): Nicknamed Bankotsu's "companion," Banryū is a gargantuan halberd that, after being bolstered by the shards of the Shikon Jewel, can manipulate lightning and fire a variety of energy attacks. In the series of episodes that compose the Band of Seven arc, Bankotsu uses several jewel shards that Renkotsu stole from Kagome to strengthen the power of Banryū. The jewel-empowered Banryū is shown to able to effectively counter Inuyasha's Kaze no Kizu attack. The strength of Banryū, enhanced with the Shikon Jewel Shards, is seemingly equal to that of the Tessaiga. In the anime, Bankotsu, desiring yōki, made a wish on his Banryū, vowing to kill both 1,000 yōkai and 1,000 humans, so that it would gain demonic powers. It refers to the legend that, if a human were to ever kill 1,000 yōkai, he would gain powers that yōkai possess. He succeeds in fulfilling in wish, only to have said accomplishment lead directly to his downfall, as Inuyasha reflects the energy of the now-demonic halberd back at Bankotsu, mortally wounding him and shattering the Banryū.

---

I kept his halberd as a trophy.

Next we killed Byakura.

---

Byakuya of the Dreams was the last of Naraku's incarnations, and the only one who was loyal to him in the end. He first appeared in chapter 398 of the Inuyasha manga and episode 4 of Inuyasha: The Final Act, and while he didn't engage in combat, he acted as a spy and informant to Naraku.

Flight - Similar to Kagura's feather, Byakuya used an origami swan as transportation.

Spying - Byakuya had the ability to detach his left eye to spy on Naraku's enemies from a distance.

Sword - Never used it in combat, but instead used it in the final battle against Naraku to capture Inuyasha's Meido Zangetsuha, in order to cut Kagome with it and trap her in the Shikon Jewel.

---

Lincoln fired a massive blast of lightning and it electrocuted him and destroyed him. Lincoln kept his sword as a trophy. Laney then killed Ginkotsu.

---

He first appears to fight Inuyasha to delay him while Renkotsu deals with his friends. Despite being a dangerous enemy, Inuyasha manages to defeat him. However, a tenacious Ginkotsu tries to hinder Inuyasha after Renkotsu's true colors are revealed.

Inuyasha still defeats him and manages to save his friends. Only Ginkotsu's head survives the battle. Renkotsu then rebuilds Ginkotsu as a transport mechanism for the Band of Seven to travel distances. After Koga gets to Mt. Hakurei, Renkotsu and Ginkotsu attempt to ambush him, only for Koga to defeat Ginkotsu. The anime and manga differ in the manner of his demise. In the manga, he is killed when Koga stuffs his own armor into his gears, causing him to explode.

In the anime, Ginkotsu manages to survive the explosion and attempt a failed kamikaze on Koga. Ginkotsu is literally a walking arsenal and has many advanced weapons (for his time period) at his disposal.

---

Lana then killed the dragon demon Goshinki and she got his powers:

Super Strength - Goshinki typically possesses enhanced strength for someone of size, able to easily defeat Inuyasha and fling him about whilst causing serious injuries.

Super Speed - Despite his size, Goshinki wields surprising agility, effectively dodging and countering Inuyasha's attacks. He leaves afterimages in his wake, much like Sesshōmaru.

Mind Reading - Goshinki's most terrifying technique is the ability to invade other people's minds, reading their most inner thoughts to discover their weaknesses and counter any attack on him. However, Goshinki's power is ineffective against a full-Demon Inuyasha due his thoughts being primitive with an absolute bloodlust.

Next Sam S.L. faced Hakudoshi.

---

Hakudoshi's first deed was becoming the master of the demon horse Entei. In the manga, Entei followed Kagura and chose Hakudoshi as his master. In the anime, Hakudoshi kills Entei's previous master, Rengokuki, impressing the demon horse. He serves as Hakudoshi's main mode of transportation until he is killed by Inuyasha.

Hakudoshi also willingly told Inuyasha and his group that he was searching for the Border to the Afterlife, the location of the final jewel shard, and told Kagura that there was no point keeping it a secret. He eventually began severing the heads of demons instead of monks in order to learn about the border, and eventually learns that it is located at the gravesite of Inuyasha's father. He sends Kagura to "test" the gate guarded by Gozu and Mezu, resulting in her nearly being turned to stone. She returned and attempted to kill Hakudoshi, only to have her heart squeezed by Naraku. He later helped

Princess Abi collect blood to heal her mother, while would eventually provide an alternate route to the Border of the Afterlife.

Naraku eventually devised a plan to lure Kikyo out with an endless swarm of rat demons. Hakudoshi and Kohaku slew the demon commanding them, Zushinezumi, and unleashed the horde on the region, commanding Kohaku to leave the doors to to the shrine that was producing the rat demons open. Kikyo eventually solved the rat problem by planting a magical tree to lure the rats toward it and purify them.

Inuyasha and his group discovered many demon corpses, which had apparently been slain for their haku, the part of the soul that allowed movement. It was eventually revealed that the stolen haku was being used by Hakudoshi to create a demonic construct, named Moryomaru. Soon after Naraku discovered that his enemies knew that The Infant was his heart, he stole the Fuyoheki to conceal The Infant's demonic aura, and hid him inside Moryomaru.

Eventually, Hakudoshi and The Infant used this to their advantage, devising a plan of their own to betray Naraku. Hakudoshi told Kagura to release Goryomaru, a demon-slaying monk whom she had presumed was dead. It was revealed that the stolen haku was being stored in Goryomaru's arm, which served as a blasting cannon of sorts, and that he and Moryomaru were one and the same. Hakudoshi and The Infant began to hunt Kohaku for his jewel shard. Kagura decided to protect Kohaku, and told Inuyasha's group about Hakudoshi's plans. He attacked Kagura in a fit of rage following her betrayal, saying that even Naraku couldn't kill him, prompting his progenitor to abandon him and allow him to be killed by Miroku's wind tunnel.

Powers & Abilities

Naginata - Hakudoshi's weapon of choice, originally belonged to Rengokuki

Regeneration - can heal wounds just like Naraku

Barrier - is able to create a barrier similar to Naraku's

Flight - despite using Entei as his mode of transportation for a time, Hakudoshi is able to float without aid

---

She incinerated him in an instant.

Dawn then faced Hoshiyomi.

---

Hoshiyomi eventually employed Kaijinbō, Tōtōsai's evil former apprentice, to craft a weapon for him, after Tsukiyomi began to show extreme signs of fatigue from their battles. With the bodies of 222 demons Kaijinbō forged the Naginata of Kenkon (trans. "Halberd of Heaven and Earth"), a powerful sword with a stave in the middle of two separate, yet equally balancing powerful blades. After Hoshiyomi received his prize Tsukiyomi no longer had to fight their common foes, but he struggled with the evil from the sword that was possessing him. Tsukiyomi eventually sealed Hoshiyomi within a pentagram with the intent of destroying the naginata; however, her plans went awry as fatigue overtook her and she died before she could both destroy the naginata or release Hoshiyomi.

During the story

Decades later, Hoshiyomi was freed and eventually reacquired both blades (one of which Akitoki Hōjō had in his possession to guard), waging war on all of humanity for "its betrayal." After creating a black hole-like vortex, Inuyasha and Kagome are eventually able to defeat him with the combined power of Inuyasha's Backlash Wave, Kagome's sacred arrow, and a little spiritual help from Tsukiyomi's soul; the Naginata of Kenkon is destroyed along with him. In addition, just before Hoshiyomi's death, he realizes Tsukiyomi's true intent (having begrudged her for sealing him away) of her last actions, forgives her, and, upon his death, is reunited with her.

Demon Ninja Shadow Incarnation: Hoshiyomi has the ability to create doppelgangers of himself, concealing copy is his true self so that his opponents will attack false enemies. However, this technique doesn't work very well when he battles Inuyasha, because the half-demon is able to detect which doppleganger is the real one by determining which one has a scent.

Demon Ninja Shadow Hold: Hoshiyomi throws a dagger into the shadow of his opponent, holding them down by their silhouette and rendering them unable to move. However, when there is total darkness and the shadow is unrecognizable from the rest of the darkness, the technique weakens in power. This is seen when the light of the moon is covered up by clouds and Inuyasha notices that he can move again.

Demon Ninja Pentacle Barrier: Hoshiyomi creates a barrier with a pentacle-star spell, making it impossible to be disturbed. Its unknown if Inuyasha's red Tessaiga would have been able to break the barrier, as Inuyasha, Akitoki Hōjō and the others were occupied with battling the four demon ninjas. Hoshiyomi dispels the pentacle barrier when the Naginata of Kenkon is completed, choosing to rely on only the blade for protection.

Ball of Light: Much like Sesshōmaru, Hoshiyomi transforms into an orb of light when travelling great distances. This is seen when he flees with Kagome as his hostage.

Weapons

Naginata of Kenkon: The Naginata of Kenkon was a weapon that was created by Kaijinbō. is consisted of two sharp-edged curving blades going into a tsuba, or hand-guard on either end of a long wooden rod. It was created using the souls of 222 yōkai.

Aura: Giving off a dark purple malevolent aura, the demonic essence of the Naginata was powerful enough to corrupt and possess (as Tsukiyomi suspected) Hoshiyomi, forever changing his personality until his death. In one particular scene of note, Inuyasha is exposed to the unshielded aura of the Ken blade, while it is still in the possession of Akitoki Hōjō. In that scene, it appears that Inuyasha loses himself completely to the evil influence of the blade, unable to hear the voices of his friends calling his name. It isn't until the blade is covered again that Inuyasha returns to himself, unsure of what had just occurred. This event demonstrates the evil corrupting power of the Naginata, and shows exactly the kind of influence that Hoshiyomi has fallen under.

Barrier: Even with just the Kon blade, Hoshiyomi is still able to erect a yellowish barrier, exceedingly strong and powerful enough to withstand the power of Inuyasha's Kaze no Kizu (Wind Scar) .

Energy Absorption: At least attributed to the Kon blade, the Naginata is able to absorb both demonic energy (as in the instance with the Tessaiga) and spiritual energy (such as the instance with Kagome). In addition to this, the Naginata is able to emit this energy as a Kenatsu (see definition below), shown when Hoshiyomi fired a blast at Inuyasha right after absorbing much of the Tessaiga's demonic energy. The energy absorbed from Tessaiga was comparable to Sesshōmaru's first use of the Wind Scar. This ability is quite similar to Inuyasha's Dragon-scaled Tessaiga.

Kenatsu: Kenatsu is the special ability that allows the Naginata to cut an opponent with its yōki without physically touching them.

Crimson Sphere: It is one of the Naginata's strongest offensive attacks. It takes the form of an extremely huge crimson sphere of pure energy and can be directed at an opponent. If said attack connects with someone, the sphere engulfs them and quite possibly exterminates them into nothingness. Hoshiyomi uses this as a seeming last measure attack to kill Inuyasha and his band.

Spherical Shockwave: Similar to Sesshōmaru's spherical shockwave with the sword, Tōkijin, a highly destructive sphere of demonic energy is created on the tip of the blade and dispersed in a spherical fashion. Hoshiyomi used this attack to slay a large number of yōkai in one stroke after they had surrounded him. (This event is similar to the Kaze no Kizu ("Wind Scar") which can destroy "a hundred youkai in a single swing".)

Nether Vortex: Quite possibly the Naginata's most powerful technique, and quite similar to the "Meidō Zangetsuha", the "nether vortex" is a form of red kenatsu burst that theoretically creates a portal to the invisible void between Heaven and Earth. This portal, however, also acts similar to a black hole in that it sucks in everything around it with irresistible force. (See also Kazaana) . Being the space between the most powerful forces in the universe, it is speculated that with enough time that the black hole could absorb the entire world into would benefit Hoshiyomi's goal to destroy every human in the world and that could be the reason why he used such a dangerous technique.

---

Dawn fired a powerful blast of cosmic energy that turned into a deadly dragon and it slammed into Hoshiyomi and obliterated him.

Dawn: No one is gonna destroy this world as long as we have anything to say about it!

Lola faced the demon Izumo.

---

Izumo/Gyu-oh was a half-demon born between a male templemonk and a female bull-demon. In contrast to all other half-demons in the series, he was a pure human during the day, and a pure demon at night. He took the name Izumo for his human form.

He sought a way to become a full human, because he found his existence as a half-demon bad. After visiting many countries, he learned about the "Shikon no Tama", a sacred jewel that could transform a half-demon into a pure demon or a pure human being. This, however, was broken. Thereupon, Gyu-oh teamed up with a group of demons who also sought this jewel to become more powerful.

He created several false jewels, which the demons they used to make stronger, but were not even as powerful as the real jewel. In order to create a new jewel, he finally kidnapped Kagome and wanted to use and sacrifice her friends. But his plans failed, and the demons which has been allied with him were defeated. Finally, he tried to strengthen himself with the false jewels. When, however, he turned into a human at daybreak, the false jewels killed him.

Powers and Abilities

Gyu-oh

High Intellect: He has shown that he is really smart, and like a philosopher, to find the deeper meaning in many things. Kagome was even convinced that he was a scholar. Besides, he was also able to lure the friends into the trap with a clever plan. And he could create the false jewels.

Superhuman Powers: Like all half-demons, Gyu-oh had more strength, stamia and resilence than a human being. He was strong enough to make a landslide with a bow of his club. The demons who were allied with him could quickly defeated by Inuyasha, but Gyu-oh was a strong opponent in the fight.

Spiritual Powers: In his human form he is more pure and spiritual than ordinary humans. Even wild birds sit down on his hands and shoulders. And even in his demonic form, he can still create a barrier strong enough to ward of the sword Tessaiga.

Miasma: He can also generate toxic fumes to attack his opponents.

---

Lola fired a powerful blast of fire and incinerated him into nothing.

Lucy faced the demon Jakotsu.

---

Jakotsu first makes his appearance in episode 102. He soon becomes obsessed with Inuyasha, refusing to go after any other of the Band of Seven's enemies. He is often shown to despise women, attacking Sango when she "interfered" in the ongoing battle between himself and Inuyasha. In the past, he was good friends with Bankotsu, traveling with him even before the Shichinintai were formed.

Jakotsu is mortally wounded under a pile of rubble during her final battle with Inuyasha. Renkotsu, who had become obsessed with immortality, dealt the killing blow to Jakotsu for his jewel shard.

Jakotsuto: the Jakotsuto was a broadsword made of over 50 blades linked together by pins, when used with Jakotsu's skilled swordsmanship skills it would flow around like a snake being while and unpredictable.

Other than the Jakotsuto blade, Jakotsu had displayed keen reflexes during his battles.

---

Lucy Loud slashed her with a powerful slash from Nizogamourne and she sent her into the River of Fire as a deadly burst of fire. She kept her broadsword as a trophy.

Lucy Loud: You give all the spirits everywhere a really bad name.

Next Lori, Lana and Brittney faced the Wind Demon Kagura, Kaguya the Ice Demon and Kanna of the Void.

---

Kagura was created along with Kanna by Naraku to serve him, although she utterly despises him and wants him dead so she can have her freedom. Unfortunately for her, her heart lies in Naraku's hands, preventing her from openly betraying him.

Her first mission was to kill Koga's wolf tribe, and make it appear as if it were Inuyasha's fault, which Koga temporarily believed. When she failed due to Inuyasha's Wind Scar, Naraku admitted to manipulating her, and she responded by attacking him with her folding fan. He then reminds her that he literally holds her heart in his hand, squeezing it for emphasis. From her first mission onward, she continues to fight Inuyasha and his allies while feigning loyalty to Naraku.

Kagura later shows an interest in Sesshomaru, believing him powerful enough to destroy Naraku. When they first meet, Sesshomaru coldly dismisses her, telling her that if she wants Naraku dead she should deal with him herself. Some time after, she abducts Rin in the hopes of luring Sesshomaru to Naraku's castle, and it works. When he cuts himself free of Naraku's tentacles, Kagura concludes that he will be the one to destroy Naraku.

Following the Band of Seven arc, Kagura is charged with taking care of Naraku's latest incarnation, The Infant, a task which she hated.

After Naraku learns of the Border to the Afterlife, The Infant searches for the border by reading the minds of monks and priests, whom Kagura promptly slays afterwards. She was pleased when Shinsen, a particularly powerful monk, was able to split The Infant in half, apparently killing both. However, Kagura was quickly proven wrong, when the right half of The Infant matured, creating Hakudoshi. She was then charged with working with the child.

Hakudoshi took delight in ordering Kagura around, and she soon began to realize that there was something especially important about The Infant, who was entrusted to Kanna, whom Naraku trusted more. When Hakudoshi sent Kagura to "test" the gate to the underworld guarded by Gozu and Mezu, she discovered that, when the gate opened, it turned all nearby living creatures to stone. Furious, she returned to Hakudoshi, attempting to cut him in half with her folding fan; immediately after, Naraku squeezed her heart. It was at this point that Kagura became more active in her quest for freedom. She also came to the realization that The Infant was Naraku's heart, and that by killing him, her master would be destroyed as well.

At this point, Kagura begins to visit Sesshomaru more frequently, eventually leading Rin to speculate that she has a romantic interest in the daiyokai. She begins looking after Kohaku, and protects him as his memories begin to return. During the Final Act, Hakudoshi creates his own plan to betray Naraku, and tries to enlist Kagura's help, imploring her to free an imprisoned Goryomaru, a demon-slaying monk who had been presumably killed. Kagura had been charged with guarding him, and correctly assumed that Hakudoshi had traitorous intentions. When he and his demonic construct Moryomaru began targeting Kohaku for the jewel shard in his neck, Kagura actively protected him, allowing him to escape. She assists her long-time enemy Inuyasha by telling him that The Infant is inside Moryomaru, and after Hakudoshi is slain by Miroku, Kagome offers Kagura to travel with them, which she declines because they had been enemies for too long.

Naraku then returns Kagura's heart to her, granting her "freedom", although he also injects her with his miasma. As she is dying in a field of flowers, she wonders if she will die alone, but is then visited by Sesshomaru. She proclaims that she wanted to see him one last time before vanishing into thin air, becoming the wind.

## Powers and Abilities

Kagura wields the power of wind and often uses fans to amplify her powers in battle.

Dance of Blades - Summons blades that can pierce almost anything. Her weakest and most common attack.

Dance of the Dragon - A more powerful attack that summons tornadoes, rending her opponents asunder

Dance of the Dead - Kagura can animate corpses, using them as puppets, messengers and meat shields. When she releases the corpse, it collapses and oozes foam.

Flight - Can transform one of her hairpins into a giant feather for transportation.

## Kaguya

Kaguya absorbed a celestial maiden, taking her appearance, name, and immortality, calling herself the Princess of the Heavens. She intended to use the Celestial Robe to stop time in order to bring eternal night, and rule the world as its queen. She would stop time without remorse and destroy all living things in her wake, and when she was active, there would always be a full moon, which would change color. However, she eventually encountered a monk named Miyatsu. Unable to bring himself to kill a beautiful woman, Miyatsu sealed Kaguya inside a mirror, which he hid at a shrine in the Forest of Illusion. The only way to release her was to gather the five items told in the fairy tale of Kaguya and drop them each in one of the five lakes around Mount Fuji.

She was eventually discovered and awakened by Kagura and Kanna following the supposed death of Naraku, whom she feared, having apparently encountered him. Promising to give Kagura freedom if she and Kanna released her, Kaguya raised her Dream Castle from Lake Motosu, going forward with her plan to exterminate all life. Kagura and Kanna collected the items and released Kaguya, who fought Inuyasha. When Kaguya reflected one of Kagome's Sacred Arrows at Inuyasha, Kagome took the hit for him, pinning the Celestial Robe to her back when Akitoki Hojo threw it to try to protect her. Kaguya offered to turn Inuyasha into a full demon if he became her servant, but he told her to go to hell, so she took Kagome to her Dream Castle, telling Inuyasha to meet her there.

Kagome's wound was healed by the Celestial Robe, which Kaguya reclaimed. Kagura and Kanna turned on Kaguya when they realized she wasn't going to keep her word, so she paralyzed them and sent them to the bottom of the lake. Then she froze time, but Kagome, being from the future, was unaffected, as was the rest of her team due to being protected by items she brought from the future. Kaguya decided to eat Kagome for her power, and when Inuyasha faced her, she turned him into a vicious full-demon, but Kagome was able to return him to his senses through her love for him, and they shared their first kiss.

In the middle of Inuyasha's fight with Kaguya, Naraku revealed himself to still be alive, having faked his death in order to draw Kaguya out and absorb her, which would make him immortal. Kaguya overpowered Naraku, and while Inuyasha fought her, Kagome shot her mirror with a Sacred Arrow, allowing Inuyasha to destroy her body with Wind Scar.

However, Kaguya survived in a disembodied form resembling a cloud of darkness, and continued to try to absorb Kagome. Naraku attempted to absorb her, but was temporarily defeated by Inuyasha, and Miyatsu's grandson, Miroku, absorbed Kaguya with Wind Tunnel, destroying her once and for all.

Kanna

Kanna originally had barely any sense of self, doing as Naraku ordered of her. She knew Naraku could kill her and Kagura at any time he wished; "It's in Naraku's hands, both life and death." As she harbored no ill will towards her creator, she was trusted above all her siblings, being allowed to give Kagura and Kohaku orders from him. Despite Naraku believing she wouldn't develop a will or emotions of her own, Kanna eventually did and began to question her own existence. Her bond with Kagura was the only reason Kanna betrayed Naraku; letting Kagome know the light in the Shikon Jewel could kill him was Kanna's way of avenging Kagura.

She appeared to have an ear for poetry, reciting some of the poems in InuYasha the Movie: The Castle Beyond the Looking Glass. In InuYasha: The Final Act, Kanna recites the same poem twice in "Naraku's Heart" and another one in "Flowers Drenched in Sadness". Each poem reflected something from each episode, such as Kagura's desire for freedom and questioning her own existence.

---

Lori blasted Kagura with a powerful blast of wind and shredded her apart and Lana faced Kaguya and talked some sense into her because Lana felt that Naraku was using her as a pawn in his diabolical ambitions and she got her to change her ways. Brittney also reasoned with Kanna and got her to change her ways.

Next we helped Sango's brother Kohaku and brought him back to Sango.

---

Kohaku lived with his sister Sango and their father, in a village of demon slayers. Eventually, his father decides that he is old enough to become a demon slayer himself, and while he is reluctant, Sango helps to alleviate his fears. They arrive at the castle they are assigned to, but unknown to them, Naraku has taken the form of the castle's lord, possessing Kohaku and forcing him to kill his own father. He dies just before he can strike a blow at Sango.

After Sango joins Inuyasha's group, Naraku resurrects Kohaku, removing his traumatic memories and brainwashing him to be an emotionless killer. He is granted the power of a Shikon Jewel Shard, which enables him to become more proficient with his weapon. At first, Naraku uses Kohaku to coerce Sango into surrendering the Tessaiga, and during their confrontation, Kohaku is present. He briefly regains his memories, only to have them removed again. He encounters his sister multiple times, and each time he claims that her face seems familiar even though he cannot remember it.

Later, when Kagura abducts Rin to lure Sesshomaru to Naraku's castle, Kohaku is tasked with standing guard over Rin. When Naraku orders him to kill the girl, he lures her out into an open field away from Sesshomaru to do the deed. When Inuyasha's group and Sesshomaru find them, the latter is intent on killing the demon slayer, but when he confirms Rin's safety he gives up.

During the Band of Seven arc, he served as a messenger and liaison between Naraku's incarnations and the band of mercenaries. He also guides Sango through Mt. Hakurei using a luminescent cloak. After Hakudoshi's birth, he and Kanna are charged with caring for The Infant. They travel to a castle where one of the women has a stillborn and entrust The Infant in her care, after Kanna tells her that her child is alive and wipes her memories. Meanwhile, Kohaku becomes good friends with the inhabitants of the castle, but when Princess Abi attacks, Naraku orders the demon slayer to kill everyone within. He is eventually forced into it, and the last woman left alive notices that he is doing it against his will before she herself is slain.

Having spent a great deal of time with the people at the castle, Kohaku finally regains his memories. He throws himself off of Kagura's feather in an attempt to commit suicide, but Kagura swoops underneath him before he hits the ground. His suicide attempt unsuccessful, Kohaku resolves to redeem himself by fighting Naraku, while at the same time feigning loyalty to him, meaning he still had to follow all his orders unquestionably.

When he and Hakudoshi were tasked with luring Kikyo out with a swarm of demonic rats, Kohaku is ordered to leave the doors to Zushinezumi's shrine open, putting his plan to the test. Sango encounters him, and because of the gravity of Naraku's deeds, decides to kill Kohaku. She is stopped, and the shrine is destroyed, ensuring that Kohaku could continue his ruse. After Naraku acquires the Fuyoheki and gives it to The Infant, Kohaku is tasked with slaying strong demons.

Meanwhile, Hakudoshi formulates his own plan to betray Naraku, and enlists Kagura's help, requiring shards in order for his plan to work. She attempts to kill Kohaku, but eventually betrays Hakudoshi and protects him, ordering him to flee while she deals with The

Infant and his co-conspirators. Hakudoshi's demon golem, Moryomaru, tracks the demon slayer down, but Inuyasha's group intervenes. Kohaku finally reveals to Sango that his memories have returned, and he openly betrays Naraku and begins traveling with Kikyo after Kagura's death. After Kikyo's death, Kohaku joins Sesshomaru in his pursuit of Naraku, forming a close bond with Rin. Eventually, his shard is removed by Naraku, killing him, but Kikyo's light resurrects him. He does not openly combat Naraku during the final battle, but protects Rin by giving her his mask.

Three years later, he is seen traveling with Kirara and training to become a demon slayer.

---

Next we resurrected Kikyo the High Priestess.

---

During their youth, Kikyō and her younger sister Kaede (whose parents died when they were younger) traveled through villages as a part of their training to become priestesses, and killed many demons as a part of it. While on their journey, they met Tsubaki, who would later become a dark priestess. Kikyō's great spiritual power and purity became well-known, and thus the Shikon no Tama was entrusted to her, much to Tsubaki's dismay. It became Kikyō's duty to spend her life guarding the jewel, protecting it from the wicked humans and demons who sought it for their own selfish means. However, her duty as the jewel's protector also meant that she could not show any signs of weakness, lest demons or evil men should take advantage of her.

As a priestess, Kikyō spent her life fending off demons who attempted to steal the Shikon Jewel, as well as protecting the village from disease and famine. However, the one demon whom she refused to kill was Inuyasha because she sensed that he was only a hanyō (half-demon), and has lived an abnormal life of solitude, much like herself. She also tended to Onigumo, a paralyzed bandit with burn scars all over his body. Later on, Kikyō confronted Inuyasha and told him about how she had to hide her real self in order to protect the jewel, and Inuyasha sympathized with her. Eventually, Inuyasha and Kikyō fell in love. Sometime during this period, Tsubaki attempted to attack Kikyō, assuming that she was weaker after falling in love. However, Kikyō reflected the curse back at Tsubaki, and then ordered her to leave.

During her time with Inuyasha, Kikyō and Inuyasha had once sailed to an island that only appeared every fifty years (anime only).

Kikyō suggested using the Shikon Jewel to turn Inuyasha into a human, an offer to which Inuyasha agreed. If this plan had in fact worked, it might have been possible for Kikyō to carry on the life of an ordinary woman alongside Inuyasha, and for him to finally feel like he belonged somewhere as a human. She promised to deliver the Shikon Jewel to Inuyasha on a certain day. However, the thief Onigumo, who desired both Kikyō and a corrupted jewel, decided to use that day to gain control of both. He offered his body to a horde of demons, and thus, the demon shape-shifter Naraku was born. Naraku disguised himself as Inuyasha and struck down Kikyō, and then attacked Inuyasha while disguised as Kikyō. He set the both of them against each other.

Thinking that Inuyasha had betrayed her, Kikyō summoned the last ounce of her strength and spiritual power to stop Inuyasha, who attacked the village for the Shikon Jewel. However, unable to kill the man she loved with her sacred arrow, Kikyō instead shot a sealing arrow at Inuyasha to pin him to the Goshinboku (the sacred tree or the Tree of Ages), where Inuyasha remained in slumber for fifty years. She then ordered her younger sister Kaede to burn her body along with the Shikon Jewel so that its immeasurable power would never be used for evil again. Because Kikyō was full of bitter hatred for Inuyasha at the time of her death, the Shikon Jewel became corrupted. However, because of the Shikon Jewel's manipulations, her soul reincarnated into Kagome Higurashi, thus ensuring that the Jewel's never-ending cycle of battle between Naohi (the spirit of good) and Magatsuhi (the spirit of evil) continued inside it.

---

Kikyo: Thank you all for giving me life again.

Me: You're welcome Kikyo. I'm sorry you had to fight InuYasha.

Kikyo: It's all right. But I was doing what I thought was right.

Kikyo agreed to help us.

Lynn faced Kyokotsu.

---

Kyōkotsu first appears in chapter 234 of the manga and 102 of the anime. Following the unusual disturbances that had forced most of the eastern wolf tribe (in the anime) to flee their territory/hounded an old wolf that tried to escape some attacking yōkai, Kōga decides to investigate the wolf's claims of a giant spectre devouring every yōkai it came across, reeking of bones and graveyard dirt.

Later, two wandering monks discuss rumours of an oni being seen nearby, with the older monk reassuring his companion that his power would be enough to take it down. Sure enough, they encounter the grotesque sight of Kyōkotsu in the middle of eating a yokai, scaring them out of their wits and making them run away. Kyōkotsu lingers long enough to meet up with Kohaku, who informs him that the "others who have jewel shards" are coming soon. He tells Kohaku that he's lucky to have his brothers along with him for the job and dismisses him, but changes his mind as he tries to take Kohaku's shard for himself. Kohaku slices his arm off with his kusarigama and warns him to behave, the presence of saimyoshō indicating that they're being watched. After Kohaku leaves Kyōkotsu reattaches his arms and comments to himself that his life is precious, considering he just left the grave.

Kōga and his wolves are approaching a copse of trees on the leeside of the mountain just as an enormous hand bursts through the rock, revealing Kyōkotsu, who learns about Kōga's shards and arrogantly announces that he'll be taking them along with his life. Kōga identifies Kyōkotsu as the spectre due to his scent. Kyōkotsu, surprised that he still has a distinct smell, simply replies that since he was resurrected not long ago, he needs to bulk up by eating everything he can and says that Kōga will make a good snack for him. Kōga easily repels his first attack, but Kyōkotsu recovers fast enough to deduce that his two shikon shards are in his legs. Kōga demands to know what Kyōkotsu is exactly since he doesn't have the odour of a human nor that of a yōkai or any incarnation of Naraku. Kyōkotsu replies that he's human, to which Kōga expresses his incredulity at a "normal human" just crawling out of his grave. Kyōkotsu points to a jewel shard lodged in his forehead, explaining how he was revived. Kōga demands to know where he got the shard, but Kyōkotsu claims it's pointless since he's about to get eaten.

Kōga has no problem dodging Kyōkotsu's attacks but is surprised by the few tricks Kyōkotsu has. After snapping his neck and seemingly killing him, he's caught off guard as Kyōkotsu's hand sweeps him up from under the rocks and brings him closer to his face in order to consume him. Kōga recovers quickly and manags to thrust his arm out into Kyōkotsu's forehead, with Kyōkotsu mocklingly claiming that it doesn't even hurt. Before he gets another chance to gloat, Kōga rips out part of his forehead along with his jewel shard and Kyōkotsu soon decomposes into a giant pile of bones that pin Kōga down.

He sees a solitary saimyōshō insect carry off Kyōkotsu's shard and realises the one behind Kyōkotsu's resurrection is Naraku.

---

Lynn blasted him with lava and killed him.

Lucy Loud then faced Magatsuhi, the Dark Half of The Shikon Jewel.

---

When the Shikon Jewel was created from the souls of Midoriko and the demon she was fighting, this resulted in the creation of Magatsuhi, the evil spirit of the Jewel. It was he who sealed Kagome's spiritual power.

Naraku summoned Magatsuhi from inside the Jewel, giving him a body made from his flesh. Both were united in wanting the Jewel to be corrupted. He first attacked Sesshomaru, who wielded Tenseiga, the only weapon that could kill him, as he is a spirit. He easily corrupted Kohaku's jewel shard. Sesshomaru bit his head off in dog form, but he continued to control the various parts of his body, as any damage to it didn't affect his spirit form. He also further sealed Kagome's power preventing her from purifying Kohaku's jewel shard. During the fight, Sesshomaru was able to put aside his obsession with Tetsusaiga, gaining his own sword, Bakusaiga, which he used to completely destroy Magatsuhi's body. Magatsuhi escaped in his true spirit form.

While Byakuya tricked Sesshomaru with an illusion of Magatsuhi, the real Magatsuhi possessed Kohaku. Miroku sucked Magatsuhi in with Wind Tunnel (without doing the same to Kohaku), but Magatsuhi survived (in a first for the series) due to receiving infinite power from Kohaku's corrupted Jewel Shard. Miroku was severely poisoned from sucking in his miasma. Still in Kohaku's body, Magatsuhi injured Sango and made his way to Naraku to give him his jewel shard. During the battle, Kohaku resisted Magatsuhi's possession, and Kikyo's light moved from the Shikon Jewel to Kohaku's shard, driving Magatsuhi out. Sesshomaru slashed him with Tenseiga, supposedly killing him, though his voice could be heard swearing revenge.

Magatsuhi survived due to part of him being inside Miroku. He left Miroku to possess Rin, and went to Naraku, who absorbed the completed Shikon Jewel to transform into a giant spider, with Rin inside him. At some time Magatsuhi left Rin but continued to stay with her. When Rin met up with Inuyasha, who had been turned into his demon form by the corrupted Shikon Jewel, Magatsuhi possessed Inuyasha and fought Sesshomaru. Through his love for Kagome, Inuyasha resisted his possession. Magatsuhi started to possess Kagome, but Inuyasha's dragon-scaled Tetsusaiga kept Magatsuhi frozen in place unable to possess anyone, and Sesshomaru slashed him with Tenseiga, destroying him for good.

His death broke the seal over Kagome, and allowed the light to return to the Shikon Jewel.

---

Lucy Loud slashed him and killed him and sent him into the River of Fire.

Lucy Loud: Naraku will pay for his crimes.

Next we faced Menomaru.

---

Menomaru is the main antagonist of the first Inuyasha movie, Inuyasha: Affections Touching Across Time . He is the son of an extremely powerful moth daiyokai named Lord Hyoga who was defeated by Inuyasha's father 200 years before the main storyline. Menōmaru and Hyoga's power were both sealed to the ancient Tree of Ages. When the Shikon no Tamawas shattered, one of the shards revived Menōmaru and he embarked on a quest to obtain his father's power. After discovering that one of the Great Dog Demon's swords, the Tenseiga, did not possess the destructive aura required to remove the seal on Hyōga, Menōmaru and his servants planned to steal the other sword, the Tessaiga, which did have the power.

Upon discovering that the fang had a barrier which prevented demons from using it, Menōmaru lured Tessaiga's owner, thehalf-demon Inuyasha, to his hide out under the Tree of Ages. In an effort to save Kagome Higurashi, Inuyasha was tricked into destroying his father's fang, breaking the seal on Hyōga's power. Thus, Menōmaru was able to absorb his father's power to become the new Lord Hyōga. Menōmaru then began absorbing souls to complete his transformation. Despite his success, Menōmaru was unable to destroy Inuyasha and themiko Kagome before he emerged from his chrysalis, and squared off against them for a final confrontation.

---

Luna blasted him with a powerful blast of water and killed him.

Luna: You evil demon dudes will pay!

Next we faced Moryomaru the rock golem demon.

---

When The Infant began plotting to betray Naraku, he needed a protective armor of sorts, prompting he and Hakudoshi to construct one. They stole haku from demons, the part of the soul that enables movement, to give it sentience, and used their flesh to create the armor. Naraku was seemingly unaware of the plot at the time, and knew that his enemies had discovered that The Infant was his heart, so he stole the Fuyoheki in order to conceal his heart's demonic aura. The Infant was then placed inside the newly-constructed golem. Much like Naraku, he was able to absorb others and gain their strength, and the first he did this to was Goryomaru, a demon-slaying monk. Hakudoshi told Kagura to release Goryomaru, whom she had presumed dead, and successfully guessed that Hakudoshi planned to betray Naraku. She discovered The Infant's plot and betrayed them, and Hakudoshi was killed in the ensuing battle. He goes off on his own to collect Kohaku's shard and discovers that he had recovered from his amnesia.

After Hakudoshi's demise, Moryomaru sought to increase his power by absorbing demons. His first targets were Koga and Sesshomaru. Although he failed at absorbing both, he is responsible for breaking the latter's sword, Tokijin. His first successful absorption was that of a turtle yokai named Meioju, gaining its armor. He allows Inuyasha to strike him with his Adamant Barrage, absorbing the crystals into one of his arms.

Having achieved his final form, Moryomaru eventually makes his move to destroy Naraku by devouring him, but the latter counters by devouring the construct instead, thus killing both The Infant and his protective suit.

---

Tara fired a powerful blast of earth energy and obliterated him in an instant.

Next we faced Mokutso, the bad marriage minister.

---

Mukotsu made his debut in the 237th chapter of the manga and the 103rd episode of the anime, sending a cloud of poisonous fog onto the battlefield Inuyasha and Jakotsu were fighting on to allow the latter a quick escape. Jakotsu later meets up with him a deep part of a forest, where he's testing the potency of the poisons that he's brewing. Both discuss Inuyasha's group and express desire for a certain member of the group for their own; Inuyasha and Kagome respectively. Jakotsu promises to keep Inuyasha busy in order for Mukotsu to be able to steal the jewel shards Kagome carries and states she's "all his to enjoy."

When Kagome and Shippo briefly separate from the group to fetch water from a village well, they notice too late that the villagers are dead due to poisonous gases that have encroached upon them. Both collapse, unconscious, and Mukotsu seizes the chance to abduct Kagome. He is briefly confronted by Sango and Miroku, who demand to know who resurrected him and trying to stop him from taking Kagome. Confessing his ignorance of the subject, he easily evades them, having distracted Sango into protecting Miroku from a spray of noxious vapours.

It's shown that Mukotsu has taken her to a hut hidden in the woods, where "no one will disturb them together," as he's surrounded the hut with a barrier of deadly gas. He comments on her beauty and his luck at having her all to himself. In the manga he attempts to rape her, having taken advantage of his poisoned gas paralysing her and leaving her too weak to defend herself. In the anime this is changed to him expressing his desire to have her as a wife and reenacting a bizarre sort of marriage ceremony where he drapes a white cloth over her and moves her paralysed body as if she were a marionette, forcing her to "sing and dance" along with him. Sango and Miroku try to rescue her but are blasted with a stream of poisonous gas and fall under its effects as well. In both scenarios Kagome is able to momentarily regain control of her body and manages to stab him in the throat with hearth tongs, trying to get the jewel shards lodged in there. Rather than damaging him, he becomes enraged at her supposed treachery and resolves to kill her instead.

As Mukotsu strangles Kagome Sesshomaru bursts in and harms Mukotsu severely. He demands to know where Naraku is and is irritated by Mukotsu's ignorance. The frightened Mukotsu attempts to poison him but is shocked to see that Sesshomaru is impervious to his highly toxic brews. He expresses his disbelief in that he'd be so resilient to his specially made poisons, pompously proclaiming himself a master poisoner, only to have Sesshomaru brush his claims off as weakness and promptly cuts him in half with his Tōkijin. Jakotsu witnesses his death and rushes off to tell the Band of Seven of this development and the unexpected interloper.

---

Leni used her Gravity powers and crushed him into a pulpy pancake. Killing him.

Leni: You are totes a bad marriage counselor.

Next we faced Renkotsu.

---

Renkotsu is the strategist of the Band of Seven, he is skilled in smithing and pyrokinetics, as shown in how he uses various oil ignition flames and creation of Ginkotsu's body. While seemingly loyal to Bankotsu, he secretly wants to kill him in order to gain power.

He was voiced by Tomokazu Sugita in the Japanese dubbed version, and Brian Drummond in the English dubbed version.

He first appears to Inuyasha'a group as a monk, having killed the original head of the temple he had killed in order to disguise his identity. However, the ruse is eventually found out and is thrawted by Inuyasha. He later rebuilds Ginkotsu as a transport device for the Band of Seven, and engage in several failed attempts on Inuyasha and Koga's life.

Eventually, he decides to take the Jewels for himself and murders a defeated Jakotsu to obtain his shard, only to be easily killed by Bankotsu.

---

Linka fired a powerful blast of lightning and electrocuted him and blasted him into nothing.

Linka: Good riddance.

Next we faced Ryura.

---

Ryura and the other three War Gods, Jura, Kyora, and Gora, attacked Horai Island out of contempt for half-demons, as many half-demon children lived there, but the priestess Kanade sacrificed herself to hide their Spheres of Power inside the Cauldron of Resonance, rendering Ryura and the other War Gods powerless.

The War Gods would sacrifice half-demons to restore a portion of their power, scratching them in the back to give them the Mark of the Four War Gods, preventing them from escaping the island. Ryura gave Inuyasha the mark this way just outside the island, while Gora drained blood from Kikyo. Also, whenever the island would appear, Ryura and the others would attack villages and slaughter anyone they could find, although without their power they could not leave the island for long without fading away.

In the present day, an unmarked half-demon, Ai, escaped the island, and Ryura sent Gora to bring her back, but Gora was killed by Inuyasha. When Inuyasha and the gang arrived at Horai Island, Ryura fought Inuyasha and defeated him with his Wind and Thunder Blades, but walked away from the fight, disappointed that Inuyasha wasn't a worthy opponent.

After Inuyasha was pulled into the Cauldron and escaped after being given the Spheres of Power by the spirit of Kanade, Ryura released a clone of Kikyo created from her blood. As the War Gods could not open the box containing the Spheres of Power, Ryura had the Kikyo clone open it, and the War Gods obtained the Spheres of Power to restore their power, including Gora, who was revived.

Though no longer needing to sacrifice the half-demon children, Ryura attacked them anyway as they tried to escape, but Inuyasha fought him, and, using the Backlash Wave against his two swords, destroyed him.

However, his Sphere of Power survived, and revived him, along with the other three War Gods, merging them all together into one War God, to which Ryura was dominant, with his face in the center, Kyora and Jura's faces to the side, and Gora part of his body. Inuyasha fought the War Gods, who seemed unstoppable, with Ryura taunting Inuyasha that he was still a disappointment to him.

Powered up by the firefly spirits of those who were sacrificed, Inuyasha and Kagome combined an Adamant Backlash Wave and a Sacred Arrow, respectively, to destroy Ryura forever, along with the other three War Gods and their Spheres of Power.

---

Kagome fired a powerful energy blast and an arrow and blew the demon apart.

Me: Nice shot Kagome!

Kagome: Thanks J.D.

Next we helped the princess Sara Asano.

---

She was the daughter of a noble general, whose castle was besieged. But Sesshomaru was by chance near, and killing the enemy soldiers because they were in his way. At this point, he himself was injured, Inuyasha had just cut of an arm. But Sara was impressed by Sesshomaru and fell in love with him.

She played on her flute when she was near Sesshomaru, and her father finnally found out, that was in love with a youkai. He took of his soldiers to kill Sesshomaru, but humans have no chance to defeating a youkai, so he had to flee. Shorty afterwards he became mad and burned his castle.

A while later Sara was very sick, but she wanted to be at Sesshomaru. Some lower youkai heard her desire, and offered her a new body in exchange of her soul. Sara consented, and in a similar way became an hanyou, as before her Naraku.

But when she visits Sesshomaru, he shows, that he has no interest in her. Then she decides to steal Inuyasha´s sword Tessaiga. She prepared a plan, and transformed Miroku, Sango, Kiara und several villagers into glass statues. By luring Inuyasha and Kagome into a trap, she can steal him the sword Tessaiga, and goes back to Sesshomaru.

But Sesshomaru recognizes that Sara has long been controlled by the lower youkais wich whom she has allied herself, and destroys them with the sword Tessaiga. Shortly afterwards he puts her flute on the pile of ash, and goes off again.

Powers and Abilities

High Intellect: She has designed a clever plan to steal Tessaiga, no one except Shippo has been looking through.

Immunity: She is immune to the barrier of Tessaiga, which attacks malicious youkai. Probably for the reason that she is a hanyou, and not a youkai.

Glossystone-Transformation: She can turn humans and youkais into a glass stone.

Energy-Blasts: She attacked Inuyasha with two black-violet energy-blasts.

Demonpuppets: Like Naraku, Sara was able to create demon puppets that resemble her, or look like a huge monster. However, their dolls seem to consist of seaweed.

---

Sara: Thank you all so much for freeing me from my curse. I'm sorry for all the terror I caused.

Me: It's not your fault Sara. We have to kill Naraku and make him pay for his crimes.

Naruto: That's right.

Sara agreed to come with us. Next we faced Setsuna no Takemaru.

---

After learning she was to bear a hanyo child, he took it upon himself to kill her. However, Inuyasha's father arrived and revived her. He cut off Takemaru's arm and later dueled to the death with the latter in the collapsing castle. Years later, Sounga revived him as a demonic being reminding him of his hatred towards Izayoi for taking Inuyasha's father, a demon to bear her child. Using the cursed sword, he raised an undead army to do battle with Inuyasha and Sesshomaru.

---

Lucy slashed him and sent him into hell.

Lucy Loud: You are a dishonorable samurai.

Next we faced the sentient sword Sounga.

---

Sounga is the sentient sword from hell, whose soul was the ancient spirit of a demon. Sounga would usually possess whoever wielded him and make him kill people, with his ultimate goal being to destroy the world. He cannot be destroyed, except by the combined power of Tetsusaiga and Tenseiga, the two swords forged from the Great Dog Demon's fangs. He came into possession of the Great Dog Demon, who was able to wield him without being possessed. Following the Great Dog Demon's death, the spirit Saya used his power to seal Sounga in a sheath and sent him through the well to the future, where he was found and kept at the shrine Kagome lived at.

Eventually, Sounga broke free of Saya's power, and Inuyasha picked him up, becoming possessed once he had crossed back to the past. Sounga made Inuyasha use Dragon Twister, which drained Sounga's power, releasing Inuyasha from the possession though Sounga remained tied to his arm through cords he projected, and Inuyasha used him to kill some ogres, who were reanimated as zombies by Sounga's power. Later, Sesshomaru fought Inuyasha for Sounga, who possessed Inuyasha again trying to force him to kill Rin for blood. But Kagome used the Beads of Subjugation to break Inuyasha free of Sounga.

Sounga then possessed an ogre and revived Takemaru of Setsuna as a specter, fusing Sesshomaru's severed left arm to Takemaru's to give him a demonic appearance and enable him to wield

Sounga's full power. Takemaru did whatever Sounga said in order to exact his vengeance on Inuyasha and Sesshomaru, sons of the Great Dog Demon. Takemaru massacred people using Sounga, whose power reanimated them as zombies. Sounga told Takemaru to destroy Tetsusaiga and Tenseiga, as their presence weakened his power.

After a fight, Inuyasha killed Takemaru. Sounga continued to possess Sesshomaru's arm and manifested into a demonic form to fight Inuyasha and Sesshomaru, while opening a gate to hell intending to suck everyone on Earth into hell. Inuyasha and Sesshomaru refused to fight alongside each other most of the time, but eventually when Sounga shot an energy attack at Inuyasha, and Inuyasha used Backlash Wave, Sesshomaru used Tenseiga to combine a Dragon Strike with Inuyasha's Backlash Wave, destroying Sounga's demon form and killing him. The now-lifeless Sounga fell into the pit leading to hell, along with Sesshomaru's arm, before it closed, sealing it forever.

---

Lisa blasted the sword with a plasma ray and obliterated it completely.

Lisa: A slashing weapon such as you has no right to live with the world of weapons.

Next we faced the undead samurai Suikotsu.

---

He starts showing his first signs of multiple personality disorder about a decade before the events of the story, when his village is destroyed by soldiers and its inhabitants are slaughtered out of cold blood. He avenges his village by killing the soldier, and due to the fact that he had never done such a thing in the past, his personality splits into two. Soon after, he joins the Band of Seven.

Following his resurrection, he finds work as a doctor in a village near Mt. Hakurei. The holy aura permeating the surrounding area keeps his evil side in check, and he becomes popular with the children of the village. He fears the sight of blood, which seems to awaken his evil side even when close to Mt. Hakurei.

Death

In both the anime and manga, Suikotsu died after a battle with Kikyō and Sesshōmaru, the latter of which decided to fight him after he kidnapped and threatened to kill Rin. After suffering a fatal attack from Kikyo's arrow strike and regaining his good persona, he asks Kikyō to remove his jewel shard from his neck so that he can return to bones. Kikyo asked that Suikotsu wishes to choose death. Suitkotsu says he now remembers everything he had done and to prevent his evil persona ever taking over his consciousness he begs Kikyo to kill him. Sadly however, Jakotsu violently removes the shard instead and Suikotsu returned to his skeletal state. The good but unfortunate doctor finally found his peace in death.

---

Lincoln fired a powerful blast of lightning and obliterated him.

Lincoln: You are a worthless samurai wannabe.

Next we faced Taigokumaru.

---

Taigokumaru was the leader of a clan of bat demons and father to Tsukuyomaru, who fell in love with a human woman, Shizu, with whom he would later have a half-demon daughter named Shiori. The love he felt for Shizu estranged him from his father, as well as his choice to abandon the hereditary duty of guarding the barrier.

This estrangement led Taigokumaru to kill his own son, but he did not kill Shizu when he realized she was pregnant with his grandchild, since he needed Shiori to be the next guardian of the barrier.

Taigokumaru made a deal with the nearby village that if they gave his granddaughter to him, he would let the village be. After Shiori was born, the villagers ostracized her and eventually gave her to the demon, but Taigokumaru reneged on his part of the bargain and attacked the village.

Inuyasha then intervened, but could not harm Taigokumaru due to the barrier, but when Taigokumaru revealed in front of Shiori that he killed her father, she turned on her abusive grandfather and enabled Inuyasha to kill him with the Backlash Wave. Even so, his spirit emerged from the orb and attempted to drag Shiori into Hell with him, but his attempt was foiled when the spirit of his son intervened and defeated him permanently.

---

Lori: You are literally no king!

Lori fired a powerful blast of wind and shredded Taigokumaru into nothing.

Next Laney helped The Infant.

---

The Infant was born within Mt. Hakurei during the Band of Seven arc, and was immediately placed in Kagura's care after Naraku broke free from the mountain. They traveled to a castle and lured Inuyasha's group there. The Infant revealed that since Kikyo's apparent death, Kagome was the only one who could sense the jewel shards, and he intended to use her as "his eyes."

He read her mind and tried to find her weakness, only to find that her soul was apparently pure, until he found that Kagome thought Inuyasha loved Kikyo more, and was more concerned with finding her.

It worked for a time, but Kagome became defiant, claiming she didn't harbor a grudge towards Kikyo. Inuyasha eventually came to her rescue.

Search for the Border to the Afterlife

Naraku then learned that the final jewel shard was located at the Border to the Afterlife. Some time after, reports of monks being slain by a woman with a baby began spreading. Inuyasha's group went to find Mushin, who they thought was in danger of dying. It turns out Kagura and The Infant, the two responsible, were not interested in him, as he was apparently not powerful enough. The Infant had been reading the minds of monks in order to find the Border to the Afterlife.

Eventually, they came across a monk named Shinsen, who was powerful enough to split The Infant in half, presumably killing him. He remained alive, however, and his other half matured to create Hakudoshi. After this point, The Infant became less prominent, but it was revealed that The Infant was Naraku's heart, meaning that slaying him would slay Naraku as well.

Eventually, Naraku learned that his enemies knew about his heart, and acquired the Fuyoheki, a stone that concealed demonic auras, making his heart undetectable. However, The Infant also took advantage of this fact, and began plotting to overthrow Naraku, with the aid of Hakudoshi and his demon construct Moryomaru.

He was hidden inside Moryomaru, and after attempting to recruit Kagura to his cause, she told Inuyasha and his group about this.

Following Hakudoshi's death, Moryomaru and The Infant traveled for a time, absorbing various demons to become more powerful that Naraku. The pair made a mistake when they tried to absorb Naraku himself, who turned it around for himself and absorbed them instead.

Powers and Abilities

Mind-Reading/Corruption - had the ability to read people's minds, finding their weaknesses and corrupting them.

Demonic Aura Concealment - after acquiring the Fuyoheki.

---

Laney used an exorcism and cured him and turned into a normal human with his powers.

Laney: You are safe now little one.

Next we helped Tsubaki.

---

Tsubaki was a powerful priestess who rivaled even Kikyo in power, and was well-respected before her turn towards darkness. One day, Tsubaki cursed Kikyo, saying that she must abandon human feelings to retain her power, and that if she falls in love with a man she would die a horrible death. Kikyo knew she was cursed, but wasn't concerned, and scoffed at the idea of love. Tsubaki wished for the Sacred Jewel to retain her youth for fear of fading beauty, which is why the jewel was entrusted to Kikyo.

Soon after, Kikyo began to fall for Inuyasha, and Tsubaki desired the jewel for her wish to be granted, so she arranged to curse and kill her rival using her familiar, a Shikigami. Unfortunately for her, Kikyo fired the curse back upon its caster, giving her a scar on her right eye making Tsubaki vow revenge on her rival. As it turned out, the dark priestess was correct, and Kikyo died a violent death at the hands of (inadvertently) Naraku. Even 50 years later, Tsubaki's hatred for her held, and Naraku used this to his advantage. He asked for her services in turning Kagome on Inuyasha and kill him vicariously through her. Kagura was also surprised when the dark priestess revealed that despite her biological age, she could regress to her former youth.

Tsubaki succeeded in cursing Kagome through tainted shards of the Shikon Jewel, and maintained control over her body, although not over her mind, leaving her with enough strength to tell Inuyasha to flee. He refuses, however, and Kikyo later confronts the dark priestess. Tsubaki notices that she literally has not aged in the 50 years since her passing, and Kikyo acknowledges Kagome's power, saying that if she did manage to kill Inuyasha she would avenge him. Kagome snaps out of her trance and she and her group track Tsubaki down, engaging in a battle with her. Kagome ends the battle by firing the priestess' Shikigami back at her, thus breaking the curse that was placed upon her. Tsubaki disappears in the manga after this instance.

The anime shows what happened to Tsubaki after she fled the battle. She began to hate Naraku when she realized that she was just another one of his tools, and took the Shikon Jewel for herself, fleeing to the shrine where she once trained. She tricks two of the initiates standing guard, Momiji and Botan, into assisting her with eliminating Inuyasha and Kagome. Meanwhile, while Momiji and Botan deal with Inuyasha's group, the priestess planned to awaken a sealed demon and obtain its power via her cursed eye. As Inuyasha desperately tries to convince the initiates that Tsubaki is the evil one, Kagura stops by to retrieve the jewel, but the priestess refuses to part with it.

She succeeds in absorbing the sealed demon's powers, and turns into a massive half-demon. Inuyasha deals a fatal blow with his Backlash Wave. The sacred jewel is returned to Naraku as Tsubaki ages and fades away, regretting underestimating Inuyasha and Kagome's power.

Curses: Whatever preternatural curses at her disposal enables Tsubaki to take full control over a person's body and possibly kill them from afar.

---

We helped her become a kinder person and she put aside her rivalry with Kikyo.

Tsubaki: Thank you J.D. for saving me from myself.

Next we faced Yura of The Demon Hair.

---

Yura manipulated the townspeople of Kaede's village via her hair so that Inuyasha would succumb and she would obtain his shikon jewel shards. During their fight, while she had Inuyasha cornered, Kagome was wearing his fire rat robe and was thus protected from Yura's razor-sharp hair. After Kagome found Yura's true form, the comb hidden away in a red skull, she grabbed one of her arrows and smashed it into the skull breaking the comb and causing Yura to wither away to dust. While Yura was relatively short-lived, she nevertheless had the distinct honor of being the first strong opponent that Inuyasha and Kagome faced together.

## Powers & Abilities

Yura has the ability to fly and hover in midair. She is extremely agile and flexible. Her balance is also incredible, as shown when she stood and sometimes jumped onto single strands of hair.

Yura's trademark is her razor-sharp hair strands, which are apparently capable of cutting through anything except Inuyasha's Robe of the Fire-Rat. The hair is made up of the hair of her victims, as she stated that once she killed Inuyasha, all his hair would be a "pleasure to control". Kagome noticed that there seemed to be strands of Yura's hair that glow, signifying that that a certain strand (or strands) is controlling a large group of the hair. These glowing strands can be traced back to Yura's location.

Yura has perfectly mastered the hair she has collected over the years, which may increase as she kills more people and adds them to her cluster of hair. Yura uses these hairs for various purposes, among them:

She is able to control people and practically make them into her puppets by making them lose consciousness and using her hair as the strings.

Catching her opponents, preventing them from moving freely and getting to hang them if necessary.

Following her enemies: She sticks a hair to her enemy and just follows it where they go, to give her an idea of the location of the target.

Protective hair: Protects Yura when she encounters strong attacks like Inuyasha's Blades of Blood.

Controlling objects from a distance, the most explicit example is when she uses her opponent's sword controlled by the hair.

Shown in the anime, she can also use these hairs to heal her amputated limbs, as shown when Inuyasha cut off her sword hand and soon after it was reattached to her arm when she called it back with the hair. It can also be used to heal from seemingly any injury, shown when Inuyasha sliced Yura in half.

Weapons

Benigasumi (紅霞, "Crimson Haze"): During close-range combat, Yura uses a wakizashi named Benigasumi, which she claims is a treasure among the oni. It has the ability to cut flesh and bone without cutting her specialized hair.

Oni-Bi Gushi (鬼火毛, Ogre-Fire Hair): Using her red comb, she makes a sweeping motion, unleashing a torrent of flames which can be channeled down her hair for a better attack. Yura used this attack on Kagome, claiming that it would incinerate her body, and that "not even her bones would be left. This would have happened had Kagome not been wearing Inuyasha's robe.

Kushi no Ori (櫛乃檻, Comb of Hair): Yura directs a large mass of hair upward, forming a massive cage made of her hair, in which she can attack her enemies in without them being able to escape.

---

Carol faced her and got her to change her ways and got her on the side of good.

Yura: Thank you Carol. Working with Narako is a dangerous deal.

Me: Now we have to find Sesshomaru and get him to help us.

?: Then look no further.

We turned and we saw SESSHOMARU!

Me: Sesshomaru!

InuYasha: Big brother!

Me: Thank you for finding us Sesshomaru. We have to find Naraku and put an end to hm once and for all!

Sesshomaru: As much as I don't want to work with humans, I'll do it. It's time that Naraku pays for his crimes.

Me: Lets do it.

I held out my hand and we shook hands.

We went after Naraku!

---

We were now at the sight of Kagewaki Castle.

We were ready.

Me: This is it guys. Naraku's energy signal is in that castle. And it's incredibly powerful.

Naruto: We have to be ready for him.

Me: We're ready for anything bro.

Jayden: Which is more effective against Naruko? Super Samurai Mode or Shark Attack Mode?

Me: We'll find out later.

We went into the castle and sitting in a meditative stance was NARAKU HIMSELF!

Naraku: So you all have come. The mighty Team Loud Phoenix Storm.

Me: That's right and we meet at last Naraku.

Naraku: Yes we do. Why did you all come here?

Me: What else? To kill you and make you pay for your crimes.

Naraku: Do you really think you have the power to kill a demon?

Me: We killed demons before. They were pions compared to you. You and your selfish hatred has destroyed so many lives!

Nico: You tricked many people over the years and ruined many people!

Lincoln: You will pay for your crimes you monster!

Naraku: We shall see.

A light flashed on to Naruko's right and caught his attention.

Jayden: Red Ranger, Ready!

Another light turned on to his left.

Kevin: Blue Ranger, Ready!

Behind him, another light turned on.

Mia: Pink Ranger, Ready!

Another light flashed on beside it.

A flash came from his left, and there stood the fifth Ranger in the roll.

Emily: Yellow Ranger, Ready!

A sixth light turned on and revealed the sixth Ranger, holding the Lightzord.

Antonio: Gold Ranger, Ready!

Jayden: Rangers Together… (the six Rangers walking forward, all in a circle, closing in on Naruko)

Samurai Rangers: Samurai Forever!

Me: Lets power up and destroy this monster!

We powered up to our full power! We unleashed the full extent of our power and we were powered up to maximum power!

Narako was now in his 3rd form! It was ugly! Naraku became a gigantic spider with eight large horizontal "fangs" and an armored abdomen. His core form within the spider however, was his true body with tentacles that connected him to the spider form. During the final battle, Naraku turned into his normal form, but with several diamonds forming the armor and a gigantic armored spider web that replaced the connecting tentacles. Naraku then took on an oni-like appearance and his hair turned white, and he also gained a rib cage on his body, but this form was just a head. After Inuyasha destroyed forever his body, Naraku's soul was reduced to a head with a spine, and after Kagome shot him with her arrow, his face returned to normal. His dead form within the Shikon Jewel was his head and a giant spider web, though it had a more normal appearance.

Me: You are one ugly motherfucker!

Nico: You will pay for your crimes Naraku!

Me: Lets get him!

We went at Naraku and we clashed in a massive fiery explosion that caused the whole castle to explode in a massive explosion of fire!

Sesshomaru (to Naruko): Sorry, Naruko. But in war, you join the winning side.

Me: Now lets see how you face a powerful swordsman!

I unsheathed my sword and Naraku unsheathed his sword.

Naraku: Lets.

We then clashed our swords and it erupted into a massive swordfight! We clashed all over the place as sparks were flying all over and setting everything on fire. The flames of hell burned ferociously as they consumed everything in a holocaustic firestorm and burned everything in their path. We were clashing all over the place and it was a massive fight! See you all next time.

# PANCAKES VS WAFFLES

At the estate at 6:00 AM, I was in the kitchen cooking everyone's favorite breakfast: Pancakes. Everyone was still asleep and because of Lynn Sr.'s bad back, I had to improvise with me cooking in the kitchen in his place until he gets better. I was cooking a huge variety of pancakes: Caramel Vanilla, Blueberry, Chocolate, Vanilla Mint, all kinds of good pancakes. I had to use my octopus arms for all kinds of batters and ingredients.

I was flipping pancakes. When they were done, we had an awesome all you can eat pancake buffet ready.

Me: All finished.

I went over to special meal alarm panel I made and there were alarms that lets everyone know when it's time to eat.

Me: Here we go. Rise and shine everyone.

I pressed the Breakfast Is Ready alarm at 6:45 AM and everyone got up.

Lori: Wake up everybody! Time for breakfast!

Everyone got ready and I had big plates full of pancakes ready for everyone. Everyone gasped when they saw them.

Me: Dig in everyone.

We had great pancakes.

Cyclops: These pancakes are delicious!

Me: Thanks Scott. Made them all myself. With Mr. Lynn out of commission with a bad back, someone has to improvise.

Lincoln: You did a great job J.D. The vanilla caramel pancakes are delicious.

Lynn: My compliments to the chef.

Nico: You have successfully made a magnificent pancake breakfast J.D.

We laughed.

Lucy Loud: And the dark chocolate Pancakes with cookies and strawberry syrup for vampire blood is exquisite.

Me: Thanks Lucy. Oh I'll be right back.

I took a stack of vanilla mint pancakes and went into the parents room and saw Lynn in bed watching TV.

Me: Morning Mr. Lynn.

Lynn Sr.: Morning kiddo.

Me: I made everyone pancakes for breakfast. Sorry about your back Mr. Lynn.

Lynn Sr.: Ah that's all right.

Me: But Lisa says you'll be better in about a couple of weeks. (Hands him breakfast) Vanilla Mint Pancakes. My own recipe.

Lynn Sr.: These look delicious J.D.!

Me: I made everyone different flavors of pancakes for everyone.

Lynn Sr.: Wow! That's amazing J.D.

Me: Yep. A long time ago, I was on the awesome shows "Iron Chef Japan" and "Iron Chef America."

Lynn Sr.: Wow! Those are 2 of my favorite cooking shows!

Me: Yep. I started out over in Japan 7 years ago.

Lynn Sr.: No way! That little guy was you!?

Me: Yep. You must've seen me on television.

Lynn Sr.: I sure did. You cooked a lot of great food!

Me: Not to brag, but yes.

The doorbell then rang.

Me: I'll get that.

I went to the door and answered it and at the door was Lynn Sr.'s younger brother Samuel Loud II and his two sons Landon and Han. Landon is the oldest child at 22 years old and he has a scar on his right cheek in the shape of a maple leaf and he has blue eyes, was wearing a red Canada Shirt with a Canada Maple Leaf on and red pants and brown shoes and Han is the youngest at 18 years old and he has white hair like Lincoln's and he had blue eyes, a blue, red and white shirt with the flag of Russia on it and he had brown with fur bands on them and brown boots.

Samuel: Hello there. You must be J.D. Knudson.

Me: I sure am.

Samuel: I'm Samuel Loud II and these are my two boys Landon…

Landon: Pleasure to meet you J.D.

Samuel: And Han.

Han: (Speaking Russian) Привет, как дела? (Hello there, how are you doing?)

Me: Pleasure to meet you guys.

Samuel: You too J.D. We heard so much about you. We came all the way down from Canada to live with you guys.

Me: Wow! Come on in guys.

We went back in and everyone saw their uncle and cousins.

Lori: Han, Landon!

Landon: Hey Lori!

Han: (Russian Accent) How you been comrade Lori?

Lori: Great Han. Uncle Samuel, it's been so long.

Samuel: It sure has Lori. You were only 7 when I saw you last. Wow! It feels like forever.

It was a great family reunion and it was so cool to have Samuel, Han and Landon with us. We found out that Landon was also one of Dr. Roland Paradigm's experiments. But unlike Tanya, he has angel wings made of pure fire and he has amazing fire powers as well.

Tanya: So you were in the same experiment because of my evil uncle?

Landon: I sure was Tanya. But instead of Crystal Powers and Crystal Angel Wings, I got fire powers and Fire Angel Wings.

Me: That's amazing!

Nico: Dr. Roland Paradigm was a monster and we killed him.

Landon: That's what I heard. I'm glad he got what he deserved for ruining so many lives.

Qin: You said it.

Nanette: We also found out Landon that it was because of Roland Paradigm that the Shredder spliced us with alien DNA and made us into those creatures.

Me: They were creatures from all over the universe. By all accounts, Dr. Luther Paradigm and his brother Dr. Roland Paradigm got what was coming to them.

Lincoln: Yep.

Landon: You said it cousin.

Then the alarm went off!

Me: Uh oh!

Landon: What's that?

Me: That's our crime alarm. It lets us know when something is happening.

We went to the computer and it showed that it was coming from the Langley Falls Mall in Virginia!

Me: Langley Falls Mall?

We got a telephone call from Francine Smith.

Me: Hello?

Francine: J.D., Jeff broke up with Hayley and now she's going on a rampage!

Me: What!? Why would he do that!?

Francine: No idea! But you have to calm Hayley down or she will go to prison!

Me: We're on our way!

Han: I want to help out. I know how to help out. I watched how you guys help people all the time and it was amazing at what you do.

Me: Okay Han. Lets go!

We were off to Langley Falls, Virginia!

## LANGLEY FALLS, VIRGINIA

We arrived at the Langley Falls Mall and we saw everyone running for their lives.

Me: This is very bad!

We went into the mall.

Jeff: (Offscreen) J.D.! Guys!

We found Jeff buried under a huge pile of toys in front of the toy store and the windows were smashed and everything in the mall was trashed!

Me: Holy Fuck!

Han: I can't believe Hayley has that nasty of a temper.

Me: She's not always like that Han. She has a horrible taste in men and all her dates didn't work. Her father Stan told me she went on a rampage and destroyed her whole school at one time.

We went over to Jeff and Rattrap pulled him out.

Rattrap: Jeff?

Jeff: Yeah?

Me: You all right?

Rattrap: WHAT THE HELL DID YOU DO?!

Jeff: It wasn't just one thing Rattrap. It was two things. But why'd she go so crazy?

Me: Stan told me that when she gets dumped, Hayley completely wiggs out.

Nico: Boy that's serious.

Han saw Hayley and he was in love. But he knew what he had to do. Hayley climbed up a model of the Empire State Building while acting like King Kong and roaring like him too.

G1 Divebomb: Hayley! Calm down before someone gets hurt! (Hayley looks at him) Now, if you take responsibility for the damages you just caused, we can help you with the problems between you and Jeff.

Hayley roared in fury!

Slingshot: Oh, c'mon! We've beaten the likes of villains like Jaws and the Werecats. This is no problem!

Han: I got this.

Hayley was roaring ferociously and Han ran fast and up the model like a parkour athlete and he grabbed Hayley and flipped and jumped down and they clasped hands and when Hayley looked into his eyes, she calmed down.

Hayley: What happened?

Han: You had an episode after Jeff dumped you. Sorry, I'm Han Loud.

Hayley: Wow! Are you related to Lincoln Loud and his family?

Han: I sure am. I'm their cousin.

Hayley: Amazing.

Me: Well done Han!

Han: Thanks J.D. It was no problem.

Han and Hayley got to talking and they had a great conversation. We told her that Jeff was not the right kind of guy for her and that Han was and Han told her that there's one thing a Loud never does and that's dump an awesome boyfriend or girlfriend.

Stan: That was easy. Next time, we'll just send in Swampfire for this.

Laserbeak: There won't be a next time.

Hayley went with us back to the estate.

---

Later we were watching cartoons and reading books on TV when suddenly we got a transmission on the TV. On the screen appeared Vicky Velcro A.K.A. WAFFLE WOMAN!

---

Waffle Woman is Powdered Toast Man's arch-nemesis in the TV series.

Vicky Velcro was the founder of "Liquid Waffles", which was a very popular breakfast product. When Powdered Toast stole her fame, she swore to take revenge, and became Waffle Woman when Powdered Toastman retired. She captured Little Johnny in an effort to lure Powdered Toastman, but she failed in battle, resulting in the destruction of Earth.

---

Waffle Woman: Calling J.D. Knudson. Please respond. (Evil Chuckle) I challenge YOU to a battle! Face to face to decide which is better: Waffles or Pancakes.

Me: I'll be there!

We were off to where Waffle Woman was. She was over at the abandoned Bacon Flakes factory.

Me: Here we are guys. This is gonna be a battle with breakfast.

I spun my Magisword Bracelet and pulled out a Magisword.

Announcer: PANCAKE MAGISWORD!

Me: It's breakfast time.

Then a figure in the shadows fired two giant strawberry bombs at us from its arms.

Me: HIT THE DECK!

We ducked and the Strawberries hit the side of the wall and exploded with incredible power.

KRABBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOMMM

Me: Wow! That is some heavy antioxident packed fruit!

Out of the shadows came WAFFLE WOMAN!

Me: So we meet at last Waffle Woman.

Waffle Woman: Thats right J.D. Knudson. We're now going to settle this with a battle that will decide which is better: Waffles VS Pancakes.

Maria: (to Waffle Woman) I actually like both waffles and pancakes. It really shouldn't matter which food is better. As long as everyone has a good breakfast. But you probably don't care about that, do you?

Waffle Woman: No I don't.

Me: Waffles and Pancakes are both awesome food for breakfast.

Waffle Woman: I know how this is going to go down. We fight, you win, I flee to fight another day, and the whole thing repeats itself.

William: Considering that you're one of the more funnier villains, we're almost considering on letting that happen with you. Almost.

Me: But you should know something Waffle Woman, I tend to fight dirty.

Waffle Woman: So do I.

Then we heard a bunch of metallic thudding and we saw one of Timmy Turner's old enemies: THE PLANET DESTROYING PUMPKINATOR!

---

Pumpkinator

When Timmy wished that everyone's Halloween costumes would become real and scary, everyone become real and scary versions of the costumes they were wearing. The popular kids (Tad, Chad, Trixie and Veronica) had been wearing authentic Jack-O-Bot costumes, and were turned into actual Jack-O-Bots. When all four of the Jack-O-Bots merged together, the Pumpkinator was created. It planned to transform into a giant doomsday device that would destroy the Earth. After four minutes, it transformed and started counting down from 59 seconds. Just before the timer ran out, Timmy unwished the wish and the Pumpkinator was turned back into the popular kids in costumes, who fell together into a harmless pile.

Since it was wished away, it became a resident of Unwish Island where it, like everyone else on the island, has a deep hatred for Timmy.

Jack o bots

The Jack-O-Bots are four smaller pumpkin robots, and when all four are together, they combined to create the Pumpkinator. Unlike the Pumpkinator, the Jack-O-Bots do not have horned helmets. Each robot has its own color: silver, gold, ruby, diamond. These robots are equipped with jet boots, freeze rays, and tracking devices. In the Crash Nebula movie that Timmy was watching, the four Jack-O-Bots appeared flying away from the planet that was destroyed after the Pumpkinator self destructed. Timmy was seen pointing at a Jack-O-Bot, telling Cosmo and Wanda he wants to be one for halloween. Cosmo and Wanda were happy to grant his wish but were unable to as Wanda revealed the costumes have been won in a contest, which was then revealed to be the rich kids who bribed the judges into handing them over. Due to Timmy's wish, Chad and Tad transformed into real Jack-O Bots who froze Elmer. The two Jack-O-Bots then began to contact the other two Jack-O-Bots, who were originally Trixie and Veronica before transforming into real Jack-O-Bots as well due to the wish, and the four combined to form the Pumpkinator. When Timmy unwished the wish, the Pumpkinator was reverted back to the rich kids in the Jack-O-Bots costumes, who became unconscious after they fell and spilled their candy.

---

Timmy: The Pumpkinator?! What's it doing here?

Tori: Waffle Woman probably formed an alliance with it so she'll have a fighting chance.

Me: You guys handle the Pumpkinator. I'll face Waffle Woman.

Nico: Okay. Be careful J.D.

Me: I'll be just fine.

Waffle Woman: And you guys and face my minions too!

Waffle Woman made an enormous army of waffle minions.

Han: Wow! She has a huge army of Waffle Minions!

Landon: I remember Waffle Woman from the Ren & Stimpy Show! She didn't have this kind of power before.

Nico: Looks like she does.

Lana: We'll need some help with this one. Ready Qin?

Qin: You know I am!

They spun their Magisword Bracelets.

Announcer: WAFFLE MAGISWORD! BACON MAGISWORD!

Me: LETS EAT!

Everyone went at the waffle minions and the Pumpkinator and they were eating the minions.

Lily: It's the Broccoli Aliens all over again!

Star B.: Lets see how you like this! SYRUP TSUNAMI SHOCKWAVE!

Star Butterfly fired a powerful wave of maple syrup from her hand and drenched the waffle minions in syrup.

Brittney: Wow! You still have your powers Star!

Star B.: I sure do.

Brittney: I guess the Golden Fireball of Helios allowed you to keep your magic powers permanently even though the magic was completely destroyed.

Star B.: This is so cool!

Brittney: Yeah! Our powers work in mysterious ways.

Everyone was eating the waffle minions.

Qin: How about some Bacon to go with your waffles!?

Qin fired a bunch of strips of bacon from her Bacon Magisword and they hit the Waffle Minions and knocked them down with numerous strips of bacon in their mouths.

Lana: How about some eggs with those!

She spun her Magisword bracelet.

Announcer: GIANT EGG MAGISWORD!

Lana fired a massive wave of scrambled eggs and covered the minions.

They were eating them all over the place.

Laney: I have a good topping for Waffles.

Laney spun her bracelet.

Announcer: STRAWBERRY MAGISWORD!

Laney fired a powerful barrage of strawberries and they hit a bunch of minions and covered them in strawberries and jam.

Laney: Lets use our combos and Final Smashes to weaken the Pumpkinator!

G1 Divebomb: Roger that Laney! CYBER KEY POWER!

The Earth Cyber Planet Key went into Divebomb's back and enhanced his particle beam 100-fold.

Laserbeak: Lets do it! CYBER KEY POWER!

The Animatron Cyber Planet Key went into his back and enhanced

his laser guns 100-fold.

G1 Divebomb and Laserbeak: LASER PARTICLE BLASTSTORM!

They fired powerful beams and they combined and hit the Pumpkinator and exploded.

KRABBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOMMM!

Rattrap: Lets do this! Rattrap, MAXIMIZE!

Rattrap transformed.

Rattrap: CYBER KEY POWER!

The Animatron Cyber Planet Key went into Rattrap's backl and enhanced his blaster's and demolition charges power 100-fold.

Slingshot: Lets do it! CYBER KEY POWER!

The Earth Cyber Planet Key went into Slingshot's back and enhanced his Neutron Gun 100-fold.

Rattrap and Slingshot: NEUTRON BOMB INCINERATOR!

Rattrap fired a bunch of demolition charges and Slingshot fired his neutron gun and they hit the Pumpkinator and exploded.

KRABBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOMMM!

Laney: Lets take him down! BRAMBLE VINE SUPER SLAM!

Laney entangled the Pumpkinator in Bramble Vines and slammed it into the ground.

Lola: You are a monster that gives Halloween a really bad name! FIRESTORM PIZZA BOMB!

Lola formed a pizza disk made entirely out of pure fire and threw it at the Pumpkinator and it hit it and exploded.

KRABBBOOOOOOOOOOOOOOOOOOOOMMMMM!

Lincoln: Time for you to short out! LIGHTNING DISK BLADE ELECTROCUTION!

Lincoln made a powerful disk of pure lightning and he threw it and it electrocuted the Pumpkinator.

Mary Knudson: No one insults cooking and Halloween! PIZZA DOUGH STICKINESS INCAPACITATION!

Mary formed a massive ball of pizza dough and threw it and it exploded all over the Pumpkinator and stuck him to the floor like glue.

Stewie went over to the Pumpkinator and fiddled around with its wiring.

Laney: What are you doing, Stewie?

Stewie: Reprogramming the Pumpkinator into a friendly robot. We could use someone to keep trick or treators safe.

Nico: Good thinking Stewie.

Now it was time for the battle with me and Waffle Woman.

Me: You have to be the most silly villainess we've ever met.

Waffle Woman: So I heard.

Me: Lets see you like this. SUPER OLEAGENOUS BUTTER PAT BARRAGE!

I fired a powerful barrage of butter pats and Waffle Woman ducked and the butter pats hit the wall of the factory and exploded.

KRABBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

The explosion blew a huge fiery hole into the wall.

Waffle Woman: Very impressive. Chug on my RADIOACTIVE POLYTHERMAL SYRUP LAUNCHER!

She attached a powerful Syrup Bottle cannon and fired a massive stream of syrup at me and I jumped into the air and the syrup hit the wall and exploded.

KRABBBBBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Another fiery explosion blew the whole wall of the factory apart.

Me: This is turning into a war with breakfast. Taste this! NUCLEAR POWERED HYPER ACIDIC MARMALADE DELUGE!

I fired a stream of orange marmalade and it hit by Waffle Woman's feet and exploded.

KRABBBBBBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

A massive fiery explosion blew her into the ground.

Me: Lets see how you like your waffles deep fried.

I fired a powerful blast of Force Fire and Waffle Woman jumped out of the way and it hit her feet and exploded.

KRABBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

We all regrouped and we stood ready to face her.

Lincoln (to Waffle Woman): You know what? We actually did have fun eating your minions. So, you get to run off and fight another day. (Waffle Woman sighs in relief) For now.

Waffle Woman then ran away.

Lola: She's getting away!

Me: Let her go. She is a formidable adversary. We will meet again.

We later went back home.

We had an awesome lunch.

Laney: (To the viewers) Pancakes and Waffles are perfect and it doesn't matter which is better. They are delicious no matter what.

Me: You said it Laney.

We had an awesome lunch and more.

THE END

---

Another Fanfiction Complete and another awesome villain defeated.

Waffle Woman on Ren & Stimpy was funny and awesome! She is now gonna be a recurring villain that we will face many times in the future. NicoChan11 gave me the ideas for this one. Thanks man. Let me know what you all think.

See you all next time.

# Attack of The Cat Crystal Colossus

School just got out and we were walking back from school.

Me: Well another awesome day at school.

Psylocke: Yep. It was really cool learning about some of the caves around the world.

Nico: I was.

May: Caves are really cool and it's amazing at how they formed over the course of the planets history.

Lincoln: We went to several caves all over the world and the coolest one was Borneo Cave.

Qin: That is one of my favorite caves and it's a breathtaking cave.

?: Well if it isn't the white hair pipsqueak!

We saw a mean kid come up to us and it was Lincoln's old enemy that he and his sisters sent to prison 4 years ago: Dustin Keystone! He was a mean kid with black hair, green eyes, and he he had an orange prison jumpsuit on.

Lincoln: Dustin Keystone!

Dustin: In the flesh and don't think I haven't forgotten what you did to me 4 years ago you little white haired fuckpot! I've come back to kill you and get my revenge!

Psylocke: You know this jerk, Lincoln?

Lincoln: His name is Dustin Keystone. He was a bully I remember 4 years ago and he was the worst bully ever. He beat me up so bad that it landed me in the hospital more times than anyone else can ever count. Almost to the point where he nearly killed me. But thanks to my sisters we beat him up and got him arrested and sent to prison. He was sentenced to 10 years in the Michigan Maximum

Security Prison.

Me: He must've busted out.

Dustin: That's right. It's quite a genius story if you don't mind my bragging.

Dustin revealed that he used the old escape method from Alcatraz back in 1962. And it worked. He busted out 7 weeks ago and was in hiding and planning his revenge ever since.

We gasped in shock.

Me: Ingenious! That method failed 57 years ago when those two inmates vanished in the freezing cold water!

Lisa: I must say, that is a very genious method of escaping a high class level of prison incarceration.

Lana: I'll say.

Dustin: It was genius huh? But that's not the point! Now I'm here to kill you Lincoln!

Lincoln: I don't think so Dustin! It's payback time!

Dustin: (Mocking) What are you gonna do about it you pipsqueak? (Laughs)

Lincoln smirked and he flared up his aura and lightning and his power was building fast and rocks and pebbles were lifting off the ground. Dustin saw this and he was shocked and gasping in sheer horror!

Dustin: What the!? What is he!?

Lincoln screamed and released the full extent of his power. The ground shook incredibly violently and a massive pillar of lightning exploded out of him with incredible power and it was unbelievable! When it faded, Lincoln had transformed into his Super Angel 20,000 Supercell Lightning Thunderbird form!

Dustin was scared out of his mind. He saw Lincoln completely changed into a different person unlike anything he has ever seen before! He now was experiencing what many criminals never could feel: Fear!

Lincoln: (Older Voice) Who is the pipsqueak now Dustin?

Dustin: What!? What the hell are you!?

Lincoln: Your worst fucking nightmare!

Me: If I were you Dustin, I would beg for mercy.

Nico: Dustin Keystone, you have failed this planet!

Dustin: I'm not scared of you all!

Lincoln then took off faster than a bolt of lightning and punched Dustin in the face with devastating force and he crashed into the ground and when the dust cleared, he was holding his face in agony as blood was pouring from his mouth and nose! He spit out his teeth that were knocked out.

Dustin Keystone: You're still that scared brat, Stinkoln!

Lynn: Only I can call Lincoln that! (smirks) In fact, let me demonstrate on you how I used to beat him up!

G1 Thrust: This should be good.

Lynn punched and kicked him all over the place like when she played Auto Attack on him and more!

POW! BIFF! CRACK! SMACK! BASH! THWACK! ZONK! KATOW! BAM!

Jessie: Seviper, help them out and bite Dustin's ankle!

Seviper came and bit Dustin's ankle and he screamed in agony and Lynn bashed him in the face with a baseball bat!

BLAM!

G1 Silverbolt: Lynn, you should do a Dutch Oven on him.

Lynn: With pleasure Silverbolt.

Lynn walked up to Dustin.

Lynn: Hey Dustin, I need help cooking something but I don't know which appliance I should use. Do you have any ideas?

Dustin: (Groans) I don't know. What?

Lynn: Nope. A Dutch Oven!

Lynn pulled out a blanket and covered his face and she sat on it and let loose a nasty fart!

FFFFAAAAAAAAAAAAAAAAAAAARRRRRRTTTTTTTTT!

We laughed hard at that!

Dustin was gasping and gagging and he was hurling his guts out all over the place.

The police then arrived and grabbed him.

Sheila: Time for you to go back to the Brickyard, asshole.

Lincoln: You tormented my life for the last time Keystone. If you weren't rotten to the core, we would've been good friends. You are nothing more than an utter waste of a life.

Sheila: Boy you really did a number on him Lincoln. And from the looks of it, for a good reason.

Lincoln: That's right Sheila.

Lincoln revealed everything.

Sheila: I see. It's good he's going back to prison. This time in Solitary Confinement for the rest of his fucking life.

Lincoln: And for good measure…

Lincoln kicked him in the crotch with devastating force and there was a nasty sickening crunch that was really bad!

Me: (Winces) OOOHHH! That's not gonna feel good!

Nico: (Winces) YEESH! I would like that to be Billy McLean.

Kira (Dino Thunder): You got that right.

Me: Get him outta here.

Sheila: With pleasure boss.

Sheila took Dustin back to prison. This time he was going to be put in one of the Space Prisons in the Solitary Confinement section. Lincoln powered down and we went home.

---

We arrived back at the estate and we were watching Aylene's favorite Show: SWAT Kats: The Radical Squadron.

We were watching the episode The Metallikats.

Aylene C.: I'm glad we killed those monsters, Mac & Molly Mange - the Metallikats.

Lola: I am too.

Nico: I was told about that and that's where you got your powers Aylene.

Aylene C.: Yep. It was an awesome adventure.

Cat: Those monsters were dangerous robots.

Tigra: No kidding.

Qin: Who were the Metallikats?

Aylene C.: They were one of the worst partners-in-crime criminals in all of MegaKat City. Next to the notorious Bonnie & Clyde, but in Anthropomorphic Cat and robot style.

Aylene went over their history.

---

Originally a husband and wife team named Mac and Molly Mange, the Metallikats drowned when they were trying to escape from Alkatraz prison but their bodies were discovered by Professor Hackle's robotic servants and their minds were transfered into robotic bodies. The pair proceeded to become even more dangerous criminals, killing Katscratch before turning their attention to Mayor Manx - who they had a grudge against for denying their parole (though in reality it was Callie who denied the parole).

Katastrophe

They have also allied with Dark Kat and Dr. Viper despite being order around by Dark Kat and sharing a hatred towards the SWAT Kats.

A Bright and Shiny Future

The Pastmaster brings Mac and Molly back to life, both form a alliance to rid themselves of the SWAT Kats and so they takeover the city together. The duo betrayed The Past Master and use his watch as a pocket watch. In the future, they took over the city and enslaving the any organic that's not a robot. Soon, they are defeated by the SWAT Kats, the Enforcers and Professor Hackle. Returning everything back to normal and remaining the evidence closet in their damaged state.

Unlikely Alloy

Mac and Molly attempted to rob the Megakat City's bank, they were defeated by The Enforcer and The SWAT Kats. Molly was badly damaged in the fight and tells Mac to get the loot, Mac loves her enough to saved her and retreated to their hovercraft. Mac robs Dr. Lieter Greenbox's creation to fixed him and saved his wife, the device rebuilt itself with their car as their minion aka "Zed". Zed absorbed Mac for being metal and Molly forced the SWAT Kats to help save her husband, Molly get absorbed and Zed corrupted Dr. Lieter Greenbox to become one being. After Zed defeat, Molly is back to normal and looking for her husband in the rumble of Zed. She finds Mac's head is merged to a food-processor and set him mix which shaking him. Mac gets dizzy and begs his wife to shut the blender, both remaining alive and back arguing with each other again.

---

Qin gasped!

Qin: Those two were monsters!

Aylene C.: They were. Me and Lola killed them and made sure that they stayed dead forever.

Me: I remember that. That was awesome! The Metallikats were powerless against the power of fire.

Qin: But why did Callie Brigs denied their parole?

Aylene C.: It doesn't say. But she thought it was necessary for them to spend all of their 9 lives in prison because of how dangerous they were.

Me: But Cats don't have 9 lives. That was proven to be just a myth.

Nico: That's right. You only die once.

Aylene C.: I know that.

Horsea: What's the city that the Swat Kats live in?

Aylene C.: It's called Megakat City. It's a city full of Anthropomorphic Cats.

Suddenly there was a massively blinding white flash of light!

Me: Whoa!

Nico: What was that!?

Me: Lets go find out.

We went outside and what we saw in the city was incredible! We saw that Gotham Royal York has now merged with Megakat City!

We gasped in amazement!

Me: Whoa!

Aylene C.: I don't believe it! Megakat City has merged with Gotham Royal York!

Me: Wow!

William: Looks like a few of the Swat Kats' enemies are still around.

Me: And we can help them deal with them for good. Lets go check it out.

We went into the city and we saw that everyone was now walking with Anthropomorphic Cats. It was amazing!

Me: Wow!

Laney: This is unbelievable!

Lana: This is so cool! The world of Swat Kats is now here with us!

Aylene C.: Me and Lola left our mark on the world of Swat Kats 2 and a half years ago. So they know us here.

Me: And without a doubt, they know us as well because of everything that happened over the last 3 years. Lets go to Megakat City hall.

We went to the city hall building. It was an amazing building and we went in and we saw Deputy Mayor Ms. Callie Brigs.

Ms. Brigs: Wow! Team Loud Phoenix Storm!

Me: It's a pleasure to meet you Ms. Brigs.

Aylene C.: Hello Ms. Brigs. It's great to see you again.

Ms. Brigs: You too Aylene. And Lola it's great to see you too.

Lola: Same to you Ms. Brigs.

Nico: We saw the whole city of Megakat City appear in our city.

Me: Megakat City is now merged with Gotham Royal York in Michigan.

Ms. Brigs: So the entire city is part of your world now.

Me: Exactly. Also we saw everything about the Swat Kats on our televisions and they are so amazing!

Ms. Brigs: That's amazing! Then you must know who the Swat Kats are.

Me: We do. But we'll have to tell you when we have them come over here when we get the chance.

?: (On the radio) Attention all enforcers! We have trouble brewing over at Megakat Maximum Security Prison!

Me: Looks like we'll tell you after we kill one of their enemies. I promise Ms. Brigs. We'll handle this!

Aylene C.: I know where Megakat Maximum Security Prison is. Follow me.

Me: Okay.

We were off to Megakat Maximum Security Prison.

* * *

At Megakat Maximum Security Prison, it was under attack by the evil convict REX SHARD, who has now been turned into a living crystal cat monster!

* * *

Shard was a convict serving a nine-life sentence at Megakat Maximum Security Prison. Shard was chosen by Warden Cyrus Meece to operate the Gemkat 6000 in its trial run. In return, Meece would shave some time off of Shard's prison sentence. Amazed at how quickly the Gemkat 6000 worked, he attempted to open the drill housing to get at the collected gems within and "take a few off the top." In doing so, he somehow caused the machine to backfire and explode. When Shard emerged from the mine, he found that the explosion had somehow caused him to begin to rapidly change into a being made of unbreakable green crystal.

Shard quickly discovered that he had the ability to turn whatever he touched into crystal, when he seized and crystallized his guards Talon and Lem merely by touch. He then proceeded back to the prison, thirsting for revenge against the ones he deemed responsible for his accident.

When he reached the perimeter wall, he put all his energy into turning it to crystal, which then caused him to complete his transformation into a totally crystalline being. Ignoring the fire from the prison guards, he punched through the brittle wall and entered the prison. He burst into Warden Meece's office in the same manner, and turned him to crystal right before the eyes of a terrified Deputy Mayor Callie Briggs and Dr. Greenbox. The latter, who had created the Gemkat 6000, was next on his hit-list.

Before he could even attempt to to harm to the Deputy Mayor and the inventor, the SWAT Kats arrived, summoned by distress calls from the prison. He was hit in the chest with a blast from their cement machine gun, and sent flying into the Warden's private diamond vault. This gave Deputy Mayor Briggs and Dr. Greenbox time to slip from the room, but coming into contact with the diamonds somehow caused a reaction in Shard's body. He grew to titanic proportions, bursting through the prison roof. It was here he further explored his amazing powers. The impenetrable crystal shell surrounding his body made any conventional weapons useless against him. The SWAT Kats' newly developed Slicer Missiles broke apart when they hit him, for instance.

The lasers of the Enforcer tanks which arrived shortly thereafter bounced harmlessly off him. Shard then found he could form crystal shards in his hands and hurl them as projectiles, or even do the same with his impressive abs. Using this technique he disabled both the Turbokat and Commander Feral's personal tank. But during this battle, his target had managed to escape: Briggs and Greenbox had fled in the Doctor's jeep to Gemkat Labs, after retrieving the Gemkat 6000 from the mines to try and work on a way to reverse Shard's condition. Having a pretty good idea of where Gemkat Labs was, Shard stomped off towards it. This took him through Megakat Springs, where he interrupted the Manx Invitational Golf Tournament.

After fending off more Enforcers, Shard turned the entire golf course and everyone there to crystal, including Mayor Manx, and once again got the best of Feral when he disabled the Commander's chopper. He then headed to Gemkat Labs, where he stopped Greenbox from finishing rewiring the Gemkat 6000 by grabbing and crystallizing him at last. The Deputy Mayor was his next target, but T-Bone suddenly came out of nowhere (at least as far as Shard was concerned) on the Sandkat and whisked her to safety, the Gemkat 6000 with her. Shard tried to stop them by touching the ground and sending a "wave" of crystal after them, but the Sandkat leapt over a canyon to safety.

Undeterred and now mad with power, Shard head for Megakat Dam, turning random landforms to crystal as he went. Meanwhile the SWAT Kats had finished what Greenbox had started and rewired the device. They came after Shard, who had succeeded in turning the reservoir to crystal, and a fierce battle ensued over the frozen expanse of the crystallized water. The Gemkat 6000's beam was unable to penetrate Shard's armor, and Banshee Missiles barely made even tiny cracks in him. Annoyed at the "SWAT Gnats," Shard suddenly came up with a brand new power. He focused the sun's rays through his crystal hand into a deadly heat beam, which he used to shoot down the Kat's Eye News chopper when it became annoying to him as well.

The Turbokat proved too difficult for him to hit, and right at that moment T-Bone came up with an idea to defeat Shard. A Mach 5 sonic boom as the jet flew past Shard at an alarming speed rocked the crystal giant and with an agonized scream, he broke apart, turning back into a normal sized, and unconscious, crystal cat. The vigilantes then used the Gemkat 6,000 to return him fully back to normal. As a result, everything he had turned to crystal also returned to its normal state. Shard was then taken into custody by the Enforcers and returned to prison.

---

Rex Shard: **Just the cats I wanted to talk to!** (Points to Dr. Greenbox) **You and your gadget did this to me!**

We were flying and we saw the turbokat: The Swat Kats jet.

Me: The Swat Kats!

T-Bone and Razor saw us!

T-Bone: Hey! It's Team Loud Phoenix Storm!

Me: Hey guys!

Aylene C.: Hey guys! Great to see you again!

Razor: We can catch up later! I'm intercepting distress calls from the prison!

Me: Lets go!

Warden: Now Shard, I'm sure we can work this out!

Rex was about to grab him. But then I lifted him up.

Me: How does this work out!?

I threw him outside and we stood ready to face him.

Rex Shard: **So the famous Team Loud Phoenix Storm is here.**

Me: That's right. Wow! You are a living crystal!

Aylene C.: It was because of Dr. Greenbox's invention that he turned into this.

Nicole: This guy gives all rockhounds and diamond lovers everywhere a really bad name!

The Swat Kats arrived.

Me: Now it's personal Shard. We're going to kill you!

Rex Shard: **You won't kill me! That's not what heroes do.**

Nico: You hurt so many people in the past. And also caused so many years of suffering. With Waffle Woman, we had a choice. With you, we don't.

Lincoln: You caused a lot of pain and suffering and you need only one place and that's Hell!

Me: Lets dance Shard!

We powered up and transformed!

Dino Thunder Rangers: DINO THUNDER POWER UP, HA!

The Dino Thunder Rangers turned into their ranger forms!

Dino Thunder Rangers: DINO POWER!

Me: Awesome! Just like on TV!

Connor M.: It's gonna be awesome!

Kira: Time to show you guys our powered up forms from the good old days. Super Dino Mode!

The Dino Thunder rangers went into their Dino Thunder Super Dino Modes.

Me: That is so cool guys! Lets get him!

We went at Rex Shard and I punched him in the face with devastating force and sent him crashing into the prison wall that was made entirely out of pure crystal because of him! Carol fired a powerful blast of Godzilla's Atomic Ray and it hit Shard in the leg and shattered it in a massive fiery explosion.

KRABBBOOOOOOOOOOMMMMM!

Lola: Time for you to burn Shard!

Lola fired a massive blast of fire and it melted his arm off!

Lola: Yeah!

But then Shard fused all the crystals he made into his body and he grew up to 50 feet tall!

Me: Whoa! He's now giant! But the bigger they are, the harder they fall.

I snapped my fingers and went to his size and we clasped hands.

Rex Shard: **You all are as powerful as you say! No wonder the Metallikats didn't stand a chance against you!**

Me: That was just Aylene and Lola that killed the Metallikats! Mac and Molly Mange brought all that on themselves! Just like you soon will!

I punched him in the face and kicked him in the stomach and punched him in the chest and fired a powerful blast of lightning at him and he screamed in pain as he was being electrocuted.

Me: And for the record you living cheap diamond ring, cats don't have 9 lives. That's just a myth. You die only once. And not all cats don't go to heaven.

I punched him in the stomach and he backed away. Shard threw a bunch of crystal knives at me and they hit me in the chest and stabbed me.

Rex Shard: **Now you will die!**

Me: Nice try Shard!

Rex Shard: **What!?**

I pulled the knives out and my wounds healed instantly.

Rex Shard: **Impossible!**

Me: It's gonna take more than that to kill me. I'm immortal and invincible. I can't be killed. But you on the other hand, can die!

I punched him in the face and knocked out on of his crystal teeth.

Commander Feral: (Offscreen) Back off Team Loud Phoenix Storm!

We saw Commander Feral arrive with a powerful squad of tanks.

Commander Feral: The Enforcers are here!

Me: Feral, you're out of your mind! It'll take more than just tanks to take him down!

The tanks fired their blasts at Shard, but they didn't even scratch him!

Me: Wow! Tank fire doesn't work. But this will!

I fired a powerful blast of lightning at Rex Shard and Lincoln fired a powerful blast of lightning and we electrocuted him!

Me: Lets see how you like this Shard! Crystal is vulnerable against the loudest of sounds ever! HYPERSONIC SONIC BOOM THUNDERCLAP!

I clapped my hands with incredible power and released a powerful hypersonic sonic boom wave.

KRABBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

It hit Shard and he screamed in pain and tried to cover his ears! But he couldn't and he shattered and was reduced down to his size that he was before.

Razor: BINGO!

T-Bone: That did it!

Lisa: Very genius method of defeat! The Sonic Boom sound frequency was powerful enough to shatter the crystal all over Shard and reduce him back to his normal size.

I went back to my normal size.

Me: Time for some teamwork!

Me: Now to finish this clod off for good.

T Bone: Let me kill him, guys. He's one of our enemies. So he's my responsibility.

Me: All right. Go for it.

T-Bone walked up to him and he had a missile blaster pointed at him.

T-Bone: Give my regards to the fiery cat in hell.

T-Bone fired a missile at Rex Shard and blew him into a million bloody pieces.

Nico: Rex Shard, you have failed this city.

Me: He has failed Megakat City for 9 lives.

We laughed.

We went back to Megakat City at City Hall and we revealed the identities of the Swat Kats to Callie Brigs and she was shocked that the mechanics that were working at the junkyard were really Chance Furlong and Jake Clawson! We revealed the reason why they became the Swat Kats and how. It was because of Dark Kat that the Swat Kats were made the way they were because the Enforcers Weapons and firepower weren't gonna be enough to deal with their enemies. Callie understood and she was really trustworthy of keeping them a secret. And so was Team Loud Phoenix Storm.

We went back home later on and Maria was checking on Lynn Sr.'s back.

Maria: How are you feeling right now, Mr. Lynn?

Lynn Sr.: Getting better. Lisa said about 2 more days.

Maria: That's good.

We moved the headquarters of the Swat Kats to Team Loud Phoenix Storm headquarters. Callie Brigs granted the Swat Kats a full pardon for their accidents while working for the Enforcers.

T-Bone: It's gonna be so cool working for you guys.

Me: Same here Chance. Aylene and Lola helped you guys before. So now you all have the support and protection of Team Loud Phoenix Storm.

Razor: I'm glad. And it's amazing how you used our missile designs in your race cars.

Me: Your missile plans are really genius Jake. They have proven to be a valuable tool for our cars and vehicles in racing and in the air.

T-Bone: They sure have. (To the viewers) To all of our enemies everywhere, the Swat Kats have now become part of Team Loud Phoenix Storm and we're gonna be coming for you as soon as you make your move.

Me: Count on it!

Everyone: YEAH!

Fire burned in the background behind us and we were ready for them the second they strike!

THE END

Another Fanfiction complete and another Swat Kats Villain

destroyed.

Rex Shard the Crystal Colossus was an awesome bad guy. It was cool fighting him and I knew the whole episode Chaos In Crystal from Swat Kats by heart. I'm terribly sorry for the long delay in making another Swat Kats chapter. I was so busy with other chapters that it completely deterred me from it. NicoChan11 gave me the ideas for this. Thanks man. The next Swat Kats Villain we're going after in the future is Dark Kat and we're gonna make that monster pay for ruining Jake and Chance's careers on the Enforcers and causing all kinds of pain and destruction. Let me know what you all think.

See you all next time.

# Washed Up

NOTE: The flashback in this chapter takes place after Get The Message.

In the Estate we were doing our things when we heard crying.

Me: Uh oh!

Stewie came.

Stewie: Maria, I think you and May better check up on Horsea and Manaphy. The two of them are crying while looking at pictures of Poliwag and Poromon.

Maria: Uh oh.

May: We better go see what's wrong.

They went into their rooms and saw Horsea and Manaphy crying hard. And when Pokemon cry, they cry like waterfalls.

May went in.

May: What's wrong Manaphy?

Manaphy: (crying) Mama, do you think Poromon will ever love me?

May: I'm sure he does Manaphy.

In Maria's room, she went in and sat by her.

Maria: Horsea, are you all right?

Horsea (crying): It's no use! Poliwag will never love me!

Maria: Oh come on Horsea. He does love you. But they don't know it yet.

Poliwag and Poromon were listening to Horsea and Manaphy crying.

Poliwag (concerned): Horsea and Manaphy have crushes on us?

Poromon (concerned): We had no idea.

Maria: I know that's you two. Come here Poromon and you too Poliwag.

Poromon and Poliwag came in.

Maria: I think you two need to return Horsea and Manaphy's romantic feelings.

Poromon: (to Manaphy and Horsea) Girls, we need to talk.

They got to talking and Poromon and Poliwag revealed how they felt about them and how they love them more than anything. It was an adorable and amazing sight!

Luna and Lucy saw it.

Luna: (sees Poliwag, Horsea, Poromon, and Manaphy sleeping together) Think we should-?

Lucy: No. Let's let them have this moment.

They left and respected their wishes.

* * *

Later in the living room we were watching Rip Hardcore and how he is stranded on a remote island and learning how to survive.

Me: That a boy Rip!

Lincoln: This reminds me of the time when me and everyone were stuck on an island in Lake Eddy.

Me: I remember that!

Laney: Same here.

Lincoln: And it was because of that stupid cheapskate Flip that we wound up there and nearly died! Remember that?

Me: Remember? How can I ever forget. He almost killed you all that day.

---

Lincoln's room as Lincoln squirts sunblock onto his hand and applies it to his face.

Lincoln: [To the viewers] "It's Saturday morning, and for the first time in forever, every single member of the Loud family is free. [Camera pans to his calendar] To make the most of it, Mom and Dad are taking us on a boat trip around Lake Eddy. It's gonna be awesome! [A drop of sunscreen lands on his eye] GAH! Sunscreen in my eye!"

[Lincoln runs out of his room to the bathroom rubbing his eye. Lola then comes out of her room]

Laney: This is gonna be awesome guys!

Lincoln: It sure is Laney.

Lola: "Lana! Where's your tire inflater? [Holds up a unicorn float] My unicorn needs puffing."

Lana: [With a can of worms] "On it. Let me just finish breakfast."

Lynn Sr.: [From downstairs] "Has anyone seen my bait?"

[Lana winks at her twin before munching down another worm and running off to their room]

Lola: [disgusted] "Ew."

Lynn Sr.: [Enters the hallway with a fishing pole as Lola walks away] "Your ol' Dad's gonna get some fishing in before the season's over."

Rita: [Enters with her own fishing pole] "We'll see who comes up with the better catch."

Lynn: "CANNONBALL!" [Runs forward but the parents stop her]

Lynn Sr.: "No cannonballs in the house, LJ."

Lynn: "Relax, I'm just practicing the yell. Next step, toughening up my butt cheeks for maximum splash."

[Lynn toughens her butt cheeks and hops past her parents and down the stairs. Said parents look at each other before heading downstairs as well. Lori comes out of her room, talking to Bobby on her phone.]

Lori: "Don't worry, Boo-Boo Bear, [Lincoln comes out of the bathroom] I packed an external charger so we can stay in constant contact."

[Luan steps out of her and Luna's room with Mr. Coconuts]

Mr. Coconuts: "It's just a three hour tour. I've taken longer trips to the little dummy's room."

Luna: [To Luan] "Dude, you're not bringing Mr. Coconuts, are you?"

Mr. Coconuts: "Nah, wood and water don't mix. I may be a dummy, but I'm not stupid."

[Luna looks annoyed as the three head downstairs. Behind them, Lincoln is holding Lily.]

Lincoln: [Applies some sunscreen onto Lily's cheeks] "Here you go, Lily." [Lily raspberries as she wipes some off and flings it right onto her brother's eye] "AAAH! My other eye!"

Lucy: "Hi, Lincoln, pass the sunscreen." [Lincoln and Lily yelp at her appearance as the sunscreen flies out of Lincoln's hand and Lucy catches it] "Oh, only SPF 80, never mind."

Lincoln: [Gets an idea] "Hey, want to help me hunt for Plessy?"

Lucy: "What?"

Lincoln: [Shows her the article of Plessy on his phone] "The prehistoric reptile rumored to lurk at the bottom of Lake Eddy."

Lucy: [As they head downstairs] "Hmm, water dragon? I am so in."

[Lana comes out of her room with her inflater laughing as she heads downstairs as well. Lisa steps out of her room.]

Lisa: "Preposterous. I plan to study the lake's very real, and very fascinating micro-climate with tropical conditions despite-"

[Vanzilla's horn honks]

Rita: [offscreen] "You can lecture your siblings in the car, sweetie, let's go!"

[Lisa looks around to find that she's alone. Realizing this, she runs down the stairs, out of the house, and into the van. Vanzilla then drives off.]

[Lake Eddy. The Louds are on a boat wearing life jackets as Flip counts the money.]

Flip: "'Kay, you're all set." [The Louds cheer and wave goodbye as the boat starts off] "Remember to be back here in three hours or the rental fee doubles!" [Sniffs his money as he walks away]

STUPID CHEAPSKATE THIEF!

[On the boat, Leni takes a selfie, Lori is on her phone, and Luna is relaxing. Lincoln shows Lucy his map, and points to an X. Lucy looks through her binoculars. Lana is eating worms from the can, Lola is putting on her unicorn float, Rita is putting a hook on a fishing rod, and Lily is next to it.]

Lynn Sr.: Ah, nothing like that fresh lake air, the gentle sound of the waves…

[Suddenly, a sputtering sound can be heard and the engine starts steaming.]

Leni: [Blushes with embarrassment, thinking she farted] "Sorry, that was me! I only had yogurt for breakfast!"

Lana: "That wasn't you, that was the engine!" [Opens the engine to find it leaking and filled with stuff.] "Yikes! This baby is leaking more than Lily's swim diaper!"

Laney: Flip gave us a defective engine!

Rita: "No worries. This boat can run on Loud power! Everyone grab an oar!"

Leni: [Grunts as she tries to grab an oar from a wall] "Why can't I pick it up?"

Lola: "'Cause it's painted on! Dang it Flip!"

Laney: I will kill him for this!

Rita: Laney you will not!

Lynn Sr.: "Hmm, maybe there's something else we can paddle with. [Sees something and screams] WHIRLPOOL!

There was a huge raging whirlpool up ahead and the Loud's and the boat were heading straight for it! They all gasped as they saw how big and violent it was! They screamed as it was spinning them around! They were sucked into it like a toy boat caught in a swimming pool drain!

---

Later on, the scene cuts to Rita and Lily washing up on a remote island.

Rita: (Groans) (Gasps) Is everyone okay!?

Lynn Sr. and the rest of the Loud's came to the island clinging to some debris!

Lynn Sr.: Don't worry honey. I got them.

They came to the shore of the island.

Lori looked at her phone and screamed.

Lori: MY PHONE!

The Phone was broken as it had a cracked screen and it died.

Rita and Lynn Sr.'s phones we're broken as well!

Rita: Our's too!

Lincoln: How are we gonna call for help?

Lynn Sr.: Maybe we can borrow a phone from somebody on this island.

Luna: I don't know pops. This place looks pretty deserted.

Leni: Oh goody. I'm starving!

Luan: No Leni. Deserted means there's nobody else here.

They saw that they were stuck on a remote island in the middle of the lake! With no land in sight for miles!

Lincoln: I can't believe we're stuck on this deserted island!

Lola: We're all alone? With no food, no water, no TV!? (SCREAMS) WE'RE DOOMED!

Everyone sulked in despair!

Rita: Whoa guys! Lets not fall apart.

Lynn Sr.: Your mother's right. I know we're in a bit of a pickle.

Rita: But that doesn't mean we're gonna give up. We're Loud's. And Loud's never quit!

Lynn: Mom and dad are right! We're not a bunch of quitters!

Luan: J.D. and Varie probably noticed that we're missing. Right?

Lynn Sr.: Now lets put our heads together and figure out how to get off this island!

Laney: I have an idea. I'll go get J.D. and Varie. They can help us get back.

Lola: And how do you plan to do that!?

Laney: I have powers. Remember?

Laney floated in the air.

Lana: That's right! Laney you can fly back to shore and get J.D. and Varie!

Laney: I'll be back guys. I promise!

Lynn Sr.: Good luck kiddo.

Laney flew off to land. Luckily she has a compass that can point back to land.

Lori: We probably wouldn't have gotten stranded if we had wings.

All they could do now is try to survive and wait.

---

Back at my mansion in Royal Woods, me and Varie were watching TV and reading books.

Varie: I'm getting really worried. Lincoln and the others aren't back yet.

Me: I know. I'm worried too. I hope they're okay.

Varie: Lincoln and the Loud's can get through anything. But Lake Eddy is one of the Great Lakes and it's very easy to get lost out there.

Me: I know.

Then there was pounding on the door.

Me: Uh oh.

I went to the door and I saw Laney and she was all wet and her scarf was gone!

Me: Laney! Are you all right?

Laney: Yeah I'm fine. But everyone else is stuck on a remote island in the middle of the lake.

Me: What!?

Varie: Is everyone okay!?

Laney: They're fine. Flip got us stranded on the island. He sent our boat into a whirlpool because of his cheapskate ways!

Me: Tell us what happened. All of it.

Laney went over the details.

Me: That murderous thief!

I went to my room and grabbed a map of the Great Lakes.

Me: Can you show us where the island is Laney?

Laney: Right about here. Before I flew off, I got a good view of the island from 50,000 feet up and calculated from my position.

She pointed to coordinates 42.349039˚N, -81.077446˚W.

Me: That's not far from Ontario, Canada. Right across the Canadian Border. And that island's not even on the map.

Varie: An uncharted island.

Me: Yeah.

Laney: We went across the border because of that whirlpool!?

Me: I'm afraid so! We got to get them back home! Come on!

We ran down the street fast and Varie had Laney on her shoulders and we were running fast.

Laney: So what's the plan J.D.!?

Me: We're gonna head to the docks of Lake Eddy and flag down a coast guard ship to help us.

Varie: How are you gonna do that?

Me: Using the old flag morse code method.

Laney: I saw that method.

Me: Lets go! And I'm also gonna get Flip arrested for this.

Laney: Good! I want that cheapskate to be thrown in jail for this.

Me: His swindling days are over when I get through with him! If anything happens to them because of Flip, I'm going to kill him!

We raced down the street and got to the Lake Eddy docks.

Me: Here we are.

I saw a ship.

Me: There's one.

I pulled out two morse code flags and did some morse code stances and morse code beeping was heard in the background and the ship stopped.

We spread our wings and flew over and went onto the ship. To our surprise, we saw Bobby on the ship.

Bobby: Hey amigos!

Me: Bobby? We didn't expect you to work on the Great Lakes Coast Guard.

Bobby: It's a great job J.D. I'm learning so much about the work of the Armed Forces.

Me: I can tell. But I'm afraid we have big trouble.

Laney: A raging whirlpool destroyed the boat my family was on and stranded us all on a deserted island in the middle of the lake! Everyone's stuck there and I went to get help!

Bobby: (Gasp!) Oh man! Babe and bro are in trouble!

Me: All of them are Bobby. We need your help to get them back to shore.

Bobby: Of course amigo.

We went to the Helm.

Bobby: Captain! My friends are in trouble.

Me: Ahoy there Captain. My friends, the Loud's got stranded on a remote island in the middle of the lake.

Captain: What happened to them?

Me: They were out on a cheap fishing trip and they got sucked into a raging whirlpool and it stranded them on a desert island in the middle of the lake.

Captain: Can you show us where they are?

Me: Sure.

I pointed on a map.

Me: Right here at 42.349039˚N, -81.077446˚W.

Captain: That island is not even on the map.

Me: And it's across the Canadian Border.

Captain: I'm glad you called us. We're gonna head over there right now.

Me: Okay. I'll keep an eye out for it.

We were sailing on the boat and we went over the United States-Canada border.

Laney: Please be all right guys.

Me: They'll be fine Laney. We're gonna get them back to shore safely.

We then saw the island up ahead!

Me: Is that the island Laney?

Laney: That's it!

Me: Captain, the island is up ahead.

Captain: I see it J.D.

We were heading to the island.

---

The other Loud's were getting tired and desperate. But they did find ways to survive and call home.

Lana: I'm worried about Laney.

Rita: I know sweetie. But she'll be okay.

Lincoln saw the boat we were on.

Lincoln: Boat coming!

The boat tooted its horn!

Me: (On a speaker) HEY THERE GUYS! NEED A LIFT!?

Lori: It's J.D.!

Lincoln: Laney got him and Varie!

Lola: We're saved!

We parked the boat and we ran to them and everyone hugged me.

Lori: Boy are we literally glad to see you!

Me: Laney told us what happened and we had to come get you guys out of here.

Varie: Thank goodness she did.

Lynn: We owe you one.

Bobby: Babe!

Lori: Boo-Boo-Bear!

They hugged.

Me: We found out that Bobby works for the Coast Guard as well.

Lori: That is literally a surprise.

Me: I'm sorry your fishing trip went south.

Lynn Sr.: It's all right J.D.

Varie: But the good news is that you're all okay.

Me: And from the looks of things, your survival skills that you all learned from Lincoln really paid off.

Luan: They sure did.

Luna: That's our little bro.

Lana: He really came through for us.

Lola: That's our Linky.

Lily: Poo poo.

Me: I'm proud of you guys. Lets get you all home.

We loaded everyone on the boat and we sailed home.

Everyone got back home safely. We were watching TV and everyone was given a week off from school because of what happened.

Lincoln: Thanks for saving us J.D.

Me: No problem Lincoln. Laney told us what happened and we sprang into action.

Lana: Thank goodness.

Me: I'm really sorry about what happened to your trip.

Lola: It's okay J.D.

Me: Good.

Varie: We're just glad that you all are all right.

Lincoln: Thank Laney for that. She told you and the rest is history.

Then a news report came on. It told us that Flip was arrested by the FBI for Federal Grand Larceny in the theft of millions of dollars out of everyones money in Royal Woods and also the Attempted 1st Degree Murder of the Loud's. He was held without bond and found guilty of numerous crimes. Including fraud, grand larceny, theft, assault and battery and attempted murder. Next to the 10 to 20 years in prison he was already serving for his crimes with Flip's Food & Fuel, he was sentenced to 92 years and 8 months in Federal Prison and was ordered to pay $25,000,000 in restitution. Most of that money went to the Loud's.

Me: Wow! Federal offenses as well!

Laney: He brought all this on himself.

Me: Yep.

We were glad that Flip was gonna be in Jail for a long time.

FLASHBACK ENDS

Nico: Wow! That was intense!

Qin: That sure was. But you saved everyone that day.

Me: Thanks to Laney. She deserves most of the credit for it. But I was really impressed that everyone was able to survive on that island. Everything Lincoln learned from Rip Hardcore really paid off.

Lincoln: Yep.

Nico: I also heard that you guys did the same thing at the mall.

Me: We sure did and Laney caught amnesia after hitting her head on a coin starter for a train ride.

Lola: I remember that.

Qin: I didn't know you had amnesia Laney.

Laney: Yeah. I couldn't remember anything because of that. I couldn't remember who I was, where I came from or what happened.

Me: So we had to help restore her memory of everything step by step.

I went over everything that happened during the events of Mall of Duty. Everyone was amazed!

Lynn: Way to go in helping out bro.

Luan: Boy Laney that must've been awful for you to have amnesia.

Laney: It was.

Me: She's not the only one that had it. I had it myself.

Nico: You had Amnesia too J.D.?

Me: Yep. It was 5 years ago.

Lori: Wow!

Leni: That must've been awful.

Lily: I remember that. That was awful. You said you were a shadow completely lost in a world you didn't remember.

Me: That's right Lily.

Maria: But thank goodness it wasn't permanent.

Me: I know.

Lynn Sr.: I'm glad you're okay Laney.

Rita: But that was a harrowing adventure we had though.

Me: No kidding.

But in the end we saved our friends from having to endure a Cast Away experience.

Elsewhere, at a hidden base in North Carolina, 6 friends were getting ready. These were the awesome Megaforce Power Rangers! These Power Rangers have 44+ years of Power Rangers abilities at their disposal.

Troy Burrows: I'm so excited to start school in Gotham Royal York.

Noah Carver: Me too.

Jake Holling: I think we'll meet Team Loud Phoenix Storm there as well.

Gia Moran: We sure will. Their adventures are so awesome!

Emma Goodall: They sure are.

Orion: They destroyed many enemies as powerful as the Warstar and the Armada.

Troy Burrows: Lets do it!

MEGAFORCE RANGERS: GO! GO! MEGAFORCE!

In a powerful flash of light they transformed and the camera went white!

THE END

Another Fanfiction complete and another awesome Flashback chapter done.

Washed Up appeared earlier this year and it was so awesome! But what Flip did to the Loud's was awful! He should be thrown in jail for his crimes. That's why Flip is known as the Mr. Krabs of the Loud House. And Mr. Grouse is the Squidward of the Loud House. The transcript for the episode was incomplete so I had to use what was available. NicoChan11 gave me the ideas for this. Thanks man. Let me know what you all think.

See you all next time.

# Night of The Pumpkinhead Ghost

At Gotham Royal York High School we were getting ready for science class. Word has been flying around that 6 new students have moved to Gotham Royal York and have just enrolled at our school.

Me: This is gonna be interesting.

Nico: So, what's the plan on finding the Megaforce Rangers?

Will Vandom: Well, I was thinking that after school, we can fly over to Harwood County and meet them.

Ms. Johnson: Alright, class. Today, we have 6 new students joining our class today!

Cornelia: (notices the 6 new students who came in) Will, I don't think going to Harwood County is necessary now.

We saw the Megaforce Power Rangers! We saw Troy Burrows, the Megaforce/Super Megaforce Red Ranger, Gia Moran, the Megaforce/Super Megaforce Yellow Ranger, Noah Carver, the Megaforce/Super Megaforce Blue Ranger, Emma Goodall, the Megaforce/Super Megaforce Pink Ranger, Jake Holling, the Megaforce Black Ranger/Super Megaforce Green Ranger and Orion of the planet Andresia, the Super Megaforce Silver Ranger.

Me: No way!

Nico: Wow! The Megaforce Power Rangers!

Lori: OMG!

Troy Burrows: It's such an honor to meet you J.D.

Me: You too Troy. We watched you guys all on TV and you guys kicked some major butt on both the Warstar Aliens and the Armada.

Noah Carver: That was an amazing adventure.

Me: But what really got us going was you guys all teaming up with all of the Power Rangers from over the course of 20 years.

Gia: You know, that was one of our most incredible fights. During the final battle against the Armada, we only got to fight alongside the Legendary Rangers for about an hour.

Me: We know.

Nico: That was so awesome!

Cody Hida: And now?

Gia: Now, I'm glad we get to be on the same team as the Legendary Rangers full time.

Me: That's Team Loud Phoenix Storm's Power Ranger Superarmy.

Qin: Power Ranger Superarmy?

Me: I come up with the teams that can join us to help us.

Armadillomon: Well, the 6 of you are Legendary Rangers as well.

Orion: That's true.

Later we got to work on our tests for the day.

---

At lunch we were talking about the things that the Megaforce Rangers did.

Me: It was so cool how all teamed up with every ranger from over the course of 20 years.

Lincoln: But what has me confused is that you guys were using Ranger Powers we've never seen before.

Nico: Those Power Ranger abilities were not shown because they were made all the way over in Japan. After all, Japan is where the Power Rangers were created.

Me: But out of all of the Power Rangers out there, Megaforce is the most awesome part of the whole franchise.

Gia: I'm glad you think so J.D.

Me: Thanks Gia.

Sasuke: Orion, you and are actually very similar.

Orion: We are Sasuke?

Sasuke: Well, our people were killed by antagonizing forces. My entire clan, the Uchiha Clan, were killed by my older brother Itachi. He was forced to kill the entire clan because of the corrupt Elders in my vlliages' council. Yours were killed by the Armada.

Me: It's true Orion. Sasuke's entire clan was killed because of those old bastards on the Hidden Leaf Council.

Orion: That's true. But I think we already got justice for them.

Sasuke: We did. But when I found out about what happened to my whole clan, I vowed to get justice for them.

William: And at least the Armada didn't use lies to destroy the Andresians.

Orion: That's true.

Qin: Who are you guys talking about?

Me: Here.

I pulled out 3 photos.

Me: These three were once the elders of the Hidden Leaf Council. Their names were Danzo Shimura, Koharu Utatane and Homura Mitokado. Here's the history of Danzo.

I revealed the full extent of Danzo's history.

In his youth, Danzō was good friends with Hiruzen Sarutobi, having felt the need to upstart him. During the First Shinobi World War, Danzō and Hiruzen, along with the latter's team-mates Koharu Utatane and Homura Mitokado, were placed together in a squad under the Second Hokage Tobirama. When being late pursued by the Kinkaku Squad of the Village Hidden in the Clouds, Danzō attempted to volunteer in sacrificing himself as a decoy to ensure the others' safety. However, paralyzed with fear as Hiruzen volunteered for the task, Tobirama sacrificed himself instead while naming Hiruzen as his successor much to the shock of both Hiruzen and Danzō.

With Hiruzen as the Third Hokage, with him, Koharu, and Homura appointed roles as his advisors, a grudge filled Danzō resolved to become Hokage someday and formed the ANBU subsidiary named Root. Though the group was later officially disbanded, Root remained secretly active as Danzō executed shady dealing. The group became even more mindlessly devoted to Danzō, who started branding them with cursed seals, even attempting to assassinate Hiruzen on one occasion.

Danzo Root Leader

One such event was aiding Hanzo in his attempt to wipe out the but the men he sent to the Village Hidden in Rain were all wiped out by Nagato. Danzō also played a role in Kabuto Yakushi becoming a rogue ninja under his former subordinate Orochimaru, whom Danzō had implanting the DNA of Hashirama Senju to use his Wood Style.

In the aftermath of Kurama's attack on Konoha, Danzō suspected the Uchiha clan to have involvement and supported their relocation for better observation, which led to the Uchiha becoming more isolated and discontent, and thus eventually plotting to rebel. Years later, learning of the planned coup d'état by the Uchiha clan and playing on Itachi Uchiha's pacifist tendencies to provide him and the other elders with information of the clan's actions, Danzō secretly killed Shisui Uchiha, despite the fact that Shisui was actually already planning to use a genjutsu to prevent the Uchiha rebellion. He kills Shisui to to obtain his Sharingan eyes. However, Danzo then secretly ordered Itachi to slaughter his clan in return that his younger brother Sasuke Uchiha would be spared death. Though Itachi committed the deed, he left Danzō with a warning to not harm Sasuke or he would expose the circumstances of the Uchiha Clan's demise to the other ninja villages. Hiruzen however guesses much of what had happened, although he had no proof, and becomes even more suspicious of Danzō, and demands that Root be disband.

## Part II

When Team Kakashi decide to meet with the spy Sasori installed in Orochimaru's camp, Danzō took advantage of Kakashi's absence to assign Sai to the group as part of a plan to secretly assassinate Sasuke. To achieve that goal, Danzō had Sai trick Orochimaru into thinking he wants to join forces with him to destroy Konoha. Though Sai failed his mission, Danzō allowed him to remain with Team Kakashi, as Danzō had become worried about Naruto becoming a problem, and Sai would be in a perfect place to watch him.

## Hokage Danzo

During the events of Pain invading Konoha, Danzō was against Tsunade calling Naruto back to the village in fear that they would lose Kurama. To that end, Danzō not only killed the messenger toad Kōsuke, but also ordered his subordinates not to come to the Hidden Leaf's aid with the expectation that Tsunade would be killed off not caring about the deaths of the other villages. Most of the villagers were killed in the attack. However, despite Danzō's action, Naruto arrived none the less with everyone Nagato killed revived while Tsunade ended up in a coma. Following the invasion, the Hidden Leave are summoned before the Lord of Fire over what occurred, with Danzo convincing the feudal lord to name him the new acting Hokage. Danzō becomes the leader of the armed forces by influencing Mifune's mind, but is caught.

Soon after, Danzō uses his power to mark Sasuke as a criminal to be killed before leaving for the Kage Summit in the Land of Iron to discuss dealing with the Akatsuki. Before leaving, seeing that he cannot confine Naruto due to his reputation as a hero, Danzō ordered Sai to spy on the boy while sending his men to track down Kabuto for his medical knowledge. With Torune and Fuu as his bodyguards, Danzō arrives to the Kage Summit and attempts to name himself leader of the alliance that would fight the Akatsuki.

However, the abrupt appearance of Taka and White Zetsu forces Danzō to flee.

Sasuke vs Danzo

However, Danzō and his men were halted by Tobi at the Samurai Bridge. By that time his men were defeated by Tobi and Sasuke, who then challenged Danzo to personal combat, Danzō unsealed his arm and revealed it to have been embedded with multiple Sharingan eye as he admits his role in the Uchiha Clan Massacre. Sasuke pretends to attack in anger with his Susanoo, Danzō uses Izanagi to evade the fatal attack, until it becomes evident that Sasuke was actually just making Danzō lose track of how many Sharingan he had in his arm, and in the end Sasuke is able to overcome Danzō by using a simple genjutsu making Danzō think he has one extra. With the powers of both Senju and Uchiha at his disposal, causing Tobi to realize that Danzō is targeting Naruto, Danzō clashes with Sasuke before before forced sever his right arm before he overwhelmed by the Senju DNA.

Refusing to accept defeat, Danzō takes Karin as a hostage so he can use Shisui's eye on Sasuke. However, Danzō was shocked that Sasuke had his attack pierce through Karin to kill him. On the verge of death, seeing that he can never surpass Hiruzen, Danzō decided to use the last of his life to take both Sasuke and Tobi down with him with the Reverse Four Symbols Seal. Though both were able to get out of range, Danzō destroyed Shisui's Sharingan to prevent Tobi from obtaining it.

---

Qin and Orion gasped.

Orion: Man that's terrible!

Qin: I didn't know that Danzo was that dangerous.

Laney: He was one of the worst ever.

Sasuke: I didn't know that he tried to kill me.

Me: Yeah I forgot to mention that part.

Lynn: I like to call Danzo the Benito Mussolini of the Hidden Leaf Village.

We laughed at Lynn's nickname for Danzo.

Naruto: (Laughs) Hey that was a good way to describe him Lynn!

Sakura: (Laughs) That was a good one.

Me: That's a very accurate description for him Lynn.

Hunter D.: (German Accent) Ja! That was a good one for zat monster.

Qin: Who was Benito Mussolini?

Me: He was the dictator of Italy back in World War II. He was one of the people that helped plunge the world into World War II. He may have been a leader, but he wasn't a smart one like Danzo was.

Sasuke: (Chuckles) That's true.

Troy: Yep.

Orion: That is a good point though. I also heard J.D. that you were also the leader of the famous Knights of The New Fire.

Me: That's right Orion. That was from an alternate world of shinobi set 150,000 years into the future after a massive asteroid slammed into the planet and destroyed everything.

I revealed everything.

(Note: Rise of The Angel Shinobi is still in progress so no spoilers now.)

Qin: Wow! That was intense!

Me: It was.

It was an epic adventure.

---

At a repair shop, a tall boy with blonde hair, a purple sports jersey and white shorts was causing technological parts to float and build together and he was working hard on something. It was Cooper Daniels, one of the Plumber's kids and one of Ben's close friends and powerful helpers. He has a powerful psychic power called Technokinisis and he's a genius when it comes to working with all things technological.

Air Raid, Manny Armstrong, Alan Albright and Helen Wheels went up to him.

Air Raid: Are you Cooper Daniels?

Cooper: I sure am.

Helen: (hugs him) Cooper!

Cooper: Hey, guys. Did you miss me?

Alan Albright: We sure did Coop.

Manny: We were wondering where you were.

They got to talking.

---

Back at the estate we were talking.

Troy Burrows: It's great to see you all again Tommy.

Tommy Oliver: Same to you Troy.

Gia: We can't thank you enough for helping us.

Aisha: It was so awesome helping you out Gia.

Me: Emma, it was so cool how you and Gia took down that Warstar monster that ruined your friendship. That one was a freak!

Emma: Yes he was. And he paid for it.

Me: You got that right. But now you all have 20 years of Power

Rangers abilities at your disposal.

Gia: We sure do.

The door opened and in came Cooper.

Ben: Cooper!

Cooper: Hey Ben!

Ben: It's good to see you again!

Cooper: Same to you. I was thinking about you all to make sure you were okay.

Gwen T.: We are now members of Team Loud Phoenix Storm.

Me: So you are Cooper Daniels. It's a pleasure to meet you.

We shook hands.

Cooper: You too J.D. Heard so much about you. And wow! The Megaforce Power Rangers, it's such an honor.

Noah: Thanks Cooper. It's a pleasure to meet you.

Cooper: I believe you know this guy.

In came Robo-Knight!

Me: Wow! Robo-Knight!

Troy Burrows: Robo-Knight!

Gia: Thank goodness you're back!

Robo-Knight: Cooper has upgraded my systems to ensure that no evil force corrupts me again.

Buzzsaw: Good idea. Don't want you going evil again.

Me: No kidding. Cooper, we were told from Ben that you have incredible Technokinetic powers.

Cooper: I sure do.

Cooper stood and demonstrated. His eyes turned blue and computerized and a bunch of scrap parts came and floated toward him and they were put together into an awesome phaser blaster.

Me: Wow! That is so awesome!

Lisa: That is an amazing ability if I must say so myself.

Me: How did this happen to you Cooper?

Cooper: (Sighs) I was given my powers because of what happened to me. Before the fights with the Negative 10, I was in a car accident.

---

Cooper and his parents were in a nasty car crash and it was bad!

Cooper: (Narrating) The crashed caused me to crash into the windshield. Emergency personnel took us to the hospital. My parents ended up fine. But I wasn't. I was declared braindead. But because of that, I was given a second chance at living thanks to a radical new experimental procedure.

In the operating room, Cooper had his old brain removed and his brain was replaced with a special Positronic Brain - an advanced robotic artificial brain that is far more powerful than a human brain. They put the Positronic Brain into his head and used a laser to put his head back on.

Cooper: The experimental procedure was a success. I was back after a near death car-accident. But I discovered that it had an unexpected and amazing side effect. It gave me an incredible power that can allow me to build high tech advanced machinery more advanced than anything we have now with the power of my mind.

Cooper was practicing with his powers in the recovery room and he was building all kinds of machines. Some of the machines were never even thought possible.

Cooper: I promised to use my powers only when absolutely necessary.

FLASHBACK ENDS

Me: Wow! That is amazing!

Nico: A positronic brain like in an android inside a human? How is that possible?

Lisa: I was thinking exactly the same thing.

Me: Let me see here.

I turned on my computer eyes and I saw that Cooper's Brain was now a powerful artificial positronic brain like what we saw in Science Fiction movies. This was completely unheard of and it was a major league scientific breakthrough that will make braindead people being organ donors obsolete.

Me: Wow! This technology they used on you is amazing.

Laney: That is amazing. I never even heard of this kind of technology.

Lisa: Neither have I. This is a completely whole new medical science breakthrough.

Me: It sure is.

Then the alarm went off.

Me: Uh oh.

We went to the computer and we saw that the Ghostbusters were in trouble. They were facing the Pumpkinhead Ghost of Halloween, Samhain! He was terrorizing the city of Dublin, Ireland.

---

Samhain first appears in the episode "When Halloween was Forever". In this episode, he had been imprisoned in an ancient clock for centuries. Once the clock is brought to New York from Ireland, Samhain is soon released from his captivity by his two goblin minions on Halloween night. Once set free, he gathers all the ghosts he can and sends his minions all over New York. He also uses his powers to halt the night as he plans to make Halloween an eternal night that will last forever all over the world. The Ghostbusters however run all over town capturing his minions, to which Samhain confronts them out of rage. However, the Ghostbusters use his weakness against light to stun him and he is captured (along with his minions) just before the world falls under his evil reign forever. He is soon placed within the ecto-containment unit where it is assumed that he would stay.

For quite some time, Samhain remained in his prison. Where he seemed to get along with his fellow inmates (even playing a few card games with them as shown in "Partners in Slime"). Yet despite getting along with his fellow inmates, he never enjoyed being imprisoned. Samhain returns with an army of ghostly minions.

Samhain does return to face the Ghostbusters once again in "Halloween II 1/2" thanks to his two goblins releasing him again. This time Samhain's primary goal is to take revenge on the Ghostbusters for his long imprisonment. He summons more ghosts and quickly takes over the Ghostbusters headquarters, transforming it into his new fortress. The Ghostbusters managed to get everyone else and escape just before the headquarters completely transformed. The Ghostbusters attempt to use his weakness to light again, but Samhain puts up a protective barrier around the fortress that only other ghosts can pass through. Samhain then leads his minions around the town to search for the Ghostbusters, allowing the Jr. Ghostbusters to sneak in, yet Samhain returns and takes them hostage. The real Ghostbusters use a camera hooked up to Slimer and see that Samhain's fortress is held together by a timestone that is in the exact same place that the Containment Unit was in. The Ghostbusters attack Samhain in his fortress and blast the stone from outside the fortress while Slimer attempts to save the kids. After the Jr. Ghostbusters are gotten out, the timestone is destroyed, causing the the entire fortress to crumble and unveil the Containment Unit (which was left open after Samhain' escaped). With the Containment Unit still active, Samhain and his minions are sucked back into their prison.

New Comics

Samhain also appears in the Now Comics Ghostbuster series. His first appearance is in issue seventeen, where he has been constantly chanting for many days. His chanting allows him to finally escape the containment unit and he takes Slimer, Janine, and Louis hostage. As his minions storm through New York, the ghostbusters team up with an ancient wizard and are successfully able to recapture him. Samhain then attempts to escape through more chanting, only to be stopped by a loud fog horn.

Samhain (and his previous crime) briefly appears in a flashback in issue eighteen, where Winston is remembering all the pain he's gone through as a ghostbuster.

Samhain returns once more in the second issue of the annual comic. In the annual issue, Samhain seemingly meets his ultimate demise when the Ghostbusters turn his plan to absorb more and more power against, causing him to explode into pieces. It is debated as to whether or not this is canon to Extreme Ghostbusters in which Samhain made a cameo in the opening theme. It is possible that after he was destroyed, he was somehow revived and the Ghostbusters were able to trap him again.

---

Me: That's the ghost of Halloween, Samhain!

Nico: I remember him! He was ugly.

Lucy Loud: Wicked. He sounds like the kind of ghost that would cause anyone to be scared.

Laney: No kidding.

Lana: This is gonna be awesome! Halloween is right around the corner and we need to bring back its honor!

Troy Burrows: So how are we gonna kill a ghost?

Me: We can't kill the ghosts that the Ghostbusters face. We contain them.

Lincoln: It's like in our favorite show A.R.G.G.H. and it's awesome!

Clyde: This is gonna be awesome!

Me: Lets go catch a ghost! Ready to join us Megaforce Rangers?

Troy Burrows: You know it.

Orion: I'm in.

Gia: Lets do it!

They pulled out their morphers and put a card in them.

Megaforce Rangers: GO, GO, MEGAFORCE!

The Megaforce Rangers transformed into their Megaforce Ranger Forms and they went into their Super Megaforce Ranger forms!

Me: Wicked awesome guys!

Lincoln: Just like on TV.

Noah: It's gonna be so cool working with you guys.

Me: Lets go kick some ghost butt! Lets head for Ireland!

We were off to Ireland! We were on the Red Megaforce Legendary Zord called the Legendary Skyship! It was a pirate ship zord and it was so awesome!

Me: Wow! The Skyship is so cool! We may have a new floating ship for Earth.

Nico: We sure do. This is awesome!

Lucy was flying in her Vampire Bat Zord, Taylor was flying in her Golden Eagle Zord, Lori was flying in the Teal Condor Zord and I was flying in the Purple Osprey Zord.

Nico: And check out the new Wild Zords we have.

Nico was flying in his newest Wild Zord: The Green Flying Squirrel Zord. It looked like a giant green flying squirrel machine.

Me: Awesome! The Flying Squirrel Zord.

Nico: Yep. Just got it as we were leaving.

Nico showed us the Green Flying Squirrel Zord Animal Crystal.

Noah: That is so cool that you guys have your own Wild Zords.

Me: Yep. It's really awesome!

Tori Hanson: And I too have a Wild Zord. The Dolphin.

Tori showed them the Dolphin Zord Crystal.

Gia: That is so cool Tori! You have to be the first ever Ninja Storm Ranger to have a Wild Zord.

Tori Hanson: I sure am.

Me: The Wild Force Rangers were the Ninja Storm Rangers predecessor series. Also Troy, we saw that you have a Red Lion Zord as well.

Troy Burrows: We sure do.

Me: But that Red Lion is much different than the one Cole knows.

Trudy: (On the radio) Hey guys!

Stacy: Hey sis!

Trudy: Sorry I'm late. I was stopping a bunch of robbers in North Carolina.

Me: Way to go Trudy.

Trudy then arrived and she was in a red Flying Fish Zord.

Me: Whoa! A Flying Fish Zord!

Trudy: Yep. It's my first ever Wild Zord: The Red Flying Fish.

Nico: That is awesome Trudy!

Me: Awesome job Trudy!

Stacy: I'll say!

Trudy: Thanks guys.

Jayden: Wow! It's like we have a huge squadron ready for battle.

Me: It sure does.

Kevin (Samurai): But this is amazing that we're going into battle like this.

Nico: We have to be ready for anything.

Laney: Captain Troy! Ireland dead ahead!

Troy Burrows: Captain Troy. I like that. I see it Laney.

Me: Here we go guys. Lets kick some ghost butt!

Megaforce Team: Legendary Ranger Mode: Samurai!

The Megaforce Rangers turned into the Samurai Rangers! Troy was the Red Samurai Ranger, Noah was the Blue Samurai Ranger, Gia was the Yellow Samurai Ranger, Jake was the Green Samurai Ranger, Emma was the Pink Samurai Ranger and Orion was the Gold Samurai Ranger! They showed off their moves with their spin katanas and the barracuda swords.

Me: Wow! That is so awesome!

Emily: You guys know our moves really well.

Nico: They have 20 years of Rangers at their disposal and they have the powers of both the America Power Rangers and the Japan Power Rangers.

Lori: That literally surprises me.

Jayden: It's awesome that you guys have our powers.

Troy Burrows: Thanks Jayden. It's amazing.

Me: Lets go!

We went down to Ireland!

---

A ferocious battle was going on.

Samhain: **You foolish humans will never win against me!**

Ray Stanz: (to Samhain) You're gonna be spending Halloween in a Containment Trap!

Me: (Offscreen) And he will be in there for all eternity!

We swooped in!

Jake Holling: (flying in the air) Trick or treat. Now smell my feet! (kicks Samhain, knocking him to the ground)

We landed.

Me: We saw you guys in trouble, so we decided to drop in.

Peter V: Thanks for coming J.D.

Me: Anytime Peter. Lets kick this pumpkinhead fuckwad's face into oblivion!

Everyone: YEAH!

Ben: Time to fight Ghost with Ghost!

Ben turned into Ghostfreak!

Ben: **GHOSTFREAK!**

Samhain: **You really think turning into a ghost is going to help you?**

Ghostfreak: **Technically, I'm an alien right now.**

Shanan: He's what's called an Ectonurite from the planet Anur Phaetos!

Lincoln: I'm going ghost!

Lincoln turned into Lincoln Phantom!

We went at Samhain and I punched him in the face and fired a powerful blast of Force Lightning at him and electrocuted him! Lincoln fired a powerful blast of Ecto-Energy at Samhain and burned him.

Clyde fired an Atomic Ray at Samhain and burned him.

Ray Stanz: Nice shot Clyde!

Me: Whoa! That was powerful! Lets take him down for good!

Cooper: I've always wanted to try this. TECHNOKINETIC HATCHET SLASH!

Cooper used his powers and formed an energy hatchet and he slashed Samhain all over.

Cooper: And when they do, we'll be ready!

Me: And they will die with you!

Samhain was trapped in the trap!

Clyde: Consider yourself Trapped!

Me: Well done Clyde!

Syd: Clydy-bear you did it! (Kisses him)

Clyde then toots like a steamhorn and he has hearts in his eyes and faints.

We laughed.

Lori: (Laughs) At least it's literally not with me.

Me: But that is adorable.

Ray: You guys are incredible!

Me: Thanks Ray. I'm glad we arrived in time.

Nico: Samhain you have failed this world and the afterlife!

Me: He sure has.

Qin: Yep.

Lincoln: That's one ghost that won't be welcome here.

Peter V.: You said it. (To me) Thanks for helping us J.D.

Me: Anytime Peter.

We shook hands.

Ghostfreak: (To the viewers) The ghosts of Danny Phantom may have been a good fight. But the ghosts that the Ghostbusters face on a daily basis will be even tougher.

Lucy Loud: You said it Ghostfreak.

We went back home.

THE END

Another Fanfiction complete and another Ghostbusters Ghost defeated and contained.

Samhain was an absolute disgrace to the entire spirit of Halloween! But he was a cool one. NicoChan11 gave me the ideas for this. Thanks man. Let me know what you all think.

See you all next time.

Note: The Flashback in this chapter takes place after the events of A Fridge Too Far

---

At a local condiment factory in the middle of the city, Gotham Royal York Elementary School was on an awesome tour of the factory and everyone was seeing how they make the sauces and what goes into which sauce.

Tour Guide: Here we have a giant tank of Honey Mustard and it's one of the most popular condiments.

Lincoln: I like mustard on hot dogs.

Laney: Same here.

They went to another tank and right next to it was a bunch of giant jars full of Barbecue Sauce. Cornelia was with them and she saw a ladder and her curiosity was peaking and she climbed it. But then the ladder broke in half and suddenly the ladder broke and it started to tip.

Cornelia: Uh oh.

She fell back and fell butt first into one of the giant jars of BBQ Sauce!

SPLORSH!

She gurgled in it and bubbles were popping.

Maria: Oh my god! Cornelia!

Lincoln: What happened to her!?

Laney: That ladder broke and she fell into these giant jars of Barbecue Sauce.

Lana: (Disappointed) Lucky!

Lola: Is she all right!?

Cornelia surfaced and gasped for air! She looked at herself and she was completely covered from head to toe in barbecue sauce!

Cornelia: MY HAIR! MY CLOTHES! Stupid Ladder!

Megan and Maria got her out and she was dripping Barbecue Sauce all over.

Megan: We'll get you out of there.

They grabbed her and helped her out.

Lincoln: Boy what a mess!

Laney: I hope that wasn't the barbecue sauce we were gonna use.

Laney took her finger and wiped the sauce and licked it off.

Laney: Mmm! Hickory Flavor.

Megan: Let me wash some of this sauce off you.

Cornelia: (smiles) Thanks, Megan. I'm lucky to have a best friend like you.

Maria: I'll help too.

Megan and Maria fired powerful blasts of water at Cornelia and washed the Barbecue Sauce all off. But she had to get some new clothes.

At the Jupiter Prison everyone was back to give the most hated Babysitter in the world - Icky Vicky, another awesome rant session about how evil and disgusting she is.

Manboy: It's good to see you in a better mood then last time, Nico.

Nico: Thanks. And don't worry. I'm not thinking suicidal thoughts right now.

Manboy: That's good.

Prisoner 1: Don't let anything villains say get to you about how terrible you guys are. You guys are what the entire universe needs for everyone out there.

Nico: Thanks guys.

Flame Man was selling snacks.

Flame Man: Hot Dogs, Burgers, French Fries! Get your snacks and fixings here!

Lori: Lets start. I'll go first.

Nico: Lets get ready to (Fire Hair Flares Up) (ECHOING) RUMBLE!

Everyone in the prison cheered.

Lori walked up to Icky Vicky and she cleared her throat. Vicky had her ears replaced because of Kira Ford.

Lori: YOU LITERALLY FUCKING DISGUST ME VICKY! (PUNCHES VICKY IN THE FACE!) IF YOU EVER GET OUT OF HERE, WHICH YOU PROBABLY WON'T, AND YOU COME NEAR ANY KIDS AROUND MY YOUNGER SIBLINGS AGE, I WILL LITERALLY RIP YOUR FUCKING HEAD OFF AND I WILL LITERALLY TURN THE REST OF YOUR FUCKING BODY INTO A HUMAN PRETZEL!

Everyone cheered for her!

Prisoner 1: Yeah! You tell her Lori!

Prisoner 2: Good show!

Manboy: Well said!

Leni went next.

Leni looked at Vicky.

Leni: Uhh.. What am I supposed to say to her?

Nico: Leni may not be the sharpest tool in the shed, but she is a genius when it comes to fashions, she knows all.

Manboy: That's all right.

Leni: Oh yeah! YOU TOTES ARE ABSOLUTELY DISGUSTING! THOSE CLOTHES YOU HAVE ON ARE TOTES TACKY!

Everyone cheered for her!

Nico: Her clothes are disgusting.

Luna: You said it Dude!

Luna went next.

Luna: YOU MAKE ME FUCKING SICK! I HOPE YOU BURN IN HELL FOR EVERYTHING YOU DID TO CHILDREN EVERYWHERE YOU MONSTER! YOU MAKE FREAKS EVERYWHERE LOOK BAD!

Everyone cheered wildly!

Eddy was next.

Eddy: Time for some bad rant power. (TAKES A DEEP BREATH) (SCREAMS AT THE TOP OF HIS LUNGS) YOU MAKE ME SICK YOU FUCKING BABYSITTER MONSTROSITY! I WOULD RATHER KICK BENNY'S FUCKED UP LIPS THAN HAVE YOU AS A WORTHLESS BABYSITTER WITH A STUPID UGLY FASHION SENSE!

Everyone cheered for him!

Manboy: Way to go Eddy!

Nico: Yeah!

* * *

At the estate I was at the training grounds testing out the power of an awesome new tool I found in Colorado on a mission. I found one of the Energems from Power Rangers Dino Charge, one of the most powerful substances in the entire universe and my Energem was a red, orange and yellow glowing crystal and I fired powerful fire blasts from my new blaster morpher and fired a powerful blast of energy at some dummies that looked like the enemies of the Dino Charge Power Rangers and it was so awesome! I also had the power of the Argentinosaurus, the Largest Dinosaur ever discovered and I had the largest of the Dino Charge Zords: The Argentino Zord!

Me: Time to see what the Argentino Zord can do!

I made a training dummy that looked like one of the Dino Charge Rangers enemies and summoned the Argentino Zord. It was an awesome giant orange Argentinosaurus Zord and it was the biggest one of them all! It was awesome!

Me: Wow! Lets see what it can to!

I went into the Argentino Zord cockpit and it was cool! I commanded the Zord and it smashed the monster into pulp and it exploded!

KRABBBBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Me: Awesome!

I was ready for anything with the power of the Dino Charge.

We were over at Lynn's Table and we were having really good food.

Stewie: Orion, me and Lisa are going to upgrade your armor so it also uses powers of the 6th Rangers from Alien, Turbo, Lost Galaxy, Lightspeed Rescue, and Jungle Fury.

Orion: Thanks Stewie.

May: Manaphy, how are you and Horsea's love lives?

Manaphy: Awesome! We love each other!

We were having awesome food.

Nico: Awesome food here.

Me: It's always good food.

Lynn Sr.: Thanks J.D.

Elena Validus: I'm just glad your restaurant is still doing good. And I should know since I visited it before.

Lynn Sr.: That's true Elena.

InuYasha: The food here is really good. It's different than what we know back in the Feudal Era.

James M.: I'll say. but it sure is delicious.

Seia: Mr. Lynn is a fantastic cook and he can make any kind of food from around the world.

Sylvia: He sure can. Everything you all learned from your worldwide adventure has really come in handy for him.

Nick F.: And it was really clever using the Shadow Clones to keep the place going while you all were away.

Nico: It sure was. How did this restaurant come in?

Me: It was shortly after Mr. Lynn got his investment.

---

[The flashback begins with me, Lincoln and Laney applying some paint to a building.]

Lincoln: [To the viewers, excited] Today's the big day. The grand opening of my dad's restaurant, Lynn's Table. That's right, his dream of opening his own place is finally coming true. But let me tell ya, it hasn't been easy getting here.

Me: (To the viewers) We had to start from the ground up.

[Lincoln looks up as it pans up to the restaurant's sign. Fade transition flashback to a different sign that reads "Something Fishy Restaurant".]

Lincoln: First, Dad had to find a place.

[We all were looking at the restaurant that their dad picked out. The outside of the building appears to be grody-looking and worn down, and the fish head on top of the building rotates slowly for a second, and then short circuits. Everyone, expect for Lynn Sr. and Lana, looks aghast at the worn down restaurant.]

Lynn Sr.: So, what do you guys think?

Lily: It's an old place and a dump.

Lola: [Pinching her nose in disgust.] I think, it stinks!

Lana: That's the best part! [Inhales the scent] Cod, with a hint of lobster paste.

Me: It is a perfect place to build Mr. Lynn's restaurant.

Laney: Come on, guys be supportive. All this place needs is a little elbow grease.

[Just then, a butterfly flies past them and it lands on the giant fish head, which shakes the second it does, resulting in falling off, completely avoiding the Louds, who scream at the incoming impact. The fish head then bounces off offscreen.]

Laney: Okay, maybe a lot of elbow grease…

Naruto: No kidding.

Fu: But we can help build it into the perfect restaurant.

Lynn Sr.: Look, it's going upstream to spawn. [laughs]

[The fish head crashes into Vanzilla.]

Lynn: Yeah, on your car.

Lynn Sr.: [notices] AAHH! [runs up to the destroyed van] Ah-oh-oh no, not Vanzilla.

Lana: I'll get the tools.

[Flashback #2]

Lincoln: Once Dad bought the old fish shack, we all pitched in to fix it up. [A truck backs up to the old restaurant.]

Lincoln (Flashback) Coming through. [The family set to work on the new restaurant.]

We got to work on the restaurant and helped build the restaurant into the most awesome restaraunt

Lincoln: Lynn handled the demolition.

[Lynn tears up a part of a wall with a baseball bat.]

Lynn: You want me to knock down that wall too, Dad? [Runs to said wall]

Lynn Sr.: No no, no no, no no no no no, that one's load-bearing! [Starts after Lynn Jr.]

Lincoln: J.D. handled the furniture for the restaurant.

I was building the furniture with my skills that I learned in woodworking class.

Me: How are we doing?

Fu: So far so good.

Lincoln: Laney handled painting the walls. [Laney was seen painting a fisherman shore on the walls and Lynn Sr. saw the artwork]

Lynn Sr.: Wow, Laney I'm really loving the design.

Laney: Thanks dad, I thought you're resturant could use some class. [Lynn Sr then see a rather unsettling painting of "Creation of Adam" with him as Adam]

Lynn Sr.: Uh… I'm not so sure about this one Laney. This is supposed to be a family resturant.

Laney: [sighs] Everybody's a critic. [Picks up a paint roller and paints over the naked painting]

Lincoln: And Lana fixed up the bathrooms.

Lana: I hooked you up big time, Dad. That bathroom is so nice, I wouldn't be surprised if people stopped by just to use it.

Lynn Sr.: Well, I hope they'll at least buy an appetizer.

Sakura: I think they will Mr. Lynn.

[Suddenly a toilet in the other bathroom flushes, Hops comes out.]

Lana: Hops was testing out the heated toilet seats.

[Hops gestures that the heated seats are working perfectly.]

Lincoln: And Lisa helped Dad get ready for his health inspection, though I think she was little tougher on Dad than the actual inspector.

Lisa: [Measuring the distance between the dumpster and the back door.] Tsk tsk tsk, your dumpster should be a minimum of fifteen feet from your exit, you're three inches short, that's an infraction. [Lynn Sr. throws his chef hat to the ground.] Hm, no hairnet, that's another infraction.

Hinata: Lisa, please don't be too rough on him. It's his big restaurant.

[Resumé transition]

Lincoln: Next, it was time for Dad to hire a few employees.

Lynn Sr.: So, why do you want to work here?

Mrs. Bernardo: I was just cast as Waitress #3 in the Royal Woods One Act Festival, so I need to prepare for the role. [stands up and begins singing.] Would you like a table or would you like a booth. [stops singing and Lynn Sr. is weirded out.] Oh, did I mention it was a musical?

[Rita and the kids give a thumbs down. Another resumé transition.]

Lynn Sr.: So, why do you want to work here?

A. Kidd: Yeah, my parents are forcing me to get a job since I left our car's sunroof open in the rain and ruined it, but I'm like, really responsible.

[Rita and the kids shake their heads for no, but Leni gives two thumbs up, and everyone looks at Leni.]

Leni: What, I find him relatable.

[Lori and Luna give deadpan expressions.]

Lynn Sr.: Why do you want to work here?

Mr. Grouse: I don't want to work here, Loud, I came to tell you your dog went on my lawn. Feel free to pick it up!

Me: Mr. Grouse calm down. You don't have to be so mean to him.

Mr. Grouse: Sorry J.D. I can't help it.

[Mr. Grouse walks off.]

Lincoln: But eventually, Dad found the perfect people for the job, his best friend and bandmate Kotaro, Vince, our friend and J.D.'s partner and awesome friend, and Grant, the Burpin' Burger's two time employee of the month.

[Rita and the kids give thumbs up. Lynn Sr. hires Kotaro and Grant and they fist bump.]

Lynn Sr.: Pound it guys, now blow it up. [They do so]

[Dishes transition]

Lincoln: The best part of helping Dad get ready was tasting the sample menu.

Lynn Sr.: Now everyone take a comment card and rate the dishes based on presentation, texture, flavor- [Hears gnawing, and sees that everyone has already devoured the sample menu.] Slow down, I need detailed feedback.

Laney: Delicious…

Me: (BELCH) Excuse me. Really tasty Mr. Lynn.

I put my results on and they were good.

Lynn: [Belches up scraps of paper, and groans.] I just ate my comment card.

[End of flashback]

Lincoln: All that's left now, are a few last minute touches.

[Lincoln puts the paintbrush into the can, and slides down the ladder.]

Laney: Nice job, Lincoln.

Lincoln: Thanks, you were good too Lan- [Before he coud finish, Leni unknowingly hits Lincoln with the door]

Leni: [Looking for Lincoln] Lincoln! Dad's gathering everyone! [Doesn't see Lincoln] Oh, I guess he's not out here.

[Leni casually walks back inside, and Lincoln, having been hit by the door, falls to the ground in pain.]

Lynn Sr.: [As Lincoln walks in] Hey everybody, I just wanted to say thanks for helping get this place ready. [Takes a breath, and pulls back the curtain behind him.] Ta-da! [Everyone admires the renovated place.] Now there's just one thing left to do, and it's kind of a biggie; publicity. [Gestures to a wagon full of flyers, and starts handing them to his kids.] Now, I had a truck load of flyers made for you kids to distribute all around town, nothing fancy just advertising "great food at a great price", I was thinking that could be our motto.

Laney: Uh, dad. I don't think all these flyers are a good way to advertise your resturant.

Lori: Yeah, and also there is a typo.

Lynn Sr.: What? [Looks at the card] 'Come on down to Lynn's table for our gah… gland opening? Ah no.

Lisa: It sounds like you're offering treatment for lymphadenitis.

Lynn Sr.: What am I gonna do? There's not enough time to reprint these. Oh, ah, this is bad, this is a - no one's gonna show up and we'll be totally sunk. [Sighs, and Rita comforts him.]

Lincoln: Hey Dad, I've got an idea; why don't you let us take care of the promoting? I'm sure we can come up with something.

Lola: Yeah! We can help Daddy.

Luan: Of course, I'd be gland to do it. [Laughs]

Lynn Sr. Ah, kids, thank you; you don't know what this means to me, and I just know you'll think of something brilliant, [The kids are pleased] when you put your heads together, you always do.

Lisa: Whelp, I'll go ahead and recycle these.

Lynn Sr.: Ah, sweetie, we don't have a recycling bin yet.

Lisa: Oh, I see, [writes on her clipboard] that is another infraction.

Me: No sweat Mr. Lynn. I can fix all this.

I snapped my fingers and put the correct letters onto the flyers and fixed everything that Lisa said.

Lynn Sr.: Thanks J.D.

Me: Anytime Mr. Lynn.

[Back at the estate, we all are having a meeting.]

Lori: [Banging her shoe as a gavel.] Okay, so let's all pitch our ideas on how to promote Dad's restaurant, then we can vote for our favorite. Who want's to go first? [Lincoln volunteers] Why am I not surprised?

Lincoln: [Taking the spot] Picture this; airing on every TV in Royal Woods, a commercial for Dad's restaurant. [Pulls down a projector screen showing his plan.] The angle, 'Let a man used to cooking for thirteen handle your huge party, big groups encouraged, buses welcome', a-thank you, a-thank you.

Me: Good choice Lincoln. Commercial advertising is always a good way to promote Mr. Lynn's restaurant.

Cyborg: Here's an idea for a promotion. Don't use tofu as food!

Beast Boy: Cyborg, you're making fun of me, aren't you?

Me: Okay you guys. That's enough.

Starfire: Please. Let us help with Lynn Sr.'s restaurant.

[Next is Lisa]

Lisa: According to my research, and personal experience; there's nothing people love more than… Bottomless baskets of fries! I propose we offer them with every entrée.

Me: That's a great idea Lisa. A lot of restaurants we know have that and it's perfect.

Vince: It sure is.

Fu: That's a great idea.

[Lori's turn]

Lori: I say, we install a photo booth, [holds up a reel of herself and Bobby.] it would pull in literally every teen in Royal Woods.

Me: Another great idea.

Aylene: That's an awesome idea.

Fu: Yeah.

Sakura: I agree. I think photo booths would be perfect.

[Laney's Turn]

Laney: I say we put up some art sculptures all around the restaurant to make it look fancy. [Holds up a picture of one of her weird sculptures] Like this one, I call it: "Life in an elevator". [The siblings gave her questionable looks]

Me: That's another great idea Laney.

Sasuke: I've always been an art lover myself.

Sai: Same here. I agree with Laney's idea.

Me: That is an awesome sculpture though.

[Luan's turn]

Luan: [Holding a cake] So as you see, mine is the batter idea. [Smashes the cake in her face.]

Me: Very funny Luan.

Naruto: (Laughs) That one sure takes the Cake!

Luan and me laughed at Naruto's Joke.

Luan: (Laughs) Good one Naruto!

Me: Nice one bro.

We high five.

[Montage of the other siblings' ideas.]

Lola: Ta-da! It's perfect.

Luna: [Wailing her guitar] Ta-daaaa! Yeah!

Lucy: Ta-da.

Leni: And there it is, bingo.

Lynn: It's a home run.

Lana: And there you have it. [High fives Hops]

[Finally, Lily shows her art and video games.]

Lori: Thank you, Lily, having arcade games at dad's restaurant is literally a very creative idea.

Nicole: It's perfect. A lot of people find it perfect for a restaurant.

Lori: Now that all of us have presented, let's put it to a vote.

A COUPLE MINUTES LATER…

Lori: [Pulls out the last vote, the siblings are in suspense.]… and one booger smeared vote for Lana's plan. [Tallies it on the chalkboard, which shows that everyone got one vote, all siblings except Lori groan.]

Lincoln: It's officially an eleven way tie. Did everyone just vote for themselves? [Everyone nods]

Me: We couldn't decide. It was all very good.

Lincoln: [to the viewers] Well, my sisters and friends may be fine with dropping the ball, but I'm not. Dad's counting on us. [shuts the door like his sisters did.] So I'm just gonna go ahead and make my commercial without their help. And when busloads of customers show up to Dad's restaurant, he'll have me to thank.

Volcana: A marionette plan? This isn't gonna end well.

Eddy: Why don't you leave the promoting to me? That way, your dad will have customers at his restaurant in no time!

Luan: I can help you Eddy.

Later at the restaurant we got everything ready.

Lynn Sr.: Okay team, T-minus five minutes until the grand opening.

By the way, I ordered too much ginger, so really push the Lynn-ger chicken.

Me: Good name Mr. Lynn.

[Just then, Lincoln and Clyde walk in with a portable TV. And Laney follows them in with her scupture under her tarp]

Lincoln: Dad, we've got the greatest surprise for you ever; Clyde and I took care of the whole promotion problem, we made you a commercial.

Laney: I helped too. By advertising my art for the whole world to see!

Lynn Sr.: [Gulps] You did…

Laney: Don't worry, dad. Just trust us. This commercial will suit the cultures of everyone in town. Also I helped with the editing.

Me: I helped them out.

[Clyde turns on the tv]

Katherine Mulligan: And in local news; several civilians have reported seeing an alleged… tree monster, riding a bicycle. This is Katherine Mulligan, and I'll have the full story for you, after the break.

[The kids' commercial begins]

Lincoln: Have you ever gone out to eat with a big group and had this happen?

[Jean Juan's French Mex Buffet]

Jean Juan Host: That's a lot of people to seat. Why didn't you call ahead?

Lincoln: Have you too been…

Male Voice: Rejected!

[Aloha Comrade]

Aloha Comrade Host: It's going to be at least hour wait.

Male Voice: Rejected!

[Giovanni Changs Italian Chinese Bistro]

Giovanni Changs Host: [laughs] You're kidding, right?

Male Voice: Rejected!

[Bangers and Mosh]

Bangers and Mosh Host: I can seat you in pairs, but one person's gonna have to sit by himself.

Male Voice: Rejected! Re- Re- Re- Re- Re- Rejected!

Lincoln: Well, then come on down to Lynn's Table. [Sets off a confetti popper, but the wind carries the confetti away.] Chef Lynn will be sure to take care of your large party. [The wind blows the picture of Lynn Sr. off of Lincoln's hand. Lincoln gets it back.] After all, when it comes to serving delicious food to big groups, This father of eleven is an expert. [Cut to slideshow of Laney's portraits] Also at Lynn's Table, not only you may feast on our great food. But also you can feast your eyes on our decorative art pieces created by out resident artist Laney Loud. [Laney smiles at her mentioning]

Clyde: [Holds a toy school bus in front of the camera.] Buses welcome.

[Clyde makes bus noises while the end credits play, all crediting Clincoln McCloud. Some special effects and finally and the ending screen.]

Lincoln and Clyde: A Clincoln McCloud Production. All rights reserved.

[Commercial ends]

Lincoln: So, what'd you think?

Lynn Sr.: Uh, I think it was… Fantastic! Talk about showmanship, you and Clyde knocked it out of the park. And Laney, those paintings are not so horrr… [Laney raises her eyebrow at Dad] I mean they're great! How did you get it on TV?

Clyde: You know Patchy Drizzle, the local weatherman? My dad plays racketball with him.

Lynn Sr.: Thanks, Clyde, hey, there's a free appetizer with your name on it.

Me: That was a great commercial guys! My Shadow Clone helped you out a lot.

Lincoln: It sure did.

Clyde: Yum, well, I'd better go home and change into my formal wear for the opening. [Leaves with the TV.]

Lynn Sr.: Hey, keep an eye out for that tree monster, especially if he offers you candy! [Laney rolls her eyes] Great work, kids. Did the others help too?

Lincoln: Psh, no, they all bailed after we couldn't agree on an idea.

Laney: I was only part of it to make my artwork famous. And I still will once I unveil my masterpiece tonight at the grand opening! [Laney leaves with the mystery scuplture]

Lynn Sr.: Uh, Laney. Are you sure that's a good idea? [Goes after Laney]

[Later, Laney was hanging up her paintings all over the resturant as the others prepare for the opening]

Lynn Sr.: Okay guys, this is it, time for the grand opening to officially begin. Oh, I hate to start without all the girls, but the show must go on. [Opens the door, and a bus pulls up, he gasps at this.] Son, the commercial worked.

Bus Driver: Where can I park my bus?

Lincoln: I'll handle it.

Rita: [Comes out and grabs his shirt.] Ah, nice try. [To the bus driver] Alright, are we working with a hydraulic brake system here?

[The driver gives a thumbs up.]

Lynn Sr.: [Pleased, goes inside] Alright my friends, pound it, [all four guys do a fist bump] now blow it up. [They do so. Lynn Sr. runs into the kitchen and gives a thumbs up, Grant and Kotaro grab some menus and each give a thumbs up too, Lincoln gives one back and opens the door.]

Lincoln: [To the crowd] Hello! And welcome to Lynn's Table, [as everyone passes] please make your way to the host stand, we can seat your entire party immediately. [Kotaro escorts everyone to a booth, and Lincoln notices another bus pulling up.] Yes, keep those buses a comin'. [Runs out, but Rita grabs him again.]

Rita: Lincoln.

But the restaurant life was hectic. It was turning into a promotional nightmare.

Lynn Sr.: I just wish you kids had worked together to come up with one idea, that I could have handled, but now there's just too many things hittin' me all at once. [Just then, Leni hits him with the door; dazed.] There's another one.

SMASH!

Leni: [Unaware] Hey Dad, Bernie just got a double bingo. do we have Ba-ba-ga-noush? [Looks around] Where's Dad? [Everyone points to behind the door, Leni looks and her father blacks out; still clueless.] Why is he napping during the gland opening?

Laney: He's not napping, he's unconcious!

Me: Uh oh!

[Lynn and Lisa get the wheelbarrow and put their father in it.]

Lisa: [Checking his pulse] His vitals are fine, but when he wakes up, he'll have a considerable contusion.

Vince: He's really knocked out.

Lily: Now I know how Squidward felt.

[Everyone looks at the ground, disappointed in themselves.]

Luna: Dudes, I feel terrible.

Lori: Me too, Dad's opening night is a disaster, and it's all our fault.

Laney: Oh, if only I didn't think of myself I would've stopped this!

Me: It's not your fault guys. This is Mr. Lynn's big day and he was really nervous about this.

Lincoln: Guys, what are we gonna do?

Aqua: What's this "we" stuff? You guys were the ones who overworked him. Looks like you guys are the ones who are getting blamed for this!

Lynn: But the rest of you guys helped out as well!

Volcana: Well, we actually weren't stressing your dad out!

Lola: You're right, guys, we're guilty. The customers are gonna be asking questions. We're doomed! [Double D grabs her]

Double D: Get a hold of yerself, Lola! We need to make sure Mr. Lynn passes this interview.

Me: Agreed.

Rita: Well, with your father out of commission, I don't think we can keep the restaurant going. [Everyone sighs] I'll go tell the customers they have to go home. [Walks off, but then comes back and puts the pot on her husband's head.] Just to be safe. [Takes off again]

Lincoln: [Gets an idea] Mom, wait, maybe it's not too late to save the grand opening.

Lana: How are we gonna do that?

Lincoln: By working together, just like Dad wanted us to do in the first place.

[The girls like the idea.]

[In the dining room, everyone is chattering away, Lincoln gets up in front of everybody.]

Lincoln: Excuse me! May I have your attention, everybody! [Everyone looks at him, and he clears his throat.] I know you all came here cause of the promotions we offered

Elderly Woman: Bingo! [Realizes that she interrupted.] Oh, sorry.

Lincoln: But the thing is, my sisters and I came up with those without telling our dad, so unfortunately, we can no longer honor all of our promises. [Everyone is not pleased by this.] But if you're willing to stick around; there is one promise we can honor, our dad's great food at a great price.

Laney: And the special unveiling of a new art piece by Laney Loud!

[The siblings exchanged concerned looks as the people agreed]

Lincoln: Okay, time to work together, pound it guys. [Everyone pounds it] Now blow it up. [They blow it up]

[In the kitchen, Grant chops some carrots, and adds them to the soup Lori's stirring. She adds pepper and ladles it into a bowl Rita holds out for her, Rita puts the bowl on a plate, and adds some oregano.]

Kotaro: Order up! [He and Lynn skate up to the service window.] Potato and chicken dump-Lynns.

Rita: [Gives a thumbs up and checks the pot.] Fresh out.

Lori: No problem, Mom, I know that recipe by heart. [Comes to the window and puts out two bowls of soup.] Here, this Lynn-til soup goes to table three.

Lynn and Kotaro: Got it.

[They take the soup and skate off, Kotaro almost losing his balance. Meanwhile, Leni is escorting a mother and daughter to their seating.]

Leni: Please take a seat. Oh, but, give it back at the end of your meal.

[The two take their seats and Lisa offers them menus.]

Lisa: May I recommend the Lynn-ger chicken?

[Laney was putting the finishing touches on some creampuffs she made]

Laney: Done! [Comes to the window and puts out the two creampuffs] Get these Lynn-mon merengue creampuffs to table five!

[Lynn and Kotaro take the creampuffs and skates off]

[Lincoln places a bread bowl on the table and Luan leaves them some water, they are pleased by this. Luna and Lola are clearing the other tables, and take the dirty dishes to the sink where Lana and Virginia are cleaning.]

Lana: Thank you.

[She and Virginia start licking the plates clean. Everyone is busy in the kitchen.]

Laney: I wish Squeals was here. She would love this.

Me: Your wish is my command.

Squeals popped out of my backpack.

Laney: Squeals!

Squeals went into her arms.

Lynn: Order up. This is the home stretch guys, we're almost there.

[Everyone cheers, when suddenly Lucy arrives.]

Lucy: Where's Dad? I have the ultimate promotion, I invited

Katherine Mulligan from channel three to come interview him.

Rita: [Shocked] You did what?

Luna: [Points to their dad] Bad timing, dude.

[Lynn Sr. is still unconscious with Lily fanning him.]

Lucy: Gasp.

Aylene C.: Oh boy.

Lincoln: [Covering Lucy's mouth] Nobody panic, I've got an idea. Laney! Do you have your facepainting kit with you?

Laney: [Holds her kit] Always.

[Later, at the interview.]

Katherine Mulligan: This is Katherine Mulligan, here at Lynn's Table, talking to the man behind the name, Chef Lynn Loud. [Lynn Sr.'s hand goes up, then his head flops down but jerks up, he's painted to look like he was awake and happy. In the booth behind him, the kids are controlling his arms with strings.]

Laney: He's very happy to meet you, Katherine.

Katherine Mulligan: This has been the most successful grand opening Royal Woods has ever seen. How'd you do it? [The kids make their dad shrug, Katherine is amused.] So modest. How does it feel? [Thumbs up]

Laney: He doesn't need words to describe how proud he is of how his resturant turn out. All of us contributed to making his buisness a success.

Katherine Mulligan: I can see that. And I also hear that you are responsible for the artwork in this resturant.

Laney: You are correct, madam. I am most especially proud of this! [Laney pulls out her mystery artwork. The siblings signal her to not reveal it.] Behold! [Laney pulls out the tarp revealing a beautiful family statue]

[People were astonshed as they saw the statue]

Man #1: Amazing!

Woman #1: Beautiful.

Woman #2: Captivating.

Lori: It's… not hideous.

Me: Wow! That is an awesome statue!

Varie: That is a true masterpiece!

Katherine Mulligan: Fantastic! Lynn Sr., you must be so proud of your daughter's achievement. [Lynn Sr's hand were raised and clapped] I bet you are. And how do you plan to celebrate? [Sleeping gesture, and snoring noises.] Ha, ha, a good night sleep, I don't blame you. [To the audience] Well, Lynn Loud is a man of few words, but he lets his food do the talking, I'm Katherine Mulligan saying that if you're looking for a delicious, family-friendly meal, look no further than Lynn's Table.

[That night at the Loud House, the Louds are watching the interview.]

Lynn Sr.: Wow, thanks for making me look so good, kids. And Laney, that art was equisite.

Laney: Of course it was. [To the siblings] And you all thought It was hideous.

Lincoln: We thought it was part of your phase.

Lynn Sr.: I can't believe you pulled that off.

Lincoln: It was the least we could do after the mess we made.

Lynn Sr.: Well, once you worked together, you really turned things around. In fact, the grand opening was even better than I could have hoped for, Ah, bring it in here.

[Family hug, which they all enjoy.]

Lynn: Bring it in.

Lynn Sr.: Now, I was thinking; since you guys were such a big help, maybe I should name a few dishes after you.

Luan: Ooh, how about a Luan-chovy pizza.

Lori: Oh oh, chicken catcha-Lori.

Lynn Sr.: I love those! Keep 'em coming.

[Cut to an exterior shot of the house. The camera slowly zooms out as the family continues to list off potential dishes.]

Lana: Lana-cotti.

Lola: Buffa-Lola chicken wings.

Rita: Hummus and Rita chips.

Lisa: Liso soup.

Lincoln: Beef well-Lincoln.

Laney: Torte-Laney.

Lucy: Lucy-esar salad.

Luna: Luna casserole.

Lily: Lily-guini.

Leni: Ooh, I got one: hamburgers.

We facepalm.

We turned Lynn's Table into a family fun paradise for everyone! There was an awesome arcade, art museum, kid mascots, everything!

Me: But we now are a huge success.

Lily: Yep.

Nico: That is so awesome!

Gia: That is amazing.

Maria: How does it feel to be on the same team as the other Rangers?

Gia: Pretty good. We actually get to socialize with them now.

Nico: That's amazing! And I have a feeling we're gonna meet the Dino Charge Rangers soon.

Me: We sure will.

We continued our lunch.

On another Earth light-years away, 10 friends were working at the Dino Cafe in Angel Falls. It was the awesome Dino Charge Power Rangers!

Tyler Navarro: Keep those orders coming.

Sir Ivan: (British Accent) You guys make good food though.

Koda: They do. But friends are helping.

Kendall Morgan: We have a lot of work ahead of us though. And I have a feeling that Team Loud Phoenix Storm will come to recruit us.

Tyler Navarro: I feel it too. But it will be so cool to help them. Lets do it!

DINO CHARGE: IT'S MORPHIN TIME! DINO CHARGER READY! ENERGIZE! HA! UNLEASH THE POWER!

# The Water Bear Corrupted Gem

In the Gotham Royal York Mall, Nico was fighting some of the remnants of HYDRA and he was killing them. But some of them weren't gonna give up without a fight. He was also in a hurry too. The reason is because we're getting ready to meet the Dino Charge Power Rangers on an alternate planet Earth 45,000 light-years away from our Earth.

Nico: (to the Hydra Agents) Listen, can you please let us kill you? We really have somewhere to be right now.

Fireflight: Usually, you like to take your time with these fights, Nico.

Nico: Well, I really want to meet the Dino Charge Team. But these guys are getting in the way of that.

Nico blasted the remaining HYDRA Agents and killed all of them.

Nico: That takes care of them. HYDRA has failed this world.

They went back to the estate.

---

The U.S.S. Valorous Phoenix was flying through the endless void of space.

Me: Captain's Log, Stardate 2774.2: We are flying over to an alternate Earth that is believed to be the home of the Dino Charge Power Rangers. We only have the Dino Charge and Ninja Steel Power Rangers left to meet. The alternate Earth is located 45,000 light-years away from our Earth and it's gonna be so awesome to meet them.

Lincoln: The Dino Charge Rangers were the coolest rangers of them all.

Me: They were awesome. And the way they took down the ruthless

Sledge was so awesome!

Qin: Who is Sledge?

Me: He was a ruthless bounty hunter that was out to rule the entire universe with the power of the Energems.

I went over Sledge's history.

---

65 million years ago, Sledge attempted to steal the Energems from an alien known as the Keeper, eventually shooting him down over planet Earth. Surviving the crash, Keeper entrusted the Energems to various dinosaurs for safekeeping, and tricked Fury in to bringing a bomb onboard Sledge's ship. The resulting explosion sent Sledge and his crew careening off into space and releasing all of the asteroids Sledge had collected, leaving Fury stuck on Earth while the asteroids impacted the planet, causing the extinction of the dinosaurs.

Power Rangers Dino Charge

Sledge returns in the present day to once again claim the Energems for himself, only to find himself opposed by the Dino Charge Rangers, a group of teenagers founded by Keeper who fight and defeat the monsters he and his generals release into the world, as well as finding the Energems before Sledge. Eventually, Sledge, fed up of Poisandra's constant nagging, has Wrench create Curio in order to keep her occupied while he and the other generals focus on retrieving the Energems.

In season finale, he managed to acquire the Purple and Red Energems as well as capture Keeper, but this resulting the final battle that crashed his ship and costed him his worst monster, Greenzilla. The resulting crash and damages that the heroes caused made him presumably killed, but in reality he survived (albeit wind up separated from the others during the crash) and biding his time for return.

Power Rangers Dino Supercharge

His temporal absence was allowed Heckyl and Snide to temporarily taking over the leadership of his minions. Instead of immediately goes to retake his position, Sledge, whom discovered a batch of Greenzilla's eggs, six in all, decided to spread the eggs all over the planet whilst keep in touch with Heckyl to be in charge on his crew until Lord Arcanon arrived on Earth. Also, due to boredom from his duty on his ship, he briefly relaxing on Earth.

Sledgeback

By the time he returned for his crew and revealed to Lord Arcanon that he fed up from worked for him, Sledge took the dark Energerm for himself and use it to destroy Arcanon and Singe, as well as Conductro and Screech. Finally reunited with his crew, and allied with Snide now, Sledge regained control of his ship with some plans to destroy the Earth. He sends Badussa against the Rangers to gain the time to repair his ship.

In season finale, Sledge causes his own demise: he betrays Snide, in offering the Dark Energem to Poisandra instead of him (as gift of wedding) and wants to send him on a suicidal mission against the Rangers without knowing that Snide has heard all. Later, after his six Greenzillas were destroyed, he refuses to send the Magnabeam to Snide, chocking Wrench, and Snide is destroyed by the Rangers and Heckyl. Then he uses the Greenzilla's eggs to deploy his magnetic nets to send the Earth in a space discharge and take over the Energems. To stop him, the Rangers destroy the Dark Energem, with the help of all humans and Sledge is seemingly killed with his crew when they are sucked into a black hole (or wormhole).

In the final battle in the past, between Sledge's Crew and the Rangers, Sledge fights the Rangers (Shelby, Chase, Riley, Koda and Ivan) with Fury and the Vivixes. Fury gives him the container with the remaining Five Energems, but Tyler who rejoined the fight has replaced the Energems by the Guardian's bomb. Sledge comes out narrowly but Fury is killed by the explosion. Devastated by Fury's death, Sledge, who was a match for Tyler in his T-Rex Super Charge form during the battle, later uses the Magnabeam and beats the Rangers and the Guardian. He is about to crush them when Heckyl capture him with his magnetic nets and Sledge is finally killed with the rest of his crew when Heckyl leads his ship into the Sun.

Power Rangers Super Ninja Steel

Sledge returns in Power Rangers Super Ninja Steel. While his past self was destroyed at the end of Dino Super Charge, his and his crew's present selves survived being sucked into the black hole, ending up in the Ninja Steel universe. Upon finding that there are no energems in the Ninja Steel dimension, they stumble upon the wreckage of Glavanax's Warrior Dome. Upon learning that the Super Ninja Steel asteroid stuck on it is made of a rare metal, Sledge docks his ship with the Warrior Dome and boards with Wrench and two outlaws to retrieve it. He initially plans to sell the Warrior Dome for scrap, but after encountering Madame Odius and Cosmo Royale, Sledge offers to repair the ship for them in return for the Super Ninja Steel Meteor.

Later in "The Poisy Show", Sledge returns with Wrench and Poisandra. He retrieves the Warrior Dome Ship and is happy when Wrench says to him that the Rangers have destroyed Madame Odius, being furious because she had stolen him the Super Ninja Steel. He wins the Warrior Dome Ship, and the Basher Bots survivings then fights the Ninja Steel Rangers as well as Koda (the Dino Charge Ranger Blue). He was destroyed with Wrench, Poisandra, the rest of Galaxy Warriors and the Warrior Dome Ship by a bomb placed by Koda with Santa Claus's help.

---

Qin: Good riddance to bad rubbish.

Rachel S.D.: You said it Qin. Sledge was a monster on steroids. He deserved to be destroyed.

Nico: Sledge has failed the entirety of this universe.

Me: That he has.

Vince: The Dino Charge Rangers have the most rangers out of all the Ranger Teams that we know. There are 10 of them in that group.

Me: I know. That is amazing!

Laney: It was so cool that Zenowing can fly and utilize the powers of the Titano Zord.

Me: I know.

I had the Argentino Energem around my neck as a necklace around my neck.

Me: I wonder why the Argentino Energem was on our Earth and not the Earth that the Dino Charge Rangers Earth.

Lisa: We're gonna find out now. We have arrived at our destination.

Me: On screen.

On the view screen we saw another Earth.

Me: Here we are guys.

We have arrived at the Dino Rangers Earth.

Me: Lets beam down and go meet the rangers.

Lincoln: Lets do it!

We beamed down.

---

On the alternate Earth in the fictitious city of Amber Beach, at the Amber Beach Dinosaur Zoo, which was very identical to our own Jurassic Park, at the awesome Dino Bite Cafe, the Dino Charge Power Rangers were cooking up some good grub for the customers. A huge amount of smoke was coming from the kitchen.

Kendall: Guys, why is there smoke coming from the kitchen?!

Shelby: Why don't you ask Captain Caveman over there and his trusty sidekick, Sir Flirts-a-lot?

Then a blinding blue light came from the kitchen and everyone went in.

They saw us appear.

Me: Sorry to drop in like this.

Shelby: Wow! Team Loud Phoenix Storm!

Riley Griffin: It's such an honor to meet you guys.

Me: Same to you guys.

Koda: (hugs Wes and Gemma) Wes! Gemma! It good to see you again!

Gemma: Same here, Koda! But can we have our ribs back now?

Koda: Sorry. (releases the hug)

Cybertron Scourge: You two already know Koda?

Wes: Yep. Me, Gemma, Trent, Gia, Kat, Tommy, TJ, Antonio, and Rocky teamed up with him and the Ninja Steel team to take down Lord Draven before.

Me: I remember that. That was so awesome!

Lana: Koda it's an honor to meet you!

Koda: You too Lana. You amazing girl.

Kendall: Koda is a caveman that has been around for 100,000 years because of the Stegosaurus Energem.

Everyone: Wow!

Me: I remember that. That is incredible!

Nico: It sure is.

Me: And you guys aren't the only ones.

I showed them the Argentinosaurus Energem.

Sir Ivan: (British Accent) So you have an Energem as well?

Me: Yes I do. It's the Argentinosaurus Energem.

Kendall: How did you get an 11th Energem?

Keeper: (Offscreen) Because I sent it to him.

We saw the Keeper.

Me: Keeper, it's an honor to meet you.

Keeper: You too J.D. News about all of your achievements have spread all over the universe. You are all on a truly noble cause.

Me: We have to do what we can to protect the entire universe from destruction.

Keeper: The Energem of the Argentino Zord was the only one I sent to your dimension to hide from Sledge, J.D.

Rhino: It's a good thing that Koda destroyed Sledge with the Ninja Steel team's help before he found out about the Argentino Zord's location.

Me: Even if he did, he never suspected that it was 45,000 light-years away from here.

Tyler: That's true.

Zenowing: But that is amazing that you now have an Energem now.

Me: Thanks Zenowing. We now have officially met all the Rangers.

Tara: All that's left is to meet the Ninja Steel team and we'll have met all the Pre-Beast Morphers Rangers.

Me: Exactly. As long as we're here, we might as well destroy the Dark Energem.

Keeper: That is a very wise idea.

Lola: How are we gonna do that?

Me: Since the Dark Energem is a powerful Negative Energy source, we can absorb all of its power and convert it into positive energy.

Nico: That's a great idea.

Vince: And we get more powerful from absorbing Negative Energy.

Me: I have a feeling that this is gonna be a big power up.

We got the Dark Energem and it was a black crystal.

Me: Okay guys. Lets hold hands.

We joined hands in a powerful circle

Heckyl: After all the trouble the Dark Energem caused, destroying it is the best thing to do.

Eddy: (points blaster at the Dark Energem) Good to know. (chrages up blaster) When my blaster reaches maximum charge, I'm gonna fire.

Me: Okay. But only when we drain it completely.

Eddy: Okay.

The Keeper put the Dark Energem in my hand and then we started glowing and then we started sucking in all of the Negative Energy from the Dark Energem and the level of power it had was unbelievable! Our auras flared up to such an incredible level of power that the entire universe shook violently with incredible ferocity. Everyone and everything all over the universe sensed the massive rise of our power and it was incredible. Planets all over the universe in multitudes of galaxies all over the cosmos were feeling the massive increase. When it was done, our auras were now ablaze and they looked like colored fire. We each had flame auras that were each different colors around us.

Me: Whoa! What power!

Nico: The Dark Energem's power is incredible!

The Dark Energem was now a clear blank crystal and it was now nothing more than a drained husk.

Laney: Wow!

Lana: It's totally drained. Nothing.

Eddy fired his blaster and shattered the gem. There was nothing left of it.

Nico: The Dark Energem has failed this world.

Me: And this universe.

We merged the alternate Earth with our Earth and the Dino Charge Rangers were now part of our planet. It was so cool!

---

Later we were walking down the street of the city.

Shelby: Gotham Royal York is so amazing!

Nico: It's the biggest and busiest city in the world.

Laney: And we turned it into a city made of plants to raise the oxygen levels and cut carbon dioxide levels.

Riley Griffin: It sure is an awesome city mates.

SMASH! SMASH! SMASH!

Suddenly we heard hundreds of dishes breaking and shattering! It was coming from a restaurant down the street.

Tyler: Is that another one of Sledge's monsters?

Ivan: I hardly think so.

Owner: (ENRAGED SCREAMING & YELLING) YOU STUPID DISHWASHERS! HOW STUPID CAN YOU BE!? GET OUT! GET OUT!

Jackie and Mandee got thrown out.

Nico: Jackie and Mandee.

Leni: They were totes having problems finding a job.

Me: I wonder how long this has been happening.

The Owner then came out and he had a cleaver and was screaming bloody murder!

Owner: YOU MOTHERFUCKING FUCKED UP LAMEBRAIN BITCHES!

Mandee and Jackee ran fast!

Owner: YOU FUCKING CLUMSY BITCHES! YOU DESTROYED MY WHOLE RESTAURANT! I WILL MAKE YOU DEAD MEAT! I'LL KILL YOU!

He chased after them! He was gonna rip them to pieces!

Owner: YOU MOTHERFUCKING CLODS! I'LL CHOP YOU TO FUCKING PIECES AND FUCKING EAT YOU! I'LL KILL YOU! I'LL KILL YOU!

Horsea: We need to stop that chef!

Maria: Anyone have a plan?

Me: The only way I know how.

Jackie and Mandee came to us and I kicked the Owner in the face and fired an energy blast and blew his whole hand off. The owner screamed in pain as his hand was blasted off.

Chase: (Australian Accent) Looks like you just got disarmed!

Nico punched him in the stomach and kneed him in the face and knocked him out.

Leni then jumped onto him and crushed his back and snapped his spine with a sickening crunch!

CRRRRUUUUUUUUNNNCCCCCCCHHHH!

Laney wrapped him in a strait jacket and he was arrested for aggravated assault & battery and attempted murder.

Nico: You are a fucked up restaurant owner. You make terrible food.

Lola: Here's what you get for hurting Leni's friends!

Lola and Lana bit the chef in the ankle and he screamed in so much pain that it unbelievable! Lola and Lana bit off his whole foot!

Shelby: He lost an arm and a leg.

Laney: It's what he gets for having a rotten temper.

Me: This is what you get for hurting our friends you douchebag.

I slapped him in the face, poked his eyes, punched him in the face and punched him in the stomach and smashed his head with a mallet.

Tyler: So, who wants to keep his arm?

Me: You're sick Tyler. (To the chef) Next time you hurt our friends, I'll poison you with Strychnine Ω and kill you. Now lay in your cell and die.

Owner: I'LL KILL YOU ALL!

I took out my gun and blew his other leg off!

BANG!

He screamed in even more pain.

Me: You are a freak.

Owner: I WILL KILL YOU!

Me: Go fuck yourself dipshit.

We went back to the estate.

---

Jackie and Mandee were crying hard and Leni and Maria were comforting them.

Me: This is the 26th job they lost this month.

Lincoln: That's got to be an all time record.

Laney: Yeah, we haven't had something like this happen since the Great Depression.

Nico: No kidding. But what that chef did was the worst.

Jackie: (Crying) We are too accident prone to work!

Mandee: (Crying) Every time we find work, we destroy everything!

Me: I'm sorry girls.

Varie: But no one should ever lose their temper like that.

Rachel S.D.: Yeah. He was a freak.

May: And he is a monster that can't control his rage.

Me: Yep. But he got what was coming to him.

Then the alarm went off.

Me: Uh oh!

We went to the computer and we saw that a corrupted gem was running amuck at the beach.

Me: We got a Corrupted Gem loose. Lets head out guys!

We were off to the beach.

* * *

We arrived at the beach and it was deserted.

Me: It's quiet.

Laney: Too quiet.

But then a giant monster made of pure water arose out of the water and it was a giant blue tardigrade!

Me: Wow! That's a giant Tardigrade!

Luna: Wow! What is a tardigrade?

Me: The oldest living lifeforms on the planet. Tardigrades are also known as the Water Bears and they have been around for 530 million years. Ever since the Cambrian Period.

Syd: Wow! That is so cool!

Lisa: Indeed it is. But Tardigrades are usually about 0.02 inches in size.

Lincoln: So you can only see them with a microscope.

Lisa: Affirmative elder brother.

Me: That's right. You can't see them with the naked eye. But these are the first ever creatures that have existed since this planet was in its infancy.

Lily: Wow! That is amazing!

Nico: Wait, look at its head.

We saw a purple gem imbedded in the middle of its head.

Me: That giant Tardigrade is a corrupted gem!

Mary Knudson: This looks like a job for the Crystal Brigade!

Thanks man. Let me know what you all think. Get ready for another awesome Scooby Doo chapter. We're going to go to the Ghoul School and kill Revolta and make her pay for her crimes.

See you then.

# Return of Revolta

In the simulator training room at the Jedi Temple, everyone was watching me, Nico, Orion and Lincoln ready to face foes that the Jedi know.

Jayden Shiba: Good luck in there, Orion.

Orion: Thank you Jayden.

Me: May the Force be with us.

Lincoln: It always is with us.

Mace Windu: Are we ready?

Me: We are Master Windu.

The Training Room activated and out came Count Dooku A.K.A. Darth Tyranus!

---

Dooku was born on the planet Serenno to the planet's ruler, Count Gora, and his wife, Countess Anya. Rapidly, the child's Force-sensitivity manifested, scaring his father who hated and feared those he dismissed as "freaks." Gora contacted the Jedi Order on Coruscant and told them to come and claim his son. However, instead of waiting for the seekers to arrive, Gora abandoned the infant outside his palace on the edges of the forest without clothes or any form of identification. Before spine-wolves could eat him or he could freeze to death because of his lack of clothes, a seeker found Dooku and brought him to the Jedi Temple on Coruscant.

Dooku was integrated into Hawkbat Clan alongside fellow younglings Zang Arraira, Arath Tarrex and Sifo-Dyas, under the direction of the Jedi Master Tera Sinube. During his time as a youngling, he continuously strove to excel, working himself hard to achieve better results than his peers and always striving to remain within the boundaries of the rules set by his teachers. Dooku therefore distanced himself from the other younglings rather than try to befriend them. His talents made him clash with fellow youngling Arath, largely due to the latter's jealousy over Dooku's superior abilities. Arath frequently insulted Dooku, calling 'His Excellency' due to his imperious and somewhat aristocratic manner. Dooku and Sifo-Dyas were close friends during their time as younglings, and on one occasion accompanied Grand Master Yoda and Masters Sinube and Yula Braylon to Serenno for the galactic festival being held there with other Jedi in tow.

During the course of the event, Dooku ran off from the group after he saw a girl that he believed he recognized (who turned out to be his sister Jenza), with Sifo-Dyas finding the pair later and finding the pair buried under the rubble of the Great Assembly after a groundquake caused it to collapse. The Jedi Masters helped in lifting the debris off them, freeing the the two. Dooku's father, Gora, furiously confronted Yoda when he heard his son's name being voiced, yelling at the Jedi that he never wished to see his son again.

Shocked and confused by his father's behavior, Dooku later questioned Yoda about how he was brought into the Jedi Order. Yoda revealed that Gora had contacted the Jedi upon discovering his son's Force-sensitivity, and that he had left Dooku outside his castle walls without clothes or identification. Dooku would learn shortly after that being left on the edge of the forest put him at risk of being eaten alive by spine-wolves had he not been found. Both Dooku and Jenza would secretly communicate with each other following this encounter, after she sent him a communicator. Both Dooku and Sifo-Dyas also secretly visited the Jedi Archives to look at the dark side artifacts that formed part of the Bogan Collection after the latter discovered the journal of the expelled Jedi Klias Teradine. Dooku helped Sifo-Dyas break into the vault and used sand levitation to get past the magnetic lock so as to view the artifacts contained within it.

## The Grand Master's apprentice

Dooku later completed his Initiate Trials and hoped to be selected as the Padawan apprentice to Lene Kostana due to her mission in hunting down relics associated with the dark side. During the

Padawan Tournament, Dooku fought and defeated Sifo-Dyas in a duel with one hand behind his back and blindfolded. However, Kostana selected Sifo-Dyas as her apprentice which upset Dooku, though this upset subsided when he learnt that Yoda had decided to take him as his apprentice. On one occasion, Yoda took Dooku on a voyage to Lahsbane in the Mid Rim as part of his training.

Some time during 85 BBY, Dooku's friend Sifo-Dyas received a Force vision of a deadly solar storm hitting the planet Protobranch. After informing the Jedi Council, Dooku supported Sifo-Dyas and Kostana's suggestion that they warn the planet, but was forbidden to by Yoda and the Council, who pointed out that Force visions were not absolute and the future was always in motion. Frustrated with the Council, Dooku, Kostana and Sifyo-Dyas went behind the Council's back to inform Tavetti, the senator who represented Protobranch, of the vision. During the conversation, Dooku was slightly unnerved by Tavetti only expressing concern for Protobranch's resources rather than its people. Afterwards, Dooku, Kostana, Sifo-Dyas and a reluctant Yoda went to the planet itself. Ultimately, Sifo-Dyas's vision came to pass; a powerful solar storm hit Protobranch, killing much of the population, with the Jedi themselves barely surviving. The events with Protobranch shook Dooku's respect for the Republic and the Jedi Council, feeling the latter was somewhat responsible for the deaths that occurred by not taking Sifo-Dyas's vision seriously and refusing to act quicker. He was also disgusted by the fact that the Republic's primary concern was the loss of Protobranch's resources and not its inhabitants.

Around 84 BBY, Dooku attended the funeral of his mother, Anya, on Serenno. It was here that his father Gora physically and verbally assaulted him, referring to his son as a "freak." Shortly afterwards, Dooku joined Sifo-Dyas and his master Kostana on a mission to track down a relic on Hakotei. However, the pair were ambushed by a dark side sect and Dooku was briefly captured to be used as part of a dark side ritual. It was during his brief captivity that he experienced a series of visions of his future, and he used Force lightning for the first time in order to kill his captors. At some stage during his training, Master Kostana - who Dooku saw as a mentor - used the fictional Darth Sakia as a lesson in order to test the Padawan and informed Dooku that the fictional Sith used a curved-hilt lightsaber, prompting Dooku's interest in it.

During a mission to Kashyyyk, Dooku watched as his master faced a giant Terentatek. He eventually attained the rank of Jedi Knight and later Master, and would take Rael Averross and Qui-Gon Jinn as his apprentices. He also rendered help to Mother Talzin of the Nightsisters, giving her a lock of his hair. Qui-Gon Jinn became a Jedi Knight and later became a Jedi Master himself. Jinn had at least some contact with his old Master and after taking Obi-Wan Kenobi as his apprentice, spoke highly of his Padawan to Dooku, although Dooku never met the young Kenobi as a Jedi. Dooku had also set aside his first blade and created his own curved-hilt lightsaber, which produced a blue blade. Dooku used his lightsaber when he Yoda demonstrated their lightsaber skills to a group of younglings, among them Jak'zin. Averross also introduced Dooku to the Naboo senator Sheev Palpatine on Coruscant after Dooku delivered an address to the Galactic Senate.

## Leaving the Jedi to the Separatist Crisis

Even before the death of his former apprentice on Naboo, Dooku had become disillusioned with the Jedi Order, the Republic, and the Galactic Senate's corruption. At some point before the death of Qui-Gon, Dooku resigned his commission as a Jedi Master, becoming one of the Lost Twenty. He returned to his ancestral home and reclaimed his family title of Count of Serenno by overthrowing his brother who was the current count at the time. With his reclaimed title, he also took possession of his family fortune, one of the largest in the galaxy. Despite his newfound wealth and power however, Dooku all but disappeared from public life after his resignation. Most believed that he had gone into a sort of self imposed exile with the intention of founding an offshoot of the Jedi Order. However, at some point during this period Dooku was approached by Darth Sidious. The Dark Lord offered Dooku the opportunity to become his apprentice and with that offer, the chance to destroy the Jedi Order and reshape the Republic. Desiring both power and the elimination of the corruption that plagued the Republic, Dooku agreed and was given the name Darth Tyranus.

For nearly a decade after accepting Sidious's offer, Dooku helped his new master to implement much of the groundwork necessary to begin the Clone Wars. The most important project that he oversaw during that time was the creation of a clone army intended for use by the Republic during the planned war. Hoping to give the project a strong layer of legitimacy and to hide his own involvement, he suggested to Jedi Master Sifo-Dyas the idea of creating the army for the Republic, which could be held in reserve in case of civil war. Sifo-Dyas, who was greatly troubled by the Republic's tumultuous political situation and the Jedi Council's apparent complacency, agreed to order the army from the Kaminoans. After this was done, Dooku needed to make certain that Sifo-Dyas would remain silent about the army so as not to alert the Jedi Council. As such, he contacted Lom Pyke of the Pyke Syndicate and instructed him to murder Sifo-Dyas by way of shooting down his shuttle during a mission, after which Dooku was given Sifo-Dyas's body. However, unbeknownst to Dooku, the Pykes captured Valorum's aide, Silman, and imprisoned him as insurance against possible betrayal by Dooku.

Dooku, at the behest of Sidious, went to Sullust to discuss an alliance between the SoroSuub Corporation and himself. In truth, Dooku was to seek out the Kaldana Syndicate. After a tour of one of Sullust's cities, Dooku met newly knighted Jedi Jak'zin and invited to dinner with him and Represenatative Kap Klyp. Dooku informed Sidious of this complication and told him find out why Jak'zin was there. At dinner, Dooku denied rumors that he creating another order of force users and assured Jak'zin that he was looking after his family's business interest on Serenno. Following dinner, Dooku followed Jak'zin and learned about mission into learning about the Kaldana Syndicate. Dooku agreed to help Jak'zin on his mission. The two made their way into the syndicate's base. There, Dooku and Jak'zin discovered that the syndicate was smuggling weapons and were surrounded by the syndicate's gang. Dooku and Jak'zin fought the gangsters. After defeating the gangsters, Dooku killed Jak'zin and then spoke with the surviving gangsters. After making a deal with the syndicate, Dooku left Sullust.

Darth Tyranus meets with Jango Fett

On one of the moons of Bogden, Dooku recruited the bounty hunter Jango Fett as the template for the Clone Army. Along with a considerable salary, Dooku agreed to pay Fett with an unaltered clone for himself. In order to ensure the elimination of the Jedi when the time was right, Dooku and Sidious had the clones outfitted with bio-chips in their brains which could be used to trigger a protocol that would cause the clones to murder their Jedi superiors. During this time, Count Dooku recruited fallen Dathomirian Jedi Asajj Ventress to act as his assassin and his Sith apprentice.

Dooku with the Separatist leaders.

Several years after his resignation from the Jedi Order and the death of his former apprentice, Qui-Gon Jinn, Dooku reentered the public eye in a spectacular fashion, commandeering a Republic Holonet station in the Raxus system and delivering a rousing speech in which he thoroughly lambasted the corruption and shortcomings of the Republic. In a galaxy in which many Outer and Mid Rim systems were chafing under the ineffectual and corrupt bureaucracy of the Republic, Dooku's speech set the stage for the Separatist movement. He began meddling in the affairs of many planets, supporting anti-Republic coups on worlds such as Ryloth and interfering in the political processes of Kashyyyk and Onderon, among others. He also began to publicly rally systems and corporations to his cause to become the Confederacy of Independent Systems, and publicly spurned every opportunity to negotiate with Palpatine. During the time leading up to the Clone Wars, Dooku also met several times the governor of Eriadu, Wilhuff Tarkin, in an attempt to convince him to join the Separatist movement. He alluded to the governor that war was inevitable, and that he desired the support of the powerful Outer Rim world for his cause. In truth however, these meetings had been orchestrated by Palpatine to test Tarkin's loyalties, and Tarkin remained firm in this commitment to the Republic. Dooku also promised Trade Federation Viceroy Gunray that he would assassinate Senator Amidala, whom Gunray despised, if he signed Dooku's treaty. Gunray accepted the offer; Dooku thus dispatched Jango Fett to carry out Amidala's assassination. Despite the failure of Fett's mission, Dooku was able to have the Trade Federation, the Banking Clan, the Techno Union, the Commerce Guild and the Corporate Alliance all sign his treaty on Geonosis, formalizing the Confederacy of Independent Systems. Dooku assured them that the Jedi and the Republic would be overwhelmed by their combined forces.

## Battle of Geonosis

The Separatists' assassination attempts on Amidala prompted an investigation by Jedi Knight Obi-Wan Kenobi, who tracked Fett to Geonosis. There, Dooku was meeting with leaders of the commerce guilds, and listened as they pledged their assets to his Confederacy. Kenobi overheard their discussions, but was captured by droidekas while transmitting his findings back to the Republic. Dooku visited Kenobi in his prison cell, feigning shock at the Jedi's capture and enquiring as to his presence on Geonosis. Denying involvement with the bounty hunters, Dooku instead spoke of his former apprentice, Qui-Gon, suggesting that Jinn would have joined Dooku's movement had he learned the truth that the Sith were in control of the Senate. Though Obi-Wan refused to believe Dooku's words, the Count attempted to recruit him in apparent opposition to Darth Sidious, and left Kenobi to his fate when he rejected the offer.

Dooku oversaw the attempted execution of Amidala, Kenobi, and Skywalker in the Petranaki arena, but proceedings were forestalled when Master Windu and his Jedi assault team arrived to rescue the condemned trio. Windu was soon outnumbered by battle droids, and Dooku watched as the Jedi were surrounded on the arena floor. He offered to spare their lives if they surrendered, but Windu refused. In a regretful tone, Dooku gave the order to terminate them, but the survivors were spared by Yoda's arrival with the clone army from Kamino. War broke out across Geonosis.

Dooku oversaw the battle, assuring his allies that his Master would not let the Republic get away with the invasion, but eventually chose to retreat. Before leaving, Dooku was given the designs to the ultimate weapon by Archduke Poggle the Lesser, assuring him that the designs would be safe with his Master. Escaping on his speeder with an escort of two Geonosian fighters, Dooku made for his secret hangar but was pursued by Kenobi and Skywalker's gunship.

## Dooku vs yoda

After defeating Obi-Wan Kenobi and Anakin Skywalker, Dooku duels his former master, Yoda.

As Dooku prepared to leave, he was confronted by Kenobi and Skywalker. He subdued Skywalker with Force lightning and fought Kenobi, eventually overpowering and wounding him in the shoulder and leg. As Dooku prepared to make his killing move, Skywalker leapt into the battle. The two fought until Dooku cut off Skywalker's right arm, but Yoda again arrived to save his allies. Dooku engaged in a Force duel with his old master and, unable to best him, challenged Yoda to a lightsaber battle. The fighting was fierce but brief, and cut short when Dooku brought down a pillar over Kenobi and Skywalker, forcing Yoda to break off to save them. Dooku fled in his solar sailer as his forces retreated into space.

Dooku rendezvoused with Sidious, who was very impressed, in The Works on Coruscant, informing him that the war had begun as planned. Dooku and his Master recruited the cyborg General Grievous to lead the droid army. Grievous was trained by Dooku in the Jedi arts, using lightsabers taken from his Jedi kills. Later, Dooku commanded his droid army to seize control of the major hyperspace lanes following Geonosis, separating the Republic from the majority of its army.

## Dealings with the Hutts

Dooku made a deal with Ziro, uncle of Jabba the Hutt, to have Jabba's son, Rotta, kidnapped and the act blamed on the Jedi. Dooku sent Ventress in her Trident-class assault ship, the Trident, to Tatooine to carry out the kidnapping. She took Rotta to the abandoned monastery on Teth with two battalions of battle droids, where she was contacted by Dooku and then by Lord Sidious, who assured them that the Jedi would be provoked into war with Hutts as well as the Separatists. Dooku ventured to Tatooine and spoke with Jabba, claiming that the Jedi were behind his son's kidnapping, and had Ventress and her spy droid, 4-A7, provide "evidence" that Skywalker and his apprentice were responsible. Though he assured the Hutt his droid army was mounting a rescue, Dooku was informed by Ventress that Skywalker had eluded her and was escaping with Rotta.

After her defeat, Dooku had Ventress lie that Skywalker had killed the Huttlet. Jabba, believing Dooku, allowed him to send battle droids to deal with Skywalker personally. After his MagnaGuards shot Skywalker down, Dooku went into the Dune Sea. He contacted Ziro, informing him that Jabba believed his story, and assured him that he would be master of the Hutt Clans. Dooku also had Ziro take Senator Amidala prisoner when she learned of Ziro's deal. Dooku confronted Skywalker, dueling across the dunes, until Dooku realize the Huttlet was with Skywalker's apprentice, Ahsoka Tano. However, he anticipated this and had MagnaGuards wait for her, taunting Skywalker with a hologram of Tano's desperate fight. Skywalker fled in pursuit, taking Dooku's speeder, but the Dark Lord simply laughed. However, after Jabba learned the truth of his uncle's deal, Dooku left Tatooine and informed Lord Sidious of his failure. Sidious told him to allow the Jedi their victory, knowing that the engines had turned in their favor.

## Negotiations with the Toydarians

At the start of the Separatist occupation of Ryloth, Dooku was informed by TX-20 that the Jedi were sending Senator Bail Organa of Alderaan to Toydaria to establish supply lines to the Republic garrison and the Twi'lek people. Dooku contacted Senator Lott Dod of the Trade Federation to prevent the Republic from doing so.

Dooku learned that King Katuunko was considering joining the Republic and was going to speak with his former master Yoda on the neutral moon, Rugosa. He sent his apprentice, Ventress, to convince him to join the Separatists. Ventress was able to make a deal with Katuunko and Yoda; If Yoda and his three troopers defeated her droid battalion, the Toydarians would be allowed to join the Republic, but if her droids captured Yoda, Katuunko would join the Separatists. Dooku approved of her deal, believing that Yoda made a mistake in venturing far from Coruscant. However, Yoda was able to defeat her droids, and Katuunko told Dooku that he would be joining the Republic upon seeing Ventress's treachery. Dooku urged him to reconsider, but to no avail, and ordered Ventress to kill the king. However, Yoda prevented the murder, and Dooku watched as Ventress made her escape, telling Yoda that his old master was fortunate he was not there in person.

## The Malevolence

Dooku joined General Grievous aboard the heavy cruiser

Malevolence in the Abregado system. When a fleet of Republic cruisers entered the system, Dooku ordered Grievous to jam their communications and to use the cruiser's secret weapon, the ion cannon, to disable and destroy the fleet. Dooku sent out hunters to make sure there were no survivors, though he later learned that a group of survivors had destroyed the pod hunters. As Dooku, Grievous, and the Malevolence searched for the survivors, Skywalker arrived and found them first. Dooku ordered Grievous to destroy the rescue ship, but the effort failed.

After Grievous attacked a medical convoy near the Ryndellia system, Dooku gave the droid general his next target: the Republic's Outer Rim Medical Center. En route to the target, Dooku informed Grievous that the Republic had launched a strike team under Skywalker to attack the Malevolence, and warned him not to underestimate Skywalker. After the Malevolence's hyperdrive was disabled, Dooku arranged for Senator Amidala to be captured while en route to negotiations with the Banking Clan, but the ploy failed and the Malevolence was destroyed. Dooku attempted to contact Grievous for an update, but the general angrily cut communications while fleeing the scene of destruction.

## Gunray's rescue

With Viceroy Gunray captured by the Republic, Sidious informed his apprentice of the dangers of allowing him to be interrogated by the Jedi. Though Dooku planned to send Ventress to either free or silence Gunray, Sidious questioned the dark-sider's competence after previous failures. Dooku gave Ventress her mission, but warned her that she would have to prove herself worthy of being his apprentice. He bribed Senate commando Argyus into helping Ventress free Gunray, and the mission was ultimately a success.

## Testing Grievous

After Gunray's escape, Dooku, frustrated with the ongoing stalemate, arranged a test for General Grievous. He laid a trap for Jedi Master Kit Fisto, his former apprentice Nahdar Vebb, and their clone troopers at Grievous's fortress in the Vassek system. He deactivated Grievous's MagnaGuards and offered an "alternative prize" to Fisto during his pursuit of Gunray. After Grievous's first confrontation with the Jedi and the death of his pet roggwart, Gor, Dooku contacted him telling him that he arranged for this test. Grievous then cut communications with Dooku to finish off the Jedi. Grievous later informed him of Fisto's escape, and the Count suggested there was room for improvement.

## Dooku's capture

Dooku captured Skywalker and took him aboard his command ship. Skywalker was rescued by Kenobi and the two of them confronted Dooku. Dooku made his escape to his solar sailer as the Republic forces arrived. Dooku was soon thereafter shot down by Skywalker and Kenobi, and crash landed on Vanqor where he hid in a cave. He next caused a cave-in, forcing Skywalker to lose his lightsaber which Dooku took, and then sealed the cave off. Dooku found Weequay pirates at his solar sailer. Thereafter, Dooku approached the pirate's captain, Hondo Ohnaka, who offered him passage to Florrum for a price. Dooku agreed to pay him while secretly planning to kill all the pirates upon their arrival on Florrum. However before he could, Dooku's lightsabers were stolen from him by Hondo's monkey-lizard Pilf Mukmuk. Dooku warned them that they were not dealing with a Jedi, but a Sith Lord. However, he was outnumbered and ransomed off to the Republic by the pirates. Kenobi and Skywalker checked to ensure the pirates had actually captured him. Dooku warned the Jedi that the pirates were devious and that they would not allow them leave.

Dooku was proven correct when he, Kenobi, and Skywalker were tied together. Thus, Dooku was forced to work with the Jedi to escape before the Republic arrived. During their 2nd escape attempt, Dooku was saved by Kenobi before they were captured by Hondo and his men. However, after Republic representative Binks and his escort disabled the power, Dooku made his escape by choking a guard. He then killed Turk Falso and forced him to kill another Weequay with his own gun. At that point, he stole their shuttle and made his escape.

## The Defoliator test

Dooku observed General Lok Durd's test of their new weapon, the Defoliator Deployment Tank on Maridun. After the initial success of the weapon's effects on the battle droids, Dooku asked to him to test the weapon on living targets. Durd assured him that he would test it on the Lurmen colonists.

## Occupation of Ryloth

During the initial start of the Republic's return to Ryloth, Dooku assured Tambor that the Republic forces were spread thin in its sector and that it would be suicide for the Republic. After the Republic landed and were moving on the capital of Lessu, Dooku was informed by TA-175 of Tambor's pitiful job in protecting the Separatist's investment on Ryloth. Though Tambor claimed that the tactical droid was exaggerating, Dooku warned him that he was no match for Windu. Dooku then ordered Tambor to evacuate with what valuables he had and to destroy what was left. Dooku told Tambor that the charred ruins of Ryloth would demonstrate to the galaxy the cost of a Republic "victory". Dooku then contacted Tambor again, shocked that he had not left yet. Dooku then ordered him out before Windu and the Republic arrive. He then gave TA-175 orders to bomb the capital after they leave. After the Republic arrived and captured Tambor, Dooku ordered TA-175 to bomb the capital.

Dooku then offered his assistance to Pantoran Chairman Papanoida when his daughters were kidnapped.

## Dealing with the Death Watch

Dooku secretly supported the Death Watch movement on Mandalore. Dooku spoke with its leader, Governor Pre Vizsla of Concordia, about the Jedi Council's investigation on Mandalore. Dooku assured him that if the Republic sends an occupation force to Mandalore, the people would rebel and join the Death Watch. Dooku had Vizsla send one of his assassins to Coruscant to eliminate Duchess Satine Kryze from interfering with their plans. Unfortunately, the Duchess stopped their plans. Dooku warned Vizsla that without his forces, Death Watch would only hold the planet for a day. Dooku assured him that he had other ways of accomplishing their goals.

Following these events, Dooku betrayed the Death Watch. Vizsla was left with a lightsaber scar on his face as a "parting gift" from

Dooku but managed to escape, vowing vengeance on the Sith Lord.

## Continuing the war

Dooku endorsed a peace initiative being offered by the Separatist Senate. However, Dooku had General Grievous carry out a mission to ensure that Lord Sidious's plans continue unhindered. Dooku assured Republic senators Lott Dod, Gume Saam, and Nix Card that they would ensure that the banks would be deregulated and they would receive their profits.

Dooku then attempted to coerce Pantora, a moon of Orto Plutonia to join the Separatists by sending the Trade Federation to blockade the planet.

After the attack, Dooku sent a message saying that the Republic had killed the very sponsor of the peace initiative, Mina Bonteri. In truth, Dooku had sent his agents to kill Bonteri. Dooku then sent bounty hunters Robonino and Chata Hyoki to intimidate Senators from voting against the military enhancement bill. Dooku then sent them to eliminate Senator Amidala.

## Ventress' "demise"

Tyranus was then contacted by Lord Sidious about his assassin, Ventress, and how she was becoming powerful. Sidious believed that Dooku was training his own apprentice and was planning to replace him. Dooku assured Sidious that his loyalty was to him alone. To prove his loyalty, the Count was ordered to eliminate Ventress. Dooku tried to convince Sidious not to do this, but he complied. Dooku then contacted Ventress at Sullust, informing her that he recalled her reinforcements. Ventress implored Dooku to help destroy the Jedi, but he told her that she was no longer his apprentice and that she would soon die. Dooku then contacted the tactical droid, TJ-912, aboard its Destroyer and ordered it to destroy Ventress aboard the flagship. TJ-912 carried out Dooku's orders and informed him that she was dead. Dooku ordered TJ-912 to withdraw. Dooku then informed Lord Sidious that Ventress had been destroyed, proving his loyalty to his master.

Dooku then came under attack by Ventress and her fellow nightsisters posing as Jedi at his palace on Serenno. Though his senses were dulled by their poison, Dooku was able to fight them off with his Sith lightning. The attempt on his life failed but Dooku never found out the identity of his attackers. Dooku was then contacted by Mother Talzin, who was aware of the loss of his prized assassin, who was of one of her Nightsisters. She then offered Dooku one male from her planet to replace her. Dooku took her up on her offer.

## Dealings with the Nightsisters

Dooku then traveled to Dathomir to speak with Talzin. Dooku proposed an alliance between his Separatists and her Nightsisters. Talzin refused his generous offer. Talzin then asked Dooku if knew the Sith warrior, Darth Maul. Dooku remembered that he was killed 10 years ago on Naboo by Kenobi. Talzin then offered one of her Nightbrothers from Maul's village, as his new assassin. Dooku, with the "loss" of Ventress and the Jedi attacks, agreed to her offer and left.

## Training the brother of Darth Maul

Dooku was then given the Nightbrother, Savage Opress, by Talzin on Serenno. Dooku was impressed by the Opress's sight and how Talzin described him as the fiercest of his kind, assuring him that Opress would serve Dooku well. Dooku then sent Opress on a mission to secure the outpost on Devaron from the Republic. Dooku was then informed by Opress of his mission's success and returned to him on Serenno. Dooku then told Savage how they would do great things, be more powerful than Lord Sidious and Darth Maul, and rule the galaxy together.

Dooku then trained Savage in lightsaber combat and his dark side powers. Dooku was a harsh taskmaster who tortured Opress with his Sith lightning. After Dooku's first training session with Opress, he sent him on a mission to Toydaria. Dooku told him to bring King Katuunko to him alive. However, Opress failed Dooku when he killed Katuunko and brought him aboard his flagship. Dooku then punished him with his Sith lightning. Ventress then revealed herself to be alive and Opress's true master. The two of them then fought Dooku but were unable to defeat him. Opress then force-choked Dooku and Ventress and then tried to kill them both. Dooku and

Ventress made their escape, then Dooku was then confronted by Ventress, but was able to defeat her. Just as he was about to kill her, Dooku was blinded and Ventress made her escape. Dooku then ordered his battle droids to kill Opress, but they failed to stop him from escaping.

## The Citadel

Dooku contacted the Citadel's warden, Commander Osi Sobeck about Jedi Council Member Even Piell's information on the Nexus Route. Dooku then reprimanded Sobeck, but gives him another chance to get the information from his escaping prisoners.

## Battle of Mon Cala

During the Battle of Mon Cala, Count Dooku supported the Quarren in their civil war against the Mon Calamari. The Mon Calamari King Yos Kolina had died but the Quarren led by Chieftain Nossor Ri contested his son Prince Lee-Char's claim to the throne. Dooku dispatched Commander Riff Tamson as a Separatist observer to the Quarren on Mon Cala. Dooku was assured that Chieftain Nossor Ri and his Quarren were with them. In return for supporting the Separatist cause, Dooku promised Tamson that Mon Cala would be his to rule. Under Dooku's orders, Mon Calamari captives from Mon Cala city were enslaved.

After the Mon Calamari and Republic received Gungan reinforcements from Naboo, Dooku sent Tamson reinforcements, but ordered him to keep them in reserve. Dooku also ordered him to continue to hunt down Prince Lee-Char and reminded Nossor Ri that the Quarren had to support the war effort if they wanted Separatist support. Tamson also received Karkarodon enforcers from his homeworld of Karkaris to secure the Separatists hold on the planet. Despite Dooku's best efforts, his plans to conquer Mon Cala collapsed after the Quarren switched sides after learning that Tamson planned to crown himself as the new ruler of Mon Cala. Together, the Quarren, Mon Calamari, Republic, Jedi, and Gungans managed to drive the Separatist from Mon Cala.

## Dealings on Naboo

Dooku then formed an alliance with Gungan priest, Rish Loo to provoke war between the Naboo and the Gungans. Dooku promised Rish Loo that he would most influential in his new order. However, Rish Loo's plans were exposed by Jedi Knight Anakin Skywalker, Senator Amidala, and Representative Binks freed Boss Lyonie from his mind-control. Dooku informed his master of General Grievous's capture by the Gungans. Dooku agreed to capture Skywalker in order to trade him for Grievous. Dooku had Rish Loo lure Skywalker to his lab. Once there, Dooku killed Rish Loo for his foolishness. Dooku and his MagnaGuards fought Skywalker, eventually subduing him. Dooku then contacted Amidala, offering to exchange Skywalker for General Grievous. At first, Amidala refused, but agreed to it when Dooku's MagnaGuards started to torture Skywalker.

## Dealing with slaver

Dooku then accompanied Zygerrian slaver, Commander Darts D'Nar, and his forces as they moved into "occupy" the Togruta colony of Kiros. Dooku then convinced the governor, Roshti, to be taken to a "safe haven". Dooku and Zygerrian Prime Minister Atai Molec then contacted him as he negotiated with General Kenobi. Dooku then ordered D'Nar to bring Kenobi to him on his knees. Dooku and half of Scintel's kingdom then demanded the Zygerrian Queen, Miraj Scintel, kill Anakin Skywalker.

When she refused, Dooku was asked to come to Zygerria by Prime Minister Molec. Lord Sidious sent Lord Tyranus to ensure that the Queen would carry out Skywalker's execution. Dooku then spoke with the Queen and the Prime Minister about Skywalker and his friends' situation. Dooku was intrigued by her plan to enslave the Jedi, but Dooku's plan was to eradicate the Jedi. He also warned her that her power over Skywalker was an illusion, since he was once a Jedi. When the queen refused to allow Dooku to execute Skywalker, Molec saw her as unworthy of being queen, in which Dooku then force-choked Scintel as Skywalker arrived. Dooku then fought Skywalker and ordered the Royal guard to kill Skywalker for the Queen's murder before he escaped. Dooku then contacted Keeper Agruss and ordered him to execute Kenobi and Captain Rex.

Dooku later appeared through a hologram to Lux Bonteri in which he denied killing Mina Bonteri and ordered him killed for treason.

## Kidnapping plot

Dooku then hired bounty hunter Moralo Eval to carry out a kidnapping of Palpatine. Following Eval's escape with help from fellow bounty hunters Cad Bane and Rako Hardeen (Kenobi in disguise), Dooku brought other bounty hunters to participate in this mission for him. He tested them by putting them inside the box. Dooku became impressed with Hardeen's performance, especially how he was able to kill Kenobi. Dooku then had Eval fight Hardeen till he lost. He then appointed Bane as leader of this team to carry out Palpatine's kidnapping.

On Naboo, Dooku listened to Bane's plans. However, he implanted a listening device in Hardeen's rifle case, revealing that he knew that Hardeen was Kenobi all along. The bounty hunter's mission was merely a diversion to distract the Republic troops, while Dooku carried out the kidnapping. However, his plan was foiled by Kenobi and Skywalker who managed to stop his plot before he escaped.

## Extermination of the Nightsisters

Remembering their treachery with Savage Opress, Dooku, at the behest of Lord Sidious, dispatched General Grievous to wipe out Mother Talzin, Ventress, and the Nightsisters on Dathomir. However, Dooku was tortured by Talzin through her magick, demanding he call off Grievous and his army. Dooku contacted Grievous, ordering him to find Talzin before she killed him. Dooku was saved when Grievous apparently "killed" Talzin in a secret chamber of the Nightsister village.

Following the Nightsister massacre, Dooku spoke with Grievous about Savage Opress. He feared that with Talzin gone, Savage would be a danger to him and his master, as he was becoming more powerful. Dooku also sensed something else coming.

## Onderon rebellion

Dooku then supported Sanjay Rash as he usurped the throne of Onderon from Ramsis Dendup. Following Rash's reports of the rebels, Dooku dispatched Super tactical droid general, Kalani to take command of the Separatist forces. Following the rebels victory over the droid gunships, Dooku ordered Kalani to withdraw what remained of the occupation force to Agamar, much to Rash's disapproval, which ended with his death.

## Retribution on Florrum

Still having a score to settle with Hondo Ohnaka for holding him captive in the past, Dooku dispatched General Grievous to Florrum to seize and dismantle all of Ohnaka's possessions. He then had Grievous take Ohnaka away to a prison cell. Ohnaka survived the assault but much of his base was left in ruins.

## Alliance with Ravna

Dooku traveled to the planet Bray. There, he met the Dark Lord Ravna at the Citadel of Light and formed an agreement between himself and Ravna. Dooku hoped to use Ravna's ability to infect any living being into unknown violent species to transform millions of clones and swiftly end the Clone War. When Jedi Masters Kenobi and Gallia arrived at the Citadel alongside the 212th Attack Battalion, Dooku introduced the Jedi to Ravna and subdued Gallia with his Force lightning.

However, Dooku was ultimately betrayed by Ravna who sought to infect all beings in the galaxy and proceeded to transform Dooku. After destroying his super battle droid, Dooku stood by as Ravna's followers attempted to infect Kenobi and Gallia. However, Dooku gave into his anger when Kenobi insulted him and called him pathetic, causing Dooku to strike at Ravna with force lightning. In the chaos of the fight, Dooku told Kenobi and Gallia to destroy Ravna and his followers, a resolution the Jedi saw to by using the Force to collapse the Citadel while Ravna was still inside, thereby burying the creature while Dooku escaped.

## Order 66 revelation

Dooku was later contacted by Admiral Trench. Though Trench's line held on Ringo Vinda, he informed Dooku how one of the clones had murdered his Jedi general in a trance-like state. Dooku informed his master that Order 66 might be revealed. Thus Sidious ordered Dooku to kidnap the clone and examine him.

Following Trench's failed kidnapping, Dooku, going by Tyranus, contacted Kaminoan Prime Minister Lama Su about the trooper. Dooku then asked for the inhibitor chip. However, the inhibitor chip was then stolen by the renegade trooper. Tyranus made it clear that only he and Sifo-Dyas knew about the chip's true purpose and that the Jedi must not learn this. Following the death of the renegade trooper, Dooku was then given both chips by his master and was ordered to destroy them.

## Recruiting ClovisEdit

Dooku was then ordered by his master to name Senator Rush Clovis the head of the Banking Clan. Dooku then contacted Clovis via the medical droid treating him. Dooku offered to pay the Confederacy's interest on their loans as well as supply Clovis details of the Muuns' secret accounts, in exchange for him becoming head of the Banking Clan.

After Clovis took his position on Scipio, Dooku contacted him to congratulate on his appointment. Dooku then announced that he wished to collect on his "investment" or he will reveal the truth behind's Clovis's appointment. He also threatened that the Confederacy would not pay back their loans. Thus Dooku forced Clovis to raise the Republic's interest rates to keep the bank afloat. Dooku then accompanied the Confederate fleet and went to Clovis's office. There, Dooku informed Amidala of the deal he made with Clovis. Dooku ordered her arrest, but Separatist Congress Leader, Bec Lawise, said that their Senate would not approve of this. Dooku then forced Amidala to shoot Lawise. Dooku then left aboard Kraken's flagship and ordered their forces to withdraw from Scipio.

## Tyranus revealed

Tyranus was then informed by Sidious that the Jedi had learned of a secret that Dooku failed to hide. Dooku soon learned that the Pykes had kept Silman, the former Chancellor's Valorum aide who accompanied Sifo-Dyas, alive. Dooku then went to Oba Diah to eliminate this loose end by killing Silman. However, Dooku was confronted by Kenobi and Skywalker. He fought them before he was surrounded by Lom Pyke and his men, who revealed that he was Darth Tyranus. Tyranus then revealed that he was telling Kenobi the truth on Geonosis about the Sith Lord. Tyranus then killed Lom Pyke and escaped.

Tyranus was then informed that Lord Sidious demanded his presence on Coruscant. Both he and Lord Sidious felt that Yoda was on the Sith homeworld of Moraband for some unknown reason. Dooku then allowed Sidious to use his blood to create an illusion for Yoda due to him being his former master with both using their Sith lightning. However they failed in breaking Yoda and knew they needed more time.

## Crystal Crisis on Utapau

Towards the end of the Clone Wars, Count Dooku and General Grievous took interest in a massive kyber crystal on the neutral planet of Utapau. They hired several Sugi mercenaries led by Endente and Amani outcasts to excavate the crystal and to guard it respectively. Dooku and Grievous were also aided by Governor Torul Blom, who had secret contacts with Endente. When the Jedi Master Tu-Anh stumbled upon their operation, the Separatists sent two IG-100 MagnaGuards to assassinate her. However, her death attracted the attention of Master Kenobi and the Jedi Knight Skywalker, who traveled to Utapau to investigate.

Investigating Tu-Anh's death and the presence of MagnaGuards, Kenobi and Skywalker traveled to the plains of Utapau to investigate a group of Amani outcasts. While traveling through Utapau's wilderness, the two Jedi were captured by several Sugi mercenaries who brought them to Endente, who informed them about the Confederacy's interest in the kyber crystal. When the Jedi offered to buy the crystal for twice the amount, Endente informed Dooku via hologram about the Jedi and demanded more compensation to offset the Jedi offer. Dooku ordered him to kill the Jedi and promised that he would send Grievous to "give him what he deserved." Later, the two Jedi managed to overpower their captors and steal the crystal.

As Endente and his Sugi comrades prepared for a counter-assault to recover the kyber crystal, they were contacted by Dooku who informed him that Grievous was coming to meet them on the plains of Utapau. Fearful of reporting his failure to the Sith, Endente told Dooku to send Grievous to meet them at Pau City instead on the pretext that the Amani could no longer be relied upon to guard the crystal. Endente informed the Sith Lord that they had a friend in the Utapau government, Governor Blom. Despite their efforts, Endente and his forces failed to recover the crystal from the Jedi, who made their way to Pau City's spaceport.

Grievous eventually learned of Endente's failure and executed the Sugi mercenary. After a struggle, Grievous, with the help of Governor Blom, managed to recover the crystal from the Jedi and loaded it onto his shuttle. Grievous managed to load the crystal onto his supply ship. The Jedi followed him aboard but Dooku managed to capture Kenobi. Following Kenobi's capture, Grievous gave a report to Dooku, who ordered him to execute Master Kenobi and to deliver the crystal urgently to Serenno; stressing that he would tolerate no failure. Despite Grievous' efforts, the two Jedi managed to destroy the crystal and Grievous' fleet. Grievous alone escaped to report the failure to his master.

## The Dark Disciple and Asajj Ventress

During the waning days of the Clone Wars, Count Dooku commanded an assault on the planet Mahranee, which led to the genocide of the Mahran species. In addition, Dooku also issued orders that all Mahran be killed on sight. Dooku's assault was witnessed by the Jedi Council on Coruscant, who at the suggestion of Master Obi-Wan hatched an unusual plan partnering maverick Jedi Master Quinlan Vos with the Nightsister bounty hunter and Dooku's former apprentice Asajj Ventress. After partnering with Ventress as a bounty hunter, Vos eventually revealed his true identity. Seeking revenge against Dooku for his actions against her and her people, Ventress agreed to help Vos by training him in the ways of the dark side.

## Ciscapital

After Vos completed his training, Ventress received word from the Separatist contact Sumdin that Dooku was going to visit Raxus, where he was due to receive the Raxian Humanitarian Award for his services to the Confederacy. For that trip, Dooku was accompanied by his military commander General Grievous. Before receiving the award, Dooku gave a patriotic speech to a large crowd defending the Separatist cause and attacking the Republic and the Jedi. During the public banquet, Asajj took the opportunity to meet up with Dooku and challenge him to a duel at the overlook nearby. Dooku agreed but secretly contacted Grievous for reinforcements. However, Vos anticipated this and managed to lock Grievous in a room.

Together, Ventress and Vos confronted Dooku at the overlook. After exchanging pleasantries over a glass of Alderaanian wine, Dooku engaged the assassins in a lightsaber duel. Using his mastery of the dark side, Dooku overpowered the two assassins and used the Force to hurl them against some nearby pillars. Despite Vos' best efforts, he was unable to best Dooku and was taken captive by the Sith Lord. Ventress managed to escape following a scuffle with Grievous but was unable to rescue her lover Vos. Dooku then struck Vos unconscious with Force lightning and spirited his Jedi captive away to his palace on Serenno.

On Serenno, Count Dooku tortured Quinlan Vos for a prolonged period. To sow discord between Vos and Ventress, he showed the Jedi Master a hologram of Ventress killing his former Master Tholme. When Vos initially refused to believe Dooku's account, the Sith Lord presented Vos with Tholme's lightsaber. Using his psychometric abilities, Vos realized that Dooku was telling the truth. Shortly later, Ventress and Boba Fett's bounty hunter syndicate launched a mission to rescue Vos. However, they were forced to flee empty-handed after Vos, who had given in to the dark side, attacked Ventress. Following the attack, Vos became Dooku's new Sith apprentice. Despite turning to the Separatist side, Vos secretly planned to force Dooku to lead him to his master, Darth Sidious, and then kill the two Sith Lords.

## Search for Darth Maul

Dooku assisted his master in interrogating his former apprentice, Darth Maul, about his Shadow Collective at the Spire on Stygeon Prime. However, Maul then made his escape with his Mandalorian super commandos to Zanbar. Dooku then dispatched General Grievous and Tey-Zuka to attack and cripple Maul and his forces. Dooku then contacted Grievous after Maul's forces retreated. Dooku hoped this attack would draw Talzin out.

Dooku, accompanied by a pair of MagnaGuards, then went to Ord Mantell to capture Maul and level the city. Dooku was then confronted by Brother Viscus and the Nightbrothers. Dooku was easily able to defeat the Viscus and his men. However, Dooku was then surrounded by Maul's forces before he had the chance to kill the defeated Viscus.

Dooku was offered a deal by Maul; to abandon Lord Sidious and serve Maul. Dooku refused, knowing that Sidious was more powerful than they realized. Maul told him that together with Talzin, they would be Sidious's undoing. Dooku then spoke with Talzin, warning that betraying Sidious would be a folly. Talzin told him that Sidious was ready to replace him with a new apprentice. She then revealed to Dooku how Sidious came to her promising to make her his right hand but betrayed her when he took Maul. She also revealed that Maul was her son. When the Republic forces boarded their ship, Dooku decided to assist Maul in killing the Jedi, but not before secretly freeing Grievous. Together they fought Jedi Generals, Mace Windu, Aayla Secura, Obi-Wan Kenobi, and Tiplee. Dooku then killed Tiplee and then escaped with Maul and Commanders Saxon and Kast aboard a gauntlet fighter.

Dooku was then taken to Dathomir by Maul. There, he was taken to a chamber in the Nightbrother village to have his life-force taken from him to allow Talzin to regain her form. Dooku was then possessed by Talzin when Grievous and Sidious arrived. However, she was no match against Sidious' skill while inside Dooku's body. Dooku was freed when Talzin became whole. He then assisted his master in fighting Talzin until Grievous killed her. Despite Maul's escape, Sidious assured Dooku that their future was certain.

## Rescue of Quinlan Vos and death of Asajj Ventress

Together, Dooku and his new right-hand man Quinlan Vos launched a renewed military campaign against the Republic. Vos quickly gained the moniker "Admiral Enigma" among the Republic media.

After receiving intelligence from Admiral Wullf Yularen that Dooku was planning to attack the planet Taris, the Jedi Council hatched a mission to rescue Quinlan Vos. With the help of Ventress, Kenobi and his former apprentice Anakin Skywalker infiltrated Dooku's Providence-class dreadnought and made their way to the bridge, hoping to encounter "Admiral Enigma". Instead, they encountered Dooku. While Skywalker dueled with Dooku, Ventress and Kenobi managed to "rescue" Vos from his cell. However, Vos and Dooku had anticipated the rescue and arranged for Vos to appear in an emaciated state. While Ventress sensed that Vos had turned to the dark side, his Jedi colleagues eagerly welcomed Vos home.

Quinlan Vos' "rescue" gave Count Dooku a high-level spy within the Jedi Order. Using his high-placed position within the Jedi hierarchy, Vos leaked intelligence on two Republic operations to Dooku. This allowed the Separatists to sabotage an asteroid supplies warehouse and to evacuate a listening post on Vanqor prior to a Republic attack. After discerning that Vos had turned to the dark side, the Jedi Council sent Vos on a mission to kill Dooku. With the help of Ventress, Vos and the Jedi learned that Dooku's dreadnought was last sighted above the crystal-covered planet of Christophsis. Vos managed to infiltrate Dooku's dreadnought and engaged the Sith Lord in a lightsaber duel. Despite besting Dooku, Vos refused to kill him and instead demanded that Dooku lead him to Darth Sidious.

Unknown to both Dooku and Vos, they had been tailed by Kenobi and Skywalker. The two Jedi Knights promptly arrested Dooku and his apprentice and transported them to the Venator-class Star Destroyer Vigilance as prisoners. While being marched to the Vigilance's brig, Vos managed to free Dooku, who in turned freed Vos. After killing the Jedi Knights Akar-Deshu and Kav Bayons and two dozen Clone troopers, the two dark siders escaped the Vigilance aboard Ventress' ship Banshee. Ventress attempted to fly them back to Dooku's dreadnought but they were shot down by the Vigilance and crash-landed on Christophsis.

Dooku and his fellow travelers survived the crash but the Count sustained a serious injury since he had not been properly strapped in. After navigating through Christophsis' crystal-covered landscape, they managed to reach a local Separatist base that was built into a giant crystal tower. Upon arriving, Dooku was informed that Darth Sidious was seeking an audience with him. During a brief hologram conversation, Dooku requested help from his master to get offworld. Shortly later, Kenobi and Skywalker launched a full-scale assault on the Separatist base.

Together, Dooku and his opponents made their way into an outlying crystal sanctum. On the way, Dooku was struck by a blaster blast and was knocked unconscious. While Ventress wanted to let him die, Vos insisted on keeping him alive. While Vos assisted the battle droids in the defense of the base, Ventress moved Dooku into the crystal sanctum. After stirring, Dooku taunted Ventress by deriding her as a "grant" and claiming that Vos had much potential as a Sith Lord. Ventress responded that Vos had "bigger plans" for Dooku. When Vos entered the sanctum, Ventress confronted him about his decision to join Dooku and the dark side.

While Ventress and Vos were preoccupied, Dooku took the opportunity to attack his former pupils with Force lightning. He wanted to kill Vos, but ended up striking Ventress, who pushed Vos out of the way. Though Quinlan managed to stop Dooku, Ventress was mortally wounded. Dooku then attempted to goad Vos into killing him, but realizing that the act of murder led to the dark side, Vos refused and reaffirmed his Jedi identity. While Vos comforted his dying lover, Dooku took the opportunity to rendezvous with Sidious' starship and fled off-world. Despite failing to kill Dooku, Vos was pardoned by the Jedi Council after he rejected the dark side and continued serving the Jedi war effort.

## Death

Later on, Dooku oversaw the "kidnapping" of Supreme Chancellor Palpatine during the battle of Coruscant. Dooku held Chancellor Palpatine captive aboard General Grievous's flagship, the Invisible Hand. He engaged Anakin Skywalker and Obi-Wan Kenobi in a lightsaber duel when they came to the Chancellor's rescue. The duel was brief but fierce. Dooku defeated Kenobi, who was incapacitated and knocked unconscious when the Count used the Force to pin Kenobi to the ground with a metal balcony. However, Dooku was soon overpowered by Skywalker, who, with one slash of his lightsaber, severed both the Count's hands at the wrists. Skywalker then caught Dooku's lightsaber out of the air and crossed it with his own blade at the Count's throat. Unsure how to proceed, Skywalker hesitated until Chancellor Palpatine instructed Skywalker to "Do it" and kill him. Despite the fact that Dooku was an unarmed prisoner, Skywalker drew the two lightsabers together, decapitating the Sith Lord.

## Legacy

After escaping from the Invisible Hand to Utapau to meet with the Separatist Council, Grievous reported Dooku's death to Sidious, who dismissed his apprentice's death as a necessary loss, promising the General that he would have a new apprentice soon. Skywalker replaced Dooku at Sidious' side after he fell to the dark side and became Darth Vader. Sidious issued the destruction of the Jedi Order.

Following the end of the Clone Wars, the newly-created Security Bureau of the Galactic Empire conducted loyalty purges, during which much propaganda material featuring Dooku was destroyed. However, rare specimens of Ansibella Delu's work-in-progress poster survived.

Speculation began to circulate after the war's end that Dooku had in fact never left the Jedi Order despite their claims to the contrary. This rumor bolstered the idea that the Jedi had been traitors to the Republic since before the start of the war but some, amongst them Grand Moff Tarkin, remained skeptical.

In later years, Sidious considered Dooku a proton torpedo, as he served his purpose and then was gone, assuring Vader that he had him, a superior candidate, in mind.

Fifty years after Dooku's death, a treasure hunt known as the Race for the Lost Treasure of Count Dooku occurred on Ponemah Terminal. Those taking part hoped to find kyber crystals, but were surprised to find the treasure was a clone trooper who had been held captive for the last 50 years. The trooper, Kix, had learned the truth of Order 66 after being confronted about it by his friend Fives. Kix was saved by the pirate crew of Sidon Ithano and joined the crew.

Me: Count Dooku.

Lincoln: Or does he prefer Darth Tyranus?

Count Dooku: So you are the mighty Team Loud Phoenix Storm that I've heard so much about.

Me: That's right. The Dark Side of the Force is strong inside you.

Count Dooku: My Jedi Powers have grown far beyond yours. Now back down.

He fired a powerful blast of Force Lightning and I blocked it and sent it back. But he deflected it away.

Me: My powers are strong too.

I fired a powerful blast of Force Lightning as well and it sent him crashing into the wall.

He got up.

Count Dooku: How is that possible? How do you know how to use Force Lightning?

Me: I have this habit of picking up things on the fly. I've learned a lot of moves other than just the ways of the Force.

Count Dooku: We shall see.

Count Dooku ignited his Red Blade Lightsaber, I ignited my purple blade lightsaber, Orion had a green bladed lightsaber, Nico had a Yellow bladed Lightsaber and he ignited it, Lincoln had an Orange Blade Lightsaber and he ignited it.

Orion: Jayden once said to Troy and the others that they should use their instincts to sense an enemy's next move. So I'll take that advice and use my best Legendary Sixth Ranger Modes to fight Dooku with. Legendary Ranger Mode: Mighty Morphin Green!

Orion turned into Tommy's Green Ranger form.

We went at Count Dooku and we were clashing all over the place and it was a powerful and brutal clash that was powerful! Orion

Watching was our newest recruit for the Transformers, Crackcase.

Crankcase: Is it always like this with you guys?

Lori: It's literally always an amazing adventure.

Grimlock: Him J.D., kick Sith butt!

We were overpowering Count Dooku.

Taranee: They're really letting Dooku have it.

Francis: No kidding!

Power Girl: Boy they are really showing no mercy on him.

Lincoln fired a massive blast of lightning and electrocuted Dooku and blasted his hands off and his lightsaber was on the floor.

Nico: Count Dooku, you have failed this universe!

Me: And he has failed at being a Jedi.

I fired a massive blast of Force Fire and incinerated him in an instant!

Me: That is what you get for your crimes Dooku. The only fate for a Sith is death.

Nico: That's right.

Mace Windu: Well done to all of you.

Me: Thank you Master Windu. Count Dooku was a big danger to everyone in the universe. Palpatine was right about one thing.

Nico: What's that?

Me: That Count Dooku would be a dangerous threat to everyone and everything out there.

Mace Windu: That is true.

Nico: Yep.

We went back to the estate for a rest.

---

In the middle of an open field out in the middle of the forest, Lincoln was doing some soul searching. He has been having doubts about himself.

Lincoln: After everything I went through over the course of 3 years, I'm starting to feel like I'm more than just human. I feel like I'm becoming something more ever since I got my powers. Am I still human or something more?

Then thunder rumbling was heard and Lincoln heard a voice.

?: Lincoln.

Lincoln looked up and he saw the spirit of one of his family members in a powerful storm cloud. The spirit looked like Lucy from the Victorian Era.

Lincoln: Lucy? Wait! You're our great grandmother, Harriet.

Harriet: That's right. It's good to finally meet you my grandnephew.

Lincoln: Lucy showed me awesome photos about you.

Harriet: I know. I heard you were in trouble and I came to help. You are having doubts about what lies ahead of you.

Lincoln: That's right. Ever since I got my lightning powers, I felt like I was becoming more than just a human being.

Harriet: Your powers have made you strong Lincoln. But no matter what happens to you, you will always be a magnificent person. You are more than just a man, you are a caring brother, a loving person and willing to help those who are closest to you. You must remember who you are. You are my great grandnephew and a magnificent force of good. No matter how powerful you are, you are still Lincoln Loud.

Lincoln: I… understand Great Grandma. I understand. I am Lincoln Landon Loud! Member of Team Loud Phoenix Storm and master of the Lightning of Hinon, a great brother and true friend to everyone I love!

Harriet: That's my grandnephew.

Lincoln: Thank you Great Grandma Harriet. Thank you.

Harriet: You're welcome Lincoln.

Lincoln went back home.

Lincoln arrived back home.

Me: Hey Lincoln. You're much better now.

Lincoln: I sure am J.D.

Lucy Loud: Harriet told me that she visited you.

Lincoln: She did. She came to me and told me that no matter what happens, I will always be Lincoln Loud.

Me: I'm glad you know who you are.

Nico: Me too.

The mailman then came up to our Mailbox and put the letters in a canister. Our mailbox is now an amazing pneumonic tube system. He put the canister full of letters and mail into the mailbox and the canister went through the tube. A red light and buzzer rang and I went to the tube.

Me: Mail's here and Lisa's new Pneumonic Mail system works like a charm.

Laney: It sure does. It saves us having to go to the mailbox and back.

Nico: Yeah.

Me: Lets see what we got here.

I pulled the mail out and sorted it.

Me: Lets see, phone bill, heating, (Sees something) Hey look at this.

I opened a letter and out came a bunch of bats.

Me: Whoa! Bats!

Lucy Loud: Wicked.

But I saw the letter and read it.

Me: It's an invitation for me.

"Dear J.D. Knudson,

You have been invited to a special reunion taking place at Miss Grimwood's Finishing School for Ghouls. There will be food, dancing and catching up on old times. Sibella, Winny and the Girls are looking forward to seeing you again ever since you saved them from a horrible fate. They miss you.

Love Ms. Grimwood."

Wow! A big reunion!

Laney: What's it for?

Me: You guys haven't been told about this. But 7 years ago, I was one of the coaches for a girl school for monsters.

Naruto: A monster school? Like Yokai Academy?

Me: Very similar bro. It's called Miss Grimwood's Finishing School for Ghouls. It's a boarding school for the daughters of the famous monsters of legend. Me, Shaggy and Scooby and Scooby's nephew

Scrappy Doo went there to help out. Here.

I pulled out a photo of us and showed it to everyone. I was with Shaggy, Scooby and Scrappy and with us were Sibella - daughter of Dracula, Winny - Daughter of the Wolfman, Elsa - daughter of Frankenstein, Phantasma - Daughter of the Invisible Man, and Little Tanis - daughter of Pharaoh Kharis.

Lori: Wow! You know these girls?

Me: Yep. We became very close. They became like sisters to me.

Lucy Dark: I wish I could've gone to Ms. Grimwood's school.

Me: It's a nice place. But the girls were also in danger when we were there.

Lana: What kind of danger?

Me: An evil witch that makes the devil look like a joke nearly used them to take over the world.

I went to the computer and pulled up the history of the most evil witch ever: REVOLTA!

---

Revolta is a menacing witch who lives in her own castle and plans along with her minion, Grim Creeper to make the students at the Miss Grimwood's Finishing School for Ghouls permanently evil and take over the world. Her plan was stopped in the end by Scooby, Shaggy, Scrappy, and Matches.

She is presumed destroyed at the film's conclusion.

---

Me: Revolta. She makes the Devil and even the Wicked Witch of The West look like a total joke.

Lola: She looks like she's evil to the core!

Me: She is. Revolta is a menace to everyone in the world of monsters and humans.

Mizore: I've heard about her. She wants to take over the world and enslave all monsters.

Kurumu: She sure looks dangerous.

Yukari: She is also a dangerous mockery to the world of magic.

Lilith: Her name is widely feared not just here on Earth, but also in Yokai Academy.

Moka: She sure looks very dangerous.

Me: Well I took her down 7 years ago and freed the girls from her spell. My powers far exceeded hers by a mile.

---

Me: (Narrating) **Revolta was one of the worst ever villains I ever faced. She wanted to make everyone both humans and monsters alike suffer in excruciatingly painful ways no one can even begin to fathom. I fired a powerful blast of fire at her and burned her all over. I also destroyed her castle, stripped her of her powers and made her homeless.**

The whole flashback played all the events said and the whole castle exploded into a massive fireball of incredible power.

KRABBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

FLASHBACK ENDS

Power Girl: Revolta sounds really dangerous.

Me: You have no idea Galatea. She posed a tremendous threat to the entire world.

Nico: Is she still alive?

Brittney: I'm afraid so Nico. I was told by the spirits of the afterlife that Revolta is still alive and is still out there trying to destroy the world. But the good news is that she has been severely weakened. Dad really did a number on her. She's now horribly scarred and disfigured thanks to him.

Me: So I left my mark on her. Then it's time for me to finish what I started.

I then pulled out my cell phone and called Shaggy.

Shaggy: (Answers) Like, hello?

Me: Hey Shaggy! J.D.

Shaggy: Like, Hi J.D. What's going on?

Me: We just received an invitation to a reunion at Miss Grimwood's School.

Shaggy: Like, that's quite a coincidence. So did I.

Me: Sweet! How about you invite all of Mystery Inc. as well?

Shaggy: Sure. It'll be great to see the girls again.

Me: But I'm afraid I got bad news. Revolta is back.

Shaggy: (Gulps) You mean that evil witch that tried to take over the world with the girls is back!?

Me: I'm afraid so Shaggy. But this time we're gonna finish her for good and kill her.

Shaggy: That's great! I remember you helped out with that.

Me: Just like old times Shaggy. We'll meet you over there.

Shaggy: Okay.

We hung up and we were later off to Miss Grimwood's Finishing Academy.

---

# MISS GRIMWOOD'S FINISHING ACADEMY FOR GHOULS

---

We were at the academy and it was an amazing haunted house. With us were Shaggy's ex-girlfriend Googie, Velma's younger sister Madelyn Dinkley and Scooby's nephew Scrappy Doo. We told Scrappy about what would've happened during the live action movie Scooby Doo and he's glad that he will never do that.

Me: Here we are guys. Miss Grimwood's Finishing Academy for Ghouls. (Whistles) Just as scary as I remember it.

Lucy Loud: I would love to live in a house like this.

Brittney: Everyone that knows the darkness would.

Laney: It looks like a nice house.

Googie: It sure does.

Scrappy: The girls when we met them were really nice.

Me: I remember Scrappy.

Madelyn: Velma never told me about this place.

Me: That's because Shaggy, Scooby, Scrappy and myself were the only ones that went here.

The Mystery Machine arrived.

Shaggy: Like, hey guys!

Me: Hey Shaggy. Hey guys.

Velma: Hey J.D.

Madelyn: Velma!

They hugged!

Velma: Madelyn!

Daphne: So this is the school you went to Shaggy?

Shaggy: Like, yeah. It was a really creepy place. But it was an amazing school.

Scooby: I remember this place like it was yesterday.

Me: So do I Scooby.

We walked up to the school.

Crystal: So this is the school you taught at Shaggy?

Shaggy: It is.

Nico: It sure would be awesome to help out here.

We knocked on the door and it opened on its own. We went in and it was a creepy place. But it was an amazing house.

Me: Wow! Just like old times.

Scrappy: Boy it sure brings back a lot of memories.

Shaggy: Like, yeah. But the food was different.

Me: You and your love of food.

Miss Grimwood then appeared.

Miss Grimwood: J.D. welcome back!

Me: Miss Grimwood, it's great to see you again.

Miss Grimwood: You have grown from that little boy I remember.

Me: Feels like forever ago.

We heard a howl and we saw Winny the Werewolf come. She has changed a lot! She now had longer red hair, a plaid shirt, brown shorts and she was taller.

Me: Winny!

Winny: J.D.! It's great to see you.

We hugged.

Me: Wow! You grew a lot from the last time we saw you.

Winny: I knooooooowwww! All that meat helps.

Me: That it does.

A purple bat appeared and transformed. It was Sibella and she was taller and she had shorter hair and green crystal earrings.

Me: Sibella!

Sibella: (Transylvanian Accent) J.D.!

We hugged.

Me: It's great to see you again.

Sibella: It's so great to see you again after so long.

Me: You sure have grown from when we saw you last.

Sibella: It's fang-tastic.

Me: Yeah.

Elsa Frankenteen then appeared and she was taller, had a olive green tank top, blue jeans and brown sandals and she was wearing bracelets.

Elsa: Hey J.D.

Me: Elsa!

We hugged and it was a bone-crushing hug!

Me: (Groans) It's great to see you. Wow! You are taller and stronger than ever.

Elsa: Sorry. But you have gotten taller too.

Me: I know. We all have changed.

Phantasma then appeared and she had a blue shirt that had one side of it go down her shoulder that exposed half of her bra, a blue moon belt, a blue skirt and white boots.

Phantasma: Hey guys!

Shaggy: Like, hi Phantasma!

Scooby: Long time no see.

Me: I'll say.

I went to hug her but I went through her and fell down.

CRASH!

Me: Oops. Sorry.

Phantasma: That's okay. But it's great to see you again J.D.

Me: Same to you.

Then Little Tanis appeared and she had a pink and black shirt and a pink shirt and pink shoes and she had her mummy hair in pigtails.

Tanis: J.D.!

Me: Little Tanis!? Wow!

We hugged.

Me: Wow, you have grown from that little mummy I remember.

Shaggy: Like, guess we can't call you little anymore.

Me: No kidding. It's great to see all of you girls again. These are all my friends. We are Team Loud Phoenix Storm.

Sibella: It's fang-tastic to meet you all.

Winny: We heard so many things about all you guys.

Elsa: Yeah, you really sock it to the bad guys.

We all introduced ourselves.

Sibella: It's an honor to meet you.

Tanis: You guys are so awesome!

Elsa: Yeah. We love how you guys kick butt.

Lori: It's literally what we do to keep the world safe.

Lucy Dark: All bad guys get their just desserts at our hands.

Me: Yep. And I'm afraid we have bad news girls. Revolta is back.

Everyone gasped.

Sibella: But that's impossible! You killed her.

Me: No. Revolta is back and this time I have a feeling she is out for revenge. We came here to finish what I started and that is to kill her and make sure she never terrorizes our planet ever again.

Nico: That's right. We won't let her get away with all the pain and suffering she caused to you and to the world.

Nicole: This time she will be sealed into the Book of Vile Darkness.

Miss Grimwood: I know you all can teach that witch a lesson she will never forget.

Me: And that is When you mess with my friends, you mess with me and there will be hell to pay, in blood.

Sibella: Very good lesson.

Me: Would you girls like to help us?

They agreed.

Brittney: Lets have you all join the Goths of Darkness.

Wednesday: It's gonna be awesome.

Lucy Loud: Agreed.

Haiku: Goths are amazing.

Sibella: They are.

Winny: Lets do it!

Miss Grimwood: I believe in you guys. Show that witch what happens when she messes with you!

Me: With pleasure Miss Grimwood. Lets have the Cadets of Calloway Military Academy.

Nico: Good idea.

Me: Lets go.

We went to Calloway Military Academy and it was an interesting academy.

Me: Wow! What a school.

Lincoln: It looks like an interesting military school.

We went in and Colonel Calloway appeared.

Colonel Calloway: Team Loud Phoenix Storm! It's an honor to meet you.

Me: (Salutes) You too Colonel. We came because we need your help. I'm afraid that Revolta is back and she wants revenge on me.

Colonel Calloway: Revolta, that evil hag has returned?

Me: I'm afraid so Colonel and we need to finish what I started before she tries to finish what she started.

Colonel Calloway: Negative on helping you all out. I admit that we did enjoy defeating Revolta with you all the last time. But that was a one time deal.

Maria: Revolta's a threat to monsters and humans alike. After she gets done with Grimwood, who do you think she'll go after next?

Me: That's right sir. We need to make that evil witch pay for her crimes. I'm going to make sure she stays dead this time.

Colonel Calloway: You're right. All right then. Lets go.

Me: Great. When we get to her castle, shoot any of her minions on sight.

We later went to the castle of Revolta.

## CASTLE REVOLTA

We arrived at Revolta's castle and it was just as ugly and scary as I remember.

Me: Revolta's castle.

Sibella: This place is terrifying.

Winny: I hate this place.

Me: Lets do it!

Megaforce Rangers: Legendary Ranger Mode: Zeo!

The Megaforce Rangers turned into the Zeo Power Rangers. Troy Burrows was Zeo Ranger V Red, Noah Carver was Zeo Ranger III Blue, Gia was Zeo Ranger II Yellow, Jake was Zeo Ranger IV Green, Emma was Zeo Ranger I Pink and Orion was the Gold Ranger.

Nico: That is so awesome!

Laney: It sure is.

We went into the castle and we saw that it was a dark and terrifying place. We were blasting all of Revolta's minions on sight and they all died in a powerful explosion of fire.

In Revolta's main room, Revolta was scheming on how to get her revenge on me. She was horribly scarred and disfigured and her second set of arms were now burned off and she was hidiously ugly because of it.

Revolta: I will never forgive that J.D. Knudson for what he did to me! I will make sure that he pays with his life for it!

Suddenly a massive fiery explosion blasted a hole through the wall and a phoenix cry was heard.

Grim Creeper: What is that?

Out of the explosion came us.

Me: Did somebody say my name?

Revolta: J.D. Knudson. How nice of you to save me the trouble of hunting you down.

Me: Revolta. You are still as ugly as ever. I see that you are horribly burned now. Nice to know that I left my mark.

Revolta: You did this to me J.D.! You will pay for ruining my plans to rule the world!

Me: And I show no remorse for doing so. But we didn't come here for pleasantries. We came here to finish what I started 7 years ago. We came here to kill you and finish you for good.

Revolta: You will not kill me that easily!

Me: We shall see. And for the record, I'm not the same as I was back then. I've changed dramatically.

Sibella. And so have we.

Winny: You will pay for trying to use us!

Elsa: What you did was unforgivable!

Phantasma: You will pay for your crimes!

Tanis: Yeah!

Brittney: And here's some extra help for us. Though I know I should be wary, Still I venture someplace scary. Ghostly haunting I turn loose… BEETLEJUICE! BEETLEJUICE! BEETLEJUICE!

Out of a powerful vortex of supernatural energy came the funny supernatural horror king Beetlejuice!

Beetlejuice: (THUNDER CRASHES) (LAUGHING MANIACALLY) IT'S SHOWTIME!

Brittney: We're going to face the evil Revolta.

Beetlejuice: I've heard about her Darky. She's a menace to the Neitherworld and all of the worlds of horror.

Me: Beetlejuice!? Oh man! You are so funny.

Beetlejuice: I know J.D. It's an honor to meet you.

Me: You too. Lets power up and take her down.

Winnie: I'm so gonna enjoy this!

We transformed and powered up and we went at both Revolta and the Grim Creeper.

I punched Revolta in the face and fired a powerful blast of Force Lightning at Revolta and electrocuted her. She fired a blast of energy and I dodged it.

Lola threw a fireball at the Grim Creeper. But he got out of the way and the fireball hit Lincoln instead, making him scream in pain.

Lola: Lincoln!

Grim Creeper: (laughs evilly) See what fighting recklessly gets you?

The Grim Creeper of Skylanders slashed him apart with his scythe and turned him into hash browns and killed him.

Grim Creeper (Skylanders): You give my name a bad clarity of thought.

Lincoln: I'm okay Lola. Good try though.

Lola: Thanks Linky.

The Megaforce Rangers punched and kicked Revolta all over the place.

Emma: You need a serious makeup job you freak!

Emma punched Revolta all over and blasted her with a pink laser blast. Same with everyone on the Megaforce Rangers.

Beetlejuice: You haven't seen anything that's really ugly.

Beetlejuice then made a really scary face that was so hideous and terrifying that it made Repulsa scream with fright!

Me: Now to finish you forever! Teamwork time!

Troy Burrows: Lets do it! Ready Sibella?

Sibella: I always am Troy!

Troy Burrows fired a powerful blast of red Zeo Energy and Sibella fired a powerful blast of black energy.

Troy Burrows and Sibella: RED ZEO BATSWARM!

The blasts turned into a powerful swarm of red energy bats and they slammed into Revolta!

Noah Carver: Lets get her Winny!

Winny: (HOWLS) Right behind you Noah!

Noah fired a powerful blast of blue energy and Winny fired a powerful blast of yellow light from her eyes.

Noah Carver and Winny: BLUE WOLF PACK CARNAGE!

The blasts combined and turned into a powerful wolf pack and it slammed into Revolta and mutilated her all over.

Gia and Elsa: YELLOW FRANKENSTEIN POUNDSTORM!

The blasts combined and turned into a version of her father and pulverized Revolta all over.

Jake: Lets get her.

Jake fired a powerful blast of green energy and Phantasma fired a powerful ghost storm.

Jake and Phantasma: GREEN GHOST SUPERSTORM!

The blasts combined and spun Revolta around in a deadly tornado of ghosts.

Emma: Lets get her!

Tanis: Right!

Emma and Tanis both fired powerful pink blasts of energy.

Emma and Tanis: PINK EYE OF RA DEATHBEAM!

The blasts turned into the Eye of Ra and it fired a powerful laser at Revolta and exploded.

KRABBBOOOOOOOOOOOMMMMMM!

Orion: Time for some pain Laney!

Laney: Right!

Laney fired poisonous barbs loaded with Strychnine Ω and Orion fired a powerful blast of golden energy.

Orion and Laney: GOLDEN POISON BARB SKEWER!

The blasts formed into a deadly spear and it skewered Revolta and pinned her to the wall.

Moka: Time for some action.

Sibella: Fang-Tastic!

Moka and Sibella fired powerful blasts of energy that turned into a deadly colony of bats.

Sibella and Moka: VAMPIRE BAT BLOOD DRAIN!

The bats sucked all of the blood out of Revolta.

Winny fired a powerful blast of yellow light and Kurumu fired a blast of energy from her hands.

Winny and Kurumu: SUCCUBUS WEREWOLF LEACHSTORM!

The blasts hit Revolta and sucked her life energy out

Elsa threw a big rock and Yukari fired a massive barrage of dishes.

Elsa and Yukari: HEAVY OBJECT SMASHSTORM!

The rock and pans smashed Revolta all over.

Phantasma fired a powerful blast of ghost energy and Mizore fired a powerful subzero ice storm!

Phantasma and Mizore: GHOSTSTORM SUBZERO FREEZE!

The blasts hit Revolta and froze her in a block of ice.

Tanis fired a powerful blast of pink energy and Lilith fired a powerful blast of light from her wings.

Tanis and Lilith: SOBEK FIRESTORM BURST!

The blasts turned into the crocodile of Sobek, the Egyptian god of fertility and military strength and it slammed into Revolta and

exploded.

# Scooby and The Three Stooges Ghosts

In Stewie's Laboratory, Stewie was working on the Pumpkinator and he was doing some last minute adjustments on it. It was for when Halloween comes around. He was done.

Stewie: William, Maria, I'm going to take the reprogrammed Pumpkinator out for a test drive. And I'd like you two and some of the others to accompany me.

William: All right. Lets go.

Maria: You got it.

We went outside and tested the new and approved Pumpkinator. It greeted a lot of kids during the time and it was really friendly and more.

Ember Mcclain: It's funny. This guy was one of Timmy's enemies. And now, he's a powerful ally.

Nico: He sure is.

Slug: Me, Slug, still think that pumpkin bot still not that strong.

Nico: Everyone has their own opinions Slug.

Gwen Tennyson: I think the big guy's all set to keep trick or treaters safe.

Trixie: Well, that's one of Timmy's enemies that will fight for good now.

Nico then picked up some radio signals coming from the lake. He went to investigate and he found a stasis pod in the lake. Nico used the power of the Force and brought it up and inside it was Ruckus.

Brawl: Ruckus!

Nico: Thank goodness we found him.

Nico activated him and he was awake and Ruckus saw him.

Ruckus: Are you the new Decepticon leader?

Nico: I am. Megatron and Starscream are dead. They were monsters.

Nico revealed everything that happened and Ruckus was glad they were gone. His allegiance was now with Nico.

In the estate we were watching TV and reading books.

Qin: Samus, can I ask you a question?

Samus: Sure Qin.

Qin: How did you become a powerful bounty hunter and what were your adventures like?

Samus: My history is an amazing one.

Samus went over her history throughout her entire life and career.

---

Samus Aran was originally a native of the Earth colony K-2L, where she lived with her parents Rodney and Virginia Aran. At the age of three, the colony was visited by the Chozo, who hoped to obtain some of the Afloraltite that the colony mined there. During this visit, Samus caught the attention of Old Bird, one of the Chozo elders. The two of them went for a walk where they began to strike up a friendship. Samus began to call him "Grandpa" and Old Bird introduced her to Pyonchi, a Rabbilis whom she adopted as a pet.

However, a Space Pirate raid led by Ridley soon commenced on the colony. Finding herself face-to-face with Ridley himself, the naive Samus asked him if they could become friends. In response, Ridley attempted to kill Samus, but her mother pushed her daughter out of the way at the cost of her own life. Meanwhile, Samus' father sacrificed himself to destroy Ridley's flagship. Little did Ridley know that, in killing Samus' mother and attempting to kill Samus, he succeeded in creating his greatest enemy.

## Kid Samus

Now orphaned, Samus was the sole survivor of the attack on K-2L. Eventually, the same group of Chozo found her alone and stranded on the destroyed colony and Old Bird decided to take custody of Samus. The Chozo brought her to their planet, Zebes and raised her. In order to survive the planet's harsh conditions, Samus was infused with Chozo DNA, and later gifted an advanced Chozo Power Suit.

Samus trained under the Chozo for many years, and had surpassed the physical limits of ordinary humans by 14. The Chozo were initially unsure if she was able to become a true warrior until they witnessed her compassion for a flock of Iono Feria that went insane as a result of exposure to Badger Clover. After Old Bird told Samus that she had his confidence, she left the planet for the Federation.

## Rise of the Hunter

Enrolling in the Federation Police, Samus excelled in the academy, and was promoted to the Star-Trackers, an elite force that only one in a million police officers was qualified for. Under Chief Hardy, one of her early assignments was to the human planet Jigrad, which the Space Pirates had recently enslaved. When the pirates threatened to execute a child slave named Damara simply for being unfit for work, Samus and her squadmates Kreatz and Mauk attacked without orders. This led to the first Federation imprisonment and interrogation of a Space Pirate - a matter which also involved a military leader named Adam Malkovich, leading to his introduction to Samus. The interrogation revealed that the Space Pirate's actions on Jigrad were just a distraction from their invasion of Zebes. Hardy ordered Samus to wait for the Army to be deployed, but Samus and her teammates disobeyed and traveled to Zebes to aid the Chozo. After a run-in with Adam, she was told that she was given 48 hours before the army arrived.

## Infiltration of Zebes

Samus, Kreatz and Mauk arrived at Zebes and learned the Space Pirates were hoping to gain the whole of Chozo knowledge. The Chozo either fled or surrendered and the first Metroid was rogue in the base. Samus discovered that Mother Brain and the Chozo Gray Voice established a "satisfactory cooperative relationship" with the Pirates, in which Mother Brain would be their new leader and use them to reunite the galaxy. Mother Brain offered Samus the role of "master" of the Space Pirates - an offer that Aran quickly refused. At this time, Ridley arrived and taunted Samus over the death of her parents. All of this triggered Samus' posttraumatic stress disorder due to the repressed memories of the K-2L attack, with it being severe enough that she begged her comrades to kill her before Ridley does so when they came to rescue her. Samus was later saved by her squadmates causing a distant distraction and the newly rescued Chozo helped Samus get over her posttraumatic stress. Samus donned her Power Suit and defended the party from Ridley, who then retreated to defend Mother Brain from an attack by Gray Voice, who had revealed his true allegiance and was attacking Mother Brain. Learning about Gray Voice's plight from the rescued Chozo Platinum Chest, Samus wanted to assist, but decided to help the evacuation. While escaping, Samus somehow felt Gray Voice's final moments due to their shared DNA and heard his final words telepathically. Stating that she had become strong, the dying Chozo asked that Samus use her power to help protect the beings in the galaxy who needed it.

After breaking atmosphere in an ancient Chozo ship, Samus, her teammates and the Chozo were rescued by the Federation Army led by the Federation Army Special Ops Battleship VIXIV, commanded by General Adam Malkovich.

Federation Army

After the infiltration of Zebes, Samus (Between 15-17 years old) worked on the VIXIV under General Adam Malkovich. Here, she met Anthony Higgs and Adam's younger brother, Ian Malkovich. It remains unknown how long she served with Adam's unit, but long enough to develop a strong relationship with Anthony, Ian and Adam. Adam would always finish his orders with the question, "Any objections, Lady?" as a way of cementing the trust between the two of them. Samus felt like Adam was the only person who truly understood her, and grew to view him as her best friend and surrogate father figure. However, Samus would leave the VIXIV after the death of Ian, whom Adam sacrificed to save 300 innocents on the Lusitania.

## After Federation

Samus vanished completely, abandoning her post in the GF Police. In Metroid: Other M, she stated that her reason for doing so was that she was still young and relatively inexperienced at the time. Samus did not resurface until a few years later. By this time, she became universally renowned as a Bounty Hunter by singlehandedly hunting down numerous Space Pirates, including stopping an assassination attempt at the inauguration of Chairman Keaton. So much of her life during this time was shrouded in mystery that the public believed her to be a male cyborg, not the same woman who graduated first in her class at the GF Police.

## Return to Zebes

Now a renowned Bounty Hunter, Samus was summoned by the Galactic Federation. Previously, a Federation Planet Reclamation Division had been sent to capture Metroid specimens for study, but the Space Pirates had swept in, killed the crew, and stolen the Metroids. The capture of this creature was a disastrous blow to the Federation. With hundreds of Metroids under their power, the Space Pirates would inevitably begin a campaign to conquer the rest of the universe. Galactic Civilization would end.

After a long and harrowing search, the Federation Police tracked the Pirates to Zebes. They launched an invasion, but Pirate resistance was too strong. After much debate, the Federation decided to turn to Samus to infiltrate the base at Zebes. She was given two objectives:

After a long and harrowing search, the Federation Police tracked the Pirates to Zebes. They launched an invasion, but Pirate resistance was too strong. After much debate, the Federation decided to turn to Samus to infiltrate the base at Zebes. She was given two objectives:

'''Destroy all Metroid organisms.''' and

'''Defeat the Mechanical Life-Form Mother Brain.'''

Samus Zero Mission

Samus arrived on Zebes and soon discovered that in order to access the central Space Pirate base in Tourian, she had to kill the two Pirate leaders situated on the planet: her old foe, Ridley, and his partner Kraid. After discovering various Chozo artifacts located in multiple locations on the planet that served as upgrades for her suit, Samus was finally able to access the lower depths of Brinstar, where she discovered Kraid waiting for her. A fierce battle ensued, which ended in Kraid's defeat. Samus then headed into the deep volcanic regions of Zebes, where she had several surprising encounters with Imagos, gigantic insects that grew from enormous grub-like larvae. When Samus arrived at Ridley's lair, she soon encountered the Pirate leader, who had just arrived moments earlier after being sent to inspect the planet. The two faced off, with Samus intent on finally avenging her parents' death. The bounty hunter emerging the victor. However, unbeknownst to Samus, Ridley did not die from his crippling wounds.

After defeating Kraid and Ridley, Samus was granted access to Tourian, where she discovered that the Space Pirates had apparently underestimated the Metroids' intelligence. A massive breakout had occurred, and all Pirate personnel present at the time of the breakout were dead. Mother Brain herself, however, was protected by her Chozo-built facility and so completely unharmed. As a result, Metroid cloning had proceeded as though nothing happened, so the Metroid population had risen to an astonishing level. Samus engaged the Metroids she encountered but found that they were impervious to most of her weaponry. Only by exploiting their weakness to cold with the Ice Beam could Samus hope to overcome them.

Samus soon arrived at Mother Brain's chamber and fought her way past the defense systems. The two engaged in an arduous duel, but Mother Brain was ultimately defeated. Unfortunately for Samus, Mother Brain's death activated a hidden fail-safe that began a countdown for the self-destruction of the entire Pirate base. Samus barely managed to make it out to her gunship in time.

# Ambush

Unfortunately, escape was not as easy as Samus had expected. As soon she left the atmosphere, Space Pirate vessels ambushed her; during the ensuing chase, Samus was shot down, and her ship crash-landed back on Zebes. Samus survived, but the explosion had destroyed her Power Suit. The only weapon left available to her was a mostly-useless stun pistol. Her only option was to sneak inside the Space Pirate Mother Ship, which had landed in a nearby valley, in hopes of hijacking a ship and escaping. The next morning, Samus climbed in through the air ducts and began her infiltration. She privately admitted that sneaking in to a highly armed area like the Mother Ship, especially while she was in her Zero Suit, was not the wisest strategy, but knew that she had no other options but to do so. Unfortunately, her plans were quickly botched when she was spotted by several Pirates, who quickly set off alarms throughout the entire ship. Though she managed to outwit them many times, Samus was ultimately forced to retreat to the nearby ruins of Chozodia.

In the ruins, Samus discovered a sacred Ruins Test which she had visited once as a young child. Upon her discovery, the Test activated; Samus had to face a mirror image of herself along with powerful bolts of lightning hurled by the hieroglyphic. Ultimately, Samus succeeded in passing the test, and the statue rewarded her with the Legendary Power Suit, and unlocked the three Unknown Items she had previously acquired: the Plasma Beam, the Gravity Suit, and the Space Jump. Now more powerful than ever before, Samus stormed the Pirate Mothership, leaving many dead Pirates in her wake.

Eventually, Samus made it to the bridge of the Mothership where she discovered the Ridley Robot, a gigantic robot built in Ridley's likeness. The robot engaged her in a fierce battle, but Samus was easily able to destroy it. As it shut down, it activated the self-destruct for the Pirate Mothership. Samus raced through the corridors of the Mothership, battling numerous Pirates along the way, until she managed to hijack a Space Pirate Escape Ship. Samus quickly flew out of the ship and left Zebes as the Pirate Mothership exploded behind her. Samus had fulfilled her Zero Mission.

## Mission at Tallon IV

Three years later, Samus's next mission led her to another planet in the Zebesian system: Tallon IV. She intercepted a distress signal sent from the Space Pirate frigate Orpheon and immediately flew in to investigate. Once inside, she found dead and dying pirates everywhere while vermin ran amok in the ship. It did not take Samus long to discover the source: a Parasite Queen the Pirates had been performing experiments on had broken out and stationed itself in the Frigate's Nuclear reactor core. Samus killed the creature, but the dying beast slipped into the reactor, causing a malfunction that threatened to destroy the entire vessel. Samus ran for her life through the ventilation tunnels, but to her great surprise, she found herself reunited with Ridley, who had been given many cybernetic implants and been transformed into a powerful cyborg. Samus chased him through the ship, but along the way, an explosion rammed her into a wall, causing her Power Suit to malfunction. This caused most of her abilities to go offline, leaving only the Arm Cannon functional. Samus quickly left the dying frigate and chased Meta Ridley in her gunship, but he proved faster than expected and soon disappeared from her radar. Samus was forced to track him on foot, and so, even in her weakened state, she chose to land on the planet below: Tallon IV.

## The Metroid Prime

After traversing the jungles in the Tallon Overworld, Samus discovered an elevator which led to some deserted Chozo Ruins. There, she discovered that 50 years previously, a colony of Chozo had come to the planet to regain their spirituality. Unfortunately, a mysterious meteor eventually struck the planet, bringing with it a Great Poison and The Worm. The Great Poison quickly began spreading across the planet, killing most life in its path and corrupting the rest into savage mutants. Many of the Chozo were driven insane and became menacing spirits; the few survivors fled to an unknown location. The remaining sane Chozo on Tallon IV, now reduced to mere ghosts, managed to seal off the Impact Crater within a seal called The Cipher, locking up The Worm and most of the Great Poison with it. The Space Pirates fleeing the destruction of the base at Zebes had then landed on the planet; they began mining the Great Poison (which they named Phazon) after discovering it could be used to enhance the fighting potential of various creatures, including themselves.

Samus journeyed through Tallon IV, regaining her lost weaponry and collecting sacred Chozo Artifacts, learning along the way that the Chozo had prophesied that she was the one destined to destroy the Worm and the Phazon there. She also swept through the Phazon Mines the Pirates had set up, destroying the Phazon-infused experiments she found there. Samus eventually confronted the most powerful of these mutated Space Pirates: the Omega Pirate. After a challenging battle, Samus managed to defeat the beast, but in its death throes, it fell on Samus and melted into pure Phazon. The viral radiation dramatically altered her Power Suit, turning it into the Phazon Suit; fortunately, this corruption proved beneficial as it allowed her to safely come in contact with and harness the power of Phazon.

## Endgame

Having collected all the Chozo artifacts and suit upgrades, Samus returned to the Artifact Temple and activated the Cipher in preparation for entering the Impact Crater. Just before the statue's seal deactivated, however, Meta Ridley flew in and destroyed the statue. He then attempted to kill Samus, but Samus managed to burn off his wings then overload his life-support. Just as Meta Ridley was brought to death's door again, the Temple's Chozo statues there fired powerful lasers at his chest, blasting him off of the edge into the abyss. The Chozo Ghosts within the statues then undid the seal themselves, allowing Samus into the Impact Crater. Inside, Samus discovered the sleeping Metroid Prime, the source of all Phazon on the planet. Samus managed to destroy its armor, forcing the creature to reveal its true form. Unable to damage it further with conventional weaponry, Samus was forced to overload it by harnessing pure Phazon via her Phazon Suit. The Metroid Prime began to die, but in a last-ditch attempt to save itself, it shot out a tentacle and absorbed Samus's Phazon Suit before exploding. Samus ran for her life as the entire Impact Crater burst into flames. Though Tallon IV had been cleansed of Phazon, The Worm was not yet dead and would soon be reborn as Dark Samus.

## The Ultimate Power

Some time afterward, a mysterious telepathic message was sent out from the Tetra Galaxy saying, "The secret to ultimate power resides in the Alimbic Cluster." Samus was sent by the Federation in order to determine the truth about this message. Unfortunately, the message had also been received by other parties and soon many other hunters began heading to the Alimbic Cluster, each with their own motives for seeking the "ultimate power". To gain it, one had to find the eight Octoliths which would power the Alimbic Cannon, allowing access to a structure in another dimension called the Oubliette. The Octoliths were all under guard by robotic beings: the Cretaphids and the Slenches.

Between skirmishes with these beings and the other hunters, Samus discovered that the Alimbics, the former inhabitants of the Alimbic Cluster, had been experiencing a time of peace and prosperity until a monstrous being named Gorea had arrived in the form of a comet and began wreaking havoc upon their civilization. The Alimbics were forced to sacrifice themselves to seal away Gorea within the Seal Sphere, which was kept in the Oubliette. They also left a cryptic prophecy on how one might defeat Gorea.

Gorea.

After collecting all eight Octoliths and using them to activate the Alimbic Cannon, Samus and the other hunters raced to the now-accessible Oubliette. The other hunters got there first, and inside discovered an immobile structure. They began firing at it, mistakenly believing it to hold the ultimate power. To their surprise, Gorea instead emerged from the broken structure. Samus arrived just in time to see Gorea shoot out massive tentacles and drain the other hunters of their powers. The defeated hunters disappeared, and Samus alone remained to fight Gorea. She first activated the panels around the arena in accordance with the Alimbic prophecy, then began battling Gorea by exploiting its link to the Seal Sphere. Gorea then revealed its final form and continued its assault. Fortunately, Samus gained access to the Omega Cannon, which allowed her to defeat Gorea's second form. Gorea and the Oubliette exploded, while Samus and the other hunters escaped with only their lives. Once she was back in the safety of space, Samus received a vision where three Alimbic spirits appeared to thank her.

## Dark Echoes

Samus was soon given yet another assignment from the Galactic Federation; this time, she was asked to track down a missing brigade of Federation Marines, GFMC Task Force Herakles. Samus headed to the planet Aether located in the Dasha region of space, where the troopers' distress signal was coming from. Samus attempted to land on Aether, but her gunship was caught in the dimensional storms raging on the planet and was badly damaged. Luckily, her ship landed not far away from the troopers' makeshift base. Upon entering it, however, she found she was too late: All of the troopers had died in an attack by unknown assailants. Before she could discover the source, many of the dead troopers reanimated and began firing at her.

Samus fled the base, with the undead troopers in pursuit, but once she was safely outside, she encountered something even stranger: A mysterious black and blue being wearing a suit similar to hers was entering a mysterious portal to an unknown location. Samus followed the being into the portal, only to find herself in a nightmarish replica of the room she had been in, where her dark twin was absorbing a large quantity of Phazon. The being then destroyed a crystal near Samus, which was generating a force field protecting the hunter from the region's poisonous atmosphere. The double then departed, leaving a vulnerable Samus to the clutches of savage creatures that quickly surrounded and overwhelmed her. Samus was forced to retreat back through the portal, only to learn that the dark creatures had robbed her of many of her suit upgrades.

Samus made her way through the catacombs of Aether until she discovered the source of the distress signal: the Federation troopers' damaged ship, the GFS Tyr. Accessing the ship's log, she discovered that the Task Force had been stranded on Aether when their ship was damaged in pursuit of a downed Space Pirate frigate. Eventually, they were all killed after repeated assaults by Dark Splinters, though one of the troopers managed to send the distress signal before his death.

## Temple Grounds

Samus's ship was still repairing itself, so she went on a search to identify the cause of the attack and recover her stolen weaponry. She began finding signs of an intelligent civilization living on Aether and chose to investigate. Her search eventually led to the Great Temple, where she found dozens of beings suspended in cryogenic hibernation. Before she could investigate further, she was immediately attacked by an Alpha Splinter, which was almost immediately possessed and transformed into a Dark Alpha Splinter. Samus managed to kill it, but a strange glowing object emerged from the dead insect and entered her suit.

Samus continued exploring the building until she encountered a being known as U-Mos, the Sentinel of the Luminoth. U-Mos informed her that his species, the Luminoth, had migrated to the planet after being drawn by its unique energy. They had lived in peace until a meteor much like the one that impacted Tallon IV impacted the planet, straining the planet's fragile dimensional stability and tearing it between two different dimensions in spacetime: the original Aether and a twisted, corrupted version called Dark Aether, which was home to a malevolent race called the Ing; it was the Ing who were responsible for the deaths and possession of the troopers, as well as the theft of Samus' upgrades. The Luminoth had been involved in a long war with the Ing for the Light of Aether and were at the verge of defeat when Samus had arrived. U-Mos also revealed that, after her battle with the Dark Alpha Splinter, Samus had recovered the Energy Transfer Module that had been stolen by the Ing years earlier. Now that she had it, she could transfer the planet's energy from Dark Aether to Light Aether; without it, the shadowy replica would collapse forever. Samus agreed to seek out the Energy Controllers to restore the Light of Aether to the Luminoth.

## Quadraxis Battle

Samus' mission took her all through Aether and Dark Aether, where she faced many Ing attempting to kill her for assisting the Luminoth, as well as several skirmishes with her mysterious double, who was dubbed "Dark Samus". She also reclaimed her stolen weaponry from the various Ing Guardians who had made use of it, and obtained Luminoth upgrades such as the Dark Suit. Once she had restored the three energy controllers to transfer the Light of Aether, U-Mos thanked her with the Light Suit, a suit that contained the Light of Aether within itself. Then, he told her of her most dangerous task: to reach the final Energy Controller, hidden within the Sky Temple. To enter the Sky Temple, though, she had to find the nine Sky Temple keys scattered about Dark Aether.

## Battle with The Emperor

Within the Sky Temple, Samus faced the Emperor Ing, a mighty behemoth that ruled the entire Ing race. Although she was almost defeated, Samus prevailed, killed the Emperor, and obtained the last of the planetary energy. Without the energy, Dark Aether started to fall apart, leaving her with only minutes to escape. Samus raced down to the Sky Temple gateway, but before she could flee the crumbling dimension, Dark Samus confronted her once more. The two dueled to the death, but Samus took advantage of her foe's sole weakness - an overload of Phazon - and defeated her doppelganger once again. In her weakened state, Dark Samus attempted to steal Samus' Light Suit, but instead dissipated into thin air. Samus then entered the portal, leaving Dark Aether to collapse behind her. The Luminoth, who had just returned from their cryogenic sleep, rejoiced and thanked Samus for freeing them from the Ing. Samus then gave them back the equipment she had borrowed from them, returned to her gunship, and she flew off into the vast darkness of space.

## The Great Invasion

Six months later, Samus was summoned to the battleship G.F.S. Olympus in orbit with the rest of the Federation fleet above the planet Norion in the Kalandor region, where she would receive her instructions for her next assignment. On the way over, however, she experienced a nightmare of Dark Samus' resurrection, as well as an anomaly within her cryostasis (which is heavily implied to have been caused by Dark Samus itself). On board the Olympus, she met with Fleet Admiral Castor Dane and Aurora Unit 242, along with fellow bounty hunters Rundas, Gandrayda, and Ghor. Dane and 242 informed of their mission:to deliver a vaccine to the Aurora Units in that system, who were suffering from a Space Pirate-engineered virus. Just as the mission briefing ended, the Pirates launched a surprise attack; all the bounty hunters, including Samus, headed down to their ships to assist with the battle at Norion's main base, fighting any Pirates they encountered in the corridors. Upon landing there, Samus was informed the Space Pirates had disabled the generators to Norion's planetary cannon; thus, she and the other hunters were given the responsibility of restoring them while the Federation Marines held off the invading Pirate forces.

Samus and the other hunters raced through the base, turning on each generator they found to restore power to the cannon. The situation soon became dire when the Federation discovered why the Pirates were attacking: a massive Leviathan was headed on a collision course with Norion. The invasion was intended to stall the Federation fleet until the Leviathan could arrive and crash into the planet, spreading Phazon everywhere. Samus headed to the final generator, only to find her old nemesis Meta Ridley waiting for her. In the ensuing melee, Meta Ridley broke through the floor and the two of them hurtled down the 1600-meter shaft, dueling all the way. Just as Samus finished off Meta Ridley, Rundas came down to rescue her and the two flew out of the shaft together. Samus restored the final generator and she and the other hunters rushed straight to the control tower to activate the cannon. As soon they made it to the top, though, they encountered Dark Samus, who had indeed been resurrected by consuming the Pirates' Phazon supply. After a brief struggle, Dark Samus incapacitated all four of them with a massive burst of Phazon, then flew off. Though barely conscious, Samus managed to fire the cannon just before she fainted, destroying the incoming Seed and saving Norion.

One month later, Samus awoke to discover that she and her fellow hunters' bodies were self-producing Phazon, with no negative side effects to their health. The Federation medics working on her had therefore equipped her with a Phazon Enhancement Device. Through this suit, she could harness her own Phazon to enter Hypermode, a function that would allow her to energize her suit and weapon systems with Phazon and giving her access to devastating powers. Samus was then informed by the Aurora Unit 242 that her fellow hunters had awoken two weeks before she had. They had also been given PEDs and were dispatched to the planets Bryyo, Elysia, and the Pirate Homeworld, which had also been struck by Leviathans. Unfortunately, the Federation had lost contact with all of them one week later. Samus was then tasked with completing the missing hunters' missions to destroy each Leviathan, as well as finding out exactly what caused the Federation to lose contact with them.

## Bryyo

Samus first traveled to the planet Bryyo, where Rundas had been assigned, and learned that the Leviathan infecting the planet was protected by two shield generators. Samus obtained the locations of the generators from a downed Federation ship, the G.F.S. Theseus. After leaving the ship, though, she noticed Rundas watching her from a distant cliff. Travelling to Bryyo's eastern region to destroy the first generator, she discovered Rundas' ship had already landed before her.

Along the way to the generator, Samus learned that her internal Phazon - once thought to be benign - could cause her body to overload with Phazon - meaning that every use of Hypermode put her at risk of being completely corrupted by the Phazon. Soon after, she encountered Rundas himself, and made to greet him; however, his uncharacteristic silence gave her pause, and he left her without a word. Shortly afterward, he saved Samus from waves of Pirates, but then attacked her as well; Samus realized that her comrade had succumbed to his own corruption, and was now a slave to Dark Samus' will. Reluctantly, she was forced to fight her former friend in a grueling duel, ultimately defeating him. But as she approached Rundas, spikes of ice erupted from the ground, impaling Rundas and killing him instantly. To Samus' shock, the specter of Dark Samus then materialized, and absorbed Rundas' body before Samus could intervene.

Following Rundas' death, she then proceeded to destroy the two generators, leaving Bryyo's seed exposed. Flying directly into the bowels of the Leviathan, she destroyed the corrupted Mogenar war golem within, which released a massive wave of Phazon that caused Samus' own internal corruption to spread. Nevertheless, she proceeded to destroy the Leviathan's core, saving Bryyo from further corruption.

## Elysia

After being briefed by Unit 242, Aran proceeded to the planet Elysia, which was home to Skytown, an ancient, floating Chozo facility where Ghor had been assigned. Fighting past SkyTown's corrupted robotic inhabitants, Samus found her way to SkyTown's Aurora Unit 217, to whom she successfully administered the vaccine. However, the now-corrupted Ghor intervened, using his Plasma Cannon to sever 217's connections to the AU network. Shortly afterward, she discovered Ghor attempting to sabotage her Gunship, and was forced to fight him. After Ghor's defeat, the spectral form of Dark Samus again arrived to absorb him; Samus tried to save her fallen hunter, but could ultimately do nothing but angrily clench her fist. After fixing the damaged AU network, Samus was informed that the Federation had located the GFS Valhalla, and was asked to investigate. Upon arrival, she found it a desolate ghost ship, filled with corpses and Phazon-mutated creatures. After an initial investigation, she returned to Elysia, and the Aurora Units informed her of a plan they devised to bypass the shield protecting Elysia's Leviathan: Gather three components to a Theronian Bomb, which would then be dropped into the seed's shield. Unfortunately, this meant that Samus also had to be on board the bomb to defend it from Pirate forces, and flee before impact in an Emergency Evacuation Pod. After the shield was breached, Samus again destroyed the Leviathan's guardian - this time a corrupted robot known as Helios - and then the Leviathan itself.

With Elysia saved, 242 then informed Samus that the Federation had received an Emergency GF communication capsule from Gandrayda revealing the location of the Pirate Homeworld. On the planet, Samus learned that much of the planet was rendered inaccessible by deadly Acid Rain, but received a communication from an escaped Federation Trooper NZG41, who claimed he knew how to bypass the rain. Samus saved the trooper, but soon discovered that "NZG41" was actually a disguised Gandrayda, who was now fully corrupted. Samus fought the final hunter in all of her various forms in a vicious battle, but ultimately the shapeshifter fell. Like Rundas and Ghor before her, the screaming Gandrayda was absorbed by Dark Samus, but this time Samus grimly accepted the fact that there was nothing she could do, looking away as Gandrayda died.

After the battle and further investigation of the Pirate Homeworld, Samus disabled its planetary shield, allowing the Federation's fleet to launch a full-scale assault on the planet. Samus personally led a team of Demolition Troopers to destroy the security door of the cargo line leading to the Homeworld's Seed. There, she encountered and defeated her old nemesis once again, now reborn as Omega Ridley. All of the Leviathans had been destroyed, but Samus had been corrupted to the point that she was now literally glowing with Phazon.

Afterward, she returned to the Valhalla to investigate its depths, and discovered that the Pirates had ignored most otherwise-valuable equipment, taking only one thing: The vessel's Aurora Unit, 313. In addition, she found the codes required to access the Pirates' Leviathan Battleship.

With this, Samus and the Federation were able to launch a final battle to destroy the newly discovered planet Phaaze - the source of all Phazon and Dark Samus' place of origin. Traveling with the Federation via a wormhole created by the Leviathan Battleship, Samus descended to the planet while the Federation kept the Pirate forces busy. As soon she set foot on Phaaze, Samus absorbed dangerous amounts of Phazon and was nearly corrupted completely; even after venting all her available energy tanks and locking herself in permanent Hypermode, she was living on precious borrowed time. Venturing to the planet's inner sanctum, she encountered Dark Samus, and, after a long battle, Dark Samus merged with the stolen Aurora Unit 313 that was linked with Phaaze's core. After one final battle, Samus was able to overpower and destroy both her doppelganger and the Aurora Unit. Since the Aurora Unit was linked to the planet's core, its destruction caused a chain reaction that resulted in the destruction of Phaaze and the erasure of all Phazon from the universe, including the Phazon inside Samus' body. The Federation fleet escaped via another wormhole, but lost contact with Samus in the process. Just as the Federation had given up all hope of Samus' survival, she flew in and reported that the mission had been completed, closing the curtain on the Phazon saga.

After leaving the celebrating Federation fleet, Samus returned to

Elysia, where she mourned the loss of her fellow bounty hunters on this mission. Eventually, she left Elysia and headed off to find her next mission, but failed to notice a mysterious gunship following her.

## Bermuda System and the Federation Force

After a Space Pirate presence was discovered by the Galactic Federation in the Bermuda System, Samus was called in to investigate. The Bermuda System is a three-planet solar system with abandoned Galactic Federation facilities. The Federation Force, a team of highly trained soldiers wearing Mech suits modeled after Samus's Power Suit, was already there. Samus worked alongside them to battle Space Pirates, saving the group from a Rohkor Beetle at one point, but mostly gathering intelligence for them.

At some point, she was taken hostage by the Pirates and somehow put under mind control. When the Force boarded the Doomseye, a large Space Pirate battle station, the Pirates used technology from the ancient Bion race to increase Samus's size and forced her to fight the Federation soldiers. The Federation Force bested her and she was seemingly crushed by falling debris. The blow freed her from mind control, however, and after recovering, she saved the Force twice, first by destroying a group of Elite Pirates, and then by catching the soldiers with her ship when they were sucked into space. Samus told the Force that meeting them had been an honor, and then thanked them for saving her and the universe.

## SR-388 incident

What happened after this period of time is unknown. However, ultimately the Galactic Federation decided that the Metroids were too dangerous to exist, given the devastation they had caused in Pirate hands. After two failed attempts by their own troops, the Federation asked Samus to exterminate them herself, given her long experience in dealing with the creatures.

Arriving on SR388, Samus learned that the planet's environment caused Metroids to mutate into different forms, each stronger than the last. She also discovered ancient Chozo ruins, including a golden seal that was tied to the corrosive purple liquid blocking access to deeper areas of the planet; every time Samus managed to successfully kill all the Metroids in an area, the seal would lower the liquid levels, allowing the hunter access to deeper levels where stronger Metroids were hiding. Her search finally led her to the Queen Metroid, which was responsible for the reproduction of the entire Metroid species. Samus managed to kill the beast and thus believed herself to have successfully eliminated the Metroids for good. As she continued down the tunnels, however, she found a single Metroid egg. As she stared at it, an infant Metroid hatched out of the egg and, upon seeing Samus, imprinted on her as its mother. Samus felt compassion for the infant and, going against her orders, took the Metroid Hatchling to her gunship and made preparations to leave the planet.

Before she could actually leave the planet with the infant, however, an unexpected threat arrived and grabbed the Metroid: her old foe, Ridley. Samus fought him over the baby, eventually grabbing his tail as he was flying away and proceeded to blast him directly in the exposed abdomen at point blank range until he was forced to let go of the baby Metroid before promptly blasting him in the wing and sending him flying into a cliff. However, Ridley rose from the rubble and resumed his attack on Samus, eventually blocking her attacks and throwing her against a wall before pinning her down to blast fire at her. She was saved by the baby, who proceeded to absorb enough energy from Ridley to rejuvenate her, allowing her to triumph over the Space Pirate leader. Afterwards, she then left the planet with baby.

## Final Mission to Zebes

Samus, knowing how valuable the Metroid hatchling could be to the Federation, headed to the Ceres Space Colony, and chose to turn it over to the scientists there, who believed they could harness the infant's power for the good of mankind. Confident in their findings, Samus proceeded to leave the station. However, she had not even left the asteroid belt where Ceres was stationed before she received a distress signal from the scientists. Returning to Ceres, she discovered that the Space Pirates had attacked the station in hopes of stealing the Metroid. Ridley himself had captured the infant and was about to make off when Samus arrived. After a brief struggle, Ridley flew out of the station and set the self-destruct to destroy the entire station. Samus barely made it out alive, flying away in her gunship while Ceres exploded behind her.

She managed to track Ridley and the other Pirates to Zebes, discovering that the Space Pirates had rebuilt their old base on the planet and had returned to their old plan of cloning Metroids. Mother Brain had returned as the head of the base, as had Ridley and Kraid. Two new Pirate generals had been recruited as well: Phantoon, a ghostly being that haunted the Wrecked Ship, and Draygon, a massive Evir which presided over Maridia. After defeating them all, Samus was granted access to Tourian. She proceeded to exterminate the Pirate-cloned Metroids she found there, but was suddenly attacked by a massive Metroid, far larger than any she had ever seen. All her weaponry was useless against it, and soon the Metroid had drained her suit to critical levels. Just moments away from her death, the Metroid relinquished its hold and fled after figuring out that it was Samus, leadin Samus to realize that it was the Baby, enhanced through unknown means.

Samus continued through Tourian until she encountered Mother Brain and proceeded to destroy her tank as before. Though she appeared to be defeated, Mother Brain suddenly emerged from the wreckage in a massive new body. Samus fought with all her might, but Mother Brain retaliated with the Laser Brain Attack, leaving Samus near death once more. Just before Mother Brain could launch another blow, the infant Metroid suddenly arrived, sucked the life out of Mother Brain, then began transferring the life to Samus. Mother Brain was not yet dead, though, and it began attacking the Metroid. An energy shot from Mother Brain finished off the Baby, but Samus had been revived and used Mother Brain's own Hyper Beam against her until she was no more. Mother Brain's death triggered yet another self-destruct mechanism, only this time, the entire planet was engulfed in the explosion. Samus escaped with her life, while Zebes, the ancient home of the Chozo and her childhood home, was lost forever.

## The BOTTLE SHIP Incident

Although she managed to escape from Zebes, Samus was injured from her fight against Mother Brain and from the mission overall, eventually resulting into her admission into a hospital. Samus recovered and flew off, but she still mourned the loss of the Baby. After several weeks of drifting aimlessly, Samus received a "Baby's Cry"-type distress signal directing her TO a facility known as the BOTTLE SHIP. She found that a Federation vessel had also received the S.O.S. and had docked on the BOTTLE SHIP. The crew of the ship, to her surprise, was the Federation squad she had been a part of when she had been enrolled in the GF Army, the 07th Platoon, consisting of several soldiers, namely Anthony Higgs and Adam Malkovich. She and the team were forced to cooperate in order to overcome the apparent dangers of the BOTTLE SHIP; Samus was allowed back onto the team provided that she followed Adam's orders. After restoring power to the Main Sector and being sent to inspect the Biosphere, Samus came across a small, furry creature that stopped to stare at her.

After much discovery and exploration, Samus arrived at the Exam Center toward the rear of the Biosphere. There, she met up with her comrades and activated a computer terminal. The data revealed that the BOTTLE SHIP was a research station where bioweapons were being bred under the directions of Madeline Bergman. Noticing a large lizard-like creature attacking the soldiers outside, Samus raced to help them, but was ambushed and almost killed before Anthony shot it off of her, said creature fleeing immediately afterward. They then found the body of Lyle Smithsonian, who appeared to have been mauled by the creature. Samus also found the lifeless shell of the small white creature she saw earlier, which was actually the immature form of the lizard beast that had attacked her. Samus pursued the creature into the Pyrosphere but was soon ordered to go to the Cryosphere to search for survivors. There, she found the body of Maurice Favreau and noticed a young woman staring at her. From events that had taken place, Samus deduced that there was a traitor in the platoon and nicknamed him The Deleter. Returning to the Pyrosphere, she then discovered the beast she was tracking was actually her nemesis, Ridley. He hurled Samus' old friend Anthony into a pool of Lava, angering Samus and empowering her enough to defeat Ridley once again, though he managed to escape.

Entering the Bioweapon Research Center while tracking the Deleter, Samus once again encountered the young woman, who identified herself as Madeline Bergman and explained what was going on. The

BOTTLE SHIP scientists were trying to create a special forces unit modeled after the Space Pirates, which was then succeeded by cloning Metroids off fragments of the Baby on Samus' suit. An AI that recreated Mother Brain's thought processes so that the Metroids could be controlled was also developed, and nicknamed MB. Madeline gives Samus the directions to Sector Zero, a secret area on the BOTTLE SHIP containing the Metroids and MB. Samus set off to destroy them, however, Adam raced off to stop her. Samus walked to the entrance and was suddenly shot when about to kill a Metroid, being weakened by Adam so that she couldn't strongarm her way past him. He gave her his last orders and proceeded to detach and destroy Sector Zero. Samus mourned his death, but eventually recovered and swore to finish the mission.

Returning to the Bioweapon Research Center to locate a survivor and find and defeat Ridley, she found the latter reduced to a dried husk, and later came across several hatched Metroid Eggs. Samus is then attacked by a Queen Metroid, who spawns Metroids as Samus engages it once again. Samus then chased the survivor, who also identifies herself as Madeline Bergman. Madeline cleared up Samus' confusion: she had actually met MB earlier. MB then stepped in and aimed a Freeze Gun at the two of them before numerous Federation Marines invaded and froze her. She then summoned an army of Ghalmanians, Mighty Griptians and Desbrachians to attack, but is ultimately killed by the Marines. As Madeline mourns, The Colonel steps in and praises Samus' work during the mission, but states that she is now an outsider due to the death of everyone in the platoon, and thus she cannot have any contact with Madeline. However, it turns out that Anthony survived his encounter with Ridley by freezing a Magdollite, revealed when he volunteers to escort Samus back to her ship. Leaving the BOTTLE SHIP with the two of them, Samus reflected on Adam and MB as she flew towards Galactic Federation Headquarters.

Several days later, the Federation decided to destroy the BOTTLE SHIP. Samus returned, however, to recover an important item. Progressing through the environments once again, and defeating her old foe Phantoon, she eventually reached Adam's post, finding his abandoned helmet. Embracing it, Samus reverted to her Zero Suit, and held the helmet as she raced to her gunship.

## Becoming Metroid

SR388 was now free of Metroids, and so the Galactic Federation decided to send in a research party to investigate the planet. Due to her previous experience with the planet and its inhabitants, Samus was hired to serve as a guide to the researchers, to collect samples of life for the Biologic Space Laboratories research station. The researchers and Samus arrived on the planet, and when they were trying to capture a Hornoad, a mysterious organism injected itself inside Samus. Thinking nothing of it, the team continued on their mission. After their search was completed and the team returned to their ships, the parasite, which had infested Samus' central nervous system, caused her to fall unconscious. Though her gunship crashed into an Asteroid belt, Samus was safely ejected from the ship and her escape pod was retrieved by the BSL. She was far from safe, however, as the parasites (which would later be named X) continued to spread throughout her body.

The X had infected so much of Samus' Power Suit that large portions of it had to be surgically removed, drastically altering its physical appearance. She was initially given a less than 1% chance of survival, but fortunately the scientists discovered a cure: Metroid DNA. The Metroids were discovered to have been created by the Chozo in order to control the X. With this knowledge in mind, the scientists used a culture of Metroid cells extracted from the Baby to make a vaccine. The vaccine was an astonishing success; the X were completely purged from Samus' body, curing her completely. However, it also had some unexpected side effects: Now that she was immune to the X, Samus could absorb them to regain energy and Missiles. She also gained the Metroid's trademark weakness to cold. More than just her biology changed, however; the surgical removal of parts of her Power Suit had left her with a radically different appearance: the new Fusion Suit. She then recalled that, before that point, the Baby had saved her twice, once against Ridley on SR388 and the other time against Mother Brain on Zebes.

Despite her recent illness, Samus was not given furlough by the Federation. She was immediately issued a new Gunship with an onboard computer to serve as an aide. This computer's personality reminded her heavily of her former Commanding Officer and so, with irony noted, she chose to name it Adam in his memory. Samus was then sent to the BSL research station where the last batch of creatures from SR388 and the infected parts of her Power Suit were sent. She was to investigate an unexplained explosion in the Quarantine Bay. To her great surprise, she discovered that the X Parasite within her Suit had taken on her form, and it had become the SA-X (short for Samus Aran-X). It was responsible for the breach of Quarantine Bay, and as a result, the X ran amok throughout the station. All the researchers aboard the station were dead, and it was up to Samus to contain this breach. The X and the SA-X made many attempts to kill her, but Samus was always able to outsmart them, even in her weakened state.

Eventually, Samus's missions through the BSL brought her to the Restricted Lab. After acquiring the Wave Beam, Samus was able to bypass the security door and enter inside. Inside the lab, Samus made a surprising discovery: the Galactic Federation were cloning Metroids. Before she could investigate further, she found the SA-X had followed her inside the lab and was releasing the Metroids so it could attack them. The Metroids soon overpowered it, but the SA-X's breakout had set off the lab's self-destruct failsafes. Samus managed to escape, but the lab broke away from the rest of the station and exploded, destroying the Metroids and the SA-X together.

When Samus spoke again to Adam, he was angry with her for meddling in top-secret Federation research. He also informed her that the Federation was very interested in his extensive research on the X and viewed it as a wonderful organism with a variety of uses. Several Federation officials were coming to the BSL in hopes of capturing the X and SA-X (due to asexual reproduction, there were now no fewer than ten SA-X aboard the station) for military purposes. Samus vocally disapproved, insisting that the Federation were underestimating the threat that the X posed, and resolved to activate the ship's self-destruct to destroy the X, and herself if necessary.

Adam was aware of this, though, and thus locked all the doors. Samus reacted with outrage when she discovered what it had done and angrily yelled, "Don't let them do this! Can't you see what will happen, Adam?" The computer was confused at this response, as Samus had never disclosed her personal nickname for it. It asked for an explanation as to who this Adam was. Samus only told him that Adam was a friend who understood when sacrifices had to be made. From this, the computer was able to correctly deduce that Adam had given up his life to save Samus. However, it disregarded this, since Samus was incorrectly assuming that destroying the station would defeat the X for good, and curtly decided: "When Adam chose who would live, he chose the wrong person."

Suddenly, something unusual began happening. The computer began adopting the persona of the former Adam. It unlocked the doors and told Samus that her instructions were to head to the Navigation Deck and change the station's orbit so that it would crash into SR388, so that when it self-destructed, the planet too would be caught in the field. It ended this sudden command with Adam's famous clincher: "Any objections, lady?"

Refreshed with a new spirit, Samus headed to the Navigation Deck, but the SA-X burst in once more with murder on its mind. Endowed with her new weapons, Samus managed to defeat the clone, continuing fearlessly even when it mutated into a massive beast and then into a Core-X. Eventually, the SA-X was reduced once more to a lowly X, but before Samus could absorb it, it eluded her and escaped into the ventilation system. Disappointed and tired, but still determined, Samus continued her way up the Navigation Deck until she reached the terminal that controlled the station's orbit. Samus altered its orbit and set off the self-destruct, then proceeded to return to the Docking Bay. When she arrived, though, her ship was nowhere to be found, and she was suddenly ambushed by an Omega Metroid, the evolved form of a Metroid that had escaped the Restricted Lab before its destruction. The creature defeated her in a single blow, but just before it could kill her, the SA-X appeared and began attacking the Metroid with its Ice Beam. The Omega Metroid recovered in time and attacked the SA-X, giving Samus enough time to absorb her doppelganger. Endowed with her Ice Beam once more, Samus made short work of the Omega Metroid. Shortly after killing it, her ship then returned to the station to save her. Samus flew away just before BSL, and SR388, exploded together.

Back in the safety of space, Samus discovered that it is a common practice for the Federation to upload the minds of great leaders to computers and that this is what had happened to Adam. After this point, it is unknown what will happen to Samus, as she disobeyed a direct order from the Federation, and subsequently destroyed all their research aboard the BSL.

---

Qin was amazed and horrified.

Qin: Wow! You've been through so much over your life!

Samus: My life has been one of a lot of adventure.

Syd: But that is so cool that you went to all kinds of awesome planets and got so many awesome powers for your suit.

Janeen: That's my mother for you. She would tell me story after story about all her amazing adventures. She faced all kinds of awesome creatures and faced all kinds of tough enemies.

Syd: Do you have a record of all of them?

Samus: I sure do.

Samus loaded all the creatures from her logbooks and we saw a lot of them!

Me: Whoa! Look at all these creatures!

Syd: This is so cool! These creatures are all so amazing!

Janeen: They sure are. I can't believe that you saw this many creatures.

Lori: That is literally so amazing that you have seen so many creatures on all those planets.

Girl Jordan: That is amazing. We have been to a lot of planets where we saw a lot of neat places and saw a lot of things.

Shanan: It's all really cool.

Bella: It sure is. The Omnitrix can house the DNA of millions of aliens from all over the universe.

Me: Lets download these creatures into our repertoire of aliens.

Me, Bella and Ben did so.

Nico: Wow! That is all amazing that you saw all of those creatures.

May: No kidding.

Then I got a call from Shaggy on my Cell Phone.

Me: Hello? Oh hey Shaggy.

Shaggy: Like, I have great news J.D. I'm heading over to the Beauregard Mansion to collect my family inheritance.

Me: Wow! The mansion that belongs to your ancestral uncle?

Shaggy: That's right. Me and the gang are like heading over there now.

Me: Maybe we can come with you.

Shaggy: Like that would be great. It's over in northern Alabama.

Me: We're on our way Shaggy.

We were then on our way to the Beauregard Mansion in Northern Alabama.

## BEAUREGARD MANSION, NORTHERN ALABAMA

We were going through a spooky forest and it gave us the creeps.

Me: Wow! What a creepy place your uncle lived in, Shaggy.

Velma: I think it's gonna be really interesting seeing what your uncle's house looked like.

Freddy: Lets hope it's an old house.

Daphne: Jeepers. That would be something.

Googie: That would be cool.

But then we saw the ghost of Confederate Colonel Beauregard.

Colonel Beauregard: GO! GO! GO BACK! Leave this place!

Me: That's Colonel Beauregard!

Shaggy: ZOINKS!

Me: Wait! Let me handle this.

I went up to him.

Me: Colonel Beauregard, we mean no harm to you.

Colonel Beauregard: Who are you?

Me: My name is James Dean Knudson, direct descendant of Senator of Massachusetts, Charles Sumner. You and my ancestral uncle were very best friends during the American Civil War.

Colonel Beauregard: So you are. Charles Sumner was the greatest friend I've ever asked for. We didn't show our friendship during the war and we kept it in secret all those years ago.

Me: That was 154 years ago.

Lori: Wow! J.D. that is literally amazing.

Shaggy: Like yeah! You said that you are descended from Charles Sumner and I am descended from Colonel Beauregard, we would be enemies back then.

Me: In terms of Civil War heritage and historical references. But that's if the war was still raging on.

Lola: What was the reason why we were at war back then?

Me: It was a major controversy over the enslavement of black people back then. No offense Clyde.

Clyde: None taken J.D. But that was terrible back then.

Me: The American Civil War lasted from April 12th, 1861 to May 9th, 1865.

Lisa: For 4 years, 3 weeks and 6 days.

Me: Exactly.

Colonel Beauregard: Yes. You are just like my friend J.D. He would be very proud of you now.

Me: I'm sure he would Colonel.

We shook hands and Colonel Beauregard went up to heaven so he could be at rest.

Me: I'm glad he can be at rest.

Scrappy: You said it J.D. But that is really interesting that your ancestral uncle and Shaggy's ancestral uncle were best friends back then.

Me: Family history works in all kinds of mysterious ways.

We proceeded on and we found the Beauregard Plantation. It was an old and spooky house.

Me: Wow! So this is the Beauregard Plantation.

Laney: (Fearful) Lo..loo Looks like a scary place.

Nico: But it is the home of Shaggy's ancestral uncle.

Lincoln: Lets go in.

We went into the house.

Me: Hello?

Varie: Anyone home?

Out came a hunchback man with red hair and dressed in a tuxedo.

Farquard: Ah welcome.

Shaggy: Who are you?

Farquard: I am Farquard, manservant of the colonal and rightful owner of this place. Unfortunately the old fool decided to give it all to you Shaggy! Including the family jewels! So I am at your service.

Scrappy: Family Jewels?

Shaggy: What family jewels?

Farquard: What family jewels!? Only a King's Ransom! Hidden somewhere on the estate.

Me: I've heard about this. Rumor's have been flying around over the course of 154 years that Colonel Beauregard had a massive fortune equal in value to ours. It is said that Colonel Beauregard put clues all over the area to the location of where the treasure might be.

Nicole: I love treasure hunts. This is gonna be a huge treasure from 154 years ago.

Nico: It will be interesting.

Lincoln: But I don't trust you Farquard. Something is telling me that you want the family jewels all for yourself.

Farquard: You're right you white hair freak!

Laney tied him up with bramble vines and left him on the floor.

Me: You want the fortune of Shaggy's uncle? You can have it over our dead bodies.

?: Let us help you with finding the treasure.

We turned and we saw Shaggy's old friends, The Boo Brothers - Freako, Shrieko and Meeko.

Shaggy: Wow! The Boo Brothers!

Freako: Long time no see Shaggy.

Scrappy: It's great to see you guys again!

Shrieko: You too Scrappy.

Meeko: Same to you.

Luan: It's nice to meet the famous Boo Brothers!

Freako: You too Luan. Team Loud Phoenix Storm, it's an awesome honor.

Me: You too. You guys remind me of the Three Stooges.

Meeko: They were like us though.

Me: Would you guys like to help us?

Freako: We would be honored.

Me: It's gonna be a treasure hunt and an awesome adventure.

We got to work and searched for the treasure. We looked in the fridge and in an ice tray we found an amazing surprise!

Me: Hey look here!

We found a diamond in the ice tray.

Lana: Wow! What a diamond!

Lisa looked at it and saw that it was internally flawless and it was perfect.

Lisa: Very impressive diamond. Internally flawless and priced at $725,000,000,000.00

Me: Wow! What a diamond!

Scrappy: And look what else is here. It looks like a letter.

Me: Lets see.

I opened it and read it.

Me: "Dear Shaggy, knowing your appetite I thought this would be the best place to hide this message and this jewel. It's only one of many in my fortune, which I hid to keep them away from my enemies. To find the next clue to their hiding place, go outside. Then look for the part of the house with its knee out." Very cryptic.

Lola: Very interesting.

Bai Tza: Houses don't have knees.

Nico: But the fortune all belongs to you Shaggy.

Shaggy: Like yeah. This is gonna be awesome!

Nicole: Actually they do in metaphorical terms. It's the Chimney!

Shaggy: Then we have to go outside.

Me: It appears so.

Freddy: Lets head out there then.

Me: Wait guys.

I pulled out a scroll and unsealed a bunch of powerful 12 gauge shotguns and 35 caliber rifles.

Me: You'll need these.

Lori: What are the shotguns and rifles for?

Me: There's a nasty Hatfields & McCoy's style feud raging on right now here in this area.

Jessie K.: I've heard about that. That's the Beauregard-Scroggins Feud. It's a nasty blood feud that is raging on even as we speak. For over 150 years the feud raged on and anyone on the Beauregard family will be shot by the Scroggins.

Everyone: WOW!

Lori: That is literally a nasty feud.

Luna: No kidding dude. What is the reason for this feud?

Me: Fights over land and revenge killings.

Brittney: That is one nasty grudge dad.

Me: We have to protect ourselves while we search. So that's why I brought these shotguns.

Nico: Good thinking.

Me: If it's a fight they want Hatfield's & McCoy's feud style, it's a feud they will get. As William Hatfield once said: "(Hillbilly Accent) It's Feudenin' Time."

Crystal: Lets get that treasure.

We took the shotguns and rifles and got to searching.

We went up to the roof and Lana flew up and she found another diamond and a clue!

Lana: Hey Guys! I found a diamond and the next clue!

Me: Bring it down Lana. Lets see.

Lana came down and I opened the clue.

Me: "You're nearer the family jewels than before. A broken key unlocks the next door."

Lola: That is very cryptic. But wait! I did see a broken piano key on a piano.

Nico: That could be it.

BANG!

A bullet hit the ground.

We turned and we saw Billy Bob Scroggins.

Me: Billy Bob Scroggins!

Billy Bob: (Hillbilly Accent) That's right! You have a lot of nerve siding with a Beauregard!

Me: For your information you crazy moron, I am also a friend to the Beauregard's!

I fired a shotgun blast at him and he ran away.

I fired more blasts.

Lola: Boy that guy looks like he is nothing but trouble!

Me: You got that right.

Then we heard a loud screech in the sky and we saw THE PTERODACTYL GHOST!

---

In the The Scooby-Doo Show episode "Hang In There, Scooby-Doo!", The Pterodactyl Ghost was a scary creature. It terrorized a hang gliding contest. He was actually unmasked to be a man named Johnny.

---

Me: It's the Pterodactyl Ghost!

Scrappy Doo: I thought the Pterodactyl Ghost was dead!

Maria: It was. And now, it's a Heartless!

Qin: Whoa! What was he known for?

Me: The Pterodactyl Ghost was really a man named Jonathan Jacobo. He was the head of a major music piracy operation.

Freddy: I remember that.

Nico: Piracy is a major federal offense.

Shaggy: But isn't like, Jonathan Jacobo still in prison?

Me: He is. After we shut down the Scooby Doo Revenge Social Network with the help of the FBI, we got all the villains that the Mystery Inc. gang busted put in prison for the rest of their miserable lives.

Nicole: They deserve to spend the rest of their lives in prison without parole. Lets get this Pterodactyl Ghost freak!

Troy Burrows: Time to fight dinosaur with dinosaur!

Megaforce Rangers: Legendary Ranger Mode: Mighty Morphin!

Boo Brothers (charges at Pterodactyl Heartless): It's scaring time!

Troy turned into the Red Ranger, Noah turned into the Blue Ranger, Jake turned into the Black Ranger, Gia turned into the Yellow Ranger, Emma turned into the Pink Ranger and Orion was the Green Ranger.

We went at him. I punched the Pterodactyl Ghost in the face and Varie punched it in the stomach and chest and Laney lashed it all over the place with her plants. Troy slashed the Pterodactyl Ghost with the Tyrannosaurus Sword, Noah slashed the Pterodactyl Ghost with the Triceratops Mace, Jake slashed the Ghost with the Mastodon Axe, Gia slashed the Pterodactyl Ghost with her Saber-Tooth Tiger Daggers, Emma fired an arrow from the Pterodactyl Bow at the ghost and skewered it and Orion slashed the Pterodactyl Ghost with his Green Dragon Dagger!

Me: Lets finish it with our teamwork!

Ruckus: You got it boss! CYBER KEY POWER!

The Earth Cyber Planet Key went into his back and it enhanced his mercury-tipped explosives 100-fold.

Ember: Time to fight Ghost Power with ghost power! GHOST ZONE CYBER KEY POWER!

The Ghost Zone Cyber Planet Key went into her right arm device and it enhanced her ghost powers 100-fold.

Ruckus and Ember McLain: MERCURY EMBER FIRESTORM INCINERATOR!

Ember fired a powerful blast of fire from her guitar and Ruckus fired a powerful barrage of Mercury Missiles and they hit the Pterodactyl Ghost Heartless and exploded into a massive inferno.

G1 Slug: Me, Slug, dealt out pain! CYBER KEY POWER!

The Animatron Cyber Planet Key went into his back and enhanced

his Triceratops power and strength 100-fold.

Gwen T.: Lets get him! ANODYNE CYBER KEY POWER!

The Anodyne Cyber Planet Key went into her right arm device and it enhanced her Anodite powers 100-fold.

G1 Slug and Gwen Tennyson: ANODITE TRICERATOPS BATTERING RAM!

Gwen's Anodite Powers turned Slug into a powerful Triceratops made of pure mana and they slammed into the Pterodactyl Ghost with devastating force.

Me: Time for this Pterodactyl Ghost knockoff to get turned into fried chicken!

Luan: It's time to make this chicken Crow! (Laughs) Get it? But seriously, he will burn! RED LIGHT INCINERATOR BEAM!

Luan fired a massive blast of red light and it hit the Pterodactyl Ghost and ignited him into a mass of fire.

Nicole: Lets send him back to the Stone Age! COSMIC DRAGON FIRESTORM!

Nicole fired a massive beam of stars and energy and it turned into a powerful dragon and it slammed into the Pterodactyl Ghost and exploded.

KRABBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOMMMM!

Shaggy: Time for you to like, hit the tombstone! SUPERBURGER BOMBSHOWER!

Shaggy fired a powerful barrage of burgers made of energy and they hit the Pterodactyl Ghost and exploded all over him!

KRABBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Freako: Time to deliver the final blow boys!

Shrieko: Lets do it! NYUCK NYUCK NYUCK NYUCK!

Meeko: We're with you all the way!

Boo Brothers: BOO BROTHERS TRINITY BLAST!

The Boo Brothers fired powerful beams of Yellow, Pink and Green energy and they hit the Pterodactyl Ghost Heartless and completely obliterated it in a powerful explosion!

KRABBBBBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

The Pterodactyl Ghost went into the River of Fire.

Shaggy: Like, that's the last we'll see of that creep outside of its costume!

Me: Jonathan Jacobo is still in Federal Prison.

Nico: But he has failed this world.

Me: Yep. Lets continue searching for the treasure.

We went back into the house and we found the piano.

Laney: Here's the piano.

Lola: And here's the broken piano key.

I pressed the broken key and it opened a secret room.

Nico: A Secret room.

Me: Lets head in.

We went into the room.

Lincoln: Hey guys look here.

Lincoln found another diamond and another clue.

Lucy Loud: Great job Lincoln.

Me: Lets see what it says.

I looked at the clue and read it.

Me: "Look for a relative who is quite old, whose face cannot look, and whose hands cannot hold."

Lana: Hey I know what that is. It's the Grandfather Clock.

Nico: And there's a grandfather clock down the hallway. Lets go.

We found the clock and Lana opened it and she found a diamond and another clue.

Luan: Way to go Lana!

Lori: That one was literally easy.

Bai Tza: It sure was.

Me: Lets see what this one says.

I read the clue.

Me: "There is no pendulum in this clock. So, what does it lack besides a tock?"

Luna: A tock. I know dudes! A Tick! It's in the Attic!

Shaggy: Like, that's where we got to look.

We went up to the attic and we started searching.

Luan then found something.

Luan: Hey guys! Look what I found!

Luan had a beautiful gold and diamond necklace and the next clue.

Lisa: That is a very dazzling necklace.

Eddy: And she found the next clue!

Shaggy: Like, yeah! Way to go Luan.

Me: Lets see what this one says.

I read the clue.

Me: "For the next clue, don't look any higher. Think what you are when you're not the buyer."

Lola: I know where that is! It's the Cellar! The next clue must be in the cellar.

Laney: Good thinking Lola.

Me: Lets go.

We went down into the basement cellar and it was an interesting cellar loaded with all kinds of treasures from the American Civil War.

Me: Wow! It's all stuff from the American Civil War.

Laney: This would be perfect for a museum.

Lincoln: It sure would.

We saw an old Civil War cannon.

Me: Wow! It's an old cannon from the American Civil War. We haven't used these cannons for 150 years.

Jessie K.: No kidding. Still in great shape.

Nico found a huge pile of cannonballs.

Nico: And look at all these cannonballs.

Lana: These are still in good shape.

Lynn was lifting up the cannonballs like weights.

Lynn: These cannonballs would make great weights.

Scooby then smelled something coming from another room.

Scooby Doo: (Opens the door) (Sniffs) Smells good. Oh boy! Look at that!

Scrappy: What ya find uncle Scoob?

Me: Lets go see.

We went into the room and we saw that it was a room full of hams.

Scooby Doo: (Munching a ham) Better than that.

Scrappy: Wow! Look at all the hams.

Nicole: Hams are really tasty.

Velma: And look at the ham eating the ham.

We laughed at Velma's joke.

Luan: (Laughs) Good one Velma.

Me: That was funny.

Shaggy: Wow. Like I'm starved.

Scooby picked another ham and it opened and out came a gold and diamond tiara and another clue.

Scooby Doo: Hey look!

Lola: Wow! The next clue.

Laney: And a beautiful tiara.

I put the tiara on Lola's head.

Me: Perfect. Lets see what this next clue says.

Lola: May I read this one?

Me: Sure Lola.

Lola read the clue.

Lola: "The next clue you seek is large and flat. It's the kind of stone you use as a hat." That's bizarre.

Scooby Doo: A stone hat? That's ridiculous.

Lucy Loud: I got it. It's a headstone. Like the ones out in the cemetery

Shaggy: (Gulps) Ce..ce..ce..ce..ce..CEMETERY!?

Me: Looks like we're heading back outside.

We went outside and we had our guns ready. We were walking to the cemetery. We were ready for anything.

I then sensed that Billy Bob was right behind us and I turned and fired a shot at him and he got hit in the leg and Lori grabbed him and turned him into a human pretzel.

Me: Nice job Lori.

Lori: Thanks.

We made it into the cemetery and we found the gravestone of Colonel Beauregard.

Me: Colonel Beauregard's grave.

Lucy flew up to the head of the grave and lifted the hat and under it was a gold and diamond broach and the next clue!

Lucy Loud: Gasp! It's the next clue.

Lucy grabbed them and handed them to me.

Me: Way to go Lucy!

Laney: Lets see what this one says.

Me: Go ahead Laney.

Laney read it.

Laney: "You're nearing the end of this obstacle course, so if you go buggy, you won't need a horse."

Liam: (Southern Accent) I know what that is! There's a horse buggy in that there stable behind the house.

Carmen: I saw it myself. Good work Liam!

Liam: Tweren't nothing dumpling.

Me: Then it looks like we're heading to the stable next.

We went to the nearby stable. I opened the door and inside it was THE HEADLESS HORSEMAN!

Shaggy: YIKES! THE HEADLESS HORSEMAN!

Me: Wait a second. It's not real. It's a mechanical horse with a dummy on it.

Brittney: Some headless horseman.

Me: I think I know where the next clue is. It's in the buggy.

I dug through it and found a red ruby and the next clue.

Me: Found it!

Lynn: Whoa! That is a red ruby.

Lori: Literally beautiful.

Me: Lets see what this clue says.

I read the clue.

Me: "To get to the bottom of things is the trick. Think how you're feeling when you are not sick."

Lisa: I believe I know where the exact location of the clue is. It's pointing to a magical monetary offering repository; Street Name: Wishing Well.

Laney: There's a well down the street from the stable.

Shaggy: Then like, that's where we're heading.

Crystal: Lets go.

We went down to the well and we went down it.

Lynn then tripped and opened a door by accident.

Me: You all right Lynn?

Lynn: I think so. But look at this!

We saw a room and in it was a bunch of old supplies from the American Civil War.

Scrappy: Wow! Looks like an old secret Civil War supply cave.

Me: It's got old guns, cannons, food, swords and everything from the Confederate Army. We haven't used all this stuff for over 150 years.

Shaggy: Yeah! And there's a tunnel opening!

Linka: And look over there. It's a pearl necklace and the next clue.

I took the necklace and clue.

Me: It says "At the end of this tunnel, are many more pearls but on the way, many more perils."

Nicole: That one is very cryptic.

Me: I think I know where it's at. Lets go.

We went down the tunnel and we had to run past a hall of spikes, a splitting floor, falling rocks from the ceiling and we went through a secret entrance that lead into the basement.

Brittney: We're back in the basement. This must be how the ghosts were getting in.

Shaggy: Ghost? What ghost?

Brittney: I saw a skeleton ghost with glowing red eyes running around.

Scrappy: And look more pearls and the next clue.

Luna: Lets see.

Luna read the clue.

Luna: "There's no mystery about this clue. Inside Bear Cave, the jewels are in plain view."

Nico: There's a bear cave not too far from here.

May: I hope a bear isn't inside it.

Hunter: (German Accent) Ja. But if there's a bear we'll make him into chopped meat!

Vince: We sure will.

Me: Lets go.

We went to Bear Cave. We arrived at the entrance to the cave and went in. We had to be real quiet to not disturb the bear. But luckily I found the jewels. It was a diamond and ruby necklace and the next clue was with it. It was on top of a tall stalagmite. Tara grabbed it and handed it to me. We got out of the cave and went into the light.

Tara: Lets see what this clue says.

Tara read the clue.

Tara: "Go to a place that covers the tide. To find the last clue, just "pier" inside."

Bai Tza: Hey, I know where that is. There's a boathouse by the lake. Lets go there.

Me: Good work Bai Tza. There's a lake with a boathouse not too far from here. Lets go guys.

We went to the boathouse and went in.

Bai Tza: Hey guys look!

Bai Tza flew over to a boat and found a jeweled crown and the last clue!

Girl Jordan: Way to go Bai Tza!

Me: Lets see what it says.

I read the clue.

Me: "No more riddles, here ends the chase. The treasure's in the fireplace."

Nico: The grand fireplace in the mansion!

Me: Lets go!

We went back to the mansion and we saw the skeleton ghost!

Skeleton: That treasure is mine!

Brittney: Like hell it will be you bonehead!

We went into the mansion.

I punched the Skeleton Ghost in the face and I ducked under a punch and kicked him in the stomach and punched him the face.

Bai Tza: I think I see the lever.

Bai Tza pulled it and three skulls on the fireplace hearth spun like slot machine reels. They hit three big cherries and out came an enormous pile of gold, diamonds, rubies, sapphires, emeralds and more!

I knocked down the Skeleton Ghost.

Shaggy: Take a look at those diamonds!

Nico: Wow! What a treasure!

Freako: That is a huge haul!

Lincoln: No kidding.

Me: Lets see who this fucked up bonehead is.

I took off his mask and it was T.J. Buzby!

Me: T.J. Buzby!

Shaggy: Like, I remember him! But wasn't he locked up for trying to steal that treasure at that haunted house in Maine?

Me: Yeah! How did you get out of prison cueball?

T.J. Buzby: I escaped by cutting a hole in the wall and through the fence.

Daphne: Jeepers! I heard that he escaped from prison two months ago.

Me: He must've been after the whole Beauregard Treasure so he could keep it all for himself.

T.J. Buzby: And so I could get my revenge on you all for locking me in prison! And it all would've been all mine if it weren't for you meddling kids!

Me: Meddling can be too much of a good thing fuckhead.

Nico: T.J. Buzby, you have failed this world.

I slapped the cuffs onto him.

Me: And he's looking at life in one of our space prisons.

Nicole: But this was an awesome treasure hunt!

Scrappy: Boy it sure was Nicole. And in the end, we busted the bad guy and found a huge treasure that rightfully belongs to Shaggy!

Googie: You said it Scrappy.

Me: Yep. And it's all for Shaggy. Lets go home.

We went back home and we used the treasure to build Shaggy and all of Mystery Inc. a nice awesome mansion for them and it was an awesome mansion! It was home to a famous museum of everything that Mystery Inc. did. It was so cool!

Shaggy: (To the viewers) This was an awesome treasure hunt. We got to get my uncles fortune and more.

Nicole: It was all amazing!

Shaggy's fortune was worth as much as ours. We now have Sadie Mae Scroggins with us. She's the younger sister of Billy Bob Scroggins and she wants the feud to be over.

THE END

---

Another Fanfiction Complete and another Scooby Doo adventure complete.

The Boo Brothers of Scooby Doo were really funny and awesome! They were what I call the Three Stooges of Scooby Doo. Not the real ones but it was cool. No Charles Sumner did not know Shaggy's uncle and it was all made up. But the rest of the Civil War history was true. NicoChan11 gave me the ideas for this one. Thanks man. Let me know what you all think. Next up is a chapter for The Pumpkinheads of Goosebumps!. Get ready to lose your heads because we're gonna kill and squish some evil pumpkins

See you all next time.

# Attack of The Jack-O-Lanterns

At the estate we were watching TV and some of us were playing with my Aliens Toys.

Trudy: Boy J.D., your Aliens toys are amazing!

Syd: They sure are.

Zack: I love aliens. They are amazing.

Me: My sister gave those toys to me as a hand-me-down. I found them and figured you guys would like to play with them.

Cornelia: So, Megan. Is it true that before you and the others met me and the rest of W.I.T.C.H, you took down the Xenomorphs?

Megan: It sure was. That was a terrifying event.

We went over the events of what happened during Planet of The Xenomorphs.

---

Unlike many of the alien invaders that came before them, the Xenomorphs did not seek conquest or human slaves, instead Xenomorphs were depicted as animal-like killers of the highest order - extremely intelligent and cunning but guided by a desire to hunt, kill and breed rather than anything more complex. Unfortunately for any species that gets in their way the Xenomorphs cannot reproduce without a very gruesome method of parasitic infection in which alien "face-huggers" attach themselves to a victim and inject them with a Xenomorph seed that grows inside their stomach, eventually bursting out of the victim as a "chest-burster" - this is, of course, fatal to the host - the "chest-burster" then proceeds to grow into a full-grown Xenomorph a short while after being "born".

Xenomorphs have several adaptations that make them even more terrifying - thick exoskeletons and amazing speed are only the start as their blood is highly acidic and they can use their tails as effective whips or stabbing implements plus they have an extendable tongue with a set of teeth on it that can be fired out with enough force to pierce a human's skull.

Xenomorphs also absorb a small amount of DNA from their host bodies before being born and this can result in unique breeds of Xenomorph being formed - such as the "dog xenomorph" or the powerful Predator/Alien hybrid the Predalien that served as the main villain of Aliens vs. Predator: Requiem. In Alien vs. Predator: Extinction, Xenomorph castes who born this way are referred as "Transbreeds", whereas those who not adopt characteristics of their hosts whatsover such as Queen referred as "Purebreeds".p

Another creature, known as the Deacon, was also a cross of Engineer and Trilobite DNA born in the Alien prequel Prometheus. While it is possibly not a true Xenomorph, the Deacon, alongside Neomorphs introduced in Alien: Covenant, are arguably "beta" version of the creatures developed by David 8.

A final note on Xenomorphs is that they are usually portrayed as having a matriarchal system ruled by a single Queen, the Xenomorph Queen is gigantic and powerful - seen as the most powerful of all Xenomorphs, though there may be more than one Queen as several have appeared in the movies and associated media - all varying slightly in size and appearance. In comics, there are also Queen Mothers, who holds the sort of "goddess" role in Xenomorph race because of her vast telepathic powers which enable her to govern every single Xenomorph hives across the galaxy, if nit entire universe.

The Alien design is credited to late Swiss surrealist and artist H. R. Giger, originating in a lithograph called Necronom IV and refined for the series' first film, Alien. The species' design and life cycle have been extensively added to throughout each film.

## Origin Story Theories

Xenomorphs' origins is mystery. There are no solid facts as to the origins of these creatures; instead, there are many assumptions which cannot be confirmed. Based on the limited information we have so far, the most commonly accepted hypothesis is that they are an artificially created species, although another hypothesis says that they evolved naturally on a planet much different than our own. Another theory is the Deacon from Prometheus evolved into the first primitive Xenomorph, a theory which debunked yet confirming the prospect of their connection as bioweapon developed by Engineers.

Bio-Engineered Theory

In Prometheus, Xenomorphs are implied to be byproduct kf Chemical A0-3959X.91 - 15 that found in one of Engineers' spaceships, a similar spaceship where a batch of Xenomorph eggs was found by Ripley and her co. years later. To be specific, the android, David 8, infected Charlie Holloway with a drop of the mutagen and Charlie then impregnated Elizabeth Shaw, a process that created Trilobite. After Elizabeth painfully removed the creature via. automated surgery table on board Meredith Vicker's exclusive ship, Trilobite impregnated an Engineer in the same manner with Facehugger would as soon as she released it upon him, injecting Deacon embryo into his system which then gestated within him before tearing its way out.

The following are proofs of connection between Xenomorphs and creatures produced by A0-3959X.91 - 15 in Prometheus film:

All of them are associated with Engineers, creator of A0-3959X.91 - 15 chemical.

Hammerpede's acidic blood which similar to that of Xenomorphs'

Trilobites' ability to impregnate a host with Deacon embryo which parallel that of Facehuggers and Chestbursters.

Deacon's uncanny resemblance to typical Xenomorph built.

Various Xenomorph-like monoliths and other reliefs in Engineer ships.

The creatures' connection with A0-3959X.91 - 15 is further explored in Alien: Covenant film with introduction of David's Planet 4 Xenomorph strain and Neomorphs, another beta version of

Xenomorph species which relation with common Xenomorph species much more defined. David's Xenomorph strain is much cruder than the original, yet still deadly through said strain's facehugger's ability to impregnate hosts within seconds of attachment as a fail-safe ability to make up their less potent caustic blood and slightly weaker grip and accelerate growth while in chestburster state, both of which criticized by fans due to deviating from established lore akin to their Paul W.S. Anderson's Alien vs. Predator duology incarnation. The film's novelization rectified this by stating such traits being the result of David 8's partially successful attempt in recreating original Xenomorph strain based on Engineer's notes about the creature, a fact that excluded in the film itself to establish him as sole creator of his particular Xenomorph strain. Though this still leaves some questions and debates among fans that yet to be answered, one thing is clear: Xenomorphs are the result of Engineers' biological experiments with A0-3959X.91 - 15 that went wrong.

## Apex Predator Theory

Another theory, commonly accepted but only in expanded universe (including canon Alien vs. Predator series), is they were the alpha predator of their own ecosystem on a nightmarish and harsh planet (some assume it to be Xenomorph Prime, but there is no solid evidence). Without their native ecosystem to keep them in check, they have since infested their own kind, and developed into a separate dominate species.

## Concept and creation

The script for the 1979 film Alien was initially drafted by the late Dan O'Bannon and Ronald Shusett. Dan O'Bannon drafted an opening in which the crew of a mining ship are sent to investigate a mysterious message on an alien planet. He eventually settled on the threat being an alien creature; however, he could not conceive of an interesting way for it to get onto the ship. Inspired after waking from a dream, Shusett said, "I have an idea: the monster screws one of them," planting its seed in his body, and then bursting out of his chest. Both realized the idea had never been done before, and it subsequently became the core of the film. "This is a movie about alien interspecies rape," O'Bannon said on the documentary Alien

Evolution, "That's scary because it hits all of our buttons." O'Bannon felt that the symbolism of "homosexual oral rape" was an effective means of discomforting male viewers.

The title of the film was decided late in the script's development. O'Bannon had quickly dropped the film's original title, Star Beast, but could not think of a name to replace it. "I was running through titles, and they all stank", O'Bannon said in an interview, "when suddenly, that word alien just came out of the typewriter at me. Alien. It's a noun and it's an adjective.". The word alien subsequently became the title of the film and, by extension, the name of the creature itself.

Prior to writing the script to Alien, O'Bannon had been working in Paris, France for the late Chilean cult director Alejandro Jodorowsky's planned adaptation of Frank Herbert's 1965 classic science-fiction novel Dune. Also hired for the project was the late Swiss surrealist artist H. R. Giger. Giger showed O'Bannon his nightmarish and monochromatic artwork, which left O'Bannon deeply disturbed. "I had never seen anything that was quite as horrible and at the same time as beautiful as his work," he remembered later. The Dune film collapsed, but O'Bannon would remember Giger when Alien was greenlit, and suggested to the director Ridley Scott that he be brought on to design the Alien, saying that if he was to design a monster, it would be truly original.

Giger's Alien, as portrayed by the late Bolaji Badejo in Ridley Scott's 1979 film Alien by 20th Century Fox. After O'Bannon handed him a copy of Giger's 1977 book Necronomicon, Scott immediately saw the potential for Giger's designs, and chose Necronom IV, a print that Giger completed in 1976, as the basis for the Alien's design, citing its beauty and strong sexual overtones. That the creature could just as easily have been male or female was also a strong factor in the decision to use it. "It could just as easily fuck you before it killed you", the said line producer Ivor Powell, "[which] made it all the more disconcerting.". 20th Century Fox was initially wary of allowing Giger onto the project, saying that his works would be too disturbing for audiences, but eventually relented. Giger initially offered to completely design the Alien from scratch, but Scott mandated that he base his work on Necronom IV, saying that to start over from the beginning would be too time-consuming. Giger signed on to design the adult, egg and chest-burster forms, but ultimately also designed the alien planetoid LV-426 and the Space Jockey alien vessel.

Giger conceived the Alien as being vaguely human but a human in full armor, protected from all outside forces. He mandated that the creature have no visible eyes, because he felt that it made them much more frightening if anyone could not tell they were looking at you. Giger also gave the Alien's mouth a second inner set of pharyngeal jaws located at the tip of a long, tongue-like proboscis which could extend rapidly for use as a dangerous weapon. His design for the creature was heavily influenced by an aesthetic that he had created and termed bio-mechanical, a fusion of the organic and the mechanic. His mock-up of the Alien was created using parts from an old Rolls Royce car, rib bones and the vertebrae from a snake, molded with plasticine. The Alien's animatronic head, which contained 900 moving parts, was designed and constructed by the late special effects designer Carlo Rambaldi. Giger and Rambaldi would both go on to win the 1980 Academy Award for Visual Effects for their design of the Alien.

Scott decided on the man-in-suit approach for creating the creature onscreen. Initially circus performers were tried, then multiple actors together in the same costume, but neither proved to be scary. Deciding that the creature would be scarier the closer it appeared to a human, Scott decided that a single, very tall, very thin man be used. Scott was inspired by a photograph of the late Leni Riefenstahl standing next to a 6'4" (1.93 m) Nubian. The casting director found 7'2" (2.18 m), the late rail-thin graphic designer Bolaji Badejo in a local pub. Badejo went to tai chi and mime classes to learn how to slow down his movements.

Giger's design for the Alien evoked many contradictory sexual images. As the critic Ximena Gallardo notes, the creature's combination of sexually evocative physical and behavioral characteristics creates, "a nightmare vision of sex and death. It subdues and opens the male body to make it pregnant, and then explodes it in birth. In its adult form, the alien strikes its victims with a rigid phallic tongue that breaks through skin and bone. More than a phallus, however, the retractable tongue has its own set of snapping, metallic teeth that connects it to the castrating vagina dentata.".

## Name

This creature has no specific name, and has been referred to most often onscreen, and in the credits of each film, simply as the Alien. It was called an alien, and an organism, in the first film. It has also been referred to as a creature, a serpent, a beast, a dragon, a monster, or simply a thing. The term xenomorph (lit. "alien form" - from Greek xeno- or "strange" and -morph, shape) was used by the character Lieutenant Gorman in Aliens and by Ellen Ripley in a deleted scene from Alien 3. This term has been adopted by fans and used in merchandising as a convenient name. The species' binomial names are given in Latin as either Internecivus raptus (meant as "murderous thief") in the Alien Quadrilogy DVD or Lingua foeda acheronsis (meant as "foul tongue from Acheron") in some comic books. The main Alien from Alien vs. Predator is listed in the credits as "Grid", after a grid-like wound received during the film from a Predator's razor net.

## Characteristics

Continuing advancements made in the field of special effects technology as the series progressed have led to numerous variations in the creature's design, including varying numbers of fingers and limb joints and varying head design. Characteristic that explained in this section mainly focus on Drones or Warriors.

## Appearance

When standing upright, Xenomorphs are vaguely bipedal in form, though they adopt a more hunched, quadrupedal stance when walking or sprinting. They have a skeletal, biomechanical appearance and are usually colored in muted shades of black, blue or bronze. Xenomorphs do not radiate heat, as their body heat matches the ambient temperature of the environment in which they are found. In most of the films, adult Xenomorphs have the ability of running and crawling along ceilings and walls. They have great physical strength, having been shown to be capable of breaking through vent covers and welded steel doors, and even of breaking down reinforced pressurized doors.

The Xenomorphs' primary weapon is their inner pharyngeal jaw, which is capable of shooting from their mouth like a piston with sufficient power to smash through bone and metal. In fact, a common tactic used by the creatures to eliminate prey is to restrain the victim with their hands, immobilizing them, before killing them with a precision jaw strike to the head, piercing through the skull and penetrating the brain; this form of attack is colloquially known as a "Headbite". On several occasions, Xenomorphs have been seen to suspend those that they kill from the ceiling through unknown means

Xenomorphs have segmented, blade-tipped tails. The sharp tip was initially a small, scorpion-like barb, but from Aliens onwards the blade design increased in size and changed in appearance to more closely resemble a slashing weapon. From Alien Resurrection onwards, the tails have a flat ridge of spines at the base of the blade. This was introduced to help them swim convincingly, and was left intact in the subsequent crossovers. The original shooting script for Aliens and the novelization both featured a scene in which Lieutenant Gorman is "stung" by the barb tail and rendered unconscious; in the final cut of the movie, Gorman is instead knocked out by falling crates. As a weapon, the strength of the tail is very effective, having been shown to be strong enough to impale and lift a Predator with seemingly little effort. They are also adept at using their tails as blunt weapons, sometimes to deadly effect, as seen in Alien.

They have elongated, cylindrical skulls, but possess no visible facial features other than their mouth, though in the original Alien film, the top of the creature's head was translucent, with a human skull forming the front, including empty eye sockets visible within (although this is hard to distinguish on-screen). This element was reused for the "Predalien" in Aliens vs. Predator: Requiem 29 years later. In Aliens, the adult creatures have a more textured head rather than a smooth carapace. In the commentary for Aliens, James Cameron states that this change is a part of the maturation of the creatures, as the creatures in the film had been alive far longer than the original Alien. The smooth design of the carapace would be used again in Alien 3 and Alien Resurrection. This design would be kept in Alien vs. Predator, and abandoned in Aliens vs. Predator: Requiem in favor of the ribbed design.

How the creatures see or otherwise rationalize their environment is uncertain due to lack of visible eyes; Giger mandated this in his original design, because he felt that it made the creatures much more frightening if one could not tell they were looking at them. In the novelization of the movie Alien, the creature is held mesmerized by a spinning green light for several minutes. Several theories regarding their ability to perceive their surroundings have been conducted such as echolocation, electro-reception in the same manner with Earth sharks, and via. pheromones. The most plausible theory however, is that their eyes are behind their black carapace and they see through it, similar to a one sided mirror (except in this case no one can see in, but the Xenomorph can see out). Some species of terrestrial fish such as the Barreleyes see through a transparent layer of skin; it is possible Xenomorph vision is similar. This is supported by how a fisheye lens was used to illustrate the Xenomorph's point of view (which creates a perspective similar to that of a peephole) in Alien 3 and later, in Alien: Covenant.

Throughout their appearances, human-spawned Aliens have been shown to have a fluctuating number of fingers. In Alien, the creature has webbed, six fingered hands. In Aliens, the number of fingers is reduced to three (two "paired" and a single, opposable thumb), and they are shown to be much longer and more skeletal. In Alien: Resurrection, the number of digits is increased to four, with two long middle fingers and a pair of thumbs. This design is kept in the Alien vs. Predator films, though the hands were made bulkier in order to make the Aliens seem more formidable against the Predators.

The spines on the Xenomorph's back provide protection from attacks from the rear.

Aliens have been alternately portrayed as both plantigrade and digitigrade organisms, usually in accordance to their host. Human-spawned Aliens were usually portrayed as having humanoid hind limbs, while in Alien 3, the featured Alien sported double-jointed legs due to its quadrupedal host. This characteristic would be continued in Alien Resurrection for the human-spawned Aliens. Tom Woodruff, who had previously played the "dog-alien" in Alien 3, described the human-spawned Aliens in Resurrection as feeling more like a dog than the previous creature, despite having been born from human hosts. The human-spawned Alien warriors would revert to a plantigrade posture in Alien vs. Predator.

## Blood and secretions

Xenomorph blood is an extremely potent molecular acid that can corrode on contact almost any substance with alarming speed. It is dull yellowish-green in color, and seems to be pressurized inside the body, so that it spurts out when punctured. Shusett suggested the idea that the creature have acid blood as a plausible means to make the creature "unkillable"; given the starship setting, if one were to use traditional firearms or explosives to attack it, its blood would eat through the hull of the ship. In later films in the series, the Xenomorphs are shown to be conscious of the effects of their acidic blood, and even use it to their advantage - in Alien Resurrection, two Xenomorphs escape a cage by killing a third so its acid melts through the cage floor; in Alien vs. Predator a queen being held by chains apparently instructs several Xenomorphs to slash and cut her, thus corroding the chains. Had this tactic not her idea, it would have been Grid's, a Drone whom discovered corrosive nature of his kind's blood.

Xenomorphs Drones can produce a thick, strong resin (vomited from their mouths) referred as Hive Webbing that they use to build the Hives and to cocoon their victims. Its non-uniform, bio-organic appearance allows adult Xenomorphs to camouflage themselves when at rest, to the extent that humans have stood directly beside hiding Warriors and had no idea of the imminent threat. In the case of Hives set up inside existing non-Xenomorph structures, webbing helps to disguise existing visual cues in the environment, turning the area into a disorientating maze and making escape from and/or assaults on the Hive all the more difficult. However, whether this is considered by the Xenomorphs during construction is unclear. The structure of a Hive also appears to have a disrupting effect on motion tracker operation, generating a host of false readings that imply the entire area is awash with sporadic movement, making genuine readings harder to spot. The exact cause of this is unclear. In Alien vs. Predator: Extinction, it's explained that each portion of

Hive Webbings within a certain radius has a living core called Hive Nodes, comprising of small organisms secreted by the Drones, which secreted by the Drone. The node's presence also enable any injured Xenomorphs to regenerate into a full health as long as they remain within its webbings' contact. Once deposited, the node uses up available organic materials from plants, carcasses, and even microorganisms to produce the hive's structure, cementing their hostility to all non-xenomorph lifeforms and has potential to corrode away an entire planet. While able to regenerate from damage, the nodes are suspectible to fire, and thus can only be effectively destroyed via complete incineration. Should a Hive Node is destroyed, the webbings it produced would wither away and rendered useless.

In the original Alien, the Facehugger is shown to be able to "spit" acid, melting the faceplate of Kane's helmet and allowing the creature immediate access to the inside. This ability is also exhibited by adult Xenomorphs in Alien 3 and Alien Resurrection; much like a spitting cobra, the creatures use this ability to blind and incapacitate their victims rather than kill them outright. This also serves as long range weapon as means to fight against foes/potential hosts that armed with guns and prefer to fight from distance.

Despite their own immunity to their blood, they are vulnerable to hydrofluric acid which was used against them to great effect on LV178.

Intelligence and communication

During events in Aliens on the LV-426 colony and in Alien Resurrection on the USM Auriga, the species displayed observational learning and problem solving skills, and in both cases the Aliens learn how to operate machinery at a very basic level. On LV-426, they were able to cut power in a section of the complex to gain access to the humans, and the Alien Queen learns to board an elevator by observing Ripley and Newt escaping in the one beside it. The novelization of the film notes that the queen establishing her 'nest' at the base's main power plant could have been chosen either for the feral, animal reason of the warmth that it would provide or for the intellectual reason of selecting a location where any attackers would be unable to destroy her without destroying the entire facility.

In the director's commentary for Aliens, James Cameron noted that the creatures in Aliens had been alive for far longer than the Alien in the original, and had more time to learn about their environment. On the USM Auriga, the Aliens kill one of their own, using its blood to melt through their enclosure and escape; in Alien vs. Predator, they use a similar strategy to free the queen from her chains. An Alien also uses acid spurting from its severed tail as an improvised weapon, indicating they are fully aware of the effects of their acid blood.

## Life cycle

Aliens are eusocial life-forms with a caste system ruled over by a queen. Their life cycle comprises several distinct stages: they begin their lives as an egg, which hatches a parasitoid larval form known as a facehugger, which then attaches itself to a living host by, as its name suggests, latching onto its face. In the Alien 3 novelization, Ripley commented that this parasitoid would likely be able to use a host as small as a cat, or as large as an elephant (like Oswocs in Alien vs. Predator: Extinction).

The facehugger then "impregnates" the host with an embryo known as a "chestburster", which, after a period of gestation, erupts violently from the host's chest resulting in the death of the host.

The chestburster then matures to an adult phase, shedding its skin(entering cocoon state in Alien vs. Predator: Extinction) and replacing its cells with polarized silicon. Due to Horizontal gene transfer during the gestation period, the Alien also takes on some of the basic physical attributes of the host from which it was born, allowing the individual alien to adapt to the host's environment.

The adult phase of the Alien is known by various different names. The adult Aliens have been referred to as "drones," "warriors," "workers," and sometimes "soldiers," similar to the way ants have been defined. The names of the adult phase have also been used to name different types of adult phases of the Alien in numerous sources including video games, comic books, novels, and, of course, the films, but only in the commentaries by the team who created the films. No official name has been given to the adult stage of the Alien in the films themselves.

## Queen

Queen Aliens are significantly larger and stronger than the normal adults, approximately 4.5 meters (15 ft) tall. Their body structure differs also, having two pairs of arms, one large and one small. The queen's head is larger than other adult Aliens and is protected by a large, flat crest, like a crown, and they vary from queen to queen. In the second film Aliens, unlike other adults and queens, the queen had high-heel protrusions from its feet.

Egg-laying Alien queens possess an immense ovipositor attached to their lower torso, similar to a queen termite's. Unlike insect queens, there appears to be no need for drones to fertilize an Alien queen's eggs. When attached to its ovipositor, the queen is supported by a "biomechanical throne" that consists of a lattice of struts resembling massive insect legs.

In the original cut of Alien, the Alien possessed a complete lifecycle, with the still-living bodies of its victims converted into eggs. However, the scene showing the crew converted into eggs was cut for reasons of pacing, leaving the ultimate origin of the eggs obscure. This allowed Aliens director James Cameron to introduce a concept he had initially conceived for a spec script called Mother, a massive mother Alien which laid the eggs and formed the basis for the Aliens' life cycle. Cameron conceived the Queen as a monstrous analogue to Ripley's own maternal role in the film. In that vein, some critics have compared it to Grendel's mother.

The design of the queen was created by Cameron in collaboration with special effects artist Stan Winston, based upon an initial painting Cameron had done at the start of the project. The Winston Studio created a test foam core queen before constructing the full hydraulic puppet which was used for most of the scenes involving the large Alien. Two people were inside working the twin sets of arms and puppeteers off-screen worked its jaws and head. Although at the end of the film the queen was presented full-body fighting the power-loader, the audience never sees the legs of the queen, save those of the small-scale puppet that appears only briefly. In Aliens, Cameron used very selective camera-angles on the queen, using the 'less is more' style of photography. Subsequently the movie won an Oscar for Visual Effects. An adult queen was to reappear in Alien

Resurrection. The original mechanical head previously used in Aliens was provided by Bob Burns, and was an altered design. It was repainted with a blend of green and brown, giving it a shimmering, insect-like quality (due to the said queen are actual clone from the original version like her children). This color concept would be abandoned in Alien vs. Predator in favor of the original black color scheme.

In the climax of the 2004 film Alien vs. Predator the queen's basic design was altered to make it more "streamlined" in appearance and its overall size was increased to 6 meters (20 feet) tall. Additional reason for this was due to Queen in the movie are far older than the one in Aliens. Other changes include the removal of the "high-heel" protrusions on its legs, including additional spines on its head and making its waist thinner because there was no need for puppeteers inside its chest. The animatronic laying queen had 47 points of hydraulic motion.

Aliens vs. Predator: Requiem (2007) introduced a younger form of the full grown queen, albeit with traits inherited from its Predator host. Recalling the facehugger's method of embryo implantation, the Predalien uses its inner mouth to directly deposit multiple chestburster embryos into pregnant female hosts, also using its mandibles to latch on the faces of said hosts. This is explained by the Brothers Strause as a means of quickly building an army of Aliens before the young queen evolves into its sedentary, egg-laying state.

## Egg

The eggs laid by the queen are ellipsoidal leathery objects between 2 feet (60.96 cm) to 3 feet (91.44 cm) high with a four-lobed opening at the top. As a potential host approaches, the egg's lobes unfold like flower petals, and the parasitic facehugger extracts itself from the egg and attaches itself to the potential host. Giger initially designed the eggs with a much more obviously vaginal appearance, complete with an "inner and outer vulva". The producers complained that Catholic countries would ban the film if the allusion was too strong, so Giger doubled the lobes to four, so that, in his words, "seen from above, they would form the cross that people in Catholic countries are so fond of looking at". The interior of the original egg was composed of "Nottingham lace", which is the lining of a cow's stomach. In the first film, the quick shot of the facehugger erupting from the egg was done with sheep's intestine. Initially, the egg remained totally stationary save for the hydraulic movement of the lobes; however, by Alien Resurrection the entire egg was made to ripple as it opened.

## Eggmorphing

There is another method in creating egg without any need of Queen's presence which called eggmorphing. Though this method of reproduction was ignored by official sources after its early shots of the scene that shows how this method works were cut (though partially reinstated in Director's Cut version of Alien), the novelization of the Alien 3 states that both forms of reproduction are typical of the species, and that either can be used to create more Xenomorphs, dependent on the situation. For instance, had a drone arrived in foreign lands/planet where it was only one of its kind that present with that lands/planet, it would immediately use this method for creating a Queen.

The process was unclear, but it is obvious that victim that would turned into an egg not need to morphed alive, but rather killed first. Quotes from Ridley Scott seem to imply that Eggmorphing actually involves the human "host" serving simply as a source of nutrients or "yolk" for the growing Egg (which feed on the host like a parasite), rather than physically becoming the Egg itself, as is typically assumed.

## Facehugger

A facehugger is the second stage in the Alien's life cycle. It has eight long finger-like legs which allow it to crawl rapidly, and a long tail adapted for making great leaps. These particular appendages give it an appearance somewhat comparable to chelicerate arthropods such as arachnids and horseshoe crabs.

The facehugger is a parasitoid; its only purpose is to make contact with the host's mouth for the implantation process, by gripping its legs around the victim's head and wrapping its tail around the host's neck. Upon making contact, the facehugger tightens its tail around the host's neck in order to render it unconscious through oxygen deprivation. The facehugger then inserts a proboscis down the host's throat, supplying it with oxygen while simultaneously implanting an embryo. Attempts to remove facehuggers generally prove fatal, as the parasitoid will respond by tightening its tail around the host's neck, and its acidic blood prevents it from being safely cut away. In addition, its grip on the host's head is strong enough to tear the host's face off if it is forcibly removed.

Once the Alien embryo is safely implanted, the facehugger detaches and dies.

Giger's original design for the facehugger was a much larger creature with eyes and a spring-loaded tail. Later, in response to comments from the filmmakers, Giger reduced the creature's size substantially. At first Giger assumed that the facehugger would wrap around the outside of the astronaut's helmet, but Scott decided that it would have far more impact if the facehugger were revealed once the helmet was removed. Scott and Giger realized that the facehugger should burn through the helmet's faceplate with its acid blood; subsequent redesigns of the space helmet included a far larger faceplate to allow for this. Dan O'Bannon initially conceived the facehugger as somewhat resembling an octopus, possessing tentacles. However, when he received H. R. Giger's designs, which substituted tentacles with fingerlike digits, he found Giger's design concept to be superior. Since no one was available at the time, O'Bannon decided to design the facehugger prop himself. The technical elements of the musculature and bone were added by Ron Cobb. Giger's initial design for the smaller facehugger had the fingers facing forward, but O'Bannon's redesign shifted the legs to the side. When the foam rubber sculpture of the facehugger was produced, O'Bannon asked that it should remain unpainted, believing the rubber (which resembled human skin) was more plausible.

In Aliens, the facehuggers were redesigned by the late Stan Winston so that they would be capable of movement. Unlike the creatures in the first film, the creatures would take a much more active role in impregnating their victims. When Ripley throws one off her, the facehugger was now capable of scuttling across the floor and leaping at its prey, wrapping its tail around the victim's throat. Due to the film's budget, only two fully working facehuggers were built.

In Alien 3, another addition, a "super-facehugger" that would carry the embryo of the queen Alien, was planned but ultimately dropped. The super-facehugger is briefly glimpsed in the Assembly cut of Alien 3, but not identified as such. This face-hugger's role in carrying the Queen embryo are equivalent with Praetorian Facehuggers, though instead carrying embryo that grown into the queen straight away, the said embryo would grown into Praetorians, the miniature version of the queen.

## Chestburster

After implantation, facehuggers die and the embryo's host wakes up afterwards showing no considerable outward negative symptoms. Symptoms build acutely after detachment of the facehugger, the most common being sore throat, slight nausea, increased congestion and moderate to extreme hunger. In later stages where the incubation period is extended in preparation of a queen birth, symptoms will include a shortness of breath, exhaustion, and hemorrhaging (detectable through biological scanners and present in nosebleeds or other seemingly random bleeding incidents), as well as chest pains inflicted either in lack of chest space due to the chestburster's presence, or even premature attempts to escape the host. The incubating embryo takes on some of the host's DNA or traits, such as bipedalism, quadrupedalism or possessing the mandibles of a Predator and other body structure changes. Over the course of 1 to 24 hours, indeterminable in some cases, and sometimes up to a week, in the case of some queens, the embryo develops into a chestburster, at which point it emerges, violently and fatally ripping open the chest of the host. There is no on-screen explanation of the reasons for the different incubation times.

The chestburster was designed by Alien director Ridley Scott and constructed by special effects artist Roger Dicken. Giger had produced a model of a chestburster that resembled a "degenerate plucked turkey" and was far too large to fit inside a ribcage. Much to Giger's dismay, his model reduced the production team to fits of laughter on sight. Scott drafted a series of alternative designs for the chestburster based on the philosophy of working "back from the adult to the child" and ultimately produced "something phallic." The chestburster in the original Alien was armless but arms were added in Aliens to facilitate the creature crawling its way out of its host's corpse. This concept would be abandoned in Alien Resurrection and subsequent films.

## Growth and Maturity

When a chestburster erupts from the body of its host, it is less than 1 foot (30 cm) tall. However, it soon undergoes a dramatic growth spurt, reaching adult size in a matter of hours; in Alien the chestburster had grown to 2 meters (6.6 ft) in height by the time the Nostromo crew located it again. The chestburster is shown to have molted before reaching maturity. In Aliens vs. Predator: Requiem Alien warriors are shown who are still growing, showing shedding skin. In the unrated cut, the Predalien is shown actively wiping off its final molted skin at the film's start.

## Alternative forms

Aliens take on various forms depending on the characteristics of their hosts. Most of the Aliens seen to date have been human-spawned, but a number of Aliens born from other hosts and newly created variants have also been seen. This also includes those that exclusively seen in video games and comic book series of both the main franchise or AVP franchise.

## Dog Alien

The quadrupedal Alien variant from Alien 3. The "Dog Alien" (also jokingly referred to as the "Bambi burster", or "Runner Alien" in the expanded universe stories), was introduced in Alien 3. The creature itself shares the same basic physical conformation and instincts as the other Aliens shown in the previous films, although there are several differences due to the host it was spawned from (a dog in the theatrical cut, an ox in the DVD assembly cut). The Dog Alien in its Chestburster form is a miniature version of the adult, unlike the larva-like human spawned chestbursters. The adult is primarily quadrupedal, has digitigrade hind legs and lacks the dorsal tubes of the human-spawned variety.

## Newborn

In Alien Resurrection, due to significant genetic tampering in an attempt to recover DNA from the deceased Ellen Ripley and the Alien Queen within her, the resulting cloned Aliens show a number of minor human traits. The cloned Queen inherits a womb, and as a result it ceases to lay eggs and gives birth to a humanoid mutant. Physically, the human-Alien Newborn is very different from its brethren, being larger, with pale, translucent skin, a skull-shaped face with eyes, a human tongue and complete absence of a tail. The Newborn fails to bond with its Alien Queen mother, and kills it. Instead, the Newborn sees the Ripley clone as a surrogate parent.

The Newborn creature was originally scripted by Joss Whedon as being an eyeless, ivory-white quadruped with red veins running along the sides of its head. It had an inner jaw, with the addition of a pair of pincers on the sides of its head. These pincers would have been used to immobilize its prey as it drained it of blood through the inner jaw. The creature was also meant to rival the Queen in size. Jean-Pierre Jeunet later asked ADI to lean towards making the human-Alien hybrid, known as the Newborn, more human than Alien. The Newborn's eyes and nose were added to improve its expressions to make it a character, rather than just a "killing machine", and give it depth as a character. Jeunet was adamant about the Newborn having genitalia, a mix of both sexes. However, Fox was uncomfortable and even Jeunet felt "even for a Frenchman, it's too much." The genitalia were digitally removed in post-production. The Newborn animatronic required nine puppeteers and was the most complex animatronic in the film.

## Predalien

This variation is the result of a facehugger impregnating a Predator. The "Predalien" was first depicted in a painting by Dave Dorman, and subsequently featured in the Aliens vs. Predator comics and games. A Predalien chestburster debuts in the final scene of Alien vs. Predator, but it is not seen until Aliens vs. Predator: Requiem that an adult hybrid makes its first movie appearance.

The Predalien shares many characteristics with its host, such as long hair-like appendages, mandibles, skin color and similar vocalizations. It is a large, bulky creature, and possesses physical strength greater than that of human-spawned Aliens. Like human-born Aliens, it is also shown to be stronger than its host species, as evidenced by its ability to pin, push, and knock a Predator away with ease.

The Predalien seen in Aliens vs. Predator: Requiem was also a Queen, as it also possessed the ability to impregnate human hosts with multiple Alien embryos before molt into a true Queen.

## Extinction

The more canonical versions of predaliens however, are portrayed as heavy shock troopers of the Xenomorph hive, utilizing their brute strength for dealing the heavy blow upon their enemies. Examples include the Abomination and Predalien in AVP: Extinction.

## Deacon

Ridley Scott's 2012 film Prometheus, originally conceived as a direct prequel to Alien, ends with the birth of a creature noted for its similarity to those in the Alien franchise. Scott christened the creature the "Deacon" in reference to its oblong head, which resembles a bishop's miter. Designer Neal Scanlan said that the Deacon's appearance had to reflect its complex genetic heritage: "It came from Shaw and Holloway, which then produced the Trilobite, which impregnated the Engineer, which then mixed its DNA with the Trilobite. We tried to hold on to some of Shaw, some femininity since it was born of a female before being born of a male.". According to Scanlan, the Deacon "represented the beginning of Giger's Alien, although it did not directly resemble that creature". The designers based the Deacon's skin on horse placenta, in an effort to give it an iridescent quality "between horrific and beautiful". Its pharyngeal jaw was inspired by that of the goblin shark.

When discussing the film's connection to Alien, the cowriter named Damon Lindelof asked: "Do you need to see a xenomorph bursting out of the human body? And how do we do it in a way that you haven't seen before?" Lindelof stated that whether the creature is a queen Alien, or the progenitor of the eggs found by the crew in the original Alien, is open to interpretation, but said, "I felt that the punchline of Prometheus was going to be that there is human DNA in what we have come to know as the human xenomorph."

## Neomorphs

Neomorphs are creatures which unlike Deacon, are true sibling of both Protomorphs and original Xenomorph race. They are indirectly created by David 8 when polluted Engineers' settlement on Paradise, and had important role in his experiments for Protomorph creation.

In terms of behavior, the Neomorph is far more feral and animal-like than a typical Xenomorph, to the point that even their newborn form is highly aggressive and dangerous when they will attack anyone on sight. Their animalistic nature may suggest a lack of intelligence in comparison to their counterpart. Unlike the Xenomorphs, Neomorphs are more organic in appearance and lack biomechanical aspects. Neomorphs are notably seen consuming the flesh of humans they have killed unlike Xenomorphs who more concerned in expanding their hive and amassed an army of their brethren while rarely eating their enemies' flesh.

According to David 8, the Engineer's black liquid mutagen was intended to create hybrid creatures like the Neomorph that would instinctively hunt down and kill all non-botanical, animal life in an ecosystem - "the meat". Notably, when one Neomorph encountered David 8, it apparently recognized that he was a synthetic android - and thus instead of attacking him, simply stood still and regarded him in confusion. Xenomorphs, in contrast, have been observed attacking synthetics - possibly another example of their greater intelligence compared to Neomorphs, whose behavior seems to be based more on animal instinct.

## Neomorph Eggsack

Pollution by black liquid produced a numbers of Neomorph Eggsacks on the ground. These Eggsacks looked like small, black, spherical, fungus-like growths on the ground that when disturbed would release a cloud of microscopic spores (motes) into the air.

## Neomorph Motes

Neomorph motes are microscopic spore-like embryo that came out from an eggsack in response of it being disturbed. Once came out, they flew and entered nearby host organism through any open orifice - such as the nostrils or ear canal.

## Bloodbursters and Adulthood

Once a host is infected with the airborne contagion, the spores would enter the bloodstream and proceed to developed into a Bloodburster to grow inside of them until they violently puncture the skin and claws their way out of the host's body. This process is notably similar to the Xenomorph Chestburster, although the exact point of emergence varies depending on how the host was infected. For instance, should the spore entered the ear, it will bursts out of the host's head.

Initially, the creature is born with arms and legs and moves in a quadrupedal manner, reminiscent of a Runner, but as they grow, the Neomorph adopts a bipedal stance. The creature has pale whitish-gray skin with a somewhat translucent appearance, attributes that resemble those of a Hammerpede. The Neomorph features a fleshy tail tipped with spikes, which can be used as a devastating slashing and battering weapon, and a large number of silvery fangs in their mouth, which appears circular when closed. Notably, individual Neomorphs appear to display physical variance. For instance, one of the creatures featured a pair of sharp, bony dorsal spikes on their back that assisted them in breaking out of their host, whereas the other individual encountered lacked these features. Their blood is thick and yellow in color, but notably not acidic.

Unlike a typical Xenomorph, Neomorphs do not possess an extendable inner jaw which can be used to attack. Also, while the teeth of a Xenomorph's outer jaws are usually visible, a Neomorph's jawline is nearly invisible when closed.

## Protomorphs

David's Xenomorphs (also known as Protomorphs) are strains of xenomorphs he personally created, which confirmed the fact that Xenomorphs are products of Engineers' black liquid with a parasitic wasp as genetic material to create his first xenomorphs. While virtually identical to original Xenomorph strain featured so far, this Xenomorph strain possesses notable differences that set it apart from its mainstream cousins due to more crude appearance than another. Notably, they lack any biomechanical features and their limbs are longer, thinner and muscular, with gaps appearing in their arm pits. The shoulders and dorsal tubes are noticebly different, being smaller and thinner. David's Xenomorphs also has a thinner, sleeker tail that ends with a small barb or stinger.

Even with these differences, these Xenomorph strains still as deadly as their cousins since they share same powers and abilities, including their armor-piercing inner jaws.

### Protomorph Eggs

Protomorph Eggs looked similar with mainstream strains', but had more crude appearance.

### Protomorph Facehuggers

Protomorph Facehuggers had more crude appearance than regular facehuggers because area where reddish wrinkled area between forelegs had flat smooth surface with the same coloration as the rest of its body instead of reddish wrinkled look. The digits are notably different as they are thinner and while their actual span may be the same as typical Facehuggers, the size in between knuckles is different, notably the size of the digits from body to the first knuckles is smaller. Protomorph Facehugger also weaker than regular facehuggers due to easily removed from the victim's face and they were slow in strangling the victim with the tail, but makes up of this weakness with their incredible speed and agility and ability to impregnate its host within seconds of attachment that made their ability to a host alive and in a coma redundant, otherwise optional as they would only need to remain attached long enough to implant the Chestburster. Though share the same recklessness with regular facehuggers, protomorph facehugger was intelligent enough to analyze its situation: One of these facehuggers shown quickly retreating when the targeted host too aggressive, but upon seeing another viable host, it immediately sprang from its cover and attacked.

All in all, protomorph facehuggers' physiology is more designed for speed and hasty infestation instead of incapacitating.

## Protomorph Chestbusters

The differences in the Drone of this Xenomorph race extend to its Chestburster form (which had more developed limbs like Dragon the Runner Xenomorph in Alien 3).

## Praetorians

Alternate form of mature xenomorph that so far, only appeared in video games. In appearance, Pretorians can be considered as miniature version of the Queen due to their similar color and physical structures. Unlike Queens, however, Praetorians do not possess a second pair of arms on their chest, and their jaws, filled with metallic teeth, are comparable to lower Xenomorph castes. Like Queens, Praetorians typically possess longer dorsal tubes that end in a sharp point when compared to other Xenomorphs that possess these appendages. Praetorians are dark in color, typically black but sometimes blackish-blue, and stand over 10 feet (304.80 cm) tall, towering over their fellow Xenomorphs on the battlefield. Despite this size, they are almost as fast and agile as their smaller Xenomorph siblings. Although, Praetorians seem to remain in a permanent bipedal position, and owing to their bulk, they cannot scale walls or ceilings.

As is befitting of their size, Praetorians are incredibly strong and their thick skin, known to be bulletproof in some cases, enables them to shrug off damage that would be terminal several times over to most other Xenomorph castes. They are capable of defeating entire squads of human Marines single-handed and are even a match for Yautja in close-quarters combat. Praetorians can spit acid in far larger quantities than other Xenomorphs, and will also use their claws and long blade-tipped tails as slashing and stabbing weapons, making them deadly at any range. In Aliens vs. Predator, the Praetorian's upper jaw protrudes slightly, giving them an overbite.

In AVP: Extinction, Praetorians can be upgraded so they can molt into two specialized breeds as their alternate life cycle: Carriers and

## Ravagers:

### Carriers

Carriers are alternate life cycle of Praetorian that purposed for field infestation. Should be noted that in spite of majorities of xenomorphs could subdue their foes/preys that can be used for impregnation by facehuggers, it does not guarantee that they always succeed in doing so, as sometimes they ended up killed before able to took the said potential hosts back into their hive. Other problems would be that the facehugger themselves (though able to travel from the hive into the outside world) are vulnerable and can be easily killed. Carriers' presence within the hive would could counteract this, as they could bring around six to twelve facehuggers for instantly subdued potential hosts on the field without truly need for bring them back into the hive.

Carriers resemble Drones in appearance, but are thrice taller and lack clawed fingers. Instead, they possesses a single blade on each arm much like a praying mantis. Also, they possesses pairs of dorsal tubes that seemingly have joints on them, and generates nutrients for facehugger to feed on board. Carriers also use these tubes to propel the facehuggers on their foes' face like catapult. Had Carriers facing enemies that cannot be infested, whether while carrying facehuggers or not, they uses their blades instead.

### Ravagers

Ravagers are presumed to be the Xenomorph evolutionary response to the heavier military equipment brought to bear by more advanced species. This massive beast towers above other Xenomorphs, short of the queen, and has a uniquely terrifying presence in battle. Instead of just having hands, its upper extremities terminate in "hull blades" capable of easily slicing through even advanced armors and metals. Their appearance are depicted as a taller and more muscular version of warriors.

Unlike other forms of Xenos, purpose of a Praetorian molting into one of these are solely for combat alone, as it can only killed their foes outright instead subdue them: Ravagers' attacking methods often in form of beheading any enemies that they encountered.

## Mutated Chestburster

A mutated Alien variant incapable of maturing past its larval stage, the mutated chestburster resembles a large black Chestburster. Hatched from a pink egg among an ordinary clutch, the mutated chestburster's egg was smuggled to the pleasure planet Celeste, where the resulting hatchling, after escaping from a human host, caused havoc among the population with its diseased slime trail, which caused people to go delirious and detonate.

## Swimmer Xenomorphs

In Aliens Colonial Mariness story published by Dark Horse Comics, a group of marines ends up on a colony planet known as 'Bracken's World', a primarily oceanic planet that grows large amounts of sea kelp. Having become stranded on one of the kelp beds following an APC breakdown, the group is attacked from the water by large xenomorphs resembling queen aliens from the top half, and a more whale-like structure below the waist with a lateral tail fin and several trailing tentacles.

## White Hybrids

The hybrids are a race of Aliens created by a corrupted computer system called "Toy". The hybrids possess the traits of Aliens, Predators and humans. Like Aliens, they are a eusocial species with acid for blood (though it is less acidic than that of the ordinary strain) and like humans, they are capable of speech and can use firearms. They are led by a hybrid king which generates facehuggers capable of impregnating ordinary Aliens.

## Eloise

Eloise is a vat grown prototype Alien/humanoid android hybrid created using Queen DNA on Sybaris 503, who escapes from the destruction of the facility after an attempted "hostile" take over. She later settles on the planet LK176 with her group of "implanted" lepers (whose condition prevents their chestbursters from maturing) and a pack of Alien warriors. She and her army successfully beat back both Predator and human forces (at the cost of most of her leper friends), and she gives the latter an ultimatum to leave her people alone, or be destroyed.

## Queen Mother

Queen Mothers are the supreme rulers of the Xenomorph species, and even Queens are subordinate to them. They appear in Dark Horse's extended universe, albeit only on the Hiveworld, where they are protected by enlarged, elite drones. Queen Mother's nests consist of six orbs arranged around a central orb, in which they reside. These orbs are interconnected and contain the prized royal jelly, which molts a drone or warrior into a new Queen Mother when one becomes absent. Queen Mothers have acute telepathic and emphatic abilities, thus they are able to call to their hive over vast distances. In fact, the Queen Mother was capable of melding to the minds of humans during the Earth infestation. What makes a Queen Mother similar to a Queen is that they are both capable of laying eggs. The first Queen Mother was kidnapped by Ripley in Steve and Stephanie Perry's novel The Female War, leading to anarchy and chaos on the Hiveworld. While a drone was morphing to take the previous Mother's place, several deviant, drones, designated as "red drones" by the humans due to their dull, burgundy color, were born that rebelled against the primary hive, and a countering red hive, led by a red Queen Mother, was created. In Aliens: Genocide, massive warfare has broken out between the two subspecies over rule of the planet as the dominant xenomorph species. A fleet of Colonial Marines (financed by the Grant Corporation, Weyland-Yutani's competition in the Aliens novels) were sent on a mission to retrieve the deceased Mother's royal jelly, located in the "black" hive, in order to synthesize a highly addictive drug called Xeno-Zip, also known as Fire (which the government felt was a "highly useful" combat drug). The crew decided to destroy the red Mother's hive to distract the drones of the original nest while the jelly was being extracted. The new Queen Mother was shot after killing a scientist during the extraction.

## Rogue Alien

In the comic Aliens: Rogue, a mad scientist engineered the Rogue Alien: a male alien designed as a weapon to rival the queen caste and thus help rid the Earth of its alien infestation (see Earth Hive, Nightmare Asylum, Female War, and Genocide). However, the engineered Alien King escapes and wreaks havoc until it is killed by the Queen that had been nesting in a separate and secured section of the installation.

In the book of the same name, the Rogue is believed to be more powerful than the Queen, but Dr. Ernst Kleist, the scientist who created the Rogue, is shocked to find the Queen is in fact the superior specimen. While the Rogue is larger and stronger, the Queen's superior speed and intellect enable her to easily dodge the Rogue's brutish attacks while she slowly wears it down and finally slaughters it. Kleist is subsequently killed when he uses a sound cannon (a sound device he designed to [and that did] instantly freeze the movements of xenomorphs) on the Queen until it goes critical, destroying the asteroid-base he is on. The Rogue is seemingly much more aggressive and mercilessly attacks the smaller castes of Aliens. This is illustrated when Professor Kleist finds the crushed corpses of the elite Praetorian guard of the queen. The Rogue's recklessness is shown when it destroys the barrier that separates the Alien sector and the Human sector, thus allowing any Alien drones that escaped the Rogue's notice to pour into the Human sector, and when it confronts the queen by crushing the eggs in its way while the queen carefully steps around them to outmaneuver the Rogue.

## Empress

The Empress is a later stage in the xenomorph life cycle not specifically stated. When a hive expands to the point of having multiple queens that dwell in it, the "Empress" is the queen that the subsequent queens had spawned from, making the Empress the "queen of queens." The Empress is somewhat larger than most other queens and boasts a larger crest than the rest. The crest of an Empress has an addition pair of straight spines that flank the three spires of its crest, and there appears to be not as many curves to the crest as there are with the crests of other queens; there are much more geometric lines and angles.

## Matriarch

The queen dubbed the "Matriarch" is the oldest known alien queen. It is unknown how old the Matriarch is specifically, but many speculate that she could be thousands or perhaps hundreds of thousands of years old. The Matriarch's flesh has yellowed and wrinkled with age, giving the creature a subtle softness to its exterior. The crest of the Matriarch has also expanded with age: two pairs of spires fan out to the sides of the crest in addition to the three that all queens seem to have at maturity, and a bony ridge of spines runs down the center of the crest sweeping towards the end of it. The face of the Matriarch is extensively scarred as well and missing chunks of flesh from around the mouth and the carapace that protects the face when it is retracted has holes in it that resemble being eaten away by acid.

### Arachnoid

A strong purple and black brood that uses powerful jump attacks. They are assumed to be special variants of the Warrior and Stalker aliens created through experimentation, much like the Chrysalis and Razor Claws minibosses. They are sometimes seen curled up on the ground as they wait for enemies.

### Chrysalis

A very large (around the same size as a Praetorian) Xenomorph with a grayish-green exoskeleton and a hard, tan carapace on its head, back, and forearms. It sometimes moves/attacks by rolling itself along the ground in a ball. It gets its name from the chrysalis that it is seen gestating in when it first appears. The Chrysalis' head can actually extend a short distance from underneath the carapace over its head when biting its prey, in addition to the extension of the inner mouth. More Chrysalis are also seen defending the Queen during the final battle. These have a reddish or blue coloring.

A variation of the Chrysalis appears in the second level of the Konami "Aliens" arcade game, but it looks considerably different and has a different attack pattern.

### Defender

A bluish brood with an apparently hardened carapace on its arms and head that can defend itself against most projectiles and hand-to-hand attacks.

### Dogburster

A lighter colored variation of the Runner from Alien 3; a "Super" Dogburster also appears as a much tougher version that launches purple balls of acid from its mouth.

### Flying Xenomorphs

Castes of Xenomorphs that born with ability to flight by the wings. They can be seen in Konami's Aliens, the arcade game Aliens: Extermination as a boss under the name Alien Dragon, in the Super Nintendo game Alien vs. Predator as an end-level boss (this one having gestated in a giant species of bat and taken on the arm-wings and overall appearance of a bat), as well as a Flying Queen in the Kenner toy line.

### Infectoids

A human implanted by a type of facehugger altered as a bioweapon. Instead of being sedated, they are put in a zombie-like state, and move around the nesting area, attacking any intruders (presumably either hypnotized by facehugger that implanted them through chemical secretions or possessed by chestburster inside them). If the same type of facehugger implants a Predator, the Predator is instead driven into a berserk state, and will attack anything that moves. Similar zombie-like humans controlled by aliens are found in the Female War comic book, the Aliens arcade game and Alien trilogy for Playstation.

### K-Series Xenomorphs

In Aliens Verses Predator: Extinction, a variation of the original xenomorphs are created by Dr. Samuel Kadinsky. This group is called "The K-Series". They are almost identical to normal xenomorphs in ability but have white and yellow pigmentations to their exoskeleton rather than the dark colors usually seen. They were eventually wiped out in a hive war to keep the species of xenomorphs "pure" (being that they were not naturally created, but were instead clones).

### Tarkatan Xenomorphs

The Alien in Mortal Kombat X.

This unique Xenomorph breed is from Mortal Kombat X and it started it's life as one of the eggs that left behind by members of it's kind on Outworld long ago, until a Tarkatan Patrol leader disturb one of them. This egg hatch in response, releasing the facehugger inside that immediately latches on his face. Later, after the facehugger had fallen off, the Alien progeny burst from the unfortunate Tarkatan's chest, bearing characteristics of both Xenomorph and host.

It eluded the rest of the Tarkatan soldiers and eventually killed them with both of it's inherent powers and and the newfound one, retractable blades that it gained from its Tarkatan host. The creature now roams Outworld, looking for more hosts to build the hive and amasses more powerful Xenomorph breeds to take over Outworld.

Weaknesses

In spite of their notorious nature, Xenomorphs do have their weaknesses and therefore, are not invincible:

Due to their dependence with the hosts for multiplying, the hive will not able to repopulate had potential hosts in their territory are scarce or no longer available. Had this happened after the hive sustained huge damaged after invasion done by either human soldiers or predators and the surviving xenomorphs' number became scarce, they will have major disadvantages.

Majorities of known Xenomorph breeds are fighting in close quarters, which means firearms are effective weapons against them, though the recommended firearms must either nitrogen weaponries, napalm weaponries, or guns with equal firepower with either M4A1 Pulse Rifle or better (it is ill-advised to only used hand guns or combat knifes, even if it works for kill the weakest xenomorph forms like facehugger or chestbursters).

However, Napalm weaponries (like flamethrowers) are far more effective as their bodies are weak to fire.

Heavy weaponries with firepower that equivalent with either rocket launcher, plasma weapories, or laser guns are also effective for dispatching multiple xenomorphs at once, but is recommended to kept for used against stronger breeds/castes like queens or predaliens.

In either way, one must ensure to both keep their distance (3-4 meter are recommended) away from the xenomorphs as well as not positioned themselves right in front of them for these reasons:

Warrior xenomorphs' pressurized bloodstream will cause it to burst apart upon killed by guns, drenching nearby enemies in acid blood.

## Acid Spit

Some castes like drones or runners could spit acid as means to counteract their weaknesses in close-range combat.

Queens are primary source of eggs within the hive as without her, the hive would suffer the huge loss. Things would be worse had there are no surviving eggs/facehuggers after their hive attacked as well as no xenomorphs that capable to mold into replacement queen.

The last, but not least, xenomorphs' caustic blood are useless fighting against another member of their kind or in least extent, predators' weaponries that constructed from acid-resistant materials. This forced them to resort to fight with their bladed tails, claws, and inner jaws.

## Cultural impact

In the years since the release of Alien, the Alien has become one of the world's most recognized movie monsters and a pop-cultural icon. A memorial to the Alien was made in Vladivostok, Russian Far East. In June 4, 2003, the Alien was voted as the 14th most memorable screen villain by the American Film Institute. The Blondie co-founder Chris Stein, who is a friend of Giger, pondered in an interview:

" I'd like to see someone even vaguely compile how many versions of the Alien are floating around the world in models and stuff; there must be close to 100,000-little toys, things. All the Japanese horror comics just plunder his style. „

~ H.R Giger

Examples of Alien-inspired works include the classic video games Contra and Metroid.

The Aliens have appeared in many crossovers (including a large number of intercompany crossovers) in comic books and other media such as novels, toys, and videogames. Crossovers include encounters with Terminators, Judge Dredd, Green Lanterns, Batman, and Superman. The largest of these crossovers is the Alien vs. Predator franchise, in which the Aliens battle the Predators. This was an idea that came to the comic book artist Chris Warner in early 1989. He and other people at Dark Horse Comics were trying to come up with a good character combo for a new comics series. Dark Horse had been publishing Aliens comic book under license from 20th Century Fox since 1987. In November 21, 1990, the first depiction of the idea in film appeared in Predator 2, when an Alien skull, sculpted by Kevin Hudson, appeared as one of the trophies in the Predator spacecraft. Because Dark Horse possessed the rights to the franchise in comics, it has been able to feature likenesses of the alien in its other licensed comic books. For example, it did this in a mini-issue of Buffy the Vampire Slayer Season Nine which was billed in the media as an Alien crossover.

Giger's Alien was iconic enough to have an audio-animatronic version of it appear in The Great Movie Ride at Disney's Hollywood Studios at Walt Disney World in Orlando, Florida. The Alien appeared with the attraction's opening in May 1, 1989 and remained there until its closing in August 13, 2017. An Alien-based attraction at the Magic Kingdom entered early development stages before being reworked into ExtraTERRORestrial Alien Encounter until its closing in October 12, 2003.

In the Red Dwarf episode Polymorph, the Polymorph turns into a form that looks similar to the Xenomorph in one scene.

## Appearances in other Media

### Animaniacs

A Xenomorph appears in the episode Taming of the Screwy. It attempts to attack Dot Warner, but Dot released her pet (red monster with horns) from her box to protect her. A Xenomorph and Dot's pet monster fell in love with each other and leaves Dot.

## South Park

A Xenomorph appears in South Park's Imaginationland Trilogy, The Xenomorph was among with the other evil imaginary characters who break through the barrier which destroyed by the terrorists using Rockety Rocket causing the evil imaginary characters to be free. The Xenomorph kill the Mayor of Imaginationland and later join up with the other evil imaginary characters in the war against the good imaginary characters.

## Conker's Bad Fur Day

A Xenomorph appears as the final boss of the game. Heinrich is the final boss in the game. After Berri gets shot by Don Weaso, the Panther King starts to have stomach pains. He is oblivious to what is going on, but all of a sudden, his breath cuts short, starts coughing weakly and, after seconds passed, he gets a horrible surprise. A black, reptilian figure with a tail bursts out of the Panther King's chest, instantly killing him. Professor von Kriplespac starts to call the creature "Heinrich" and then orders him to kill Conker. Conker then runs over to a nearby lever and pulls it, opening up the air vault, where Berri's body, The Panther King and Von Kripplesac get sucked into space (Don Weaso's fate is unknown) and Conker runs out the room to don a heavy Spacesuit to battle Heinrich.

Conker then tries to defeat him by throwing him into space, but to no avail does he get sucked in. After throwing him out two more times, Heinrich gets his grip and is climbing back up and powerfully pounces at him like a panther, where the game then freezes up. Conker contacts a game programmer and agrees to keep the lockup a secret in exchange for help beating Heinrich. Conker is transported to the Panther King's throne room and allowed to choose any weapon he wants to defeat him. After grabbing and storing a Shotgun and a crossbow, he chooses a katana and decapitates Heinrich before the dangerous weapon can kill him, causing acidic green blood to burn up part of the floor. After that, Franky comes out of nowhere, looks at a dead Heinrich on the floor and says that Conker is now king and was never seen again.

Kill la Kill

A Xenomorph makes a cameo appearance in Episode 16 of the anime series, Kill la Kill as one of Mako Mankanshoku's "transformation" sequences.

Insaniquarium

One of the Aliens called Sylvester appears to be inspired by the Xenomorph. Unlike the Xenomorphs in the Alien franchise which are hard to kill, Sylvesters are very easy to kill (most likely due to being the first enemy encountered in that game).

Qin: Whoa! That must've been a really bad nightmare!

Me: Ellen Ripley has been through all this and it was a horrifying experience for her.

Swoop: Me Swoop and Autobots remember that them Xenomorphs are mindless monsters.

Jared: They aren't entirely mindless Swoop. I remember that the Queen communicates to all of her horde on a telepathic level. She talked to me telepathically.

Ellen Ripley: I remember that. That was amazing.

Newt: It was something.

Poison Ivy: I don't think I came with you guys when you all went to the Xenomorphs' planet.

Carmen: I'm gonna be honest. When we fought the Xenomorphs, we were terrified on the inside.

Rocket Raccoon: Even I was scared of those freaks.

Star Lord: And that's saying something because Rocket's not usually scared of anything.

Me: But luckily, we blew up the entire planet of LV-426 and saved the universe.

Poison Ivy: I don't think I came with you guys when you all went to the Xenomorphs' planet.

Me: No you weren't with us Pamela.

Thundercracker: When they were still alive, even Megatron and Starscream steered clear of the Xenomorphs due to how dangerous they were.

Me: The Xenomorphs are one of the most dangerous creatures in the entire universe next to the Necromorphs and The Thing. The Terrifying Universe Destroying Trifecta.

Nico: That's a good name though.

Me: It was the first name that came to my mind.

Kira Ford: That's all right.

Casey Rhodes: That was interesting though. But it's awful what they went through all that.

Me: No kidding. (To James Maxfield) James can I ask you something?

James M.: Sure J.D. I have a feeling I know what you're gonna ask. You want to know what happened before I came to you.

Me: That's right.

James M.: All right.

James revealed what happened. The Plans of W.A.R (World Aeronautics and Robotics) and The Nova Project were also nearing completion. The Maxfield's only boy, James had learned that his parents were killed in a shuttle that was destroyed by laser fire. After the death of James' parents, James had exacted revenge on all who serve W.A.R and The Nova Project, but on the day he would do it, W.A.R was at work with an experimental Time Device. James had stolen the schematics and was caught by all of W.A.R and Sela and Sylvia were about to rescue him, but when James had thrown a compression agent, The machine was going Haywire, Not even the Nova H.A.R (Human Assisted Robot) could stop the machine. It made itself into a Glowing, white sphere and it Encapsulated James. Sela and Sylvia were caught n the crossfire and it sent them to 2016. James had been found by Royal Woods police. He still had the time device schematics. James has discovered his powers and needed some help to get back to 2097. For three years he has tried to search for his friends Sylvia and Sela, But haven't found any clue about their whereabouts. He had met someone who had hated the Loud's and had wanted revenge but James had accidentally killed him trying to defend himself and started looking for people that the louds have met and he had even seen a lot of the Team Loud Phoenix Storm's fights, He's also seen their ship: the U.S.S Valor launch. He is in a bit of clinical depression after his family was destroyed by laser fire in a shuttle. His powers are that of element control, Geo-leaping, Teleportation, Martial arts. He's learned how to use a sword. He didn't even have time for a proper childhood because of what W.A.R. and The Nova Project did to him. In 2019, he managed to find Sela and Sylvia and they all went looking for Team Loud Phoenix Storm and they had found the Time and Return Clow Cards in the process.

We were all amazed and shockwed all at the same time!

Me: Whoa! You all went back in time!

Seia: That's right. We've been searching for a way to travel back to our time and put an end to W.A.R. and the Nova Project.

Me: We'll have to worry about that later. Something tells me that this is gonna be a dangerous mission when we cross that bridge.

Nico: Hey guys. I think I found our next target.

Nico held up the book called Attack of the Jack-O-Lanterns.

Me: Attack of the Jack-O-Lanterns. That was a good one.

Lincoln: I remember that one. Those Pumpkinheads were cannibalistic monsters!

Laney: I know. They fattened a lot of kids up by force-feeding them all that candy and eating their flesh.

Everyone: EEWWWW!

Nico: Yuck!

Me: I despise cannibalism. You'd have to be one sick and fucked up freak to do that.

Kira Ford: It is absolutely disgusting.

Nico: Luckily that was just a prank and not the real thing.

Me: And I heard that they are aliens from another planet. Well we found our next target.

Then the phone rang.

Me: I'll get that.

I answered it and it was Drew Brockman.

Me: (Answers) Hello?

The screen split into two and on the left side was me and on the right side was Drew Brockman.

Drew Brockman: J.D., it's Drew Brockman. I need your help. Our entire town is being attacked by a rogue Pumpkinhead!

Me: You sure it's not a trick caused by Shana and Shane?

Drew Brockman: No this is no prank. It's real. All the pumpkinheads went back out into space after we showed them that candy is much better than flesh. But one stayed behind and now we have a rogue bloodthirsty pumpkin out for blood!

Me: We're on our way Drew.

We were off to Morton, Illinois.

## MORTON, ILLINOIS

We arrived in Morton, Illinois.

Me: Here we are guys. Morton, Illinois.

Lincoln: It's also known as the pumpkin capital of the world.

Me: Yep. This is where the country gets a lot of its pumpkins.

Drew then ran up to us.

Drew Brockman: It's an honor to meet you guys.

Me: You too Drew.

So did Shana and Shane.

Goosebumps Shane: Wow! Team Loud Phoenix Storm!

We saw them.

Me: So you are Shana and Shane.

Shana: That's right.

Shanan: Whoa! You guys are Voitmoids from the planet Voitus III.

Goosebumps Shane: That's right Shanan. How did you know that?

Shanan: I have a lot of knowledge about all of the creatures all over the entire universe.

Varie: What are Voitmoids?

Shanan: They are a race of shapeshifting aliens that can change into anything they want. But they mostly change into creatures that have pumpkins for heads and they breathe fire. Their true forms are gelatinous green slime creatures.

Kate L.: Wow! That's amazing.

Alicia S.: It sure is.

Maria: (to Shane and Shana) So, I heard that you guys like to eat human flesh.

Goosebumps Shane: We did at first. But once Drew introduced us to the taste of candy, we actually gave up on eating humans.

Horsea: That's a relief.

Shana: But there's one rogue member of our race who's hiding out here. He's actually planning to make clones of himself to make an army.

William: Does this Rogue Pumpkinhead have a name?

Goosebumps Shane: His name is Shawn. He wants to follow our race's ways all the way to the very end.

Nico: Then that's who we need to get.

Me: We got a pumpkin to squash!

Drew Brockman: I'm coming with you all.

Me: Okay.

Shane: Make sure you bring the traitorous Pumpkinhead to us alive.

Stewie: Yeah, we usually don't bring in criminal scumbags in alive. So, that's gonna have to cost you extra.

Shana: There's a huge bounty that was now placed on his head alive.

Shana handed me a wanted poster of Shawn and his human appearance was a black hair boy with red eyes, his pumpkinhead form has a super scary pumpkin face and his gelatinous form was the same as Shane and Shana.

Me: Thanks guys. We'll keep our eyes peeled.

My Dark Orb Detector beeped.

Me: There's a dark orb here.

Nico: Then we better find it and destroy it.

We got to searching. Into the night, we were looking high and low for Shawn.

Me: Come out, come out, wherever you are.

Nico: He has to be here somewhere.

Shana (calls us): Hey, guys. Good news. I got extra money from my bank account. So, bring in the traitor alive!

Orion: Got it!

Megaforce Team: Legendary Ranger Mode: Jungle Fury!

The Megaforce Team turned into the Jungle Fury Rangers! Troy Burrows was the Red Tiger Ranger, Noah turned into the Blue Jaguar Ranger, Gia turned into the Yellow Cheetah Ranger, Jake turned into the Purple Wolf Ranger, Emma turned into the White Rhino Ranger and Orion turned into a hybrid of the Black Lion Ranger and Camille the Chameleon Ranger. The right side of his uniform was the Black Lion Ranger and the left side was that of the Chameleon Warrior.

Nico: Wow! You guys look amazing as the Jungle Fury Rangers.

Troy Burrows: Thanks Nico.

The Pumpkin Heads are creatures who have jack-o'-lanterns for heads and breathe out fire. This was the disguise of a race of shapeshifting aliens.

Drew Brockman, Walker, Tabby, and Lee went out on Halloween night but encountered two people dressed in costumes with pumpkinheads. Tabby and Lee were convinced that the two are Shane and Shana. The two pumpkin-headed people took the kids to a street that the kids are sure was never there before, saying they will get lots and lots of candy from the incredibly generous inhabitants. But when it started to get late, Drew and the others learned that the two pumpkin headed kids would not let them go home, and want them to trick-or-treat forever. Tabby and Lee were still not scared, so they tied to take the jack-o'-lanterns off the two, but found that there is no head beneath them and that the jack-o'-lanterns are still speaking.

As the hours dragged on and the children's bags became full, the two Pumpkin Heads forced the kids to eat the candy they already have to make room in their bags. The children complained that they are painfully full, but the Pumpkin Heads continue to demand that they eat every piece that they were given. They were lead to a street inhabited with Pumpkin Heads. Soon, Drew, Walker, Tabby and Lee were surrounded by Pumpkin Heads. Four Pumpkin Heads walked towards the group with four craved pumpkins. They told the children they shall become Pumpkin Heads when they put the pumpkins over their heads. After they successfully put pumpkins over Tabby and Lee's heads, Tabby and Lee ran away, leaving Drew and Walker.

The two Pumpkin Heads then revealed that they are Shane and Shana and that the entire ordeal was merely the prank that the four had created to scare Tabby and Lee. It turned out that Shane and Shana are actually aliens with the strange abilities like shape-shifting and the other people in the neighborhood are their brothers and sisters who were in on the prank as well. As Shane and Shana prepared to depart, Drew offered them some candy, but the two tell her that their people eat human flesh. They stated that she needn't worry yet, she's not an adult, nor is she plump enough yet. Drew asked if they were joking, but they didn't answer.

Nico: No problem. But how are we gonna find Shawn? He could be anywhere!

Shanan: One thing I remember that all Voitmoids have is that they have exactly the same body temperature as a vampire. They have a temperature of 50˚ Fahrenheit.

Me: That works! Let me see here.

I turned on my Infrared Vision and I looked at Lucy Loud and she had a temperature of 50˚ Fahrenheit. She was all blue and yellow all over her.

Me: That works. Okay lets see here.

Cody: I can help you flush him out J.D.

Me: Thanks Cody.

Cody activated his infrared vision and he had tri-beam laser targeting system on. We saw something behind a tree that had the same heat pattern.

Me: Over there! Behind that tree!

Cody: I see it!

He had a Triangle Target form on the tree and he fired a powerful blast of black lightning at the tree and it hit it and exploded and a figure landed on the ground in front of us.

Me: Awesome! Good work guys!

Shanan: Thanks dad.

We changed our vision back.

Me: So we meet at last Shawn.

Shawn: Very impressive flushing me out you fuckers.

Me: Mutual. You will pay for your crimes. You are an incredibly sick fuckhead!

Laney: Eating the flesh off of everyone is disgusting!

Lana: You make me sick!

Me: There's also a bounty on your head and we're gonna collect.

Shawn: If you want to get to me, you'll have to get passed my friends!

He had a dark orb imbedded in his hand and he summoned numerous pumpkin fiends and many pumpkin heads!

Me: Whoa!

Nico: He has a whole army!

Lincoln: Now this is getting interesting!

Naruto: This is gonna get fun!

Me: Lets power up and take them down!

We transformed and powered up and we went at the army and Shawn.

I punched a Pumpkin in the face and smashed it and kicked one in the head and smashed it.

SMASH! SMASH!

Nico kicked a bunch of pumpkin heads and fired massive blasts of fire at them and burned them. We smashed their pumpkins all over the place and we were smashing and kicking and more. Troy Burrows smashed a bunch of pumpkins with his Jungle Chucks, Noah slashed and smashed a bunch of pumpkins with his Jungle Tonfa, Gia smashed and bashed and slashed a bunch of pumpkins with her Jungle Bo, Jake slashed a bunch of pumpkins and smashed a lot of them with his martial arts skills, Emma used the Rhino Morpher and smashed and slashed a bunch of pumpkins all over the place and Orion used the Chameleon Sai and powerful martial arts to slash, smash and bash a lot of pumpkins all over the place. We smashed and crushed them all in an instant and then we set our sights onto Shawn the Rogue Pumpkin Head.

Drew: We'll have to tell Shane and Shana that this traitor is gonna be slightly damaged.

Me: Lets get him!

I punched him in the face and kicked him in the stomach.

Edzilla: ED SMASH PUMPKIN! (punches Rogue Pumpkinhead)

POW!

Shawn got up and fired a massive blast of fire at us from his mouth and Lola and Flame Princess fired a powerful blast of fire and the blasts collided and exploded in a massive fiery explosion.

KRABBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Nico: Shawn, you have failed this planet!

Me: He sure has! Time for some teamwork!

Swoop: Me Swoop, ready! CYBER KEY POWER!

The Animatron Cyber Planet Key went into his back and it enhanced his wing missiles 100-fold.

Carmen: You will burn you ugly pumpkin! GIGANTION CYBER KEY POWER!

The Gigantion Cyber Planet Key went into Carmen's right arm device and enhanced her fire powers 100-fold.

Swoop and Carmen: FLAMING FIREBIRD BARRAGE!

Swoop fired numerous missiles and Carmen fired a powerful blast of fire. The fire merged with each missile and turned them into deadly mini firebirds. They hit Shawn and exploded.

KRABBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

G1 Thundercracker: Time to bring the pain! CYBER KEY POWER!

The Earth Cyber Planet Key went into his back and enhanced his

abilities 100-fold and it enabled his Cybertron Form's cannon to form on his arm.

Poison Ivy: Time for some pain in the form of poison! ANIMATRON CYBER KEY POWER!

The Animatron Cyber Planet Key went into Poison Ivy's right arm device and it enhanced her plant powers and martial arts moves 100-fold.

G1 Thundercracker and Poison Ivy: THUNDER POISON CANNON!

G1 Thundercracker fired a powerful cannon blast and Poison Ivy fired a massive purple venom blast and the blasts combined and they hit Shawn and exploded.

KRABBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOMM

Me: Lets take him down!

Ed: You got it J.D.! FIERY PUMPKIN OF THE HEADLESS HORSEMAN OF CIRRHOSIS OF LIVERPOOL!

Ed threw a powerful flaming pumpkin at Shawn and it hit him and exploded!

KRABBBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Nico: Nice throw Ed!

Leni: That was totes amazing!

Ed: Aw it was nothing.

Drew Brockman: Lets see you like this! FLAMING VAMPIRE BAT GHOST STORM!

Drew Brockman fired a massive blast of blue fire and it turned into a massive swarm of flaming vampire bats and they hit Shawn and exploded and they drained him almost dry.

Shawn was down.

We grabbed him.

Me: You're in a lot of trouble you traitor.

I grabbed the Dark Orb and crushed it. It gave us a powerful power boost.

We brought Shawn back to Shana and Shane and they were glad that he was brought to justice. We were given a bounty of $500 decillion dollars. Turns out the planet Voitus III is also another of the richest planets in the universe.

Drew Brockman was now inducted into the Goosebumps Monster Busters.

---

We went back to the estate and we were having snacks while watching TV.

Me: (To Lisa Simpson) Hey Lisa, I heard from Homer that you got to sing a really cool folk song during a strike at the nuclear power plant.

Lisa S.: I sure did. That was a great song I did. Would you like to hear it?

Me: Sure.

Lisa S.: Luna, may I borrow your guitar?

Luna: You got it dudette.

Luna gave Lisa her guitar and Lisa Simpson began playing.

Lisa Simpson: (Singing)

Come gather round, children,

It's high time ye learned

'Bout a hero named Homer

And a devil named Burns.

We'll march 'till we drop

The girls and the fellas.

We'll fight 'till the death

Or else fold like umbrellas.

So we'll march day and night

By the big cooling tower.

They have the plant

But we have the power.

So we'll march day and night

By the big cooling tower.

They have the plant

But we have the power.

Homer (in unison):

They have the plant

But we have the power.

So we'll march day and night

By the big cooling tower.

They have the plant

But we have the power.

When it was done, we cheered wildly.

Me: That was awesome Lisa!

Homer: That's my little girl.

Bart: It was a great song.

Me: But that Burns was one greedy fuckpot.

Nico: He sure was. And he has failed this entire planet.

Me: Yeah. For over 130 years. I found out that Mr. Burns has cheated death for far too long.

Qin: Who was Mr. Burns?

Me: He was the owner of the Springfield Nuclear Power Plant before we blew up Springfield, Oregon and turned it into a Nuclear Crater.

I revealed his history.

---

Charles Montgomery Burns was born on September 15, 1886 to Clifford and Dephane Burns. Unlike his current personality, Young Charles was so happy he was nicknamed "Happy", until his grandfather, Colonel Wainwright Montgomery Burns, lured him away from his parents and raised him as his own son. Although he was seemingly born poor, he was raised in luxury by his grandfather (he later reveals to Bart that he grew up in a wealthy family), who molded him into the heartless man that he is today. When growing up, Burns attended Yale University and studied nuclear physics and business. He graduated in 1914 and went on to pursue business interests including Confederated Slaveholdings.

In the mid 1930s, Burns fell in love with a woman named Lyla, and, after proposing to her, gave up on her promise that he dedicate five minutes a day to others.

In 1939, he met Lily Bancroft at his 25th Yale reunion. They would procreate and Lily would give birth to Larry Burns, who would enter Mr. Burns' life years later.

Later that year, Burns enlisted in the Schutzstaffel when Germany invaded Poland. However, when Germany and America declared war, Burns, who came from America, defected against the Nazis, and enlisted in the United States Army in 1941. By 1943, he had been forced to serve in the Flying Hellfish, under Abraham Simpson, when he was caught in a romantic scandal involving blocking a probe from J. Edgar Hoover. He entered a tontine where the last surviving member of the Flying Hellfish would gain a group of priceless German paintings, which he would break when he was discharged from the group after trying to murder Abraham Simpson. In 1945, Burns (likely because of his service and wealth) was hired by President Harry S. Truman yo transport a trillion dollar bill to Europe. Burns absconded with the bill, and kept it in his possession for many years until it was lost to Fidel Castro. Burns subsequently lied about the bill's transportation to the government, which kept it believing Europe had received the bill and was rebuilt until 1998.

By 1950, Burns, who was still serving in the Army, began to serve in the Korean War with the original Flying Hellfish. He was released from military service in 1956. In 1960, Mr. Burns purchased a germ warfare lab, effectively becoming its chairman. Subsequently, his fortune grew. By 1965, he worked as a biochemist and started developing diseases to use against the people of Springfield. His germs were killed when a group of hippies set off and antibiotic bomb in the lab. When they trampled over him, one of the hippies, Mona Simpson (Homer's mother and Abraham's wife), went to help him up, he saw her and angrily threatened her with a long prison sentence. In 1966, he hosted a fundraiser to help finance the construction of his nuclear power plant. At his fundraiser, he got into a fight with Homer Simpson, who wanted to give his stuffed Isotope to his dog Bongo. Burns tried to get Bongo euthanized after he bit him, but gave up and employed Abe Simpson to make sure he wouldn't come back after them. Eventually, his nuclear plant finished construction 2 years later.

In 1968, when Homer (12 years old), Lenny, Carl, and Moe camped out near the Springfield Nuclear Power Plant, it suffered a near meltdown and almost exploded. However, the meltdown had been averted through unknown means. It was later revealed that during that time, Waylon Smithers Sr., Burns' best friend and assistant, sacrifice himself to save the plant, and his infant son, Waylon Junior.

In 1974, the plant began handing out employee pamphlets to Springfield High School, one of which Homer took (his counselor stated that the plant was opening soon, implying that Mr. Burns was renovating and re-opening it).

In 1980, Burns hired Homer Simpson at the plant as a technician after the latter dramatically stormed into his room and demanded a job, promising to be a perfect employee. Burns asked Smithers who he was, and Smithers replied "Homer Simpson". It was also at this time that Burns' catchphrase "Simpson, eh?" originated. He promised to remember that name, although due to his role in the series, he has broken his promise.

In 1989, Homer (who had found a new job as a pinmonkey at Barney's Bowlarama) quit working at the plant, and practiced his newfound freedom by abusing Mr. Burns. However, when Maggie was born, Homer was forced to crawl back to Burns for his nuclear-safety job. Burns and Smithers took pleasure in this, and gave him a wall plaque that read "Don't Forget, You're Here Forever".

Burns currently owns and manages the power plant, although he had lost control over it many times, including when he sold it to a German conglomerate, when it was taken over by hip-hop mogul Jay G, and when he lost his fortune to the Rich Texan.

Qin gasped in horror!

Qin: Mr. Burns is a monster!

Me: He was a monster. Before we destroyed all of Springfield, I faced Mr. Burns in a final showdown. Grim got to Reap him after I immobilized him. It was back during the final days of our worldwide adventure.

---

It was during the events of our Volcanic Trip Saga.

Me: (Narrating) **We assisted the Dysfunctional Town Liberation Army in the war efforts to destroy all of Springfield, Oregon. We pretty much robbed the whole town of its entire future.**

Me: Mr. Burns.

Mr. Burns saw me.

Mr. Burns: Who are you?

Smithers: Sir that's J.D. Knudson the richest kid in the world and he is also the most famous kid on the planet.

Mr. Burns was enraged.

Mr. Burns: So you are behind all this! You took everything from me!

Me: And I show no remorse in doing so.

Mr. Burns: Why you?!

He ran at me and punched me in the face. But when he punched me the impact of the punch didn't make me flinch but it caused all of Mr. Burns' bones in his hands to break and protrude from his hands. Mr. Burns was screaming in pain.

Me: (Giggles) That tickled. Now to make sure you never get another cent from anyone ever again.

The Grim Reaper appeared.

Grim: Charles Montgomery Burns. Your fate is decided. Everlasting damnation for your sins.

Mr. Burns: No! I won't go to the Netherworld!

Me: You have no choice. (Cocks a gun)

BANG! BANG!

I fired two bullets into Mr. Burns' legs and blew them both off.

Me: He's all yours Grim.

Grim: Thank you J.D.

Me: You're welcome. [To Mr. Burns] You've cheated Death for the last time Burns. Burn in Eternal Hell!

Grim then slashed off Mr. Burns' head with his scythe and killed him instantly. Mr. Burns went to the darkness of the Netherworld for all Eternity. His punishment was suffering for his greed in the 4th Circle of The Inferno.

Me: Never again Burns.

Grim: J.D. thank you for helping me reap Burns.

Me: It was our pleasure Grim.

Mr. Smithers was enraged and he was gonna get revenge for killing Mr. Burns. He pulled out a gun and fired at me. But I used the Force and stopped the bullet in midair. I redirected it back at him and it went into his leg.

Mr. Smithers was in a lot of pain and I sent him to prison for attempted murder.

Me: As for Mr. Burns.

I fired a blast of fire and burned his body.

Grim laughed malevolently.

Me: I'm glad Mr. Burns is gone for good Grim.

Grim: Me too J.D. I'll see you again sometime soon.

Grim then vanished.

Me: **We brought an end to the evil of Mr. Charles Montgomery Plantagenet Schicklgruber Burns and buried him in an unmarked grave. We didn't want anyone to remember him at all.**

FLASHBACK ENDS

Me: Mr. Burns got what he deserved. And nobody will ever remember that fuckpot ever again.

Homer: You said it J.D. He made all our lives in Springfield miserable.

Me: I'm glad he's dead. But the pain he left will last forever.

Nico: No kidding.

Lincoln: But he deserved it.

Mr. Smithers: I'm glad he's gone.

Me: I'm sorry about what happened Mr. Smithers.

Mr. Smithers: It's all right J.D.

Pacifica and Dipper came down.

Dipper: Hey guys.

Me: Hey Dipper. Hey Pacifica.

Dipper: Pacifica has something to show you all.

Pacifica: I have something I never showed you. It's the scars of my pain at the hands of my parents.

Pacifica lifted her shirt and she showed us her back. What we saw was horrifying! We saw that her back was covered in claw marks, slash marks, and stitch marks. There was a scar that was the initials of her last name on her back and the words "Don't Lose" and she had a nasty mark that looked like a bite wound!

Lincoln: Oh man!

Me: Holy shit! Pacifica, what happened to you!?

Pacifica: This was all done by my parents.

I went over and looked at them.

Me: These look like animal slash marks. Bear marks probably.

Laney: Some of these marks were also made with a whip. These are whip wounds.

Lori: That is literally disgusting!

Leni: Pacifica's parents are monsters!

Me: These look like the wounds made by a red hot paper clip. I've seen marks like these before.

Nico: This bite wound looks terrible! What kind of creature can leave a bite wound like that?

Lana: No idea.

Dipper: These wounds are horrible. Pacifica's parents have no right to call themselves parents.

Lana: Is that a Llama scar?

Me: Actually that's a birthmark.

Pacifica: I'm ashamed of having that.

Me: Pacifica everyone has a birthmark. Look at me.

I revealed my birthmark on the right side of my neck.

Me: My Birthmark is shaped like the Constellation of Phoenix The Firebird. It's a constellation that only appears in the Southern Hemisphere.

Dipper: And I'm called Dipper because I have a birthmark in the shape of the Big Dipper in the middle of my forehead.

Me: Yeah. So this is nothing to be ashamed of Pacifica. But these scars you have are awful and what those monsters you call your parents did is completely unforgivable.

Nico: Yeah. And now that are in federal prison for all eternity.

Me: Actually we just learned that they were killed by fellow inmates in the exercise yard. Stabbed to death. Good riddance.

Lana: At least we won't ever see those lowlifes again.

Me: It's appropriate for them to burn in Hell for their crimes.

Mabel: Yeah!

Pacifica put her shirt back on.

Drew Brockman: (To the viewers) Halloween is my favorite time of the year because of all the candy and scary costumes and more. But don't take pranks too far by going as monsters that eat flesh.

Me: Good advice Drew.

We gathered all the smashed pumpkin pieces earlier and entered a contest for the biggest pie and we made the biggest pumpkin pie ever. The previous record was 3,699 pounds and we made a huge Pumpkin Pie that was at 60,263 pounds! It was 500 feet in diameter. Making it the largest pumpkin pie ever! We also got our picture for the Guinness Book of World Records and we were awarded medals and a check for $750 quadrillion. We sent Shawn into the Null Void. Shawn will never be welcome on Earth or on any planet ever again.

Another Fanfiction Complete and another Goosebumps Villain Defeated.

Attack of the Jack-O-Lanterns was a strange and awesome book for Goosebumps! It was so creepy! I got the idea for the song Lisa Simpson did from the episode of The Simpsons from Season 4's "Last Exit To Springfield." That was an awesome song. But I HATE MR. BURNS! GO TO HELL BURNS! If it were up to me, I would gladly give Mr. Burns the Death Penalty for his crimes. I got the idea for Pacifica's injuries out of inspiration from 88770ora's picture on Deviantart called Pacifica's Scars. That was awful she went through all that on Gravity Falls. Darkhai gave me the idea for his character's revelation and NicoChan11 gave me the rest of the ideas. Thanks guys. Let me know what you all think. Next up is the humorous horror Beetlejuice! We're gonna go after the Sandworm that is always trying to eat him and we're also gonna scare the living crap out of that snobby brat Claire.

See you all next time.

# Attack of the Neitherworld Sandworm

In the city of Gotham Royal York, we were walking down the street carrying bags of gardening supplies and a bunch of new plants for our greenhouse.

Me: Boy these new seeds and plants are gonna be perfect for our greenhouse.

Laney: They sure will. Winter is coming and we have to grow a lot of good food from the Earth's bounty.

Sludge: Me Sludge, agree.

Then we heard Mr. and Mrs. Turner crying hard.

Me: Is that Mr. & Mrs. Turner crying?

Scream: It sure sounds like it.

We went to their backyard and we saw that they were crying. There were numerous gravestones all over the place. They were all for plants that were killed somehow.

Me: My god, what happened here?

Laney: All these plants were destroyed somehow.

Lincoln: How did these plants all die so fast?

Earth: That's what I was wondering.

We went over.

Me: Mr. Turner, what happened here?

Mr. Turner: Oh hello J.D. I killed all my plants! I'm the worst gardener ever!

Laney: But how did this happen?

Mr. Turner: Watch.

Mr. Turner had a little radish in his hand and he touched it and the plant screamed like a little girl and it disintegrated into ash and a gravestone popped up.

Nico: Whoa!

Me: That is terrible!

Zoe: I've seen this before.

Lana: You have Zoe?

Zoe: I sure have. This is the Curse of Demeter.

Me: The Goddess of the Harvest in Greek Myth?

Zoe: That's right.

Me: Let me see here.

I pulled out my legends book and scrolled through the pages and I found it.

Me: Here it is. "The Curse of the Black Thumb of Demeter." It can only be given to someone who is completely stupid and uneducated. Demeter casts a terrible curse onto the person that will cause them to kill all plants, fruits and vegetables on contact. Primarily by touch. The way to find the mark of this curse is a black leaf located on the persons side below the underarm.

Nico: Hmm.

Nico lifted up Mr. Turner's shirt and right underneath his shirt was a black maple leaf! It was as black as the night and it was a mark of retribution.

Nico: There it is.

Me: A Black Maple Leaf.

Timmy: Whoa! I didn't know that was there.

Wanda: Demeter is the goddess of the harvest, Sport. She is in charge of making all the bounty of the earth grow and keep us fed with fruits and vegetables.

Timmy: Wow!

Mr. Turner: I guess this is all because of karma for my treatment of Timmy!

Scream: Mr. Turner, despite everything that you and your wife did to Timmy, we still saved you from Berry and Saix's Heartless. Don't make us regret that decision.

Weirdwolf: Guys, I know you might think that we made a bad call saving Timmy's parents. But we didn't.

Maria: I know. And they might not show it. But they're going to remember that rescue. Even if they didn't deserve it.

Me: Donna, now's not the time. Besides, they have brains the size of underdeveloped soy nuts. Mrs. Turner, do you have this curse as well?

Mrs. Turner: No, I don't think so.

Mrs. Turner looked and she found out that she does not have the curse.

Zoe: She does not have the curse.

Lincoln: So only Mr. Turner was hit with it.

Me: I guess so.

Mr. Turner: Ooh! Are those new seeds and plants?

Big Chill: (freezes Mr. Turner's feet) Sorry. Actually, I'm not sorry. We don't need any of our plants killed!

Me: Lets ask Demeter why Mr. Turner has this curse on him.

I knelt and prayed to Demeter and then an earthquake was felt and out of the ground came a huge bunch of fruit, vegetables and wheat and out of a huge pumpkin came Demeter, Goddess of the Harvest.

Me: Welcome Lady Demeter.

Demeter: I thank you for that welcome J.D. I take it you all want to know why I cursed Timmy's Dad.

Me: That is right Lady Demeter.

Sludge: Why you Demeter curse bad parent?

Demeter: Before you all say anything, let me inform you that Mr. Turner brought the curse on himself.

William: (chuckles) I have a feeling that he did.

Me: Was this before we saved Timmy from his retarded parents or after, milady?

Demeter: It was before. He has had this curse ever since before you put Mr. Crocker into the nuthouse. I saw his treatment towards Timmy and decided to make him suffer with this curse.

Me: That doesn't surprise me milady. Timmy Turner's parents may be stupid, but they couldn't help it. They have brains the size of underdeveloped soy nuts. That makes them dumb as doornails.

Mrs. Turner: (Offended) HEY!

Demeter: It will be with them forever J.D.

Me: I understand milady. I guess this is karma for Timmy's dad being a bad parent.

Demeter: Good. I'm heading back to Olympus now. Take care.

Me: Thank you milady.

She vanished.

We went back home to the estate.

---

Back at the estate we were watching TV and reading books.

Qin: I have a strong feeling that something big is about to go down somewhere.

Then there was pounding on the door.

Me: Uh oh.

I went to the door and at the door was Lincoln's friend Lydia Deetz. She was in trouble.

Me: Lydia. What's wrong?

Lydia: Beetlejuice is in trouble!

Brittney: What!? Tell us what's happening.

Lydia told us that Beetlejuice was accidentally thrown into Sandworm Land on Saturn's moon Titan! It was horrible! Sandworm Land was a death sentence for all people in the Neitherworld. The Sandworms are extremely ravenous and they will eat anything and anyone!

Me: We got to get over there!

Lydia: But the only way to get there is through a door into the Neitherworld.

Lucy Loud: I know how to get there. My sword can cut through the fabric of time and space to take us there.

Me: All right then. Lets go!

Lucy took out Nizogamourne and slashed the air and she opened a portal that took us to Sandworm Land!

We went through the portal and we were in Sandworm Land.

Lydia: Wow.

Nico: So this is Sandworm Land.

Laney: Looks like the kind of place I would not want to visit.

Me: Lets go find Beetlejuice and get him back home.

We set out to search for Beetlejuice.

---

The Sandworm was pissed that Beetlejuice got away.

Sandworm (in his own language): (Damn that Beetlejuice! He's not gonna get lucky the next time I see him.)

?: Perhaps I can help with that.

Sandworm turned and saw a humanoid dragon warrior with a white-skinned human face with two horns on his head and fins on the sides of his head, his eyes are green with white eyelids, he has a set of wings behind his back and a gold colored body, he has red shoulder pads with spikes coming out of them and five-clawed fingers and three-clawed feet.

Sandworm: (What the hell do you want?)

Humanoid Dragon: Calm down. I'm an ally. I can help you out with your Beetlejuice problem. If you help me out with killing the Power Rangers.

Sandworm: (Power Rangers? Who the hell are you?)

Humanoid Dragon (smirks): Call me… Prince Olympius.

PRINCE OLYMPIUS WAS BACK!

We were searching hard and we saw the sandworm and it was huge!

Me: Whoa! The Sandworms here are massive!

Lana: What a huge feast for me!

Nico: You will love that worm Lana!

Me: Lets get it!

Olympius: That's not the only thing you have to worry about!

We saw Olympius!

Me: Prince Olympius!

---

After the demons were freed, Olympius was released into the mortal world as the infant, Impus, who was cared for by the demons. He proved to be Diabolico's greatest threat since Bansheera constantly threatened to take away the demon leader's Star Power and give it to Impus.

After Diabolico's first destruction at the hands of the Power Rangers, the Star Power came to the infant, which transformed him into the humanoid draconic demon, Olympius. He took Diabolico's place as the leader of the demons, but proved not to be as skilled as his predecessor due to his naivety.

Battling the Rangers

Olympius at one point, succeeded in gaining access to the Lightspeed Aquabase by capturing four of the rangers and transforming into them. However Carter Grayson, the Red Ranger, succeeded in seeing through his deception and sent him falling into the ocean. This took away much of his power and he was no longer able to match the Rangers or Vypra and Loki, who took charge, leaving Olympius to meekly obey them. He once succeeded in destroying the Rangers with a device that let him use their Rescuebird. However Carter went back in time and stopped Olympius. He did succeed in bringing back Bansheera, but she only treated him as another expendable pawn instead of her son. The demon prince quickly lost favor with her and found out that she planned to replace him with Vypra and Loki. Olympius attempted to use his monster, Vilevine, to bury them alive, but they survived and resurrected Diabolico, who hampered his plans. He tried using the Gatekeeper of the Shadow World to trap the Rangers there with the destroyed demons roaming around. However Olympius was soon trapped there when Diabolico had the gateway destroyed and the key stolen. He tried to escape by absorbing the destroyed demons, evolving into a more powerful form, but didn't have enough power to escape the Shadow World. Jinxer, who remained loyal to Olympius, placed a Star Power link within the Aquabase's generator, which provided the demon prince with even more power, letting him escape. He proved to be a challenging opponent until Angela Fairweather took away his link to the Aquabase's energy, weakening him and allowing the Omega Megazord to defeat him and destroy his Star Power. Jinxer cared for Olympius while he recuperated and the demon prince soon had his revenge on Diabolico by defeating him and letting his mother brainwash him into a mindless slave.

The two attacked the rangers, but Olympius' plans were thrown out of whack when Diabolico regained his mind. The two fought and Diabolico was destroyed by the demon prince, who was then destroyed by the Power Rangers. However the two were resurrected as Super Demons and proved a great challenge for the rangers, but both were destroyed by the Lifeforce Megazord.

Powers and Abilities

Thanks to Olympius' possession of the Star Power, he is quite formidable, demonstrating great strength and stamina. He has demonstrated the ability to use various weapons, primarily a double-bladed spear, but also has used the Rescuebird and Carter's rescue blaster. Olympius also has pyrokinetic powers and is quite a skilled fighter, succeeding in defeating an army of undead demons and Diabolico twice. After becoming a super demon, Olympius was at the peak of his power and nearly destroyed all of the rangers' Megazords by combining his power with Diabolico. He could also absorb people into the Star Power, which he could then shape-shift into, but he lost that power after being exposed to water. However Olympius slowly had to get used to the Star Power at first and it provided a great strain on him. He has created a number of monsters throughout Lightspeed Rescue, which were commonly fire or reptile-themed.

Nico: That's impossible!

Lincoln: I remember this guy! He was fierce and deadly!

Beetlejuice: Who're you supposed to be? Some guy in dragon costume?

Olympius: Fool! This is no costume! I am Prince Olympius!

Noah: I've researched your history on the Ranger Database. (smirks) So I know that you always got your butt kicked by Carter and his team.

Olympius: Do you think I am a spoiled prince like Vekar? No! I am much more competant at fighting. And much more dangerous.

Carter Grayson: But how!? We destroyed you!

Olympius: Yes you did destroy me Rangers. But I've come back thanks to this.

Olympius revealed that he had a dark orb imbedded in his hand.

Me: A Dark Orb. I remember how you overwhelmed the Lightspeed Rescue Rangers and how you were deadly to them.

Olympius: And now this place will be where you die!

Me: Not likely! I think this place will be perfect for your grave! And we have more rangers than just the Lightspeed Rescue Power Rangers with us.

Olympius: You're a fool, Knudson. This is the home planet of my new partner!

Carter: I hate to say it, but Olympius is right for once.

Me: Uh oh! We're not out of the woods yet!

Olympius then grew to an incredible size and he was in his Super

Demon Form!

Me: Wow! I remember when he became this!

Nico: Me too.

Me: Time for some Megazord Power!

Carter Grayson: You got it!

Me, Nico, Laney and the Lightspeed Rescue Rangers: RESCUE ZORDS MOBILIZE!

Our Rescue Zords came through a portal and we hopped into them.

Carter Grayson: Initiate Lightspeed Megazord Mode!

The Lightspeed Megazord formed and it was amazing!

Wes Collins: Lets help them out! TIME JET ONLINE!

The Time Force Rangers went into their jets and turned it into the Time Force Megazord.

Me: Awesome! Just like on TV. Carter, me, Laney and Nico are gonna merge our zords with you. You'll get a thrill out of this.

Carter Grayson: Can you do that?

Me: We sure can. We made some modifications to all the zords you have and you will love what is about to happen. Initiate Lightspeed Rescue Ultrazord sequence!

The Supertrain Megazord, the Omega Megazord, Max Solarzord and all the zords of the Lightspeed Rescue Rangers then combined together and we formed a much bigger and far more powerful ultrazord.

Carter Grayson: Wow!

Kelsey Winslow: What happened to our zord?

Joel Rawlings: Wow! This is amazing!

Me, Laney and Nico appeared behind them.

Me: Hey guys. This is the newest Ultrazord we created for you. It's called the Lightspeed Rescue Ultrazord.

Chad Lee: Wow! This is awesome!

Dana Mitchell: You really know how to build an awesome zord J.D.

Me: Thank Ms. Fairweather and Lisa for that. This Ultrazord is 10,000 times more powerful than all your zords individually.

Lincoln and the others were amazed!

Lincoln: WOW! That is awesome!

Lana: We never saw this on tv!

Lola: That is awesome!

Me: You guys ready to destroy Olympius?

Carter Grayson: Lets get him!

Wes Collins: Lets do it! Time Force Saber! Full power!

***KRABBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO***

Me: Go to hell Olympius!

We cheered wildly! Olympius - the evil son of Queen Bansheera has been defeated and destroyed once and for all.

Olympius appeared as a spirit.

Olympius: (as a spirit) At least it took 3 teams of you Rangers to defeat me!

Me: Wrong Olympius. It took 19 teams of Power Rangers.

Nicole: And the Book of Vile Darkness is too merciful for you. To the depths of the River of Fire with you!

Nicole sent Olympius into the River of Fire and he was gone for good.

Me: It's over guys! We won!

We all cheered wildly.

The terror of Queen Bansheera and her demons have now been officially silenced forever.

Beetlejuice: (To the viewers) Lydia's friends are so awesome!

Lydia: They sure are Beetlejuice. Thank goodness you're safe.

Later we went back home.

---

We were working on a new helmet. It was designed to scare the living crap out of Lydia's archnemesis Claire.

Joan: You sure this helmet will make sure Claire doesn't cause any trouble.

Ben: It will. Trust me. I had an experience with this kind of helmet before.

We put our plan into action. While Claire was sleeping we put the helmet on her and when she woke up she was screaming her lungs out and she was seeing nightmares of her being in the fire of hell and she was being tortured and more. She was being tortured psychologically even though it's not happening. But when it was over, Claire was made a shadow of her former self. She was no longer a snobby girl anymore.

THE END

---

Another Fanfiction Complete and another Power Rangers destroyed forever.

The Sandworm of Beetlejuice the Animated Series was a funny and silly show. The Mega Babies made their debut in this chapter. They were really funny! The farting, vomiting and more was enough to make me laugh hard. Everyone calls them Rugrats on Crack. But they were really silly. The Toilet Humor was so funny! This has to be the most action in one chapter. Probably. But it was cool! NicoChan11 gave me the ideas for this one. Thanks man. Let me know what you all think. Next up is the Loud House episode Be Stella My Heart and that one is gonna show what happened when we met Stella.

See you all next time.

# Be Stella My Heart

Note: The Flashback in this chapter takes place in between the events of The Funny Minions of Gru and The Radioactive Planet Villain.

---

In the middle of the Arizona Desert we were horseback riding on our Rapidash and we were enjoying the scenery of the beauty and majesty of the Grand Canyon.

Me: (Inhales) Ahh. Smell that desert air.

Xerneas: It sure is beautiful.

Laney: I would love to come here to the Grand Canyon for vacation.

Lincoln: Me too.

Me: That battle with Olympius took it out of us. So what better way to relax than going horseback riding and enjoying the scenery.

Jake: I've gotta say. That battle against Olympius was Morphinominal!

Me: It was really action packed.

Nico: It sure was.

Lana: Yeah.

Syd: But this is so cool seeing the Grand Canyon.

Nico: It's one of the 7 Natural Wonders of the World.

Me: It took 18 million years to form it. It's 277 miles long, 10 miles long and 6,093 feet deep.

Syd: That is so cool! (Points at something) But look at that over

there.

We saw a pink and black spotted lizard.

Me: Hey that's a Gila Monster. Those are one of my favorite lizards.

Syd: They are the most venomous lizards here in North America.

Me: That's what they say. Next to the Mexican Beaded Lizard.

Ronnie Anne: Look! Over the canyon!

We saw a Latios and a Latias.

Maria: Is that a Latios and a Latias?

Me: It sure is. But we already caught those two Pokemon.

Syd: They sure are cool.

Me: Pokemon are all so cool. There are over 829+ Species of Pokemon. And the number is still growing.

Syd: Wow! That is so cool! But how come you guys aren't catching anymore Pokemon?

Me: I think we've covered all 829+ Species of Pokemon. We haven't discovered anymore Pokemon yet. But Nico is getting the newest Pokemon Game later next month and I think we're gonna resume our catching when we find out which Pokemon are available.

Syd: Oh. That makes sense.

Ronnie Anne: Did you hear that Ash won his first ever Pokemon Tournament?

Me: I sure did. Ash showed me his trophy that he won at the Alola Tournament. And I'm so happy for him.

Laney: I am too. He's now a true Pokemon Master.

Nico: The Latias and Latios are coming.

They flew over to us and they landed by us.

Syd: Wow! You two are so amazing!

Me: They are legendary pokemon.

Latios: We were made this way because of those scientists.

We gasped.

Me: More Pokemon Gene-Slammers!

Maria: You two are now the legendary pokemon Latias and Latios.

Latias: Yes.

May: Wait a second. Melody, Ryan, is that you two?

Latios: It sure is May.

Latias: It's good to see you again.

Me: Those Team Rocket fuckpots. They have been tampering with the laws of nature like the Paradigm Brothers.

Latios: They sure have.

Me: We killed Team Rocket and sent them all to hell. Except for three of their former members.

Nico: What Team Rocket did makes them the lowest of the low.

Me: You two aren't the only ones however. We found three girls that were a Groudon, Kyogre and Rayquaza.

Nico: And two girls that were a Nidoqueen and Nidoking.

Latias: That's amazing.

Me: But I have the power to change you back and give you the power to change at will.

Latias: You would do that for us?

Nico: He is J.D. Knudson, the Leader of Team Loud Phoenix Storm. He can do anything.

Latios: Wow! We heard so much about you.

Latias: You guys are awesome!

Me: Thank you.

Latios: We're ready.

Me: Okay. But this is gonna hurt. A lot.

Latias: I know.

Latios: We're ready.

Me: Okay. Cover your eyes guys.

They did so and I snapped my fingers and covered my eyes.

Latios and Latias were in excruciating pain. They were changing back to human. Latios changed back into a boy with red hair and red eyes and Latias changed back into a girl with blue hair and blue eyes. They were also naked. They got up and they saw that Xerneas was looking at them.

Ryan: Ok. Why are all of you looking at Melody while she's naked? I'm naked too!

Me: Xerneas!

Xerneas: Sorry.

Maria: There are two robes in my bag. But I can't get to them with my hands covering my eyes.

Xerneas took two robes out of her bag and gave them to Ryan and Melody.

Ryan: Thank you.

Melody: Same.

They put them on.

We uncovered our eyes.

Me: Wow! You two are twins.

Ryan: Yep.

Melody: We sure are.

Troy Burrows: Are you two really brother and sister?

Ryan: We sure are. We were both born on the same day.

William (to Melody): I thought that you would have red hair since you turn into a Latias now?

Melody: (chuckles bitterly) That also puzzled the scientists that injected us.

Me: Guess they couldn't tell the two of you apart. Either that or the scientists got the genetic formula wrong.

Ryan: That could be the case.

Me: Lets get you two back to our estate and get you two some new clothes.

Ryan: Good idea.

We went back to the estate in Michigan.

---

Back in Leni's Room, Ryan and Melody were given an awesome new set of clothes. Ryan has a red fire t-shirt, red shorts and red hiking boots and a belt with all his pokeballs on it. He also had a Blue fire sleeveless trench coat with the kanji for The Blue Sapphire Fire of the Ocean on the back. 青いサファイアの海の火

Melody had a blue fire shirt and blue fire leggings and awesome shoes like Syd's. She had a belt with all of her pokeballs on it and she was wearing a Red Fire Sleeveless Trench Coat with the kanji for The Red Ruby Fire of the Volcano on the back. 火山の赤いルビーの火

Ryan: Wow! These clothes are awesome!

Maria: It's our fashion trend here at the Team Loud Phoenix Storm estate.

Melody: I like it. It makes us feel really powerful.

Teresa: Leni is an awesome fashionista and an absolute genius when it comes to fashions. She is like an awesome fashion designer.

Maria: She taught us how to make awesome clothes.

Ryan: Thanks girls. We look awesome.

Maria: You're welcome.

---

Later in the Living Room, we were playing Super Smash Bros. Ultimate and I was playing as Inkling, Lily was playing as Lincoln, Stella was playing as Zero Suit Samus and Lori was playing as Dark Samus.

Me: Not this time Lily!

Lily: Oh yeah!?

Lily activated Lincoln's Final Smash and it was combo with him and his sisters. Lily won with that.

Lily: YEAH!

Me: Way to go Lily!

Nicole: My student is learning really fast.

Stella (Loud House): She sure is learning fast.

Me: First she learned from Lincoln and dominated the Arcade. Now she's learning from the Video Gaming Goddess herself, Nicole.

Nicole: She is a powerful force already dad.

Stella (Loud House): It's so awesome that you are in the video game Lincoln.

Me: That part still has us reeling. When we heard about that, we were flabbergasted. News about it spread like wildfire.

Qin: That was still cool though.

Optimus Prime: J.D., how did you first meet Stella?

Me: That is an interesting story.

Laney: I remember that.

---

[It was another day in Gotham Royal York Elementary, Laney was in the hallway with her friend Karla]

Laney: So, Karla. Did you and Quentin see the latest episode of John Ruby Case Files?

Karla: Did I ever! Quentin and I could not stop talking about the twist ending where the jewel theif was actually the school janitor Mr. Robinson!

[Three kids over hear Karla's spoilers]

Kid #1: Well, thanks for spoiling it for the rest of us! [The three kids leave in anger]

Karla: [Realizing her folly] Oops! Sorry about that.

Laney: Karla, we've been over this. You have to say spoiler alert. [The kids throw their books at Karla and Maria caught them] Hey! That's no reason to throw books at my friend!

Karla: No, I deserved it.

Maria: You guys are bullies for doing that! You all right Karla?

Karla: I'm fine.

?: Hey. Are you alright? [Laney, Maria and Karla see a brown skinned girl with black hair. And is wearing white sweater with a red star in the middle, a red collar, and red sleeves, a long black skirt, white knee-high socks with a red and blue stripe at the top, and green sneakers. She also wears a wristwatch on her right hand.]

Laney: No, we're fine. [Helps Karla up] Say, I've never seen you around the school before.

Stella: I just started here two weeks ago. I'm Stella.

Laney: Oh! You must be that new girl my brother's been talking about!

Stella: Oh, Lincoln's your brother?

Laney: Yeah, one of many siblings. I'm Laney, and this is Karla.

Karla: Sup.

Maria: I'm Maria Rockell, 2nd In Command of Team Loud Phoenix Storm's Redemption Squad.

Stella: Nice to meet you. I've heard so much about you guys. I was just about to head to the cafeteria for lunch.

Karla: Hey, us too. Wanna go swap deeds?

Stella: Sounds great. [The quartet then walked to the cafeteria]

[Meanwhile at the cafeteria, Lincoln and his friends were having lunch.]

Clyde: Liam, would you be interested in my hand-cut sushi? It's Yellowtail.

Liam: You know I am. Hey, you want my deviled eggs? They're farm-to-table.

Me: Lincoln would you like my homemade garlic bread?

Lincoln: Throw in your apple slices and we got a deal.

Me: Done and done.

Rusty: Lincoln, is that your dad's homemade pudding?

Lincoln: It is. What are you offering?

Rusty: One bologna sandwich, fridge-to-table.

Lincoln: Throw in your buffalo chips, and we've got a deal.

Zach: So, no takers on my tuna kit?

Rusty: Your mom's still buying those, huh?

[Zach sadly nods]

Me: Oh that's a shame Zach.

Lilly: You'll find someone that likes them.

Lincoln: [notices something] Guys, here comes the new girl! The one I met on the bus.

[The guys all look and see Stella with a lunch bag walking their way.]

Liam: Ooo-wee, She sure is easy on the eyes.

Zach: Oh yeah. And I hear she speaks three languages.

Clyde: Have you guys heard her laugh? It's so… contagious.

Rusty: I like the way her hair smells. [The other boys gawk] What? Too far?

Me: That is WAY too far Rusty. But she just moved here from California.

Lincoln: [gasps] Here she comes! Be cool! Be cool!

Laney: Hey, guys. I'd like you meet Stella. Mind if we have lunch with you guys?

Me: Pleasure to meet you Stella.

Stella: Are you J.D. Knudson?

Me: Leader of Team Loud Phoenix Storm.

Stella: Wow! It's such an honor to meet you.

Me: It's a pleasure to have you here in Gotham Royal York.

Stella: Thank you.

[The other boys try to act cool for Stella. Rusty is drooling green liquid, Zach is nibbling on a straw from a milk carton, Liam is nervously staring, Lincoln is drinking but coughs out and chokes, and Clyde swallows a deviled egg, but coughs it out.]

Stella: Uhhhh… right. So, yeah. I'll just, uh… yeah. [leaves]

Lincoln: Wonder what that was all about?

Zach: I don't know, but I'm glad we played it so cool.

[Cut to Laney, Stella, and Karla at a different table]

Stella: Is it me or were those boys acting weird?

Karla: Since when are they not weird?

Laney: Karla! Um, what she's trying to say is that boys get a little shy around the new girl.

Karla: [laughs] Yeah, like this. [Acts doofy] Duh… duh… Pretty lady… Duuuuuuhhh… [Laney pushes Karla]

Laney: Karla, that's enough! Look, just give them a chance. I'm sure they'll warm up to you.

Stella: Okay.

Maria: Trust me. It happens.

Stella: By the way Maria, I heard you were once the water villainess Aquamaria.

Maria: I was. But thanks to my friend and sister Carol and being blessed by the Water Stallion of Tefnut, I got my humanity back.

Stella: That is so amazing!

[Later in gym class, the guys are playing dodgeball.]

I was throwing dodgeballs and hitting all my targets on the spot. I was dodging a lot of balls.

Me: Take that!

Stella: Wow! J.D. is so good at dodgeball!

Laney: He is a champion when it comes to dodgeball. His son Jared is the ultimate champ as well.

Stella: Wow!

Rusty: Okay, guys, snake formation!

[Zach, Lincoln, Clyde, and Liam hide behind Rusty, imitating snake sounds.]

Zach: Keep an eye out for Girl Jordan. Last time, she blindsided us.

I was dodging dodgeballs and I flew into the air and sprouted my octopus tentacles and they had balls ready to throw.

Me: (Imitating Scarface) SAY HELLO TO MY LITTLE FRIENDS!

I threw the dodgeballs and they hit a lot of kids.

[Enter Stella]

Stella: Hey, guys, what do you have going on here? Some kind of defensive maneuver? Can I get in on this? [The boys are frozen in place, just awkwardly staring.] Okay… well, good luck. [leaves]

Lincoln: Seriously. Why does she keep coming over to us? [gets pelted by a dodgeball]

BONK!

Zach: Aw, come on, Girl Jordan! Coach didn't even blow the whistle yet!

[Now they are in their science class, Zach picks up a beaker.]

Clyde: I think we can all agree I should handle the Bunsen Burner after what happened last time.

Zach: Yeah. Rusty and his aftershave.

Rusty: What can I say? It sets the ladies on fire too.

Nico was working on a chemical formula.

Nico: Easy does it.

Me: Careful buddy.

Nico dropped a chemical into the beaker and the formula changed a different color.

Me: Good work.

Laney: That was a close one.

Nico: I just remembered that Earth Day's coming up.

Me: It sure is. I heard that Mrs. Johnson has something special planned for all of us later next week. Whatever it is, it's gonna be really good.

[Enter Stella once again]

Stella: Hey, guys, need another lab partner? Otherwise, I have to be with Mrs. Johnson. Not that she doesn't seem cool, but you know what I mean.

[The other boys try to act cool once again until Zach drops the beaker, which explodes.

KRABOOOM!

Me: (Coughs) Wow! What a blast! Now I know how Lisa feels.

Stella: Lisa?

Me: She's one of Lincoln's sisters. She is a prodigy and a genius.

Nico: Yeah. She's really smart. She has a junior Nobel Prize in Physics and is a college professor at a local university.

Stella: That's amazing!

Laney: My sisters are really cool. I come from a huge family where I have 10 sisters and 1 brother.

Stella: Wow! That's a huge family.

Nico: It is. I was shocked myself.

Me: Same here when I first moved here 3 years ago.

[Later, they are waiting outside the nurse's office.]

Rusty: You burned off my mustache, Zach!

Zach: It was like, two hairs, Rusty.

Me: You don't even have a mustache yet Rusty.

Lincoln: I still don't get it. Why does Stella keep coming over to talk to us? That's three times in one day.

Me: You guys are just being nervous. That's all.

Liam: Maybe she's trying to sell us a time-share.

Nico: I don't think she sells vacations Zach.

Zach: [gasps] Maybe she's spying on us for the CIA.

Me: If she was, she wouldn't talk about it because it's all classified information.

Rusty: Guys, what you don't know about women could fill a library. She obviously has a crush on one of us.

[Zach, Liam, and Clyde grow surprised to hear that.]

Lincoln: Now that you mention it, I was picking up some vibes.

Liam: [chuckles] Dang! I wonder who she likes?

Me: Not me. I'm happy with all my fiancés.

Clyde: I guess we'll just have to wait till she makes her next move.

Rusty: I hope I have time to grow back my 'stache.

[Meanwhile, Stella was talking to Laney and Karla]

Stella: I just don't know what's going on with those boys! Everytime I try to say hello to them, they just freeze up! It's so weird!

Karla: Ah, boys are a mystery. Not even John Ruby can solve this.

Maria: Boys are a whole different story.

Stella: (to Maria and William) To be honest, your Redemption Squad group is a more improved version of the Suicide Squad.

Maria: We get that all the time.

Laney: Again, not helping. Maybe it'll be easier to get along with the boys if you get to know them one by one. You know, hang out with one of them. That way they will all get along with them.

Stella: Hmm. Okay, I guess I can try that. Thanks, Laney.

Laney: No problem. [Stella leaves] I get the feeling they are gonna be just fine.

Karla: Whatever you say, Lanes. [Laney walks off, Karla holds out her book] Sometimes I wish all boys can be more like you, John

Ruby.

Maria: Wouldn't we all.

[Later, the boys are at their lockers, prepping themselves. Liam combs his hair up, Clyde puts a tissue in his shirt pocket, Lincoln flosses his teeth, Zach cleans his glasses, and Rusty applies breath spray.]

Rusty: Anyone want some breath spray? Sour green apple, it's a total lady killer. [Closes his locker]

Me: No thanks Rusty. By the way, how's your brother doing?

Rusty: He's doing good. Lucy and Rocky are great for each other.

Zach: [Putting his glasses back on] I'll take some breath spray. That tuna kit didn't do much for my breath.

Lincoln: Here she comes. Play it cool.

Stella: Hey guys. [Stops when she sees the boys are just staring at her again.] Lincoln, do you wanna go to the Burpin' Burger after school?

Lincoln: Yes! I knew it was me! [Realizing what he just did] I mean, sure, I think I'm free.

Stella: Great, my family's on a health kick and I'm really craving some fries. [Starts off] Meet you by the busses.

[Lincoln gets pulled in by the rest of his friends.]

Zach: Aw, Lucky!

Liam: You dog!

Clyde: Congratulations, buddy.

Rusty: Ugh, it's always Lincoln.

Lincoln: What can I say? I mean, I am having a really good hair week.

[The next day at school… ]

Laney: So how was Lincoln?

Stella: Oh, you're brother was awesome! You should've seen how he dominated at Dance Battle at the arcade!

Nico: Lincoln is a master at that game. He, Earth, Paige and Ronnie Anne are professionals at that game.

Laney: Yeah, they had some practice. [Bell rings] Well, gotta go. I got ceramics class.

Stella: Okay, see ya.

Maria: I've always been good at ceramics.

Me: Same here.

[Inside the classroom, Lincoln is bragging to the others about his time with Stella.]

Lincoln: You should have seen her on that claw machine, she was a boss.

Me: I saw it myself. She grabbed one of the toughest prizes in the machine.

I was working a an awesome clay pot that looked like a plant pot.

Zach: Man! She's cool.

Lincoln: And get this, we both prefer curly fries to regular, it's like we're meant for each other.

Rusty: [Still jealous] Well, everyone prefers curly fries.

Me: Curly fries are delicious.

Clyde: [Looks out the classroom door] Oh! Here she comes.

[Stella walks into the classroom, waves at the boys, and walks over.]

Zach: Probably gonna ask about date number two. [Elbows Lincoln] Eh? Eh?

[Lincoln smiles, and plays it cool, only for Stella to walk right past him like he wasn't even there.]

Stella: Hey, Rusty. [Rusty accidentally slams his desk top onto his hand, and yelps in pain.] Do you wanna go to the flea market with me later?

[The other four stare in disbelief.]

Rusty: [Still in pain] Totally, totally.

Stella: Cool. [Walks off]

Rusty: Gah! [Takes out his hand which is now aching from the pain.]

Lincoln: [Whose turn it is to be jealous] What was that, man?! Stella and I have a thing going on!

Rusty: What do you want me to say? [Stroking his hair] I guess she decided she prefers red sauce over white sauce. [Points to, the extremely angry, Lincoln's hair.]

[The next day, the boys are on the jungle gym, Rusty now has the bragging rights.]

Rusty:… and then we went out for ice cream and it turns out we both like waffle cones.

Me: Waffle cones are popular for ice cream.

Lincoln: [Sitting on the ground, jealous] Well, everyone likes waffle cones

Zach: [Looks over] Hey, check it out, Rusty.

[Stella is walking over to the boys, waving.]

Rusty: Probably wants to lock me down for the whole weekend.

Stella: Hey, Liam. [The boys are surprised] You wanna go to the mall after school? I know this sounds weird, but I really like trying on wigs at the wig store.

Liam: [So amazed, he falls off the jungle gym, but gets back up.] Don't sound weird to me, I'm in.

[Stella gives him a thumbs up and leaves.]

Rusty: [Who's back to being jealous.] What the heck Liam?

Lincoln: [Smug] Tough break, 'red sauce', I guess she's more in to biscuits and gravy now.

Me: Maybe, maybe not.

[The next day, the boys are in the classroom, Liam showing them the photos he and Stella took and I was laughing and amazed, suddenly, Stella taps Zach's shoulder, waves, and makes pistol gestures, as she is asking Zach to go laser tagging, Zach's eyes turn to hearts, and Liam bangs on his desk with jealousy. The next, next day, Zach is showing the boys the video of he and Stella laser tagging, Stella then taps Clyde's shoulder, waves, and does a little dance, as she is asking Clyde to the arcade to play Dance Dance Revolution, Clyde's eyes turn to hearts, and Zach, out of jealousy, punches the drinking fountain, and drops to the floor, clutching his injured hand. The next, next, next day, Clyde shows the boys the photo, and they all rage with jealousy. The next, next, next, next day, Stella asked me to go horseback riding with her and I said yes and we were going all over the country on Rapidash. She saw me thrash a bunch of criminals and got the courage to help me. We thrashed bank robbers in Indiana, Thieves in Pennsylvania, Thugs in Delaware and murderers and gangsters in New York City. Stella had so much fun.]

[After school, we are all walking home, and Lincoln is talking to himself.]

Lincoln: Ugh! I'm so confused, why does Stella keep asking out all of us? What is her deal?

Me: She's trying to get to know all of you. But she did have fun with me and our Rapidash.

[He walks into the estate, where his sisters are watching the Dream Boat.]

Lisa: Male sibling lacking melanin, care to join us in viewing the Dream Boat?

Lincoln: Eh, I'm not really in the mood.

Me: Hey girls.

Lori: How was your time with Stella, J.D.?

Me: She loved riding the Rapidash. We went all the way over to the Jersey Boardwalk and back. We had Coney Island Chili Dogs and I won her an awesome stuffed bear in the knock the bottles down game.

Nico: That was awesome dude.

Lincoln: Very impressive.

Me: We also stomped a few bad guys.

Nico: Nice!

Laney: What's up, Lincoln?

Lincoln: I just don't know what's going on with Stella! She keeps asking us out one by one! What the heck is her game?

Laney: Oh, I can answer that. See…

[Suddenly one of the characters on the Dream Boat says something.]

Kelly: I'm really torn, they're all great guys, but I'm still not sure who I want to be my first mate. Guess I'll just wait 'til one of them blows me out of the water.

Lincoln: [Still talking to himself] Oh, so that's what Stella's doing. [Runs back down the stairs and shoves Lisa over.] Move over.

Laney: Uh, Lincoln. That's not why-

Lincoln: Shhh! [Laney sighs]

[The next day, Lincoln is at school with his date khakis on, and his hair done up. He walks up to his locker and is surprised at what he sees, Rusty is wearing a white suit, Zach had his teeth whitened, Clyde is not wearing his glasses, and Liam is spraying on cologne, which goes in his eyes.]

Me: Hey guys. Looking sharp.

Rusty: Thanks J.D.

Zach: [Noticing Lincoln, and smugly] Well, well, well, look at you Mr. Date khakis.

Lincoln: It's laundry day, I couldn't find my jeans. [Suspiciously] What about you guys?

Zach: What? I happened to have a coupon for teeth whitening.

[Zach smiles a smile so shiny it blinds the other boys.]

Liam: And I always wear this much cologne.

Clyde: [Facing the wrong way] And, I've been meaning to ditch my glasses.

[Liam turns Clyde around to face the group.]

Me: Uh Clyde, you can't see anything without your glasses.

Clyde: I know. That is a stupid decision.

Rusty: [Saying out loud what they're all thinking.] Okay guys, let's be real, we all watched the Dream Boat last night, we know Stella hasn't decided who she likes, and were all trying to 'blow her out of the water'.

[They all ramble in agreement.]

Zach: Well, uh… this is awkward.

Clyde: It doesn't have to be. We can be gentlemen about this.

[They all ramble in agreement, again. At lunch, Stella sits at a table, with Laney and Karla, puts her headphones on, and starts eating, the boys walk in and see this.]

Karla: Oh, boy here comes the doofus parade. [Laney and Karla see the boys.]

Laney: Something tells me that things aren't going so well between the boys and Stella.

Maria: I have that feeling too.

Karla: Oh, they like Stella alright. Like her enough to kill each other her her.

Riley: Mm-hmm.

[At first, the boys smile and casually walk to her, but they soon grow determined looks and start hurrying.]

Clyde: [As he pulls into the lead] STELLA! [But due to not having his glasses, he runs right into Coach Pacowski.]

Karla: [Announcing] And Clyde is out for the count. Meanwhile Liam is taking the lead, but Zach slides right past him!

[As Karla announces, Liam jumps over Clyde and pulls ahead, but Zach slides over a table and cuts Liam off, he then blinds Liam with his smile again.]

Karla: And he blinds his competition with his winning smile!

Liam: Gah, too bright! [Stumbles backwards and lands in a recycling bin.]

Me: Wow! That is a bright Smile! (Puts on sunglasses)

Nico: Cool shades.

Me: Thanks Nico.

[Rusty chases after Zach, and grabs a bottle of mustard off a table, he squeezes it onto the floor and Zach slips out of control and falls.]

Rusty: Yeah!

[Rusty takes the lead, with Lincoln in hot pursuit. Suddenly, Lincoln gets an idea, he sees that Girl Jordan is eating spaghetti and meatballs. He quickly takes out a pudding cup and calls to her.]

Lincoln: Girl Jordan, I'll trade you my pudding for a meatball. [Whizzes right past Jordan, taking the meatball right off her fork, and leaving his pudding before she even knows what happened.] Thanks. [She just looks at her, now empty, fork, wondering what happened to her meatball. Meanwhile, Lincoln lines up his shot, and throws the meatball, which hits Rusty in the back so hard, that he falls over in slow motion.] What? You said she likes red sauce.

Rusty: Low blow, man. This is dry clean only. [Runs off]

Karla: Oooh snap! Rusty just took a hard meatball to the back! That stain ain't coming off! [Laney faceplams at Karla's antics]

Laney: Sometimes I wonder why I hang out with you.

Maria: She makes a great announcer though. She would be a great sports announcer for the Kentucky Derby.

Horsea: Yeah!

Maria and Laney gasped.

Maria: Horsea, you said your first English word!

Horsea: I sure did.

Maria: You're talking in English!

[Lincoln sees that Stella is ripe for the picking, the last man standing does a quick victory dance, and goes over. But right at that moment, Stella, completely unaware of what just happened right behind her, gets up and leaves, just as Lincoln suavely sits. Lincoln sees that Stella's gone and is now bummed out.]

Laney: [To Karla] I know things are looking bad, but do you have to encourage it.

Karla: What? Can't blame a girl for making the most out a situation.

[Later in gym class, the guys have miffed looks on their faces, crossing their arms, not even looking at each other.]

Zach: In case anyone's interested, I'm out of the snake formation.

Liam: Well, I actually left it earlier than you. I just didn't tell you.

Rusty: The snake formation is officially dead.

Clyde: Fine by me!

Lincoln: Me too!

[Just then, the whistle blows. They look down at the dodgeballs, then each other. Lincoln picks one up and is about to throw it, but gets pelted by Rusty.]

POW!

Rusty: That's for the meatball! [gets pelted by Zach]

SMACK!

Rusty: Ow!

Zach: That's for the mustard! [gets pelted by Liam]

BOOF!

Zach: Oof!

Liam: That's for blinding me!

Clyde: [throws one at Liam but hits Lincoln instead.] Take that!

Lincoln: That was me Clyde!

Clyde: Oops. Sorry.

[And just like that, they immediately start beating each other up. I swoop in and break them up.

Me: All right you guys! That's enough!

[Coach Pacowski blows his whistle and goes over there to break them up while the other students, including Stella, who looks on. Later, Stella was walking with Laney and Karla]

Stella: So, any idea what's going on with the boys?

Laney: What do you mean?

Stella: Well, they were so mad at each other in gym today. I really thought someone with a snake formation would be good friends.

Karla: [Whispers to Laney] Should we tell her?

Laney: Nah. Best not to get involved with labors of love. Or in this case: stupid mistakes of love.

Maria: Good idea.

[Just then the girls meet up the Lincoln and his friends again]

Lincoln: Stella, we need to talk to you.

Stella: Oh, hey guys. What's up?

Clyde: [facing the other way yet again.] Oh, I think you know. We're through with your mind games. [Zach turns him around.] Uh, thanks, Lincoln.

Stella: [confused] My what?

Liam: Don't act all innocent. You nearly broke up our friendship.

Rusty: Asking us all out on dates, then making us compete to see who would 'blow you out of the water'.

Stella: Blow me out of the water? What are you talking about?

Me: It's a confusing thing Stella.

Lincoln: Doesn't matter. We're done. You couldn't choose one of us for a boyfriend, so now you don't get any of us.

[Karla was trying to comprehend what the boys just said]

Karla: [To Laney and Stella] Are they serious?

Laney: Looks like it… [Karla and Stella then burst into laughter]

Maria: What's so funny?

Stella: What? I'm sorry for laughing, it's just… you guys are so off base. I don't want a boyfriend, I just wanted to be friends, with all of you.

Zach: Well, why didn't you just say that in the first place?

Me: That's what I was trying to tell them.

Karla: Because you guys kept acting stupid around her?

Laney: Karla! What she's trying to say is that you guys were having a hard time… controlling yourselves around her. So I suggested that Stella should hang out with all of you one at a time to get to know all of you.

Boys: Ah.

Me: That's good thinking Laney.

Stella: You know, maybe this was a bad idea. It seems like you guys just can't handle being friends with a girl. I'm gonna go hang out with Karla and Laney. But I can still hang you you and Nico, J.D.

Me: Thanks Stella.

[The girls leave]

Lincoln: Oh, man. Karla was right. We were acting stupid.

Clyde: It's too bad 'cause Stella's really fun. I was hoping she'd teach me how to master the claw machine.

Liam: Yeah, and I was hoping she'd help me pick out a wig for my mee-maw.

Zach: And she would've made a great addition to our snake formation. She could've been the rattle.

Lincoln: Well, maybe if we go tell her how sorry we are, she'll give us another chance.

[At lunch, Stella is eating her sandwich, with Laney and Karla]

Laney: I'm sorry things didn't work out, Stella.

Karla: I told you boys are nothing but a mystery.

Laney: But if it makes you feel better you can always be our friend.

Maria: That's right.

Stella: [smiles] Thanks, guys. At least I can hang out with someone normal.

[Just then the boys came in]

Lincoln: Hey, Stella. [Stella turns to face the boys.] We just wanna apologize for how we acted.

Liam: Yeah, you were right. Just cause you're a gal and we're fellers don't mean ya had to be fixin' for a romance.

Rusty: What we don't know about women, could fill a library.

Lincoln: We just hope you can forgive us, because we all really liked hanging out with you, as a friend. [A brief moment, and Stella returns to her sandwich. Which Lincoln can only assume is a no.] Um, okay, well, that's cool. I guess we'll just, uh, see you around.

[Stella looks at them as they leave, when suddenly… ]

Stella: Hang on. [The boys stop and listen] Lincoln, what's in that thermos?

Lincoln: My dad's homemade tomato soup.

Me: His dad is an awesome chef. And he owns a very good restaurant in the middle of town.

Stella: [Thinks about it] I'll trade you my fruit salad for it.

Lincoln: Deal! [Walks over to Stella, followed by the others.]

Liam: Hey, uh, how about swapping them there rice cakes for some hush puppies?

Me: I don't like rice cakes that much. But how about some of my homemade chocolate muffins?

Stella: Definitely.

I gave some to Stella.

Zach: Any chance you'd trade your juice box for a tuna kit?

Stella: Sorry, dude. That's where I draw the line.

Me: His mom buys tuna kits for him and nobody wants them.

[The boys laugh, except for Zach who is rather bummed out. Stella gestures for the boys to sit with her, and they happily do so.]

Laney: [laughs] Well, what do you know? You guys got along after all! We'll just leave you all to chat swap lunches; to Karla] Told you they'd get along.

Karla: Eh, at least I had fun egging them on. Wanna watch John Ruby Case Files at my place?

Laney: You know it! [The girls leave]

Me: Have fun girls.

Clyde: After lunch, we can work out our new snake formation.

Stella: Just wanna throw it out there: have you guys ever considered a scorpion formation? [Pulls out a diagram of said formation.] It's 22% more effective.

Boys: Ooh!

Me: Scorpion formation. That sounds very strategic.

Lincoln: We're listening.

[Stella smiles at this.]

FLASHBACK ENDS

Optimus Prime: So that's how you met?

Me: Yep. Stella is awesome.

Our stomachs growled.

Me: Getting hungry. Lets go to Mr. Lynn's restaurant for lunch. What do you think guys?

Everyone: Yeah!

Stella: Lets do it!

We went to Mr. Lynn's Restaurant.

Elsewhere in the middle of the city, someone was ready for anything. We see a figure pick up from a table a morpher that looks like a star.

Figure (Activates morpher): Ninja spin!

The screen turns black after a powerful flash of light appears

# Squishing an Extraterrestrial Bug

In the middle of the forests of Europe in Poland, Nico was responding to a Stasis Pod signal and he found a stasis pod.

Shockwave: It's Horri-Bull.

Nico: We found another one of our comrades.

Nico activated the pod and Horri-Bull awoke.

Horri-Bull: Shockwave? Is that you?

Shockwave: It sure is bro. Welcome to Earth.

Nico: It's a pleasure to meet you Horri-Bull. My name is Nico Chan and I'm the new leader of the Decepticons.

Horri-Bull: It's a pleasure to meet you. What happened to Megatron?

Nico: He and Starscream are both dead. I've been made the new Leader of the Decepticons.

Shockwave: It's a long and really awesome story.

Horri-Bull heard what they told him and he was shocked.

Horri-Bull: Wow. I'm glad that they are both gone. Megatron and Starscream were monsters.

Nico: Starscream was the most notorious traitor of them all. Megatron wanted to destroy the entire universe and kill everyone and everything.

Shockwave: Nico is a great leader and a true friend. He saved a lot of us from ourselves.

Horri-Bull: It's good he did. My allegiance is now with you Nico.

Nico: Thank you Horri-Bull.

They went back to the Estate.

---

At the estate, in the training grounds, fiery explosions were breaking out. Me and Nico were testing out new moves with jutsu and the Ninja Steel Spin Swords. We were firing fire and Lightning blasts at training dummies that looked like all the small enemies of the Power Rangers: Putties, Batlings, Robots, Stingwingers, etc, etc. It was a powerful and explosive test as we were burning all the dummies into ash.

Me: These dummies paid for their crimes.

Nico: They have failed this universe.

Me: They sure have.

?: Boy you guys have done a lot here.

We turned and we saw the Ninja Steel Power Rangers. We saw Brody Romero - the Red Ninja Steel Ranger, Preston Tien - the Blue Ninja Steel Ranger, Calvin Maxwell - the Yellow Ninja Steel Ranger, Hayley Foster - the White Ninja Steel Ranger, Sarah Thompson - the Pink Ninja Steel Ranger, and Levi Weston - the Gold Ninja Steel Ranger.

Me: No way!

Nico: Wow! The Ninja Steel Power Rangers!

Brody Romero: That's right.

Preston Tien: It's an honor to meet you guys.

Me: Same here. We watched you guys all on TV. You guys really showed no mercy to the minions of Galvanax and Odius,

Calvin Maxwell: Thanks J.D.

Me: You're welcome Calvin. We watched all 26 years of Power Rangers on TV and you guys are the only Power Rangers we have yet to recruit before the Beast Morpher Rangers.

Hayley Foster: That's true. We heard you all have the Power Rangers from over the course of 26 years.

Me: We made them a new branch team of Team Loud Phoenix Storm called the Power Rangers Superarmy. They all are amazing.

Sarah Thompson: That's awesome!

Me: Yeah.

We went inside and it was an awesome Power Ranger Reunion.

Lincoln: Wow! What a reunion.

Laney: It's a 26+ year reunion.

Nico: We watched Power Rangers from over the course of 26 years.

Rachel S.D.: You said it Nico.

Tyler: I'm really sorry if Sledge hurt you guys in any way.

Brody: Don't worry about it, Tyler. He might've caught us off guard but Koda helped us defeat him for good.

Chase: Well, to pay you guys back, we'll gladly help you destroy any of your enemies if they show up again.

Calvin: I just hope we run into Ripcon again.

Meowth: Why's that?

Calvin (smirks): Because I want to see the look on his face when we tell him that Odius used him as a patsy.

Me: If they show up, they will pay for it all with their lives. We killed Trakeena and now Olympius.

Jason Lee Scott: Looks like we've got all of the Power Rangers before the Beast Morphers.

Me: We sure do.

Tommy Oliver: That means the Power Rangers Superarmy is complete.

Troy Burrows: That's good news for us.

Dustin Brooks: But bad news for guys like Hawk Moth and Thanos.

Me: When we face Hawk Moth, he's gonna be in for a rude awakening.

Nico: Yep.

G1 Snarl: You Ninja Steel Rangers kick him Galvanax's butt!

Calvin: Yep

Tommy Oliver: (to the viewers) Thanks to all of you out there who have supported us over the years. We couldn't have made it far without your help. But if you think this is the end of our adventures. You're wrong. This is only the beginning.

Later in the middle of the city, me, Bella, Shanan, Lincoln and Laney were walking through the middle of downtown. We were heading to the mall for another awesome shopping spree.

Me: So far things are good.

Laney: Yep.

Then my Omnitrix went off.

Me: Uh oh.

Omnitrix: Uncatalogued alien DNA detected nearby.

Me: Uncatalogued? How can that be?

Bella: My omnitrix is getting it too.

Laney: That's unusual.

Lincoln: But where is it?

We looked all over a huge crowd of people. But saw nothing.

Me: I don't see anything. But I do have one way to find out.

I turned on my X-Ray vision and looked around. I then saw a human but inside was an unusual skeleton and it was really ugly!

Me: Him over there.

We went over to the man and confronted him and then we got an ugly surprise! He revealed his true form and ripped out of his skin and he was hideously ugly! He was an ugly alien creature with tan skin, an ugly face, and lots of tentacles. (The alien in the intro of the MIB Cartoon Series that revealed itself.)

Me: WHAT THE FUCK!

Laney: That is an ugly alien!

Lincoln: He's hideous!

Shanan: That's a Vemnomian from the planet Vemnos VIII!

Me: What's a Vemnomian?

Shanan: They are a hostile alien species that are one of the worst ever species of aliens in the universe. The planet Vemnos VIII lives in a 3 sun star system in the Black Eye Galaxy. The Vemnomians are extremely ruthless and they kill everything in their path.

Bella: So he is the Unknown Alien DNA.

Me and Bella scanned him and acquired his DNA.

Me: Now he's a dead alien.

I fired a powerful energy blast at the Vemnomian and obliterated it.

Me: Enjoy hell.

?: You flushed out and killed an alien convict for us.

We turned and we saw Agent J and Agent K of the top secret organization: MEN IN BLACK!

---

The Men in Black was founded in the U.S. in the mid-1950s and began as a small and poorly funded government organization devoted to making contact with extraterrestrial life. They were initially seen as a joke, but did make contact with a group of alien refugees on March 2, 1961, outside New York City.

It was decided to make Earth an apolitical zone for aliens without a planet, and the organization broke its government ties to become the Men in Black, which became the singular force to conceal and police the aliens that came to Earth. The founding members were the 7 agents present at the landing, plus an amateur astronomer and a young man who got lost going to see his girlfriend. This last one became K, and one of the agents became his partner D. The MiB has continued since then, with Zed as its senior agent, to protect the normal citizens of Earth from alien threats and police extraterrestrial immigrants, with notable members including B, J, and L.

Agents' Lives

After joining, all MiB agents sever every tie with their former lives, along with having all traces of their identity erased. but these lives may be restored upon retirement, wherein they are neuralyzed and their memories of MiB erased. All agents dress in black business suits with Rayban sunglasses, and have access to a wide array of alien technologies for their missions. Note that not every member is a human - several aliens are part of the staff (or are just hanging around in headquarters).

The MiB are supported by the patents they hold on various confiscated alien innovations, including liposuction and velcro. Their standard operating day is based on Centaurian time, which lasts 37 hours, 16 of which an agent must spend on duty. MiB Headquarters is located at 504 Battery Drive in New York City.

Me: Whoa! The Men In Black!

Lincoln: You guys are awesome!

Laney: We watch you guys on movies and in TV and you are awesome!

Agent K.: Glad we have some fans. It's an honor to meet the famous Team Loud Phoenix Storm.

Me: You too Agent K. And Agent J, it's a pleasure.

Agent J.: Same to you J.D.

Laney: We didn't even know that freak was there.

Me: But our Omnitrix's detected him and I flushed him out with my X-Ray vision.

Bella: That's right.

Me: I guess you guys will have to Neurolize us right?

Agent J: You know. I really don't want to erase your memories. But my superiors are expecting me to erase someone's memories now. So… (uses memory eraser on fugitive) Say goodnight, asshole. (points gun at him)

Me: Whoa. We were after that guy and he was wanted for killing 16 people. Thanks.

Agent K: Call us even.

Me: Good. How about we work together and bring your alien enemies that you're after to justice?

Agent K: You would have to talk to Agent Zed about that.

Me: We can work something out.

Lincoln: That's right.

Agent K: We'll go over H.Q. and talk it over.

Me: Lets go get everyone at the estate and we can go over after.

We went back to the estate.

---

Back at the estate, Ginormica was back together with her friends.

B.O.B.

---

B.O.B., short for Benzoate Ostylezene Bicarbonate, is a blue one-eyed indestructible gelatinous mass that was spontaneously created in a laboratory when scientists injected a chemically-altered ranch dressing into a genetically-altered tomato. He has the ability to absorb anything, can form into any shape, doesn't have a brain and digests objects within seconds (depending on size). He can also extend his body and detach his eyeball.

B.O.B. is the end result of a experiment combining a genetically engineered tomato with chemically altered ranch salad dressing. He subsequently went on a rampage devouring six city blocks before he was captured by General Monger in 1958 and imprisoned inside Area Fifty-Something. Once at the base Monger force fed him a excessive amount of Carrot puree that deeply traumatized him.

He met The Missing Link 3 years later in 1961, Dr. Cockroach another year later in 1962, The Invisible Man sometime before 1968 and Insectosaurus one year later in 1969. Prior to the episode Attack of the Movie Night, B.O.B. was frightened by big moustaches, and to cure him, Link had to put on a fake walrus moustache and B.O.B. attacked him.

---

Dr. Cockroach

---

Dr. Cockroach, Ph.D. is a brilliant professor and a mad scientist with the head and abilities of a cockroach. He created a device that would give humans a cockroach's ability to survive forever. He tested it on himself and found that there was a side effect of giving him the head and abilities of a cockroach. He can climb high walls and objects and digest garbage. He was captured in 1962 and put into the recently set up monster prison in Area Fifty-Something.

---

The Missing Link

---

The Missing Link, also known as simply "Link", is a 20,000-year-old fish/ape like creature who acts like a jock, but is really just out of shape, in the tv series Link has gotten back in shape and started working out. He was frozen in the last Ice Age and thawed out by scientists. He was captured in 1961. When he escaped, he went back to his old lagoon, found it had been turned into a resort, and started terrorizing the tourists. He is the only monster who can understand Insectosaurus, who thinks Link is his father!

---

And Insectosaurus.

---

Insectosaurus was a one-inch (25.4 mm) grub transformed by radiation into a 350-foot (106.68 meters) tall monster that attacked Tokyo. She was captured in 1969 and formed a close bond with the Missing Link, who is the only person that can understand her. He was born and captured in 1969 and died in 2008.

Insectosaurus originally was nothing more than a simple grub with no unique characteristics, but after her mutation she donned an almost mammalian-like appearance similar to that of an orange hamster with a massive overbite, four pincer-like arms, antennas, two stubby feet, and a short reptilian-like tail. Insectosaurus is a massive creature in size even dwarfing the giant Ginormica. She is seen in the movie using her powerful pincers to pull the bridge back in place in the Golden Gate fight seen. Not only can she do that, she can also shoot sticky web substances from her nostrils that were used only on the Alien Robots eye to stop it from reacting for a short time so the other Monsters could get her and Ginormica (Susan Murphy) to the Golden Gate Bridge. Although of her big physique, she is actually a baby. When she walks, she does that in a dinosaur-like fashion and is very slow. Sometimes she doesn't know what to do so she is mesmerized and navigated by a helicopter carrying a light in front of Insectosaurus causing her to stare at it and follow where it goes. When that happens, the pupils of her eyes grow almost as big as the size of her eye making her look much scarier than she actually is.

After her metamorphosis near the end of the film, Insectosaurus' appearance is changed to that of a more butterfly-like creature (similar to Mothra of Godzilla fame) while still possessing her hamster-like face, furry body, massive overbite and reptilian-like tail. She's been renamed to Butterflyosaurus.

---

Maria: I take it that you guys are the rest of the Monsters vs Aliens crew?

B.O.B.: We sure are Maria. Susan is an amazing and awesome friend.

Dr. Cockroach: We wouldn't have come together if it weren't for her. She is a remarkably special friend.

Missing Link: Indeed.

We arrived at the estate and we had the Men In Black with us. We told them all about what was going on and more. We then went to M.I.D. Headquarters.

---

We were at the hidden and top secret Men In Black Headquarters.

Me: Wow! Men In Black Headquarters.

Nico: It's just like what we saw on TV and the movies.

Me: Yep.

We were greeted by Agent Zed.

Agent Zed: Team Loud Phoenix Storm. It's a pleasure having you here.

Me: Thank you Agent Zed. Sorry we came here like this. But we had a run in with a Vemnomian from Vemnos VIII.

Agent Zed: That's what we heard. And you did us a favor in finding him and killing him.

Me: They are a very savage race. Shanan here identified the creature and she knows all of the creatures of the entire universe.

Shanan: It's true.

Agent Zed: I'm very impressed. But I'm afraid we got more pressive matters to attend to. An evil space bug named Edgar is out to cause problems.

Shanan: Edgar the Bug? The ruthless Cymongulian Bug from the planet Cymon?

Agent Zed: That's him. He's an intergalactic terrorist that wants to destroy our planet.

Qin: Who is Edgar?

Me: He was originally an abusive farmer. Until that ugly bug came and took his skin.

I revealed Edgar the Bug's history.

The Bug lands on Earth by flying saucer and eventually crashes and wrecks the truck of Edgar, an abusive farmer while berating his wife, Beatrice for having his dinner poorly made instead of having a steak. As he goes out to investigate after Beatrice asks him what on Earth is it outside and Edgar rudely tells Beatrice to get back inside, the unseen bug demands that he surrenders his shotgun. Edgar refuses, threatening the bug instead. The bug responds by revealing himself to the farmer, yanking him into the pit and kills him by flaying him and eating his body (offscreen), also taking possession of his shotgun while he is investigating the crash-site. The Bug uses Edgar's human skin as a disguise while he searches for the Arquillian Galaxy not before asking for sugar water. He rampages through New York City as a human, killing people and trashing everything and everyone in his way amongst them, a pest control man, an Arquillian prince and his henchman, as well as a Repo man, who almost towed the pest control van that Edgar was hiding his space saucer.

Eventually, he found Rosenberg and killed him and got what he thought was the galaxy, but it was diamonds. He later finds that it's on the collar of Rosenberg's cat Orion and infiltrates the morgue to get it. He takes Dr. Laurel Weaver as a hostage and Agents K and J pursue him to a pair of spaceships, since his saucer was captured when Jay shot the van from the tow truck that Edgar obtained from the Repo man. Dr. Weaver escapes, but Edgar manages to get on one of the two working spaceships.

After the agents arrive just in time and shoot his craft down with their guns, they hold him at gunpoint, but Edgar rips off his human disguise and reveals his true form. He eats the agents' guns and K purposely gets eaten as well in order to find his gun after telling J to make sure he does not go on the second ship. J is then able to distract him by stepping on cockroaches. He was defeated by K who blasts him from inside with his gun after he has found his gun in his stomach before blasting his way out, but half of him was still alive and he was finished off by Dr. Weaver with J's gun, spattering the rest of him over K and J before Dr. Weaver tells them about their jobs which are interesting, also avenging the deaths of the humans and the aliens he had killed.

## Powers and Abilities

Heightened intellect: Edgar possessed a sharper and more advanced level of intelligence than humans.

Super strength: Edgar was shown to possess inhuman strength, and K makes a comment that implies he had unlimited strength, but with his human body, he seems to somewhat compress it to an extent.

Super leaping: As a bug, Edgar was agile and nimble, enabling him to hop extremely high in the air.

Malleable physiology: In spite of his size, Edgar's body is surprisingly malleable as he can contort, bend and twist his body so he can fit on smaller space and forcefully reduce his body mass. Thus can be seen when he can bent his body to humanoid shape and size, so he can wear human Edgar's skin for disguise without accidentally tore it from the inside and even fit into his crashed saucer-shaped starship which no bigger than a human taxi.

---

Qin: Whoa! This guy sounds like he's bad news.

Fu: He makes all bugs everywhere look bad.

Naruto: No kidding.

Me: Time for us to hunt this bug down and squish him.

Megaforce Rangers: Legendary Ranger Mode: Time Force!

However, there was one problem that occured during the morph.

Troy: Wait a minute! I'm the Quantum Ranger right now.

Orion: And I'm the Red Time Force Ranger. I think the two of us turned into the wrong Time Force ranger.

Troy: Sorry. The Red Time Force Ranger and the Quantum Ranger almost look the same.

Me: They do look the same don't they? You just got your morphing keys mixed up.

Orion: It's fine.

With that, they grabbed their correct keys. Then, Troy morphed into the Red Time Force Ranger while Orion morphed into the Quantum Ranger.

Me: Much better. Lets get that bug!

Troy Burrows was the Red Time Force Ranger, Noah Carver was the Blue Time Force Ranger, Gia Moran was the Yellow Time Force Ranger, Jake Holling was the Green Time Force Ranger, Emma Goodall was the Pink Time Force Ranger and Orion was the Quantum Ranger.

We were off.

At the park we were searching. I had a Spectral Energy visor on and I found out that Cymongulian Bugs leave a spectral trail behind. But then we saw Edgar terrorizing the people. He was punching and breaking legs of people.

Me: That's him!

Varie: Lets get him!

We went at him.

Me: Hey Edgar!

Edgar say us.

I punched him in the face and Fu swooped in and kicked him in the back.

Fu: I'm gonna enjoy klling you, Edgar!

Me: But take off that ridiculous skin you freak!

Edgar: Okay.

He put his hands on his head and pulled his skin off and he revealed his true form! It was an ugly and disgusting bug creature!

Me: Whoa! So that's a Cymongulian Bug.

Shanan: They come from the planet Cymon, located in the Pinwheel Galaxy.

Nico: Long ways.

Me: Lets get him!

We went at Edgar and I punched him in the face and kicked him in the stomach.

Edzilla: ED SMASH BUG! (punches Edgar)

SMASH!

Qin: So how did Ed become Edzilla?

Me: That is a very weird story Qin.

I revealed what happened during and before the events of The Day The Ed Stood Still and Wrath of Ed-zilla.

Qin was amazed and horrified.

Qin: Whoa! That was amazing!

Me: It was.

Lincoln fired a massive blast of lightning at Edgar and electrocuted him all over.

Lana fired a powerful blast of ice lightning and froze his arms off.

Troy Burrows fired his time blaster and the blasts hit Edgar, Noah slashed Edgar with his Chrono Saber all over, Jake blasted him with his V-Blaster and blasted him and Gia & Emma fired their blasters and the blasts hit him all over. Orion fired the Quantum Blaster and the blasts hit Edgar all over.

Nico: Edgar the Bug you have failed this world!

Me: And his home!

We fired powerful blasts of energy and they hit him and exploded. Ginormica was now giant.

Ginormica: Time for you to go squish!

She punched Edgar and sent him crashing into a tree.

B.O.B.: I think you need some cleaning with the blob!

B.O.B. covered Edgar in slime.

Missing Link: Lets see how you like messing with me! The Missing Link!

Missing Link slashed Edgar with his claws. Insectisaurus sat on Edgar and smashed him into a pancake.

Dr. Cockroach: SAY HELLO TO MY LITTLE FRIEND!

He pulled out a blaster and blasted his arms off.

Me: Lets show this ugly bug some teamwork!

Dustin Brooks: You got it! EARTH CYBER KEY POWER!

The Earth Cyber Planet Key went into his right arm device and enhanced his Earth Ninja Storm Powers 100-fold.

G1 Snarl: Me Snarl, Ready to fight! CYBER KEY POWER!

The Animatron Cyber Planet Key went into his back and enhanced his strength and tail strength 100-fold.

Dustin Brooks and Snarl: EARTH STEGOSAURUS CANNONBALL!

Snarl rolled up into a tight ball and Dustin Brooks encased him in a powerful ball of rock and threw him at Edgar and he hit him and slammed into him and bisected him in half.

SPLAT!

Meowth: Time for this cat to pounce! ANIMATRON CYBER KEY POWER!

The Animatron Cyber Planet Key went into his right arm device and enhanced his abilities 100-fold.

Horri-Bull: Lets cause some pain! CYBER KEY POWER!

The Gigantion Cyber Planet Key went into his back and enhanced his Flamethrower Tail 100-fold.

Meowth and Horri-Bull: FLAMETHROWER FURY CLAW SLASHSTORM!

Meowth used his fury swipes and Horri-Bull fired a massive blast of fire and they hit Edgar and he was on fire.

Me: Lets finish this clod!

Agent J: Happy to help! NOISY CRICKET FIRESTORM!

Agent J pulled out his Noisy Cricket and fired a blast and it hit Edgar. But the Recoil from the little gun blew him back with incredible force and I caught him!

Me: Whoa! You okay J?

Agent J: Yeah. The Noisy Cricket has a massive recoil that blows me away every time.

Me: Wow! I remember that. That recoil from that little gun is incredibly powerful.

Lola: It's true what they say: "Big things come in small packages."

Agent K: You will pay for your crimes. ION BLAST CANNONBURST!

Agent K fired a powerful ion cannon blast from his energy rifle and it hit Edgar and exploded.

KRABBBOOOOOOOMMMM!

Fu: Now you are finished! SCALE BLAST!

Fu turned into Chomei and she released a powerful tornado of scale dust as she spun around and she used Chomei's jaws to ignite the scales and they exploded with incredible power and obliterated Edgar the Bug in an instant in a massive fiery explosion!

KRABBBBBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Me: Whoa! That was powerful!

Nico: No kidding!

Naruto: That's Fu for you. She is the 3rd strongest out of the 9 Jinchuriki.

Me: No kidding.

Agent J: (To the viewers) These guys are just that powerful and no alien will stand a chance against them.

Me: You said it Agent J.

We formed a powerful alliance with the Men In Black and we decided to work with them against their enemies and bring the aliens they catch to justice.

Me: Alien Convicts and bad aliens better beware. (Puts on Sunglasses and holds up an ion blaster) Team Loud Phoenix Storm and the Men In Black are coming for you.

I fired a blast at the camera and the screen turned into sky blue before turning black.

THE END

---

Another Fanfiction Complete and another awesome team of power rangers added.

The Men In Black were an awesome Science Fiction movie series! Will Smith and Tommy Lee Jones did an awesome job in the movies! Those aliens in those movies were really ugly! Edgar the Bug was an ugly bug though. But some of the aliens were really funny. Like those four aliens that drink coffee. NicoChan11 gave me the ideas for this. Thanks man. Darkhai gave me the idea for the chapter. Thanks dude. Thanks guys. Let me know what you all think. The next chapter for Halloween 2019 is The Nightmare Before Christmas and we're gonna kill Oogie Boogie. And Lana is gonna eat his bugs.

See ya next time.

# The 2nd Nightmare Before Christmas

HAPPY HALLOWEEN 2019 EVERYONE! (EVIL LAUGHTER)

CONGRATULATIONS TO THE WASHINGTON NATIONALS FOR WINNING THEIR FIRST WORLD SERIES!

---

In the middle of the city, Lola Loud was walking to the Perfect Angels Orphanage and she had a gift for everyone.

Lola had a huge 85" HDTV for them. She opened the door.

Lola: Hello everyone!

Nurse Lazlo was working on something.

Nurse Lazlo: (German Accent) Guten Tag Lola.

Lola: Hello Nurse Lazlo. I brought something for the whole orphanage.

Lola brought in the TV.

Nurse Lazlo: Ach. A brand new TV. What a wonderful gift for the place. Our TV is a mess.

Their old TV was a rotten piece of junk and it was all busted. The TV was brought in.

Derek: Wow! What a television!

Buck: Is that for us?

Lola: It sure is guys. Lets get it set up for you.

Lola unpacked it and set it up. She got it all ready for them.

Meg (Mega Babies): Wow! It's so big!

Lola: It's an 85" TV. It's got a lot of channels.

Nurse Lazlo: Vunderbar! Danke Lola.

Lola: You're welcome Nurse Lazlo. Hunter has been teaching me how to understand German. He's going to teach me how to speak it later.

Nurse Lazlo: I see.

Lola: I got to head back to the estate now. We're getting ready for an awesome Halloween Party for tonight.

Derek: Halloween?

Buck: We love Halloween.

Meg (Mega Babies): It's so awesome.

Lola: I know. Me too. I love Halloween because of the candy and the costumes.

Buck: They are cool.

Nurse Lazlo: Lets all go to the estate and have some fun. Ja?

Meg (Mega Babies): Lets do it!

Derek: Yeah!

They went back to the estate.

---

At the estate we were getting everything ready for an awesome Halloween Party.

Manaphy, Poromon, Poliwag, and Horsea: HAPPY HALLOWEEN, EVERYBODY!

Manaphy was dressed as a fairy, Horsea was a mermaid, Poromon was dressed as a fire fairy and Poliwag was a Bat.

Me: Happy Halloween to you as well.

Nico: You guys look so cute in those costumes.

Earth: Halloween is so awesome.

Lincoln: It's one of my favorite times of the year.

Lana: The awesome candy, the costumes, and trick-or-treating.

Laney: It's an amazing time of the year.

Brittney: But it wasn't great for Mr. Lynn. Poor guy. He lost his father to a whack job serial killer 30 years ago today.

Me: I know Brittney. That's awful. But thank God that I brought him to justice.

Nico: You said it J.D.

Lynn: Hey J.D. check out our pumpkins.

The Loud kids turned their pumpkins and they showed that they were really gruesome!

Me: Nice pumpkins! Really gruesome.

Laney: Those are really good pumpkins.

Varie: Hey guys. You want some of my special Halloween punch? It's a recipe I made for Dragon's Blood Punch.

Me: Sure Varie.

I took a glass and tried some. It was sweet and fruity and really refreshing.

Me: Ah. Really refreshing.

Varie: Thanks. It's made with Fruit Punch, Grape Juice and seltzer water.

Me: Wow. Really refreshing.

I then felt a fizzy popping in my mouth.

Me: Wow! Pop rocks too.

Varie: Yep. That's what makes the soda never lose its fix.

Me: (BELCHES) Oops. Sorry.

We laughed.

Sora: Halloween always reminds me of my favorite place to visit when we were out saving the universe: Halloween Town.

Goofy: We haven't been there in a while. I wonder how Jack is doing?

Me: You guys met the world famous Jack Skellington of Tim Burton's The Nightmare Before Christmas? Awesome!

Donald: He's one of our pals.

Sora: That's right. He helped us out a lot when we were facing the Heartless.

Me: That's cool! And the only villain left on Maleficent's Team of Villains we have yet to destroy is Oogie Boogie.

Lincoln: I remember him. He was a bloated sack of hot air filled with bugs.

Lana: All kinds of delicious and tasty bugs.

Me: Only you would find bugs good Lana. But I have an idea. Later tonight lets head to the Hinterlands and visit Halloween Town.

Nico: Good idea.

We got everything ready for the party.

---

Later we were in the middle of the forest and we were in the Hinterlands. We were dressed in amazing costumes for Halloween

Sora: How do you like that? The Hinterlands are right here on Earth.

Me: And these must be the doors that govern each of the seven holidays.

Lola: This is amazing.

Derek: It sure is.

Lana: Thanksgiving is next month. So we should see Thanksgiving Town later.

Me: Good idea Lana. But lets focus on the here and now.

We were looking at the door to Halloween Town.

Me: Here it is guys. The Door to Halloween Town.

Laney: Looks like a great pumpkin for a Jack O-Lantern

Me: Lets see if I remember this right. "Twas a long time ago, longer now than it seems, In a place that perhaps you've seen in your dreams, for the story that you are about to be told took place in the holiday worlds of old. Now you probably where holidays come from. If you haven't, I'd say it's time you begun."

The Door to Halloween Town opened.

Me: Here we go.

We went in through the door to Halloween Town and the song This is Halloween played.

We flew past a scarecrow that pointed to Halloween Town.

We were in the famous town of Halloween Town and it was so awesome!

Nico: Wow! Halloween Town.

Eddy: This could be the true Spookyville.

Edd: Oh please.

Luan: This is so amazing!

Jack Skellington saw us.

Jack Skellington: Hey fellas.

Sora: Hey Jack!

Jack Skellington: Long time no see fellas.

Sora: It's great to see you again.

Goofy: How have you been?

Jack Skellington: Still doing the same things ever year.

Me: Jack? It's such an honor to meet you. I am J.D. Knudson, Leader of Team Loud Phoenix Storm.

Jack Skellington: It's an honor to meet you too J.D. We heard so much about you all.

Nico: We love Halloween.

Sora: Jack, I want to say that I'm sorry for not visiting you in a long time. It's just that we've been wanting to visit you during Halloween. You must think I'm a crappy friend.

Bombshell: Don't be too harsh on yourself, Sora.

Jack Skellington: It's not your fault Sora. You guys are my friends and you are amazing at doing what you do. You had to save the universe and that is so important.

Me: Jack is right Sora. You are a true friend to everyone on so many worlds that we've been too. We stopped Organization XIII and saved everyone from a fate that would've destroyed everything.

Kairi: That's right. And I'm proud of you Sora. You saved a lot of people from the terror of Xehanort.

Sora: You're right Kairi. Thank you.

But then we heard someone rushing over.

?: Jack we got problems!

Me: Someone is coming!

?: Hurry, Jack!

All of us heard that along with an evil laugh.

Powerglide: I'm not the only one who heard that, right?

Sora: That was Sally!

Me: And I know that evil laugh all too well. That's Oogie Boogie!

---

In the video game prequel to the film, Oogie's origins and the birth of his rivalry with Jack were revealed. As it turned out, he once had his own holiday known as Bug Day, that was most likely forgotten by the people of the real world and thus vanished. Unfortunately, Oogie escaped, found Halloween Town, and decided that it would be the new Bug Day. He and his army of insects invaded the town and nearly took it over. Jack found out and he defeated the bugs and Oogie. Oogie survived the battle, learned to fear the Pumpkin King, and was banished to his underground lair.

The Nightmare Before Christmas

Although he is the main antagonist, his role in the film is small. During the time that Oogie was imprisoned in his lair and plotting his revenge, Lock, Shock and Barrel revealed the existence of Santa Claus to him. Later, the trio kidnapped Santa and (against the wishes of Jack Skellington, who held Oogie in great contempt) sent him down to his lair beneath their Treehouse home. Oogie, after introducing himself, binds Santa to a giant roulette wheel and prepares to torture him. Later on, Sally attempts to rescue Santa from Oogie but ends up being captured herself. Following Jack's failed escapade as Santa Claus, Oogie tried to kill his captives by cooking them in his snake and spider stew but was stopped by Jack.

Jack confronts Oogie, who activated his robot killing machines and trapped him in response, but the latter acrobatically evaded the devices and managed to reach Oogie. Oogie tried to escape on a propeller, but Jack shouted "How dare you treat my friends so shamefully!", indicating that Oogie was too dangerous to be left alive. The pumpkin king then pulled a loose thread on him, which opened him up and caused about 90% of his bugs to fall into his own burning stew. He fearfully screamed "My bugs!", and his voice then changed to insects, faded from existence, and left only squeaks. Albeit most of the insects fell to their deaths in Oogie's stew, one of them, presumably the leader, tried to escape his fellows' fate, but was ultimately crushed to death by Santa with his feet. It is completely unknown if any bug from Oogie's bag survived the ordeal, but if some of them did so, they most likely escaped from Oogie's lair and went to live normal lives as ordinary insects.

The Nightmare Before Christmas: Oogie's Revenge

In the 2005 video game sequel, Oogie was resurrected by his three henchmen, Lock, Shock, and Barrel, who sewed him back together. He quickly deceived the residents of Halloween Town and tricked the townsfolk into making traps for his archenemy, Jack Skellington. Oogie attempted to become the "Seven Holidays King". He successfully kidnapped the real leaders and tried to murder Santa Claus again, but his plans were foiled by Jack. Oogie desperately put up a fight by turning into a gigantic, junk-filled version of himself named "Mega-Oogie". He was again destroyed by Jack, reducing into nothing, apparently ending Oogie's threat once and for all. However, he could still be resurrected once more like in the past.

---

We saw a black blob head into a building.

Me: After it!

We followed it and we saw the shadow form and it was OOGIE BOOGIE!

Me: Oogie Boogie!

---

Oogie Boogie's shadow (singing): Well, well, well!

Jack, the Pumpkin King!

And Sora too, huh?

Oh, I've been waiting!

So how do you like

My Oogie-Town?

Ha, ha, ha, ha!

Jack (singing): It's over! It's over!

This time you've gone too far!

It's over, I'm serious!

Just who do you think you are?

Venom (singing): Just because you've fooled the town

Doesn't make you king!

You'd better give up, surrender now!

We're fixin' everything!

Oogie Boogie's shadow (singing): That's what you think, ha!

But you couldn't be more wrong!

And this will be the last time

You hear the Boogie song!

Whoa-oh!

Ghosts: Whoa-oh!

Oogie Boogie: Whoa-oh!

Ghosts: Whoa-oh!

Oogie Boogie: Whoa-oh!

Ghosts: Whoa-oh!

Oogie Boogie: I'm the Oogie Boogie Man!

Sora: Oogie, what have you done to everyone?

Oogie's shadow: They're all under my control!

Rhino (singing): We see you're pretty proud of

All your booby-trapping schemes…

Laney (singing): But we can say you'll rule this town

Only in your dreams!

Oogie Boogie's shadow (singing): Heh, that's funny boys, it was a dream!

But now it's coming true!

'Cause even my mere shadow knows

Jack's days as king are through!

Whoa-oh!

Jack punches the Shadow and lashes it with his newly acquired Soul Robber. A powerful energy whip that steals souls.

Jack: Whoa-oh!

Oogie Boogie: Whoa-oh!

Sora: Whoa-oh!

Sora Slashes the Shadow with his Keyblade.

Oogie Boogie: Whoa-oh!

Venom: Whoa-oh!

Venom punches the shadow.

Jack: I'm the Pumpkin King!

---

I punched the Shadow in the face and sent it crashing into the wall.

Oogie: Riku, old buddy! How've you been?

Riku: Don't talk to me like we're friends, Oogie. This is probably the first time you've ever talked to me. And it's when we're about to kill you!

Oogie: You really think I'm the bad guy here? Well, you're the real reason why this is happening. If you had just killed me when you had the chance, 5 of the Holiday Leaders wouldn't be kidnapped. You're as just to blame for this as I am!

Sora: You're right, Oogie. This is our fault. We shouldn't have waited until Halloween to fight you. But we're not making that mistake again!

Me: Sora! Don't listen to him! He likes to get inside your head and mess around with you. But he will pay for his crimes.

Oogie Boogie's shadow: (Evil chuckle) Beginner's luck if you ask me.

Me: You won't get away with this Oogie!

Oogie Boogie's Shadow: Don't worry, we'll meet again.

Sora: And we'll be ready for you.

Blackarachnia: Count on it.

He was gone.

Me: We'll see him again. But first we got to take down his lackeys.

Jack: Who are his Lackeys?

Me: Lock, Shock and Barrel.

Jack gasped.

Jack: Halloween Town's greatest Trick-Or-Treaters are behind the return of Oogie?

Me: Yes they are. There's a Dark Orb in their possession located at the graveyard.

My Dark Orb detector showed that it was at the graveyard.

Lana: We got to get over there.

Luna: Right dudette.

Me: Lets go.

We went to the graveyard.

---

We arrived at the graveyard.

Me: Here we are. We're close.

I heard the pitter patter of little feet and I fired an energy blast at a tombstone and blew apart a gravestone and we saw LOCK, SHOCK AND BARREL!

---

The Pumpkin King

They were picked by Oogie Boogie to stop Jack Skellington, whom the earlier holiday known as Bug Day was rejected.

## The Nightmare Before Christmas

Lock, Shock and Barrel were sent by Jack Skellington and Oogie Boogie to find Santa Claus. On their first try, they took the Easter Bunny, to Jack's frustration. Once the kids found Santa Claus, they put him inside Oogie's dungeon. Jack eventually tore Oogie apart and made Santa leave the dungeon. The three kids eventually helped Jack get back to the Halloween Town center.

## Oogie's Revenge

Lock, Shock and Barrel learned that Jack is out of town and decided to resurrect Oogie Boogie.

## Kingdom Hearts Series

### Kingdom Hearts

As well as their role in the film, Lock, Shock, and Barrel has also appeared as bosses in various video games, the more notable probably being Kingdom Hearts.

In Kingdom Hearts, they stole an artificial Heart from Dr. Finkelstein to give to Oogie. However, they were soon captured, without the Heart. After their battle, they reluctantly revealed tips on how to defeat Oogie. It was assumed that they left the mansion afterwards, since they were seen in Kingdom Hearts II.

### Kingdom Hearts II

#### First Visit

In Kingdom Hearts II, it was revealed that the three became Dr. Finkelstein's assistants. When they went out to play, they came across Maleficent and told her of Oogie Boogie's fate. Maleficent revived Oogie and gave them control of the Prison Keeper Heartless as a distraction for Sora and company.

#### Second Visit

In the second visit, they were blamed for stealing Christmas Presents from Santa. In the inevitable chase afterward, the heroes discovered the truth when they told them about Dr. Finkelstein's experiment.

Lock: Why do you always got to spoil our fun!?

Me: To stop Oogie Boogie that's what.

Shock: You won't succeed!

Barrel: And we'll make sure you are destroyed!

Lock: This is the last time you'll get in our way!

Me: We'll see.

* * *

Lock, Shock, Barrel: Laa, la, la, la, la, laa!

La, la, la, la, laa!

Laa, la, la, la, la, laa!

La, la, la, la, laa!

Hail to Mister Oogie!

Jack will never win!

When you find our booby traps

They will do you in!

Shock: First we brought the Master back

To take this town away from Jack!

We knew he'd fight to set things right

So we got bad guys who attack!

Jake: Stop! We've had enough of you!

Your punishment is overdue!

You've instigated chaos here

And turned this town onto its ear!

Lock, Shock, Barrel: Hail to Mister Oogie!

Put Jack to the test!

Keep him guessing all the time

Never let him rest!

Barrel: Then Mister Oogie Boogie Man

Shock: Can take the whole town over then!

Lock: He'll be so pleased, I do declare!

Lock, Shock, Barrel: The whole world should beware!

Wheee!

---

Shock: We'll get you this time

Jack: You're in big, big trouble!

Elena: No wonder Organization XIII never visited this world that often!

---

Lock: Now that Oogie is the king

We get away with everything!

You cannot scold us for our pranks!

The new King Oogie, let's give thanks!

Noah: Don't be foolish! Think now

All this danger isn't fun and games!

When this town is back to normal

Do you really want the blame?

Lock, Shock, Barrel: Hail to Mister Oogie!

This is so much fun!

We make mischief day and night

Our work is never done!

Troy: If we told you once, we told you twice

To straighten out your act!

You'll never get away with this

And that, you brats, is fact!

Jack: I've had enough of this disgrace!

So take me to the hidden place!

Where my friends sit locked in a cage!

Or you will face my rage!

Lock, Shock, Barrel: Wheee! Ha, ha, ha, ha, ha, ha…

---

Barrel: You can't win this time, Jack!

Jack: You kids are in big trouble.

Beetlejuice: Wait until I get my hands on you!

Lock, Shock, Barrel: Laa, la, la, la, la, laa!

La, la, la, la, laa!

Laa, la, la, la, la, laa!

La, la, la, la, laa!

Hail to Mister Oogie!

Jack will never win!

When you find our booby traps

They will do you in!

We destroyed his traps.

Shock: First we brought the Master back

To take this town away from Jack!

We knew he'd fight to set things right

So we got bad guys who attack!

Gia: Stop! We've had enough of you!

Your punishment is overdue!

You've instigated chaos here

And turned this town onto its ear!

Lock, Shock, Barrel: Hail to Mister Oogie!

Put Jack to the test!

Keep him guessing all the time

Never let him rest!

We fired blasts of lightning and plants and destroyed many monsters and minions.

Barrel: Then Mister Oogie Boogie Man

Shock: Can take the whole town over then!

Lock: He'll be so pleased, I do declare!

Lock, Shock, Barrel:

The whole world should beware!

Wheee!

---

Lock: Oogie will not be defeated!

Me: Yes he will!

Edzilla: ED WILL SMASH BRATS!

He punched them all over the place.

Jack: Oddly, I couldn't have said that better myself, Ed.

---

Lock: Now that Oogie is the king

We get away with everything!

You cannot scold us for our pranks!

The new King Oogie, let's give thanks!

Emma: Don't be foolish! Think now

All this danger isn't fun and games!

When this town is back to normal

Do you really want the blame?

Lock, Shock, Barrel: Hail to Mister Oogie!

This is so much fun!

We make mischief day and night

Our work is never done!

Orion: If we told you once, we told you twice

To straighten out your act!

You'll never get away with this

And that, you brats, is fact!

Jack: Trusting him's a big mistake!

One that you don't want to make!

He might reward you, this is true!

By cooking you into a stew!

---

We knocked the kids down and defeated them. We tied them up and had them in one of Spiderman's webs.

Spiderman: Stick around.

Me: I have the Dark Orb on them.

It was a Dark Orb as big as a basketball.

I crushed it and we got a powerful power boost.

We heard a scream and it was coming from under the cemetery!

Jack: That's Sally!

I punched the ground with devastating force and we went through the ground into an underground chamber. We saw Sally hanging in the ceiling by a spider web and a huge spider came down!

Leni: (SCREAMS IN FRIGHT) SPIDERS!

We got to fighting the spider.

---

Sally (singing): We should have known not to believe

And things would not have turned so bad

Jack (singing): It's true his plan was to deceive

But that should not make you so sad

Sally (singing): But danger waits at every turn

Maria (singing): And we are ready

To set things right here

Sally (singing): How can you say that you will be okay?

And come back another day?

Jack: Sally, I'm here. You're safe now.

Sally: Jack!

Sally (singing): What will become of our dear town?

Now that we've let our leader down

Jack (singing): You know, dear Sally, that's not true

We can take this town back, me and you

Sally: There's so much danger yet to face

Bai Tza (singing): But we're not worried

Jack (singing): Back home I hurried

Luna: Now we must stop

That evil Oogie's scheme

And save our Halloween

Jack: This is tougher than I thought…

Sheila (hair falls out as her teeth sharpens): Time to let the spider in me out!

Sally: You can do it, Jack!

Spiderman: This spider's really giving me a bad name!

Sally (singing): We should have known not to believe

And things would not have turned so bad

Jack (singing): It's true his plan was to deceive

But that should not make you so sad

Sally (singing): But danger waits at every turn

Optimus Prime (singing): And we are ready

To set things right here

Sally (singing): How can you say that you will be okay?

And come back another day?

Jack: You're really making me angry…

Shocker: I thought I put all of my spider problems behind me when I made peace with Webhead!

Sally: Jack, watch out!

Sally (singing): What will become of our dear town?

Now that we've let our leader down

Jack (singing): You know, dear Sally, that's not true

We can take this town back, me and you

Sally: There's so much danger yet to face

Ben: But we're not worried

Jack: Back home I hurried

Sora: If we work hard

We'll overcome our shame

And beat him at his game

* * *

We killed the spider and saved Sally.

Me: Are you all right Sally?

Sally: Yes. Sora, it's great to see you again.

Sora: You too Sally.

Me: We got to stop Oogie Boogie. The whole world of Halloween is in terrible danger. We got to get over to Dr. Finkelstein's lab. Lets go!

We went over to Dr. Finkelstein's lab.

* * *

We arrived at his lab and we saw him.

Jack: Dr. Finkelstein! Why are you doing this!?

Me: This isn't like you doctor!

Dr. Finkelstein: Ah, Jack. I see you managed to make it here. And the mighty Team Loud Phoenix Storm, welcome. You've all been busy. I think it's time for you to rest.

We saw him open his head and we saw that his brain was not his brain! It was an evil green brain with eyes!

Me: That's not his brain!

Jack: Oogie must've switched his brain!

Lola: Is that it on the table?

We saw his right brain.

Me: That's it.

Lincoln: We got this.

---

Dr. Finkelstein: This town has changed, my boy

Since you've been away!

Without a Pumpkin King

It's Oogie Boogie's way!

Jack: Doctor, please!

Oh, can't you see you're wrong?

Dr. Finkelstein: You were the king

But now you're nothing but prey!

Oogie Boogie is back

And he's planning to stay!

Stewie: It's a crazy web you're weaving!

Oogie Boogie will soon be leaving!

Jack: Doctor, please!

It's not too late!

Dr. Finkelstein: All my machines will seal your fate!

My lasers will slice you!

My knives will cut deep!

And when it's all over

Sally, she will weep!

The days of your good-natured

Mayhem are through!

I'll tear up this town!

And I'm starting with you!

---

Ultra Humanite: I highly doubt that.

Jack: We'll rescue you, Doctor!

Finkelstein: Never, Jack!

---

Dr. Finkelstein: Well, now, my boy

It seems you've lost your crown!

In a few mere moments

You'll be six feet in the ground!

Lisa: Stop at once!

Can't you see this is absurd?

Dr. Finkelstein: No more tricks!

Your friends are now your foes!

And now this dance is

Nearing its close

Stewie: All these people that you're hurting

Oh, good doctor, it's disconcerting

Doctor, please!

Your thinking is all wrong!

Dr. Finkelstein: In a moment finally you'll be gone!

Jack: Your intentions are evil!

Lynn: Your thoughts are all bad!

Lola: The "thing" that you work for

Is no more than a cad!

Jack: When finally we get that

Foul brain out of you

You'll see no more foes

But friends that are true!

* * *

Finkelstein: Well, Jack. Like my inventions?"

Red Hood: Hell, no!

Ed: He was talking to Jack, Jason.

* * *

Jack: Doctor, you've got to control yourself!

Dr. Finkelstein: This town has changed, my boy

Since you've been away!

Without a Pumpkin King

It's Oogie Boogie's way!

Jack: Doctor, please!

Oh, can't you see you're wrong?

Dr. Finkelstein: You were the king

But now you're nothing but prey!

Oogie Boogie is back

And he's planning to stay!

Jack: It's a crazy web you're weaving!

Oogie Boogie will soon be leaving!

Doctor, please!

It's not too late!

Dr. Finkelstein: All my machines will seal your fate!

My lasers will slice you!

My knives will cut deep!

And when it's all over

Sally, she will weep!

The days of your good-natured

Mayhem are through!

I'll tear up this town!

And I'm starting with you!

---

Jack: Just about done, Doctor.

Finkelstein: Curse you, fools!

Leni: You're welcome!

---

Dr. Finkelstein: Well, now, my boy

It seems you've lost your crown!

In a few mere moments

You'll be six feet in the ground!

Jack: Stop at once!

Can't you see this is absurd?

Dr. Finkelstein: No more tricks!

Your friends are now your foes!

And now this dance is

Nearing its close

Jack: All these people that you're hurting

Oh, good doctor, it's disconcerting

Doctor, please!

Your thinking is all wrong!

Dr. Finkelstein: In a moment finally you'll be gone!

Bowser Jr: You shoot and attack us

It rolls off our backs!

He's not your enemy

He's the Pumpkin King, Jack!

Jack: When this is all over

Good friends we will be!

You'll praise Oogie no more!

You can take that from me!

We put his brain back in.

---

Lincoln: Time for you to get your old self back!

Lincoln and Linka fired a powerful blast of lightning and got him back to normal!

Dr. Finkelstein: What? What happened?

Me: Oogie Boogie switched your brain doctor.

Sora: We will make him pay for this.

Laney: But this brain has got to go.

Laney threw it into the air and fired a powerful blast of fire at it and incinerated it.

Nico: That brain has failed this world.

Me: Yes it has. But we got to get over to Christmas Town and stop what Oogie is doing there.

Lincoln: Lets do it!

We went over to Christmas Town. We blew up two guards of fire and ice guarding the door to Christmas Town and we saw that Oogie was building an evil Train!

Me: That is an evil train! We got to stop it! Come on!

---

Jack: Oh no! Oh no!

There's trouble everywhere!

Oh no!

There's smoke clouds in the air!

Jack: Oh no!

I can't believe my eyes

We have to help them

Hurry Jack, they wouldn't dare! Oh no!

Shego: Oh no! Oh no!

There's something very wrong!

Shocker: Oh no!

These things here don't belong!

Jack: Oh no!

The streets are lined with

Little creatures crying

All the others must be hiding

Christmas spirit is subsiding!

Oh no!

Oh no!

Lincoln: The joyous decorations here

Are melting from the fire!

No doubt the work of Oogie Boogie!

Drat that no good liar!

Robo Knight: There's fear in every window!

Oh, I can't believe my eyes!

Jack: And in my bones I feel the urge

To cut him down to size!

Spiderman: And there! Oh no!

His monsters have control!

Look out!

It chills me to my soul!

No more!

They're gathering the presents to ignite them!

Don't they know who they are for?

Oh no!

Jack: Oh no!

He's here! It's all part of his plan!

The nerve!

He's really gone too far!

This time!

Sly Cooper: It's up to us to put a stop to this

Now is our chance I cannot miss!

This town's counting on us!

So we must take charge and let them know!

The time is now

For them to go!

Oh where to start in such a mess!

Oh no!

Jack: Oh no, what now?

The peaceful town is ruined!

And look, the Christmas tree is bare!

Attacked! By someone, welcomed fiends!

I tell you I will snare them

And make sure they pay for their

Outlandish rude behavior…

Oh no!

The cheerfulness is missing

And the wonder isn't here!

And in their place there seems to be

A paralyzing fear!

Instead of songs, I swear

I just hear screaming in the air!

The stench of Oogie Boogie

Is absolutely everywhere…

Double D: The ghosts, the ghouls!

Ed: They're everywhere and all around!

Eddy: I've never felt so sad before!

Jack: This happy place in front of us is being trashed

So greedily, so greedily!

Me: It's tragic! Oh, it's tragic!

I can't stand and watch it burn!

We've got to save this Christmas Town!

And seize these monsters all about!

Jack: This must stop!

* * *

We fired energy blasts and blew up the train and freed all of Christmas Town from Oogie. All of the Elves all cheered.

Me: That was a close one.

Brian: This reminds me of the time Stewie and me went to the North Pole and we saw Santa very ill and sick because of the massive demand and greed from us.

Me: You told us that Brian. That was rough. But thank goodness you two helped him out.

Stewie: Indeed. Thank you.

Me: No problem Stewie. Now we take the fight to Oogie! I know where he lives.

Elf: You have to hurry! He captured Santa and all of the other Holiday Leaders!

Me: We got to get them out of there! Lets go!

We went to the treehouse of Oogie Boogie!

We went down into his lair and we saw Oogie Boogie! We also saw that he captured the Seven Holiday Leaders!

---

Oogie Boogie: Well, well, well!

Look what the bat dragged in!

Jack, you made it this far?

Oh, I'm really scared!

Jack: Oogie, we're here to finish this

Once and for all!

Oogie Boogie: You're jokin'! You're jokin'!

I can't believe my ears!

You're jokin'! You gotta be!

Best laugh I've had in years!

Elena: We hope you did amuse yourself

With this, your little fling!

William: You'd better pay attention now

'Cause he's the Pumpkin King!

Oogie Boogie: You think you are winning

But that's a lot of noise!

Just to be a sport, dear Jack

I'll share my Oogie-toys!

Whoa-oh!

Ghosts: Whoa-oh!

Oogie Boogie: Whoa-oh!

Ghosts: Whoa-oh!

Oogie Boogie: Whoa-oh!

Ghosts: Whoa-oh!

Oogie Boogie: I'm the Oogie Boogie Man!

* * *

Oogie: So, you really made it this far?

Jack: Release the Holiday Leaders!

Lana: And let me eat your bugs!

* * *

Luan: The leaders of the holidays

Must be set free!

Jack: Release them all at once

Or you'll have to deal with me!

Oogie Boogie: You beat my men, so what? Big deal!

You even ran the maze!

You still can't stop me!

I'm the king of seven holidays!

Whoa-oh!

Jack: Whoa-oh!

Oogie Boogie: Whoa-oh!

Sora: Whoa-oh!

Oogie Boogie: Whoa-oh!

Aqua: Whoa-oh!

Jack: I'm the only Pumpkin King!

---

We punched him all over the place as we were singing and it was a powerful fight!

Megafroce Rangers: Legendary Ranger Mode: Wild Force!

The Megaforce Rangers turned into the Wild Force Power Rangers! Troy Burrows was the Red Lion Ranger, Noah Carver was the Blue Shark Ranger, Jake Holling was the Black Bison Ranger, Gia Moran was the Yellow Eagle Ranger, Emma Goodall was White Tiger Ranger and Orion was the Wolf Ranger. Troy punched Oogie in the face and Noah and Jake kicked him in the stomach and Gia and Emma punched and kicked him in the stomach and face and Orion punched him in the face and back.

Me: Soon you will lose Oogie! Lets show him some teamwork!

Powerglide: Lets get him! CYBER KEY POWER!

The Earth Cyber Planet Key went into his back and it enhanced his Thermal Gun 100-fold.

Sora: You won't get away with this Oogie! EARTH CYBER KEY POWER!

The Earth Cyber Planet Key went into Sora's right arm device and enhanced his keyblade powers 100-fold.

Powerglide and Sora: LIGHTSLASH THERMAL BLADE!

They slashed Oogie Boogie all over with powerful fire slash attacks.

Bombshell: You are not welcome in Halloween Town! CYBER KEY POWER!

The Animatron Cyber Planet Key went into his back and it enhanced his explosive shell 100-fold

Ultra Humanite: You give our scariest holiday a bad name! ANIMATRON CYBER KEY POWER!

The Animatron Cyber Planet Key went into his right arm device and enhanced his psychic powers 100-fold.

Bombshell and Ultra Humanite: PSYCHIC LIGHTNING SHELLBOMB!

Bombshell fired an explosive shell and Ultra Humanite fired a powerful blast of psychic lightning and the blasts hit Oogie and exploded.

KRABBBBOOOOOOOOOOOOOOMMMMM!

But when the smoke cleared, we saw that he was gone!

Me: He's gone!

Sora: Did we win?

Laney: No we haven't yet. He's in the middle of town and more powerful than ever before.

We flew up to there.

We saw that he was now a huge giant monster!

Me: Whoa! Look at the size of him!

Nico: He's huge!

Giant Oogie Boogie: **SO YOU ALL CAME! NOW YOU ALL WILL**

**DIE!**

Me: You won't win Oogie! You will pay for your crimes just like we killed Maleficent! We played all your devilish games and brought the pain to all your minions and now all that's left is to finish you off once and for all!

I then snapped my fingers and grew to his size!

Me: You aren't the only one who can grow to giant size!

Giant Oogie Boogie: **YOU ARE REALLY STARTING TO PISS ME OFF!**

Me: You make me sick Oogie! You don't care about anyone but yourself and your own twisted ego!

I punched him in the face and knocked out some of his bugs and Lana was eating them.

Lana: (Munching) Yummy! His bugs are delicious!

Sally: You are really special Lana.

Lana: Thanks Sally.

Giant Oogie Boogie: **I'M JUST GETTING STARTED!**

Me: So am I.

---

Oogie: Well, well, well!

What pests, you are!

Still around, huh?

Oh, can't say I like that!

So why don't you just give up?

You know, surrender!

Jack: It's over!

Me: It's over!

Jack: Your scheme was bound to fail!

It's over!

Me: You're finished here!

Jack: Your next stop will be jail!

Oogie: They mock me! They fight me!

I don't know which is worse!

I might just split a seam now

If I don't die laughin' first!

Ha, ha, ha!

Jack: What's this? A trick?

Venom: We're not impressed!

William: You're bad, and now you're tall!

Maria: It makes it all the more worthwhile

To see a giant fall!

Oogie: Talk, talk, talk! But I tell you

This giant's goin' nowhere!

If I were you, I'd take a hike!

There's danger in the air!

Whoa-oh!

Jack: Whoa-oh!

Oogie: Whoa-oh!

Me: Whoa-oh!

Oogie: Whoa-oh!

Jack: Whoa-oh!

I'm the only Pumpkin King!

---

Jack: Halloween Town is mine

Eddy: You tell him, Jack!

Oogie: Well, aren't we confident?

Nico: Oogie Boogie, You have failed this entire universe!

---

Jack: Well, we're feeling angry

And there's plenty left to do!

We've fought your most unwelcome help

And now we're after you!

Oogie: Even if you catch me

You could never do me in!

I'm ten stories high, and just as strong!

Which means I'm gonna win!

Jack: Whoa-oh!

Oogie: Whoa-oh!

Nico: Whoa-oh!

Oogie: Whoa-oh oh!

Jack, Oogie: Whoa-oh!

Lincoln: Whoa-oh!

Jack: I'm the only Pumpkin King!

---

Jack: This ends here!

Oogie: I'm laughin' to death!

Iron Boy: Seems appropriate.

---

Jack: It's over! Stewie: You're finished!

Elena: You'll never get away!

Riku: You, the Seven Holidays King?

Yeah, that'll be the day!

Oogie: How feeble! How childish!

Is that the best you've got?

You think that you're heroes, boys!

But I think you are not!

---

Oogie: I'm the Seven Holidays King!

Me: Like THAT will ever happen!

Jack: You're king of nothing!

Edzilla: ED SMASH OOGIE BOOGIE!

Ed punched the Giant Oogie Boogie with devastating force!

Me: You make me sick Oogie!

---

Oogie: Whoooah!

Now it's time for you to see

What it really means to scare!

'Cause I'm a gamblin' Boogie Man

Although I don't play fair!

It's much more fun, I must confess

With lives on the line!

Not mine, of course, but yours, old friends!

Now that'd be just fine!

Whoa-oh!

Jack: Whoa-oh!

Oogie: Whoa-oh!

Loud Sisters: Whoa-oh!

Oogie: Whoa-oh!

Jack: Whoa-oh!

I'm the only Pumpkin King!

---

Me: You are finished Oogie! Final Smash Time!

Sibella: (Transylvanian Accent) You will pay for ruining our favorite holiday!

Winny: (HOWLS) Lets get him girls!

Elsa Frankenteen: Lets!

The Ghoul Girls had their hands in a star formation.

Ghoul Girls: HALLOWEEN SPIRIT MONSTER BEAM!

The Ghoul Girls fired a massive blast of orange energy that turned into a a powerful flaming pumpkin and it slammed into Oogie and exploded.

KRABBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Beetlejuice: This guy is a mockery of all things in Halloween. NETHERWORLD FIRE DEATHRAY!

Beetlejuice fired a powerful blast of fire and it hit Oogie and burned him.

Ghost Rider: You are guilty of your crimes! HELLFIRE RIFLE BURN!

Ghost Rider fired a powerful blast of fire from his new Brimstone Rifle and it hit Oogie and exploded.

KRABBBBOOOOOOOOOOOOOOOOOOOMMMMM!

Jack: How Dare You treat my friends so shamefully!? FLAMING PUMPKIN DEATHBOMB!

Jack threw a powerful flaming pumpkin at Oogie Boogie and it hit him and exploded.

KRABBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Me: This is for all the pain you caused!

I slashed Oogie across his stomach and disemboweled him and all his bugs came pouring out of him at a rapid level and Lana was feasting on them!

Oogie: **OH NOT AGAIN! MY BUGS! MY BUGS! MY BUGS!** (Voice getting smaller) **MY BUGS! MY BUGS! MY BUGS! MY BUGS! MY BUGS! MY BUGS! MY BUGS!**

Lana ate every single bug that was inside him and she was as big as a blimp.

Lana: Ah. That was good bug eating. (BELCHES)

She belched out Oogie Boogie's spirit.

Nicole: And you will never terrorize Halloween or any of the holidays ever again! (Chants an Incantation) ALDRUON ENLENTHRANEL VOSOLEN LIRUS-NOR!

Oogie Boogie was then sucked into the Book of Vile Darkness for all eternity.

Me: Enjoy eating bugs in Hell, Oogie.

Lana: But that was good eating.

Me: You are a good girl Lana.

Lock: You haven't won yet!

We saw Lock, Shock and Barrel and Lock was holding a bomb!

Lock (holds up a bomb): One move and I detonate this!

Maria: Put it down, Lock. There are several unarmed civilians here. We may have our differences, but I know that even you guys wouldn't be stupid as to blow up several people.

Shock: They aren't civilians. But they're about to be casualties of war if you all don't let us go right now!

William: Guys, please. We've been through a lot today. Oogie's dead, the Dark Orb is destroyed, and Maleficent isn't coming to your rescue. There's nothing more to do than to accept your punishments. If you do, it'll only last for an hour. I promise.

Barrel: Easy for you to say. You're the ones about to come out of this with another win!

Troy: If you think us killing little kids counts as a win, you know less about us than we thought.

Me: That's right.

Lincoln used the Force and lifted the bomb into the air and Laney tied up Lock, Shock and Barrel with vines. I fired a laser vision blast and destroyed the bomb in the air.

KRABBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Me: That takes care of that. But you three need your punishment for one hour. (Eyes glow blood red) WELCOME TO YOUR WORST NIGHTMARE.

I sent Lock, Shock and Barrel into the Malevolent Insanity world for 1 hour. But in the Malevolent Insanity world it will feel like 12 hours.

Me: Looks like we've seen the last of Oogie Boogie.

Jack: We sure have. Thank you so much for all your help J.D.

Me: You're welcome Jack. Anything for a friend.

Jack: You guys are all amazing. (To the viewers) You all have a great and awesome Halloween.

We went back to the estate and we had to roll Lana back. We had a great party and it was so awesome! We would give Jack new ideas for Halloween whenever the time comes. We made an alliance with the Seven Holiday Leaders.

THE END

Another Fanfiction Complete and the last of Maleficent's evil crew destroyed.

Tim Burton's The Nightmare Before Christmas was an awesome movie! I've known that movie since I was a little kid and it was so cool! The songs they did were incredible! Oogie Boogie was the worst ever! But now we've seen the last of him for good. The chapter we did here was for the sequel to the movie, Nightmare Before Christmas: Oogie's Revenge for Playstation 2. I never played it. But I saw that it was so cool! NicoChan11 gave me the ideas. Thanks man. Happy Halloween to you all! Let me know what you all think. Next up is the Goosebumps book, Stay Out of The Basement. That Plant Clone is gonna be mulch by the time we're done with him.

See you all next time and Happy Halloween to you all.

# Attack of The Mad Plant Clone

We were over in the city of Summer Cove in North Carolina. It was the home town of the Ninja Steel Power Rangers.

Thundercracker: Here we are in Summer Cove!

Me: It's an amazing town.

Nico: It sure is as amazing as I have seen.

Laney: I wouldn't mind coming here for a vacation.

Lincoln: Me neither.

Lola: It's such an amazing city.

Brody Romero: Well it's our home.

Calvin Maxwell: And the food is amazing.

Later we were at the school of the Ninja Steel Rangers.

Me: Wow! So this is your school.

Calvin Maxwell: Yep. It's where we learn.

Hayley Foster: It's a great school.

Me: Looks like it.

But then we saw a couple of familiar faces.

Bulk: Hey guys!

Me: Bulk, Skull and Spike! We didn't expect you guys.

Skull: Small world huh?

Spike: No kidding.

Me: What brings you guys here?

Bulk: Well…

But then we got an unwelcome surprise from popular kids Victor Vincent and his nerdy best friend and right hand man Monty.

Victor: Well if it isn't the loser squad.

Me: Victor Vincent and Monty. What an unpleasant and stupid surprise.

Victor: Did you all come to look at all my awesome trophies?

Bulk: No. We came to have a chat with you?

Monty: About what?

Skull: About all the disasters your quest for fame caused!

Victor: I'm sorry. What?

Windcharger: Well, there have been blunders you two caused. But we'll cover your biggest ones.

Bulk: Like how you tried cheating in a tennis match against Hayley using robot arm to make your swings better and harder!

Monty: Hayley was cheating too!

Spike: You might think she was cheating. But Preston accidentally used a magic spell to make her invisible.

Skull: And it doesn't stop there! Your magnet worked too well and attracted the Ninja Steel Rangers' Ninja Stars to it, inspiring Galavanax to have plans to make another magnet to grab the Power Stars.

Bulk: And let's not forget that you two became security guards for the school only to get abuse your position to get free stuff from the students! The last person who abused their position is now in one of the space prisons!

Victor: It's not as bad as you make it sound.

Skull: Oh no. I'm guessing it's much worse! The cherry on top is when you fucking signed up for a tv show. But that TV show was actually a scheme made by Odius to brainwash everyone on Earth!

Monty: We didn't want to help in her scheme!

Bulk: Yet you auditioned for it anyway!

Skull: Spike, please take the others outside. Me and Bulk intend to use a lot more colorful language.

Spike: You got it Uncle Bulk.

We went outside.

Bulk and Skull raised verbal hell on them!

Spike: I've never seen Dad and Uncle Bulk so mad before.

Jason Lee Scott: This is the first time we've ever seen them genuinely angry.

Lynn: I say we teach Victor and Monty a lesson!

Levi: Nice suggestion, Lynn. But they're not worth it. They never were.

Bulk, Skull, Victor, and Monty walked out.

Bulk: You're not even sorry!

Monty: Well, I'm sorry you came all this way for nothing.

Skull: That's not a fucking apology!

Victor: Like I'm gonna apologize for getting the fame I deserve.

Spike: What's the point of fame if you're gonna act like a jerk because of it?

Francis: You know what? Enjoy your stupid 50th trophy. I just hope you'll still enjoy it whe neveryone leaves you in the end!

Brody: C'mon, guys. We'll take you all to meet Principal Hastings.

With that, all of us went back inside the school, leaving Victor and Monty alone.

Later we went to the office of Principal Hastings.

Principal Hastings (to Brody): Brody, you're telling me that you, Sarah, Preston, Levi, Hayley, and Calvin are the Power Rangers.

Brody: The Ninja Steel Power Rangers to be specific.

Hastings: Brody, during the camping field trip, you showed honesty in not stealing the compass. But this is a bold claim that you're making.

Poliwag: It's true, ma'am.

Me: We would never lie about that Ms. Hastings. Show her.

The Ninja Steel Power Rangers pulled out their morphers.

Ninja Steel Rangers: NINJA SPIN!

They turned into the Ninja Spin Power Rangers.

Ninja Spin Rangers: NINJA RANGERS! FEAR NO DANGER!

Principal Hastings was shocked!

Principal Hastings: It really is true! You guys are the Power Rangers!

Brody Romero: And it's not just us.

Lana: We have 26+ years of Power Rangers on Team Loud Phoenix Storm now.

Nico: We formed a powerful branch team of Team Loud Phoenix Storm called the Power Rangers Superarmy.

However, as everything was being explained, something evil was happening.

Monty: Well, I didn't think our first meeting with Team Loud Phoenix Storm would be like that.

Victor: They're just jealous! Besides, me and you can kill a baddie just like them anyday of the week!

?: Really now?

The two of them were knocked out from behind before vines carried them off. But hiding in the shadows was a girl watching what happened.

?: Uh oh! We got to tell J.D. and all of Team Loud Phoenix Storm!

The girl went to the Principal's office.

We saw the girl and it was Margaret Brewer, daughter of famous plant geneticist Dr. Brewer.

Margeret: J.D.!

Nico: Oh wow! You're Margeret Brewer from the Goosebumps book Stay Out of The Basement.

Nico held up said book.

Margeret Brewer: That's right. It's an honor to meet you all.

Nico: Same here.

Margeret Brewer: I'm afraid we got big trouble! Victor and Monty were kidnapped by a terrible plant monster!

Me: What!? But I thought your father gave up on his plant clone making ways.

Margeret: He did. But this must be a clone of what he created a while back.

Laney: If it's a clone, then we're gonna burn that thing!

Lincoln: Lets go talk to your father first.

Margeret: Okay.

We went to the house of Dr. Brewer.

Dr. Brewer: Are you serious J.D.?

Me: I'm afraid so doctor.

Dr. Brewer: So my clone kdinapped Victor and Monty?

Maria: He's probably using them as bait.

Casey Brewer: Oh well. Tough luck for them.

Margaret: Casey!

Casey Brewer: Did you take your medicine this morning, sis? Have you forgotten all the trouble those two caused? And now, you're suggesting we go save them?

Me: Casey, as much as we don't want to do it, we have no choice. Like it or not, they are still human and we have to save them.

Casey Brewer: Fine.

We set out to where the Clone took Victor and Monty.

The clone took them to an abandoned warehouse.

We were hiding while making sure the clone didn't see us.

Nico: Let's wait a few minutes before saving Victor and Monty. I want to see if they can get themselves out of this. They usually do.

10 minutes passed and the two of them didn't show any signs of escaping.

Brewer Clone: Well, I don't hear any Phoenix Cries. Looks like Team Loud Phoenix Storm aren't coming to save you morons after all. I mean, why would they? You two are worthless!

Victor: They will save us you freak!

Brewer Clone: I'm counting on it. And I will kill them all and you too.

Me: That monster. He is gonna burn for his crimes.

Lincoln: Dr. Brewer really played with fire.

Ben: And it gets worse. This plant freak integrated itself with Methanosian and Florauna DNA.

Me: So it's now part human, plant, Methanosian and Florauna? Talk about a dangerous combination.

Laney: I have an idea.

Laney used her plant powers to go underground and she popped up behind some old crates and she knocked them down.

Brewer Clone: What was that?

He went over to investigate.

When he was at the right distance away we sprang into action.

Me: Now!

We jumped in through the roof in a massive fiery explosion and a phoenix cry was heard and we flew into the warehouse.

Megaforce Rangers: Legendary Ranger Mode: Lightspeed Rescue!

The Megaforce Rangers turned into the Lightspeed Rescue Power Rangers. Troy Burrows was the Red Ranger, Noah Carver was the Blue Ranger, Jake Holling was the Green Ranger, Gia Moran was the Yellow Ranger, Emma Goodall was the Pink Ranger and Orion was the Titanium Ranger.

We landed by them.

Brewer Clone: What!? You tricked me!

Me: Surprise surprise.

Lori: What the hell are you!?

Laney: He's a plant clone. He's ugly!

Lana: I remember this one. He is an ugly monster!

Syd: This is a disgusting monster!

Lincoln: He's a total freak!

Nico: He has failed this world as a human being.

Me: You are a total freak.

Brewer Clone: You are a fucking bunch of has beens!

Me: You will burn for your crimes!

Lola: Yeah! So shut up!

Brewer Clone: You make me sick! You should've been bad guys that kill everyone so plants everywhere can restore the Earth!

Me: What kind of fucked up world do you live in!?

Vince: You have no right to say that!

Carol: And for that you will burn!

We went at him and I kicked him in the face and I fired a powerful blast of fire at him and burned his leg off.

Ben turned into Wildvine.

Ben: WILDVINE!

Wildvine grabbed him with powerful vines.

Wildvine: Sorry clone. But you're no match for the original!

Bella: And the original Swampfire.

Bella turned on her Ultimate Bella form.

Bella: SWAMPFIRE!

Bella fired a powerful blast of fire at the Brewer clone and burned him.

But the Brewer Clone regenerated himself.

Brewer Clone: You can't destroy a being who's able to regenerate himself!

Nico: Then we're gonna need more than just a weed whacker.

Nico fired a powerful blast of fire energy at the Brewer Clone and burned him all over.

Troy Burrows punched the Brewer Clone in the face and fired his rescue blaster and V-Lancer and the red lasers burned the Brewer Clone and burned him all over. Noah Carver fired his blue Thermo Blaster and burned the Brewer Clone all over. Gia Moran fired a yellow booster beam and it hit the clone and exploded. Jake Halling fired powerful blasts of energy from his Megabattle Saw Rifle and the blasts hit the Brewer Clone and he sawed off its arm and legs. Emma Goodall fired her V-Lancer and Booster Beam and the pink blasts hit the Brewer Clone and exploded. Orion fired powerful blasts of energy from his axe rifle and the blasts exploded.

Lola: You are a menace to plants everywhere!

Then a powerful ring of fire formed around Lola's feet. She was growling with intense rage. Then suddenly a massive explosion of fire exploded out of Lola and a massive vortex of fire erupted out of the ground. We felt Lola's power rising dramatically at an astronomical rate. When the blast of fire faded we saw Lola and she was forever changed. We saw that she was now older and looked like she was 17 years old, and she had a pink bow in her hair, she had fire earrings, a pink summer shirt, a pink skirt that went down to her legs and she had pink stiletto shoes. Her wings were now more powerful than ever before. When she opened her eyes, she had fire raging in her sclera and her iris's were neon blood red. She also had a neon pink aura around her and her wings were totally flickering with stronger and more powerful fire! She was now a SUPER

ANGEL 20,000 INFERNO FLAME PRINCESS!

Brewer Clone: What the hell!? What are you!?

Lola: (Older Voice) Someone you do not want to ever mess with! You just pissed off the wrong beauty pageant queen!

Lola flew at the Brewer Clone faster than a bullet fired from from a gun and she punched him in the face with a fist full of blazing fire and burned him. She kicked him in the stomach and the powerful kick bisected him in half and set his legs on fire and reduced them to ash! Lola then slashed him in the face with claws made of pure fire and burned his eyes out. The Brewer clone regenerated his legs and Lola grabbed his arm and ripped it off and burned it to ash. She fired a powerful blast of fire at the Brewer Clone and it hit his legs and burned them off in a fiery explosion. Lola punched him in the face again and kicked him in the back and she punched him in the back of the head. Lola formed a powerful blade of fire from her hand and she slashed the Brewer Clone in half and his legs exploded into flames. We watched Lola fight and we have never seen her fight so mercilessly. She was really making him suffer big time.

Laney: Wow! Look at Lola go!

Lincoln: Lola went from a little girl to a beautiful woman and she is really making him suffer.

Lola stopped and the Brewer Clone got up. He slowly regenerated himself. But he was really weak from the massive beating he took.

Brewer Clone: What the fuck are you, you little fucking brat!?

Lola: I've been asking myself the same question for a long time. Am I a beauty pageant queen, a princess, a queen, a hero, a savior, an angel or a loving sister. Turns out, I'm all of them. And you are none of those things as a father!

Margeret Brewer: You can never replace my father!

Me: Time to finish you off for good!

Thundercracker: You got it boss! CYBER KEY POWER!

The Earth Cyber Planet Key went into Thundercracker's arm and it enhanced his Thunder Cannon and turned it into an even more powerful cannon.

Francis: Time for you to burn! EARTH CYBER KEY POWER!

The Earth Cyber Planet Key went into his right arm device and it enhanced his fire machines 100-fold.

Thundercracker and Francis: INFERNO THUNDER CANNON FLASH!

They fired their blasts and they combined and they hit the Brewer Clone and exploded.

KRABBBBBOOOOOOOOOOOOOOOOOOOOOOMMM!

He was on fire.

Poliwag: Lets see how water suits you! ANIMATRON CYBER KEY POWER!

The Animatron Cyber Planet Key went into Poliwag's Right Arm device and it enhanced his abilities and enabled him to use Dragon Rage!

Windcharger: Lets see you face this! CYBER KEY POWER!

The Earth Cyber Planet Key went into his back and enhanced his magnetic field to Electromagnetic levels.

Poliwag and Windcharger: ELECTROMAGNETIC DRAGON RAGE DEATHRAY!

Poliwag fired a powerful blue fire blast that turned into a deadly dragon made of blue and black fire and Windcharger fired a powerful ball of electromagnetic energy and the blasts combined and turned into a dragon of pure lightning. It hit the Brewer Clone and exploded.

KRABBBOOOOOOOOOOOOOOOOOOOOOOOOOOMMMM!

Me: Time to finish you for good!

Brody: Lets get him!

Ninja Steel Rangers: LION FIRE FRENZY! FINAL ATTACK!

Their Spin Blades were lit on fire and they slashed the Brewer Clone all over the place!

Margeret: LEAF TORNADO SLASHHURRICANE!

Margeret fired a powerful blast of leaves that turned into a deadly tornado and it shredded the Brewer Clone.

Bella: Lets do it! METHANOSIAN FIRESTORM BURN!

Bella fired a powerful blast of fire and burned the Brewer Clone all over.

Wildvine: Let me show you what a true plant can do. FLORAUNA DEATH GRENADE FIRESTORM!

Wildvine threw a bunch of his plant grenades and they hit the Brewer Clone and exploded all over. The Brewer Clone was on fire and was dying.

Me: Time to finish for for good! I NEED DINOZORD POWER NOW!

I formed a Rainbow Power Crystal and the Tyrannosaurus, Saber Tooth Tiger, Triceratops, Mastodon and Pterodactyl Zords arrived and I summoned the Dragon Zord.

Me: Now for the ultimate finale! I call on Titanus and the power of the Ultrazord!

The Brachiosaurus Ultrazord Titanus arrived.

Me: Time for some serious firepower!

I inserted the Rainbow Power Crystal and the Dinozords turned into the Megazord and it merged with the Dragon Zord and Titanus and the Ultrazord was ready and a massive fiery explosion went off in the background.

KRABBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

GO GO POWER RANGERS!

Margeret Brewer: Wow! That is so cool!

GO GO POWER RANGERS!

Nico: It sure is.

Me: It's over for you Brewer Clone! Go to Hell and stay there! LOCK ON AND FIRE ALL WEAPONS!

It fired all its weapons all at once and they hit the Brewer Clone all at once and exploded with incredible power and obliterated him in an instant.

KRABBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

The Brewer Clone was obliterated into nothing.

Margeret: That was awesome!

Lincoln: YEAH! Way to go!

Me: In your fucking face Brewer Clone!

Margaret (to Victor and Monty): I just hope you two learned something from all this.

Victor: We did. Leave the bad guy fighting to the professionals.

Me: That's right. And don't let the power of fame and fortune cloud your mind to the power of being a total fuckup.

Monty: That too.

Margeret: (To the Viewers) And don't become like Victor and Monty.

We laughed.

Me: You did really well Margaret.

Margaret: Thanks J.D. It was so cool fighting along side you.

Me: First time is for everything.

We inducted Margaret into the Goosebumps Monster Busters.

We later went home and we had another Goosebumps Monster destroyed.

Dr. Brewer destroyed all his research and made sure that it was never to be used again.

THE END

---

Another Fanfiction complete and another Goosebumps Monster destroyed.

Stay out of The Basement was a strange one. And Dr. Brewer was really playing with intense fire. Never mess around with the laws of Mother Nature or there will be terrible consequences. And this chapter was a strong example of that. NicoChan11 gave me the ideas for this. Thanks man. Let me know what you all think. Next up is a party for the Dias De La Muertos - The Day of The Dead, a very important holiday in the Mexican Culture.

See you all next time.

# Day of The Dead Celebration

Feliz día de los muertos dos mil diecinueve amigos.

In Paris, things were going good. We see Chloe Bourgeois walking with a tired expression on her face.

Marinette (she and Adrien are walking near her): You alright, Chloe?

Chloe: I'm fine.

Ever since Lila Rossi showed up in their school, she and Marinette had buried the hatchet and became friends.

Adrien: Chloe, it's obvious you're not fine. You look like you haven't slept.

Chloe (sighs): Ok. You got me. Last night, I had a bad dream where I willingly got Akumatized and joined Hawk Moth's side.

Marinette: Now that's a nightmare!

Adrien: Chloe, I know you would never help out Hawk Moth willingly.

Chloe: Of course not! The idea of that is utterly ridiculous! I might be bummed about not being Queen Bee as much as I'd like to, but I would never become a bad guy of my own free will. Not without becoming my old snobbish self again! Plus, even I did, it would mean that Team Loud Phoenix Storm and those other heroes would either kill me or throw me in one of their prisons.

Marinette: That's true. But enough about that. We're almost at school.

Adrien: That means we have to endure another day of Lila the Liar.

Chloe: (rolls her eyes) Relax. The other classmates are still your friends, even if they're being lied to. Just stay by me at all times and you'll be fine.

Hawk Moth is gonna get what's coming to him in the future and that is a one way ticket to jail.

In Alaska, Me and most of us were riding on our Rapidash and enjoying the awesome scenery of the beautiful Alaskan scenery. It was a beautiful area.

Me: (Inhale) Ahh. What a beautiful day.

Nico: Boy you said it.

Laney: It's so beautiful here in this part of Alaska.

May: No kidding.

We were over in the beautiful wooded area of Denali National Park in Alaska and it was beautiful.

Lana: I love Alaska.

Lola: (Older Voice) Me too. It's so beautiful.

Winston: I'll say Lols.

Lola was still in her Super Angel 20,000 Inferno Flame Princess form. We discovered that because of her powers, Lola is now stuck as a 17-Year-Old girl. She is okay with this. But when she turns 17 for real she'll be stuck like that forever.

Me: I think it's cool that you look like a teen now Lola.

Lola: It sure does. It's awkward. But it's cool.

Nico: True.

Laney: Look up there!

We saw the three legendary bird pokemon: Articuno, Zapdos and Moltres.

Kevin Levin: Are those an Articuno, Zapdos, and Moltres?

Gwen Tennyson: They are. But their Mana's different somehow.

Me: They must be gene-slammer Pokemon.

They saw us and landed by us.

Articuno: Are you the famous Team Loud Phoenix Storm?

Me: We sure are.

Articuno: It's an honor. I'm Julie Tancheno.

Zapdos: I'm Jessica Namiko.

Kayla: And I'm Kayla Schmidt.

Me: Pleasure to meet you.

Nico: How did this happen to you girls?

Articuno: We were gene-slammed with the DNA of Articuno, Zapdos and Moltres.

Zapdos: We used to be top dog scientists that used to work for Team Rocket. Giovanni gave us a substantial amount of money for developing powerful elemental blasters. But we double-crossed Team Rocket. We made the weapons only for the benefit of humanity to destroy people like Team Rocket.

Me: So you were spies in a sense.

Moltres: Yes. We were. But Giovanni found out about us and he told his scientists to destroy us by robbing us of our humanity. He turned us into the 3 Legendary Bird Pokemon. But what he didn't count on was that we were given incredible power as a result.

Me: Well you be happy to know that we killed all of Team Rocket.

Nico: Yeah. They got what was coming to them.

Me: Yep. They are all dead and burning in Hell. We can give you back your humanity and give you the power to transform at will and even sprout the wings of the Legendary Birds. And even utilize their powers.

Articuno: You would do that for us?

Me: Sure. You did nothing to deserve this. Giovanni did and he paid the Ultimate Price for his crimes.

Laney: He sure did. So many have suffered because of him.

Lincoln: Yeah.

Zapdos: Thanks you all so much.

Me: But just so you know, this is gonna hurt real bad.

Articuno: Okay. We're ready.

Me: Okay. Boys you better cover your eyes.

Nico and Lincoln did so.

Me: Here we go.

I snapped my fingers and covered my eyes and the girls were in excruciating pain. Julie regained her blue hair, blue eyes and fair skin and she also had Articuno's wings. Jessica had her Blonde Hair and yellow eyes back and she had Zapdos's wings and Kayla had her red hair and red eyes back and she had Moltres's wings. They were really naked.

They got up.

Maria: Uh you girls are naked.

Julie (covers her boobs): This is embarrassing!

Kayla: Has anyone seen our glasses?

Jessica (smirks at me): C'mon, Nico. You can look! It'll probably be your only chance, Nico: And get the living shit beaten out of me by the Anti-Pervert Patrol!? No way in hell.

Maria pulled out 3 robes and gave them to them.

Maria: We'll get you girls new clothes back at the estate.

Julie: Thanks Maria.

Me: Lets get you guys back home.

We went back home to the estate in Michigan.

---

In Leni's room, Maria, Teresa, Leni and Xerneas worked on the new clothes for Julie, Jessica and Kayla. Julie had a blue summer shirt on with a snowflake on it and she had a blue hair bow, blue snowflake earrings, blue glasses, blue lipstick, blue leggings, blue Icelandic fur snow boots and a sleeveless trench coat with ice and snow and Articuno flying in the snow clouds and the kanji for The Subzero Angel of Icy Justice on the back. 氷の正義の氷点下の天使

Jessica had a black summer shirt with yellow lightning on it and she had a yellow hair bow and lightning earrings, yellow glasses, black skirt with lightning on it, yellow leggings and black sneakers and she had a sleeveless trench coat with a raging thunderstorm on it and Zapdos was flying through the lightning and thunderclouds and she had the kanji for The Thunderstorm Angel of Electrified Virtue on the back. 電化された美徳の雷雨の天使

Kayla had a red summer shirt with fire on it, a red hair bow in her hair, fire earrings, red glasses, red lipstick, a red fire skirt, red leggings, red sandals and a sleeveless trench coat with fire on it and Moltres flying through the flames and she had the kanji for The Phoenix Angel of Fiery Burning Justice on the back. 燃えるような正義のフェニックスの天使

Julie: Whoa! We look awesome!

Jessica: These clothes look amazing!

Kayla: I like my clothes. They are so cool!

Julie: Thanks girls. It's so awesome!

Leni: You're totes welcome Julie.

Maria: What those scientists did to you all makes them dirtbags. I'm glad we killed all of Team Rocket.

Jessie, James and Meowth came in.

Jessie: Hey Julie, Jessica, Kayla. Its been a while.

Julie: Jessie, James and Meowth. It's great to see you.

Jessica: But aren't you still with Team Rocket?

Maria: No. Before we killed all of Team Rocket, they were canned and came to us. We recruited them into the Redemption Squad.

Kayla: That's good.

Jessie: I just want you three to know that we had no part in this gene slamming stuff.

James: Giovanni lied that it was top secret.

Meowth: Good thing they didn't get a sample of my DNA!

Teresa: It was a good thing.

Julie, Jessica and Kayla were members of the team now.

In the living room we were getting ready. It was a very special day for Ronnie Anne and her family.

Bobby: These decorations are hard to hang.

Me: I know. But this is an interesting day. (To the viewers) Oh. Hey there. Today is a special day for Ronnie Anne and her family. Today is November 2nd, 2019 and it marks a special day here in the U.S.A.

and in Mexico. Today is Dias De Los Muertos, The Day of the Dead. It's a very important holiday over in Mexico. Think of it as Mexico's version of Halloween. It's where the people of Mexico gather to pay their respects to their family and honor their ancestors. A very important part of their tradition. From October 31st to today we celebrate it. We do all kinds of amazing stuff on this holiday. We dress up in awesome costumes that look like skeletons, we have all kinds of good food and we do really good dancing. So join the celebration with us.

---

The Day of the Dead celebrations in Mexico developed from ancient traditions among its pre-Columbian cultures. Rituals celebrating the deaths of ancestors had been observed by these civilizations perhaps for as long as 2,500-3,000 years. The festival that developed into the modern Day of the Dead fell in the ninth month of the Aztec calendar, about the beginning of August, and was celebrated for an entire month. The festivities were dedicated to the goddess known as the "Lady of the Dead", corresponding to the modern La Calavera Catrina.

By the late 20th century in most regions of Mexico, practices had developed to honor dead children and infants on November 1, and to honor deceased adults on November 2. November 1 is generally referred to as Día de los Inocentes ("Day of the Innocents") but also as Día de los Angelitos ("Day of the Little Angels"); November 2 is referred to as Día de los Muertos or Día de los Difuntos ("Day of the Dead").

In the 2015 James Bond film, Spectre, the opening sequence features a Day of the Dead parade in Mexico City. At the time, no such parade took place in Mexico City; one year later, due to the interest in the film and the government desire to promote the pre-Hispanic Mexican culture, the federal and local authorities decided to organize an actual "Día de Muertos" parade through Paseo de la Reforma and Centro Historico on October 29, 2016, which was attended by 250,000 people. This is an example of the pizza effect.

Beliefs

Frances Ann Day summarizes the three-day celebration, the Day of the Dead:

"On October 31, All Hallows Eve, the children make a children's altar to invite the angelitos (spirits of dead children) to come back for a visit. November 1 is All Saints Day, and the adult spirits will come to visit. November 2 is All Souls Day, when families go to the cemetery to decorate the graves and tombs of their relatives. The three-day fiesta is filled with marigolds, the flowers of the dead; muertos (the bread of the dead); sugar skulls; cardboard skeletons; tissue paper decorations; fruit and nuts; incense, and other traditional foods and decorations."

People go to cemeteries to be with the souls of the departed and build private altars containing the favorite foods and beverages, as well as photos and memorabilia, of the departed. The intent is to encourage visits by the souls, so the souls will hear the prayers and the comments of the living directed to them. Celebrations can take a humorous tone, as celebrants remember funny events and anecdotes about the departed.

Plans for the day are made throughout the year, including gathering the goods to be offered to the dead. During the three-day period families usually clean and decorate graves; most visit the cemeteries where their loved ones are buried and decorate their graves with ofrendas (altars), which often include orange Mexican marigolds (Tagetes erecta) called cempasúchil (originally named cempoaxochitl, Nāhuatl for "twenty flowers"). In modern Mexico the marigold is sometimes called Flor de Muerto (Flower of Dead). These flowers are thought to attract souls of the dead to the offerings. It is also believed the bright petals with a strong scent can guide the souls from cemeteries to their family homes.

Toys are brought for dead children (los angelitos, or "the little angels"), and bottles of tequila, mezcal or pulque or jars of atole for adults. Families will also offer trinkets or the deceased's favorite candies on the grave. Some families have ofrendas in homes, usually with foods such as candied pumpkin, pan de muerto ("bread of dead"), and sugar skulls; and beverages such as atole. The ofrendas are left out in the homes as a welcoming gesture for the deceased. Some people believe the spirits of the dead eat the "spiritual essence" of the ofrendas food, so though the celebrators eat the food after the festivities, they believe it lacks nutritional value. Pillows and blankets are left out so the deceased can rest after their long journey. In some parts of Mexico, such as the towns of Mixquic, Pátzcuaro and Janitzio, people spend all night beside the graves of their relatives. In many places, people have picnics at the grave site, as well.

Some families build altars or small shrines in their homes; these sometimes feature a Christian cross, statues or pictures of the Blessed Virgin Mary, pictures of deceased relatives and other people, scores of candles, and an ofrenda. Traditionally, families spend some time around the altar, praying and telling anecdotes about the deceased. In some locations, celebrants wear shells on their clothing, so when they dance, the noise will wake up the dead; some will also dress up as the deceased .

## Food

During Day of the Dead festivities, food is both eaten by living people and given to the spirits of their departed ancestors as ofrendas ("offerings"). Tamales are one of the most common dishes prepared for this day for both purposes.

Pan de muerto and calaveras are associated specifically with Day of the Dead. Pan de muerto is a type of sweet roll shaped like a bun, topped with sugar, and often decorated with bone-shaped phalanges pieces. Calaveras, or sugar skulls, display colorful designs to represent the vitality and individual personality of the departed.

In addition to food, drink is also important to the tradition of Day of the Dead. Historically, the main alcoholic drink was pulque while today families will commonly drink the favorite beverage of their deceased ancestors. Other drinks associated with the holiday are atole and champurrado, warm, thick, non-alcoholic masa drinks.

Jamaican iced tea is a popular herbal tea made of the flowers and leaves of the Jamaican hibiscus plant (Hibiscus sabdariffa), known as flor de Jamaica in Mexico. It is served cold and quite sweet with a lot of ice. The ruby-red beverage is called hibiscus tea in English-speaking countries and called agua de Jamaica (water of Hibiscus) in Spanish.

## Calaveras

Those with a distinctive talent for writing sometimes create short poems, called calaveras literarias (skulls literature), mocking epitaphs of friends, describing interesting habits and attitudes or funny anecdotes. This custom originated in the 18th or 19th century after a newspaper published a poem narrating a dream of a cemetery in the future, "and all of us were dead", proceeding to read the tombstones. Newspapers dedicate calaveras to public figures, with cartoons of skeletons in the style of the famous calaveras of José Guadalupe Posada, a Mexican illustrator. Theatrical presentations of Don Juan Tenorio by José Zorrilla (1817-1893) are also traditional on this day.

## Modern representations of La Catrina

Posada created what might be his most famous print, he called the print La Calavera Catrina ("The Elegant Skull") as a parody of a Mexican upper-class female. Posada's intent with the image was to ridicule the others that would claim the culture of the Europeans over the culture of the indigenous people. The image was a skeleton with a big floppy hat decorated with 2 big feathers and multiple flowers on the top of the hat. Posada's striking image of a costumed female with a skeleton face has become associated with the Day of the Dead, and Catrina figures often are a prominent part of modern Day of the Dead observances.

A common symbol of the holiday is the skull (in Spanish calavera), which celebrants represent in masks, called calacas (colloquial term for skeleton), and foods such as sugar or chocolate skulls, which are inscribed with the name of the recipient on the forehead. Sugar skulls can be given as gifts to both the living and the dead. Other holiday foods include pan de muerto, a sweet egg bread made in various shapes from plain rounds to skulls, often decorated with white frosting to look like twisted bones.

## Local traditions

The traditions and activities that take place in celebration of the Day of the Dead are not universal, often varying from town to town. For example, in the town of Pátzcuaro on the Lago de Pátzcuaro in Michoacán, the tradition is very different if the deceased is a child rather than an adult. On November 1 of the year after a child's death, the godparents set a table in the parents' home with sweets, fruits, pan de muerto, a cross, a rosary (used to ask the Virgin Mary to pray for them) and candles. This is meant to celebrate the child's life, in respect and appreciation for the parents. There is also dancing with colorful costumes, often with skull-shaped masks and devil masks in the plaza or garden of the town. At midnight on November 2, the people light candles and ride winged boats called mariposas (butterflies) to Janitzio, an island in the middle of the lake where there is a cemetery, to honor and celebrate the lives of the dead there.

In contrast, the town of Ocotepec, north of Cuernavaca in the State of Morelos, opens its doors to visitors in exchange for veladoras (small wax candles) to show respect for the recently deceased. In return the visitors receive tamales and atole. This is done only by the owners of the house where someone in the household has died in the previous year. Many people of the surrounding areas arrive early to eat for free and enjoy the elaborate altars set up to receive the visitors.

In some parts of the country (especially the cities, where in recent years other customs have been displaced) children in costumes roam the streets, knocking on people's doors for a calaverita, a small gift of candies or money; they also ask passersby for it. This relatively recent custom is similar to that of Halloween's trick-or-treating in the United States. Another peculiar tradition involving children is La Danza de los Viejitos (the dance of the old men) when boys and young men dressed like grandfathers crouch and jump in an energetic dance.

---

I went into the kitchen and we saw Rosa cooking a boatload of food. It was a massive amount. She made tamales, burritos, chalupas, pollo asada, carne asada and so much more.

Rosa: (Spanish Accent) Hola J.D.

Me: Hola Rosa. Feliz día de los muertos.

Rosa: Danada. You excited?

Me: I sure am. Bobby told me a lot about how you celebrate it.

Rosa: I'm sure he did.

Robo Knight: What is this "Day of the Dead"? Is it a different version of Halloween?

Me: No Robo Knight. It's a very important holiday down in Mexico. It's where everyone celebrates and honors their ancestors. They've been doing this for over 3,000 years.

Robo Knight: I see.

I went into the Living Room and found Maria sleeping on the couch. She was out like a light and snoring.

Me: (To the viewers) Maria has had a long day of work at the hospital. Being an Emergency Room nurse can be really tiring. You have to work around the clock practically until your bones get sore and you have to take care of a lot of people that are extremely sick and dying. You have to work all the way into the early morning hours and that can be really stressful. What happened to Maria that caused her to fall asleep for so long like this is she had to help work on a patient that had a golf club skewered into his head through his brain. My father freaked when he heard that. It took them 18 hours to remove the club that was impaled into him.

Nico: That's disgusting. How did that happen?

Me: Some dickhead was completely drunk like a loon and he got mad over nothing. We threw him in jail for 50 years for attempted 1st Degree Murder, assault & battery and felonious assault.

Nico: That freak has failed this city.

Me: You got that right. His blood alcohol level was 1.4.

Nico: That's insane.

Me: It was.

Manaphy, Poromon and Kirby were having an eating contest. They were gonna eat bean burritos.

Poromon: Kirby, I challenge you to an eating contest rematch!

Manaphy: Don't you mean WE challenge Kirby to an eating contest rematch?

Kirby: You are so on!

Maria: On your marks. Get set. Eat!

They ate and ate and ate and ate and ate and ate and ate and ate. Until it was Poromon that was victorious.

Maria: Poromon wins!

Kirby: Good job Poromon.

Poromon: Thanks Kirby. (LOUD BELCH!) Excuse me.

Rex Salazar and the Blue Beetle were having an arm wrestling contest.

Rex Salazar (to Blue Beetle): Arm Wrestling rematch?

Blue Beetle: Hope you're ready to lose again!

They got to arm wrestling and Rex Salazar won.

May: Rex Salazar wins!

Blue Beetle: Good job Rex.

Rex: Thanks Jaime.

Jack Skellington then appeared.

Me: Hey Jack.

Jack Skellington: You didn't think I would be left out of a Halloween Celebration, did you?

Me: It's actually a different holiday.

I revealed everything.

Jack: I see. That's a new one. But it can't hurt to celebrate it with my friends.

Me: Thanks Jack.

We got to celebrating.

Ronnie Anne: (To the viewers) This is a great holiday for us and everyone down in Mexico. Feliz día de los muertos dos mil diecinueve amigos.

Outside, Jack Spicer was watching us party from afar.

Spicer (smiles): Happy Day of the Dead, guys.

THE END

---

Another Fanfiction Complete and another holiday chapter done.

HAPPY DAY OF THE DEAD TO YOU ALL.

I got the idea for this one from the new episode of The Casagrande's that aired last month: Croaked. NicoChan11 gave me the ideas for this one. Thanks man. Let me know what you all think. I'm gonna take a break till Monday next week.

See you all next time.

# TLPS & Monsters VS Aliens

It starts in the estate. We were watching TV and reading books and most of us were playing card games. Aqua, Kairi, Namine and Xion came down and they were dressed in completely new clothes. Aqua had a Blue summer shirt, blue skirt, blue boots and a blue hair decoration in the shape of a water droplet. Kairi had a pink shirt with a prism beaming rainbow light and blue jeans and black shoes. Namine had a white tank top, white skirt and white sandals. And Xion had a Black tank top and purple pants with purple shoes.

Skywarp: Nice outfits, girls!

Kairi: Thanks. I figured that for today, me, Xion, Aqua, and Namine can dress up like ordinary girls.

Me: You girls look great.

Sora: You sure do.

Roxas: I'll say.

Qin: Yeah. J.D. I heard that you and Nico killed an evil psychotic version of Lex Luthor.

Me: We sure did. I blew his whole head off with a 50 caliber bullet. Here watch.

I pulled up the computer and showed Qin what happened in the simulation we did during the events of A Loud and Ed In The Bush.

---

In the simulator Me and Nico were doing an exercise and Lincoln and Linka, Vince and Carol were in the Control Room. The Simulator activated and we found ourselves in a prison hallway looking at a Lex Luthor that was ONE INSANE NUT! He was in a solitary confinement cell. He was being confronted by Batman.

Batman: Whatever you do, wherever you go, I will be watching you.

Lex: Oh, look at us. This is how it all caves in. Civilization on the Wayne Manor's out the window. But who would believe me I… I. I'm insane. I'm not even fit to stand trial.

Batman: That's right. We have hospitals who treat the mentally ill with compassion. (Lex Chuckles Nervously) But that's not where you're going. I've arranged for you to get a transfer to Arkham Asylum in Gotham. I still have some friends there and they're expecting you.

Lex: But the bells already been rung.

In the halls we were waiting and I was loading a huge 50 caliber pistol.

Me: (whispering) Boy this Luthor is one seriously fucked up piece of shit.

Nico: (Whispering) Tell me about it. What are you gonna do to him?

Me: I have a special bullet with his name on it. It explodes on contact.

I pull out a 50 caliber bullet and carved on one side of the shell was his name Lex Luthor and the other side was B.I.H. and it had the star of Satan on it.

Me: This bullet has his name on one side and the other has B.I.H.

Nico: What does that stand for?

Me: It means Burn In Hell.

Nico: Nice.

Lex: And they've heard it. Out in the dark among the stars. Ding dong, the God is dead.

Batman punched the wall and burned a bat shape hole into it.

We go up to him.

Lex: The Bell cannot be un rung! He's hungry and he's found us and HE'S COMING!

Me: You would like that would you Lex?

Lex: Who are you?

Nico: You're executioners. And has anyone ever told you that you talk like Edward Nygma - the Riddler?

Me: We've come to kill you Lex.

Lex was laughing. I had my gun pointed right at his head in between his eyes and a laser was on him.

Lex: You can't kill me. I'm insane.

Me: You're worse than that Lex. You're one seriously fucked up piece of motherfucking shit. People like you deserve only one place and that's in the darkness of Hell, burning for all eternity. In my opinion, Arkham is too good for you and Eternal Damnation is what you deserve. Give my regards to the Devil when you see him and say hi to all the bad guys we killed.

I pulled the Trigger.

LOUD BANG!

The bullet blew his whole head right off his body and killed him instantly. Splattering his brain matter and blood all over the walls. His headless body fell to the floor and blood poured out of him.

Me: Burn in Hell you psychopathic fucking son of a bitch.

I pick up the shell casing and we teleport out of there before the guards arrived and Nicole sealed him into the Book of Vile Darkness.

---

Qin: That version of Lex Luthor was a monster and an insane nut!

Me: He deserved it.

Nico: Yep.

Will Vandom then came.

Will Vandom: Hey guys. We're gonna head over to our old town Heatherfield. Want to come with us?

Me: Sure. Lets go guys.

We were off to Heatherfield, New York.

---

HEATHERFIELD, NEW YORK.

---

We were in the city of Heatherfield.

Me: So this is Heatherfield.

Warpath: So, this is Heatherfield, huh?

Will Vandom: Yep. Our old home town.

Elyon Brown: It was home sweet home.

Me: Until the dark forces of Phobos and Nerissa threatened to destroy everything.

Nico: I'm glad we killed them both.

Caleb: Amen to that.

?: Elyon!

Elyon: Alchemy!

Cornelia: Alchemy!

We saw a girl that Cornelia and Elyon both knew. It was their best friend Alchemy Ethel.

Alchemy Ethel (hugs Elyon): I'm so happy to see you again, Elyon!

Elyon: Me too Alchemy. We missed you.

Cornelia: Same here.

Elyon: We've been so busy saving the world.

Alchemy Ethel: Wow! (Sees us) Wow! The famous Team Loud Phoenix Storm!

Me: It's a pleasure to meet you Alchemy.

Megan: Same here.

Alchemy: Wow! I love all your adventures! They are so awesome! (Sees Mewtwo) Is that a real Mewtwo?!

Mewtwo: Why, yes, I am.

Alchemy: That's so cool!

Nico: We all have a lot of Pokemon.

Laney: It's true.

We later were touring their old school and we ran into Ms. Knickerbocker.

Knickerbocker: On behalf of this school, I'd like to apologize if Uriah Dunn and his friends hurt you in any way.

Danny: Don't worry, Miss Knickerbocker. They didn't get the chance.

Me: Now they're in prison for the rest of their lives. They got life without parole in one of our space prisons.

Nico: Yeah.

Qin: They deserved it.

We had Alchemy come with us.

---

Back at the estate, we were watching TV.

Qin: So how did the battle of Nerissa go down?

Me: That was one of the most epic battles ever.

I pulled up the battle on the computer and it showed what happened during the events of Guardian's Together, W.I.T.C.H. Forever.

---

Then a fiery explosion blasted a hole through the roof of the warehouse and Nerissa and the previous guardians shielded themselves and we came in.

Me: Now that's how you make an entrance.

Nerissa: So you all came.

Me: Nerissa. Last time we met you looked like a 200-year-old hag.

Nerissa: Yes but I shed 175 years.

Me: I see you also have Walter Shreeve A.K.A. Shriek with you.

Nerissa: Yes. You won't live long enough to see me take over this world.

She fired a blast of lightning and Shriek fired a blast of sound.

Nerissa and Shriek: SUPERSONIC LIGHTNING WAVE!

The blasts combined and turned into a deadly wave of supersonic lightning. I formed a force field and blocked the attack.

Shriek: (punches me) Little J.D.'s falling down. (punches me again) On the ground. (punches me again) Mind unsound. (punches me again) Little J.D.'s falling down (punches me again) I'm so happy!

He punched me and sent me crashing into the wall. But I got up and I had blood dripping from my mouth.

Me: Nice try. But it's gonna take a lot more than that to beat me you freak.

I wiped the blood off my face and stood ready.

Nerissa: Oh, please! Don't even try to teleport us to another planet. This time, you'll all battle on places that I've provided.

6 folds open up. Before I could snap his fingers, Nerissa tackles Will and Caleb through one fold, Cassidy tackles Irma through the second one, Halinor tackles Taranee through the third one, Kadma tackles Cornelia through the fourth one, "Yan Lin" tackles Hay Lin through the fifth one, and Shriek tackles Matt through the final one.

Me: Oh no you don't! You're mine Nerissa! Lets go!

We go into each of the 6 folds and the battle that will decide the fate of the entire universe had begun!

---

## BATTLE 1: CASSIDY

---

The fight with Cassidy was taking place in the Underworld. It was actually the very sight where they found Horror's Hand and killed Hydro Man there again.

Maria: This place is very familiar.

Cassidy: C'mon, Maria. Doesn't this place ring a bell?

Maria: This is the part of the Underworld where we found Horror's Hand. And we also killed Hydro Man here.

Cassidy: Very good. But don't try and resist your death. You had a good run. But it's time for your final minutes alive! (fires water at Maria)

Maria deflected the water and went at Cassidy and they clasped hands.

Maria: Cassidy don't you remember everything we did together? We had all kinds of fun swimming and enjoying all the fun activities in the water.

Cassidy: I do remember that, but Nerissa revealed that you were lying!

Maria: No Cassidy! That's a lie! Nerissa is using you! You are just a slave to her and a pawn with no free will. She is the true evil and you have to fight her control.

Cassidy regained some control.

Cassidy: Maria? (Groans as she clutches her head and fights to regain control of her body) You have to help me Maria! I can't fight Nerissa's spell!

Maria: Yes you can Cassidy! You need a major push. Lets help her with our combos guys!

Irma: You got it!

Lily fired a blast of glowing water and Girl Jordan fired a dragon of pure water.

Lily and Girl Jordan: PHOSPHORUS DRAGON STRIKE!

Maria: One more combo should do it. Lets go Bai Tza!

Bai Tza: You got it Maria.

Maria fired a blast of water and Bai Tza fired a blast of water.

Maria and Bai Tza: WATER DRAGON SEVERANCE!

The blasts turned into a water dragon and it saw Nerissa controlling Cassidy and it fired a blast of fire at Nerissa and burned her control and severed the strings that bind her.

Cassidy was freed from Nerissa's evil grasp! All the techniques dissolved.

Cassidy was on the ground and she was wet but she was free from Nerissa.

Maria: Cassidy!

Maria got up to her.

Maria: Are you okay?

Cassidy hugged Maria and she cried hard.

Cassidy: (Crying hard) Maria! I'm so sorry! Nerissa made me…

Maria: I know Cassidy. I know. But J.D. is gonna kill her and make sure that she pays for everything she did to our worlds.

Cassidy: (Sniffles) Really?

Lana: We promise Cassidy.

Sydney: We won't let Nerissa get away with everything she has done.

Musa: She will pay dearly for her crimes.

Heidi: That's right. Grandpa will make sure she does.

Varie: That's right Heidi.

Bai Tza: Lets go help him out.

Cassidy had a look of revenge on her face.

Cassidy: That witch will pay for this!

Maria: And she will. Lets go guys.

They went through a portal and set out to help take down Nerissa.

---

## Battle 2: HALINOR

---

The battle with Halinor was on the island of San Baquero and it was rebuilt after the eruption that completely destroyed the whole island. Wiping it off the map.

Halinor: Surely, you must remember this place, Lea.

Lea: This is San Baquero. And it's also where Pyro blew himself up!

Halinor: Exactly. It's amazing how you've rebuilt this island after its' destruction. Too bad you won't be rebuilt once you're dead! (throws fireball at Lea)

Lea blocked it and Lola fired a blast of fire at Halinor. She blocked it and Lola fired a dragon of fire. Halinor was flying and the dragon chased her all over the island.

Lola: Halinor you have to listen to me! Nerissa is using you as a pawn in her diabolical plans to destroy the entire universe! You have to realize that!

Halinor: I only live to serve mistress Nerissa.

Lea: You're being used Halinor! You're a slave with no free will!

Halinor: So be it then.

Lea: We have to use our combos on her guys!

Stewie: You got it Lea.

Lola: Lets get her!

Lola and Pam fired blasts of fire.

Lola and Pam: FIRE PHOENIX ENSNAREMENT!

The blasts of fire combined and turned into a phoenix and it grabbed Halinor in its fiery talons.

Fire and Volcana: PYRO CHAIN RESTRAINT!

The Blasts of fire turned into a bunch of chains made of pure fire and they restrained Halinor.

?: Let me help out too.

In came Angelica Jones A.K.A. Firestar.

Lola: Angelica Jones A.K.A. Firestar. It's an honor to meet you.

Firestar: You too Lola. The Avengers told me a lot about you. Sasuke lets take her on.

Sasuke: You got it.

He went through hand signs.

Sasuke: FIRE STYLE: DRAGON FLAME JUTSU!

Sasuke fired a fireball that turned into a dragon and Firestar fired a blast of fire.

Sasuke and Firestar: FIRE DRAGON FIREBALL!

The blasts turned into a fireball with a dragons head and it hit Halinor and exploded.

When the smoke cleared Halinor was grabbing her head and trying to fight Nerissa's control.

Lea:: Three more attacks and that should do it.

Taranee: You got it!

Taranee fired a blast of fire.

Tecna: (British Accent) Prismatic Ray!

Tecna fired a rainbow ray.

Lea: Halinor are you okay?

Halinor broke down crying and she saw one of Stewie's blasters and she grabbed it! Star Lord was fighting her to stop her. He took the gun away from her.

Star Lord (to Halinor): WHAT THE FUCK WERE YOU TRYING TO DO JUST NOW?!

Halinor (crying): I DON'T DESERVE TO LIVE ANYMORE! I SHOULD'VE RESISTED NERISSA'S CONTROL! IF I HAD, HAY LIN WOULDN'T HAVE BEEN TRAUMATIZED BY NERISSA!

Lola slapped Halinor in the face.

Lola: Get ahold of yourself woman!

Spiderman: Halinor, I witnessed Doctor Octopus commit suicide in front of me. I'll be damned if I see you do the same thing!

Lola: He's right Halinor. This is all Nerissa's fault! Right now J.D. Knudson and our friends and siblings are fighting her and they are gonna make sure she pays for everything she has done.

Lea: She's right Halinor. Nerissa will pay for everything she has done to the universe and we'll make sure that she does. You still have a chance to set things right and help us take down Nerissa once and for all. So don't throw away everything you were given because of Nerissa. She will pay.

Halinor then hugged Lea and she was crying hard.

Lea was comforting her.

Lea: It's all right Halinor. Let it all out.

After 10 minutes they went to help fight Nerissa.

## Battle 3: YAN LIN

The battle with Yan Lin was on an island they know all too well: Angry Birds Island.

"Yan Lin": You should be familiar with this island, Arpeggio.

Arpeggio: I am. It's the island of the Angry Birds. Here, I helped them take down Leonard the Pig King.

"Yan Lin": You can have those birds help you if you want. Either way, I'll emerge victorious! (hurls whirlwind at Arpeggio)

Laney: We shall see!

They went at her and Arpeggio dodged the whirlwind. Hay Lin fired a tornado at her grandmother and it blew her back but she got up and they clasped hands.

Hay Lin: Grandma you have to realize that Nerissa is controlling you! She is using you as a slave in her plots to destroy the universe!

"Yan Lin": I only serve Mistress Nerissa.

Hay Lin: No you don't Grandma! She's using you and she took away your free will! You have to fight her! I know you would never resort to working for a monster like Nerissa! You have to fight her!

"Yan Lin": (Regains control) Hay Lin? (Groans and clutches her head as she is struggling to regain control) You have to help me!

Laney: We will! Come on guys!

Laney tied up "Yan Lin" with her vines and made sure she couldn't move. She then ululated and the Angry Birds arrived.

Red: Laney Loud. It's great to see you again.

Laney: You too Red. It's great to see all of you again. The whole planet is in grave danger. This rogue guardian named Nerissa is out to kill us all and she is controlling Hay Lin's grandmother here. We need your help to help us break her out of her control.

Bomb: Uh oh. This woman sounds very dangerous.

Stella (AB): Sounds like it.

Chuck: You got it Lanes.

Blue brothers: Lets get her guys!

They cheered and the birds went at "Yan Lin" with teamwork.

"Yan Lin" was freed and she was untied. The real Yan Lin flew out of Nerissa's staff and went into the second Yan Lin. She was now 50 years younger. She was now young again thanks to them freeing her from not only Nerissa's control but also from Nerissa's scepter.

Hay Lin: Grandma? Are you all right?

Yan Lin: Yes I am Hay Lin. I'm back to normal.

They hugged again.

Yan Lin: Thank you all so much for freeing me.

Lori: You're welcome Yan Lin.

Flora: We have to stop Nerissa at all costs.

Hay Lin: And we will.

Linka: Come on guys!

Laney: Lets head over there!

They went over to the fight Nerissa.

---

## Battle 4: Kadma

---

The fight with Kadma was on the docks of Gotham Wharf.

Kadma: Doesn't this place look familiar, Venom?

Venom: It should be. This is Gotham Wharf. It's where J.D., Batman, and the others defeated Bane.

Megan: Good thing there's no one else here.

Kadma: Yan Lin gave you a choice, Megan. But you chose wrong. (notices her Guardian attire) It seems you've become a Guardian as well. That's fine by me. I wasn't looking forward to fighting your Dark Samus Suit anyway! (summons vines to attack Megan and Venom)

Tara lifted a huge rock wall and blocked the vines.

Beast Boy turned into a hummingbird and flew to Kadma and then he turned into a snake and wrapped around her.

Cornelia went up to her and talked to her.

Cornelia: Kadma you have to stop serving Nerissa. She's using you as a pawn in her diabolical plot to destroy the universe!

Kadma: I only serve Mistress Nerissa.

Lincoln: No you don't Kadma! She's using you and you would never serve an evil monster like Nerissa! You have to fight her control and come back to us!

Kadma regained some control and then she was clutching her head as she was trying to regain control.

Kadma: Guys you have to help me!

Lincoln: And we will! Lets get her guys!

Tara: Combo time!

Beast Boy: You got it!

Tara entombed Kadma in a rock and she fired numerous rock shards.

Beast Boy turned into a Stegosaurus.

Tara and Beast Boy: EARTH CHARGE STEGO!

The rock shards encased Beast Boy in a ball as he rolled into a ball and he turned into a rolling boulder. He crashed into Kadma with awesome power.

CRASH!

Luan: Lets light up the site with our combo Talia? (Laughs) Get it? But seriously lets use our combo Talia, Lensay.

Lensay: You know it Mama.

Talia: Always up for it Luan.

Luan and Lensay fired blasts of red and pink light and Talia fired a curtain of Aurora.

Luan, Lensay and Talia: LIGHT AURORA ENTANGLE!

The blasts combined and turned into a shining curtain of light and wrapped around Kadma.

Poison Ivy: Lets get her Venom.

Venom: We hear ya Pamela.

Poison Ivy called a bunch of Venus Fly Traps and Venom fired black webbing.

Poison Ivy and Venom: VENOMOUS VENUS SPIDER!

The Venus Fly Trap turned into a vicious black widow spider and it tied down Kadma with its webbing.

Cornelia: Hang on Kadma, we're almost through to you!

Cornelia formed numerous vines and sent them all at her.

Stella: RISING SUN!

Stella fired a blast of light from her hand.

Cornelia and Stella: NATURE'S SHINING DRAGON!

Cornelia: You were under the control of Nerissa.

Kadma: I'll make that witch pay for this!

Lincoln: And we will. J.D. is facing her now.

Earth: We have to get over there.

Cornelia: Come on!

They went to join the fight.

---

## Battle 5: Shriek

---

The fight with Shriek was right in the middle of Gotham Royal York.

Matt/Shagon: So this is Gotham Royal York, huh?

Terry: It is. (to Shriek) Shriek, you maniac! This fight is going to get innocent people hurt! Don't you care about that?!

Shriek: Of course not! They never cared about me! (to Sandman) You helped defeat a Revenge Squad member here, Sandman. Care to guess which one? I'll give you a hint: it's not one of your fellow Sinister Six members.

Sandman: It's Shiv, isn't it?

Shriek: Bingo! Now, enough talking. I haven't fought your pointy eared friend in a while. (fires Sound Blast at Terry)

In the Dakota City Prison Shiv was having lunch in his cell when he sneezed.

Shiv: Someone must be talking about me.

Shocker appeared and absorbed the sonic blasts. It was making him stronger.

Nico: You will pay for hurting my friend J.D.

Shriek: He deserves to die for everything he is.

Nico: You don't know what you are saying you freak. Now it's time for me to show you my newest transformation. I found a new transformation when I was training.

He flared up his Super Saiyan Aura and in a massive tornado he was forever changed. When the dust cleared Nico now had a well muscled body with red fur covering it, his hair was longer, his eyes were now orange and he had red lines under them, he had an orange sleeveless battle shirt and his Saiyan Monkey tail was out and it was red. He was now a SUPER SAIYAN 4!

Naruto: Wow! Look at Nico!

Nancy: He looks incredible!

May was so infatuated with Nico's new transformation that she had blood dripping from her nose.

Naruto: Wow! The level of power I'm sensing off of him is completely unreal! It's far more powerful than that of Super Saiyan 3.

Nico: (Deeper Voice) That's because this is my newest transformation bro. This is what I call Super Saiyan 4.

Naruto: Super Saiyan 4!? Incredible!

Stephanie: It's unbelievable!

Terry: No kidding.

Matt/Shagon: It sure is. I didn't know you had so much power Nico.

Nico: Well Shriek is gonna have a hard time dealing with me.

Nico looked at Shriek with incredible hate.

Nico: Shriek I will never forgive you for any of your crimes.

Shriek: I wouldn't be caught dead asking for your forgiveness you wretched monkey!

Shriek went at Nico and he dodged all his attacks and Nico teleported and Shriek fired a blast of sound and when it hit him it didn't even phase him let alone scratch him. Shriek punched Nico and much to his shock his Super Saiyan 4 body made his left arm completely shatter into a million pieces.

Shriek: (In shock) What the!?

Nico: (Chuckles) I'm quite surprised myself. Surprised at how strong I have become.

Shriek: What do you mean?

Nico: Your punches and attacks only tickled like a tiny feather.

Shriek fired another sound blast at Nico at maximum power and it hit him and he was in a cloud of dust. But when the dust cleared Nico was still standing and the blasts didn't even make him flinch.

Shriek: That blast should've turned him into dust and it did absolutely nothing!

Nico: Shriek you can never defeat me. My powers have grown far beyond yours you powerless human and you know it.

Shriek: DIE YOU FOOL!

He continued to fire sound blasts at Nico but all he was doing was just amusing him.

Nico: Listen to me Shriek, I can't allow you to get away with all the trouble you caused to innocent people. You've gone too far. Now you got to deal with me and my friends.

Nico flared up his aura to an incredible level and he flew at Shriek with incredible speed and punched him in the stomach and punched him in the face and kneed him in the stomach.

Nico formed his fingers into a sign.

Nico: WHIRLWIND SPIN!

He formed his fingers away and a powerful razor-wind tornado formed and the wind cut Shriek's armor all off. All that was left of him was his helmet on his head.

Nico: Lets get him with our combos guys.

May: You got it Nico!

Nancy: Lets get him guys!

Nancy, Stephanie, Ruby and Mariah turned into their wereshark forms and Naruto formed a powerful ball of water.

Wereshark Girls and Naruto: FIVE FEEDING SHARKS!

Naruto and the Wereshark Girls turned into sharks made of pure water and they bit Shriek and he screamed in pain.

Shocker fired a blast of lightning and Sandman fired a blast of sand.

Sandman and Shocker: FULGURITE ELECTROCUTION!

The sand hardened into a crystal and lightning flowed through it and it pinned Shriek to a nearby building.

Matt/Shagon fired a laser blast from his eyes and Roxy fired a stream of animal pawprints.

Matt/Shagon and Roxy: CALL OF NATURES HATRED!

The blasts combined and turned into a pack of voracious and ravenous wolves and they mauled Shriek.

Layla: MORPHIX BOLT!

Layla fired a blue sparkling energy blast and Terry fired numerous Batarangs.

Layla and Terry: OCEANS BAT STRIKE!

The batarangs turned into bats made of pure water and they hit Shriek and pulverized him with the force of a Megatsunami.

May: Let me use my Final Smash on him.

Nico: Go for it May.

May: ICEFIRE SNOWFLAKE LASER!

May formed a giant snowflake and she fired a huge blast of ice fire at Shriek and completely encapsulated him in pure ice.

Nico: Nice job May.

Jean Grey appeared and she had the Phoenix Force on.

Jean Grey: Let us help too.

Nico: Go for it Jean.

Jean Grey: PHOENIX WING FIREBALL SHOWER!

Jean Grey spread her Phoenix Force Wings and fired numerous fireballs from them and they not only melted the ice but also burned him really badly.

Nico: Now lets see how you like this. May lets use our combo on him.

May: Right Nico.

May fired a blast of Ice Fire and Nico formed a fireball in his hands the size of a soccer ball.

Nico: NUOVA STAR!

Nico threw the fireball.

Nico and May: COLD FIRE PRISON!

The blasts combined and turned into a blue fireball made of burning cold fire and it hit Shriek and froze him in a block of ice and everything but his head was completely frozen.

Nico: You're looking at spending the rest of your miserable life in one of our most dangerous maximum security prisons for your crimes. But that would be too good for you.

Shriek was sent to our newest prison. It was called the Planet Nine prison for Terrorists and he was placed in the Supermax Terrorist wing. This zone of the Planet Nine prison was reserved for the most dangerous of criminals that have terrorized the world. We would've killed him but because he is deaf that would be completely barbaric.

Nico: Lets head over to J.D. guys. It's time take down Nerissa once and for all.

They did so.

---

## Battle 6: Nerissa.

---

We were all the way over in Greece.

Nerissa: Look around, Killer Frost. Know where we are?

Killer Frost: I remember what happened here. Greece is Hercules' turf. We also killed Vexen here!

Nerissa: Of course you did. Now it's your turn to be killed! (fires lightning at her)

I appeared and deflected the lightning.

Me: No Nerissa. Your fight is with me. I vowed to face you when we first met remember?

Nerissa: Very well.

Me: Now it's time to pay Nerissa. You are going to face up to your crimes. Time for me to unleash my full power.

Killer Frost: So the beast is about to be unleashed.

Me: That's right. This is a very rare occurrence for me. This is the absolute pinnacle of my power and Nerissa will be the first person to face it.

(Goku's Super Saiyan theme plays)

I go Super Angel 10,000 and flare up my power and my aura was getting more powerful. The earth was shaking extremely violently and red lightning and blue lightning mixed in my aura and rocks lifted up into the air. The skies darkened with storm clouds and lightning was striking everywhere. Tornadoes of water were sucked up into the sky from the Mediterranean. It was getting extremely intense as my power was rising rapidly at an accelerated rate. Then I released the full extent of my power.

When it faded my power was stronger than ever before and lightning was striking all over my aura.

Me: There. Now this is my full power. Ready Nerissa?

Nerissa: Lets dance.

I teleport and punch her in the stomach and she flew away and fired a blast of lightning and we went at eachother and we were exchanging blows at a rapid pace and it was getting powerful. Nerissa fired a blast of lightning and I dodged it and I fired a blue energy wave and she dodged it and fired a powerful blast of lightning and I deflected it and fired a powerful red energy blast and she dodged it. We were really going at it and our battle was shaking the very foundation of the entire planet to the core. We stopped and we were facing each other.

Me: I don't understand you Nerissa. You were a Guardian of Candrakar and you did so many good deeds for both worlds. You became consumed with powerlust and became a heartless monster bent on conquering the universe. Why did this happen?

Nerissa: Because they took my power away from me!

Me: Your mind was considered too weak for the Heart and you will never get its power ever again.

Nerissa: (Growls) Just for that one I will blow you to pieces!

Me: I would like to see you try. I vowed to make you pay for causing problems to both of our worlds!

I flared up my power to an incredible degree.

Me: NOW DDDDIIIIIIIIIIIIIIIIIIIIIIIIIIIIIIEEEEEEEEEEEEEEEEEEEEEEE!

My aura flared up to an incredible level and the skies had lightning strike everywhere at a rapid level.

Me and Nerissa went at each other again and it was a powerful fight that not only shook the entire planet to the core, but it also shook the very fabric of the entire universe to the very brink. On planets all over the universe people were sensing the sheer viciousness and ferocity of our battle.

I fired 4 more energy blasts at her as she was flying and she stopped 2 of the blasts with her feet and the other two with her hands and she was struggling to hold them back. I fired another blast and she saw it coming and I flew up to her as the blasts hit and exploded. In the cloud of smoke I punched her and then we clasped hands and we flared up our auras. Mine was yellow and Nerissa's was pitch black. Our hands were locked together and our auras mixed and lightning clashed and formed in them. The storm clouds above us intensified and lightning struck at an incredible level at 400 bolts every half a second and the ground was shaking violently at an incredible level. Suddenly from out of no where an energy blast hit Nerissa in the back and exploded and I head butt her and kick her in the stomach and send her crashing into the ground.

CRASH!

I land by her as she got up and I saw everyone arrive.

Me: You all came. Good. I've had my fun with her.

Nerissa saw that her slaves in a sense have been freed.

Nerissa: Impossible! How did you get set free!?

Irma: That's none of your business Nerissa!

Will: Now you will pay for everything you've done!

Me: She sure will and Nico wow! Your power is unbelievable!

Nico: I call this form Super Saiyan 4.

Me: It's incredible man. And it looks awesome on you. Lets take down this monster together everyone.

Everyone: YEAH!

Goku: Lets get her guys!

Goku, Vegeta, Gohan and Trunks went Super Saiyan.

Piccolo went Super Namek.

We all went at Nerissa and hit her with everything we had at her.

Piccolo: Special Beam Cannon!

Piccolo fired an orange and purple energy beam and Nerissa dodged it and went at him. Tien appeared in front of her and placed his hands on the edges of his eyes.

Tien: SOLAR FLARE!

Tien released a blinding flash of white light that was brighter than 100 suns and it blinded Nerissa temporarily.

Nerissa: MY EYES!

Tien held his hands in a triangle shape.

Tien: TRI-BEAM! HA!

He fired a yellow energy blast at Nerissa and it hit her and exploded.

KRABBOOOOOOOOMMMMM!

Nerissa was sent flying and she stopped.

Superman fired a laser vision blast and burned her leg and he punched her in the face.

Superman: Lets use our combo on her Goku!

Goku: You got it. (Cups hands to Side) KAAAA! MEEE! HAAA! MEEE! HAAAAAAAAAAA!

Goku fired a Kamehameha Wave and Superman fired his laser vision.

Goku and Superman: LASER PRISM KAMEHAMEHA!

The laser vision caused the Kamehameha Wave to split into the 7 colors of the rainbow. One blast for each color and they hit Nerissa and exploded and sent her crashing into the ground.

CRASH!

Will: I will never forgive you for everything you've done Nerissa!

Will fired a blast of lightning and electrocuted her.

Yamcha formed a Spirit Ball.

Yamcha: Spirit Ball!

He threw an energy ball. Nerissa got up and it hit her in multiple places at his command and it hit her in the back and exploded with incredible power.

KRABBBOOOOOOOOOOOOOOOOOOOMMMMMM!

Chiaotzu: DODON RAY!

Chiaotzu fired a yellow Dodon Ray and it hit Nerissa and exploded.

KRABOOOOOMMM!

Will: Let use our combo on them Bloom!

Bloom: You got it Will. DRAGON FIRE!

She fired a fire blast and it turned into a Dragon made of pure fire.

Will fired a blast of lightning.

Will and Bloom: DRAGON HALO FIRESTORM!

The dragon fire and lightning formed into a halo of pure fire with lightning coming out of it. It hit Nerissa and exploded.

Rachel: SONIC BLAST!

Star B.: NARWHAL BLAST!

Rachel fired a sound blast and it hit Nerissa and she dropped her staff. Star fired a blast of Narwhals and they hit Nerissa and knocked the wind out of her. Marco fired a blast of fire and burned her in the leg.

Vegeta: FINAL SHINE ATTACK!

Vegeta fired a green energy blast from his hand and it hit Nerissa and exploded with incredible power.

KRABBOOOOOOOOOOOOOOOOOOOOOOOOOMMMMMM!

Nerissa was sent flying but she stopped.

Me: Wow! What power! Will, Taranee lets use our combo on her!

Taranee: You got it J.D.

I charged up an Electro Eclipse Bomb.

Me: ELECTRO ECLIPSE BOMB!

I fired a black energy ball with red lightning around it.

Taranee and Will fired fire and lightning.

Me, Taranee and Will: SOLAR ECLIPSE DEATH BOMB!

Our techniques combined and the energy ball turned into a black flaming sun and it hit Nerissa and exploded with incredible power.

KRABBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

The explosion was so powerful and so devastating that it shook the area.

When the smoke cleared Nerissa got up and she was on her last legs.

Me: She is a very formidable adversary, I will give her that.

Flora: She sure is.

Cassidy had Nerissa's staff.

Cassidy: I got her staff. Now lets free Elyon.

She freed Elyon from the staff.

Elyon: Thank you so much Cassidy.

Cassidy: You're welcome Elyon.

Cornelia: Elyon!

They hugged again.

Nerissa looked at Will and she had a look that made it look like she was begging for mercy. But we weren't fooled one bit.

Maria: You know, for a moment, you had me fooled. Until you looked at Will. (Nerissa's face twitched in anger) And there it is again. The anger and jealousy in your eyes. You're good. I'll give you that. For a moment, I really believed that you could be saved. That we could reach you. But you're just like Ebon was. A manipulator. A liar. A murderer. A psychopath. (Nerissa narrows her eyes at her) You sell that "frightened girl" act well, I must admit but I see right through you. We were never gonna reach you, were we?

Me: No we weren't.

Rachel kicked Nerissa in the face and fired a sound blast at her.

Starfire fired numerous starbolts at Nerissa and they exploded when they hit.

Rachel: Lets use our combo Starfire.

Starfire: This is gonna be fun!

Rachel: SONIC BLAST!

Rachel fired a blast of sound and Starfire fired laser vision and starbolts.

Rachel and Starfire: SONIC STAR LASER!

The blasts combined and turned into a sonic laser and it hit Nerissa and burned her in her leg.

Then we got help from Captain Atom. He fired an energy blast at Nerissa. It exploded when it hit her.

Me: Nathaniel Adams A.K.A. Captain Atom. It's an honor to meet you.

Captain Atom: You too J.D. We got word that you all might need some help.

Me: We need all the help we can get since Nerissa is a deadly adversary.

Red Tornado then appeared and he spun Nerissa around in a powerful tornado blast.

Me: Red Tornado. It's an honor.

Red Tornado: You too J.D.

We saw the entirety of the Justice League ready to fight. They launched a massive full scale assault on her with a variety of powers and abilities. They were hitting Nerissa with everything they got at her.

Then we got an unexpected surprise. It was Raven's TTG counterpart turned into the DEMON OF AZARATH!

Raven: You're my counterpart turned evil. And you are nothing more than a major idiot.

Demon of Azarath: There was nothing wrong with just goofing off now and then! Sure, we might have been incompetent heroes but at least we fought crime now and then. But you couldn't handle that, could you?!

Raven: Let me give you a reality check, "Me"! You were never a hero. You're rude, you beat people up for every stupid little thing, you ruin everyone's fun for no reason, you insult people and put them down, you make jokes at the expense of others, you whine whenever you don't get your way, and you became obsessed with colorful talking ponies a bit too much. That last part actually isn't bad but to you, it's an addiction!

Dr. Strange: Lets destroy her with our combo Raven.

Raven: You got it.

Raven fired a blast of dark energy and Dr. Strange fired a blast of magic.

Raven and Dr. Strange: CELESTIAL MAGIC FIRE!

The blasts combined and turned into a blast of purple fire and it hit the Demon of Azarath and completely obliterated her.

I slashed at Nerissa with my sword and cut her face.

Caleb: Lets use our combo on her J.D.

Me: You got it Caleb.

We went at Nerissa and we had our swords ready.

Caleb: This is what you get mother!

I gasped in shock but focused on the combo.

Me and Caleb: THOUSAND SWORD SLASH!

We slashed Nerissa with 1000 slashes.

She was down and bleeding profusely.

Rhino charged and Killer Frost fired a blast of ice.

Rhino and Killer Frost: FROZEN RHINOCEROS STAMPEDE!

The ice covered Rhino and turned him into a rhinoceros of pure ice.

He rammed Nerissa and sent her rolling.

Me: Caleb, I didn't know that Nerissa is your own mother!

Caleb: I was shocked myself but I realized that being the son of a heartless monster would not look good on my reputation.

Me: Good thinking Caleb.

As the fight with Nerissa was raging on something evil was brewing in the dungeons of the Meridian castle. The Green Goblin came into the dungeon.

Vathek: Halt! Who goes there?!

Green Goblin (throws pumpkin bombs at him and the other guards): Don't mind us! We're just passing by!

The bombs exploded and knocked the guards unconscious.

A man came and it was LOKI - THE GOD OF MISCHIEF!

Loki: (British Accent) Everyone out on bad behavior! (uses his magic on the bars, destroying them)

Loki just used his sceptor to free Phobos and his minions.

Phobos: I assume that we have you to thank for freeing us.

Loki: Of course you do. I am Loki, the God of Mischief.

Green Goblin: And I am Norman Osborn, the Green Goblin!

Cedric: We don't care who you two are. As long as you get us out of here!

Loki: Very well. Our leader would like to speak to all of you anyway. (teleports them all out)

Back in the battle Elyon was in deep thought.

Gwen (Total Drama): You ok, Elyon?

Elyon: Well, I'm still thinking about what led to me being imprisoned in that staff. I have all these powers but they were weaker compared to Nerissa's. That was how she managed to capture me. And now, I find out that two of your enemies broke out my brother and his forces. Right now, I'm been wondering what my place on the team is. If [chuckles] I even have a place, you know?

Lightning: So, you feel like an outsider, right? (Elyon nods)

Duncan: Being an outsider is a good thing. No, scratch that. It's a great thing. I've been an outsider my whole life. The best part is that you get to tell people to go shove it.

Elyon chuckled and then she was enveloped in a sphere of yellow light. When it faded she was now in Guardian Attire.

Elyon: I'm a Guardian now!

Cornelia: Elyon this is incredible! I think you have the powers of Time.

Elyon: I know I do. Now it's time to stop Nerissa.

I punched Nerissa into ground and Krillin formed an energy disk.

Krillin: DESTRUCTO DISK!

He threw the disk and it slashed Nerissa in the face.

Me: It's over Nerissa. You're finished!

I flared up my aura.

Nerrisa got up and she was building up her power to incredible levels and she was incredibly enraged.

Nerissa: IF I CAN'T HAVE THIS FUCKING PLANET, THEN NO ONE CAN!

Me: You will pay for everything Nerissa! (Cups hands to Side) SOLAR KAAAA! MEEEE! HAAAA! MEEEE!

Nerissa: NOW YOU ALL DIE! QUINTESSENCE!

She fires a massive stream of pitch black energy from her hands and I fired a massive Red Solar Kamehameha blast.

Me: HAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAA!

I fired a massive red Kamehameha Wave of incredible power.

Krillin sensed the incredible amount of power coming from the blasts.

Krillin: That's way too big! Lets go!

Everyone flew away from the blast area. The blasts collided and a massive power struggle began. Once everyone got to a safe distance they saw the struggle that was taking place.

Krillin: They're gonna change the shape of the whole planet!

Piccolo: Nerissa!

Varie: What power! Come on guys! Lets help J.D. out!

Goku: Right!

Everyone went to distract Nerissa so I can finish her off once and for all.

(DBZ Calling The Dragon theme plays)

They landed on different sides.

Piccolo: SPECIAL BEAM CANNON!

He fired his Special Beam Cannon and it hit Nerissa in the back.

Tien: TRI-BEAM!

He fired a yellow energy blast and the rest of the Z Fighters fired energy blasts.

Sailor Soldiers: PLANET ETERNAL POWER!

The Sailor Soldiers combined their power and fired a massive white energy blast.

Nico fired a powerful blast of fire energy and it hit Nerissa. The blasts hit Nerissa and it provided some form of distraction.

Me: I've got to reach deeper! (Intensifies blast) HAAAAAAAAAAAAAAAAAA!

Nerissa was being pushed back and she intensified her blast.

Me: I'VE HAD ENOUGH OF YOU NERISSA!

Nerissa: You're all so anxious to die aren't you? Well all you had to do was ask!

She fired a blast of energy wind and blew them all away.

Me: I HATE YOU NERISSA! (INTENSIFIES BLAST) HAAAAAAAAAAAAAAAAA!

Nerissa intensified her blast. Lightning struck all over the area from the blast.

Everyone fired back at Nerissa!

Nerissa: WHY CAN'T YOU PEOPLE JUST STAY DOWN!?

She fired more energy wind and blew them away again.

But they kept getting up and fired more blasts.

Nerissa: They just keep lining up to die!

They fired more blasts at her.

Nerissa fired more wind.

Nerissa: NO CHANCE! YOU HAVE NO CHANCE!

She intensified the energy wind even more and blew them away.

Will: We have to combine all our Guardian Powers on Nerissa.

Vegeta we have to help J.D.!

Vegeta: You know it Will!

They flew above Nerissa and Vegeta charged up his blast.

King Kai felt the enormous power of our blasts and something was gonna happen!

King Kai: OH NO! THE EARTH IS GONNA BLOW!

The power of our blasts was so strong and powerful that it was threatening to tear the entire planet apart!

The ground was shaking apart and earthquakes were going on all over the place!

Lincoln: The Planet is gonna explode!

The parents of the Guardians were rooting us on.

Susan: YOU CAN'T TAKE MY WILHELMINA AWAY FROM ME! SHE'S MY BABY AND NO ONE CAN TAKE HER AWAY! (CRYING)

Tom: Right! J.D. Won't let that happen because he is unbeatable! He won't let our babies be taken away!

Elizabeth: Right! YOU CAN'T TAKE HER BECAUSE J.D. WON'T LET HER! HE CAN'T BE BEATEN!

The effects of our battle were being felt around the whole planet.

Lillian: Come on J.D.! Save the planet!

Goku: (To me telepathically) Release it J.D.! Release everything! Remember all the pain she has caused, the people she has hurt, now make that your power!

Me: I will Master Goku!

Vegeta: FINAL FLASH!

He fired his energy blast and the Guardians fired their blasts.

Vegeta and the Guardians: ELEMENTAL FINAL DESTROYER!

The blasts combined and hit Nerissa. It exploded and it provided a distraction. She saw them and it was the moment I was waiting for.

Goku: NOW'S YOUR CHANCE!

Me: GO TO HELL NERISSA! HAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAAA!

I intensified the blast to an incredible level of power and it overtook Nerissa's blast and destroyed it. The blast was so powerful and so devastating that it was more than enough.

(Death of Frieza, Cell and Buu theme plays)

Nerissa was being destroyed because of it.

Nerissa: I AM INVINCIBLE!

Nerissa was completely obliterated by the sheer power of the blast in an instant and there was nothing left of her. The blast went out into space and it dissipated harmlessly.

I powered down and I wasn't even in the least bit exhausted.

Me: It's finally over.

Piccolo: (Gasps) He did it. Nerissa's energy has completely vanished!

Will: At last. It's finally over!

Krillin: But you mean we're really safe again?

Tien: Yeah bud. It looks like it.

Yamcha: Oh man. Its been a few years since the last time I heard someone say that.

But then Nerissa's spirit appeared.

Nerissa (now a spirit): Now I know how Cassidy felt. At least things can't get any worse for me.

Nicole (takes out the Book of Vile Darkness): Oh, yes they can!

Nerissa: Me and my big mouth.

Nicole: (Chants an Incantation) ALDURON ENLENTHRANEL VOSOLUN LIRUS-NOR!

Nerissa was sucked into the Book of Vile Darkness and she was sealed into it for all eternity.

Me: Enjoy Hell, Nerissa.

Caleb: Goodbye "Mother".

Everyone all over the world cheered wildly for us and they all cheered for me.

Me: The war is finally over. Nerissa is dead and she is in the Book of Vile Darkness where she belongs for all eternity.

Nico: You said it man.

Me: I couldn't have done it without all of you.

Goku: I'm so proud of you J.D.

Me: Thanks Master Goku. We all worked together and took Nerissa down for good.

(Ending song of Long Distance Good-Bye from Armageddon plays)

I was standing on a cliff looking over the entirety of the Mediterranean Sea and people all over the planet were cheering wildly. The world and the entire universe had been saved from Nerissa's evil ways. The wind blew my hair around as I had my wings spread. It wasn't just the people of Earth cheering for us. People on countless planets all over the Galaxy were cheering as well.

I gave everyone the victory fingers.

Qin: Wow! That was awesome!

Alchemy: That was an epic battle!

Nico: One of the most powerful battles we've ever had.

Goku: But it was incredible.

Vegeta: It sure was Kakarot.

Me: But the power of that battle threatened to rip the entire planet apart.

May: It sure did.

Then a news report came on.

News Announcer: We interrupt our regularly scheduled program to bring you this special report.

News Reporter: A massive flying saucer is over a small town and it has a massive army of robots ready for battle.

Ginormica: That's my home town!

B.O.B.: Anybody else getting a sense of deja vu?

Missing Link: I sure am.

Dr. Cockroach: This is gonna be just like what happened when we became a team.

Me: Wow. I remember that. And that ship belongs to Gallaxhar.

Qin: Who is Gallaxhar?

Me: He's the leader of the aliens that Susan and her friends beat the first time.

I pulled up his history.

In the past, Gallaxhar destroyed his home planet for seemingly no reason and escaped on his ship, putting himself into cryogenic sleep. He is awoken from his cryogenic sleep when his computer detects Quantonium on Earth, Gallaxhar then sends a Robot Probe to extract and bring it to him.

When the monsters defeat his probe, he almost sends another probe, but his computer tells him that the "carbon-based life-form" (Ginormica) is now too strong, and so that the Quantonium cannot be retrieved by a Robot.

He comes to Earth and sends a message to the citizens of Earth, then captures Ginormica, and in the process blasts Insectosaurus with his ship's phasoid cannon.

When Ginormica is on board the ship, she frees herself and Gallaxhar flees to his Extraction Chamber where he successfully gets the Quantonium out of Ginormica. He then uses the Quantonium to clone himself four times, this being enough to create an evil clone army of himself.

After Dr. Cockroach destroys his computer by stepping on the color buttons in the correct order while dancing, the self-destruct system sounds. He attempts to escape, but once again is forced into combat with Ginormica. She then gets her Quantonium back and escapes on Insectosaurus (who is now a butterfly). Gallaxhar tries to escape in an escape-pod, but fails and is killed by the explosion of his ship.

---

Qin: Boy how stupid is this creep?

Lucy Loud: Probably very stupid.

Nico: My sentiments exactly. But the question is how did he survive the explosion that destroyed his own ship?

Me: There must've been a working escape pod.

Vince: That could be the case.

Lincoln: Either way we have an alien invasion to stop. Lets get them!

Me: You read my mind Lincoln. Team Loud Phoenix Storm, lets smash these aliens!

We were off to a small town in Virginia.

We took the Megaforce Legendary Sky Ship Zord. I was piloting the Osprey Zord, Lincoln was piloting the Teal Condor Zord, Trudy was piloting her Flying Fish Zord, Taylor Earhart was piloting her Yellow Eagle Zord, Lucy Loud was piloting her Vampire Bat Zord, Tommy Oliver was piloting his White Falcon Zord and he hasn't morphed yet, Kimberly Ann Hart was piloting her Pink Crane Zord and she was morphed, Lola was piloting the Firebird Thunderzord, Laney was piloting the Pink Pterodactyl Zord, Nico was piloting the Red Dragon Thunderzord and some of us were flying on the Sky Zord.

Me: Boy it's like we're a powerful squadron of the air.

Nico: It sure does feel like it.

Lola: (Older Voice) But this is so cool that I'm piloting the Firebird Thunderzord.

Kimberly: Thanks Lola.

Lola: You're welcome.

Then we saw a beautiful aqua blue Jellyfish Zord appear beside us and it was generating an incredible amount of electricity to power all the cities of Earth for millions of years.

Me: Whoa! Look at that!

Cole Evans: I've never seen a Jellyfish Zord before.

Lana: Hey guys. What do you think of my new friend? It's the Box Jellyfish Zord.

Syd: Wow! Lana that is so cool!

Me: That's the most venomous jellyfish in the world. 100 times more deadlier than King Cobra venom.

Syd: That is so amazing!

Nico: No kidding.

Me: We're reaching our destination.

We went through some clouds and we saw a huge alien spaceship!

Me: Holy God!

Laney: What a ship.

Me: All wings report in.

Lucy: Lucy Loud standing by.

Nico: Nico Chan standing by.

Taylor Earhart: Taylor Earhart standing by.

Laney: Laney Loud Standing by.

Kimberly: Kimberly Ann Hart standing by.

Trudy: Trudy Bolton standing by.

Lana: Lana Loud standing by.

Tommy Oliver: Tommy Oliver standing by.

Lola: Lola Loud standing by.

Troy Burrows: Troy Burrows and all Power Rangers standing by.

Me: Roger that. All weapons powered up to full power.

We were flying to the ship.

Lola: Wow! Look at the size of that ship.

Nico: It's just as big as what we saw in the movie.

Me: It sure is.

Nico: Accelerate to attack speed!

We were flying fast.

Nico: This is it boys.

Me: Red Leader, this is Gold Leader.

Nico: I copy Gold Leader.

Me: We're gonna attack now. Fire at will!

Laney: You guys watch too much Star Wars.

We fired energy blasts, lightning blasts, lasers, elemental blasts, energy balls and more. We were hitting the ship with a lot of heavy firepower. Inside the ship, an alien was reporting to Gallaxhar.

Alien: Lord Gallaxhar, we're under attack!

Gallaxhar: What!? How is this possible!?

Alien: They didn't show up on radar sir. It was a total ambush!

Gallaxhar: On screen.

The view screen showed us attacking.

Gallaxhar: It's those meddling monsters! And they have Team Loud Phoenix Storm with them!? How!?

We were firing blasts.

Me: My scans show that there's a thermal exhaust port on the bottom of the ship. If we can shoot Proton Torpedoes through it, it will destroy the whole ship.

Nico: Good thinking.

Me: Nico, Lana, Laney, have at it.

Nico: Copy Gold Leader. The exhaust port is marked and locked in.

Nico, Lana and Laney went down a trench and they were going down it fast.

Nico: Switch all power to front deflector screens. Switch all power to front deflector screens.

Laser guns were firing at them.

Nico: How many guns are there do you think Lana?

Lana: I'd say about 20 guns. Some on the surface, some on the towers.

It came closer and it was none other than VYPRA!

Me: It's VYPRA!

Vypra: (Evil Laugh) That's right! And I'm back to destroy you all!

Carter Grayson: But that's impossible! We killed you when we teamed up with the Time Force Rangers!

Me: And I killed you when I destroyed all the demons in the tomb! Along with Queen Bansheera!

Vypra: I got away just as you fired. You will pay for everything you've done!

Qin: Who is she?

Me: That's Vypra. She is Queen Bansheera's 2nd in command.

I revealed her history.

---

Vypra was one of demon servants of Queen Bansheera, during her reign over the humans. After Queen Bansheera was destroyed and left Diabolico in charge, Vypra took of the role raising Queen Bansheera's son Prince Impus, whom she adored, until his mother returned. Vypra and the other were then eventually sealed away by a warlock, until they were freed by nomads wandering in the desert. After Vypra and the demons returned to their liar, the Skull Cavern, Loki explained to her and Diabolico that humans had built a city, Mariner Bay, on the grounds where their palace used to be. Determined to destroy Mariner Bay and rebuild Queen Bansheera's palace, Vypra along with Diabolico and Loki, sent demon monsters to destroy Mariner Bay, but the monsters were destroyed by the Lightspeed Rescue Rangers.

Lightspeed Rescue

Vypra was considered a motherly figure to the young Impus, but after he matured into Olympius she began to look down on him as an immature leader and resented his position of power.

She led several attacks on the Rangers, occasionally using her Vyprari dune buggy. Her favored weapon was a thin saber that could unleash energy disks. She almost never suffered injuries in her battles against the Rangers, but she is not immortal. Her reaction to Carter's threat to shoot her implies that she can be mortally wounded and killed.

After Olympius lost favor with his mother, he discovered that Bansheera was considering promoting Loki and Vypra to second in command. He plotted to eliminate them by having Vilevine bury them alive. Loki and Vypra retaliated by resurrecting Diabolico from the dead to deal with him.

Fed up with her failures, Queen Bansheera told Vypra outright that she would take her life energy as punishment. Fearing for her life, Vypra attempted to flee when Bansheera's power lifted her off the ground. Kicking and screaming, Vypra tried in vain to escape her fate before she was absorbed into Bansheera's body, allowing the Queen to complete her transformation into her final form. In Rise of the Super Demons, Vypra was mentioned when Diabolico lamented over the loss of Loki.

Return

In the Time Force episode, Time for Lightspeed, Vypra returned from the dead with an army of undead soldiers. She was seen digging herself out from a nondescript grave, but no explanation was given as to how she got there or how she managed to resurrect herself after she was absorbed into Bansheera's being. She formed an alliance with the mutant Ransik to obtain an artifact called the Solar Amulet.

With the sun aligned perfectly with the stars, she used the Solar Amulet's dark magic from the Shadow World to revive the Super Demon Quarganon in Silver Hills. However, after a brief battle, she was destroyed by Wesley Collins using a blast from his Red Battle Fire Warrior Battlizer's saber while Quarganon was destroyed by Carter using the Trans-Armor Cycle.

Qin gasped in horror!

Qin: But you can't be here! You died!

# The Unrest of The Pool Corpse

At the estate, William was having the Megaforce Power Rangers train in the Training Grounds.

William: Let Target Practice Begin!

Megaforce Rangers: Legendary Ranger Mode: Space!

The Megaforce Power Rangers turned into the Space Rangers. Troy Burrows turned into the Red Ranger, Noah Carver turned into the Blue Space Ranger, Gia Moran was the Yellow Space Ranger, Jake Halling was the Black Space Ranger, Emma Goodall was the Pink Space Ranger and Orion was the Silver Ranger.

Me: Boy that was so cool how we teamed up with all the Red Rangers like in Forever Red.

Nico: You said it. We should have team ups for each color of the rangers.

Me: That's a great idea Nico. Next will be the Blue Rangers.

Noah Carver: I like that idea.

The Megaforce Rangers as the Space Rangers blasted the targets with their weapons and they hit the dummies all over.

They were reduced to flaming rubble in fiery explosions.

Me: Nice shooting!

?: Good show.

We turned and we saw the Space Rangers friend Auric the Conqueror.

James (to Auric): Are you a friend of the Power Rangers?

James' Carnivine: Carnivine!

Auric: I sure am. I'm Auric the Conqueror.

Me: Wow! I remember you. You are a powerful ally to the Space Rangers.

Rodimus: Why do they call you the Conqueror?

Auric: Because I like to conquer my enemies.

Nico: That's a good way to put it.

We later went back inside and we were having a talk with Auric.

Buzzsaw: Can you really grow to the size of a Megazord?

Auric: I sure can. It's one of my most formidable traits.

Miss Martian: I heard rumors of the Lost Tiki of Auric. But I always thought they were a myth.

Auric: Well you thought wrong M'Gann.

Miss Martian: I know. But it is amazing.

Lola: (Older voice) It sure is.

Me: Lola, how did you know how to use that incredible power during the fight?

Lola: (Sighs) I actually have a secret to tell you.

Lana: What is it Lola?

Lola: I played a lot of World of Warcraft on the computer. But I always play it whenever no one is looking.

Nico: You play World of Warcraft too!? Awesome!

Me: Lola that is so cool!

Lily: I love World of Warcraft!

Me: How far did you get Lola?

Lola: I played all the games from World of Warcraft to World of Warcraft: Battle for Azaroth.

Nico: Wow!

Lori: That is literally impressive!

Lincoln: Who do you think taught her?

Me: You are a great teacher Lincoln. How long did it take you to beat all the games Lola?

Lola: Lets see. It took me 18 days to beat all the games each and there are 7 expansions now. So I beat them in 144 days.

Lisa: That's 4 months, 3 weeks, 1 day, 5 hours, 46 minutes and 39 seconds.

Me: Wow! That is impressive.

Lily: Way to go Lola!

Nico: That is amazing!

Laney: I'm amazed Lola. It usually takes years to beat games like those.

Vince: No kidding.

Carol: It's an awesome achievement.

Nico: I played World of Warcraft myself. But I can't remember where I stopped at.

Me: That's okay Nico. But the scariest part of the whole series was Cataclysm featuring Deathwing the Destroyer. That dragon was cool! But his hatred towards all of Azaroth knew no bounds.

Lana: He was a scary dragon though.

Me: They didn't call him Neltharion the Destroyer for nothing.

Nico: That's true.

Then the alarm went off.

Me: Uh oh.

We went to the computer and we saw that something was terrorizing a local swimming pool at a High School.

Me: This is unusual. Something is terrorizing the swimming pool in Gotham Royal York High School.

Lori: The school is closed for the day.

Nico: Nonetheless, we better get over there.

Me: Right.

We were off to Gotham Royal York High School.

---

## GOTHAM ROYAL YORK HIGH SCHOOL SWIMMING POOL

---

We were at the swimming pool.

Laney: Okay this doesn't add up. I don't see anything.

Nico: Yeah there's nothing here.

Lana: Yeah I don't see anything.

Me: Hmm. Lets see. This better not be a false alarm.

I looked up on my device and saw that the disturbance was at the right location. It was a supernatural disturbance.

Me: Well the location is right.

Maria: Maybe it's in the swimming pool. Horsea, go check would you?

Horsea: Sure.

Horsea went down into the pool and she then saw something terrifyingly gruesome! She saw a dead corpse down at the bottom of the deep end of the pool! She brought it up to the surface and it landed on the floor beside us.

Lola: Oh yuck!

Lisa: GADZOOKS!

Lily: Whoa!

Lucy Loud: Gasp!

Nico: Whoa! What happened to him!

Horsea jumped into Maria's arms.

Horsea: (sees the dead body of Butters Stotch) Maria, I'm scared.

Maria: It's all right Horsea.

We went over and did an autopsy.

Nico: This was a recent kill.

Lola: What happened to him?

Me: This was not accidental drowning. Something in this pool drowned him on purpose.

Maria: Maybe I can find out what it is.

Then we smelled an awful odor.

Nico: (Sniffs) Do you smell that?

Me: Oh yuck! Lori!

Lori: It's not me! And even if it was, it was my shoe!

Lucy Loud: Wait! This is not Lori. This is the source of the supernatural disturbance that was going on.

Me: So whenever it's near, it emits a foul odor that smells like rotten eggs.

Lucy Loud: Exactly.

Lisa: Fascinating.

Maria was now in her swimsuit.

Maria: (in her swimsuit) Come out, come out, wherever you are.

2 kids then arrived. The kids were science lab genius Zeke Matthews and Clorice, local swim team member and science lab partner of Zeke and two very close friends of mine.

Me: Zeke, Clorice.

Zeke: Hey J.D. You here to stop whatever is in the pool?

Me: That's what we found here. But we can't see it.

Zeke: I have a solution. Methyl Orange reacts with anything that's acidic. That's what this thing smells like. It's acid smells like rotten eggs.

Me: Good thinking.

Zeke poured some Methyl Orange into the pool.

Lola: Here we go.

Maria: Wait I see something.

Me: Stand back.

The mass started to take shape and then out of the pool arose a terrifying zombie creature! It was THE CORPSE!

---

It was, is an evil zombie and an angry spirit who preys on anyone who dares to disturbs his eternal sleep. Also, it was invisible and couldn't be seen and can blend in perfectly with water. However it gave off a hint when it's presence was near. Since it was a rotting corpse it reeked like decay and mostly sulphur and acid. When it came close by anyone around, they would smell the acid like odor, if was the most unpleasant foul smell.

Whenever someone was in the pool or sometimes after a certain period of time it would prey on the person swimming and pulled him or her underwater until they drowned and died.

In the 1950's there was an old cemetery next to a high school. To expand the school and build the swimming pool the graveyard was moved and all of the bodies were dug out and moved. However his body was forgotten and remained where he was.

Soon in 1954 the High School swimming pool opened up. One day during the school lifeguard's Charlie Dempster's shift his girlfriend's Cindy's little brother Joe was swimming in the pool. The corpse sensed his presence and came after him and pulled him underwater and drowned him to death. Charlie Dempster tried to save him, but it didn't let him. Also it soon drowned three more people and the pool was drained, closed off from the school and forgotten. The door to the pool house was covered by a row of lockers inside a change room.

Then in 1994, Science geek Zeke Matthews, trying to impress school swim team member Clorice, showed her where the school pool was. Soon with her ambition and determination the pool was reopened. The Corpse soon tried to grab and drown Clorice and her friend Greta but they got out of the pool just in time.

Later when Clorice and Zeke are relaxing and studying chemistry in a raft in the pool, The Corpse came after them and tried to pull them under and drown them too. Then the school janitor who also happened to be Charlie Dempster saved them and pulled them both out in time. Zeke got the idea that if they can see it then they have a better chance to try and stop it.

Since it was part acid, Zeke poured some Methyl Orange into the pool. The chemical reacts with acid turning something acidic red. Soon The Corpse emerged from the water as a hideous and terrifying zombie, that is a partially decomposing, part skeleton and all colored red. Since it was visible now it couldn't hide anymore so it began traveling around through water pipes.

Zeke didn't know how to stop it until Clorice reminded him about his volcano experiment in which you mix mangenite with water t'll explode, since The Corpse was water based. When Clorice swim to the bottom of the pool to retrieve the dropped jar of mangenite, The Corpse almost got her. Zeke jumped in to save her and distract it and then it began to close in on him and almost got him because Zeke was an inexperienced swimmer.

Charlie pulled him out in time, Then Clorice doused it with the mangenite. The Corpse loudly and violently screamed and moaned as it bubbles and oozes and sizzles and smokes and steams and evaporates away into nothing. After that it was never seen or heard from again.

---

Lola: What the!?

Me: Holy fuck!

Lisa: I knew Methyl Orange would flush it out!

Rodimus: So that is the thing that was terrorizing the pool.

Lucy Loud: Gasp! This is the forgotten corpse that was left here when we built this swimming pool.

Zeke: It sure is.

Me: Lets see how it likes this!

I slashed it with my sword. But the blade of the sword couldn't cut it! It was a corpse made entirely of pure water.

Nico: It's a corpse made entirely of pure water!

?: Need some help guys?

We turned and we saw Suigetsu Hozuki and Yagura the former 4th

Mizukage!

Me: Suigetsu, Yagura! Boy are we glad to see you. Lets get this freak!

We powered up and transformed.

Tori Hanson: Let me at him! NINJA STORM! RANGER FORM! HA!

Tori Hanson turned into her Power Ranger form.

Tori Hanson: (Echoing) POWER OF WATER!

Megaforce Rangers: Legendary Ranger Mode: Ninja Storm!

The Megaforce Power Rangers turned into the Ninja Storm Rangers! Tory Burrows was the Red Ninja Storm Ranger, Emma Goodall was the Navy Blue Thunder Storm Ranger, Gia Moran was the Yellow Ninja Storm Ranger, Jake Halling was the Crimson Ranger and Orion was the Green Samurai Ranger. and Noah Carver was the Aqua Ninja Storm Ranger.

Madison Rocca: Time for some Mystic Force power! MAGICAL SOURCE! MYSTIC FORCE!

Madison Rocca turned into the Blue Mystic Ranger!

Madison Rocca: FLUID AS THE SEA! BLUE MYSTIC RANGER!

We went at the corpse and I punched him in the face and my fist went right through him!

Me: Conventional methods won't work!

Lana: We'll have to use our powers on him!

Me: Lets do it!

I fired a powerful blast of Force Lightning at the Corpse and it electrocuted him and he screamed.

Lincoln fired a powerful blast of lightning and so did Linka. We electrocuted the Corpse all over.

Nico: This corpse has failed this world!

Troy Burrows. It sure has.

Troy fired a powerful blast of fire from his Hawk Blaster, Tori and Gia fired powerful blasts of water and Earth from their swords and slashed the corpse. Cutting it. Emma Goodall and Gia and Orion slashed and blasted the Corpse all over and Jake slashed him as well. Noah Carver fired a blast of blue lightning at the Corpse and electrocuted it.

Suigetsu: Let me help out. (ECHOING) WATER STYLE: WATER DRAGON JUTSU!

Suigetsu fired a powerful Water Dragon made of pure water at the corpse and it hit it and exploded.

KRABBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOMM

Me: Lets see him survive this! (ECHOING) WATER STYLE NINJA ART: MEGATSUNAMI PLESIO CRUSH!

This was a powerful U-Rank Jutsu that takes a lot of water from one source and turns it into a powerful Plesiosaurus made entirely of pure water and crushes the target with the devastating force of a megatsunami. It took all the water out of the pool and turned into a deadly giant plesiosaur made of pure water and it slammed onto the Corpse with devastating force and splashed all over the place with the power of a massive 1000 foot wave! The water flowed back into the pool. But the corpse was not defeated yet.

Nico: Wow! That was powerful!

Lincoln: It sure was.

Madison Rocca: It was amazing though.

We went over and stood on the water and on the edges of the pool.

Me: Lets show this freak some teamwork!

Suigetsu: You got it J.D.!

Madison Rocca: Lets do it!

Suigetsu: (Echoing) WATER STYLE: SUPER SHARK BOMB JUTSU!

Suigetsu fired a powerful blast of water that turned into a deadly giant shark that explodes on contact.

Madison Rocca: MAGI STAFF! WATER POWER!

Madison Rocca fired a powerful blast of water at him.

Suigetsu and Madison Rocca: SUPERSHARK TSUNAMI STRIKE!

The water blasts combined and turned into a massive Tsunami of Super Shark Bombs and they all hit the Corpse and exploded with incredible power.

KRASSSSSPPPPPLLAAAAAAAAAAAAAAAAAAAASSSSSSSSSSSSSSS

Yagura: Awesome!

Nico: That was awesome!

Me: It sure was.

Yagura: Time to show this monster what the Mizukage can do.

Yagura was enveloped in a red Three-Tailed Chakra Cloak and its power was intense.

Me: Whoa! So that is the power of the Jinchuriki. It's power is incredible.

Yagura's red chakra cloak with all three of the 3-Tailed Turtle's tails and he had its yellow eyes with red sclera and his teeth were fangs.

Me: Wow! Yagura your power is incredible!

Yagura: It's the power of me and Isobu working together.

Nico: Wow! So you and Isobu are now partners.

Yagura: That's right. And best friends.

Me: I'm happy for you both Yagura. Go get him!

Yagura: With pleasure.

Tori Hanson: Lets get him!

Tori Hanson fired a powerful blast of water.

Yagura: (Echoing) ROUGH SEA SPUME!

Yagura fired a massive blast of water from his mouth.

Yagura and Tori Hanson: MEGATSUNAMI SUPERSLAM SPUME!

The blasts both hit the corpse at the same time and exploded.

KRASSSSSSSPPPPPPPPLAAAAAAAAAAAAAAAAAAAAAASSSSSS

Nico: Whoa! What power!

Oceanus Shenron: That was wicked intense.

Lily: It sure was.

Rodimus: Time for some serious power! CYBER KEY POWER!

The Autobot Cyber Planet Key went into Rodimus's back and enhanced his photon lasers 100-fold.

Miss Martian: You terrorized our swimming pools for the last time! MARS CYBER KEY POWER!

The Mars Cyber Planet Key went into Miss Martian's right arm device and enhanced her powers 100 fold.

Rodimus and Miss Martian: PHOTON LASER RAYBURST!

Rodimus and Miss Martian fired laser vision and photon blasts and they hit the corpse and exploded.

KRABBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOO

Carol: Lets see how it likes this. Saw it on Godzilla VS Biollante from 1988.

Carol fired a powerful blast of Godzilla's atomic ray and it hit the Corpse and it exploded all over him.

KRABBBBBOOOOOOOOOOOOOOOOOOOOOOOOOOMMMM!

Me: Whoa! It sure as hell doesn't like atomic energy.

Buzzsaw: No it doesn't. CYBER KEY POWER!

The Decepticon Cyber Planet Key went into Buzzsaw's back and it enhanced his Mortar Cannons 100-fold.

James (Pokemon): Lets see you handle some plant power! ANIMATRON CYBER KEY POWER!

The Animatron Cyber Planet Key went into his Right Arm Device and enhanced his Carnivine's powers 100-fold.

James (Pokemon): Carnivine, use Leaf Tornado!

Buzzsaw and James: EXPLOSIVE LEAF CYCLONE BLAST!

Carnivine fired a powerful tornado of Leaves and Buzzsaw fired his mortar cannons. The blasts hit him all at once and exploded.

KRABBBBOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOOMMMMM!

Me: Lets finish this freak for good and send him to the afterlife!

Maria: Way ahead of you J.D.! FEROCIOUS WATER MAELSTROM DRAGON!

Maria formed a powerful tornado of pure water and it turned into a deadly dragon and it slammed into the corpse and exploded with a tremendous splash.

KRAAASSSSSSSPPPPPPPPPPPLLLLLLLLLLAAAAAAAAAAAAAAAAAA

Lisa: It's time to dissolve this monster of H2O! ARAL SEA DOUGHT DRYBEAM!

Lisa fired a powerful beam of heat at the Corpse and it was screaming as it was being dried up.

Clorice put on some protective gloves.

Clorice: This is for terrorizing our swimming pool. MAGNETITE DISSOLVE DUST!

Clorice dumped Magnetite powder onto the Corpse and it was dissolving into nothing.

Clorice: You'll never haunt another pool again!

It was gone for good.

Me: Good riddance to that corpse.

Lincoln: Yep. But that was awesome!

Nico: It sure was.

Clorice: I remember that when the school was built, there was a cemetery here over 50 years ago. They forgot one of the bodies here.

Lucy Loud: Then that must've been the body they left behind.

Me: Danny, you think you can go ghost and bring that coffin up here?

Danny: I sure can. I'm going Ghost!

Danny turned into Danny Phantom! He went Intangible and went underground and he found the coffin that the corpse was in. He brought the coffin up and put it on the floor near the pool.

Me: Good work Danny.

We dusted the Coffin off and we saw a name on it.

Me: There's a name on here. "Nicholas McTennso. December 16th, 1884 to June 22nd 1958."

Jessie gasped when she heard that name.

Jessie K.: Oh no!

Lucy Loud: Gasp! That is a name widely feared here in Michigan.

Jessie K.: He sure was Lucy.

Suigetsu: Boy this guy sounded like he was really bad news.

Jessie K.: He sure was. He was a ruthless gangster that lived here in Michigan. He was widely known for killing hundreds of people here back in the 1940's and 50's.

Lincoln: Whoa! That's awful!

Lynn: Never knew about him.

Me: I heard about him. He was said to have robbed lots of banks all over the state. He was the most feared gangster next to Al Capone.

Jessie K.: He was. But when the feds were closing in on him, he fell off a bridge and drowned. They found his body and buried him in an unmarked grave.

Me: And that unmarked grave was the one body they forgot about here which lead him to come back from beyond the grave to continue his killing spree.

Maria: So not even Hell was willing to accept him.

Nico: Well now he's there and this time we've now seen the last of him.

Me: Yep.

We opened the coffin and it was totally empty.

Me: This coffin is empty!

Laney: That WAS his corpse we were fighting.

Maria: Whoa! So we were fighting an old gangster from the late 50s.

Nico: Yeah!

Clorice: I never even knew about this.

Zeke: Me neither.

Me: But now we've seen the last of the evil Nicholas McTennso.

Nico: We sure have. He has failed this country and this planet.

Maria: He sure has.

We later went back to the estate. We gave the coffin back to the undertaker at a local funeral home.

---

At the estate we were watching TV.

Alchemy: Hey J.D., I heard that you guys stopped an evil serial killer from Estonia named Leena Klammer.

Me: Oh yeah. That was one of our most dastardly villains we took down. And she had a dark history.

I pulled up her profile.

---

In the final film, according to Dr. Värava from the Saarne Institute, an Estonian mental institution, she is a serial killer who has already murdered at least 7 people that they know of. For this, she was later caught and placed in the Saarne Institute. She was one of the wildest and violent patients, who would always hurt the staff employees. These behaviors eventually resulted in her being put in a straitjacket; she would constantly get out of them due to her fighting and resisting, but developed several scars as a result. After this, she escaped and used her child-like body to pretend to be a child named Esther, where she forged documents and created a new identity. Because of this, she is never found and is later adopted by the Sullivans, an American family. She tried to seduce her adopted father, but failed. She killed everyone and burned the house down, feigning that it was an accident. Following this, she was sent to a nearby American orphanage, where she did not get along well with the other children. Despite this, nobody suspected her true identity, as Leena had prosthetic false teeth made and wore makeup to help her look younger than she really was. She makes a good impression on another family,

Orphan

After living with her new adopted family for several weeks, Kate grows suspicious when Esther expresses far more knowledge of sex than would be expected for a child of her age. Esther further antagonizes Kate by cutting flowers planted as a memorial to her stillborn child, casually reveals when another woman is flirting with John (given that he previously had an affair), and reads intimate details from Kate's diary. She is further alarmed when Sister Abigail, the head of the orphanage, warns her and John about Esther's tendency to be around when things go wrong. Esther overhears this and later kills Sister Abigail by bludgeoning her to death with a hammer. She convinces Max to help her with this and they hide all pieces of evidence in their treehouse.

A few days later at school, she opens Daniel's backpack causing his books to fall out when he's walking up the stairs. Kate gets out of the car to help him but leaves it running. Esther comes back to the car puts the gear selector in Neutral and takes off the parking brake, causing the car to roll down the hill with Max still inside.

Daniel decides to retrieve the hammer (which was used to kill Sister Abigail) to prove Esther's guilt. However, when he announces his plans to Max, it is overheard by Esther. The next day, Daniel goes to the treehouse and finds it unlocked. He enters the treehouse and searches for the hammer, but finds nothing. Esther appears behind him and sets the treehouse ablaze before Daniel does anything. She leaves the now-on-fire treehouse and locks Daniel inside, in an attempt to kill him. Daniel climbs out from the treehouse through the window and tries to escape the fire, only ends up falling to the ground, injured and unconscious. Esther tries to kill him with a brick, but Max shoves her out of the way. Daniel is hospitalized because of the neck injury and abdominal bleeding. Esther unsuccessfully tries to kill Daniel at the hospital, but doctors save him. Kate, knowing what happened, furiously slaps Esther and knocks her down, and is immediately subdued and sedated.

Esther tries to seduce a drunken John, who finally realizes Kate is telling the truth, and threatens to send her back to the orphanage. Esther, angry and hurt, ransacks her room and takes off her clothing/makeup, unwraps her breasts, and removes the ribbons around her neck and wrists. Meanwhile, as Kate is coming out of sedation, she receives a call on her cell phone from the Saarne Institute. Dr. Värava, who works at the Institute, reveals that Esther is actually a 33-year-old woman from Estonia named Leena Klammer. She has hypopituitarism, a disorder that stunted her physical growth and caused dwarfism, and, as a result, she spent most of her life posing as a little girl. The doctor tells Kate that Leena is dangerous and especially violent.

At home, Esther, who is hurt from being scolded, kills John. Max witnesses her father being stabbed by Leena/Esther and hides in a hamper in her closet. Kate rushes home, only to find John dead. Leena gets a revolver from John's safe, shoots Kate on the arm and hunts Kate down before she goes to search for Max. While firing at Max in their greenhouse, Kate manages to break through from above Leena/Esther and knocks her out.

Leena later follows Kate outside to a frozen pond and lunges at Kate, where they fall and struggle onto the ice as Max watches from a hill above the pond. Max maneuvers herself to grab the gun that was dropped by Kate during the struggle. She fires at Leena/Esther but hits the ice instead, which breaks, causing Kate and Leena/Esther to drop into the water below.

After a brief struggle under the ice, during which Kate is stabbed in the leg and Leena/Esther is elbowed in the face, Kate climbs out partially, followed by Leena/Esther, begging Kate not to let her die, addresses her as "Mommy" while holding a knife behind her back. Kate then furiously responds, "I'm not your fucking mommy!" and kicks Leena/Esther in her face, breaking her neck, sending her back into the pond, dead, with blood rushing through the water, while Max and Kate are met by the police moments after.

Qin gasped.

Qin: Boy she was really screwed up!

Me: She was. She got 334 life sentences without parole in the triple supermax psychiatric unit in Antarctica and if she escapes, she will be killed on sight.

Qin: Good. She can stay there and burn.

Me: But she wasn't nearly as bad as Norman Bates.

Qin: The Serial Killer hotel clerk from Psycho?

Me: That's him and he was really fucked up to the core.

I revealed what his history was.

---

Norman Bates was born in August 1934 just outside of Fairvale, California, to John Bates and Norma Spool. Norma was a manipulative and controlling woman who did not allow Norman to have a social life. She was deeply religious and paranoid, possibly suffering from a severe form of schizophrenia. Norma indoctrinated her son and taught him sexuality was a sin and that all women, besides herself, were whores. In 1940, when Norman was 6 years old, his father was stung to death by bees. In Psycho II and III, Norma's sister Emma Spool killed him, while in the original novel, John simply left the family when Norman was a baby.

Following his death, Norma began to practice sadistic control over her son, and on several occasions throughout his puberty sexually aroused him on purpose, only to punish and humiliate him afterward by dressing him as a woman and calling him a girl. As a result of Norma's overbearing control and obscene sexual smothering, Norman developed an extreme Oedipus Complex. Later in his adult life, Norman confessed to having had full sexual intercourse with Norma when he was a teenager, with one particular instance resulting in her becoming pregnant. Norma became repulsed by the idea that she was carrying the child, and conducted an abortion. In the novel, it's stated Norman tried to join the army once, but was rejected.

In 1949, Norma became romantically involved with Chet Rudolph (Joe Considine in the novel) whom she would eventually marry. It would be Chet who would give her the idea of opening a motel. Around this time Norman had a heated argument with her whilst hanging some washing, during which she called him a mistake and expressed extreme hatred towards him. Her new husband was crude, egotistical, chauvinistic and repeatedly teased Norman over his relationship with Norma-even beating the boy during one of their boxing lessons. Chet would repeatedly allude to his sex life with Norma in conversation. Over time Norman became extremely jealous of Chet, and on a summer night Norman poisoned Norma and Chet's ice tea with arsenic, killing them both. Chet did not go down easily and ended up attacking Norman whilst in the throes of agonizing arsenic poisoning, eventually succumbing to the toxin and falling down the stairs to his death. After both Chet and Norma had died, he dragged Norma's corpse to the basement and embalmed it.

As Norman matured into a young adult, he began to emulate Norma, believing himself on occasion to be her, even going so far as wearing her clothes and a wig. He would sometimes sit in her chair and speak in her voice, doing anything to convince himself that she was still alive.

Unlike in the film version, where Norman is depicted as handsome, tall, and in his 20s, he was presented in the novel as a short, overweight alcoholic in his 40s. Hitchcock changed this to make the character more sympathetic, as well as to make the twist more unpredictable. He was also shown in the novel to have an interest in the occult as well as satanism.

During this period, he took over ownership of the Bates Motel. Norman had several unsuccessful sexual encounters with women as a young man, with at least two known to have resulted in murder after they aroused him. One of his early victims, a teenager called Holly, snuck into his house and accidentally wandered into his mother's bedroom, where she found Norma's mummified corpse lying on the bed. Recoiling in horror, she was soon stabbed to death by Norman, who was hiding in the closet dressed in women's clothing and a wig. Norman would later strangle and drown another teenage girl under similar circumstances.

The "Mother" personality in his head eventually would become so overbearing as to consume him completely, taking over his body and committing terrible acts of violence and murder. When the Mother persona subsided, normally after committing a murder, Norman would remember very little of the act of killing, and become highly distressed and remorseful, sometimes even baffled as to where evidence such as blood and torn clothing came from. Mother is cold, calculated and panther-like, however when Norman is caught off guard and still "himself," he is clumsy, stammering and very panicked.

## Adult Life & First Killing Spree: Psycho

25 years later in December 1959, realty clerk Marion Crane fled Phoenix, Arizona, having stolen $40,000 worth of her employer's money, and stopped off at the Bates Motel for a night. She had stolen the money to help pay off large debts accrued by her lover Sam Loomis, with whom she was having an affair. It was a stormy night, and Norman allowed Marion to stay in Cabin 1 at the motel. Norman found he was attracted to young Marion, and after watching her shower through a small hole he had drilled in the cabin wall, donned Norma's clothing, stormed into the bathroom, and stabbed her to death in the bathtub with a large kitchen knife. Wrapping up her body in a shower curtain, he would later stuff it into the trunk of Marion's car, and push the vehicle into a nearby swamp. Shortly after Marion's murder, her absence is reported to the police by her sister Lila and a detective named Arbogast locates the Bates Motel and questions Norman about Marion. He lies to Arbogast and denies ever having met her nor giving her lodgings. Arbogast is not convinced by Norman's story and later breaks into the Bates house in search of clues, where he is murdered by Norman, once again dressed as a woman. Lila, and indeed Marion's lover Sam Loomis, soon become concerned when Arbogast fails to report back to them, and head to Fairvale where they visit the local Sheriff, who had spoken to Arbogast just prior to his disappearance.

The Sheriff tells Lila and Sam that he was puzzled by Arbogast, who said he had intended to visit Norma Bates at some point during the investigation, despite the knowledge that she had been dead for some time. Sam and Lila rent a room from Norman and find evidence in Cabin 1 confirming that Marion had been there. Sam decides to enter the Bates house, where he is subdued, but not killed, by Norman. Lila in the meantime sneaks into the basement and finds Norma's desiccated corpse sat in a rocking chair. Dressed in women's clothing, Norman appears in the basement and attacks Lila, but is prevented from killing her by Sam who comes to the rescue.

Norman is arrested and incarcerated in a mental institution, where he would remain for 22 years. A psychiatrist declares Norman insane, and apparently completely dominated by the Mother personality of his psyche. Police later discover Marion's car under water and drag it from the swamp.

## Release From Prison & Second Killing Spree: Psycho II

Norman's fate differs between the book Psycho II and it's film adaption. The novel sequel acted as a parody of Hollywood slasher films. In it, Norman escapes from the asylum after remaining there for 20 years by strangling a nun to death with her rosary beeds and using her outfit as a disguise. He then gets into a van with another visiting nun, kills her by hitting her with a tire iron, and rapes her corpse. He steals her car, drives off and picks up a hitchhiker with the intent of killing him and using his body to fake his death. He attacks the hitchhiker but the hitchhiker overpowers him and kills him, burning the car to hide any evidence. After Norman's body was discovered by his doctor, Adam Claiborne, he assumes Norman's personality and starts a killing spree on a film production of the original Psycho killings. The producers of the film version did not like the idea and chose to go in their own direction with the sequels.

In the film sequel, after a lengthy court hearing, Norman was released from custody in 1983 after 24 years. Despite protests from relatives of his victims, including Lila Crane, a judge rules Norman to be rehabilitated and orders his release. Accompanied by his psychiatrist Dr. Bill Raymond, Norman returns to his family home which he finds is just how he left it. The motel is still open, being run by the slobbish and obtuse Warren Toomey. Norman gets a job at a local diner run by the kindly Emma Spool and gets to work in the kitchen preparing meals. He is met with distrust by many but is generally accepted by Mrs. Spool and the head chef. He becomes friendly with the waitress Mary Samuels, a girl in her late teens whom he allows to stay at the motel one night after an argument with her boyfriend. Upon arrival back at the motel with Mary, Norman discovers that Toomey has been allowing prostitutes and drug users on the premises, and dismisses him on the spot. He tells Mary to go up to the house while he deals with Toomey. Despite her reluctance, she goes anyway. Back at the house, Norman prepares a sandwich for Mary but becomes unnerved when he finds a kitchen knife in a drawer. Sensing Norman's unease, Mary becomes uncomfortable and decides to leave. Norman reveals to Mary that he is lonely and would appreciate her company if she stays, and makes light of the fact that he killed his mother by poisoning her all those years ago. Mary laughs along nervously, and eventually stays the night in the spare room.

The next morning, a drunken Toomey picks a fight with Norman whilst he is working in the kitchen, and later follows him back to the motel, where a dark figure slashes his face and then kills him. Meanwhile, Norman starts getting bizarre phone calls from a woman claiming to be his mother and ends up seeing the specter of her looking out of the bedroom window one day. He runs up to the bedroom, where he finds that it is furnished how it used to be two decades ago. Moments later, somebody locks him inside. A short while later, a teenage couple break into the basement to have sex and are disturbed by a dark figure in women's clothing. The male is murdered, however, the female manages to escape. After a suspicious note is found in the diner kitchen, allegedly from mother, Norman starts to believe that he is slipping back into insanity. Meanwhile, Lila Crane arrives in Fairvale and it is revealed that Mary is Lila's daughter. She chastises Mary for her friendship with Norman, and in a private conversation between the two, it is revealed that Lila had been toying with Norman, making the phone calls, dressing up as his mother and even went as far as furnishing Norma's bedroom in an attempt to drive Norman to the edge again. Mary is revealed to have been complicit in this, but shows regret at being involved, much to Lila's annoyance. Lila then becomes focused on the alleged death of the teenage boy at Norman's house, after hearing of the missing person report filed by his terrified girlfriend. Sheriff Hunt refuses to investigate apparent connection to

Norman due to the lack of evidence, adding to Lila's dismay. Despite Lila's apparent complicity, the strange goings-on continue at the Bates house, with the line between reality and insanity becoming increasingly blurred when Lila is herself murdered by a dark figure whilst in the process of donning her Norma outfit.

Mary is present when the police discover Toomey's body stuffed into the trunk of his car, and runs to warn Norman that the police are on the way to arrest him as a suspect. She finds Norman having a psychotic episode at the house; he is on the phone talking to his psychiatrist, yet believes he is talking to Norma. Mary is fearful that he may be spiraling back into madness, so she dons Norma's clothes and pretends to be her in an attempt to have him snap out of it. Whilst talking to Norman on another house phone, she is surprised by Dr. Raymond, and accidentally stabs and kills him. Norman meanwhile can no longer cope and fails to distinguish between what is real and what is not. Mary ultimately becomes the one and only suspect in the killings, when she is caught red-handed by the police whilst appearing to intend to stab Norman. She is shot dead, and the case is closed with her named as the murderer. Norman's involvement remained unsolved, as he was never able to differentiate between reality and his visual and auditory hallucinations. He is allowed to return home by the authorities since he was innocent.

## Learning the Truth

Sometime after Mary's death at the hands of the police, Norman's former boss Emma Spool paid him a visit and confessed to him that she was his real mother, with Norma having been actually his aunt who looked after him whilst she was institutionalized. Norman was too young to remember the transition and had always assumed Norma was his mother. Emma had been the true killer, having murdered Toomey, Lila and the young boy who entered the basement, trying to protect Norman from any harm. As Emma sat and explained everything to him, Norman murdered her by hitting her with a shovel and took her body upstairs to embalm it, creating a new mother effigy for himself. He then opened the motel with "Mother" sitting in her chair watching him from the window of her room.

## Third Killing Spree & Second Incarceration: Psycho III

Approximately one month after killing Emma Spool, Norman encountered and became infatuated with, defrocked nun Maureen Coyle, who had fled her convent after having accidentally killed a fellow nun whilst trying to take her own life. Around the same time, Norman employed aspiring musician Duane Duke as a desk clerk at the motel, without realizing that Duke and Coyle had met some days before on the highway, and Duke had tried to rape her. Norman gives Coyle an extended stay for no fee in Cabin 1 but becomes increasingly unnerved at her resemblance to Marion Crane, especially when he realizes they share the same initials. After watching her shower through the spy hole in the wall, Norman assumes his Mother disguise and attempts to kill her. However, upon arriving in the bathroom, he finds that Maureen has run herself a bath and attempted suicide by cutting her wrists. As she fades into unconsciousness, she sees Norman's disguise but does not stay awake long enough to realize it is him. Instead, she has a hallucination of her own, seeing Norman as the Virgin Mary.

Norman snaps out of his persona and takes Maureen to the hospital for treatment. Meanwhile, a pushy reporter, Tracy Venable, arrives in Fairvale to investigate the disappearance of Emma Spool, convinced, as Lila Crane was similarly convinced, that Norman had killed her and is still a threat to society. Sheriff Hunt tells her to back off and leave him alone, but she persists in her harassment of him, eventually telling Maureen about Norman's past causing her to leave the motel in fear. With Maureen gone, Norman murders two guests overnight, one of which had just had sex with hired hand Duane Duke. After disposing of their bodies, the police searched the area but find nothing as Norman returns to find Spool's corpse missing. He soon finds Duke with the body, who tries to extort money out of Norman in exchange for keeping quiet. Norman sees through this with him and Duke entering a violent fight, resulting in Duke being subdued and thrown into Norman's car. Duke wakes up on the journey out of town, startling Norman causing him to lose control of the vehicle and plow into a swamp, where Duke eventually drowns.

Meanwhile, Maureen has realized her affections for Norman and comes back to Fairvale, where she and Norman share a tender moment on the staircase but "Mother" unexpectedly calls out to Norman, startling him, which accidentally causes him to knock Maureen down the stairs to her death as Tracy, who had found her way in, stands by watching in horror.

Norman tries to kill Tracy but she reveals a little more to Norman about his past, and of Spool's role in his life, contradicting some of what Spool told him before he killed her. Spool was in love with his father John Bates, even though he was married to Norma, and one day killed him and kidnapped Norman out of spite. Norman was eventually returned to his mother, while Spool was institutionalized for severe mental health issues. Spool, as it would transpire, was not his mother but his aunt. In retribution for her lies, Norman ravages Spool's corpse with a knife. Sheriff Hunt finds Norman dressed in his disguise, knife in hand, completely delirious. He arrests him where he is taken for evaluation, and incarcerated once again. As he is taken away, Norman proclaims he is "Free" implying that he is now released from his mother's influence.

The Fran Ambrose Talk Show Incident: Psycho IV: The Beginning

31 years later in 1990, radio talk show host Fran Ambrose hosted a night time special on matricide, inviting along various guests to the studio including a rehabilitated murderer and a psychiatrist, Dr. Leo Richmond, to discuss the topic. Members of the public were invited to call in and talk freely about matricide. One particular caller, a gentleman identifying himself only as "Ed" called in the early hours to talk about his violent past, and apparent sexual relationship with his abusive mother. Through an extensive conversation with Ed, Ambrose learned of a number of Ed's victims throughout the decades, and at various moments endured another persona as they spoke. Dr. Richmond knew enough of Ed's stories to convince himself that this was actually Norman Bates, who had not long been released from custody for a second time. Richmond demanded that Bates' calls are traced and the police informed, but Ambrose refuses and encourages the show to go on.

Norman, or Ed as they know him, was married to a lady called Connie, and they were expecting a child together. He told Ambrose that Mother still bubbled close to the surface from time to time, and was telling him that the child would be just like him, a killer. As he talked, Norman inadvertently gave away his identity as he admits that considered killing Connie and the unborn child to stop the Bates bloodline, but had so far managed to control himself. He soon ends the call as his temptation to perform the act gets to him.

Norman ultimately gives in to Mother and tells Connie to meet him at the old Bates house as his birthday present while he is really going to kill her. However, Connie manages to talk Norman down, convincing him that their child will be normal. In one last act of defiance, Norman has Connie wait for him outside as he torches the Bates house as he does so, he recalls all the victims he killed over the years being haunted by the guilt before he narrowly escapes the house and leaves it to burn. Reuniting with his wife, Norman proclaims to her "I'm free." before he leaves the charred site of his unhappiness. Mother's chair rocks and the doors to the cellars close as her voice is heard inside stating "Let me out of here! Norman! You hear me boy?! Let me out!" The cries of a baby are then heard signifying the birth of Norman's child and his release of his mother's influence.

Qin and Alchemy gasped in horror.

Qin: He's a monster!

Me: Yeah. Norman Bates is one fucked up son of a bitch. He is extremely insane. But here's what happened when we revealed our findings at the Bates Motel.

I pulled up the video footage of the Press Conference we had after investigating the killing spree at the Bates Motel in Arizona during the events of Worse Than A Psycho.

---

Me: Good afternoon everyone. I'm sorry for interrupting your everyday activities. As you all know, Norman Bates the psychotic serial killer responsible for the murders of 8 people in the Bates Motel in Arizona was sent to a maximum Security Insane Asylum. Me and my friends here along with the Arizona State Detectives have just recently confirmed that Norman Bates has killed an additional 1,212 people. Here's the pictures of all the people killed with the help of my friend Lucy Loud and Forensic Anthropology. Lucy has already identified all of them with her powers. Here's a list of all their names and where they were from.

A list was shown and it had their names and where they were from. Norman Bates now had numerous charges of murder added to his rap sheet. His trial was a long one and was broadcasted around the world. He was found guilty on all charges and he received 1,220 Life Sentences Without Parole plus 12,753,812 years in prison. But because his case was so high profile, he was to serve his sentence in the Lake Vostok, Antarctica Triple Supermax Secure Psychiatric Prison Unit. In the end I cursed him with immortality so he can live in the prison for all eternity. He was also placed on 24/7 guard and monitoring.

---

Qin: Whoa! He killed that many people!?

Alchemy: He was a monster!

Me: Really FUCKED UP monster in capital letters. He should've faced the chair, but he was declared incompetent to be executed. So in the end we cursed him with a fate worse than death. Eternal Life until his sentence ends. He was given 1,220 Life Terms plus 12,753,812 years without parole in the Antarctica Prison Triple Max Psychiatric Prison Unit.

Nico: I heard about that. That was awful that he did all that.

Me: It was.

Laney: We found out that he has a disease called Dissociative Identity Disorder. He has more than one personality in his body.

Mike (Total Drama): He was in every way like me. But I had 6 personalities where he had 2.

Me: That's true Mike.

Maria: It sure is. How are you and Zoey doing?

Mike (Total Drama): We're doing great! We decided that we're gonna get married on the final episode of Total Drama.

Me: That's awesome Mike! That's only 5 months away.

Nico: And that's when we're gonna bring Billy McLean in and kick his sorry butt.

Me: You said it Nico.

Maria: (To the viewers) If you ever build a pool over a graveyard, make sure that ALL the bodies are taken away.

Me: You got that right Maria.

# An Apocalyptic World of Dragons

At the Venus Prison we were there to visit Johnny Test's bully, Bumper. He was serving a life sentence plus 92 years for being a terrible bully. Bullying people was now a federal offense punishable by Life In Prison without the Possibility of Parole. Bumper was all bruised and battered and he was in the Prison Hospital resting after taking a terrible beating he received in the prison cafeteria.

Beekeeper: Resting comfortably, Bumper? Despite the beatings you took in that cafeteria prison riot a few hours ago, the medical staff assures me that you'll make a rapid recovery.

Bumper: Hopefully, every second of recovery is swift just like the pain.

Beekeeper: And how swiftly things change; to think that a long time ago, it was you who sent me to jail before. But our positions won't be reversed again.

Me: Well it could've been worse. You could've been beaten up by the Kanker's.

G1 Chop Shop: And to think that Bumper actually helped you guys out against Wacko before.

Bumper: True.

Me: By the way Bumper, did you become a bully because of abuse?

Bumper: Yes I did. My father was a drunk and raging alcoholic. He was arrested for several crimes. But the worst he was arrested for was murder. He got the chair for it.

Me: Oh man. I'm sorry that happened to you.

Nico: Your father has failed this world.

Me: He sure has.

Later we went back to the estate.

---

At the estate in Nicole and Lisa's laboratory, Susan & Mary Test were working on something that will revolutionize the way we grow food of gigantic size.

Pipes came in.

Pipes (to the Test Sisters): Have you two made any good inventions lately?

Susan Test: These are our special Seed Pills.

Susan showed them a special set of capsule pills. They looked like ordinary supplement capsule pills.

Mary Test: What they do is they grow giant food in the ground when you water them.

Pipes: This I got to see.

They went over to a dirt pot.

Mary Test: Pick a good one.

Pipes: Lets see. How about peaches?

Susan Test: Peaches it is.

Susan Test put the peaches pill in the dirt and covered it. Mary added the water and a peach tree grew almost instantly in 4 seconds and out popped a bunch of peaches that were the size of basketballs!

Lisa: Success!

Nicole: It works!

Susan Test: It sure does.

Nicole: These new seed pills are the perfect tool to end world hunger!

Susan & Mary: We are such geniuses.

Pipes: You sure are.

Lisa: We all are geniuses.

Nicole: We sure are.

In the living room we were gonna play video games.

Cornelia: Now that Swamp Brain's defeated, how about we play Smash Badger for real?

Johnny Test: You're on Cornelia.

They started playing Smash Badger. This time without Dr. Swamp Brain.

Kevin Levin: I have to admit. Without the characters coming alive in the real world, this game is actually fun to play.

Dukey: It sure is.

Suddenly the alarm went off.

Me: Uh oh.

We went to the computer.

Computer: J.D., my sensors are showing that an alternate version of Earth located 72,340 light-years from this one in grave peril.

Me: Uh oh! Computer what is causing that? Do you know?

Computer: Dragons. That version of Earth has been taken over and ravaged by dragons. 99% of the plants Human Population has been completely incinerated.

We gasped.

Me: We've got to get over there and fast! Lisa, deploy the U.S.S.

Valorous Phoenix!

Lisa: Affirmative.

We were off.

---

In space we were off to the Alternate Earth.

Me: Captain's Log, Stardate 2761.8: The U.S.S. Valorous Phoenix is en route to an alternate planet Earth being terrorized by dragons and destroying everything. Our mission is to rescue everyone that has survived this apocalyptic nightmare and make these dragons pay for destroying our home. We're gonna fight dragon with dragon.

Lincoln: I wonder what went down on that Earth?

Me: We'll find out when we get there.

Laney: Dragons are amazing creatures.

Nico: They sure are.

Vince: But not all dragons are amazing. For centuries Dragons have been viewed as savage, ruthless, bloodthirsty, fire-breathing monsters.

Me: And one of the most terrifying creatures of legend and myth dating back to the ancient Biblical Times.

I revealed all about dragons.

---

A dragon is a large, serpent-like legendary creature that appears in the folklore of many cultures around the world. Beliefs about dragons vary drastically by region, but dragons in western cultures since the High Middle Ages have often been depicted as winged, horned, four-legged, and capable of breathing fire. Dragons in eastern cultures are usually depicted as wingless, four-legged, serpentine creatures with above-average intelligence.

The earliest attested dragons resemble giant snakes. Dragon-like creatures are first described in the mythologies of the ancient Near East and appear in ancient Mesopotamian art and literature. Stories about storm-gods slaying giant serpents occur throughout nearly all Indo-European and Near Eastern mythologies. Famous prototypical dragons include the mušḫuššu of ancient Mesopotamia; Apep in Egyptian mythology; Vṛtra in the Rigveda; the Leviathan in the Hebrew Bible; Python, Ladon, Wyvern, and the Lernaean Hydra in Greek mythology; Jörmungandr, Níðhöggr, and Fafnir in Norse mythology; and the dragon from Beowulf.
